Ferry Fast in Ice With 33 On Board

LITTLE PROSPECT OF FREEING BOAT HELD IN CHANNEL

Vessel From St. Ignace Frozen in When Three Miles Out of Mackinac City.

PLENTY OF FOOD ABOARD.

Train Service Into Michigan Sault Disrupted By Imprisonment.

SAULT STE. MARIE, Ont., February 11 (C.P.). — With a Duluth, South Shore and Atlantic Railway train carrying 33 people, several from Sault Ste. Marie, Ont., and several from Sault Ste. Marie, Mich., aboard, the car ferry at the Straits of Mackinac has been fast in the ice since around eight o'clock last night, and reports received here state that there is no prospect of freeing her.

The ferry, south-bound, left St. Ignace at 7.30 last night and became locked in the ice three miles from Mackinac City. There is plenty of food aboard, reports this morning say, and the passengers on the train will suffer little or no inconvenience outside of their temporary holdup.

Held Three Hours Sunday.

The recent old snap strengthened the ice all along the upper lakes, and the ferry was imprisoned in it for three hours last Sunday night. The trouble is increased when the wind changes and shifts the ice in the channel. Some twelve years ago the ferry was stuck in the ice for three days.

There are two women, names unknown, from Sault Ste. Marie, Ont., aboard the train, and five from Sault Ste. Marie, Mich., including Fred S. Case and Major David McOrdach, U.S. Army engineer.

The imprisonment of the ferry has shut off train service into Sault Ste. Marie, Mich., to-day.

QUESTIONS ABOUT RELIEF CAMPAIGN

All Contributions to be Voluntary — Be Your Own Judge.

ANSWERS ARE GIVEN.

One of the questions asked regarding the campaign is whether executives of businesses and manufacturing plants will contribute or not to the fund or if it is only the mechanic and clerk. The answer is that every one in the city is being given an opportunity to voluntarily subscribe whether employed or retired, and heads of all plants and businesses of every kind, the salaried man, are given the same means of contributing as any other employee.

Some employee has asked the question if their standing would be affected in a factory if they did not contribute. Absolutely not. Every citizen is to size up the situation for himself or herself, as to whether they will give or not.

Every one contributing will no doubt want to be satisfied from two standpoints. Is there the need and what can I afford? Of the first point just a little personal enquiry will give the information; of the second, the citizen is the first and last judge of the situation.

No factory has been asked to furnish a statement of the weekly earnings of any employee; just names, so that a card could be sent in a systematic and easy manner.

This is one campaign that is being conducted where it is felt that the results will be obtained altogether through the desire to give on the part of the citizens and not on solicitation, which will not be attempted.

Elsewhere in to-day's Examiner is a short statement of facts as they exist in five or six homes at this present moment. They are actual and not exaggerated and the financial conditions are not altogether the fault of the heads of the home concerned.

PROHIBITION DENOUNCED.

HELSINGFORS, Finland, February 11 (C.P.). — A conference of delegates to the Finnish Central Union of Agricultural Producers, a non-party organisation with 100,000 members, has adopted a resolution denouncing prohibition as detrimental to national and state economy and morale. The resolution recommended alteration of the law.

Very Dry Spring Predicted by Sage

OWEN SOUND, Ont., February 11 (C.P.). — A very dry spring which will seriously affect the crops, is predicted by J. B. Bowes, local resident, who has gained considerable fame as a long distance weather forecaster.

Mr. Bowes advises those who have a supply of wheat on their hands to hold on for a time, as conditions look anything but good for the 1931 crop. Mr. Bowes' predictions this year are copyrighted.

CARGO OF LIQUOR WORTH $10,000 IS SEIZED IN VAN

Inspector Trails Truck From Whitby to Chippewa Before Acting.

TWO MEN ARRESTED.

Consignment in Packing Cases Marked Office Furniture Believed Headed For U.S.

NIAGARA FALLS, Ont., Feb. 11.—(C.P.).—One of the largest seizures of liquor ever made in this district took place at Chippawa last night, when a large moving van, filled with $10,000 worth of champagne and other assorted liquors, was discovered. Two men, James Wedge, 35, of the Wedge Moving Company, 198 Wellington Street North, Hamilton, owner and driver of the truck, and a companion, Murray Stewart, 22, also of Hamilton, were placed under arrest.

Weighed 4 Tons.

The liquor was enclosed in large packing cases, marked office furniture, and is believed to have been intended for the States. The liquor weighed four tons. The two men were charged before Magistrate Fraser with having liquor without a permit, all of it being Quebec Commission goods, and were remanded until Friday with bail of $2,000 for Wedge and $1,000 for Stewart. The liquor was alleged to have been consigned to Charles Hein, St. Catharines. Inspector J. E. Knox of the Provincial Police followed the truck from Whitby last night and caused the arrest at Chippawa. Instructions given to Wedge are said to have been to stop, first at St. Catharines for orders and then at Chippawa. It was while he was waiting at the latter place that the arrest took place.

BRITISH PROBING TIMBER IMPORTS

Anti-slavery Society to Ascertain if Russia is Using Convict Labor.

REPORT TO GOV'T.

LONDON, Feb. 11.—(C.P. Cable.)—In connection with the United States' Government's action in prohibiting the importation of timber from certain sections of Russia on the ground it is produced by convict labor, it is pointed out that an official enquiry into such allegations has been put under way by the British Anti-slavery and Aborigines' Protection Society.

The enquiry will be conducted by Sir Alan Pim, formerly a high official in the Indian Civil Service, acting as chairman, and Edward Bateson, former Judge on the Egyptian mixed tribunal.

The results of the enquiry will be laid before the British Government and it will be invited to take some action. In any consideration of action against importation of such timber to Great Britain, account would have to be taken of the Anglo-Russian Trade Treaty.

BURY SHOOTING VICTIM IN GUELPH

GUELPH, Ont., Feb. 11.—Percival R. Hunt, who was shot and killed in Toledo, Ohio, last Wednesday, will be buried here tomorrow, relatives stated to-day. Hunt's wife and two children live in Guelph, and his father, F. W. Hunt is a resident of Hamilton. Only very indefinite word of the tragedy has been received here, and his relatives in Guelph have no information with regard to the circumstances surrounding the shooting.

The Bishop of London now receives a salary of $50,000 a year, and four Bishops of the Church of England receive $10,000 a year.

STABS IN BRAWL RESULT FATALLY FOR HAMILTONIAN

Technical School Student Wounded Fourteen Times in Fracas.

THREE SUSPECTS ARRESTED

Battle Ensues When Noisy Pair Are Ousted From House By Boarders.

HAMILTON, Feb. 11.—With fourteen knife wounds in his body, Ludwik Radaczy, 27 year old technical school student died this morning at 2:30 in the General Hospital three hours after he was stabbed during a brawl in the rear of a Gerrard Street house.

Three men are held by the police on nominal charges of vagrancy, in connection with the affair. John Dybka, Parkview Road, St. Catharines, Joseph Pikorowski, and Tony Varcho of Gerrard Street, Hamilton.

Victim Thrown Out.

According to the story told the police, Dyska came from St. Catharines yesterday and went to the Gerrard street house. In the kitchen were Pikorowski and Varcho. During the evening an argument arose and voices were raised. Boarders in the house, among whom were Radaczy, aided the proprietor when he attempted to eject the noisy ones. In the melee that followed, Radaczy was mistaken for one of the noisy intruders and was ejected. After the affair had quieted down, one of the boarders opened the back door to find Radaczy held kneeling on the steps with one arm raised as though to protect himself. One of the intruders stood over him with one hand raised, but there was no weapon in evidence. Radaczy staggered to his feet and re-entered the house only to collapse on the floor.

Constable Curtis was the first officer to reach the scene and had the wounded man removed to the hospital. A knife was found on Gerrard street about thirty yards from the scene of the affray.

Radaczy made a statement to an interpreter at the General Hospital before he died. Police combed the neighborhood of the house and picked up three men alleged to be involved shortly after the affair.

Mulock Steers Clear Of Scandal In Court

TORONTO, Ont., Feb. 11. (CP)—The First Divisional Court of Ontario has no intention of "drifting into the scandals that attend the administration of justice in some other countries", Chief Justice Sir William Mulock said to-day when an adjournment in a criminal appeal was asked by H. D. Rosenberg, who appeared for H. D. Harding, K.C., counsel for William Marcus and S. Richmond convicted at the Fall Assizes of a serious offence against a young girl.

Mr. Rosenberg asked the adjournment on the grounds that Mr. Harding was ill in bed and would not be able to appear before the Appeal Court at the date set for the hearing. During the course of his argument, Mr. Rosenberg said Mr. Bayly for the Crown had consented to the adjournment but Sir William Replied "Mr. Bayly has nothing to do with determining the policy of this court." The appeal will be heard Friday, the Chief Justice ruled.

STARVING FAMILY DIES FROM POISON

Inquest Postponed Pending Outcome of Four Survivors' Illness.

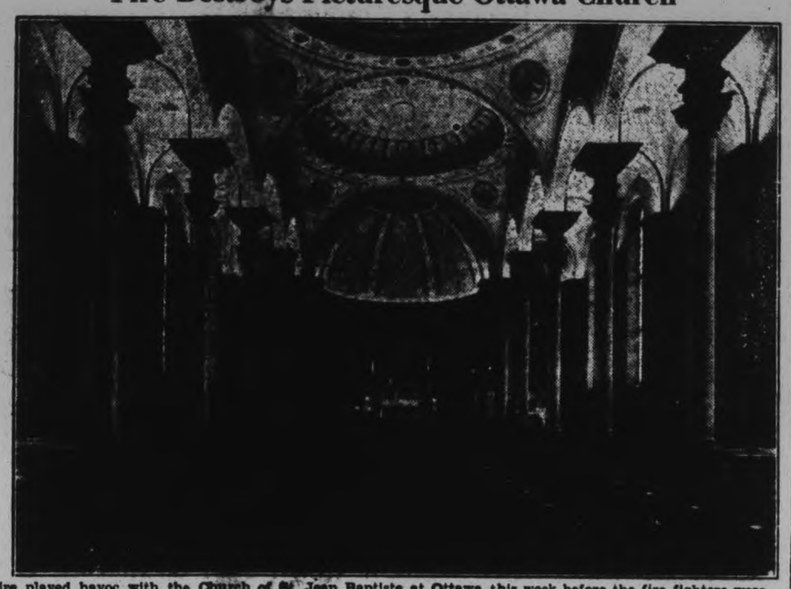
BREAD BLAMED.

BROWNWOOD, Tex., Feb. 11.—An inquest into the death of three members of a dought-stricken tenant farm family who fell ill Monday after eating the last food in their home, awaited the outcome of the illness of four survivors to-day.

Dr. C. W. Gray, county health officer, said poison in homemade bread was responsible for the death of H. A. Jones, 40, and Hilary, 8, and E. C. Jones, 6, who succumbed after a scanty breakfast Monday.

The widow and her three children lay ill in a hospital here as funerals were planned for the dead to-day, physicians held little hope for the recovery of Hubert, 15.

Fire Destroys Picturesque Ottawa Church



Fire played havoc with the Church of St. Jean Baptiste at Ottawa this week before the fire-fighters were able to subdue the flames. The above picture shows the interior of the Roman Catholic Church before it was destroyed by the fire. The damage is estimated at $400,000 which includes the gold altar valued at $25,000.

1931 Valentines No More Sentimental Than Predecessors of a Century Ago

CLEVELAND, Feb. 11.—Today's beautiful valentines of love-sick swains and fair young maidens are no more sentimental than their predecessors of a century ago, in the opinion of Frank Baer, who has the world's finest collection of such art.

Girls in "pig-tails" a few years ago, blushed to receive laboriously hand-made valentines that told them:

"Roses are red, violet's blue
"Sugar is sweet and so are you."

Today, the wording of Valentine notes is just as sentimental but possibly more sophisticated. A century ago, the sentiment was the same but the expressions were more grandiose.

One century old Valentine in Baer's collection, which he has gathered at his Cleveland home, shows a warrior on horseback, flourishing a sword with two arrow-pierced hearts above it, and and bears these lines:

"Adieu until we meet again
"My valiant, brave Hussar,
"As warm in your attachment as
"You're val-i-ant in war.

WESTERN AUSTRALIA IS OPPOSED TO WHOLESALE INFLATION POLICY

Will Reconsider Her Position With Commonwealth if Plan Insisted On.

BOND NOT INSOLUBLE.

CANBERRA, Australia, Feb. 11.—(C. P. Cable via Reuters) — The State of Western Australia will support neither the Commonwealth Government's financial rehabilitation program nor the more drastic remedies advocated by Premier Lang of New South Wales.

Making this clear in a striking statement today, Premier Sir James Mitchell of Western Australia, who is also Treasurer of that State, said that if the Commonwealth attempted to impose a policy of wholesale inflation, such as he considers is involved in the Federal Treasurer's plan then Western Australia would reconsider her position within the Commonwealth.

Bond Not Insoluble

"Our bond with the Commonwealth is not insoluble," said Premier Mitchell. "Western Australia will not recognise any Commonwealth right to impugn our honor and menace our finances. We will only continue to co-operate with the other Governments on the provision that the principle of living within our own means is acted upon."

A cable had been received by Premier Mitchell from Sir Newton Moore now a resident of London, a native of Western Australia and former Premier of that State, declaring that the "suicidal policy of Premier Lang has startingly shocked London."

In reply Premier Mitchell cabled that Premier Lang was not supported by any Government. "Australia has never failed Britain and never will," he also stated. "We have a right to your help. Britain's most effective answer to those who support repudiation, would be to open the money market to Australia for moderate loans for productive purposes."

Australia is to have a locally-made $1,500 automobile, a local company having acquired 4,000 acres of land near Sydney for a plant.

Find Half Sunken Boat Fear Crew Drowned

EDGARTOWN, Mass., February 11 (C.P.).—The discovery of an empty, half sunken coastguard power boat drifting in Muskeget Channel has dashed all hopes of brother guardsmen that Captain Manuel Piva, 26, and Charles I. Williams, 53, of the Mappaket Coastguard Station will ever be found alive.

The boat was found drifting in the channel last night by coastguardsmen from Cuttyhunk and Gay Head.

Piva and Williams set out from their station on Nantucket Island to take supplies to the Cuttyhunk and Gay Head Stations on Monday night.

THOMAS EDISON 84 YEARS TO-DAY

Snowy-haired Genius Celebrates Anniversary at Winter Home in Florida.

GIVES INTERVIEW.

FORT MYERS, Fla., Feb. 11. — Thomas A. Edison received the "happy birthday" greetings of the United States today. Celebrating his 84th anniversary at his winter home he took time off from his rubber experiments to aid in a general observance of the event.

While Florida and the city of Fort Myers prepared to pay the snowy haired genius homage by dedicating a new $500,000 bridge in his honor, Mr. Edison's friends gathered for a day-long observance. Harvey S. Firestone, tire manufacturer and Cyrus H. K. Curtis, Philadelphia publisher, were among them.

Edison agreed to give an interview, answering questions on various things such as rubber, goir, the unemployment situation and politics.

LOCALS LOSE TO HIGH PARK IN 1ST ROUND

Toronto Curlers Winners By 9 Shots in Governor-General's Play.

BOBCAYGEON ALSO OUT.

Only One Queen City Eight Left in Running—Consolation Event in Second Round.

TORONTO, Ont., Feb. 11.—(CP)—While rinks of this city managed to emerge winners of the Ontario Curling Association tankard they are not faring so well in the Governor-General's competition.

Today four rinks will commence curling in the semi-finals, but only one local eight remains in the hunt. The out-of-town rinks making a strong bid for the trophy are Barrie who meet Waubeshene and the Kitchener representatives who match shots with Toronto High Park.

The Barrie rink yesterday knocked out Hamilton Vics by three shots in a keenly contested match in the preliminary round. They continued their fine showing in the first round by eliminating Bobcaygeon easily.

Kitchener's broom artists knocked out first, Colborne by 12 shots, and then Brockville by a 37 shot margin. The High Park rink downed Scarboro and then Peterborough.

Waubeshene had the honor of eliminating the only American rink entered when they defeated Detroit by eight shots in the first round after drawing a bye in the preliminary.

Colborne, Hamilton Victorias, Detroit, Brockville, Peterborough and Bobcaygeon are the out-of-town rinks remaining in the consolation event which has reached the second round.

First Round at High Park

Barrie		Bobcaygeon	
G. Hubbard	17	R. E. Thurston	10
A. J. Simon	24	R. W. Watt	8
Total	41	Total	18

Majority for Barrie, 23 shots.

First Round at Oakwood

High Park		Peterborough	
A S. Dow	19	J. A. Sedg'wk	12
E. D. MacInnes	13	J. Moore	11
Total	32	Total	23

Majority for High Park, 9 shots.

By ends:

Dow	4	1	0	2	0	4	0	1	—19
Sedgewick	0	0	2	0	1	0	5	0	—12
MacInnes	0	1	1	3	1	1	1	0	—13
Moore	3	0	0	0	0	0	3	1	—11

The Weather

Early this morning the temperature was 11 degrees below zero. No lower last night. The air was almost calm and what movement there was was from the southwest. The heavy smoke from factory chimneys trended northward, and there was an unmistakable tinge of Spring in the morning air. —W.P.

Experiments are being made in transmitting pictures by radio between the Netherlands and the Netherland East Indies.

DISCHARGED WINDSOR OFFICIAL UNFOLDS PARTICULARS OF CASES TO NATIONAL REVENUE MINISTER

Gives Names of Men Involved and Claims He Saw Money Passed Over.

MEN CAUGHT WITH GOODS.

Asks Why No Prosecutions Followed Disappearance of Over $300 in Collections.

WINDSOR, Ont., Feb. 11.—(C.P.) — Bribery of Customs Officers is alleged by Roy J. Sinasac in charges made to Hon. E. B. Ryckman, Minister of National Revenue.

Mr. Sinasac to-day made public the charges against men who were his superiors before he was dismissed from the Customs Service here. He declared that in the Spring of 1928 an executive of a large radio manufacturing company in a Central Ontario city was apprehended at the Windsor Ferry Dock when he attempted to smuggle in a large quantity of radio parts in an automobile. The parts were intended for laboratory use. Instead of penalties being imposed, Mr. Sinasac declares, the man was permitted to pay the ordinary rate of duty but gave $100 to the officer who fixed up the matter for him.

Saw Money Handed Over

In another instance an autmobile dealer from an Eastern Ontario city was caught trying to enter with some $330 of parts and work which had been put on his large auto in United States. Mr. Sinasac alleges that an officer was stopped from going to Detroit to find out the exact amount and that the valuation was reduced to $180 so that the charge would be less than $200; settlement was made on the lower basis and money was passed to the Customs official. Sinasac alleges he saw the money passed.

All persons referred to in the two charges are mentioned by name

Sinasac also asks the Minister why no persons was prosecuted regarding the disappearance of some $300 to $500 of money collected at the ferry dock. Instead of prosecution of some individual, a number of officers at the dock were assessed pro rate to make up the missing money, he alleges.

Questions Gov't. Action.

Another question asked is why the resignation tendered by Sinasac on January 9 was not accepted, but he was dismissed by Order-in-Council on January 20.

Andrew H Dalziel, collector of Customs here, says that any statement regarding the matter must come from the Department at Ottawa.

H. B. Jackson, who has been sent here by he Department to investigate the charges says the Department will not issue any official statements but that he is here to investigate and will remain till he gets at the bottom of the whole affair.

MacDonald Gov't Fighting for Life

LONDON, Feb. 11 (A.P.).—The Conservative motion of censure against the MacDonald Government which, if carried, would entail defeat of the Government, was moved in the House of Commons this afternoon by Sir Laming Worthington-Evans, former Conservative Secretary of State for War.

GORDON CLOSES ELECTION FIGHT IN GRENVILLE

Malefactors' Cells Are Opened By Politics Declares Hon. G. N. Gordon.

BAD HOUSEKEEPING.

Tory M.P.P.'s Allegedly Work For Release of Bootleggers.

PRESCOTT, Feb. 11 (C.P.)—The necessity for free navigation and the development of hydro-electric power on the St. Lawrence, the financial condition of Ontario in relation to expenditures, and taxation of the present Provincial Administration, and the record of the Conservative Government generally, furnished material for a number of speakers who addressed an election-eve meeting here last night in the interests of P. N. Barnard, the Liberal candidate in Grenville County. The electorate will go to the polls to-day to select a member for the Provincial Legislature in place of Hon. G. Howard Ferguson, who has assumed his new duties as Canadian High Commissioner in London.

The Conservative standard-bearer is James A. Sanderson. Mrs. G. A. P. Brickendens of London, Ont.; Harry Sifton of Toronto; Hon. G. N. Gordon of Peterborough, former Minister of Immigration, and Mr. Barnard were the principal speakers.

Bad Housekeeping

"Governmental housekeeping" was

1771 Lord's Day Act May Be Amended

LONDON, February 11 (By Thomas T. Champion, C.P. Staff Correspondent). — The Government is understood to be preparing a Bill amending the Lord's Day Act of 1771 so that local authorities would have discretion as to which entertainments could remain open on Sundays.

At present London is chiefly affected by the recent Court of Appeal's decision sustaining the old act, and prohibiting the operation of moving picture theatres on Sunday. The London County Council has abandoned the idea of carrying an appeal to the House of Lords, believing there is little likelihood the judgment would be set aside.

ONTARIO HOUSE OPENS THURSDAY

Throne Speech Expected to Forecast Legislation on Hospitals and Penal Institutions.

SESSION ABOUT SIX WEEKS.

TORONTO, Ont., Feb. 11. (CP)—On the heels of the two by-elections in Grenville and Hamilton West today the Legislative Assembly of Ontario will open to-morrow. It will be the second session of the eighteenth Provincial Legislature.

The Conservative Government forces will be headed by Hon. George S Henry, Premier, Minister of Highways and Minister of Education. It is expected the speech from the throne will forecast considerable legislation in regard to hospitals and penal institutions of the Province, implementing the report of the Ross Commission on public works.

Premier Henry will be supported by a reorganized cabinet and a heavy majority in the House. W. E. N Sinclair, will lead the Liberal Opposition and H. C. Nixon, the Progressives.

HEPBURN READY FOR COURT ACTION

Liberal Leader Declares He Has His Notes on Hamilton Address.

"JUMPED AT CONCLUSIONS"

ST. THOMAS, Ont., Feb. 11 (C.P.)—Located at his home in the city early this afternoon, Mitchell F. Hepburn, Liberal Leader, said that if A. A. Ingram, K.C., of this city, is determined to proceed against him, Mr. Hepburn, in court on the grounds that Mr. Ingram was libelled, Mr. Ingram has the privilege of doing so. "Mr. Ingram has never asked me what I actually did say in my speech at Hamilton on the night of Feb. 5," Mr. Hepburn said. "He just read a report in a newspaper for which I was not personally responsible, and then jumped at conclusions and announced that he would enter an action against me if I did not make public retractions of something that I did not say. I have my notes of the Hamilton meeting and will take them into court if necessary. I have submitted those notes to two prominent lawyers and they have told me there is nothing libelous in what I said."

Mr. Hepburn expects to return to Toronto this evening.

MAN FOUND INJURED—POLICE INVESTIGATE

TORONTO, Ont., Feb. 11 (C.P.) — Found in a lake behind a Lansdowne Avenue residence early to-day and believed to be suffering from a double fracture of the skull, Lou Burkhardt, 43, a visitor at a local hotel, was removed to St. Joseph's Hospital, where his condition is reported as critical.

Burkhardt was first found by a taxi-driver who had been called to pick up a fare. Police were notified and two detectives have been assigned to the case.

'QUIT TALKING BRITISH EMPIRE? I'LL RESIGN FIRST' SAYS FERGUSON AT BIG BANQUET GIVEN IN HIS HONOR

"I Hope Only to Proclaim My Faith and Convert Doubting Thomases."

PREMIER IS ABSENT.

Duke of Connaught and Many Leaders Send Hearty Message of Welcome.

LONDON, Feb. 11 (C.P.)—"The moment I have to keep silence about the British Empire, that moment will my resignation be received by the Canadian Government," declared Hon. G. Howard Ferguson, High Commissioner for Canada in London, and former Premier of the Province of Ontario, last night, when he was a guest of honor at a dinner of the Canada Club.

"But for the time I remain in London," continued the new High Commissioner, "I hope not only to proclaim my faith, but, if it is necessary, to proselytize any doubting Thomases."

Distinguished Gathering

The dinner to Mr. Ferguson was attended by Right Hon. J. H. Thomas, Secretary of State for the Dominions; by the Lord Mayor, Sir Phene Neale; Sir Godfrey Thomas, Private Secretary to the Prince of Wales; the Earl of Strafford, Lord Lloyd, Lord Trenchard and many other notables. It was an event noted for the mingling of easy jocularity and seriousness. Sir George McLaren Brown presided.

A message of the warmest welcome to Mr. Ferguson was read from the Duke of Connaught, a former Governor-General of Canada, who is now on the Continent. Cables were also received from Prime Minister R. B. Bennett of Canada; E. W. Beatty, President of the Canadian Pacific Railway, and from Sir William Clark, British High Commissioner in Canada.

Premier is Absent

The Secretary of State for the Dominions, in proposing Mr. Ferguson's health, apologized for the absence of Mr. MacDonald, the Prime Minister, "who was in a difficult position when I left him in the House of Commons tonight."

"'Jim,' he said, 'I would like to have been there, but I am damned if I think Ferguson is worth our defeat, and you can tell him so'."

This little story caused roars of laughter from the small host of diners.

Mr. Thomas went on to remark that the cable from E. W. Beatty was a long one. He was sure Mr. Beatty never paid for it.

Here Sir George McLaren Brown rose jocularly to a point of order, and assured Mr. Thomas that Mr. Beatty did pay for it.

"I accept that, of course," said Mr. Thomas, "but I would like to see the etceteras of Beattys' next account."

Welcome to Ferguson

In a more serious vein, the Secretary of State for the Dominions welcomed Mr. Ferguson as being "one of the pioneers of education in Ontario." His new position meant that, after years of dominating a Province, he had now to say to himself: "I must not open my mouth."

The Dominions, like Britain, were passing through a difficult time. "There is talk of repudiation of debts heard from Australia and complaints of Canada's treatment of certain people, but let us all keep a sense of proportion."

Mr. Thomas, in concluding his after-dinner remarks, said: "No longer are we allowed to talk of the British Empire." Here there were cries from Mr. Thomas's listeners of "Why?"

"Because," replied the Secretary, "of the modern trend of what is called Dominion status. I am one of those old-fashioned people who never were ashamed to proclaim the British Empire.

"But now we hear of the British Commonwealth of Nations, with each Dominion claiming its own rights and its own powers. At least, there is one symbol which cements us all, and which I want to see preserved, and that is the symbol called the British Crown, with its prerogatives. I am certain that our guest will play a great part in the direction of Empire solidarity."

Mr. Thomas paid tribute to the

A Doctor Knows what is best for any Stomach

Well-known authorities, famous in the medical world, have learned the certain relief for gas, "sour stomach" and similar troubles. They say:

"Calcium Carbonate, 2½ times as effective as soda, properly compounded, is the ideal anti-acid. It has no disturbing effect on the system, and is utterly safe in the hands of the patient. It is best used in the form of tablets."

Stuart's Dyspepsia Tablets—just the right compound of Calcium Carbonate and other soothing substances, provide swift and certain relief from sour stomach and attendant ills. Nothing equals them, and they are safe and harmless to use.

Make This Test!

Try a Stuart Dyspepsia Tablet after meals and notice how quickly all discomfort disappears.

Firemen and Water Assist in Election Of Mexican Beauty

GUADALAJARA, Mexico, Feb. 11. (AP)—The Fire Department was called out last night to quell a free for all fight in the Degollado theatre, where election of a beauty queen was taking place.

Partisans of several candidates came to blows and the theatre was in an uproar when the firemen arrived. Streams of water played through the doors quenched the ardor of the fighters and later the victorious candidate, Senorita Stela Corona, drew cheers from the entire drenched audience with a speech from the stage.

SYNTHETIC AIR FOR SEA DIVERS

Commander of Wilkin's Sub Nautilus Passes Helium-Oxygen Composition.

TASTE, SMELL DIFFERENT.

PHILADELPHIA, Feb. 11.—"Synthetic air" composed of helium and oxygen, as a means of sustaining the respiration of deep sea divers has received the O. K. of Captain Sloan Danenhower, widely known submarine and salvage engineer.

Captain Danenhower, who will command the Wilkins submarine Nautilus on its under-seas dash to the North Pole this summer made a diving test at the Philadelphia navy yard yesterday in which "synthetic air" was used instead of mother nature's atmosphere.

"No one has ever been under water before with helium," Captain Danenhower said as he came up from the bottom of the Delaware River. "The taste and smell are different from ordinary air. I think its use is entirely feasible."

The advantage of using helium-oxygen, he explained, is that it will diminish the tendency for divers to get the "bends" after emerging from great depths. The "bends" are a type of severe cramps.

"Also" he said, "it will increase the efficiency of divers as to the depth they can go, the time they can work under the surface and the speed with which they can go through the decompression process.

SOBER COUNSEL HEARD AT PARLEY

Some Indian Nationalists Discussing McDonald's Proposals Favor Ending Campaign.

HEATED DISCUSSIONS.

ALLAHABAD, Feb. 11 (A.P.)—The political correspondent of The Pioneer to-day said that there was a heated discussion between the leaders of the All Indian National Congress yesterday in the course of their consideration of Premier MacDonald's declaration of a future status for India.

Pandit Malaviya was said to be strongly in favor of abandonment of the Congress' campaign of civil disobedience. He was supported among others by Mr. Ansari and Mrs. Sarojini Naidu, Hindu poetess.

The atmosphere was considerably cleared during the afternoon session when there seemed to be, the correspondent said, some inclination to listen to sober counsel.

Peruvian Warships Welcome Two Princes

S. S. OROPESA, Feb. 11. (AP)—Two Peruvian warships, the Almirante Grau and the Coronel Bolognesi, escorted the Oropesa bearing the Prince of Wales and Prince George, toward Callao this morning.

Arriving at Callao the two Princes and their suite will proceed immediately to Lima, a few miles inland, for a two or three day visit. From there they will go to Millenno Lake Titicaca, and down into Bolivia on the first inland stage of their South American cruise.

The two Peruvian cruisers met the Oropesa yesterday in longitude 7:55 south and fired the royal salute, in answer to which the liner dipped its ensign. The smart warships presented a fine spectacle as they steamed in line with their guns crashing.

BRITISH EXPERT CONSULTED

PARIS, France, Feb. 11. (AP)—Robert L. Craigie, of the British Foreign Office, is in Paris and has had several conferences with Rene Massigli, rFench disarmament expert on subjects believed to deal with a possibl Franco Italian naval construction truce.

No official statement has been made but it was understood today that the talks thus far had dealt with the French naval programme for 1931.

Mystery Steamer Sends Out SOS

LONDON, Feb. 11.— (A.P.)—Shipping circles were somewhat mystified to-day by a report from the chainnel steamer Engadine that she had picked up an S.O.S. message late yesterday from an unidentified steamer with three hundred passengers 1,000 miles off the Irish Coast.

The Engadine reported she could not make out the ship's name but that it ended in the letters "U." No other vessel and no land station picked up the call and Lloyds could throw no light on its origin.

TAKE NEW ACTION AGAINST CANNON

Bishop Expected to Take Steps to Block Nye Investigation.

TOPIC, FUND EXPENDITURE.

WASHINGTON, February 11 (C.P.). — An effort by Bishop James Cannon, Jr., to block at the outset a new investigation of his 1928 political activities, was expected to-day as the Nye Campaign Funds Committee called the first witnesses in the case of the Southern Methodist churchman.

The Bishop, who succeeded in halting a similar investigation last year by the Senate's Lobby Committee, sent word to the Nye group he would be on hand to-day. He was expected to challange the group's authority It is functioning in his case under a resolution by Senator Glass, Democrat, Virginia, recently passed by the Senate, and upon the complaints of Representative Tinkham, Republican, Massachusetts, who repeatedly has accused Bishop Cannon of violation of the Federal Corrupt Practices Act

The topic of inquiry was the expenditure of funds in Virginia in the campaign against the Democratic Presidential nominee, Alfred E. Smith.

GORDON CLOSES

(Continued from Page 1)

the term which Mrs. Brickenden applied to her address. Women, detesting confusion and debt in the management of their own domestic establishments, had a great deal of cause to feel displeased with the manner in which the Provincial Government was administering the finances of Ontario.

Debt was being increased in the same degree as taxation was being added to the people's burdens. Public expenditures had doubled during the regime of the present Administration, while the Provincial debt from 1912 to 1929 increased from $250,000,000 to $476,000,000.

The present Ontario Ministers should be impeached for malfeasance in office and for violation of their oaths of office, declared Mr. Gordon. He cited instances where political influence allegedly was exercised to bring about the release of persons convicted of law breaking. Members of the local Legislature were using their political power to secure the release of bootleggers from jail, at a fee, Mr. Gordon said.

Price's Administration

He drew attention to the Solloway-Mills case, and asked why Hon. W. H. Price was always on the side of the persons who defrauded the people. The Attorney-General had refused to prosecute a number of individuals who had been declared members of a combine in restraint of trade in connection with the Proprietary Articles Trades Association. Preferring instead to question the validity of the Combines Investigation Act and aligning himself with the guilty parties to take this matter to the Privy Council, said Mr. Gordon. He charged inefficiency in the operation of the Attorney-General's Department, asserting that guilty men were enabled to escape their just deserts because Mr. Price detailed those cases to incompetent lawyers who secured their position only by ward-heeling.

The burden of taxation fell unfairly upon the farmers of Ontario, Mr. Gordon observed. They represented only 5 per cent. of the highway traffice, but they bore sixteen times more taxation than they should. To this was due the distress which was overwhelming the rural communities.

The speaker charged that political partisanship was the chief requisite for securing employment under the present Government, and asserted that several individuals of proved dishonesty were on the Government's pay-roll.

SEEKS NEW RECORD

LYMPNE, Eng., Feb. 11. (AP)—In an attempt to lower the record of nine days flight from England to Capetown, Tommy Rose, former instructor to the Midland Aero Club, took off at 5:32 a.m. in bright moonlight in an Avro Avian airplane. He hoped to make his first stop at Rome.

When You Feel A Cold Coming On!

Stop it at once by taking ZUTOO TABLETS. Remember that Grippe and Pneumonia begin with a common cold. These tablets stop the pain and fever immediately, and assist nature in throwing off the cold. Taken in the beginning, the cold is often stopped overnight.

HOCKEY PLAYERS APPEAR IN COURT FOLLOWING FIGHT

Madoc Player is Said to be in Serious Condition Following Game.

ILL FEELING ALLEGED.

Three Brothers on Tweed's Trent Valley Team Are Released on Bail.

MADOC, February 11.— Alexander, Fred, and Max Geraldi, all players on the Tweed Trent Valley hockey team, were brought before Magistrate Casement yesterday afternoon, and were charged with assault and occasioning bodily harm to M. J. Barkey, a player on the Madoc hockey team.

Only two of the young men were able to appear. Max Geraldi was unable to leave his home on account of injuries received in the last hockey game when Tweed played Madoc. The case was remanded and the boys were released on $1,000 bail each. Sergeant H. Storey, stationed at the local Provincial Police headquarters under Inspector Lougheed, went out to Tweed yesterday, investigated the affair, and placed the young men under arrest.

The unfortunate incident occurred during a hockey game in Tweed last Friday night between Madoc and Tweed, a regular Trent Valley League fixture. The last following facts were sifted out of a maze of conflicting opinions. The play, when the incident occurred, was in a corner of the rink. Max Geraldi and Barkey were fighting for possession of the puck. It is alleged that Geraldi, either intentionally or as a mistake, "butt-ended" Barkey in the neck. Barkey, it is stated, by Madoc supporters, resented this and probably lost his head With a swing he brought his hockey stick upwards, and slashed Geraldi across the front of the face.

Barkey Attacked.

Garoldi suffered a bad cut over one eye, his nose was hurt, and he was otherwise shaken up. Alexander and Fred Geraldi, seeing the incident, started across the ice and "jumped" Barkey. A wild free-for-all started in which Barkey was seriously injured.

Barkey was taken to Belleville yesterday afternoon by Dr. Eagleson, physician in the village of Madoc. X-rays were taken at the Belleville General Hospital, and it was found that Barkey yas suffering from a fracture at the base of the skull. "The fracture is not extensive," said Mr. Williams, X-ray expert, to-day. "I could not observe any other injuries on the plates."

Dr. Eagleson was reserved in his statements to the press last night. "I took Barkey into Belleville to-day to have him X-rayed." he told the reporter. "The plates had not fully dried before I started back with the injured man, but I have every reason to believe that he is suffering from a fractured skull. His eyesight has been affected, and he was badly shaken up during the fracas." Dr. Eagleson was non-committal on the joint of just how serious Barkey's condition is. It will be some time, however, before the hockey player is himself again.

There has been ill-feeling between the Geraldi's and Barkey all season the coach of the Madoc team stated There have been mix-ups previous to Friday night's fracas, although none of them were as serious. There are four Geraldi boys playing on the Tweed hockey team, all brothers George Geraldi, the fourth, is not implicated in the affair.

JOBLESS FIGURES ASKED OF LAVAL

Socialists Would Find Out Govt's Plans of Combatting Situation.

$4,000,000 RELIEF ASKED.

PARIS, Feb. 11 (A.P.)—Premier Laval's Government will be called upon to produce in the Chamber of Deputies tomorrow the exact figures of the extent of unemployment in France and measures envisaged for combating it.

The occasion will be an interpellation by the Socialist Leader, Leon Blum, to which the Minister of Labor and his aides are preparing an ample report.

There has been a general feeling that the Government's figures of roughly 30,000 unemployed receiving official aid is below the real number of those out of work who are not drawing subsidies. Neither does the figure take into account the large number who are working only part time.

The Socialists already have asked the Government for the equivalent of about $4,000,000 as a fund for immediate relief for unemployed.

ROME CELEBRATES

ROME, Feb. 11 (A.P.)—Rome today observed the second anniversary of the signing of the Lateran Treaties of 1929 which, solving the 60-year-old Roman question, established peace between the Holy See and the Italian State and decided the status of the Vatican as a governmental entity.

Don't forget the date, Feb. 17th. Or the place—Hall of the Canadian Legion. Or the object—Second Relief dance of The Examiner Social Club. There'll be a good time at the old hall that night.

Results Commendable. Genuine Gratitude.

Miss Miller, of Croydon, writes:—"In gratitude, I feel I must write and tell you what wonderful benefit I have derived from taking a bottle of your Carter's Little Liver Pills. Having been troubled with indigestion and sick headache for several months, a friend recommended me to try your famous pills, with the results that after the first dose I was made aware of their very real tonic value, and felt I had at last discovered a remedy which performed what it claimed to do." Take Carter's Little Liver Pills for the complexion and constipation. All druggists 25¢ and 75¢ red pkgs.

TELEPHONES IN CANADA

The estimated number of conversations by telephones in Canada during 1929 was 2,525,500,000, including 37,851,600 long distance calls. For every 100 of the population in that year there was an average of 15 telephones.

WEST HAMILTON ENDS CAMPAIGN AT POLLS TO-DAY

Successor to Former Premier Ferguson to be Chosen in Grenville.

LONG, HOT CONTEST.

Practically All Members of Cabinet Take Part—Liberals Fire Last Shots.

TORONTO, Ont., Feb. 11 (C.P.).—Electors in West Hamilton and Grenville constituencies to-day went to the polls to select representatives to the Ontario Legislature to succeed the late Hon. Fred C. Smye, and former Premier Howard G. Ferguson, who resigned to assume the post of High Commissioner for Canada in Great Britain.

Alderman Argue Martin, Conservative, and Capt. Elmore Philpott, Liberal, are candidates for the West Hamilton seat, made vacant through the death of Mr. Smye, who was Minister without portfolio in the Ferguson administration. In Grenville John A. Sanderson is the Conservative nominee, while Liberal principles are upheld by Percy Barnard.

Final Sessions.

Campaigns in both ridings were brought to a conclusion last night with mass meetings at which the final salvoes were fired by outstanding speakers in what have proved the most exciting by election contests in Ontario for many years. Led by Mitchell Hepburn, M.P., the new Provincial leader, Liberals have hurled charge after charge at the Ferguson Government, and particularly against the administration of the Attorney-General's Department by Hon. W. H. Price. In reply, the Ontario Government has mustered all its forces with the warfare carried on by practically all members of the Cabinet.

The result in Grenville gave Mr. Ferguson a majority of 2,035. The former Premier received 4,452 votes and T. H. Bradley, Prohibitionist, 2,417.

Seek National Policy For Coal Industries

HALIFAX, N.S., February 11 (C.P). — On the eve of the departure for Ottawa of Premier G. S. Harrington to head a representative delegation which will interview the Government on effective methods of proving conditions in the coal and steel industries in this Province, the Halifax Board of Trade passed a resolution yesterday urging the Federal administration to "frame a national policy with respect to these commodities which will result in the successful operation of the industries."

SMALL GIRL IS BADLY BURNED

Jessie Linton, Roseneath, is Burned While Mother is Out.

SISTER COMES TO RESCUE.

ROSENEATH, Feb. 11 (Examiner Correspondence)—A sad accident occurred on Saturday when Jessie Linton, little daughter of Mr. and Mrs. Robert Linton was badly burned on the chest, arms and face also several minor burns on the body.

How the child got on fire nobody knows as she was alone in the kitchen at the time, her older sister Olive being the first to enter and found her in flames. She had the presence of mind to extinguish the fire by throwing water on her sister and then called her mother who had gone out to the woodshed for wood. Dr. Ryan was soon in attendance and did all he could to help the little sufferer who is still lying in a critical condition.

Surplus and Contingency Reserve	$36,532,000
Assets, at December 31st, 1930	$588,733,000

NOTES FROM DIRECTORS' REPORT

In a year in which all classes of business have encountered many difficulties, the Company has made gratifying progress. New policies paid for show an increase of $51,227,652.32, both the ordinary and group departments making substantial gains.

Total assurances in force show an increase of $462,464,542.58. This gain represents a very high rate of persistency, indicating the high value placed by our policyholders on their contracts with the Company in a period of extreme financial pressure.

The number of policies and group assurance certificates outstanding passed the million mark during the year.

The total net income shows an increase of $15,804,544.54.

The total payments to policyholders and beneficiaries since organization . . . equal the total assurances in force in the Company's fiftieth year (ten years ago).

The mortality among our policyholders has been highly favourable.

The rate of interest earned on the mean invested assets was 6.44 per cent.

Profits paid to policyholders during the year amounted to $25,641,231.04.

In a year of almost unprecedented business depression the outstanding quality of the investments has been strikingly shown. The actual cash dividends received on the total common stocks held by the Company were $969,103.84 in excess of the dividends payable on those identical shares in 1929. . . . Even on the basis of the low prices at the close of the year our common stock holdings show a substantial excess of market value over cost.

Profits to policyholders entitled to participate during the ensuing year will be again allowed on the scale at present in operation.

The special Maturity Dividend is also continued on the basis announced last year.

SUN LIFE ASSURANCE COMPANY OF CANADA

CATTLE, GRAIN, PRODUCE

CHICAGO GRAIN

CHICAGO, Feb. 11.—Rumors of a revolution in Russia whirled grain prices wildly upward yesterday. The rumors were discredited by Soviet representatives, but big buying orders believed to be from European sources gave countenance to widely circulated reports that Russian political developments were disturbing in the extreme. A maximum jump of 3½c a bushel by the Chicago wheat market was registered.

Wheat closed nervous, ⅝c to 3¼c advance; corn, ½c to 1c up; oats, ¾c to ⅞c higher, and provisions showing 10c to 20c gain.

TORONTO PRODUCE

TORONTO, Feb. 11.—The demand for eggs on the local market was somewhat stronger yesterday, and dealers were able to get better prices for the two top grades. That is, there was a spread in prices for these grades. Brokers quoted graded extras at 29c to 30c; firsts, 25c to 26c; pullet extras, 22c, and seconds, 20c, in free cases. They reported a good demand for candled out of storage supplies at 18c for extras and 16c for firsts.

Country shippers were offered more money for ungraded eggs, delivered, cases returned, at 25c to 26c for extras, 22c for firsts, and 16c to 18c for seconds. This range showed an increase in prices for extras of 1c per dozen. Wholesalers found a good demand for storage supplies at 20c for extras and 18c for firsts, and they were offering fresh eggs at 32c to 33c for extras in cartons, 30c to 31c for extras loose, 27c to 28c for firsts loose, 23c for pullet extras loose, and 21c for seconds loose.

Cheese

Receipts of new cheese continued to dwindle, and prices to shippers were some higher at 14¾c for large, 15c for twins, and 15¼c for triplets. Wholesalers increased the range to retailers ½c a pound, with new large at 16c, twins 16¼c, and triplets 16½c.

Butter

The butter market was quiet, and only small lots changed hands. Prices, however, were steady at 31½c to 32c for No. 1 creamery solids, and 30½c to 31c for No. 2. Sellers were holding for the demand, which must come, but were not offering large lots of high-scoring butter at less than 32c per pound.

Cream

Prices to country shippers for cream f.o.b. country points were steady at the recent increase. Special was quoted at 31c to 32c; No. 1, 30c to 31c; and No. 2, 27c to 28c.

EGGS.

Dealers are quoting country shippers for ungraded eggs, delivered, cases returned:

WINNIPEG GRAIN.

WINNIPEG, February 11.— Strong foreign cables and an excellent export inquiry continued the bullish movement in the Winnipeg wheat pit yesterday. Price gains at close of trading revealed advances of 2¼c to 2⅝c for the session.

Prices were run up 2c to 2½c during the morning, and despite liberal profit-taking sales advances were held.

The opening bulge was the result of strong Liverpool cables. During the morning reports came in of a revolution in Russia, and in a trice the market was flooded with buying orders, chiefly from the South. Prices advanced swiftly, and wheat became hard to buy.

Export sales overnight totalled 750,000 bushels.

Cash grain trading again was dull, with spreads showing no change from the previous close. Trading in coarse grains was confined to odd lots, with prices following the trend in wheat futures.

Futures:

Wheat	Open	High	Low	Close	Prev. Close
May	.65½	.66⅝	.64⅝	.66⅝	.64⅝
July	.66¼	.68¼	.66	.68¼	.65⅝
Oct.	.69	.70⅝	.68½	.70½	.67⅝
Oats—					
May	.29⅝	.30⅝	.29¼	.29⅝	.29¼

Oct.	.30¼	.31	.29⅝	.30⅝	.29⅝

MONTREAL PRODUCE.

MONTREAL, Feb. 11. — Egg and cheese prices were higher, while butter and potatoes were unchanged on the produce and dairy market here yesterday.

On the egg market carlot prices of fresh extras were unchanged at 30c, and fresh firsts lost 1c at 26c, while fresh seconds gained 1c at 21c a dozen. Storage firsts advanced ½c at 17½c, and storage seconds gained 1½c at 15½c a dozen. Fresh seconds to retailers were up 1c at 25c a dozen. Receipts were 884 cases.

Winter colored cheese gained ¼c at 14½c to 14⅝c a pound, while white winter was unchanged at 13c, and summer at 15½c to 16c a pound. Receipts were only 19 boxes.

Eastern Townships No. 1 pasteurized, regraded, grass-make creamery butter was quoted unchanged at 32¼c a pound, while Western butter, with few sales, was 32c. To retailers solids were 34c and prints 35c a pound. Receipts were 1,153 boxes.

New Brunswick Green Mountain potatoes were unchanged, carlot prices being 75c per 90 pounds bulk, and to retailers 85c per 80-pound bag.

SUPREME COURT FOR W. N. TILLEY?

Toronto Rumor Has It That Tilly Will Be Next Chief Justice of Canada.

ORDE TO MOVE UP.

TORONTO, Ont., Feb. 11—(C.P.)—"W. N. Tilley, K.C., Toronto barrister, the present treasurer of the Law Society of Upper Canada is rumoured as the next Chief Justice of the Supreme Court of Canada, is the latest gossip in judicial circles. Coupled with this is the reiterated report that Mr. Justice Orde will leave the bench of the Second Divisional Court at Osgoode Hall to become a Puisne Judge of the Supreme Court of Canada at no far distant date. Chief Justice Anglin and Mr. Justice Smith of the Supreme Court are now both on leave of absence.

"It is practically certain that at the session of the Ontario legislature which is about to open, a bill will be introduced providing for the reduction of the present appellate division in Ontario from ten to seven judges, and to provide that three judges will constitute a quorum in civil appeals, although as at present five judges will be necessary in a criminal appeal.

HITLERITES QUIT REICHSTAG POSTS

National Socialists March Out as Curtius Starts Speech on Foreign Policy.

WARNING GIVEN REMAINDER.

BERLIN, February 11 (C.P. — Nationalist Socialist members of the Reichstag, followers of the Fascist leaders, Adolf Hitler, to-day resigned their vice-presidency of the body and all committee chairmanships which they held.

This action was announced a few moments after the National Socialists had marched out of the Chamber at the beginning of Foreign Minister Curtius' speech on foreign policy.

They announced that they would not return until some important vote demanded their presence, but some of them drifted back after a short absence.

President Loebe, referring to their action, warned the remaining members not to forget that such a situation might lead to a lack of quorum unless those who favored parliamentary action made every effort to avoid unnecessary absences.

The President then read a letter from the Nationalist Vice-President of the Reichstag, Herr Stoeher, in which the latter laid down his resignation and announced the resignation of all committee chairmanships by the members of his party.

HIS FRIENDS REMARK HOW WELL HE LOOKS

Says Ontario Man After Using Dodd's Kidney Pills.

Mr. W. Brierley Suffered with Kidney Trouble and Inflammation of the Bladder.

Port Elgin, Ont., Feb. 11 (Special). —"I feel I must write just a few lines to say what a wonderful medicine your Dodd's Kidney Pills are," writes Mr. W. Brierley, a well-known resident of this place. "For over a year I was very sick and took all kinds of medicines. I suffered with Kidney trouble and Inflammation of the Bladder. I was just on the point of going to the hospital when I thought I would try Dodd's Kidney Pills as a last resource. They seemed to do me good, so I continued and have now taken 25 boxes. I feel like a new man and shall never again be without them. I have recommended them to several of my friends. They all notice how well I am looking after being so sick and losing weight."

If you wish to enjoy new health and energy all over the body, give Dodd's Kidney Pills a trial.

WEDNESDAY, FEBRUARY 11, 1931

A SEPARATE DEPARTMENT.

While the addition of another Cabinet Minister to an already large array of portfolio-holding politicians is an operation that it is impossible to get enthusiastic about—most people feel that there are more than enough Ministers now—there is little doubt that the administration of Ontario's fish and game resources should be more effective under a separate Minister than in the hands of a Minister who also has the most important department of mines to look after.

It is presumed that if a separate department of game and fisheries is inaugurated it will also be given control of tourist promotion.

The two things go hand in hand, for most tourists come to this Province to fish and shoot, and most certainly the department that is required to look after our reserves of game and fish should at the same time have the responsibility of keeping Ontario before the world as a tourist paradise.

Tourist traffic has become one of the greatest and most profitable industries in this Province, and the fact that this industry is buttressed on the fishing and hunting facilities of Ontario offers some justification for the creation of a separate department to administer these important matters.

THE FIRE LOSS.

The Ottawa Journal expresses the feelings of a great many people when it remarks that it is an extraordinary thing that so little is done to make fires less common.

The annual loss to Canada through fire is a tremendous sum.

During the week ending February 4, for example, the fire losses in this country amounted to $1,848,750, as compared with $1,067,200 for the previous week and $906,700 for the corresponding week of last year.

Such statistics are imposing enough surely to be truly alarming.

They mean that every year the people of this country suffer through fire a loss in the neighborhood of a hundred million dollars or an amount equal to one-third of the annual national revenue.

And that sum does not include damages from forest fires, which would, of course, materially add to the total.

In a sentence, as the Journal sums it up, "it's a fair estimate that during the past ten years the total losses from fires in Canada must have been nearly as great as our entire national debt."

It's about time we stopped talking about this matter and set about seriously to endeavor to stop an economic leak that is costing the country vast sums of money every year.

THANK GOODNESS, IT'S OVER.

It is to be fancied that most people in Ontario are heaving sighs of relief to-day at the thought that the noisy by-elections in West Hamilton and Grenville have at last gone beyond the talking stage.

The average citizen, looking back over the campaign of personalities and mud-slinging carried on by both sides, must feel like saying, "A plague on both your houses."

It is difficult to recall political fights in which leaders on one side and Cabinet Ministers on the other have indulged in such tirades of personal abuse as have been delivered unsparingly in these campaigns.

Charges and counter-charges, denials and recrimination have been piled up until the intelligent elector could not be blamed for deciding that neither party has in its conduct of these by-elections shown itself worthy of the support of the voters.

Certainly the plane on which the campaign has been fought is low enough to have been surprising even if it had been carried on by lesser lights of the two political parties.

But when leaders on both sides condescend to the knock-him-down-and-drag-him-out, rough-and-tumble tactics reported from West Hamilton and Grenville, it is no wonder that decent citizens feel that politics in Ontario are on the down grade.

AIR TRAFFIC GROWING.

Remarkable progress was made in aviation in Canada last year, according to figures just made public from Ottawa.

These statistics indicate that civil flying in this country is constantly expanding and is being developed on safe and sound lines that are making the airplane a steadily more useful factor in the commercial life of Canada.

Last year, according to the reports of nineteen commercial operators, three mining companies and the Ontario Government air service, there was a total of 5,961 passengers carried, while the freight transported by air over a total distance of 4,350,793 miles amounted to 1,449,337 pounds, which required 52,621 hours of actual flying.

In addition, it is estimated that some 115 other commercial operators carried on flying activities for 20,000 hours, while 23 flying clubs using light airplanes flew 14,833 hours, making a grand total of 87,454 hours of civil aviation.

That exceeds the total for 1929 by 7,667 hours—a substantial gain.

The figures show that during the year seven companies operated nineteen air-mail services under contract with the Post Office Department and carried a large quantity of mail.

Considering all this flying, the number of accidents throughout the year was remarkably small, there being twenty-one in all, in which twenty-five lives were taken, fourteen of the victims being pilots.

INSPIRATION!

There is inspiration—at a time when inspiration is needed—in the first of a series of magnificent announcements prepared by the Canadian Pacific Railway Company and appearing in the Star on Saturday. These inspirational messages have to do with the fiftieth anniversary of the railway. They tell the story of the accomplishments of the period beginning in 1881.

* * * *

The history of the Canadian Pacific during the past half century is the history of Canada in the same time. The building and operation of this mammoth transportation system is inextricably linked with the building and advancement of the nation. The nation made the railway possible—through the foresight of Sir John Macdonald and other statesmen of the day—and, by the same token, the railway made possible the development that we see here in the year 1931.

There were many timid men in Canada then, just as the timid are among us to-day. "This road will never pay for its axle grease," they said. But they were wrong. The Canadian Pacific has paid for its axle grease. It has returned millions in dividends to its shareholders. And it has given millions, hundreds of millions, more to the people of Canada—in opportunity, in wages, in the opening up of new country, in the provision of first-rate transportation facilities, in the erection of some of the world's finest hotels, in the creation of a splendid steamship service on the Atlantic, the Pacific and the Great Lakes. Indeed, it is not too much to say that the Canadian Pacific has constituted, for years, this country's greatest individual asset. Its building threw open the vast prairies of the West to cultivation and settlement. It made possible the linking together of the widely-separated sections of the country. It was the factor that made the success of Confederation possible.

* * * *

One can easily appreciate the viewpoint of those who believed the Canadian Pacific would fail. There were many reasons, apparently, why it could not succeed. Yet it did succeed, and amply justified the view of the men whose vision, courage and supreme faith made it possible. The West was but a wilderness then. In all the vast area west of the Great Lakes, the Province of Manitoba, the Northwest Territories (including the present Provinces of Saskatchewan and Alberta) and British Columbia—the population, in 1881, stood at but 108,000. Ten years later, thanks to the completion of the Canadian Pacific, this figure had grown to 350,000. Now it is in the millions.

And what of the Canadian Pacific to-day? It is the world's largest transportation system. Its railway lines extend from the Atlantic to the Pacific, with many branches running in every direction. Its colossal ships sail from Vancouver and Victoria to the Orient, and from Montreal, Quebec, Saint John and New York to Europe. It operates winter cruises everywhere. Its hotel system—including the new Royal York, in Toronto, the largest hotel in the British Empire—is generally acknowledged as the last word. Its telegraph lines represent 225,000 miles of wire. Its business extends to every corner of the globe. In times of ordinary depression it is able to report a satisfactory financial condition. While the timid souls of the year 1931 are wondering what is going to become of the world, and all that sort of thing—just as the timids of 1881 said the C.P.R. would never pay for its axle grease—this great public utility is planning the erection of a costly new hotel in the heart of London, England. We have heard, too, although we have no official confirmation, that it proposes to build a similar structure in the world's second largest city—New York.

* * * *

The wise men who direct the destinies of the Canadian Pacific Railway know that Canada's continued success is certain. They are, happily, of the same breed, the same great understanding and vision and courage, that marked the pioneer directors of the road. The Stratheonas and the Van Hornes have their counterparts in the Canadian Pacific to-day. The times are different, but the principles are the same. The pioneering is of another variety, but it is still pioneering. The world owes its greatest debt to the pioneers in every line. They are the men who made human progress possible. They lifted us out of the Stone Age. They banished candles and, later, oil lamps. They brought us the telescope, the telegraph, the telephone, the radio, the motor car, the airplane, the wonders of medicine and surgery. And they will bring us the greater wonders that lie ahead. The pioneers are relatively few in number, but they are vastly important. In the Canadian Pacific Railway to-day we find the same pioneering spirit that marked the times of 1881. We find President Edward Wentworth Beatty and his associates gallantly sustaining the noblest traditions of the past; blazing out into new fields; spending money on a huge scale; never faltering in their faith in Canada; contributing, immeasurably, to the continued progress of this great nation.

What an inspiration to all of us!—Border Cities Star.

EDITORIAL NOTES AND COMMENT.

Another coasting fatality—this time in Lindsay. The street is no place for sleigh-riding under modern traffic conditions.

Don't forget The Examiner Relief Fund. Money is urgently needed to take care of many emergency cases.

The Federal Parliament is to meet on March 12. It promises to be one of the most interesting sessions in recent years.

If mud is any sign of an early spring there has been plenty of it flung by both sides in the provincial by-election campaigns.

It has been said that the Women's Softball League in Toronto was a business rather than a sport. But apparently it has not been run on business lines.

Does Hepburn believe in Price cutting?—Kitchener Record.

Money goes further than it did, experts claim. It also stays away longer.—Illinois Star-Register.

It's getting so that a girl thinks she's modest if part of her skirt touches her ankles.—Brandon Sun.

The young lady should remember that the bird who drives up in front of her home and honks for her to come out will honk for everything else in life after he's married.—Kitchener Record.

Washington voted $30,000,000 to modernize battleships, and $45,000,000 to help its starving farmers. The naval guns we suppose can be used to shoot the wolf that sits on the farmer's doorstep.—Stratford Beacon-Herald.

Cold storage eggs sold at less than one cent a piece yesterday on the Chicago market. In case these eggs have to be held for some years the holders can always secure a good market in China where they like them ripe.—St. Catharines Standard.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner office on the day before it is desired to have them inserted.

COUNCIL AND RELIEF.

To the Editor of The Examiner.

Dear Sir:

I would like to have a short space in your valuable paper to give my opinion of what way our City Fathers or so-called City Council are doing about this city relief work.

For one thing, they have not got the slightest idea how the work should be run; if they had, they would have every man given a chance. Some men get every second week and others do well if they get one week in five; as for my part, I got one in seven.

It is a difficult problem to take care of, I know, but I think they are overlooking a few items. For instance, in some cases there have been men just laid off in factories, yet who can step right out of their jobs and get work on the city in a week or so. If those men cannot do without or possibly get along without work for a week or so, how is a man going to get work that has not been working inside and depends on outside work to keep him.

We hear that the city has 250 men working every week. There are supposed to be 750 or 800 men out of employment. If this were divided in three shifts every man would have a chance of some kind to have a living anyhow and not have some men getting plenty and others just existing and that's all.

Mr. Editor, I do not like to take up so much of your valuable space but would just like to have a few more words, if you are kind enough to let me have them.

It is about this grocery system they have got out. I do not think much of it, either. For one thing, if a man happens to have an insurance that is paid up for fifteen years or more, I wonder would the company take groceries for the next payment? Well, I guess not. Yet the person would by this system have to let his policy be cut off just for a few dollars or so. Well, there is only one thing to do — whitewash the country and give it back to the Indians. They would get along better than some of us white people.

Well, I guess I will close again. Thanking you, Mr. Editor, for your kind privilege. Yours truly,

HARD TIMES.

A Thought

FAME'S SECRET

Fame come to most men when they are very busy thinking of something else. It rarely comes to those who say, "Go to, now, let us become a celebrated individual among men." Familiarity with the life story of most great men will quickly confirm this fact. No one believe that Martin Luther deliberately planned to become the foremost figure of the Reformation or that Lincoln assumed the attitude he did toward slavery with the conviction that eventually it would make him president. These men, like other great men of the world, were busy thinking "of something else." Great men are remembeerd not so much for what they ultimately attained as for what they did while they were attaining. We can think of Livingstone without thinking of Africa, Carey without India, Frances Willard without prohibition and temperance. Fame has found these and scores of others, but it has found them only because they were "busy thinking of something else."

Hint About Marriages Leads To Court Action

LONDON, Ont., Feb. 11 —(C.P.)— James E. Garner, aged 68 is suing his half-brother, Robert Garner, aged 82 in the Supreme Court before Mr. Justice Garrow, asking for a declaration that the will made by Robert in his favor be declared irrevocable and that Robert's alleged promise to bequeath to him houses in London to the value of about $60 000 in consideration of advances made in the past twelve years to the amount of $5,000 odd is a valid agreement.

The action was brought on, according to plaintiff, but the defendant hinting that he might get married again, and by his repudiation of the alleged agreement, and his cancelling of a will made about ten years ago which will contained the provisions that plaintiff desires to stand.

FRENCH IMPORTS DECREASE

PARIS, Feb. 11 (A.P.)—French imports in 1930 decreased by approximately $235,050,320, in comparison with 1929. Exports decreased approximately $292,379,960.

Eight Lost On Similar Plane

Above is reproduced a photograph of a Blackburn Iris III, reconnaissance flying boat, which is similar to the R.A.F. machine which lived into the sea, off Plymouth, England, following an explosion, with the loss, it is feared, of eight of the crew.

LOWLY MUSKRAT BECOMES CENTRE OF RISING CANADIAN INDUSTRY

Rat Ranching In the Prairie Province Calls For Large Investments.

IMITATION OF IMITATION.

REGINA, Sask., Feb. 11 (SNS) — Will the steel-jawed trap reside with the prairie-schooner in the home of historical relics? It is not impossible. Canada's oldest industry is rapidly becoming domestic. Soon the gathering of furs will be as exciting as collecting eggs, milking cows or punching cash-registers.

Thirty years ago the experts of the fur trade said that fur-farming was a fantastic pipe-dream. To-day, with twenty-four million dollars invested in over four thousand fur farms, they are equally insistent that the future of their industry is dependent on cod-liver oil and kennels! And when an industry transforms a province into the world's largest fox farm, pets and coddles the malodorous skunk like a millionaire baby, persuades stenographers and plumbers to become rabbit ranchers — it's high time to sit up and take notice.

Take Johnny Musquash! Not so long since he was simply a marsh rat despised by trapper, farmer and small boy alike. To-day, he is the star of furdom — the pinch-hitter of the fur trade.

Prior to 1927 only a few individuals pampered stray muskrats. The money thus invested was so small as to escape the lynx-eyed officials of the Dominion Bureau of Statistics. Then — $562,749 invested in two years! It may be more than a million dollars by this time!

Ranching Is Popular.

Rat ranching has become popular. In the verdant valley of the Peace, a syndicate has turned sixteen quarter sections of land into an outdoor factory for the production of muskrat pelts; on the western shores of historic Lake Winnipeg another company has spent tens of thousands of dollars in the transformation of marshlands into a rat ranch; in the wooded, mountainous hinterland of British Columbia still another corporation has fenced thousands of acres for the same purpose.

Near the rising town of Kisbey, Sask., more than eleven thousand acres of lake and woodland have been devoted to a giant rat ranch. Sixteen miles of specially-made fencing has been imported from England to prevent the rats from straying into a wild and wicked world. There's a root cellar capable of holding fifteen thousand bushels of carrots, turnips and spuds — just be sure that the little rats have plenty to eat. And in the lakes and sloughs more than one hundred thousand rats are working on an overtime schedule, getting ready, say the owners, for an an annual production of one hundred thousand pelts per year!

Under the shady trees may be seen long, straight rows of fenced pens housing minks and badgers. It seems that the camp owners hate to place all their eggs in one basket! Moreover, dead rats, once deprived of their valuable pelts, can be used as part of the menu for minks — thus saving horse-flesh!

Now you can say what you please, but when this infant prodigy demands the investment of three hundred thousand dollars it's high time to sit up and take notice!

What's back of this sudden rise to fame and fortune of the plebian muskrat?

The trapline cannot keep pace with the growing demand for pelts; that's the explanation given to me by sun-tanned trappers and secretive furriers. The steel-jawed trap fails, and the kennel must provide.

I talked with one of these trapper-traders who knows the northland better than most of us know "Main" street. In 1900, he told me, more than one million muskrat pelts were sold at The Pas; last year less than fifty thousand. And this despite the fact that the demand for these pelts has enormously increased in the interim!

Substitute For Seal.

You see Johnny Musquash is one of the pinch-hitters of the fur trade. He substitutes for the rare seal taken on the ice-ribbed shores of Alaska. He has as many names as an heir-apparent. More than eight million muskrats walk the streets of our cities doing their best to look like other and rarer furs!

"There's nothing dishonest about it," one of Canada's leading furriers informed me. "We can't help ourselves anyway. There are not enough good furs to go round, so, by employing the less expensive pelts, good dyers and electric needles, we are able to give women passable imitations at reasonable prices."

Alas! The trapline begins to fail even to supply the needed muskrats! The seal dyed muskrat, which has taken the place of the seal, is getting scarce. And so there's an imitation of an imitation; European and Australian rabbits pinch-hit for the muskrat under the high-sounding names of "near seal and sealine."

This growing scarcity of the fur harvest from the trapline is back of the phenomenal rise of the fur farmer and rat rancher; the golden opportunity seized by furrier, fur trader and banker to invest money in marshlands.

What To-day Means To You

"AQUARIUS"

If February 11th is your birthday, the best hours for you on this date are from 9:30 to 10:30 a.m., from 4 p.m. to 5 p.m and from 10 p.m. to midnight. The danger periods are from 7:30 a.m. to 9 a.m. and from 2 p.m. to 3:30 p.m.

There are no pronounced influences on this date. The day should not be set aside for important family or personal occasions, as it is unpropitious. An uneasy feeling or suspicion and vague fear may overshadow you the later hours of the day.

Children born on this February 11th will have a quiet and an un-impulsive nature, but will be persistent, determined and not to be thwarted in their aims. They will be sociable and of a good disposition. They will make creditable records at school in most of their subjects, and will take a keen interest in sports. They will be more loyal than affectionate.

The planets were so placed on your birthday (February 11th) as to produce in you a very strong personality. The ideal and practical sides of your nature are well blended, and you have a fairly all-around character. You have the vision, will and energy to originate and the steadiness and practical ability to execute. When you have formed a plan of campaign, you do not rest until you have carried it out, no matter at what expense of time or trouble. You can both plan and perform, preach and practise, direct others, and do the work yourself. Destiny has fitted you to come to the front to occupy some position of responsibility and trust.

Your magnetic forces are very powerful. Your affections are very warm, and you make friends readily and are faithful to them. You particularly attract, and are attracted to those of the opposite sex. You should have a super-abundance of vitality and good recuperative powers in time of sickness.

There is a tendency for you to be too positive, too self-willed, and too dogamtic. From childhood on, you have failed to listen to others, and have insisted upon going "your ain gait.' Yout own judgment is good, as a rule, but there are times when it would benefit you to listen to those who speak from experience.

(Copyright, 1931, The Bell Syn., Inc.)

RYLSTONE.

Mr. and Mrs. Mark Morton and daughter Ruby and Mr. George Easton, were the guests of Mr. and Mrs. Jas. F. Finch, on Thursday evening.

The guests of Mr. and Mrs. John Stewart on Friday evening were: Mrs. Lillian Anderson, Messrs, Lorne, Raymond and Eldon Anderson, Mr. Roslin Finch and Miss Vera Finch.

Mr. and Mrs. George Gibson spent Friday evening with Mr. and Mrs. Roger Lain.

Mr. and Mrs. Victor Irwin and family, Mr. and Mrs. Willus Irwin, Mr. and Mr. Charles Stewart and daughter Pearle, were the guests of Mr. and Mrs. George Gibson, on Saturday evening.

Mr. and Mrs. John Stewart and family, Misses Gladys and Blanche Gibson and Mr. Clayton Mumby, were the guests of Mr. and Mrs. Richard Meiklejohn on Saturday evening.

Mr. and Mrs. Mark Morton and daughter Ruby and Mr. George Easton, spent Friday evening with Mr. and Mrs. Robert Mumby.

Mr. and Mrs. James Gibson and family, were the guests of Mr. and Mrs. Mark Shorts on Friday evening.

Mr. and Mrs. Andrew Thomson and Messrs. Clarence and Fred Thomson and Misses Leafa and Geruine Thomson were the guests of Mr. and Mrs. Victor Irwin on Sunday.

Mr. and Mrs. James Doupe and family have moved into this community.

DAISY DE BOE GRANTED PROBATION

LOS ANGELES, Feb. 11—Daisy De Boe, former secretary of Clara Bow, film actress, was granted probation from a prison term by Judge William Doran to-day, but she must spend 18 months in the county jail.

BIG INCREASE IN ASSURANCES IN FORCE IS SHOWN IN ANNUAL REPORT OF SUN LIFE COMPANY

Eclipse Record of 1929 With Over Seven Hundred Millions in 1930.

SEVERAL FEATURES.

Common Stock Holdings Show Substantial Excess Market Value Over Cost.

MONTREAL, Feb. 11. (Special to Examiner.)—The Annual Report of the Sun Life Assurance Company of Canada for 1930, has just been released. Its financial statement is always a great interest, and this year it contains many features of special note. Perhaps the most striking is the large decrease in assurances in force. In a year of depression it is a remarkable tribute to the Sun Life that its policies in force show such a large increase. Insurance companies of this continent as a whole show a decrease of five per cent in new business but the Sun Life is one of the few companies to eclipse its record of 1929 with over seven hundred millions in 1930n The Sun Life's common stock holdigs. show a substantial excess market value over cost. Dividends to policyholders will be continued at the present high scale.

Annually this great international life assurance institution has set up new records. The past year, although at the ow ebb of a world-wide depression, proved no exception, and to-day's report, presented at the Annual Meeting held here, shows that the Company wrote the largest amount of paid-for business since it began almost sixty years ago. President T. B. Macauley was in the chair, and presented the Directors' Report. His remarks, as usual, were vigorous, to the point, and very striking. The Sun Life is the largest company in Canada, and easily maintained its premier position as the largest company in the British Empire, writing ordinary business. The Company practically circles the globe. It maintains activs branches throughout the United State and Canada, most British countries, and in many foreign countries as well. The report establishes records inCanadian life assurance history.

Profit Increase.

A noteworthy feature is the profits to policyholders during 1930, when over twenty-five millions—an increase for the year of three million dollars—were paid or allotted in dividends. The total payments to policyholders and beneficiaries since the Company began business now amount to over five hundred million dollars. This amount if nearly equal to the total insurances in force in the Company's fiftieth year—just ten years ago.

During the year over seven hundred and five millions of new business was issued and paid for. This is an increase of eight per cent over the record of 1929, find means that during 1930 the Company issued approximately two and a quarter million dollars of assurance every working day of the year. Over six hundred thousand dollars was the daily income for 1930 making a total of over one hundred and eighty-six million dollars, an increase of approximately fifteen millions.

The business in force at the end of the year was two millions, eight hundred and sixty-three millions, an increase of four hundred and sixty-two millions. This item is of great interest for it demonstrates the very low-daspic ratio of Sun Life policyholders. As a matter of fact, the lapsed policies were surprisingly low during 1930, and would indicate the high type of business being written. It is also interesting to note that total payments to policyholders during the year were approximately eighty-one million dollars, of which nearly fifty-nine millions were paid to living policyholders. This would indicate the modern trend of insurance.

A record volume, for the Sun Life, of group assurance was written, approximately one hundred and four millions of this business being secured.

The assets increased during the year to five hundred and eighty-eight millions, while the interest rate was 6.44%.

PAIR CONVICTED WOUNDING CHARGE

Attempted Murder Charge Against Toronto Youths Lessened to One of Wounding.

TORONTO, Ont., Feb. 11 (C.P.)— Mike Cobis, 16 and Donald Irwin, 21, were to-day convicted on a charge of wounding when they appeared before a jury under Mr. Justice Jeffrey in the assizes here. The two youths who were before the court all day yesterday confessed to two charges of housebreaking but pleaded not guilty to a charge of attempted murder.

After a lengthy argument between defense counsel and the crown, it was decided that the attempted murder charge would be lessened to one of wounding. The two youths were arrested last October after a melee with a police officer, in a back lane. One Youth who is alleged to have fired the shot which struck the officer in the lip, managed to escape and as yet has not been apprehended. His Lordship deferred sentence until the end of the present assizes.

WORKLESS FLOCK TO VANCOUVER.

VANCOUVER, B.C., February 11 —Despite the fact that work is opening up outside of the city, unemployed men are still pouring into Vancouver from Prairie points, Relief Officer W. H. Cooper informed the Civic Relief Committee.

Active cases now on the Relief Department lists number 7,200, an increase of 630 during the two weeks ending February 4, he said.

SILVERWOOD'S EMPLOYEES OWN 58 PER CENT. OF COMPANY STOCK

Interesting Savings Plan is Provided By Large Canadian Firm.

NEARLY 1,000 WORKMEN.

The Directors of Silverwood's Dairies, Limited, recently inaugurated a "Thrift Plan" for employees, similar to those already in operation by the Imperial Oil Company, Bell Telephone Company, General Motors, and other well know concerns, whereby the employees are permitted to purchase Participating Stock of the Company at a special price to be deducted from the weekly pay cheques over a period of three years, the maximum amount which may be purchased by any one employee not to exceed 10% of the employee's salary during that period. The stock subscribed for is set aside and dividends declared are paid or credited to the employee's account. In the event of any employee leaving the service of the company, he may withdraw the amount paid in, plus interest at the rate of 6% per annum, less dividends received, or have issued to him certificate representing the amount paid for to the date of resignation, and receive his certificate for the full amount.

The decision of the Directors resulted from an application by many employees for some such plan, and from the known fact that most of the nearly one thousand employees of the company would appreciate a plan whereby they could systematically save a definite amount from their incomes, and at the same time use those savings in such a way as to participate in the profits of the Company.

The plan was announced on January 19th last, and within two weeks subscriptions have been received from almost every employee in the organization for a total amount of more than a quarter of a million dollars, which represented over 80% of the possible maximum subscription.

Including this subscription, the employees of Silverwood's Dairies, Limited, and their immediate families, own more than 58% of the participating stock of the company.

PIVOT ISSUES REMAIN STRONG

Wall Street Revels in Old-fashioned Bull Markets Again To-day.

SOME PROFIT-TAKING.

NEW YORK, Feb. 11. (CP)—Wall Street revelled in an old-fashioned Bull market in shares for the fourth successive trading session to-day.

The mid-week business statistics were largely negative in their implications, but the fact that they showed basic industries still able to offer strong resistance to depression was enough to maintain the carnival spirit among speculators. That spirit did not require much in the way of positive developments, since it represented primarily a revulsion from the marked morbid frame of mind inherited from the drastic adjustments of the final months of 1930.

The share market encountered a wave of profit taking in the first half hour, and again in the early afternoon, but trading turned dull on declines, and swelled to new record volume for the new year as the market advanced. Coppers and non-ferrous metals were strong in response to firmer metal prices. Among the volatile specialities, Case and Columbian Carbon sold up about 9 points. Auburn dropped 10½, recovered, and was then given a rest. Utilities and pivotal industrials were strong.

Russian Reports Lead To Chicago Wheat Drop

CHICAGO, Feb. 11. (CP)—Downturns in grain prices resulted early today from discrediting of reports of a revolution in Russia. Something of a counter-balance, however, was official announcement that the domestic winter wheat belt still urgently needed rain from Missouri eastward. Opening 1 3-8 cents down to ¼ up, wheat afterward underwent an additional drop. Corn started ⅛-1¼ off and subsequently held near to the initial range.

TORONTO RINK QUALIFIES FOR TROPHY FINAL

High Park and Barrie Will Meet For Governor-General's Cup.

16 WINNERS COMPETE.

Waubaushene and Kitchener Eliminated in Semi-finals.

TORONTO, Ont., Feb. 11. (CP)—Registering victories over Waubaushene and Kitchener, in the semi-finals to-day, Barrie and Toronto High Park rinks qualified for the final round of the Governor-General's curling trophy.

There were sixteen district winners competing for the trophy which is a two rink affair. In reaching the finals the Barrie rink has defeated Hamilton Victoria, Bobcaygeon and Waubaushene while Toronto High Park have eliminated Scarboro, Peterborough, and Kitchener.

The High Park-Kitchener game was a closely fought contest with the former team winning out by two shots. The Kitchener rink was skipped by H. Hall and J. H. Dobbie, while the Toronto aggregation was headed by P. MacInnes and A. Dow. The scores were High Park 33, Kitchener 31. In the second game Barrie won by eight shots over Waubaushene. A. Simon and G. Hubbard skipped the Barrie rinks while G. Price and F. Hodges lead the Waubaushene team. The scores were: Barrie 30, Waubaushene 22.

Security Prices Weaker On the Montreal Exchange

MONTREAL, Que., Feb. 11. (CP)—Security prices were generally a little weaker at noon to-day on the Montreal Stock Exchange; the losses in popular issues exceeding the gains in number.

There were notable exceptions, Shawinigan moving up a point in view of the annual report. Nickel selling up to 16¾, a gain of ¾, and Montreal Power up ¾ at 37.

National Breweries lost ¾ at 30. Atlantic Sugar 5-8 at 26 7-8, Brazilian 3-8 to 25 7-8, Cement ½ at 12, McColl Frontenac ½ at 18½, Smelters ½ at 137½, Cockshutt Plow ¼ at 9¼ and Massey Harris ¼ at 8½. Canadian Pacific lost 1-8 at 44 1-8.

Winnipeg Review

Special Service to The Examiner through the courtesy of E. J. Mawif Company, Grain and Stock Brokers, of Toronto

Wheat prices during the first period yesterday morning made gains of 1 1-8 to 1 5-8 above the close Monday night with considerable short covering going on, speculative buying through commission houses and some buying of thedeferred futures by Chicago, however, the market met heavy liquidation by longs and other selling pressure from different interests which filled up the demand, after which the market eased off, losing at the earlier gains. Around mid session an unconfirmed private reported from New York stated that Wall Street had received cables that a revolution had broken out in Russia. This immediately had an electric effect on the local market Shorts again starting covering, early sellers were re-instating their long lines, while there were some fairly large buying orders received from the South and East, while offerings were anything but liberal and prices advanced to new highs, showing gains for the day of from 2¼ to 2 7-8. The report of the evolution could not be confirmed from any source up to the close of the market which appeared to make the report doubtful but the market held very strong. Chicago new crop wheat was also very strong and corn was higher, while the New York Stock market had another bullish session. On the other hand Buenos Aires was unchanged at 3 o'clock this afternoon. Liverpool closed 1¼ to 1½ higher, but down ½ from the high. There was a fair demand for cash wheat but only odd cars were coming out, but buyers were not particularly anxious and spreads were unchanged to ⅛ better the low and off grades being mostly wanted. There was just a moderate export business worked overnight, around 300,000 bushels. Many are of the opinion that the Winnipeg market is advancing too rapidly as other markets are not following and our export business is being checked, Winnipeg futures closed 2¼ to 2 5-8 higher.

Coarse grains—The strength in the, leading cereal helped the Coarse Grains and higher prices were realized but they only partially followed the upturn in wheat. There appears to be fairly liberal offering of the coarse grains on the bulges, part of which is believed to be coming from the pool. Cash markets still remain fiuiet with only the odd car trading for domestic account. Flax market was firmer in sympthy with the strength in the general grains but there was very little going on.

Liverpool cables due 1 7-8 to 2 higher based on Winnipeg.

NEW YORK, Feb. 11. (CP)—Prime mercantile paper 2¾-2 ¾ per cent.

Foreign exchange steady; demand rates (Great Britain in dollars, others in cents): Great Britain 4.86; France 3.92 1-8; Italy 5.23¼; Germany 23.77. Canadian dollar 1-64 of one per cent discount.

SUN LIFE COMPANY HEADS

T. B. MACAULAY, President.

ARTHUR B. WOOD, Vice-president and Chief Actuary.

Life assurance has now, apparently, reached such a point in public estimation and confidence that it seems comparatively immune from the ordinary vagaries and fluctuations of other lines of business. The Sun Life Assurance Company of Canada, whose report appears elsewhere in this issue, seems to enjoy this public confidence to an unusual degree, for it reports new policies written during the year to the net amount of over $700,000,000, the largest in the company's history of sixty years.

This year it celebrates its diamond jubilee. A graphic picture of its progress is shown in the report which discloses, decade by decade, its growth from assurances in force in 1880 of less than $4,000,000 to over $2,800,000,000 today; and of an accumulation of assets from less than $500,000 in 1880 to nearly $590,000,000 at the present time. Even more striking is the fact that the company has paid to policyholders and beneficiaries since its organization over half a billion dollars—more than its entire assurance in force only ten years ago. This is almost magical and helps to explain the widespread faith of ordinary men in life assurance from the standpoint of investment as well as of family protection.

METAL ISSUES ACTIVE TO-DAY

Further Improvement in Copper Situation Reflected in Action on Standard.

GOLDS ARE QUIET.

TORONTO, Ont., Feb. 11. (CP)—Further improvement in the coppre situation was reflected in action of base metals stocks on the mining market in the forenoon to-day. Golds were relatively quiet and mixed and oils were dull but firm.

International Nickel saw heavy turnover and a gain of 60 at $16.75 around midday. Noranda was up 40 at $17.90, after selling above $18 for a time, and Hudson Bay was up 36 to $5.35. Lindsleys joined in the advance, Sherritt Gordon gaining 4½ to 95, Sudbury Basin 5 to 70 and Ventures a cent to 50. Amulet was 3 higher at 35.

Action was dull in the higher-priced golds; Vipond, off 3 to $1.11, showing about the only significant change. Penny stocks were fairly active with San Antonio; Federal Macassa, Central Manitoba and Bidgood gaining from small fractions to a cent a piece.

Report of an increase in allowable flow in the Oklahoma city field from 1.5 to approximately 2 per cent of potential was reflected in firmer prices for Ajax oil and Acme.

Satisfactory Reports at St. John's W. A. Meeting

The February Devotional and Business meeting of St. Johns W. A. was held on Tuesday, February 10th, in St. John's Parish House. The chair was occupied by Mrs. G. S. Cameron, 1st vice-president, in the absence of the President, Mrs. H. A. Morrow.

The opening hymn was "The King of Love My Shepherd is," and in the absence of the Rector, Dr. R. C. Blagrave, the scripture reading and February Devotions were taken by Mrs. T. M. Delaposse.

The secretary, Mrs. S. Bridge, read the minutes of the previous meeting and the treasurer, Mrs. W. T.Halloway read the Financial Report, and also gave as a very interesting discourse on the Budget for 1931, which has increased somewhat. Pamphlets were also handed around, explaining the "Special W. A. funds."

All other branches gave satisfactory reports. The Dorcas convenor, Mrs. J. Rigden, describing the splendid bale sent last month to the White Settlers in the far West, containing clothing, quilts, and many pieces of knitted goods for babies and growing children, made possible by the co-operation of a band of knitters under the leadership of Mrs. Tinney who are also going to work on quilt tops which are always needed.

Special mention was made of the Women's Day of Prayer to be held on the 18th of February, in the Salvation Army Temple. Our representative being Mrs. A. L. Amys and all members were asked to keep this date in mind.

A very interesting report on the "Teen Age Girls Branch" was read by Mrs. Chas. Stanton, who has once more offered to sponsor the girls, owing to the resignation of Mrs. Wm. H. Ashley, whose health does not permit her to carry on her good work.

There being no Board notes or Bulletin this month, the meeting was closed with the members prayer and benediction after which a dainty tea was served by Mrs. Lemings and her refreshment committee.

POLICE INSPECTOR SHOT

SAIGON, French Indo-China, Feb. 11 (AP)—A police inspector here was shot by a Communist manifestant to-day as he attempted to break up an open air protest meeting.

The assailant fired twice wildly at another inspector before he finally was arrested.

Ingram Not Satisfied Will Sue Hepburn

ST. THOMAS, Feb. 11 (C.P.)—Andrew A. Ingram, K.C., former chairman of the Western Ontario Conservative Association, announced to-day he was not satisfied with explanations given by M. F. Hepburn, M.P., Ontario Provincial Liberal Leader, at Cardinal, Ont., last night, respecting Mr. Hepburn's recent speech in Hamilton relative to Mr. Ingram and the possibility of his obtaining a Judgeship. Mr. Ingram said today, he would commence legal proceedings against Mr. Hepburn for alleged slander and ask for unstated damages. Mr. Hepburn's Cardinal speech, said Mr. Ingram, was no retraction of the former's "allegations against professional integrity."

BLAST IN MINE ENTOMBS 3,000

Heavy Loss of Life Feared in Manchurian Shafts 20 Miles East of Mukden.

ONLY FEW ESCAPE.

PEIPING, China, Feb. 11.—(CP)—Chinese reports from Manchuria here today said that 3,000 miners were entombed Sunday noon in the Xushun mines by an underground explosion. A considerable loss of life was feared.

Rescue work was started immediately but only a few persons could be taken from the shaft. Relatives of the entombed men gathered at the pit head, in their grief making a pitiful scene.

The Fushun mines, one of the most important assets of the South Manchuria railways, are about twenty miles east of Mukden. Details of the disaster were not immediately ascertained.

WHEAT.

Winnipeg—Open: May 66; July 67⅞; Oct. 69¾. Close: May 66⅞-⅞; July 66½; Oct. 68½.

Liverpool—Open, ¼-⅝ higher. Close ¼-⅝ lower. Due, 1⅛-2 higher.

Copper Price Gains One-Quarter Of Cent

NEW YORK, Feb. 11. (CP)—The price of copper advanced a quarter of a cent a pound to-day in both the domestic and export markets.

The rise represents an increase of one-half cent a pound within the last 24 hours from the 9½ cent price to which the metal dropped last week to equal the 35-year low established last October.

To-day's advance brought the domestic price to 10 cents a pound delivered, and the export price to 10.30 cents a pound, at European base ports.

LATEST SEXTANT BOON TO FLIERS

Gauges Altitude of Sun in Spite of Fog or Clouds—Perfected in Holland.

TRIED ON MAURETANIA.

NEW YORK Feb. 11 (CP)—A new sextant which can gauge the altitude of the sun in spite of fog or clouds may revolutionize ocean navigation.

Arriving here yesterday, Captain S. G. S. McNeil of the Liner Mauretannia said it had been tested with excellent results during the crossing. It located the sun through heavy black clouds, he said, and would be equally useful in getting through the densest fog as long as the sun was above the horizon.

The invention is the result of eight years' effort by Paul Humphrey MacNeil designer of the "fog eye" and was perfected in Holland.

SEMINARY HEAD IS NEW BISHOP

Monsignor Joseph A. O'Sullivan Named Bishop of Charlottetown, P.E.I.

ST. AUGUSTINE RECTOR.

ROME, Feb. 11 (A.P.)—Monsignor Joseph A. O'Sullivan, Rector of St. Augustine Seminary at Toronto; today was named Bishop of Charlottetown, P.E.I.

Second From St. Augustine

TORONTO, Ont., Feb. 11.—Once again the presiding head of St. Augustine's Seminary has been selected for episcopal honors. Monsignor Joseph A. O'Sullivan, Rector of the Roman Catholic institution, just east of Toronto, who has been appointed to succeed the late Rt. Rev. Louis J. O'Leary as Bishop of Charlottetown, follows the lead of his immediate predecessor Rt. Rev. John T Kidd, Bishop of Calgary.

Monsignor O'Sullivan was born in Hamilton, Ont., and educated in the Separate schools of that city and St. Michael's College, Toronto. His early work in the priesthood was centred in Hamilton and later he was appointed rector of St. Mary's Cathedral there. He held this post until his transference to the Seminary.

Noted for his scholarly attainments, Monsignor O'Sullivan is also known as a capable administrator and orator.

Bishop O'Leary, who Monsignor O'Sullivan suceeds, died in Dayton, Ohio, last summer.

It was stated in Roman Catholic circles to-day that the selection of Monsignor O'Sullivan for the vacant Bishopric was not unexpected in view of his high scholarship, administrative ability and lovable disposition. On the other hand, Monsignor O'Sullivan declared to-day that he had heard nothing from official quarters himself, and until such time as he did, he would refrain from commenting on the reported appointment.

Housing subsidies in Northern Ireland may be reduced.

COPPER GAIN LEADS TO RISE IN TWO ISSUES

Nickel Equals Former Top of 16¾ While Noranda is at New High at 18.

MODERATE TRADING.

Remainder of Toronto Exchange List Settles Into Dull Activity.

TORONTO, Ont., Feb. 11. (CP)—Nickel and Noranda this morning continued the advance on Toronto Stock Exchange which had marked dealings since Saturday last. Turnover was moderate, the rise in the price of the shares attributed to advances in the price of both domestic and foreign copper prices again to-day. Nickel equalled its former top at 16¾ while Noranda at 18 was at a new high for the year.

The remainder of the list settled into dull trading. Volume dropped considerably below that of yesterday and, with the single exception of Service Stations which ran up 1½ points to 33, price changes were of a fractional variety and carried no import. Most of the leaders were unchanged, a few here and there down ½ point or less.

ANNOUNCE TERMS OF ELECTION ACT

New Manitoba Provisions Call For Permanent Returning Officers.

SECOND READING.

WINNIPEG, Man., February 11 (C.P.). — Terms of the new Manitoba Election Act, under which the Government plans to hold the next election, were made known yesterday when the Bill came before the Legislature for second reading. New provisions call for permanent returning officers, a different registration system, stricter observance of candidate-qualifications, and involve provision of new voters' lists.

Based largely on Dominion and Alberta Election Acts, the new act is aimed at elimination of difficulties facing electors in listing their names, explained Hon. W. J. Major, Attorney-General. If names were not on the list at the time of registration or revision, he said, provision was made for putting them on at election day.

Nomination is to be 20 to 30 days from the date of issuance of writs, it was explained, and polling day the tenth day after nominations. Personal registration will be eliminated, and revision will be available by the returning officer, to be completed within two days. Not more than three deferred elections are permitted under the Bill.

BUFFALO LIVESTOCK.

EAST BUFFALO, N.Y., Feb 11. (CP)—Hogs 2,000; holdovers 100; fairly active to all interests, steady to slightly lower, mostly steady; bulk desirable 140-200 lbs. 8.60-8.65; 220-250 lbs. 8.00-8.50.

Cattle 150; common and medium steers and heifers barely steady at 7.00; cutter cows 2.50-4.25.

Calves 100; vealers unchanged 12.00 down.

Sheep 1,200, lambs active, 25 to mostly 50 higher; good to choice 9.75-10.00; few plain descriptions 8.25.

While several flour mills in Denmark experienced financial difficulties in 1930, breweries report they had a banner year, both in production and earnings.

FURTHER ADVANCE IN COPPER STRENGTHENS MINE QUOTATIONS

Nickel, Noranda and Hudson Bay All Meet With Improved Demand.

Visiting Noranda Property.

TORONTO, Ont., Feb. 11. (Special to Examiner.)—Another advance in copper prices and publication of January statistics showing surplus stocks of refined copper reduced and a further cut in the rate of production was reflected in new strength to-day among the copper shares, nickel, Noranda and Hudson Bay all meeting improved demand. Though lower prices base metals failed to move far, prices displayed firmness.

Robert Stanley, president of International Nickel is reported to have been in Montreal recently attending a meeting of directors of another company. With regard to the reduction of the dividend to a sixty cent annual basis it is pointed out that as depreciation and depletion charges amount to seven cents per share each quarter, there is little question but that current earnings, figured before these charges, are covering the new rate. The management anticipates that a gradual upward trend will be in evidence in 1931.

A perceptible improvement is reported to have been noted in sales of nickle since the first of February. The increase, in official circles, is chiefly attributed to special efforts of the research and sales department, appropriation for which was substantially increased last fall. The use of nickel in nickel steels and in cast iron, which dropped early last year, has now regained its 1929 level, it is stated.

A number of Noranda directors, including the President, J. Y. Murdoch, are leaving Toronto to-night for the mine where they intend spending a few days. Mr. Murdoch describes it as purely a pleasure journey, no business motive lying behind the trip.

The allowable flow in the Oklahoma City pool has been increased to 125,000 barrels daily from 90,000 barrels by order of the corporation commission. Based on the fact the former allowable flow was approximately 1.5% of potential, the new rate would permit companies to produce in the neighborhood of 2% of potential.

Acme Gas, whose deal for the Oklahoma City well is still in the air as faras the street is concerned, was rumored to-day to have brought in a new well in Western Ontario with an estimated flow of 1,000,000 cubic feet of natural gas. Officials of the company could not be reached for confirmation or details.

Maclaren-Quebec Power Company

30-Year 5½% First Mortgage Sinking Fund Bonds, Series "A"

Dated February 1st, 1931 Due February 1st, 1961

Maclaren-Quebec Power Company will own extensive water powers on the Lievre River, Quebec, permitting an economic installation of at least 245,000 electrical horsepower. Installations at High Falls (about 30 miles from Ottawa), capable of developing 86,000 H.P. are now completed and power is being delivered.

Contracts extending beyond the maturity of these bonds have been arranged with the Hydro-Electric Power Commission of Ontario and The James Maclaren Company, Ltd. for the sale of 125,000 H.P. and 66,000 H.P. respectively.

We regard these bonds as an attractive investment, and shall be pleased to furnish full particulars upon request.

PRICE: 94 and accrued interest, to yield 5.93%
(Plus Federal Transfer Tax)

R. A. DALY & CO.
LIMITED
80 KING STREET WEST
TORONTO
Representative
F. S. BROWN, Peterboro.

INDIAN NATURALIST DEVOTES LIFE TO PROTECTING BEAVER

Grey Owl, an Apache Indian, Now Has "Farm" at Cabino Station.

ANIMALS ALMOST TAME

MONTREAL, Feb. 11—What Jack Miner has done for wild fowl, Grey Owl is doing for the beaver, and the gaunt and braided Apache recently unfolded here a rare tale of propagating Canada's national animal. Grey Owl, whose address and that of his beavers is Cabino Station, Temiskaming, Northern Quebec, sat in his steam-heated hotel room with a fancy green telephone. His buckskin coat with bearskin buttons, his gaudy ceinture and Indian footwear, seemed a strange contrast to the surroundings. His wife, who wears no wedding ring, Indian fashion, but who smokes cigarettes, formed an interesting background for this gaunt redskin so far from the haunts of his fathers.

Grey Owl is an Apache. From far Arizona, amid the Gicarilla tribe living along the north shores of the Rio Grande, he came to join Buffalo Bill's circus. He earned $60 a month doing war dances twice daily before Americans, and to the delight of popeyed London audiences when the circur visited London.

He told a reporter: "I trapped up and down through Northern Ontario and Quebec for three years and got perhaps six beaver. In my opinion the beaver as a wild animal is done. One day my wife suggested, after I had killed the beaver parents, that I keep the baby beavers. We did. To-day the most retiring and shy of all wood animals is with us as tame as a dog or a cat.

"The beaver is very intelligent. We have them push open the doors of our shack and come in. A beaver will take a bottle and drink out of it, squeezing it all the time with his paws as he does. He "talks" all the time also.

"I have killed beavers for years. Now I am sacrificing everything to raise beavers. Perhaps it is idealism —you can call it what you will—but I am trying to make up now for the beavers I killed. I am sorry I ever killed any. They are sacred to me now.

"You would like to see the beavers glide down the river at dusk and then come in to the shack and get an apple. If you are a stranger they will give you quite a scrutiny, and if they do not like you they will try to push you away. If anybody the beavers no not know lands at our dock the beavers will try to put them off.

"You can call the beavers in and tell them to wrestle and they will wrestle for you."

"Have you any farm for them?"

"No," replied this Indian. Then he said paradoxically: "We keep them by letting them go."

Place Commandments On 1st Page Of Paper

A suggestion that the Ten Commandments be printed every day on the first pages of our newspapers was made yesterday afternoon in a sermon preached over Station WPCH by Rabbi Herbert S. Goldstein of the Institutional Synagogue.

"They should also be given," the speaker added, "as memory gems in our public schools, high schools and colleges, so that they might become part and parcel of our everyday living. The Ten Commandments are the sine qua non of society. The safety of the individual and of the nation is dependent upon the attitude toward these Commandments. They call for the acceptance of a higher power than ourselves in the recognition of God as the supreme judge of human affairs, and they make for the social stability between man and man."

HIGHWAY IS JINX FOR TRAVELLER

Toronto Man Meets With Two Serious Crashes Near Same Spot.

UNHURT BOTH TIMES

HAMILTON, Ont., Feb. 11. (CP)—About three weeks ago, W. F. Hill, traveller for a Toronto plumbing firm, drove his car along the icy highway approaching bridge number one at the western entrance to this city. His car skidded, crashed through the guard fences, and tumbled 200 feet to the bottom of a ravine. Mr. Hill climbed out, his hat shoved down over his eyes, but none the worst for his terrible experience.

Last night Mr. Hill started out for Hamilton once more. He reached the outskirts of the city and neared the dread spot of his former accident. Suddenly a loose fragment of pavement, struck by the wheels of his car bounced high into the air, crashed through his windshield, knocked his hat down over his eyes and finally landed in the back seat.

Beyond the displacing of his hat, Mr. Hill was not hurt. The rock was large enough to have gravely injured him had it struck him fairly in the face. His new car bought to replace the one destroyed in the previous accident, is somewhat the worse for wear.

BLAME OFFICERS FOR WIFE'S DEATH

Man Says Illness of Wife Direct Result of Immigration Officers' Treatment.

RETURNING TO U. S.

WINDSOR, Ont., Feb. 11—(By the Canadian Press.)— "United States' immigration officers killed my wife," declared Glorian Lacoursiere as he reported that his wife had passed away this morning from a heart attack.

He declared that the illness of his wife was the direct result of the treatment he and she had received at the hands of United States' immigration officials in Detroit.

According to his story he entered United States legally in 1926 and obtained work in Pontiac. Later in the year he was married and a home established in which he now claims a large equity. Last April he was injured while at work and has remained unfit for heavy labor. He came back to Canada for a time and on January 31 attempted to return to Pontiac. He was refused admission on the grounds that he was liable to become a public charge and that his visa had expired because it was not used for more than six months.

He claims that on a second attempt on February 2 he was deported for a year and a day after he and his wife had been shuttlecocked from one office to another in Detroit for several hours. The wife went to Pontiac and though she was sick in hospital he was refused the right to go to her bedside so she was moved here last week. She pasesd away this morning.

Soo Sets Record For Smallest Baby

SAULT STE. MARIE, Ont., Feb. 11 (C.P.)—The Sault goes one better than Sarnia where the birth was announced yesterday of a baby girl weighing 30 ounces, when the General Hospital here reports having two births registered there of babies less than 25 ounces, in the past four months.

Three weeks ago, a baby girl, weighing 24 ounces, was born to Mr. and Mrs. Richael Reilly. She is now doing well and weighs three pounds, one ounce. A similar case is noted in which a baby daughter was born to Mr. and Mrs. J. O. Gray, four months ago, weighing only 20 ounces. Now at the age of four months, the baby weighs four pounds.

Poland has established an unemployment relief tax of about one-fifth of a cent per horsepower on passenger automobiles.

PATROL WAGON FARE IS $1.00

Culprits Will be Assessed $1.00 for Ride in Black Maria.

SMARTEN UP SERVICE

NEW BRITAIN, Conn., Feb. 11.—The New Britain police board is considering a proposal that all culprits carried in the police patrol wagon be assessed $1 for the ride.

Out of the State of Connecticut have come many things to please or excite the populace. An American gentleman who preferred that his public should know him as Mark Twain started it, all when he wrote of a "Connecticut Yankee in the Court of King Arthur." Subsequently a collegiate youth organised an orchestra which carried the fame of his native state abroad under the title of Rudy Valle and his Connecticut Yankees.

And now a new thought is born in the same territory. From so stereotyped and official a department as that which maintains the undeviating law of the land is heard a plan which is a fitting competitor for all those which have gone before.

Smarten Up Service

It's a great idea. With the revenue from this department the police could smarten up the service in this important branch of administration until the arrival of the traditional vehicle in front of your home would become an occasion of ceremony. In our own day, and for some years gone by, the Black Maria has been a stamp of shame. Its sombre black lines and Spartan simplicity have been an unwelcome visitor not to speak of the grim attendants, clad in inspiring blue.

But the Connecticut plan opens new vistas. It promises much for the comfort and convenience of those prophets of freedom who refuse to be fettered by man-made law.

Imagine your own reactions if a handsomely liveried chauffeur summoned you to your door and in courteous tone, invited you to accompany him to police headquarters to face a charge of embezzling or some such indication of your appreciation for the letter things of life.

Sure, you would not hesitate—more particularly when you observed that your conveyance would be a luxurious equippage, outfitted after the fashion of a high priced limousine and containing every possible contrivance to make your journey a happy one. Or if a party of your friends and yourself were suddenly summoned from a friendly game of poker or aother happy pursuit, not recognised by law and order to journey pleasantly across the city in what would possibly be called the "celebration sedan" or the 'Tiacre of Freedom" or something equally inspiring, would you balk at payment of the purely nominal sum of one dollar which would assure the maintenance of this service. Possibly you would even attempt to press a liberal tip into the palm of the chauffeur. He, of course would refuse your offering on the grounds that it might lower the prestige of the service.

JUNIOR EFFICIENCY LEAGUE ELECTION

Havelock League Divides Into Two Sections, Junior and Senior.

HAVELOCK, Feb. 11.—(Examiner Correspondence). — Havelock Efficiency League has recently been divided into two groups, a senior and junior. The senior officers remain the same, but the juniors, composed of children up to twelve years of age, held an election and appointed the following officers:

President, Edythe Russell; vice-president, Maurice Williams; second vice-president, Winnifred Chilies; third vice-president, Fred McLaughlin; fourth vice-president, Minerva Isaacs; secretary, Marion Aikens.

The Junior League meets on Monday evenings from seven until eight, the senior meeting is at eight p.m. Meeting next week will be on Wednesday instead of Monday on account of the play in the town hall.

FEWER WOLVES BEING CAPTURED

Although Bounty Has Been Increased Number Caught Decreased 500.

WIRE SNARE IS BEST.

TORONTO, February 11. — Ontario's wolf catch is decreasing year by year. Not because there is less incentive than in the past for trappers to go after the brutes. Not because trapping methods have deteriorated. "But,' 'as Donald McDonald, Deputy Minister of Game and Fisheries, emphatically said yesterday, "because there aren't so many wolves any more."

Departmental figures made available yesterday on the catch for the past three months show that 1,300 wolves were taken in this period, 335 in November, 564 in December, and 401 in January, as compared with 1,374 taken in the corresponding period a year ago. The falling off has occurred, what's more, in the face of the increased bounty of $25 that was legislated at the 1930 session of the Legislature, and made applicable to settlers' sections of the Province.

Further indication of the steady thinning out of the wolves can be seen in the fact that in '929 some 500 more wolves were destroyed in this three-months' period than were taken this year.

In the returns made public yesterday, the Thunder Bay District leads the way, with 93 wolves, Kenora is second with 63; Rainy River next with 56, and the Sudbury district fourth with 41. In all these territories the steel-wire snare, recommended by the Department for use in 1926, has proved the best wolf destroyer . The Department is always open to suggestions for better anti-wolf measures, and during the past year put many devices to the test, but, without exception, they failed to measure up to the advance notices, and were rejected.

One pit-trap, strongly recommended by a United States sportsman-inventor, was tried steadily for three months at various locations in North-western Ontario, but failed to land a wolf, although it did bag a dog, several deer, a couple of lynx, and a heifer that had strayed from a settlement farm. Exhaustive trials were also made with a special scent, supposedly irresistible to the wolf, but not one of the "timber gentlemen" would prowl within 500 yards of it.

QUIT TALKING EMPIRE, RESIGN

(Continued from Page 1)

work of Lord and Lady Willingdon while they were in Canada. Alluding to the Earl of Bessborough, he said the newly appointed Governor-General's personality typified "all we mean by the English gentleman."

Greeted By Cheers.

Mr. Ferguson, who was greeted, when he arose, by prolonged cheering, warmly associated himself with the references made to Lord and Lady Willingdon. Of Lord Bessborough, Mr. Ferguson said he was young in years, full of patriotic zeal, marvellously trained in business, and was the possessor of a splendid military career and of every characteristic which makes the titled man capable of giving the lead in any country.

Loud and long were the cheers which greeted Mr. Ferguson when he went on to speak about Mr. Thomas's references to the term, the British Empire.

"The moment I have to keep silence about the British Empire," said the High Commissioner, "my resignation will be received by the Canadian Government. But for the time I remain in London I hope not only to proclaim my faith, but, if it is necessary, to proselytize any doubting Thomases."

Canada's Destiny.

The High Commissioner asked his audience to consider where Canada's interest would lie were it not for the bond of blood and kinship which drew the two countries together. He would ask the British people to remember that those living afar off were making tremendous sacrifices to maintain their positions as units of the Empire.

Canada had an investment of three billions of dollars in her railways, which, if they had been built according to the law of economics, would carry traffic south of the line.

Temporary Difficulties.

"We in Canada," concluded Mr. Ferguson, "are having our difficulties, but I am glad to say they are of a temporary character. There are unmistakable signs that we are emerging, and that, before many months, we shall again be fairly upon the highway toward regaining our former prominence in general political life."

Wm. Gore To Address Local Engineers

The next meeting of the Peterborough Branch of the Engineering Institute of Canada will be held on Friday, February 13th, in the Paragon Room. William Gore, M.E.I.C., of Messrs. Gore, Nasmith and Storrie, Consulting Engineers, Toronto, will give an address entitled "Some works of water supply and sewage treatment under construction during 1931."

Mr. Gore has been a frequent visitor to the Branch, and has on each occasion given a most interesting address and it is hoped that there will be a large attendance of members and others.

Members will kindly note the change in the day of meeting from the usual Thursday to Friday.

"Skinny" Mother of 8 Children Gains 10 Lbs. in 4 Weeks

MONT JOLI, P.Q.—"Was skinny weak, run-down, looking after 8 children," says Mrs. Eloi Gagnon, Jr. "Tried Ironized Yeast. Gained 10 lbs. in 4 weeks. New strength." Don't be "skinny", weak, nervous New Ironized Yeast adds 5 to 15 lbs. in 3 weeks. Ugly hollows fill, bony limbs round out. Blemished skin clears. Constipation, indigestion, "nerves" go overnight New pep first day. Rich, red blood

Ironized Yeast is two great tonics in one. Weight-building brewer's Yeast plus strengthening, blood-enriching Iron. Many times more effective than unmedicated yeast. Results in half the time.

Start now to gain weight, health. Avoid danger of serious ills Take these pleasant little tablets. No gas; no yeasty taste. If not delighted with quick gains, manufacturer refunds money. Get Ironized Yeast from druggist today. Feel great tomorrow. New pounds quick

IRISH CHARACTERS RICH IN INTEREST

In Cultural Scense Ireland is One of Oldest Countries Europe.

MONTREAL, Feb. 11.—Many of the Irish poets, dramatists and storytellers are as rich in interest as anything in their literature, George W. Russell—known to literary circles as A. E.—said at the beginning of a lecture on "Some Personalities of the Irish Literary Movement," before a large audience of the Women's Canadian Club in the Windsor Hotel. They have one thing in common, he continued, in that they are trying to bring the world outside them into harmony with the ideal world of their imagination.

In a cultural sense, Ireland is one of the oldest countries in Europe, the lecturer said. He traced the cycles of literature down to the act of Union in 1800, when English became the language of the courts and schools with a "saving remnant" of Gaelic speech among the people on the western seaboard. The people were in the position of having lost their own culture. This, the speaker said, is reflected in the novels of Lever and Lover with their careless, sporting, shooting, drinking characters, and the stage Irishman that "every real Irishman would like to shoot."

The lecturer recalled the change that came towards the end of last century when Ireland, sterile in literature for almost a century, broke out suddenly into poetry and drama. The grandfather of the Irish literary movement was Standish O'Grady, to whom Mr. Russell said he owed his own early enthusiasm.

CHURCH BOARD IS RE-ORGANIZED

Bethel Congregation, Emily Township, Has Most Successful Year.

OFFICERS ARE NAMED.

EAST EMILY, Feb. 11 (Examiner Correspondence)—The congregational meeting of Bethel United Church was held on Thursday evening.

The pastor, Rev. Mr. Blanchard occupied the chair, with Milton Sherin acting as secretary.

The church board was re-organized. The elders appointed are Messrs. Harry Lowes, William Harrison, Herbert Jackson, Moses Ruth, Thomas McMullen.

The stewards are Messrs. Ira Switzer, Eugene Switzer, Harry L. Jackson, Cecil Casey and Richard James.

The various reports of the church were given. Mr. Ira Switzer gave the steward's report of the finances.

Mrs. Harry L. Jackson gave the report of the Ladies' Aid, and the building fund. Mr. Cecil Casey gave the report of the Young People's Union.

Rev. Mr. Blanchard gave a report of his work during the year on the circuit. Mr. Milton Sherin was appointed recording secretary for the coming year.

At the close the ladies served refreshments and a social half hour was enjoyed by all those present.

The Ladies' Aid held a business meeting in the basement of the church last Thursday evening, when they decided to hold their usual supper and concert in March.

The annual meeting will be held on Thursday evening, February 12th, after the Young People's regular meeting.

Police Putting Stop To Lottery Tickets

TORONTO, February 11. — Prosecutions have been started by the police in a drive to stop the flood in Toronto of lottery tickets on horse races to be run this spring in England and Ireland

Thousands of these tickets, police found, are being sold in this city, and persons who buy one or more of these speepstakes tickets on the chance of sharing in the thousands of dollars mentioned in the prize lists will be prosecuted just as vigorously as those offering the tickets for sale.

In Police Court to-day four men will appear charged with selling and distributing these tickets. A fifth man, alleged to be the main source of supply in Toronto for agents, is expected by the police to surrender himself in court by the time the other four men appear in court

Planes now fly between London, England, and Delhi, India, in seven and one-half days, as compared with 16 days by the fastest possible transportation.

Kidney Trouble Made Me a Wreck Stopped It Quick

Backaches, Indigestion, Headaches Also Go. Thanks "FRUIT-A-TIVES"

"I had terrible trouble with my Kidneys, with frightful Backaches. After bending down, the pain was awful when I tried to straighten up again. Also Indigestion and Sick Headaches. I was a wreck. Friend advised 'Fruit-a-tives.' Soon I was entirely well, no more Kidney Trouble, no Backaches. I feel fine. Have gained 8 pounds."—Mrs. S. E. Sherman, Cardinal, Ont.

Thousands praise "Fruit-a-tives" as quickest, surest relief for kidney trouble, backache, indigestion, headaches, constipation. Why? This famous Canadian doctor's discovery combines 6 of the finest herbal tonics with a special secret extract of apples, oranges, prunes and figs—Nature's own remedies to make and keep you well. No harmful drugs.

Get "Fruit-a-tives" from druggist to-day. New health, vigor quick. Results guaranteed or money promptly refunded.

ATTENDED CONVENTION.

Representatives of Confederation Life Association in District.

The following representatives of the Confederation Life Association attended the district convention recently held in Peterborough:

Mr. William Boulton, superintendent of agencies, Mr. G. L. Kotzenmeyer, educational supervisor, Mr. D. L. McDougall, supervisor, Group Insurance Department, all from head office, Toronto, and the following representatives: H. B. Thompson, Cobourg; J. P. Simpson, Port McNicoll; M. C. STUDEBAKER SIX

world's lowest priced car with free wheeling

FREE Wheeling, the greatest automobile advancement since the electric starter, is now yours in a brilliant new Studebaker Six priced from $1025 upward.

It is the same Free Wheeling with positive gear control used in all Studebaker Eights, in Pierce-Arrow and in Lincoln.

It brings you a 12% to 20% economy of gasoline and oil. It saves chassis wear, tires and repairs.

Come, see and drive this brilliant new Studebaker Six. Ride on momentum instead of gasoline—travel five miles for every four miles of engine effort. Shift between high and second at any speed, without touching the clutch. See why highway commissioners and safety directors throughout the country have driven Free Wheeling Studebakers and then voiced approval of Free Wheeling with positive gear control as a new measure of safety to driver and public.

$1155

4-DOOR, 5 PASSENGER SEDAN

OTHER MODELS $1025 TO $1955

All prices at the factory, Walkerville, Ont.—bumpers, spare tires and gov't taxes extra

All Studebaker Cars—The President, Commander and Dictator Eights, as well as the new low-priced Six—have Free Wheeling with positive gear control. Prices range from $1025 to $1955 f. o. b. Walkerville, Ont. Bumpers, spare tires and gov't taxes extra

Keep Safe from COLDS!

Ease that irritating THROAT!

End that wearisome COUGH!

Rely on "Buckley's" to Head off Trouble

(It Doesn't Pay to Experiment)

At the first suspicion of a Cold, take BUCKLEY'S MIXTURE . . . Sip, and slowly swallow, and you'll feel better *instantly* . . . "Buckley's" quickly removes the cause of Colds, Coughs and Throat and Bronchial soreness . . . and wards off the dangers that lurk in "common colds". Husky, painful throats are cleared and healed by the soothing action of Buckley's Mixture . . . and stubborn Coughs yield to its penetrating influence on the bronchial passages.

Every druggist sells Buckley's Mixture. Two sizes: 75c (40 doses); 40c (16 doses).

For severe colds accompanied by fever, headache or neuralgia, take LAXPYRIN in addition to Buckley's Mixture and quick relief will follow.

BUCKLEY'S MIXTURE

"Acts Like a Flash - A SINGLE SIP PROVES IT"

During this week your druggist (druggists everywhere) are making special efforts to interest you in Buckley's Mixture.

Hall's Manager's Mistakes

WE DON'T WANT THEM, BUT YOU WILL WHEN YOU SEE THE PRICE TAGS

On Thursday the items mentioned below and several other odd lines which have been in stock too long are offered at prices so much reduced that they would appear ridiculous except for the fact that we are anxious to clear them out. A visit to Hall's Thursday will well repay you, but come early as there are only limited amounts of all groups.

Pailettes, Shot Silks, Duchess, Surah Silks and Satins

They're worth $1.79 each. Some are a little soiled. These, too, have been with us for too long a time. Just ¾ bed size. Sale price, each.. **$1.29**

RICHARD HALL LIMITED

25,000,000 LOAVES OF BREAD EATEN EVERY WEEK IN LONDON

145,000 Tons of Bacon and Hams Were Imported During 1930.

160,000 TONS OF BUTTER.

LONDON, Eng., Feb. 11.—Figures, and oddly enough they are "provisional" figures, are now available for 1930, which tell a wonderful story of London's appetite. Its weekly bread consumption, for instance, approaches 25,000,000 half-quartern loaves. If they were all of the "sandwich loaf" variety the daily ration placed end on end would stretch for 600 miles. In addition to home supplies, London imported 1,400,326 tons of wheat and 218,000 tons of flour in 1930. Cheese imports to suit all palates from cheddar to gorgonsola totalled 120,000 tons.

To augment breakfast supplies, nearly 145,000 tons of bacon and 93,000 tons of eggs were imported, and London required over 160,000 tons of butter in excess of that received from English farms.

660,000 Tons of Chilled Meats

For lunches and dinners, London purchased 660,000 tons of chilled and frozen meat from Australia, New Zealand and South America, and dried fruit, chiefly in the form of sultanas, currants, and raisins for puddings and cakes totalled 111,000 tons.

London heartily supported the "Eat more fruit" campaign, and received from overseas 621,000 tons of green fruit and vegetables. Even then its demands were not entirely satisfied, for canned goods, much of which was fruit, accounted for a further 111,000 tons.

Our great-grandmothers told us how to make tea. "One teaspoonful for each person," they said, "and one for the pot." In 1930 London imported over 491,000,000 pounds of tea, equivalent to 94,320,000,000 cups with a goodly allowance for the pots. London, too, has a very sweeth tooth and some 874,000 tons of sugar were necessary to satisfy its cravings.

With all these purchases, amounting to nearly 5,000,000 tons, London's housekeeping purse still had a heavy call upon it for innumerable foodstuffs such as coffee, cocoa, rice, sago, honey, etc.

Overseas growers have much to be thankful for to the London market. Its port serves nearly one-third of the overseas requirements of the population of England; and London pays up well—it does not ask for extended credit.

Suffered From Heart Trouble Became Weak and Run Down

Mrs. Wm. Diotte, Glensandfield, Ont., writes:—"For a long period I suffered from heart trouble, and became very weak and run down. I tried various remedies, but they did me no good. One day I met a friend and told her of my trouble. She said she had had heart trouble for two years too, but after using Milburn's Heart and Nerve Pills for a short time she had been relieved of her trouble, so I got two boxes and after taking them I was again feeling fine, and always recommend H. & N. Pills to anyone complaining of heart trouble."

MILBURN'S HEART NERVE PILLS

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

OBITUARY

ANDREW HOGG

SPRINGVILLE, Feb. 11.—(Examiner Correspondence).—The funeral of the late Andrew Hogg, who passed away at his home in North Monaghan, on Tuesday, February 3, was held on Thursday afternoon from the family residence to Little Lake Cemetery, Rev E. F. Swayne conducted the ceremony.

The late Mr. Hogg was born in the county of Tyrone, near Belfast, in Ireland, on July 11, 1843. When a small boy he came to Canada with his parents, Mr. and Mrs. Robert Hogg. He first resided near Bradford. Later he took up farming in Cavan and Otonabee and for the past twenty-nine years has resided in North Monaghan.

He was a member of Fraserville United church and a Conservative in politics.

The late Mr. Hogg's wife, formerly Catherine Matchett of Bradford, preceded him four years ago.

He is survived by three sons and two daughters, Henry Stewart, at home; Edward A., of Saskatoon, Sask.; Charles W., of Detroit; Mrs. W. L. Moncrief, of Omemee; and Mrs. Arnold C. Mitchell of Belleville; five grandsons: Luvern and Edgar Hogg of Saskatoon, Garnet Mitchell of Belleville; Elmer and Edward of North Monaghan; two sisters, Mrs. William Kealick of Peterborough, and Mrs. William Curtis of Toronto, and one brother, Hamilton of Sunderland.

The pall-bearers were David Moncrief, Albert Hunter, Joseph Bell, Bruce Johnston, William Cruickshanks and Thomas Hunter.

WEDDINGS

LYLE—LEE

LIFFORD, Feb. 11 (Examiner Correspondence)—A quiet but pretty wedding was solemnized on Saturday, January 31st in St. Paul's Church, Lindsay, when Blanche Agnes, only daughter of Mr. and Mrs. Herbert Lee, Fleetwood was married to Everett John, only son of Mr. and Mrs. George Lyle, Lindsay.

Rev. A. J. Goldring of St. Paul's Church officiated.

The bride looked charming in a gown of bright blue georgette with hat to match. She was attended by Miss Florence McGahey, who was attired in brown.

The groom was attended by Mr. John Crafton.

Following the ceremony the happy couple left by motor for a brief honeymoon, previous to taking up residence in Lindsay.

On Friday evening last a large number of friends gathered at the home of Mr. and Mrs. Lee and presented the newly married couple with a miscellaneous shower of beautiful gifts.

Mr. Cummiskey of Fleetwood read an appropriate address which was ably replied to by the groom and was followed by all singing heartily "For they are jolly good fellows."

A pleasant social time was spent in cards and dancing followed by refreshments

For Coughs From Colds Where You Want Super Help

Coughs from colds that hang on call for super help. Don't take the chance with anything less than Creomulsion. That combines seven major helps in one. See label. It does the utmost for such coughs.

But wise people use it for milder coughs—use it to be safe. It costs a little more than lesser helps based on a single factor. But it costs nothing if it fails to bring you prompt relief. Your druggist guarantees it. Is it not worth $1.25 to have supreme help for a trouble that breeds danger?

FIRST EVENING OF DIXIE MINSTRELS' SHOW APPLAUDED

Generous Applause is Given Ed Leonard's Minstrel Entertainment.

SNAPPY NUMBERS.

(By Jeanette.)

The Dixie Minstrels put on a great show at St. Alphonsus Lyceum last night. From the first to the last minute, they were good. The laughs started in earnest about five minutes after the curtain went up, and they kept on, without much intermission, right through the minstrel show proper, while generous applause was the keynote of the olio which followed

Ed. Leonard, who directed and also acted as interlocutor, deserves plenty of credit for the snappy way in which he put this year's show over It was entertaining, tuneful, and jolly, and provided one of the best productions of its sort seen here in many years

The setting had a modern touch that was simple but very effective. The seats were done in tan and blue, with yellow and orange coverings for the chairs used by the black-faced end men with their dinky get-ups that included everything in the way of minstrel men furnishings, from the tall stovepipe hat and checkerboard trousers that decorated the form of Max Peters, he of the glum countenance and the lily white hands, to the flyaway outfit and little hat of tall Maurice Leonard, sitting cheek by jowl with the small Homer Lundy in his long swallowtail. The end men, who were full of funny quips and jokes that held the attention and brought real, honest-to-goodness laughs, were Max Peters, Ray Leonard, Hap O'Toole (the latter in a girlish costume that enhanced his dark-skinned charms), Homer Lundy, Maurice Leonard, and Tommy Chapman. Ed. Leonard, as noted, acted as the clear-speaking and skilful interlocutor.

The chorus was a brightly-outfitted ensemble of gingham-clad girls and of men in dark trousers and white shirts, and the two lady soloists of the evening, Miss Minnie Allen and Miss Gertrude Doyle, wore pretty evening gowns. Arnold Everitt, Walter Farr, and Joseph Clancy were the other soloists, all of whom received enthusiastic encores.

The entertainment opened with selections by a very tuneful three-piece orchestra, with Miss Marguerite Weatherhead at the piano, Walter Farr playing violin, and Harry Hodson, banjo. They also played during intermissions and furnished an effective accompaniment for the solo numbers.

"Betty Co-Ed."

The songs of the minstrel show included: "I Miss a Little Miss," by Ray Leonard; "Meet Me To-night at Twilight," by Miss Minnie Allen; "Betty Co-Ed," by Hap O'Toole; "Mother Machree," by Joseph O'Toole; "Sweet Genevieve," by Homer Lundy; "You," by Miss Gertrude Doyle; "Rastus Plays His Old Kazoo," by Maurice Leonard; "The World is Waiting for the Sunrise," by Arnold Everitt; "Down Where the Watermelon Grows," by Max Peters; "Out of the Dusk to You," by Walter Farr; "You're Driving Me Crazy," by Tommy Chapman, and "When the Organ Plays at Twilight," by Ed. Leonard Although applause was sincere for every number, there was a good deal of uproarious response to the fun of the songs sung by Hap O'Toole, Homer Lundy, and Max Peters, and to the beauty of tone displayed in the rich voices of Joseph Clancy, Walter Farr, and Arnold Everitt.

In the olio which concluded the entertainment, there were the same snappy numbers and the same meed of unrestrained applause and demands for encores. Ed. Leonard made the announcements, and the program consisted of accordion and violin selections played by George Furphy and Cyril Lee; a song by small Peggy Leonard, six years old only, and daughter of Mr and Mrs. Dan Leonard, whose piping clear voice and attractive stage presence was encored in her song, "Sleepytown Express"; a brisk and very well done step dance by Rosalie Clancy, as a trig farmerette; old and new favorites on the banjo and mandolin, by the dean of the city's string musicians, the popular Frank Clarke, and his alert companion, T. E. Curvin: a lovely toe dance by Sophie Yeotes, wearing a dainty ruffled frock and poke bonnet of orchid and little white pantelettes; one of his characteristically funny monologues, "Levinsky at the Wedding," with its encore, all about the gentle mule with the kick like a gallon of corn whisky, given by Peterborough's comedian, Max Peters; a well-rendered recitation and its encore, by clever little Ruth Erwin, some out of the ordinary music on a Southern flute, by Harry Hodson, and another song, "Macushla," by Arnold Everitt.

Last, but not least, is the mention of tiny four-year-old Betty Erwin, of King Street, whose appearance and manner captivated her audience and brought her a whirlwind of applause. She was the daintiest little maiden imaginable, apparently without any stage consciousness until two of the naughty blackface comedians came to escort her off the stage With her tightly curled small blonde head and her pale pink ruffled gown, she charmed everyone with her clear, piping treble, in two cute little songs. "'Tis Springtime in the Rockies" and its encore. "Dreamy Carolina Moon." She made a real hit.

Members of the chorus included the Misses M. Amyotte, G. Primeau, A. Masterson, R. Clancy, D. McDonald, B. McCoy, M. Doherty, L. Carroll, M. Carroll, A. Murphy, K. Holland, A. Dewey, B. Leonard, and Messrs. R. McGraw, I. O'Connell, R Leonard, and E. Gilman.

Dixie Minstrels will be on again to-night at the Lyceum, and they deserve another fine audience that the one that greeted their opening last night. They are worth it, and their director, Ed. Leonard, has certainly brought them right up to the mark this time.

FINANCES WORRY LINDSAY'S COUNCIL

Money Borrowed in 1930 on Uncollectable Taxes Mayor Declares.

LINDSAY, Feb. 11 (Examiner Correspondence)—That the town council of 1930 did borrow money on uncontrolled taxes and had put the town in a bad way financially, was the statement made by Mayor Alcorn at last night's session of the finance committee.

His Worship produced figures that of the assets of $218,996.85, credited by the auditor's report at the end of January of the present year, $128,007.62, was more or less imaginary, and other assets totalled $95,939.28. Liabilities totalled $207,320.68, leaving a balance of $11,778.17.

Mayor Alcorn further said that last year the tax rate had been kept down two mills by issuing debentures that permitted the town to borrow money on taxes that the collector had sworn to be uncollectable. "If the taxes are uncollectable," declared the Mayor, "then the town was bankrupt."

A special meeting of the council will be called to go thoroughly into the situation which confronts the municipality.

Owner And Driver Liable For Damage

An enquiry was received by the Chamber of Commerce from a truck owner asking whether the owner or the driver of the truck would be responsible for damages in the event of an accident, in which the vehicle figured, occurring.

For the information of any others who might be interested in the matter, The Examiner reprints Part VIII, Paragraph 41 of the Highway Traffic Act:

"The owner of a motor vehicle shall incur the penalties provided for any violation of this Act or of any regulation made by the Lieutenant-Governor in Council, unless at the time of such violation the motor vehicle was in the possession of some person other than the owner or his chauffeur, without the owner's consent, and the driver of a motor vehicle not being the owner shall also incur the penalties provided for any such violation." 1929, cap. 68, sec. 9.

Therefore both the motor owner and the driver are liable for penalties.

GIRL GUIDES PASS TENDERFOOT TEST

MARMORA, Feb. 11 (Examiner Correspondence).—Girl Guide activities are progressing favorably in Marmora. Up to date twenty-four have passed their Tenderfoot test and fifteen have been enrolled. The enrolled girls are K. Cronkright, H. Bonter, J. Gladney, Y. Knox, L. Kouri G. Kouri, M. Leonard, M Loveless, G Prentice, E Phillips, K Rice, R. Riley, M. Sweet, M. Thompson and B. Wright.

All the five patrols have started on their second class test. Besides learning tests, the Guides are learning marching songs. At present they are planning an entertainment on stunt night to take place shortly after Lent.

Aged Woman Cousin Of President Hoover

LINDSAY, Feb. 11 (Examiner Correspondence)—Mrs. Mary Rodd, of Little Britain, who is a cousin of President Hoover, of the United States, celebrated her ninety-first birthday a few days ago. She had the honor of having her birthday announced over the radio, and received congratulations and gifts from relatives and friends from different parts of the continent. She was born in Newmarket in 1840 and has been a resident of Little Britain for over fifty years.

Marmora

Capt. G. T. Morris, senior chaplain and Dominion Field Secretary of the Navy League, visited Marmora and Deloro on Tuesday.

The Kibitzer was shown at the Town Hall on Tuesday evening under auspices of St. Paul's Church.

The monthly meeting of Marmora Council No. 279 C.O.C.F. was held at the home of Mrs. E. Rose on Tuesday. Following a lengthy business session lunch was served by the hostess.

Mrs. H. Naylor is able to be around again after her recent illness.

REWARD BETTER THAN GARNET WHEAT

WINNIPEG, Man., Feb. 11 (C.P.)—Reward ranks as a better wheat than Garnet, of the National Research Council of Canada and board of Grain Commissioners decided here yesterday. A complete report on comparative merits of the two varieties will be available soon, said Dr. R. Newton, of University of Alberta, chairman of the meeting. It will be forwarded to the Grain Standard Board.

No change in the grading of Garnet wheat is anticipated immediately, Dr. Newton said.

RUNDOWN, STOMACH WEAK, BLOOD THIN, IMPOVERISHED

Mrs. W. H. SKYRING

Guelph, Ont.—"There is nothing better as a building tonic and blood enricher than Dr. Pierce's Golden Medical Discovery. Several times when I was rundown, had weak stomach, thin and impoverished blood, I took the 'Golden Medical Discovery,' and always obtained good results. It relieved me of the weak stomach, enriched my blood and built me up in health—made me feel like a new person. I also found it a splendid tonic to take following motherhood to give me strength."—Mrs. W. H. Skyring, 52 Nottingham St. Fluid or tablets. All druggists.

Send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for a trial package of

Dr. Pierce's Golden Medical Discovery

QUEBEC FURNITURE IS RICH HERITAGE

French Canadians Are Urged by Professor to Preserve Valuable Old Pieces.

MONTREAL, Feb. 11—It is a great pity that the Quebec connoisseur and lover of old furniture should see carloads of valuable French-Canadian household goods shipped across the frontier each year at the close of the tourist season, declared Prof. Alphonse Desilets, director of the department of domestic science of the Province of Quebec, addressing students of the Ecole Provinciale. Many French goods and souvenirs and they often find owners of priceless objects ready to dispose of them for a trifle.

Much of the furniture of the larger homes during the last period of the French Regime was imported directly from France by the government officials, members of the clergy, traders and above all by members of the "petite noblesse" who had received large concessions of land in this country. They brought with them furniture dating back many centuries and, continued Prof. Desilets, Canadian wood carvers and cabinet makers made a substantial contribution.

Speaking of some of the best known manoers and French-Canadian homes in the Quebec district, Prof. Desilets mentioned "le Moulin de Vincennes," at Beaumont, near Levis, where the great intendant, Bigot, lavishly entertained his friends and guests. Under this roof may be found furniture and other household goods of three periods, one hall furnished in the style of 1730, a second with furniture in use in 1760 and a third hall containing furniture in use in 1830, which gives one an idea of the interior of the bourgeois home during the last century.

To Conduct Campaign

REV. MR. BOSWORTH

Nationally known evangelist and song writer will conduct an evangelistic campaign beginning this Sunday February 15; at Bethany Tabernacle of the Christian and Missionary Alliance. He will be assisted by his wife and daughter Miss Lenore Bosworth. The meetings will be held nightly at 7.45 p.m. with the exception of Saturday and on Sunday at 11 a.m., 3 p.m. and 7 p.m. The pastor Rev. G. H. Johnson will preach at the Sunday morning service.

Rev. Mr. Bosworth for a number of years was associated with his brother F. F. Bosworth in revival meetings in the largest cities of Canada and the United States, but for the past three yeaers has been conducting his own campaigns. He is a trombonist and song leader. Mrs. Bosworth ably assists in special singing and the daughter is the pianist. A chorus choir will be organized for the meetings. The party is scheduled to remain in Peterborough for over a month.

INSTITUTE PLANS MEN'S BANQUET

Farmer Girl Wins Out in Interesting Debate of Roseneath Women.

MEETING WELL ATTENDED.

ROSENEATH, Feb. 11 (Examiner Correspondence)—Mrs. Joseph Robins kindly opened her home to the ladies of the Women's Institute on Thursday afternoon. The meeting was very largely attended by members and a few visitors.

The president, Miss Elva Sandercock presided. After the opening exercises, several articles of business were dealt with and reports given from the sick who had been remembered by the W.I.

On motion of Mrs. Lily Turner, seconded by Mrs. M. D. Brown that the Institute have a banquet, inviting the husbands of the members. It was unanimously voted for and will be held in the town hall on March 6. Table setting committee, Mrs. Lottie Nichol, Mrs. M. Davey and Mrs. S. Ryan assisted by the girls of the Institute. Decorating committee, Mrs. Albert Halstead, Mrs. George Mouncey, Mrs. Arthur Braithwaite, Mrs. Andrew Brown and Miss Jessie Johnston; programme committee, Mrs. A. Brown, Mrs. C. W. Varcoe, Mrs. Ednel Blodgett, Mrs. Bart Thackeray, Mrs. John A. Nichol; refreshment committee, Mrs. James Webb, Mrs. Delbert Brisbin and Mrs. Lily Turner.

The programme was exceptionally interesting. A debate was the main factor. Resolved that the farmer's daughter has more enjoyment than her sister who works in an office in the city. The affirmative was ably led by Mrs. Ednel Blodgett. Mrs. (Dr.) Ryan led the negative side. Miss Mary Braithwaite followed with marked interest in favor of the farmer's daughter, making clear the enjoyment and liberty and freedom, the life of a farmer's daughter.

Miss Mary Mouncey was the last speaker of the negative and mentioned the various ways the city girl can have enjoyment, such as listening to the best artists and seeing them, the gymnasium, social clubs, etc., bringing out many excellent points. Mrs. Blodgett made a reply of three minutes after which the decision was left with the judges, Rev. R. W. Paton, Marcena Davey and Mrs. A. J. Campbell. Rev. R. W. Paton, on behalf of the judges said the affirmative was successful by a small margin.

Other items on the program was a ...ding "Three ... by Miss Beatrice Sandercock and a reading by Miss Elva Sandercock entitled, "How not to make a quilt."

A hearty vote of thanks was tendered Mrs. Robins for her kind hospitality and a picnic lunch was served by the ladies.

Robb Advises Women Against Tobacco Use

TORONTO, Feb. 11. — Declaring that while young women might have as much social right to smoke as men, Dr. J. M. Robb, minister of public health for Ontario, opined that they should leave the weed alone, in an address at the regular monthly meeting of the Samaritan Club at Gage Institute.

Dr. Robb, speaking on tuberculosis declared that the fad of dieting was ridiculous unless the person was much over-weight. He urged that the part of the work of the province in combating tuberculosis was in preventing it.

HAVELOCK WOMEN SUPPORT LIBRARY

Mrs. T. P. Lancaster Gives Demonstration of Bandaging at Institute Meeting.

HAVELOCK, Feb. 11 (Examiner Correspondence).—The regular February meeting of the Women's Institute was held in the council chamber on Monday afternoon. Mrs. S. H. Hagerman, vice president, occupied the chair.

The roll call was a Valentine verse and a goodly number responded.

A number of letters were read and, on motion of Mrs. Cross and Mrs. Jones, the letters re a speaker in the interest of the library and in connection with planting home flower gardens, were left over until the next meeting.

A letter from Dr. Embury, M.P., of Bancroft, and the Canadian Red Cross Society about clothing received from their war chests was ordered filed.

A case of extreme need was reported and, after considerable discussion, it was thought best to leave this for the Council to look after.

The minutes of the library board meeting were read and the question arose from these about the holding of a dance in the town hall on Feb. 13. The proceeds of this dance to go to pay the expenses in connection with the library. Mrs. A. Anderson and Mrs. Davis moved that the Institute should pay all the expenses of the library and the library fee be used for buying new books.

The accounts were read and ordered paid, on motion of Mrs. Rice and Mrs. Anderson.

Mrs. T. P. Lancaster gave a very fine demonstration of the different kind of bandaging and their uses. A hearty vote of thanks was tendered Mrs. Lancaster for her kindness in giving the demonstration.

Mrs. J. Kinnaird gave a splendid paper on what "The Institute Stands For," taking for her topic "Love and Charity."

The meeting closed by singing the National Anthem after which a dainty lunch was served by the hostesses—Mesdames H. Dafoe, Kinnaird, Bonney, Yuill, Wing, and J. Thomas.

BEDTIME STORY

by Howard R. Garis

UNCLE WIGGILY'S SURPRISE

Tramping over the snow in the dusky shadows of the evening one winter's night, the Fuzzy Fox was slinking nearer and nearer to Uncle Wiggily's hollow stump bungalow. The Bad Chap was hungry. So was his wife. His little fox children also would have been hungry, but the Fox had no little children. They had all grown up and left the home den.

"I'll get Uncle Wiggily this time, sure!" growled the Fox.

The Bad Chap had thought of what, he imagined, was a very good trick. Best of all Mrs. Fox also thought it was a good trick. It was not often that Mr. and Mrs. Fox thought alike. But they did this night as they were both very hungry and there was nothing to eat in the den.

The Fox was going to slink along to Uncle Wiggily's bungalow and hide in the shadows near where the evening paper always was tossed on the rabbit gentleman's stoop. The Fox had noticed that, after dark, in winter (but earlier in summer) Uncle Wiggily would open the front door of his bungalow, step out and pick up the evening paper.

Mr. Longears would take the paper in his bungalow and read the Bedtime Story to his little boys and girls. Sometimes there was a picture of the rabbit gentleman's adventures and the children would look at this and wonder.

"But this will be the last Bedtime Story for them!" growled the Fox to himself as he slunk along through the cold, shadowy winter's night toward the rabbit's bungalow. "I'll hide and

He handed Uncle Wiggily an evening paper.

1-31 F.G. CAPEN.

when he comes out to get his evening paper I'll get him!"

Well, things happened about as usual in Uncle Wiggily's bungalow. The rabbit gentleman had been out adventuring and he came home, with his pink nose twinkling wonderfully bright.

"Nice, cold, crisp sparkling evening, my dear!" Uncle Wiggily said to his wife as he hopped into the bungalow through the back door, for he had taken a short cut home over the lots.

"Yes, it is cold," said the rabbit lady. "I hope you have something hot for supper," Uncle Wiggily went on as he rubbed his cold paws.

"We have a hot turnip potpie," said Nurse Jane Fuzzy Wuzzy.

"Nothing could be better!" cried Uncle Wiggily with a jolly laugh. "I shall eat my share of that. And now I must go out and get the evening paper. Did you have a good adventure this afternoon?" asked Mrs. Longears as she got ready to dish out the turnip potpie.

"No, my dear," answered Uncle Wiggily. "I am sorry to say I didn't. Nothing happened. But there is still plenty of time, before I go to bed, to have an adventure. I'll go get the paper."

"Oh ho!" snickered the Fuzzy Fox, hiding in the shadows of the front porch near the evening paper. "you are going to have an adventure all right, Mr. Longears! But it will not be the kind you like."

So the Fox snuggled down in the shadows at the edge of the porch. The Bad Chap could look up on the porch and see the folded evening paper where it had been tossed for Mr. Longears to come out and pick it up as he did every night.

"Let me see now," whispered the Fox to himself, as he waited for Mr. Longears to come out of the front door. "Shall I grab him with my left paw or my right paw? I think I shall use my left paw as that isn't burned so badly by the hot carrot as my right paw is. Yes, I'll do that!"

Uncle Wiggily started to open the front door to get his evening paper. He was half way through the hall when there came a knock on the back door.

"Oh, Wiggy!" called his wife, "will you please see who that is! I'm so nervous! I'm afraid to go to the door."

"I'll go," said Uncle Wiggily, bravely. "I'll open the back door and then I'll open the front door and get my evening paper." But when the rabbit gentleman opened the back door he had a surprise. For there stood Sammie Littletail, the paper boy rabbit. He handed Uncle Wiggily an evening paper and said:

"I made a mistake before Uncle Wiggily. Earlier in the evening I tossed up on your front porch last night's paper instead of tonight's. So, when I found out I had left the wrong paper I ran over with the right one and I came back instead of front as it was quicker."

"You are a good boy, Sammie," said Mr. Longears, taking in his evening paper. "Now I don't need to open the front door for my paper has come around to the back. Thanks, Sammie. Here's a penny."

So Uncle Wiggily went in the bungalow and read the Bedtime Story to his little rabbits. And the Fuzzy Fox, waiting in front, grew colder and colder and colder. "Why doesn't that rabbit get his paper, I wonder!" growled the Fox. But we know why; don't we?

It's new! Different!

Three great grain foods in one delicious cereal.

THE Quaker Oats Company worked 17 years to develop these brown, confection-like pillows of rich, delicious nourishment . . . new, unparalleled cereal triumph.

Three great grain foods ...oats, corn, wheat...are oven-blended to make Crackels. The lingering flavour, the crispness, are unlike any you've ever found in a single cereal before. They "crackle" out of the package . . . stay crisp in your cereal dish down to the last spoonful. Pour on as much cream or milk as you like. The crispness lasts—the flavour lingers. At all grocers.

TASCHEREAU PROMISES GIFT

MONTREAL, Que., Feb. 11 (C.P.) — Premier Taschereau yesterday promised a subscription from the Quebec Government to a fund being raised to provide a monument in Montreal to the memory of French Canadians who fought and died with the French Foreign Legion during the Great War.

Crooks Caught By Radio

Receiving apparatus with roller and sheet of bromide paper which will receive thumb print picture

Receiving apparatus with roller and sheet of bromide paper which will receive thumb print picture

Whose Mark Is This?

The capital of every country keeps on file the finger prints of crooks. Ottawa has 200,000, Scotland Yard, 500,000, Washington 350,000. Perhaps a burglar robs a safe a thousand miles away. He leaves a finger print somewhere without knowing it. A perfect reproduction of that finger print can be sent by Radio or Telegraph to the Capital. It is done by the telephotographic process. In a few minutes may come back the description and the record of the wanted man. Thus the police know whom to look for—because he left his mark—his finger print.

All Leave Their Marks

So you leave marks on everything you touch, as does everybody else. Those prints are usually germ-laden. You pick up those germs from others, from things they have touched and from handshakes. Then, if you touch food, you convey those germs to your mouth, where they breed.

A hand may be used to check a sneeze or a cough. Then that hand, in some way, conveys those germs to other hands, and colds spread. Life Extension Institute lists 27 diseases which may be conveyed in this way.

Lifebuoy Kills Them

Lifebuoy is a luxurious soap, based on two palm oils. No finer soap was ever created for toilet or bath use, or for the complexion. But, instead of perfume, it contains a germicide. You can smell it for a moment or two after using. That is the scent of safety.

Lifebuoy lather kills the germs or makes them inactive, as proved by laboratory tests. Wash your hands often with Lifebuoy. Wash them always before touching food. Millions of people, the world over, protect themselves in that way.

Lather with Lifebuoy before going out in the evening, or before you start the day. It makes you safe from body odours for many hours.

Keep Lifebuoy for the wash basin and the bath. Make it easy for the family to use it. Your dealer has Lifebuoy ready for you.

GRADUATES TO HEAR DR. GEORGE NEEDLER

Millbrook Continuation School Commencement Exercises to be Held Friday Night.

MILLBROOK, Feb. 11—The Millbrook Continuation School will hold Commencement Excercises in the Town Hall, Friday evening, February 20th.

A splendid program is being arranged by the pupils consisting of choruses, gymnastics, drills and a two-act comedy, entitled "Mr. Bob."

An interesting feature of the evening will be the address and presentation of diplomas to the graduates, given by Dr. G. H. Needler, a professor of Toronto University, and a former Millbrook boy.

The many friends of Dr. Needler will undoubtedly avail themselves of this splendid oportunity to prove their appreciation of his presence by attending the Commencement Exercises, Friday, February the twentieth, at eight o'clock.

EUCHRE PARTY SUCCESS.

Havelock Church Members Are Entertained at Euchre Party.

HAVELOCK, Feb. 11.—(Examiner Correspondence).—The members of Our Lady of Mount Carmel entertained at a euchre party at the home of Mr. and Mrs. Abraham Aboud on Thursday evening last when nine tables were played. Mrs. Albert Armstrong was awarded first prize for ladies' high score and received a beautifully embroidered centerpiece. Charles Brennan won gentlemen's prize for high score. Miss Pansy Currie was awarded ladies' consolation prize, and Mr. Pincombe gentleman's consolation. A sumptuous lunch was served at the conclusion of the games.

Misses Edythe and Muriel Russell, Mrs. Russell and Miss Minnie Williams spent a day recently in Peterborough.

The many friends of Mr. William Brown of Cordova Road, who suffered a slight stroke last week, will be pleased to hear that he is doing as well as can be expected.

Miss Josephine Barnett of Windsor and Mrs. Masterson of Toronto were in Havelock last week.

A number of our young people spent Saturday evening at the rink at Norwood.

Havelock Women's Institute Valentine dance will be held in the Town Hall on Friday evening, December 13th. Music will be furnished by Charles Jones Orchestra of Marmora. The pianist on this occasion will be Mr. Charles Allan of Chicago, studio artist with radio station KYW, who is visiting friends in Marmora and will officiate at the piano on Friday evening next.

CHEST COLDS

RELIEF

Cold East wind : : : wet, clinging snow . . . children with chattering teeth . . . chilled to the bone. Coughing follows and leads to—what?

Probably Bronchitis, or worse.

Prevent serious consequences with Thermogene : : : a medicated wadding applied to the chest.

At once Thermogene soothes and relieves. Its penetrating warmth breaks up congestion. Stops pain : : : ends trouble. Thermogene is not like a mussy, sticky poultice, and when its healing work is done it may be taken off a layer at a time, as easily as it is put on.

Chest colds, sore throat, Neuralgia—all chill-caused pains that children are subject to, quickly give way to treatment with Thermogene. And that's why there's a package handy in most homes.

The Kinsmen have completed all arrangements for their big private party to be held to-morrow evening in the Pavilion at Chemong Park. The members are going to a lot of trouble to make a splendid program, all the funds to be used for various relief purposes in the city, and they have spared no pains in perfecting a real entertainment for their guests. Buses are leaving the Empress Hotel at 8.45, making a stop later at the Y.W.C.A. The members of the Club are all wearing sporting togs for the event, and will dine in this unconventional attire, in order to save time, at a stag party at Hooper's Palm Rooms, just prior to leaving for Chemong. The latest entries for the Marathon which will form a jolly portion of the program, are Miss Marcelle McNulty and Miss Dorothy Couper, while two other representatives from the Ski Club will be chosen to-night. Other entries are Messrs. Herb. Mason and Cliff Carruthers.

There were over seventy guests at the very pleasant dance held in the Paragon Hall by the men of the Test Department of the Canadian General Electric Company. The arrangements were in the capable hands of Mr. R. Cobbold, assisted by fellow-members of the department. Messrs. Ainsworth and Holgate contrived the very effective futuristic decorations, which took the form of designs of electrical machinery tested at the C.G.E. plant. There were cut out of paper, pasted on cardboard, and affixed to the walls. Decorations suggested by Mr. Cobbold were ably carried out by Messrs. Burns, Schmidt, and Litster, these blending admirably with the colors of the lights, arranged by Mr. Adam Sands in colors of old rose and light blue. Excellent music for dancing, which finished at midnight, was furnished by Mowry-Steer and their Silver Collegians. During the supper hour, two songs were given by Mr. G. Coleman, Jr., and numbers were rendered by a quartette composed of Messrs. Coleman, Ainsworth, Sands, and Cobbold. Among those present were Mr. and Mrs. J. F. Roach, the Misses Phyllis Robinson, Alyce Charlton, Marie Benson, Lillian Elliott, Bibi Benson, Gen O'Brien, Addie Wright, Helen Carson, Ann McCarthy, Agnes McCarthy, Helen O'Toole, Margaret Archer, Ernestine Macdonald, D. Finnie, Isabel Raynor, Isabel Fry, Beryl Cheyne, Ena Hughes, Mary Sedgewick, Emma Lou Chenhall, W. Hommett, Helen Turner, Doris Ackford, V. Gooden, Mary Donoghue, Mary Denne, H Banks, Fowler, Jean Andrews, Margaret McCulloch, Barbara Ackerman, Nadine Cooper, Della Deannard, Margaret Cranford, Mary Burcher, Madalon Whaley; Messrs. R. Cobbold, C. Litster, Don Smith, Tom Woodhall, Murray Ritchie, W. Schmidt, J. A. Mackenzie, W. L. Dickson, H. W. Moxon, Hugh Campbell, R. N. Jennings, H. Ainsworth, W. A. R. Parker, R. M. Robinson, G. E. Dunfield, Jim Greenlaw, Harry Northrop, A. Cuzen, D. Sproule, E. H. Tracy, John F. Rood, Adam Sands, Gordon Farr, J .W. Koehler, Shaw, A. S. Geldart, A. Jones, W. T. Holgate, J. W. Bishop, H. E. Woodland, W. Harner, E. Barns, J. Craster, H E. Barnett, D. J. Emery, R. L. Morrison, and S. Dacre Scott.

NEW YORK GIRLS KEEP HAIR LOVELY

"I'M so busy; I don't know how I'd take care of my hair if I hadn't learned the way so many of my friends are doing theirs!"

Typical of what New York girls by thousands are saying about the new way so many of them are doing their hair to keep it soft, lustrous, and beautiful.

It's so effective. So simple. Just a few dashes of Danderine on the brush each time you arrange your hair. Oily film goes. The natural color of your hair is brought out. It takes on new life and sparkle!

The worst crust of dandruff is quickly dissolved by Danderine. It cleanses, soothes, invigorates the scalp. When it is used, hair is easier to dress. Stays in place wonderfully And day by day Danderine encourages your hair to grow longer, thicker, more abundant.

Danderine
The One Minute Hair Beautifier

FASHION SERVICE

Spring's gift is the lovely crepe printed silks, so smart, so fascinating and wearable for all-day occasions.

Today's dress delights in a plain crepe cowl yoked neckline. And it's amazing how charming and flattering this addition can be. The little flounced sleeve frills repeat the plain crepe in their lining.

This model is decidedly slimming and therefore suitable for many figures. The curved outline of the skirt seaming that tapers to the centre-front waistline conceals hip breadth.

Style No. 2985 may be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

Plain flat crepe with contrasting shade and patterned and plain crepy woolen are splendid combinations.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

So much for Valentine and parties; let us turn once again to the homemaker.

• • • • • • •

Textiles are an important part of housefurnishings as well as personal apparel and it is for this reason that housewives should know something about them.

• • • • • • •

Let us, therefore, consider to-day two of the most usual weaves, plain and twill.

• • • • • • •

Plain weave consists of the warp or lengthwise threads of a textile being crossed with threads that go alternately over one warp thread and under one, throughout the entire bolt of goods.

• • • • • • •

This forms a very even weave, smooth and agreeable to the touch. Any deviation from this precision of "one-over-and-one-under" takes the textile out of the class of plain weave.

• • • • • • •

Bed linen comes in plain weave. Color may be introduced but the weave is still the same. Hems may be machine-stitched or machine hemstitched but this is not a matter of the weave.

• • • • • • •

Glass towels, too, are in plain weave, as are genuine linen dish towels. Cotton cloth or muslin as it is sometimes called, is in plain weave, unless specifica as twill.

• • • • • • •

You will note, too, that a large amount of our summer goods are in plain weave. Homespun is also, and many woollen textiles, although twill is a popular weave for woolen goods.

• • • • • • •

Twill is a simple weave, but it varies decidedly from plain.

• • • • • • •

The crosswise threads, technically known as woof weft or filler, go over one and under two in such a way that parallel diagonal lines appear in the finished material.

• • • • • • •

There are infinite variations of twill weave as two over and two under, one over and three under, three over and five under, etc. Then there are arrangements whereby design of greater intricacy are brought out in the weave regardless of the introduction of color.

• • • • • • •

Simple twill weave is almost as popular as plain weave. It is found in some dish towels, especially those known as union, and in all cotton dish towelling, but very seldom in genuine linen dish towelling.

• • • • • • •

Woolen goods, flannel and suitings show a tendency toward twill weave.

MISS NINA ANDRUS GIVES JAPAN TALK

Mrs. Darcy Foster Hostess to Members of St. James' X.L. Mission Circle.

Mrs. Darcy Foster, Aylmer street, acted as hostess for the February meeting of the X. L. Mission Circle of St. James' United Church. The living rooms were dainty with Valentine decorations and matching flowers.

The president, Miss Jessie Martin opened the meeting with a hymn, followed by the scripture lesson, given by Miss Edith-Smith. All joined in repeating the Lord's Prayer.

Thirty-three members responded to the roll call and the necessary items of business were quickly dispensed with.

A reading on "Envelopes" was given by the secretary of Christian Stewardship, Nina Andrews, previous to the distribution of envelopes for the systematic givings of the year.

A vocal solo, "Oh, It Is Wonderful," pleasingly rendered by Gladys Langton, was followed by prayer for our missionaries both at home and abroad offered by Muriel Moorhouse and Connie Wagar. It was decided to adopt Miss Jean Gillespie of Japan as our missionary for prayer throughout the coming year.

The study for the evening from "The Fruits of Christian Missions in Japan" dealt with the early Christian work in that country and was very ably presented by Miss Nina Andrews. The foundations for the present-day missionary activities were laid by those early pioneers, until now there are no barriers to the Christian religion in Japan, since the removal of the edict boards in 1859.

"I Come to the Garden" was the closing hymn, and this part of the program was brought to a conclusion by the repeating of the Benediction.

Instead of the usual contest, the girls enjoyed two sweetly-sung vocal solos by Mrs. Andrews, "There Is No Night There," and "The Old Rugged Cross." This was followed by community singing in which all joined heartily.

Dainty refreshments in Valentine style were served by the hostesses, Mrs. Foster, Misses Effie Goodrich and Nina Andrews. A hearty vote of thanks was extended these members for their hospitality.

WORLD TO HEAR POPE.

VATICAN CITY, February 11 (C. P.). — Pope Pius XI.'s voice will be heard around the world to-morrow in an historic inauguration of the pontifical radio station.

It will be the first time that the Pontiff has appeared before the radio microphone, will mark the Vatican's complete independence from Italy in communications, and will initiate a policy of linking the Roman Catholic world by wireless.

GERMANY'S WORKLESS INCREASE.

BERLIN, February 11 (C.P.). — Germany's unemployed on January 31 totalled 4,8969,000, an increase of 129,000 since January 15.

MOTHER RESCUES SON FROM RIVER

Simcoe Woman Hears Lad's Cries and Rushes to Aid Just in Time.

CUT ABOUT ARMS, FACE.

SIMCOE, Feb. 11.—To the timely intervention of his mother, 10-year-old George Pullen owes his life. While skating on the ice on River Lynn at the end of Kent Street last evening the lad broke through into the water and remained there for a considerable time until his mother, Mrs. Norman Pullen heard his screams. Hurrying to the river she saw the lad striving to retain his hold on the slippery ice. He was almost unconscious when pulled out. She herself fell in and suffered cuts about the face and arms. The boy was revived and today is little the worse for his experience.

May Newton Is Head Of Centreton Society

CENTRETON, Feb. 11 (Examiner Correspondence)—May Newton was chosen president at the reorganization meeting of the King's Own Mission and recently, other officers being: Mabel Webb, vice-president; Hayden Smith, secretary; Francis Coffey, treasurer; Roberta Webb, mite box secretary; Neil Nichol, world friends' secretary.

At the monthly meeting held on Sunday, interesting readings were given by Francis Coffey, Doretta Bull and Hazel Blodgett. Mary Harden contributed a recitation and Miss Hazel Blodgett gave an interesting address to the Band members from the Study Book, "Oriental Friends."

BIBLE SUNDAY FEBRUARY 15TH

Annual Meeting Will Be Held in the Y.M.C.A. Sunday Afternoon at 4.30.

LUNCHEON MONDAY.

Next Sunday's Bible Sunday in the city of Peterborough and the ministers in all churches are addressing their congregations on themes related to this important branch of the work.

The annual meeting of the Local Council of the Upper Canada Bible Society will be held in the Y.M.C.A. Sunday afternoon, at 4.30. At this meeting a report of last year's work will be given followed by the election of officers for the ensuing year. It is desirable that all members of the Council do their utmost to be present.

On Monday evening, a luncheon is being held in George Street United Church at 6.15 p.m., for the ladies who are undertaking the canvass of the city in the interests of the Bible Society during the last two weeks of February. After the luncheon, Rev. J. B. M. Armour, M.A., Toronto, General Secretary of the Upper Canada Bible Society, will give an address, after which plans for the canvass will be discussed. This luncheon is being given by the Local Council of the Bible Society and a very cordial invitation is extended to all the canvassers to be present and enjoy this social hour together and to receive information regarding the work to be undertaken.

That Body of Yours

By James W. Barton, M.D.

BODY PROCESSES

When we think of the aids the medical students have, at the present time, as compared with those of just a few years back, we are apt to think that there should not only be more cures than in previous times, but also fewer actual cases.

As a matter of fact, these mechanical aids of the laboratory, X ray, microscope, and so forth, help physicians to be more accurate in their diagnosis, but there is one very serious fault to be found about it. That is that in his efforts to be accurate, the medical student and physician is likely to thimk more about his methds and their results than about the patient himself.

And yet the patient's feelings, his anxieties, his fears, worries, or other emotional disturbances are a big factor in actually causing his trouble, and a big factor in the success or failure of the treatment.

Dr. Geo. Stevenson found in a large medical clinic treating stomach and intestinal diseases, that about 20 per cent of the patients had severe emotional problems, and that another 55 per cent had less severe problems. This means that only 25 per cent, just one out of every four of these patients, was free from any emotional problems.

Now it has been proven first in animals and later in man that mental conflicts and emotional disturbances upset the normal functions of what is called the sympathetic system. It is this system that regulates the circulation of the blood, the juices in the digestion, the action of the lungs in breathing, and so forth.

If this sympathetic system is disturbed then the various processes do not do their work so well. They do not stop entirely, but they become irregular and do their work poorly, with the result that actual harm often results in the stomach, intestine, kidneys, heart or other organs.

Dr. C. C. Wholey, Pittsburgh, reports a case of a girl of 14 years who had all the symptoms of gall stones simply because she had been with her mother so much, and the latter has suffered with several attacks. He reports another case of severe vomiting in a woman, because her little boy, recovering from an anaesthetic, had vomiting spell, and she thought he was going to die.

Now you can see how the mental factor would have to be treated in these cases before any real help could be given to the patient. I mention this for the reason that if your stomach, intestine, liver or even heart or kidneys bother you, you would be wise to tell all your troubles to the doctor.

Relief from ASTHMA

End the terrible spasms. Sleep peacefully again. Enjoy the same speedy relief so many other sufferers have had. Go now and buy Templeton's RAZ-MAH Capsules. No harmful drugs. No smoke, sprays, snuff. Guaranteed relief from $1 worth or your money back. 50c and $1 boxes. 108

Here's the Way to Treat Those Miserable Colds So Prevalent Here Now

WITH scattered cases of flue breaking out in this locality, don't take chances with colds NOW—it's too dangerous! Unless checked quickly, colds tend to pull down the body resistance and may pave the way for an attack of flu with all its serious complications.

1 At the first sign of stuffiness or irritation in the nose or throat, snuff some Vicks VapoRub up the nose several times a day. This will often check a cold at the start.

2 If the head is all "stuffed up"—clogged with mucus or phlegm—or there is much coughing, melt a teaspoonful of Vicks in a bowl or kettle of hot water and inhale the steaming vapors for five minutes at a time. This treatment has a remarkable effect in clearing the air passages, easing the breathing, soothing the irritation, relieving the cough, and helps to prevent the cold from spreading.

3 At bedtime, in order to get the benefit of its long-continued stimulation and inhalation effect, rub Vicks vigorously over the throat and chest and cover with warm flannel.

4 If possible, stay at home until the cold is broken. Complete rest helps the body to throw off the cold more quickly.

Mother!—treat children's colds promptly, but avoid "dosing." Too much internal medicine often upsets the child's digestion and lowers the vitality. Being applied externally, Vicks does not upset the stomach, and can be used freely and as often as needed without the slightest harmful effect.

DON'T TAKE CHANCES WITH GOLDS NOW!

LONG HAIR CRAZE TO NOT LAST LONG

President of International Hairdressers Prophesies Its Finish.

LONDON NOT SO SURE.

By Betty Twist.
(Special to Examiner, Copyright, 1931.

TORONTO, Feb. 11.—Novelists and playwrights have depicted the modern woman, preachers have thundered against her, politicians have attempted to conciliate her. Now an uneasy feeling is spreading abroad that they may have been mistaken, that the woman now and for all time remains fundamentally unaltered.

"Cherchez la femme," they said when the eternal feminine appeared in the guise of a charming schoolboy. Eton cropped, short skirted, cigarette in hand and sporting trophies tucked away in the corner cupboard. Women, they theorized, develops with her environment. This is the age of speed and women grow swifter and swifter!

Something has upset their calculations, a factor whose influence was not fully estimated, the unknown quantity of fashion. Fashion is going Victorian. We put on the styles of our grandmothers and we wonder if it is only a question of time before the social code, too will have fallen into line. The old waltz is returning to favor,one hears of polkas danced with enthusiasm in Mayfair ballrooms, but surest sign of all, we have submitted, not without a struggle it is true, not only to the yoke of long skirts, but that of long hair.

Curls Have Come Back.

Gainsborough and Romney would find a congenial subject in the newly dressed heads. The curls they immortalized now dangle bewitchingly upon the neck of the modern miss. There are numerous adaptations. One lady shows a row of tight little curls along her brow and over her ears. The crown and the back is very slightly waved and then in the nape of the neck a cluster of the same little curls lets loose three longer locks falling to the shoulders. Again there is the coiffure which, following the line of the head in soft, deep waves, is curled up neatly at the back, and one ringlet behind the left ear draws attention the perfection of that no-longer hidden member. Or the style which has satisfied generation of emancipated school girls has an appeal of its own in the loosely coiled bun placed low at the nape of the neck.

Opinion in the hairdressing world is somewhat divided as to the duration of this charming, but undoubtedly tiresome revolution. W. J. Wilczewski, president of the International Hairdresser's Society, who is in London for the international hairdressing competition this week, is convinced that the craze will soon die and claims that long hair can never have the smartness of the sleek, shingled head. Longon is not so sure. One Bond St. manager says that the return to long hair even with the waving and attention that it requires would mean unemployment for more than 50,000 barbers in England. At another establishment confession was made that whereas last year two fully qualified assistants were employed as well as apprentices now the work can be carried on by four apprentices.

Proof of the extent to which long hair has been adopted is given by the manufacturers of hairpins. One firm reports that they now send out from their works more boxes of invisible hairpins than they did ordinary hairpins before the war. And another firm announces that every month they dispose of 6 million metal hair clips which are used to keep the longer tresses in place.

Those of us who remember the tears which accompanied our first attempts to manipulate the schoolgirl plait into the orthodox grown-up bun will not easily fall for the new vogue. On state occasions when an unwieldy may still one have blushing recollections of hairpin—and how many dozens of them were necessary in those initial stages—broke from its mooring and fell, flop, into one's cup of tea, or some equally conspicuous position. But debutantes who do not know the pleasant feeling that long hair gives are anxious to try the new experience. They are being initiated gradually, for few of them have experienced the manifold discomforts of a full head of hair.

Don't forget the date, Feb. 17th. Or the place—Hall of the Canadian Legion. Or the object—Second Relief dance of The Examiner Social Club. There'll be a good time at the old hall that night.

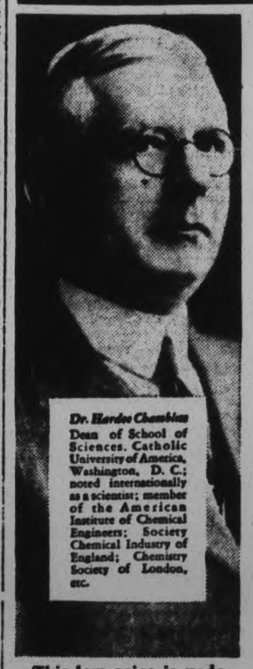
Foreign Cloth Dealer Killed In Benares

BENARES, India, Feb. 11 (A.P.)—Mohammad Jan Kman Agha, a dealer in foreign cloth, was shot and killed to-day at his home.

It was alleged that in a statement made as he died Agha mentioned the name of a local All India National Congress volunteer as his assailant, whereupon police arrested the captain of the local Congress volunteers.

Agha's shop had been vigorously picketed. Fifteen volunteers including four women, were arrested yesterday while standing outside the establishment.

The Distinguished Scholar and Scientist...
Dr. Hardee Chambliss, Ph.D.,
compares 33 different toothpastes and tells why Colgate's has "greater ability"



Dr. Hardee Chambliss
Dean of School of Sciences, Catholic University of America, Washington, D. C.; noted internationally as a scientist; member of the American Institute of Chemical Engineers; Society Chemical Industry of England; Chemistry Society of London, etc.

THIRTY-THREE modern toothpastes on trial! On trial for cleansing properties, for reputed claims and actual accomplishment!

Dr. Hardee Chambliss undertook this exhaustive study—and he now proclaims Colgate's superior! His reasons? Here they are. The reasons of an eminent educator and scientist:

"Colgate's has greater ability than other dentifrices to get down into tiny crevices and fissures of the teeth, flooding away decaying particles."

"Colgate's cleans the surface safely because of its very effective wetting power and its low surface tension (penetrating foam)."

Colgate's—undoubtedly because of its high standing among dentists—has been used by more people than any other dentifrice ever made.

Brush your teeth with Colgate's regularly—to keep them really clean.

Dr. Hardee Chambliss says:—

"I have tested and compared thirty-three different dentifrices with reference to their cleansing qualities. I find Colgate's not only cleans the surface safely, but also because of its very effective wetting power and low surface tension (penetrating foam) it has greater ability than other dentifrices to get down into tiny crevices and fissures of the teeth, flooding away decaying food particles. Other dentifrices, because they are sluggish, lack this power."

"Colgate's fulfills the one function of a dentifrice—to cleanse the teeth thoroughly."

Hardee Chambliss

This low price is made possible only because more people use Colgate's than any other dentifrice—and have for 30 years.

Lindsay Midgets Take 6-3 Decision From St. John's

SMALL ICE SURFACE HAMPERS SPEEDY PLAY OF THE SAINTS IN FIRST GAME OF PLAY-DOWNS

Combination of Forwards of Little Use Against Lindsay Back-checking.

PLENTY OF ACTION.

Homesters Take Lead From First, Score Once in First and Four Times in Second.

St. John's have a three-goal lead to overcome at the Brock Street arena to-morrow night if they hope to steer out into the Junior O.H.A. playdowns, because the Lindsay Midgets snatched a 6 to 3 victory last night in the Scugog town in the first game of the group finals.

The Midgets gave ample proof that they will be a tough morsel for St. John's to digest. Six members of last year's Midgets, which tied St. John's twice and then lost to the redshirts in the third game played on the Oshawa arena, are with the club this season and showing greatly improved form. Playing on their own little ice box last night they outsmarted St John's and deserved to win, but not to the tune of 6 goals to 3. Two of their goals had ribbons on them.

Coming off comparatively large ice surfaces, as expected St. John's found difficulty in adapting their open, speedy style of play to the narrow confines of the Lindsay igloo. For minutes at a stretch the Midgets ran them ragged, keeping them checked to a standstill at their own blue line. Combination was of little use in the close checking, and Calladine, Gardner and company were never this season given the same complete attention as tendered by the Midgets.

Despite the leech-like checking tactics of both clubs it was a snappy, aggressive type of hockey dished up to the largest house of fans to stampede the Lindsay rink this season. There was action in large doses crowded into the affair, and the Midgets' followers were given a big scare in the early part of the third period as St. John's, getting the lay of the rink better and making an effort to drag down the Lindsay lead, stepped up the pace and sent thrust after thrust in upon the nets in a driving offensive.

Take Early Lead.

Early in the game the Midgets jumped into the lead and through a torrid first period they maintained the edge to take the period 1 to 0. Although Lindsay scored four goals in the second period and St John's registered but once, play was more even. It was in this session that Lindsay notched their two soft ones and that Goalie Stephens rose to great heights to keep the redshirts off the score sheet. In the early part of the third stanza St. John's were on top of their opponents and grabbed two goals. But in the final ten minutes they faded badly and Lindsay again stormed Miller's nets to notch another counter and raise their total to six.

Four men stood out prominently in earning victory for the Midgets. Most to the fore was Goalie Stephens. This lad who stood between the posts last year gave the best exhibition of his career. His work was spectacular. Again and again he skated out of his cage to rob the raging redshirts of apparently sure counters. In the second period he was injured when he spread-eagled in front of the nets to beat Ellis. After medical attention he returned to duty and continued to turn in the same peerless work.

The other three in the limelight were: Begley, rugged defence man, and Mills and Gerster, two forwards; all of whom were stars last year. Begley proved a great obstacle on defence and his rushing in the early stages was particularly effective. Mills and Gerster teamed up on the firing line better than any pair St John's could place against them. Mills is a tireless worker and it was his long stick at centre ice that at times completely hung up St. John's attack. Gernster paraded the left boards and it was down his wing that most of Lindsay's thrusts came. He tore in to pick up passes and rebounds and his shooting was deadly. Mills accounted for three of Lindsay's goals: Gernster for two and Begley bagged the other.

Ellis Again Stars.

Jimmy Ellis was by long odds the fastest and smoothest player on the ice. The big boy's work stood out as it has in no game this year. He went great on defence and he was also St. John's chief offensive threat, his speed and stickhandling repeatedly taking him through the whole Midget outfit only to have Stephens calmly thwart him at the goal-mouth. The close-checking and small ice gave Gardner and Calladine heaps of trouble and, although each scored, neither were as effective as they have been in previous games.

Milliken and Merrett, two substitutes, perhaps next to Ellis turned in the greatest share of the work for St. John's. Milliken earned St. John's third goal when he bore in fast on his rebound off the boards.

Except on the two shots, Miller gave his usual steady display in the nets and in the last ten minutes of the battle, as the team faded in front of him, he was forced to handle a flock of hard shots.

The teams:

Peterborough St. John's — Goal, Miller; defence, Ellis and Howe; centre, Calladine; wings, Gardner and Wilshaw; alternates, Milliken, Merrett and Burke.

Lindsay—Goal, Stephens; defence, Begley and Pogue; centre, Mills; wings, Gersten and Spratt; alternates, Parsons, Campbell and Bergenaw.

Referee—Armstrong, of Oshawa.

Game Opens Fast.

The game opened at a fast clip with both goalies being tested with well-aimed shooting from outside defence. With only a minute gone Howe drew a penalty and Lindsay, seizing the opportunity, put more punch into their offensive. Spratt went up the right boards and slipped the rubber from the corner over to Mills, who was camped on the goal mat and slapped it in for the first goal.

Begley steered down the ice on a solo effort but Ellis stopped him with a neat body check. Gardner was injured and while he was off St. John's encountered great difficulty in getting their attacks past centre ice. Both teams were checking closely and Begley for Lindsay and Ellis for St. John's were doing most of the really dangerous puck-carrying. Ellis and Calladine combined but the goalie beat Calladine's close-in shot. Later Ellis raced in on the goal but Stephens saved. Toward the close of the period both teams appeared fagged by the strenuous checking and were firing long shots.

The second stanza had only nicely got underway when a soft goal oozed into St. John's nets. Mills in checking a St. John's rush pushed the rubber toward the Petes' goal, and it eased past Miller and in for the Midgets' second counter. Thirty seconds later, Begley went down on a solo effort and crossed in front of the defence to backhand one neatly into the corner of the net.

Ellis was leading rushes upon the Lindsay nets but Stephens proved impregnable and Lindsay gained their fourth counter, when Gernster passed one out from the corner which bounded off a skate and in.

Stephens continued to keep St. John's off the score sheet, while Miller was called upon in the St. John's nets. Lindsay's fifth goal came on a shot from the blue line by Gernster. After St. John's had had their attacks repeatedly broken by Mills' checking, Calladine finally tricked his way down centre and went on Stephens to plug the twine for their first goal. For the remaining six minutes of the period St. John's made many dangerous sallies, but failed to slip another past Stephens.

In the third stanza St. John's gained their greatest margin but five minutes had past when Gardner went through the defence to score St. John's second goal. Milliken, forty-five seconds later, made the count 5 to 3 when he picked up his rebound off the boards and slipped it past Stephens. After many fruitless attempts, St. John's eased off and Lindsay again went to the front. Mills gave Gernster a pass out from the corner and he salted it away for Lindsay's sixth goal.

Summary:

First Period.

1. Lindsay—Mills (Spratt), 1.50 mins.

Second Period.

2. Lindsay—Mills, 1 min.
3. Lindsay—Begley, 30 seconds.
4. Lindsay—Gernster, 3.30 mins.
5. Lindsay—Gernster, 4 mins.
6. St. John's—Calladine, 5 mins.

Third Period.

7. St. John's—Gardner, 5.15 mins.
8. St. John's—Milliken, 45 seconds.
9. Lindsay—Gernster (Mills), 10.30 mins.

Penalties—St John's (5): Howe 3, Merrett and Gardner; Lindsay (3): Miller, Pogue and Begley.

DOUBLE HEADER AT BROCK STREET

Norwood and C.G.E. Will Clash in Opener at 7.30.

COGS VS. LAKEFIELD.

Hockey the way you like it is promised the fans at Brock Street rink to-night when an East Peterborough League doubleheader will be played with Norwood and C.G.E. Toolroom leading the way at 7.30 o'clock and Lakefield and Cogs taking the ice at 9 o'clock. Everything points to this double bill being the best yet and much of the interest is centred in the opening contest with the strong Norwood Combines in action against the Toolmakers. The Easterners showed their strength last Friday night by defeating the Oogs 3 to 0 and it will be no surprise to see them gather another pair of points to-night. The Lakefield-Cogs battle is bound to be a thriller with Cogs putting everything into the fray in an effort to stay up in the race.

THE RING.

KANSAS CITY. — Mickey Cohen, Denver, won newspaper decision over Tommy Grogan, Omaha (10).

INDIANAPOLIS.—Eddie Anderson, Indianapolis, knocked out Augie Pisano, New York (3); Babe Keller, Toledo, outpointed Carl Johnson, Seattle (8).

DAYTON, O.—Joe Sekyva, Dayton, outpointed Michel Bonaglia, Italy (10).

PORTLAND, Oregon. — George Manley, Denver, and Leo Lomski, Aberdeen, Wash., drew (10).

Don't forget the date, Feb. 17th. Or the place—Hall of the Canadian Legion. Or the object—Second Relief dance of The Examiner Social Club. There'll be a good time at the old hall that night.

MAROONS LOSE 4TH SUCCESSIVE GAME TO MADOC

Campbellford Goes Down to 7-3 Defeat in Trent Valley League Fixture.

CLEAN EXHIBITION.

Homesters' Forward Line Give Good Display—Visitors Drop Opportunities.

CAMPBELLFORD, Feb. 11.— (By Examiner Staff Correspondent.) — Losing their seventh game this season and their fourth in succession to Madoc the Campbellford Maroons went down to a 7-3 defeat before that squad in a Trent Valley League fixture staged at Madoc last evening, when a large crowd of hockey fans were given the privilege of a fast and clean exhibition of the premier winter sport.

Playing up to their usual brand of hockey, the entertainers put up a good fight and showed their right to the second place in the league. Despite the fact that Barkey's absence on the defence weakened them some, McGuire made a fine substitute and played well in line with Andrews. Their forward line was as fast as ever and played splendid combination, with Watson, Johnson and Heureaux making a splendid team and a formidable attacking line.

The Millers play was not so even as it could have been, several advantages being given away. Hard luck, however, followed in the visitors wake and that particular jinx that has been sticking close to the Maroons all season again showed his head. Ingram and Cowall deserved more counts than they made, playing a peach of a game on the defence position and starring in many pretty rushes and in lone plays. McKay and Fleming also did their stuff but seemed to be too slow for the men they were covering, although Whitton at the pivot position was the centre of some very hard and pretty play. Sanders in the Home Towners' net was worked hard while Hulin, the Madoc goalie, played as good a game as any man in that location in the league.

Heavy Checking.

The game, which was well refereed by Ross Burt of Trenton, was the scene of some very heavy checking, but was above the average for cleanness, Only five penalties being registered, two against Campbellford and three against Madoc. The first and second periods were Campbellford's best, the third being uneven and slow, although in this session the entertainers played a fine game and netted two tallies. The Black and Whites have the happy nack of picking up and sinking the lose pucks which gives them a distinct advantage, Campbellford falling down in this play.

The first period opened with play in centre ice until Whitton got the puck and carried it through the Madoc defence, only to be checked by Johnson, who passed to McGuire and so carried the play in the Campbellford area where Heaureaux shot but failed to count. Ingram then came into play, taking the rubber and passing to Whitton, who returned the attack. Again swooping down into the visitor's house, Cowall took the rubber forward, passing to Ingram who shot and drew first blood for the Millers. This drew Johnson and Henderson into some fast play and a little scramble was staged in the Campbellford net which was cleared by Ingram, who was in turn checked by Henderson. From face-off, Flemming carried the puck up the ice and shot, but failed to score. A return attack was featured by a splendid save by Sanders when Watson made a pretty drive from the left of the blue line. McKay then got into action and with the aid of Whitton and Flemming crowded the entertainers' net, only to be repulsed. In the play that followed, Henderson counted the first tally for Madoc from an assist by Johnson after eight minutes of play, Watson making another count on a pass from Andrews two minutes later. Smith and Blue now subbed for the visitors, Smith carrying the play into the Madoc house, where it remained for some time until Moon cleared the puck, which was picked up by Johnson who shot but failed to count. Henderson was fenced one minute before the gong sounded, and thirty seconds later Andrews made the third tally for the entertainers, from a pass from Heureaux.

Play More Even

Coming back strong in the second session the Millers did their best to even the count, Ingram and Cowall doing their best to tally and having some tough breaks. In a tumble in centre ice McKay and Watson were both penalized, Heureaux took the puck from the face-off, only to have it stolen by Cowall, who carried it forward and passed to Ingram, who scored. Madoc came back from the face-off with a strong attack only to be checked by McArthur, who gave a pretty exhibition of lone play, carrying the rubber forward and shooting. Play for a whole was staged in centre ice, until the entertainers broke away, Heureaux making another tally from the Black and Whites on a pass from Johnson. This did not suit the visitors, however, and in a determined rush forward Flemming netted the rubber from a pretty pass from Whitton. From the face-off Flemming was fenced for tripping.

Cowall then did some splendid work but was unable to count, and on the return of Flemming to the play, he and Whitton starred in some combined rushes that were also unsuccessful. Henderson was put on the fence for tripping Blue but this did not seem to matter for right after Johnson made another tally from a pass from Andrews, who came up from the defence position to assist. Play ended in the Madoc area.

Loose Play In Third

The last period seemed short and sharp, no penalties were handed out and only two tallies made, both by the entertainers. After some very stiff play McGuire broke through the Millers forward and defence lines and with no one to beat but the goalie netted a count. This was followed later by a similar play when Johnson made another tally. The Home Towners played very lose in this session and did not follow up the puck, letting many lose rubbers get away from them. Heavy checking also seemed to die, the entertainers having the better of the play.

The teams:

Madoc: Goal, Hulin; defence, Andrews and McGuire; center, Heaureaux; wings, Johnson and Watson; subs, Moon and Henderson.

Campbellford: Goal, Sanders; defence, Cowall and Ingram; center, Whitton; wings, McKay and Flemming; subs, Smith, Blue and McArthur.

Referee—Ross Burt, Trenton.

N.H.L. SCORERS.

GERARD'S AMERICANS ON EQUAL FOOTING WITH MAROONS IN DUEL FOR N. H. L. PLAY-OFF POSITION

Munromen Are Outscored Although Not Outplayed—Final Score 4-2.

BRUINS BEAT HAWKS.

Quakers Are Beaten at Home By Rangers—New Yorkers in Third Place.

TORONTO Ont., Feb. 11. (By Geo. Maguire, C. P. Sports Writer)—New York's blue shirted Rangers and star speckled Americans leaped back into contention for a play-off berth in the National Hockey League last night. The Amerks, led by the astute Eddie Gerard, defeated Montreal Maroons, 4 to 2, and advanced to an equal footing with the Munroemen in the Canadian group standing, four points behind the second place Toronto Maple Leafs.

Rangers registered their fifth straight victory this season over the tail-end Philadelphia Quakers by a 3 to 1 count to regain third position from Detroit in the American group standing. The blue shirts are now one point ahead of the Falcons who were idle, but they have played two games more.

Boston Bruins, who had previously lost three out of four decisions to Chicago Blackhawks, swung the pendulum a little more in their favor by nosing out the Windy City puck chasers, 2 to 1, in the third programmed fixture.

Apparently the rejuvenating process undertaken by the Maroon board of strategy did not have the desired effect. Manager Dunc Munro started on the defence with McVicar, while "Flat" Walsh replaced Davy Kerr in the nets. This re-arrangement, however, failed to stem the American tide of victory. In the last minute of the opening frame Massecar trickled the Maroon rearguard and slipped through for a hard close-in shot which beat Walsh and the lead was increased early in the middle frame when "Rabbit" McVeigh's long shot brought on the red light.

The Montrealers hammered mercilessly at the New York defence but it was late in the second session before Munro engineered a play which brought success. Seibert taking his desperate pass to score.

With Kerr in the cage starting the last 20 minutes the Maroons skated out after the equalizing tally, but it was the Amerks who scored, Normie Himes beating the Montreal netminder on McVeigh's pass. Seven minutes later Jimmy Ward put the Munromen back in the hunt by notching a neat marker from a scramble but the Montreal efforts were blasted when Bill Brydge and McVeigh broke away while their opponents were using every man on the attack. With no one to beat but Kerr, McVeigh tricked the Maroon goalguardian out of position and then passed to Brydge who slapped the rubber into the open net.

Scare for Rangers

Quakers gave Rangers a large sized scare at Philadelphia when Hib Milks scored at the halfway mark after the cellar occupants had outplayed their stronger rivals. Bill Cook notted the count soon after on a pass from Frankie Boucher.

There was no scoring in the second chukker and nearly 15 minutes of the final session had elapsed before Paul Thompson broke the deadlock on a pass from Butch Keeling. Bill Cook then assured the Rangers of victory by notching his second tally five minutes later.

Boston's victory over the Hawks increased their lead at the head of the United States division to eight points as the Chicagoan were their closest rivals.

The struggle was nip and tuck all the way. Dit Clapper passed to Cooney Weiland for the goal which gave the Bostonians the lead in the first period, but Desparadines got the equalizer late in the middle frame on a pass from Ingram.

George Owe, native of Hamilton, Ont., and only "American-born" player on the Bruin roster, notched the winning goal half-way through the last frame.

HEAVY CHECKING IS FEATURE OF S. E. L. FIXTURE

Good and Bad Hockey Mixed Up in Four South End League Games Last Night.

FOSTERS WIN 4-2.

Tigers Slip Through to Easy 6-2 Win Over Raybestos—Plenty of Action.

Good, bad and rough hockey were mixed up in four South End City League games last night at the Sacred Heart rink. The first two were close and fairly clean, while the last couple were one-sided with the Tigers and Raybestos coming to blows often in their contest. The ice was fast and the action rapid throughout. Next week the play-offs will begin if the Brock Street rink is available.

The first bantam game between Ravens and Canucks ended in a 1-1 tie. It was very even and free from penalties all the way. Canucks countered first when Vinette worked his way in on the enemy citadel and lifted the rubber into a corner. Connelly evened it up in the middle chapter on a close-in shot which Fanaro had no chance of stopping. The last period found teams going hard, but persistent checking kept the shooting from a distance and neither outfit were unable to break the deadlock before the final bell.

The teams:

Ravens: Goal, Delpellaro; right defense, J. Marino; left defense, T. Marino; centre, Shaughnessy; right wing, Connelly; left wing, Todd; alternates, Post, Collins and Grady.

Canucks: Goal, Fanaro; right defense, Collins; left defence, Gardino; centre, Gilbert; right wing, Vinette; left wing, Masters; alternates, Coursey, Scully, Thompson and Irwin.

Referee, C. Raney.

FOSTERS WIN 4—2

Athletics and Fosters Bantams put up a snappy battle with the latter finishing stronger to take a 4—2 decision. The winners had the better of it the first frame, Houlihan and O'Leary both netting the puck while Kingdon got one for Athletics. There was no scoring in the second though the boys tried hard. Poor shooting in this period kept the score down. Mowry went through in nice style early in the third to tie the count, but O'Leary notched another right after. Hard going finally resulted in one more for Ravens, Houlihan getting it two minutes before the end. The losers swarmed like angry bees around the winners' net with Anderson working extra hard, but no further scoring occured.

Athletics: Goal, Cunningham; right defense, McGovern; left defense, Anderson; centre, Kingdon; right wing, Mowry; left wing, Robertson; alternates, Vitarelli, Jobe, Stinson and Watson.

Fosters: Goal, Granger; right defense, Peters; left defense, Thornley; centre, O'Leary; right wing, Williamson; left wing, Ellis; alternates, Coughlin, LeSurf and Houlihan.

Referee, C. Raney.

EASY WIN FOR TIGERS

The third game was a juvenile affair with Tigers easing through with a 6-2 win over Raybestos. Plenty of fighting marred the exhibition. The winners had it over their opponents like a tent the first frame, Boyler getting two and Watson one, while the Rays were scoreless. Coming out for the second, the losers seeing themselves outclassed started rough tactics, their defense pair being particularly offending. The referee was very lenient, handing out but few penalties. The Tigers continued playing clean and ran in two more, Cournyea and Boyler getting credit. The last go was much cleaner and more even. O'Brien and White went through individually for two goals, and toward the close, Watson countered again for the winners. McCarrol played a nice game in the Tigers' net.

Raybestos: Goal, Sweetman; right defense, O'Brien; left defense, White; centre, Peel; right wing, Vinette; left wing, Alcock; alternates, Smith, Budd and Jarvis.

Tigers: Goal, McCarrol; right defense, Boyler; left defense, Weir; center, Watson; right wing, Fields; left wing, Cournyea; alternates, Kingdon and Gibson.

Referee, V. Lasure.

PETES LOSE OUT 7—2

Canucks trimmed St. Peter's to a fare-thee-well in the last game, the score being 7 to 2. The former with Delpellario doing the sniping had things pretty much their own way. He had no less than six of the seven goals scored to his credit, and was strongly reminiscent of Babe Dye in his bullet-like shots. He got two in the first, two in the second and another pair in the last period. Wells scored the other one in the third. For St. Peter's, McCallum got both goals, one in the second and the other in the final session. The Saints checked hard, and got through fairly often but could not beat the Canuck defense. "Finnegan" Hill played a nice game for the winners.

St. Peter's: Goal, Melrose; right defense, Koster; left defense, Sullivan; center, McCallum; right wing, Lebarr; left wing, Sweetman; alternates, Roche.

Canucks: Goal, Fleming; right defense, Lefave; left defense, Hallahan; center, Delpellario; right wing, Hill; left wing, Shaughnessy; alternates, Kirns, Collins, Wells and McCarthy.

Referee, D. Jones.

Junior Doubleheader In South-End League

This week winds up the juvenile and junior sections of the South End City League regular schedule. The play-offs will begin as soon as winners are declared in all three sections.

To-night there will be a junior double-header at the Sacred Heart rink. Canucks and Stars will meet at eight o'clock, and Pirates will battle Electrics at nine. Plenty of action is promised in these fixtures.

To-morrow night at the same rink, four games will wind it up. Tigers and Canucks will play a juvenile game at six, and are followed at seven by the juniors, Pirates and Stars. The second juvenile battle will be between Raybestos and St. Peter's at eight, and the fourth game will see Canucks and Electrics in a junior affair at nine.

SAINTS BELIEVE THEY CAN PULL DOWN THE LEAD

St. John's Youngsters Have Three Goal Deficit to Make Up To-morrow Night.

LINDSAY CONFIDENT.

Midget Supporters May Charter Special Train For Big Battle Here.

St. John's have a real job on their hands to-morrow night when they take on the Lindsay Midgets in the second game of the group play-off series.

The first battle at Lindsay last night was a disappointment to the Saints and their supporters, who counted upon holding the Midgets even at home. Instead they now face a deficit of three goals and will have to step on the gas over the whole distance at Brock street rink to-morrow night if they hope to stay in the running.

They are counting on the larger ice surface to turn the trick for them. This year's Saints play wide open hockey and they were naturally handicapped last night by the small rink, which interfered both with their stick-handling and their team work. The Red team is confident that they can come back with an exhibition of hockey that will win a At any rate they promise a battle passage into the next round for them. that will give local fans plenty to cheer for.

This Lindsay outfit is not to be underestimated. They have a great goaler in Stephens, a good defence man in Begley, and Mills and Gerster on the forward line are a smart pair of youngsters, while the others check effectively and never stop working.

The biggest crowd of the season will be on hand. Lindsay fans, wild with excitement at last night's victory, are talking of a special train to bring down an army of rooters to-morrow night, but if that does not materialize hundreds of Scugog fans will motor down to see the battle. And local followers of the game will be out in droves for what promises to be the most exciting tussle of the year.

A. W. Armstrong, of Oshawa, will referee.

Galt Curler Suffers Stroke, Condition Bad

GALT, Ont., February 11 (C.P.).—Ex-Alderman Alexander Forbes, a well-known local insurance man, lies in a serious condition as a result of a stroke. Mr. Forbes had been curling last night, and late in the evening went to his car to go home. He evidently felt the attack coming on, since he tooted the horn of his car to attract attention. When help arrived they found him unconscious. He was rushed to the hospital.

"Y.W." SENIORS DEFEAT SCHOOL QUINTET 13-4

Isobel Davidson, Ev. Armstrong and Sybil Sharpe Are Marksmen For Winners.

PLAY NICE GAME.

Ruth Sutton Proves Tower of Strength to Losers on Defense Line.

In a stubbornly fought league fixture played on the Y.W.C.A. floor last evening, the "Y" Seniors defeated the Senior School basketball quintet by a 13-4 count.

It was evident from the start that the Senior School team was going to play a heavy defensive game. The Seniors carried the attack for the greater part of the first period but were unable to get into scoring positions and attack after attack was halted at the School defence.

Neither team had scored at half time but shortly after the rest period Isobel Davidson, Ev. Armstrong and Sybil Sharpe scored for the Seniors and Helen Cole and Kay Lang tallied for the Senior School.

The School team tired badly toward the middle of the final session, allowing the opposition several fine scoring opportunities which were quickly taken advantage of and Ev. Armstrong scored twice in a row and Isobel Davidson closed the scoring with a nice shot from the defence.

Ev Armstrong was the high scorer for the winners with 7 points to her credit and was followed closely by "Ibs" Davidson with 4 markers.

Play Nice Game

The entire team played nice basketball to cop the win and Hazel Jackson and Verda Gamble turned in nice efforts on the defence.

The losers played particularly fine basketball when forced back on the defensive and a lion's share of the credit should go to Ruth Sutton who was a tower of strength in that department of the game.

Forwards Work Hard

All the forwards worked hard to pierce the opposition defence and Helen Cole and Kay Lang shared the scoring honours. Jeanne Harvey showed nice form during the entire contest and was one of the most effective players on the squad.

The play opened slowly and for the first ten minutes neither team was able to score.

To open the second half, Isobel Davidson scored a nice basket on a combination effort with Kay Haggart and May Holmes and Sybil Sharpe followed with a shot from near the defence.

The School squad played nice combination to allow Kay Lang to score and a minute later Helen Cole took a pass from Ruth Sutton to tie the score.

The Seniors opened up a strong attack and the School team was unable to cope with the nice combination efforts of the "Y" forwards and Ev. Armstrong was given several fine chances which she took without a miss.

Isobel Davidson scored again on a close in shot to bring her team's total to 13 and the final whistle prevented any further scoring, leaving the count 13-4 in favour of the Seniors.

The Teams

"Y" Seniors		Senior School Girls
K. Haggart	forwards	J. Harvey
M. Holmes		G. Burns
E. Armstrong		D Allen
I. Davidson	centre	H. Cole
H. Jackson	guards	R. Sutton
V Gamble		K. Lang
S. Sharpe		O. Elcome
G. Hewett		

Referee—Carlos Routley.

LONDON WINS FROM WINDSOR

Reinikka, Hicks and Pettinger Score as Tecumsehs Even Up Old Grudge.

FINAL SCORE 4-0.

TORONTO, Ont., Feb. 11. (By Geo. Maguire, C. P. Sports Writer) Blanking their ancient rivals, the Windsor Bulldogs, by a 3 to 0 count in London last night the Tecumsehs of that city gained a firm grip on third place in the International Hockey League standing.

While the Londoners were administering a hockey lesson to the second place holders the Pittsburgh Yellow Jackets were giving them a helping hand in their grasp for their rung by trouncing Cleveland Indians, 1 to 0 in the Smoky City.

The league leading Buffalo Bisons encounter a disorganised Olympic team in Detroit and easily strengthened their perch at the top by shellacking the Detroiters in the Motor City, 4 to 1.

Nearly 4,000 fans joyously watched the all-Canadian tilt in the Forest City and saw their old favorite Mike Neville, playing the pivot position, lead the Tecumsehs to a clean-cut victory.

Hal Hicks, husky defenceman of the Londoners, was the standout performer. Besides playing a strong game on the rearguard he assisted in the scoring of two of the winning team's three tallies. Reinikka got the first in the opening frame on a pass from Rolly Huard and Micky the second three minutes later, unassisted. Eric Pettinger notched the final counter late in the middle session following a three man thrust with Hicks and Reinikka.

Milt Halliday, lanky centre and Lorne Mitchell combined for the lone goal of the Pittsburgh-Cleveland clash. The former netted after 19 minutes had elapsed in the opening period. Thereafter the game developed into a bitter struggle between the rival forwards and rearguards with the latter having all the best of it. The victory was the first of the season for Yellow Jackets over last season's champions.

Two goals in the first and one in the second and last periods gave the Bisons a safe lead against the Olympics who played listlessly throughout the match.

One of the smallest crowds on record in Detroit watched the squads perform. Lauder and Lederman were the successful Bison marksmen on the first chukker. McAdam reduced the margin in the second but Martin put the Bisons two in front again soon after. Lloyd Gross notched the only goal of the last frame.

AINTREE WINNERS

AINTREE, Liverpool, Feb. 11 (By The Canadian Press.)—The Grand National, to be run on March 27, has constantly grown in importance and popularity since the first race in 1839. Hundreds of thousands of persons saw the 1930 race. The winners since 1910 have been:

1911, Glenside, 26 starters; 1912, Jerry M., 24 starters; 1913, Covertcoat, 22 starters; 1914, Sunloch, 21 starters; 1915, Ally Sloper, 20 starters; 1916, * Vermouth, 21 starters; 1917,* Ballymacad, 19 starters; 1918, * Poethlyn, 17 starters; 1919, Poethlyn, 22 starters; 1920, Troytown, 24 starters; 1921, Shaun Spadah, 35 starters; 1922, Music Hall, 32 starters; 1923, Sergeant Murphy, 28 startres; 1924, Master Robert, 30 starters; 1925, Double Chance, 33 starters; 1926, Jack Horner, 30 staters; 1927, Sprig, 37 starters; 1928, Tipperary Tim, 42 starters; 1929, Gregalach, 66 starters; 1930 Shaun Goilin, 41 starters.

* substitute race run at Gatwick.

CURLING

The results of last night's schedule games at the local curling rink were as follows:

Wiley 11, vs. Dobbin 7
Cruthers 13, vs. Donaldson 11.
Turner 11, vs. Penrose 14.
Cairns 11, vs. Skinner 7.
Fitzgerald 12 vs. Hall 9.

STARS PLAY TO 2-2 DRAW WITH JOHNSTON TEAM

Smooth Combination and Close Checking Features City League Tangle.

GOOD GOAL-TENDING.

Choats' Hardware Take 5-3 Decision From C.G.E. in Second Game.

A pair of fast, clean and close-scoring games in the Junior City League were dished up to a small number of spectators last night at Brock Street rink. The first ended in a draw and the other was a tight battle from start to finish. Good ice kept the players moving fast, and strict refereeing held down any tendency to "rough it."

The opening contest was even-Stephen the whole sixty minutes, there being nothing to choose between the Stars and Sea-Horses. Both outfits travelled fast, combined nicely, and checked close. Sanderson and Clark in opposite nets had to save spectacularly at times. A goal apiece was the way the first period ended, and the same thing happened when the bell brought the middle session to a close. In the final go, play was up and down the ice at a great clip, but the shooting was off on several occasions when there was only the goalie to beat. The boys never let up through this frame, and they were going faster at the final gong than at the start, without however either aggregation being able to sink the big one to break the deadlock.

The teams:

Stars.—Goal, Sanderson; right defense, Seabrook; left defense, Whatley; centre, Frost; right wing, Young; left wing, G. Jay; alternates, H. Jay, Bath and Maudsley.

Sea-Horses.—Goal, Clark; right defense, Wood; left defense, Archambault; centre, Scollard; right wing, Payne; left wing, McCullough; alternates, D. White, Sproat, J. White and Kirkwood.

Referee—Jim McMartin.

TAKE 5—3 DECISION

The second game saw Choate's Hardware get the nod, 5 to 3, over C.G.E. Office in a bang-up exhibition of classy hockey. A good speed was maintained the three periods, and the game was featured by the close-checking of both forward lines. The losers didn't bore in as much as they might, being content to shoot from the defense. In the first frame, the husky boys from across the river ran in two while the C.G.E. were notching one. Coming out for the middle chukker, they caged another pair, both on individual efforts. The losers checked hard, and made a few sorties down the rink, but couldn't counter. The final stanza found the C.G.E. going strong, running in two early in the period. But the winners speeded up, too, and shortly before the bell, combined for their fifth and last marker.

C.G.E. Office.—Goal, Doxsee; right defense, White; left defense, Prete; centre, Craig; right wing, Jones; left wing, Tuck; alternates, Payne and Gray.

Choate's Hardware. — Goal, Anthony; right defense, Francis; left defense, Mesley; centre, Hickson; right wing, McGillen; left wing, Murdock; alternates, Dincsen, McCarrol and Vinette.

Referee—Chris. Sproat.

TURVEY'S TECOS TROUNCED C.D.S.

More Than Wisecracks Exchanged in Midnight Battle at Brock Street.

SCORE WAS 14-2.

Hec Turvey's Teco team put the boys from the "C.D.S." on the "spot"-light at Brock Street rink last night around the sleepy hour of midnight when all honest citizens are in their beds, and after a friendly flailing with the hickory sent them home with the score of 14-2, and these figures don't include the bumps and bruises, nor the sprains and Charley horses.

Take it from Turvey that there was plenty of baim in that score for the lads from the store at the Simcoe street corner. The police blotter discloses the significant fact that a group of alleged hockeyists, and the allegation comes solely from one of the night policemen, had to truck themselves down George street. Presumably these were the casualties, who could neither hoof it nor crawl to the beanery where the Teco celebration was staged.

The night's list of damage and pain was not made public, but it certainly did not include Pud Hildebrand's hard hat which he insisted on wearing as part of his armor in the Teco net, probably as a sort of defiance to the hapless C.D.S. chaps.

According to the ice-sweeper who had to stick around the rink to turn out the lights and wind up the clock, the Maple Leafs are passing up a lot of good prospects down this way, but if Connie Smythe won't come down to look them over he has only himself to blame. At any rate Turvey's Terrors were all able to report this morning, but there was no information that Mr. R. Y. Eaton had telegraphed his congratulations to the conquerors of the C.D.S. The opposing gangs were:

Teco—Goal, Hildebrand; defense, Purdy and Sexsmith; forwards, Fred Stanley, Earl Fowler, Bill Doughty and Robson.

C.D.S.—Goal, Bennett; defence, Austin and French; forwards King, Gamble and Weyer.

Somebody refereed the bout, but he slipped away before his identity could be obtained.

BELLEVILLE GAINS LEAD OVER MADOC

Hold One Goal Margin For Interscolastic Supremacy of District.

BELLEVILLE, Feb. 11.—Belleville Collegiate hockey team gained a one-goal lead over Madoc in the finals for the inter-scholastic honors in this district. The return game will be played on Tuesday next. The score was 2—1, with Belleville always in the lead. The work of Nickle in the Madoc goal was outstanding, and his remarkable saves saved Madoc from a bad beating. Coach Shields has the same team as last year, who were runners-up in the Provincial finals played at Toronto, in addition to three boys from the junior squad.

McGuire scored for Belleville in the first period, but West put his team back in the running with a fine play. The second period was goalless, but Graves gave the Belleville team the edge in the final period with a well-directed drive. Sherry, Morgan, McGuire and McDonald starred for Belleville.

Belleville.—Goal, Scopis; defense Sherry, Hughes; centre, McDonald; wings, McGuire, Morgan; subs., St. Denis, Rigby, Graves.

Madoc.—Goal, Nickle; defense, Ashley, West; centre, Rupert; wings, Aikey, Whytock; sub., H. Nickle.

Controversy Threatens Break Up Ryder Team

LONDON, Feb. 11 (A.P.)—A successful defense of the Ryder Cup by Great Britain appears seriously threatened by the controversy between Henry Cotton, a leading candidate for the British team, and the Professional Golfers' Association of Great Britain.

Britain will send over a team to defend the cup at Columbus, O., in June and the P.G.A. has ruled that all team members must tour as a body in the United States and return to England at the same time. Cotton rebelled at this ruling.

Now Cotton has invited Percy Alliss, British pro. at a Berlin club; Aubrey Boomer, and C. Royer, a leading French player, to join him in competition in the United States Open and perhaps other tournaments. Of this quartet only Cotton and Boomer are eligible to membership on the Ryder Cup team.

Mortgage and co-operative banks organized in France to help the farmer are extending their operations into cities.

TULSA OILERS LEAD AMERICAN LEAGUE

Ground Chicago Shamrocks Underheel 1-0 in Overtime Struggle.

TULSA, Okla., Feb. 11 (C.P.)—Domination of Tulsa Oilers in the American Hockey League remains unquestioned to-day. Last night the Oilers ground the insurgent Chicago Shamrocks under-heel, 1 to 0, in a fierce overtime contest. By their defeat, the Chicagoans missed a chance to gain a second place tie with Kansas City, and were forced to share their third-place berth with Duluth Hornets.

Duluth crowded into third position by eking out a 3 to 2 win over St. Louis' Fliers after two periods of overtime play.

Joe Stark was the hero of the night's third contest between Minneapolis Millers and Buffalo Majors, both denizens of the league's lower regions. Goalie for Buffalo, Stark allowed the Millers but one goal while his mates were counting five in their initial match at Fore Erie, Ont., their home for the rest of the season.

Tennis Board Head Favors Open Title

PHILADELPHIA, Feb. 11 (C.P.)—Joseph W. Wear, retiring chairman of the United States Davis Cup committee, favors an open tennis championship in the United States.

"The United States," Mr. Wear said to-day, "should have an open tennis championship, the same as golf, and it should be held under the auspices of the United States Lawn Tennis Association. I heartily endorse the necessity of a strong professional association, so that we can clearly define the difference between an amateur and a professional. Tennis players can then take their choice if they wish to earn money by using their net ability as a means."

To-night's Schedule.

Ontario League.
Guelph at Stratford.
Galt at Niagara Falls.
Kitchener at Oshawa.

Canadian-American League.
Springfield at Philadelphia.
Boston at Providence.

American League.
Chicago at Tulsa.

8—0 decisions for Drafting Room.

DISTRICT NOTES

By Examiner Correspondents

RUSH POINT.

Mr. Ray Keating, of Campbellford, is at Rush Point taking out pulpwood.

Mr. Harold Spinks, who has been spending a short time at home, has returned to the north country.

Mrs. Norman Wannamaker, of Round Lake, is spending a few days here.

The church service was held as usual at the White Church with the Rev. Mr. Archer in charge, and a good crowd was in attendance.

The topic for the League meeting on "Citizenship" was capably handled by Miss Sargeant. A good program, including a splendidly rendered violin solo by Harold Seeney, was enjoyed.

FENELLA.

The Young People's Society, of Burnley, put on a euchre and dance in the Burnley hall on Wednesday evening, when a very enjoyable time was had. Miss Muriel Macklin won the lady's prize for cards, the gentleman's prize going to Alvin Doxtator. Mr. and Mrs. Alex Merriam supplied music for dancing.

Mr. and Mrs. A. Waldie entertained a number of their friends to cards and dancing on Friday evening.

Miss Olive Jewell, Dartford, is the guest of her sister, Mrs. Erie Sandercock.

Miss Donna Talling, pupil at Cobourg Collegiate Institute, spent the week-end under the parental roof.

The Fenella Women's Institute will hold an open meeting for the members and their families, on Friday evening, February 13, at the home of Mrs. A. Waldie.

Miss Loretta Sherwin, Harwood, is visiting her friend, Mrs. Bruce Macklin.

Among those from this community who attended the Masonic banquet at Warkworth on Friday evening were: Mr. and Mrs. Arthur McFiggin, Mr. and Mrs. J. H. Mouncey, Mr. and Mrs. Hugh Sherwin, Mr. and Mrs. Clark Jewell, and Mr. W. Montgomery.

Mr. and Mrs. Fred Slade spent a few days in Toronto, recently, guest of their daughter, Mrs. O. G. Nichols.

Mr. Clarence Brisbin was in Cold Springs during the past week attending the short course in agriculture and home economics, which is being held under the auspices of the County Department of Agriculture.

CENTRETON

Mr. and Mrs. Jack Macklin, of Fenella, were Sunday guests of Mr. and Mrs. Alvin Milne.

Mrs. J. R. McBride and sons, Gordon, Alan and Glen, visited the former's parents, Mr. and Mrs. George Wolfraim, of Castleton, on Sunday.

Mr. and Mrs. Charles Jones entertained a number of their friends at their home, recently.

Mrs. Clayton McGregor and son Vernon are visiting the former's mother, Mrs. T. Coleman, of Toronto.

Mrs. John Merriam spent Friday with her son, Mr. Roy Merriam, of Castleton.

Mr. and Mrs. Alden Coffey were in Castleton on Friday.

Messrs. Johnson McKenzie, F. Etcher and C. McGregor were visitors to Baltimore on Friday.

Mrs. Ford Barrie and Mr. and Mrs. Cephas Turk, of Eddystone, were guests on Sunday of Mr. and Mrs. John Merriam.

WARSAW

There was service in the Anglican Church on Sunday morning, after two Sundays with no service.

Miss Clara Payne spent a few days with her aunt, Mrs. Alex Watts.

Mr. Joseph Whitehead died on January the sixteenth in a convalescent home near London, England.

Born—On Sunday, February 8, to Mr. and Mrs. Victor Hendren, a son.

EAST EMILY

Mr. and Mrs. Clifford Jackson of Peterborough spent Sunday visiting at the former's home.

Mrs. Annie Fee left for Toronto on Tuesday, where she was called owing to the illness of her daughter, Miss Irene Fee.

Mrs. Frank Fowler is visiting with Mr. and Mrs. P. Udy in Bridgenorth.

Miss Phoebe Langton spent a few days last week with her aunt, Mrs. Wesley Casey.

Mr. Herb Jackson spent last Thursday and Friday visiting with his sisters at Bridgenorth. Mrs. Jackson returned home with him.

Mr. Clifford Fee spent a few days last week visiting with friends in Toronto.

Those who went to Peterborough on Saturday from the new station at McCague's were, Mrs. William Howden, Mrs. Evans Storey, Mrs. Harry Jackson, Mrs. Bert Smith, Mrs. Roy Howden, Mrs. Fred Todd, Miss Helen Storey, Mrs. Albert Finley, Mrs. Arthur Jackson, Messrs. M. Elliott, H. Deyell, Albert Bishop and Cecil Finley.

Mr. Robert Casey had the misfortune of having one of his horses drop dead on the road when he was driving to Omemee last Friday.

The farmers in this district are very busy getting their supply of ice in for the coming summer and report the quality exceptionally good. Also hauling and sawing wood seems to be the order of the day.

The roads are at their best for such work at the present time.

Mrs. Wilfred Howden received the sudden news on Friday of her two brothers at Ridgetown being seriously hurt, while they were driving along the road, a car collided with them.

Little Betty Fee is visiting at the home of Mr. and Mrs. Ray Syers of Cavan.

Mr. Wilkinson of Toronto was a business visitor in this district last week.

ROSENEATH

The A.Y.P.A. of Harwood are presenting their play in the Orange Hall here on Monday, February 16. This play has had many pleasing comments that it is hoped a large crowd will be in attendance.

Misses K. and H. Barrie spent the week end with their parents at Birdsalls.

Mr. Robert Mounce is again confined to his bed through illness.

Mr. and Mrs. Andrew Brown entertained a few of their friends on Friday evening in a game of crokinole.

Mr. and Mrs. John Mouncey and Miss Mildred Lane of Fenella were visitors in the village on Sunday with his parents, Mr. and Mrs. Robert Mouncey.

Miss C. Waldie of Grafton is visiting friends here and guest of Mr. and Mrs. William Waldie.

Mr. and Mrs. Delbert Adams and family of Fenella were visitors with Mr. R. A. Nichol on Sunday.

The many friends of Mr. C. W. Varcoe are pleased to see him out again after being confined to his home through illness.

Best Remedy for Cough Is Easily Mixed at Home

You'll never know how quickly a stubborn cough or chest cold can be conquered, until you try this famous recipe. It is used in millions of homes, because it gives more prompt, positive relief than anything else. It's no trouble at all to mix and costs but a tride.

Into a 16 oz. bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup or strained honey to make 16 ounces. This saves two-thirds of the money usually spent for cough medicine, and gives you a purer, better remedy. It never spoils, and tastes good—children like it.

You can actually feel its penetrating, soothing action on the inflamed throat membranes. It is also absorbed into the blood, where it acts directly on the bronchial tubes. At the same time, it promptly loosens the germ-laden phlegm. This three-fold action explains why it brings such quick relief even in severe bronchial coughs which follow cold epidemics.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form, and known as one of the greatest healing agents for severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

house party at Mr. Arch Waldie's on Friday night and report a delightful time.

Mr. and Mrs. H. Baxter entertained a number of their friends by giving a party at their home on Friday evening. A most enjoyable time was spent by all present.

TWO YEARS FOR FRAUD

LONDON, Ont., Feb. 11 (C.P.)—Pleading guilty a week ago to two charges of fraud, Edgar Buckle, city was sentenced to two years in Portsmouth penitentiary on one charge and one year on the second count. The sentences are to run concurrently.

Accused faced Magistrate T. W. Scandrett in city police court this morning. In Toronto two weeks ago, Buckle was sentenced to 90 days in jail on a charge of fraud.

HOME TOWNERS

Tidbits. Interesting and Humorous CAMPBELLFORD

Lastest reports from Peterborough say that C. H. Davidson, who recently underwent an operation in the Nichols Hospital is progressing favorably but it is expected that he will be confined to his bed for the next three weeks.

Mr. Donald Dalgleish spent a few days in Toronto this week.

We are sorry to hear that the Rev. R. C. Talt is suffering from a severe cold.

Mr. Gordon Lapp, of Toronto, who addressed the Campbellford Rotary Club on Monday was entertained while here by the Rev. T. G. MacTavish.

Howard Davidson, who has been visiting at his home here for some time left Tuesday for Peterborough to visit his father, C. H. Davidson, and will continue from that point to Oshawa.

C. T. Kelley, who for the past week has been the guest of his brother-in-law, Dr. S. L. and Mrs. O'Hara, left on Tuesday for his home in Calgary, Alta. Mr. Kelley has been on a visit to his parents in New Brunswick, making a stop-over at Campbellford to visit his relatives here.

DAIRY NOTES

CAMPBELLFORD, Feb. 11 (By Examiner Staff Correspondent)—Mr. George Ointment, formerly maker at the Burnley cheese factory has purchased the Daisy factory near Norwood and will take charge there next season.

Splendid prizes are being arranged for by the cheesemakers of Central Ontario for the coming season's Herd Competition.

The canning industry is a profitable business we know, but the more 30 and 40 gallon milk cans we have the greater the profit.

Water hauling is more of a problem on many farms in this district than is unemployment.

Commenting on the condition of agriculture throughout the country, Mr. Smith, agricultural representative, speaking before the Campbellford Fair Board some time ago said his observations led him to believe that farmers were more prosperous where extensive dairying was carried on.

A dairyman from the Campbellford district showed the following returns from the milk of six cows last season: from sale of veal calves, $136; from cheese factory, cheques, $349.-04; from 100 pounds of butter, $30, making a total of $515.04 plus two heifer calves raised and milked for home use.

After a lingering illness there passed away in Belleville Hospital on Sunday last Ontario's most outstanding cheesemaker in the person of Robert McLaughlin. Interment was made in Belleville on Tuesday.

District Churches

AT TRENT RIVER

TRENT RIVER, Feb. 10 (Examiner Correspondence.)—Rev. Forbes Stillman, of Norwood, preached to a large and appreciative congregation Sunday afternoon, taking his text from the Gospel of St. John, 10:9;"Ye shal go in and out and find pasture."

"Jesus became the Great High Priest, ministers are not priests in an official sense. No one can do anything for atonement for sin; Jesus has done that for one and all. In olden days the High Priest was only allowed to go into the Holy of Holies once a year but now we may go with faith into the very presence of God and go out into the world in love to serve Him. We grow in the knowledge of our Saviour, Jesus Christ. The Bible tells us how to get rid of the stain of sin. What a wonderful pasture field is the Bible! We are in green pastures when we feed upon the word of God. If cares of this world get into our hearts it suffocates us.

"The world is waiting for us to go out and do something. We are only the instrument in His hand. We are God's messengers and ambassadors for Christ—no Christian is excused from going to the mission field. We would have lost the war if all had gone to the trenches; some had to remain home to grow grain, etc. The work isn't far away in foreign fields, it is right here."

Rev. Mr. Stillman concluded his remarks by saying: "If we go in and out we will be enriched and enabled to grow in grace of the knowledge of Jesus Christ, our Heavenly Father.

TO ADDRESS LEAGUE

The efficiency League meets Friday night at the United Church. A. C. Denike of Havelock, will address the Young People on "Missions."

ST. ANDREW'S Y.P.S. MEET.

Campbellford Group Hold Regular Meeting—Topic Given By Donald Watters.

CAMPBELLFORD, Feb. 11 (By Examiner Staff Correspondent)—The regular meeting of the Young People's Society of St. Andrew's Presbyterian Church, Campbellford, was held on Monday in the church parlor with Franklin Rowe in the president's chair. Miss Grace Blue was the secretary for the evening and W. A. Newcourt acted as accompanist.

The meeting opened with the singing of a psalm, after which prayer was offered by the Rev. J. C. Robinson and the scripture lesson read. The roll call was then given and the business period entered into.

The program was under the direction of the devotional committee, with the convenor, Donald Rutherford, in the chair.

The topic, "What is implied in God is my Father," was given by Donald Watters, the discussion following being lead by the Rev. Mr. Robinson and Franklin Rowe. A vocal solo was rendered by Mr. John Russell and Edward Rutherford a piano solo. The meeting closed with the benediction.

The topic for next Monday's meeting will be "Great Men and Movements in the History of the Church—Protestantism—Luther."

More than 6,500 trucks were shipped from America to Argentina in 1930.

SIX and sixty are good pals—for six never has a thought that isn't full of sunshine, and sixty is one of those rare old ladies who has learned how to live. They both get their brimming and joyous health the same simple, normal, natural way.

Doctors pretty well agree that (barring germ diseases) most illness and headache are due to failure to keep "clean inside."

In blaming this condition for most of our sickness, so they agree also on the safe way to relieve it—keeping clean inside by the Nujol type of treatment. Nujol is not a medicine at all. It contains no drugs. It is colorless and tasteless, and children love it.

Two things you have to remember if you want to enjoy "Nujol health."

One. Don't expect results overnight. This is nature's own method, and nature is never violent. Two. Be sure you get Nujol. Your druggist has this pure and drugless product in a sealed package, trade-marked "Nujol" to protect you.

Nujol health

Give the simple Nujol treatment a real trial. Why not begin tonight?

INSIST ON NUJOL . . . REFUSE SUBSTITUTES

LEGION EUCHRE PLANNED.

To Be Staged By Campbellford Branch on Easter Monday, April 6.

CAMPBELLFORD, Feb. 11 (By Examiner Staff Correspondent)—The regular meeting of the Campbellford Branch, No. 103, Canadian Legion, B.E.S.L. held Monday evening in the Armouries, Campbellford, was featured by the making of arrangements for the annual Easter function. The president, G. A. Ironside occupied the chair.

This year's event will take the form of a euchre, dance and draw, to be held in the Campbellford High School Auditorium on Easter Monday, April 6. The arrangements are in the hands of a committee composed of G. A. Ironside, A. G. Thompson, J. D. McEachern, Charles Holmes and the social committee which consists of Mayor J. M. Bygott, G. Free and J. Watters.

This has always been a premier spring event and it is expected that this year will be no exception. The proceeds will go for relief purposes.

● *Mothers! See how easy it is to get youngsters to take cod-liver oil now*

Do your children hate plain cod-liver oil? Then read this—and find the end of your trouble.

Billie Balfour was very busy with a soccer ball when the Scott's Emulsion reporter snapped the above picture in front of this young man's home, 146 Douglas Drive, Rosedale, Toronto. We had learned from his mother, Mrs. C. E. Balfour, that Billie had no use at all for plain cod-liver oil. And just to see if her boy would take Scott's Emulsion of Cod-Liver Oil more willingly, she asked Billie to try some.

Billie swallowed a spoonful. He grinned. "Say, it tastes fine!"

Pleasanter to take—but that isn't all!

Pale, thin, run-down children need cod-liver oil. Give them the pleasantest form—Scott's Emulsion.

Scott's Emulsion hasn't that strong "fishy" taste. It brings you purest, Norwegian cod-liver oil in a perfect emulsion. Easier to take—easier to digest. You get *more* good out of Scott's Emulsion and feel the benefits *quicker*.

Scott's Emulsion contains no alcohol. It is rich in vitamin A, the growth-promoting vitamin that helps guard against disease. Rich in vitamin D, the sunshine vitamin that prevents rickets. It contains minerals that help form sound bones and teeth. A special advantage for growing children, infants, nursing and expectant mothers.

Get Scott's Emulsion to-day. See youngsters gain new weight and vigor. At your nearest druggist, in large home size or small traveling size bottles. Sales Agents: Harold F. Ritchie & Company, Ltd., Toronto.

New York Skater Holds Lead Over Ross Robinson

SARANAC LAKE, N.Y., Feb. 11 (C.P.)—Ray Murray of New York, held a ten-point margin over Ross Robinson of Toronto as skating champion as Canada and the United States entered the second day of competition in the North American amateur speed skating championships here to-day.

Murray scored 40 points yesterday by winning the 220-yard dash in 19 seconds, and placing third in the mile, which Robinson won in the excellent time of 2 minutes, 37 seconds. Robinson's triumph gave him 30 points and second place in the standings.

Two Chicagoans, Frank Stack, native of Canada and O'Neill Farrell, were tied for third place with 20 points. Stack was second in the 220 and Ferrell runner-up to Robinson in the mile.

PLAINTIFFS GIVEN JUDGMENT FOR $100

Judgment is Delivered in the Case of Goodfellow and Welsh vs. Econs.

"The conclusion I have arrived at is that the plaintiffs have judgment for $100.00 also their costs up to the date of payment into court. As to subsequent proceedings there will be no order as to costs, each bearing his own," declared His Honor Judge E. C. S. Huycke in delivering judgment in a Division Court action, Goodfellow and Welch, plaintiffs, vs. John Econs, defendant.

"The plaintiffs' claim is for $134.94. Of this $100 has been paid into court under the rules in that behalf and in addition to that a counter-claim has been put in for a considerable sum."

"I find that the ice box was not constructed properly although the omission may not have been great; there should have been something put between the lid and the box to prevent the circulation of warm air from the kitchen into the box," His Honor observed. Continuing, the Judge held that, "the tap was not properly adjusted although this was a very trifling matter, and could have been arranged most easily if taken in hand. The loss, or the greater part of the loss, resulting from the orange juice being spilled is not satisfactorily made out. The stand on which it was placed may not have been accurately placed in the first instance, but if so this would appear to have been magnified by its having been moved around or tilted unduly."

"The table," he found, "was broken owing to lack of proper care during adjustment. The injury to business and inconvenience is rather inconclusive and not definitely proved, perhaps cannot be."

Alexander Elliott of Gordon and Elliott, appeared for plaintiffs, while F. D. Kerr, K.C., acted in the interests of defendant.

Long Evening Skirt Keeps Good Standing

PALM BEACH, Feb. 11.—Those who gathered at the Florida Embassy on Saturday evening to dine under the new gay blue and yellow awnings, and to dance on the cedar floor, indicated that the evening skirt length just escaping the ground is in good standing. The only exception to this rule was observed in a frock of pink lace, where the bias gathered flounce at the sides provided fullness, terminating in a train. The bodice was fashioned with a long, pointed cape back, attached to a narrow band which outlined the low decolletage.

Mrs. Archibald McNeil, in the same party, wore a white chiffon frock with a woven leaf design in satin. This approved fulness in semi-peplum flounces supplemented by a lower one of ankle length. The flounces as well as the bodice, was developed with pointed seamings. Mr. Arsun Munn's young daughter, Mrs. George Glazebrook, on her wedding trip here, wore a sheer gold metal frock trimmed with brown fur and with a jacket of brown velvet. A brief corral velvet bolero with sleeves banded with silver fox reaching just to the elbows, topped a black flat crepe dress with circular skirt. Flat crepe was also worn in white and deep wine red and Mrs. Arthur Somers Roche appeared in one of baby blue with bloused bodice, peplum ruffle, and self-string belt.

"BITTER SWEET" MOVES FROM HIS MAJESTY'S

LONDON, Feb. 11.—"Bitter Sweet" is vacating His Majesty's five weeks hence (about March 7), owing to the plan to reconstruct the house.

A deal is on to move the run champion into the Dominion at $2 top. If such an arrangement is made it looks sure for the musical to clean up.

"Bitter Sweet" opened at His Majesty's in July, 1929, and by March will have passed the two and one-half year mark.

BANQUET IS PLANNED BY ST. JAMES' W.M.S.

Much Business Transacted at Monthly Meeting Held in Wesley Hall.

A splendid gathering of members were present on Tuesday afternoon when the W.M.S. of St. James' United Church held their regular monthly meeting in Wesley Hall.

The president, Mrs. A. E. Moorehouse, occupied the chair and opened the service with the hymn "We test our lives by Thine" softly sung and Mrs. Sollitt led in prayer. The business session was one of interest to all and each member showed her enthusiasm in the work and plans under discussion. After the minutes of past meetings were read and approved, an invitation to the ladies of the Auxiliary was extended by Mrs. Ernest Deyell, to spend a social afternoon at her home in Otonabee.

A mother and daughter banquet to be given in conjunction with the XL Mission Circle, was very satisfactorily arranged and committees from both organizations were appointed to complete the plans.

Letters of thanks were received from bereaved members for kindnesses shown and reports of illness brought in, which will receive the attention of the secretary in charge.

This portion of the program closed with prayer offered by Miss Kidd.

Mrs. F. D. Armstrong and her committee were in charge of the devotional program, which opened with a Scriptural lesson taken from parts of St. Matthews and St. John's Gospel, read by Mrs. J. O. Fife.

Mrs. R. B. English gave a devotional reading, which dealt with the clause "Lead us not into temptation," from the Lord's prayer.

Department of Temperance Talk.

The Temperance Education was introduced by Mrs. W. D. Sargent and an appeal for more interest on the part of our individual auxiliary members.

The Stranger's Secretary, Mrs. Plunkett reported that already early in the year considerable work had been accomplished.

Short extracts were given on work in Honan, China by Mrs. Church; Japan, by Mrs. E. Deyell; and India, by Mrs. Cripps. Sentence prayers followed, led by Mrs. Davidson, Mrs. Deyell, Mrs. Armstrong and Mrs. English. Very much in the spirit of the meeting was the beautiful duet, "Ashamed of Jesus?" sung by Mesdames McLaren and Rosborough.

The study book "The Fruits of Christian Missions in Japan, was introduced and the first chapter synpsized by Miss Connie Wagar. With the aid of maps covering the subject under study, Miss Wagar told something of the geographical nature of the country, its industries and its rapid development during the last fifty or sixty years. It was interesting to learn that Japan after her long years of seclusion, has now the highest average of literacy in the world.

Thanks were extended by the president to Mrs. Armstrong and her group and to Mrs. Davidson, for the success of their splendid program.

Mrs. Sloan's group will be in charge of the March meeting.

The singing of the hymn "We have heard the Joyful Sound" and prayer led by the president, brought the meeting to a close.

Interest Renewed In Whelan Estate

LINDSAY, Feb. 11 (Examiner Correspondence)—Interest in the estate of the late Edward Whelan, the New York lawyer, has again been revived by residents of Peterborough and Victoria Counties, who believe they are relatives of the deceased.

About a year ago, it will be remembered the Canadian papers published a New York despatch which stated that efforts were being made to locate certain relatives of the wealthy lawyer, who, according to the terms of the will, were to share in the disposition of the estate. It was claimed at the time that cousins of the deceased resided in this section of the province. This was followed up by action on the part of a number of families in and around Lindsay, which culminated in the visit of a Lindsay lawyer to New York for the purpose of obtaining certain information relative to the will, etc. As a result of his report further action from this end was suspended. It was recently announced, however, that certain valuable information had been unearthed by a member of the legal fraternity residing in northern Ontario which has encouraged those interested to still further prosecute their inquiries.

NEW REGULATION TO ENTER PARLIAMENT?

MONTREAL, Que., Feb. 11.—(C.P.)—Candidates for Parliament in the near future may be called upon to present their Collegiate degrees to prove their fitness to legislate. The Gazette, in a news story, says it has learned that a movement is on foot to urge McGill University and University of Montreal to give popular courses, open to the public, in political economy and legislative work, in both provincial and municipal fields.

ENGLISH BLOODS

"English Bloods" is a very vivid story of a young remittance man from England who was sent out to learn farming in Canada at £100 per annum for three years. Forty or fifty years ago this was quite a common practice and there is hardly a locality in Ontario or the West which did not see the victimizing of scores of these young chaps, for it was a sheer case of victimizing.

The majority of these young fellows quickly drifted to the cities or returned to the Old Country minus their money and minus any farming knowledge of real value. Roger Vardon had a particularly hard experience as he and two other high-class young Britishers found themselves on a clearing in the wilds of Muskoka and Muskoka fifty years ago was nothing more or less than a wilderness. However, if they did not have a primrose path to tread they enjoyed many amusing and thrilling experiences and Vardon tells them in a very delightful and entertaining manner, indeed.

It is interesting to know that "Roger Vardon" is Mr. F. M. Dela Posse. His unpleasant experiences in an attempt to learn farming in the Muskoka bush did not disgust him with Canada. He did not return to England like so many other discontented young Englishmen but "stuck it" and is to-day one of the best known residents of Peterborough and Librarian of the especially well-conducted Public Library in that city. Incidentally he has given up his beloved cricket of early days and is now an enthusiastic golfer and a very valued member of the Canadian Seniors' Golf Association. "English Bloods" is a distinct contribution and more or less a tribute to the plucky pioneer, who at great personal hardship blazed a way in the backwoods of Ontario, half a century ago and opened up the country to settlement.

"Roger Vardon" may have lost his £300 but it was after all a stepping stone to a very useful, long and successful life in Canada."—Canadian Golfer.

TOO MANY LECTURES

LONDON, Ont., Feb. 11 (C.P.)—Students at the University of Western Ontario think that they have to attend too many lectures and have taken steps to remedy the matter.

Last night at a meeting of the Students' Administrative Assembly, the proceedings of which were made public to-day, a resolution was unanimously passed urging Dean K. P. R. Neville to allow ten per cent. more "cuts" than at present.

THE BEASTS OF TARZAN No. (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

Ruefully, Tarzan watched the Apes with Sheeta in their lead plunge headlong toward the jungle. A half-sad smile curved the lips of the ape-man as he watched them go. "Goodby, my friends," he murmured. "You have been good and faithful allies, and I shall miss you." "Will they not return?" asked Jane at his side. "They may and they may not," replied the ape-man. "I hardly know what to expect of them now."

"You see," he continued, "they have been ill at ease since they were forced to accept so many human beings into their confidence. Mugambi and I alone, affected them less, for he and I are, at best, but half human. You, however, and the crew are far too civilized for my beasts. It's you they are feeling. Probably they feel they can't trust themselves in the vicinity of such good food without helping themselves to a mouthful by mistake."

Jane laughed. "I think it is you they are fleeing. Like little children they are delighted to escape from the zone of parental discipline. Well, if they do come back, I hope it won't be by night!" For two hours after landing the little party stood watching the burning ship which they had abandoned. Then there came faintly to them across the water the sound of a second explosion.

The Kincaid settled rapidly almost immediately thereafter and within a few minutes sank for ever from the sight of men. The second explosion they knew was from the bursting boilers but what had caused the first was a subject of considerable speculation among the stranded company. And Paulvitch, the one who could have solved the mystery, from far down the coast likewise saw the vessel sink—and believed his revenge accomplished.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

BOOTS AND TROUSERS REQUIRED

The Peterborough Relief Association requires men's boots and trousers and underwear for all ages. Used underwear of good quality can be made over into warm, useful garments.

There are many calls for boys' pants. For this purpose, women's old-fashioned, long skirts are very useful to make over. Telephone The Examiner in the morning or the Relief rooms, 3659, in the afternoon, and the parcels will be called for.

A baby's cot is also badly needed and little boys' suits and used patterns of little girls' dresses, also for the Sewing Committee.

DESK NEEDED FOR ROOMS

The new rooms acquired by the Peterborough Relief Association over the Toronto Savings and Loan Company, are now ready for office use and other purposes. Sewing machines which have been kindly loaned are being installed to-day, in the rooms where the ladies will sew on new and old garments.

A flat top desk is required at once. Please telephone at any time to The Examiner, 1600, or the Relief Rooms, 3659, between two and five o'clock any afternoon, if you have such a desk to donate or lend, giving approximate length and width, as space is limited.

REPAIRS ESTIMATED AT $6,000

Workmen are engaged in placing a new roof on the Charlbond Apartment house and repairing other extensive damages caused by the fire last month. In a building permit taken out at the City Engineer's Office the estimated cost of the repairs is fixed at $6,000. It is expected that the work will be completed by the end of March.

Officers Elected By School Association

The regular meeting of the Queen Mary Home and School Association was held last evening at the school, when the election of officers for the coming year took place.

A very pleasing program was given consisting of a piano solo by Miss Elizabeth Wren; a reading by Mrs. H. E. Connolly; a vocal duet by Mrs. Clayton Telford and Mrs. L. H. Ingram accompanied by Mrs. W. A. Greenslade.

The officers elected for the coming year are as follows:

Honorary president, Mrs. W. R. Morris; president, Mrs. W. H. Lytle; first vice president, Mrs. H. S. Huffman; second vice president, Mrs. E. G. Wagar; third vice president, Mrs. S. Worsencroft; fourth vice president, Mrs. H. M. Yelland; fifth vice president, Mrs. A. B. Gates; secretary, Mrs. L. H. Ingram; treasurer, Mrs. R. M. Dobson; program, Mrs. R. A. Wainman; relief, Mrs. B. H. Meyers; reception, Mrs. B. Ottewell; joint convenors refreshment committee, Mrs. W. C. English and Mrs. W. S. Hill; refresentative to Local Council of Women, Mrs. S. Wosencroft, Mrs. R. M. Dobson; to Home and School Council, Mrs. Briscoe.

HEATED RALLIES WIND UP FIGHT IN BY-ELECTIONS

Harry E. Harcourt of Defunct Jackson Manion Mines is Surprise Speaker.

SUPPORTS PHILPOTT.

Martin and Sanderson Claim Criticisms Reflecting on Ferguson Resented by Voters.

TORONTO, Ont., February 11 (C. P.). — A flurry of charges and counter-charges at the four rallies held in the interest of candidates seeking election to the Provincial Legislature, marked the close last night of one of the most bitterly contested by-elections in recent history of the Province.

Both Liberals and Conservatives held meetings in Hamilton, where Alderman Argue Martin, Conservative, and Captain Elmore Philpott, Liberal, are contesting the West Hamilton seat.

Liberals conducted a meeting in Prescott in the interests of the party's candidate in Grenville, while the Conservatives held forth at Cardinal, P. N. Barnard and James A. Sanderson, Liberal and Conservative, respectively, are the opposing candidates in this constituency.

Province's Outlook.

Mitchell F. Hepburn, M.P., Elgin West, and Provincial Liberal Leader, was the principal speaker at the Liberal meeting in Hamilton. He confined his remarks to the Province's outlook.

Harry E. Harcourt, manager of the defunct Jackson Manion Mines, was a surprise speaker in support of Mr. Philpott. He charged Attorney-General W. H. Price had countenanced stock brokerage transactions, and had led brokers to believe they were conducting their business properly.

He then turned his criticism upon Hon. Charles McCrea, Minister of Mines, and flatly denied statements about himself and attributed to the Minister. He also alleged a certain relative of the Attorney-General had been a dealer in mining stocks and a heavy seller of Malartic, which crashed after investigation. The speaker further declared Granville Price, brother of the Attorney-General, "had been retained as solicitor by several mining interests on a continuing retainer."

These charges were later denied by the Attorney General at Toronto, who pointed out they had been answered in the Legislature last session when brought up by former Provincial Liberal leader, W. E. N. Sinclair, K.C.

Hon. Leopold Macaulay, Provincial Secretary, closed the campaign for the Conservatives in Hamilton with sharp criticism of the Liberal tactics. These he termed unfair and the entrance of Mr. Harcourt into the campaign and his charges he said was "slimy procedure." They could have obtained this statement weeks ago, but their method was to await until the last night."

He also said that while listening to Mr. Philpott speaking he had heard the Liberal candidate retract "his charge against the Attorney General in connection with the release of an American woman convicted of driving an automobile while intoxicated."

Martin Takes Part.

Hon. W. G. Martin, Minister of Welfare, and Mr. Sanderson spoke at the Conservative meeting in Cardinal. The latter said the voters of the Grenville constituency resented "criticisms and slanderous statements made by our opponents reflecting upon the honor of Howard Ferguson," former Premier and now High Commissioner to the United Kingdom.

Harry Sifton, Toronto, and other speakers at Prescott, criticized the Government's policy regarding export of electrical power to the United States. He also charged collusion between the Ontario Hydro Electric Power Commission and Quebec power producers to penalize Ontario industry to the advantage of Quebec.

YOUNG PEOPLE HOLD VALENTINE PARTY

Young People's Association of George Street Church Hold Jolly Party.

The Young Peoples Association of George Street United Church held a very successful meeting last evening attended by over one hundrd young people. It took the form of a Valentine party, with each member bringing a valentine which were put in a letter box. Dr. Middleton gave a prize for the best home-made valentine. Partners were drawn for, the girls drawing golden arrows with their partner's name.

The room was very prettily decorated in Valentine colors with hearts, cupids and arrows.

Sing song, with Miss Grace Cunningham at the piano and games were enjoyed, followed by a short program consisting of a duo piano number on two pianos by Miss Nixon and Miss Velma Strong; an amusing skit entitled "Hasty Harding" was much enjoyed; Miss Irene Cox was the reader, with Miss Bertha Pickering, Miss Davidson, Eddie Dunn, Ken Miller, Howard Moyer, Clair Northey, Elmer Trethewey taking part.

Dainty refreshments were served and a jolly hour spent. Arrangements were in charge of James Goldie's group.

ADVERTISE IN THE EXAMINER

OBITUARY

JOHN WHITELAW.

The death took place in Cobourg to-day of John Whitelaw, a resident of that town for many years. The deceased leaves to mourn his loss one sister Jessie, and brothers William in Cobourg, Arthur in Louisville, and Frank in Detroit. He was a cousin of R. M. and T. H. Glover of Peterborough and of A. M. Paton in Lindsay. The funeral will take place on Friday afternoon.

JOHN KINGSLEY YOUNG.

PENELLA, February 11.—(Examiner Correspondence.) —The death occurred early on Tuesday morning of John Kingsley Young, of Harwood, at the age of 26 years. The deceased is the son of Mr. and Mrs. Alexander Young and is also survived by four sisters. He was prominently identified in sports. The funeral will be held on Thursday afternoon, at the family residence. Interment at Bethseda cemetery.

REICHSTAG SPLIT SEEN IN GERMANY

Threat is Made of Fascists Calling Opposition Sitting at Weimar.

NOT REGARDED SERIOUSLY.

BERLIN, Feb. 11. (AP) The threat of a Rump Parliament was heard in Germany to-day from Fascist and Nationalist Members of the Reichstag, but was not regarded seriously in Government quarters.

A spokesman for the two parties whose Reichstag representation marched out in a body yesterday shortly before an important address on foreign policy by Dr. Julius Curtius, said that the Fascists might call an opposition sitting at Weimar, birth place of Germany's constitution.

Rumors were current to-day that the Fascists, who recognize the leadership of Adolf Hitler, had taken trains for Weimar but inquiry at their hotels brought the information that they were still registered.

Weimar is the Capital of Thuringia, of which the Fascist Deputy Frick is Premier. Since the local Government therefore would be kindly disposed to the Rump Reichstag the Government's only way of breaking up the meeting would be to send a body of the Reichswehr.

MISSION CIRLCE HAS CHARGE OF SERVICE

Fidelis Mission Circle Takes Charge of Junior Service in George Street.

The Fidelis Mission Circle had charge of the junior service at George Street United Church on Sunday morning.

The meeting opened with "The Call to Worship" led by the Superintendent, Mrs. Wellwood after which she led in prayer. The President, Ruth Parnell presided. The first hymn was "Yield Not to Temptation" followed by the Temperance Scripture lesson read by Hange Kelley, Howard Trethewey and Robert Thornton. After the roll call Velma McQuarrie gave a reading from the Temperance Herald.

The Mission Band sang a chorus entitled "The Little Mission Band". Mrs. J. B. Nelson took up the study book "Young Japan".

The service closed with the hymn "We are Soldiers of the King" and the Mizpah benediction.

KINSMEN BARBECUE.

The Kinsmen of this city are all ready for their Carnival and Barbecue at the Chemong Pavilion on Thursday. The carnival will be preceded by a stag supper at Hooper's at 6.30 p.m. Following this the Kinsmen will meet their lady friends and proceed to Chemong by bus. A Dance Marathon and a score of novelties await the couples, and a good time is promised.

ORCHESTRA PRACTISE

Members of the Conservatory Orchestra are advised to be on hand at eight o'clock to-night at the Conservatory for practise.

'QUAKE TOLL NOW 212

LONDON, Feb. 11 (A.P.)—The Governor General of New Zealand to-day cabled the Dominion Secretary that known deaths in the earthquake there last week so far number 212 and the injured 945, but the casualty list is still incomplete.

CAMPBELLFORD WOMAN PASSES AWAY SUDDENLY

Mrs. Varty Seized With Heart Attack While Visiting Relatives in Hastings.

COLLAPSES IN STATION.

CAMPBELLFORD, Feb. 11 (Examiner Correspondence).—Seized with a heart attack, Mrs. Varty, who had been visiting relatives in Hastings, collapsed in the C.N.R. Station at Hastings at 10 o'clock this morning and died before medical aid could be brought to her. Mrs. Varty was the mother of Ross Varty, a former resident of Campbellford.

$57000 RECEIVED FOR 'Y' ADDITION

Contributions So Far Are Considered to be Most Satisfactory.

SOME ARE ARREARS.

Over $57,000 has been received to date in subscriptions to the Y.M.C.A. building fund, reported James Hamilton, chairman of the finance committee at the regular meeting of the "Y" Board of Directors last evening, a condition which he considered to be most satisfactory. He pointed out that there are, nevertheless, several subscriptions in arrears and voiced an appeal that supporters of the campaign would make an effort to make up these arrears, as the contractors' monthly payments have to be met.

So far, he reported, it has been found possible to meet the contractors' demands without difficulty from the subscriptions received.

President W. A. Richardson occupied the chair, and also received a report from R. L. Dobbin, chairman of the building committee, who stated that all branches of the work are progressing satisfactorily, and in some cases is ahead of schedule. He called attention to the fact that the building program undertaken by the Y.M.C.A. has provided employment for several workmen throughout the winter months.

W.M.S. Pays Tribute To Late Mrs. Mowat

The February meeting of the W.M.S. of George Street United Church was held yesterday afternoon with a very large attendance. The President, Mrs. W. E. Coon presided. Mrs. J. C Wood's group were in charge of the devotional period.

Mrs. Wood paid tribute to the memory of late Mrs. A Mowat, a member of Group A and spoke feelingly of her interest in the work and her bequest to the society.

The secretary's report was given by Mrs. W. H. Morton and the financial statement by Mrs. H. Dulmage.

Mrs. S. R. Armstrong gave her report as convenor of the tea held at the parsonage and votes of thanks were expressed to her and to Mrs. J. E. J. Millyard.

Mrs. J. W. Hales for the sick and visiting reported 93 calls made by her committee and Mrs. J. A. Spencer for the Strangers' Committee reported four calls made.

Mrs. Coon announced the World's Day of Prayer on Feb. 20th. The Protestant congregations of Peterborough meeting in the Salvation Army Temple.

Canvassers for the Bible Society in the person of Mesdames Wood Copp, Fairbrother, Dulmage, Latimer Bonny and Miss E McCamus, were appointed.

Mrs. T. E. Curvin rendered a solo accompanied by Mrs. Howat which was much appreciated. Mrs. Coon announced that the allocation would be the same as last year and the society accepted the responsibility. Miss E. McCamus, Temperance Secretary, gave an address on the subject. Mrs. E. E. Harvey took up a chapter of the study book in a very interesting manner.

Interesting Meeting Trinity Church Y.W.A.

The February meeting of the Trinity Young Women's Association was held last night at the home of Mrs. D. Wren, Reid street. Miss Ila Giles, the vice-president, presided.

It was decided that a collection should be taken to provide a fund for relief work, and for this purpose $10 was realized.

As no delegates were sent to the Presbyterial meeting of the United, Mrs. A. Parker, the president of the W.M.A., gave a short report of some of the meetings, telling what ideas were particularly stressed; that the officers should not hold office for more than three years; that each meeting be reported in the press; that each member take an active part in the meeting.

Mrs. R. A. Wainman, accompanied by Mrs. Sharpe, sang "Morning, Noon and Night."

Miss Olive Marshal read a letter from Miss M. Coons, missionary in Junghsien, China, telling of some very interesting customs of the Chinese. She expressed the joy it gave her to teach these people, and particularly those of kindergarten age.

NEW LEGISLATION TO COVER WIDE FIELD

World Hears First Broadcast By Pontiff

Pope Celebrates 9th Anniversary Of Coronation

All Color and Splendor of Holy See Summoned as His Holiness is Borne By Swiss Guards on Portable Throne to Attend Formal Mass at Sistine Chapel.

INAUGURATION OF NEW VATICAN RADIO STATION GIVES POPE EASY COMMUNICATION WITH UNIVERSE

Historic Dedicatory Message Delivered Over Ether First in Latin, With Translations in All Lnaguages of Christendom Following—Marquis Guglielmo Marconi Assists In Ceremonies.

VATICAN CITY, February 12 (C.P.). — The whole world tuned in to-day to hear Pope Pius XI. celebrate the ninth anniversary of his coronation with dedication of the new Vatican City radio station in the first radio address ever made by a Pontiff.

For Roman the time of the address was late afternoon, just before dinner, in Eastern Canada it was mid-morning, on the Pacific Coast before breakfast, and in far-away Japan and Eastern China just before midnight on Friday morning.

Assisting in the ceremonies of dedication and inauguration was the Marquis Guglielmo Marconi, inventor of practical wireless telegraphy and designer of the new station, the most modern of short wave stations, and one which will free the Vatican of any intermediary in its radio communication with its outposts.

The Pontiff, allying modern progress with something indicative of the fundamental immutability of the church, elected to deliver the historic dedicatory message through the ether to the world in Latin, the language of the church through the ages.

A second, in Italian, was scheduled several minutes after the first upon induction of the Marquis Marconi into the Pontifical Academy. Translations were arranged to follow the principal addresses in all the languages of Christendom.

Crisply and clearly the voice of the Supreme Pontiff of the Catholic Church came over the air, marking an epochal occasion in the history of radio and of the Catholic Church. The Pope spoke in Latin, and despite an occasional interference his voice was plainly audible to radio listeners.

For twenty minutes before his voice was heard the new radio station of the Vatican was on the air. Promptly at 10.30 o the fanfare of trumpets which signalled over seas and mountains the Holy Father's arrival at the station.

While he inspected it, from the power room to the automatic sender, radio listeners stood by in many countries.

A moment later Marquis Guglielmo Marconi, radio's greatest figure and donor of the station to the Vatican, introduced first in Italian and then in English His Holiness the Pope.

After the Pope had spoken for about ten minutes the whistle grew worse, interfering frequently with clear audibility, but it died away just as he finished speaking. To listeners the disturbance had all the indications of a heterodyne.

Colorful Ceremony

All the color and splendor of the Holy See was summoned to-day to mark the ninth anniversary of the coronation of Pope Pius XI in a formal Mass at the Sistine Chapel of the Vatican and inauguration, later in the day, of the new Vatican City radio station.

Surrounded by Swiss Guards and borne aloft on his portable throne, Pope Pius entered the Sistine Chapel, acclaimed on all sides, to attend the Mass.

The simple white cassock that the Pope wears on other occasions to-day

Three Candidates For Fareham By-Election

FAREHAM, Hampshire, February 12 (C.P. Cable). — Three candidates were nominated to-day to contest the Fareham by-election. The seat is regarded as a safe Conservative one, and Sir Thomas Inskip, Attorney-General in the former Baldwin Cabinet, who lost his seat in the general elections, is the Conservative candidate. The others are C. P. Cross, Liberal, and A. J. Pearson, Labor.

The by-election is necessitated by the retirement of General Sir John Davidson, Conservative, who was elected in 1929 by a majority of 11,126. Cross and Pearson also contested the general election.

Bandit Only 16; Given Five Years

FORT FRANCES, Ont., Feb. 12.—(CP)—Robert Kitowski, 16-year-old bandit, was sentenced to five years in penitentiary and twenty lashes by Magistrate H. L. Cruse, today, less than 24 hours after he had entered the Dominion Bank here yesterday and robbed it of $540. Youthful lone bandit was arrested shortly after on the outskirts of the city.

MORE QUESTIONS ON RELIEF PLAN

Peterborough Relief Association Receiving Splendid Support All Over City.

The question was asked this morning of N. H. Crowe, manager of the Peterborough Relief Campaign, what the overhead was in connection with the campaign and how was it going to be paid. The answer is: There is no overhead, as office room, light and telephone is contributed, the committee in charge does not have to pay a cent for manager, clerical or other help; the money is required for relief and is not going to be spent by setting up a paid organization to receive salaries out of the amounts contributed for relief.

Another question was raised by employees in one of the factories outside the city, feeling that they might be asked to contribute to a fund in the city and in the township as well.

Mr. McIntosh, Reeve of North Monaghan, had an informal meeting with the committee yesterday, and arrangements were made whereby assistance would be given in a systematic manner to some families in the township after the township had taken care of them as far as they were able. Organizations in the townships are co-operating with the Peterborough Relief Association, so that there will be no duplication of effort.

Marconi Thanks Pope For His Appointment

VATICAN CITY, Feb. 12 (AP)—Senator Guglielmo Marconi, in an address at the Pontificial Academy of Sciences to-day, thanked Pope Pius XI for his election as a member of the academy.

He said in part:

"The great joy that this truly historic moment brings to me, in which your holiness has for the first time made use of electrical waves to send to all the faithful throughout the world your message of peace and your blessing, and the thought that I have been able to bring to all your children the sublime consolation of hearing your voice and your message, is to me the greatest possible reward for my efforts.

"I thank Father Gianfrenceschi, president of the Pontificial Academy of Sciences and director of the radio station for his many kindnesses, and I thank all academicians for having named me a member of the Pontificial Academy of Sciences which from the time of Galilee has received so many great luminaries of science in whose company I am proud to take a place."

COMMISSIONER RECOMMENDS DRASTIC CHANGES

Fruit and Vegetable Market Council is Recommended By W. B. Somerset.

REGISTER ALL GROWERS.

Council Would Have Permanent Paid Secretary With Local Secretaries.

TORONTO, Ont., Feb. 12. (CP)—Establishment of a fruit and vegetable growers' market council for the province and drastic changes in general marketing conditions are recommended in the report of Commissioner W. B. Somerset to Hon. T. L. Kennedy, Minister of Agriculture, following extensive inquiry into marketing problems of the fruit and vegetable industries.

This markets council, it is suggested is to have a permanent paid secretary with a local secretary for each district, with an executive committee and power to appoint committees to study and deal with problems.

Register All Growers

Registration of all commercial fruit and vegetable growers is suggested so that they must place their registered number on all packages they market. A registration fee per acre is to be charged. Licensing and bonding of all shippers, truckers and commission men is recommended, establishment of sales promotion offices in western Canada during selling season and in Quebec and the Maritime Provinces while export work will be under the direction of the council and Andrew Fulton.

Advertising is suggested as a means of increasing local consumption.

Cannery and winery grades and prices it is suggested should be set in agreement between the growers and manufacturers by the market council acting for the industry and that by product research into the commercial possibilities of the disposal of low grade fruits and vegetables be promoted by the government.

POULTRY SHOW PLANNED IN 1931

George Paxman is Elected President of Peterborough Poultry Association.

HELD IN DECEMBER.

The Peterborough Poultry Association will after all hold a show during 1931, thus preventing a break in the record which runs back to the organization of the association in 1908.

A decision to have this year's show held during the first week of December and the return to the president's chair after many years' absence from the position of George Paxman, who has been actively connected with the association since its inception, featured the annual meeting held last night in the Chamber of Commerce.

An unusually large an enthusiastic attendance indicated that the Poultry Association is still a live body

In the absence of President F. H. Dawson, the chair was taken by Vice-President George Blowers.

The auditor's report showed a balance on the right side.

Fred Holmes was voted to the chair for the election of officers, which resulted as follows:

Hon. President—F. H. Dawson
President—George Paxman.
1st Vice-President—S. E. Monerief.
2nd Vice-President—H. T. Lush
Secretary—Fred Robson.
Treasurer—Kent Throop.
Directors — E. H. White, Bruce Law, Morgan Brown, George Blowers, A. E. Pavey, Walter Lloyd, A. D. Robson, Sam Long, H. Kennedy, Cecil Armstrong, J. Peters, and A. Walj.
Auditors—F. Holmes and Victor Tully

Discussions of activities for the ensuing year resulted in a decision to hold a show next December.

Monthly meetings will be held and lectures of value to those interested in the poultry business, will be given. Arrangements are being made for a good speaker for the March meeting.

In London in a recent week were 821 births and 1,183 deaths.

Dangling Rum Bottle Before Kin in Cell Big Joke, But Costs Joker $10 in Court

NEW YORK, February 12. — Mythical old Tantalus must have had a tough time when, suffering from thirst, he couldn't drink the water that reached his lips.

But consider the case of James McAllister, in jail in Harrison, N.J., on a charge of beating his wife.

Police testified yesterday that Frank Hamill, his brother-in-law, visited him at the jail, and Hamill spent his time there dangling in front of McAllister's cell a very full whisky bottle. Each time McAllister would reach through the bars for the bottle, Hamill would jerk it away.

And, departing, Hamill bought several cups of water at the thirsty prisoner. But he paid $10.50 in Police Court for his pleasure, characterized as disorderly by the police.

And the bottle? It contained only cold tea.

Tory Majorities Greatly Reduced In By-Elections

Argue Martin, Conservative Candidate in Hamilton West, Wins By a Majority of 384, While James A. Sanderson is Elected in Grenville With Majority of 1,476.

HEAVIER VOTE IS CAST IN BOTH BY-ELECTIONS THAN IN THE LAST GENERAL ELECTION IN ONTARIO

Premier Henry is Well Pleased With Result and Sees Endorsation on Government's Policies—Attorney-General Price Claims Vindication.

TORONTO, Ont., February 12 (C.P.). — Government forces in the Ontario Legislature have retained their standing as the result of the two by-elections held yesterday.

Successfully turning back a powerful bid by Liberals to wrestle the strongholds of Grenville and Hamilton West from the Conservative fold, Government candidates were elected but by reduced majorities from the almost traditionally large pluralities Conservative candidates have enjoyed in past elections.

In the Hamilton West constituency, where Mitchell F. Hepburn, M.P., Liberal Leader, and his Liberal colleagues made their most strenuous efforts to turn the tide of political trend in favor of the Opposition party in the House, Argue Martin was elected over the Liberal candidate, Captain Elmore Philpott, M.C., 5,736 votes to 5,351, a majority for Martin of 384. In the 1929 election, Hon. Fred T. Smye, whose death necessitated the by-election, was elected by a majority of 4,763 votes.

Sanderson Elected in Grenville

James A. Sanderson, life long friend and supporter of Hon. G. H. Ferguson, former premier and representative for Grenville, was the successful candidate in the eastern Ontario riding. He defeated the Liberal nominee, Percy N. Barnard by a majority of 1,476 votes. Complete compilation of the constituency's 51 polls gave Mr. Sanderson 4,761 votes compared to 3,285 for Mr. Barnard.

Mr. Ferguson, whose resignation as premier caused the vacancy in Grenville, was elected at the 1929 general elections by a majority of 2,035 votes over T. H. Bradley, prohibitionist.

Both constituencies with the exception of one break in West Hamilton, have consistently elected Conservatives to the legislature during the last 25 years and the cutting down of the Conservative vote was taken by Mr. Hepburn as an "indication the tide is turning our way."

Attorney-General W. H. Price and

(Turn to Page 2, Please)

Kitchener Sportsman Is Given Nine Months

KITCHENER, Ont., February 12 (C.P.). — James Hill, prominent in local sport circles, was to-day sentenced by Mr. Justice Wright to serve nine months in the Ontario Reformatory. A verdict of guilty was returned against Hill, who was convicted at the local Assizes earlier this week on a charge of manslaughter in connection with the death of William Aberhardt, of Hamilton, on the Preston Highway last June. Hill's previous good character had a great deal to do with his receiving the short sentence.

FORBES ANSWERS LABORITES

WELLINGTON, New Zealand, Feb. 12.—(C.P. Cable)— Replying to labor organizations, protests against any scheme of wage reduction. Prime Minister G. W. Forbes stated today the country was faced with a big shrinkage in revenue and some adjustments were imperative.

Vitamin "D" in House Bread Loaf

TORONTO, Ont., Feb. 12 (C.P.) —Charging of ordinary bread with vitamin "D," a vital food element which prevents rickets, and builds up bone and general health, is now possible following a discovery made by research workers in the Hospital for Sick Children. Announcement of the discovery was made yesterday.

A few months ago workers in the same laboratory found a way to impregnate biscuits and these have been on the market for some time.

'PASS' COST $825 BROTHERS STATE

Two Terrebone Quebec Men Give Evidence in Civil Service Case.

WERE SOLICITED.

OTTAWA, Ont., Feb. 12. (CP)—Testimony that they had paid a total sum of $825 to have themselves "passed" into the civil service was entered by Alfred and Wilfred Laramee, brothers, of Terebone, Que., during preliminary hearing in connection with the alleged postal "job ring" continued in Ottawa police court to-day.

Alfred Laramee testified he had paid $400 in two instalments, the first of which was made direct to Lionel Chartrand, accused with another civil servant of Ottawa, Leo J. Bouchard, of conspiring to defraud through the illegal marking of civil service examination papers. Wilfrid Laramee said he paid $425 to Wenceslas Chartrand of Montreal, who solicited him along with Lionel Chartrand to try for the Government service. He claimed he had been told he "could get by on the examination, even if he didn't know a thing."

FRENCH 1931 NAVAL BUILDING PROGRAM

PARIS, Feb. 12 (A.P.)—The French naval building program for 1931, deposited in Parliament by the Chamber Naval Committee to-day, calls for the laying down of 43,000 tons of construction. It provides for one battle cruiser of 23,333 tons; one 7,000 ton cruiser, and two submarines of 2,800 and 2,500 tons respectively.

HAMILTON WINS IN SEMI-FINALS BY FOUR SHOTS

Two Peterborough Rinks Are Beaten in Close Games in Toronto.

MEET KITCHENER.

McKellar Defeated Moore 11 to 8, Johnson Won From Sedgwick 14 to 13.

TORONTO, Feb. 12 (C.P.).—Hamilton Victorias qualified to meet Kitchener Granite in the final for the Mail and Empire curling trophy, the consolation event of the Governor-General's trophy, when they defeated Peterborough by four shots at the Victoria Curling Club to-day.

Both of the Hamilton rinks were successful, H. J. McKellar defeating Ira Moore 11 to 8, while W. C. Johnson defeated J. H. Sedgwick 14 to 13.

The rinks and scores were:

Hamilton Vics.	Peterboro
R. Macdonnell	H. Martin
E. H. Bickle	D. Fitzgerald
C. F. Marshall	J. H. Kirkwood
W. C. Johnston	J. H. Sedgwick
Skip 14	Skip 13
F. H. Cage	G. Green
R. Crawford	R. Adams
L. G. Blake	H. Strickland
H. J. McKellar	Ira Moore
Skip 11	Skip 8

Totals—Hamilton Vics. 25; Peterboro 21.

Score by ends:

McKellar ... ..101 210 000 010 120—11
Moore .. .. ..010 002 110 102 000— 8
Johnston.. .. ..001 110 204 210 20—14
Sedgwick.. .. ..210 001 040 001 04—13

The game was closely contested, Moore and McKellar only having a difference of 2 shots, while Johnston was down to Sedgwick 8 to 5.

On the eighth end the score was: Peterboro 12, Hamilton 12.

Women Imprisoned In Cage For 3 Years

OPPELN, Polish Silesia, Feb. 12 (A.P.)—Three women were rescued yesterday by the health authorities from a cage on a farm near here where they said their father had kept them imprisoned for three years "to protect their innocence."

They were unclothed and ill when they were taken away in an ambulance and their father tried to drive off the health officers with an axe. The women range in age from 28 to 40.

GUTHRIE VISITS WASHINGTON

WASHINGTON, D.C., Feb. 12 (By Ken Clark, C.P. Staff Correspondent) —Hon. Hugh Guthrie, Canadian Minister of Justice, arrived here from Ottawa to-day. This evening the Minister will be the guest of honor and the chief speaker at a reception and dinner to be given by the Federal Bar Association. The toastmaster of the occasion will be Attorney-General Mitchell and the other speaker will be Chief Justice Hughes.

At luncheon to-day Mr. Guthrie was entertained by William R. Vallance, President of the association and the higher officers of the organization.

Agriculture Plays Prominent Part in House Legislation

Second Session of the Ontario Legislature is Opened in Toronto By Lieutenant-Governor Hon. W. B. Ross.

AMENDMENT TO JUDICATURE ACT PROMISED IN ADDRESS FROM THRONE— HOLD FEDERAL CONFERENCE

Included in Social Legislation to be Presented to the House Will Be a Bill to Revise and Consolidate Hospital Law.

TORONTO, Ont., February 12 (C.P.). — Nothing of the traditional display and ceremony was lacking from the opening of the Ontario Legislature to-day. Hon. W. D. Ross, Lieutenant-Governor, declared the Assembly open after taking his seat in the Speaker's chair on the stroke of three o'clock. Cabinet Ministers and private members were quite crowded out of the picture by the throng of beautifully dressed ladies who filled the Legislative Chamber.

On the floor of the House directly in front of the chair sat members of the judiciary, representatives of churches and educational institutions, solons of the law, science and divinity.

Interest in the opening ceremonies was greater than usual this year, possibly owing to a desire to see the new Premier, Hon. George S. Henry, make his bow for the first time as Leader of the House. Every available foot of space on the floor and the galleries was crowded and House officials reported a heavy demand for tickets of admission.

W. E. N. Sinclair, Leader of the Liberal group in the House, did not attend the opening. He was confined to his home in Oshawa with a cold.

Salute is Fired

As the Lieutenant Governor's car escorted by a detachment of dragoons entered Queen's Park, the customary salute of 15 guns boomed forth. In front of the building His Honor inspected the guard of honor drawn up there and was met at the door by Premier Henry. Then preceded by a group of militia officers in full dress uniforms he entered the chamber and the ceremony was under way.

Immediately after the reading of the speech from the throne Premier Henry asserted the supremacy of parliament over the king by formally moving the introduction of a "bill respecting the administration of oaths of office to justices of the peace."

This procedure marks back to the early days of British parliamentary history when the House of Commons was not always sure of its power over the sovereign and each session asserted its right to take up its own business prior to considering the speech from the throne.

The colorfully dressed ladies who predominated in the crowd that filled the chamber transformed the somewhat grab assembly room into a blaze of color. Wives, daughters and other relatives of members were there in force and all seats were given over to guests, the members standing inconspicuously around the sides of the chamber.

Many Topics Covered

of topics but nothing of an exceptional character is forecast for the present session of the Legislative Assembly.

Amendments to the judiciature act to change the constitution of the Supreme court of Ontario are likely to provide some contentious debate. Similar legislation was before the House last session but was not proceeded with.

The coming conference of Dominion and Provincial Governments concerning changes to the British North America Act and the constitution of Canada involved in the new status of the Dominion's approved at the last Imperial Conference is referred to. The speech says "certain constitutional questions which arose at the Imperial Conference will be submitted to an early conference of the Dominion and Provincial Governments."

Agriculture will bulk large in the attention of the Legislature. Legislation to be presented will provide for

Replies to Speech

C. E. RICHARDSON

Representing South Perth in the Ontario Legislature, who moved the address in reply to the Speech from the Throne at the opening of the legislature this afternoon.

WINNIPEG MAYOR RECEIVES THREAT

Letter From Toronto Red Claims He Will Be Shot to Death.

OPPOSES COMMUNISTS.

WINNIPEG, Man., Feb. 12 (C.P.).—Lieut.-Col. Ralph H. Webb, Mayor of Winnipeg, who on many occasions has denounced Communist activities in the Dominion, has been threatened with death.

Speaking at a meeting in St. Boniface, Col. Webb revealed that he had received a letter from a Toronto Communist with a "death" threat. The letter declared, "You will be shot to death."

CANADIAN MADE BOOTS

According to the latest official figures the total production for the eleven months ended November 30 last year was 16,023,190 pairs, or an average per month of 1,456,654 pairs.

LAD ON BICYCLE GETS CONFUSED, KILLED IN COLLISION WITH TRUCK

Windsor Youth Dies While Being Rushed to Hospital.

INQUEST ORDERED.

WINDSOR, Ont., Feb. 12 (C.P.).—Twelve-year-old Harry Nanson, son of Mr. and Mrs. James Nanson of Walkerville, was killed almost instantly, at one o'clock this afternoon when the bicycle he was riding was in collision with a delivery truck.

Eye-witnesses of the accident state that the boy apparently became confused in traffic and had ridden his bicycle headlong into the approaching truck, which was driven by Wesley Garrod of Windsor.

The boy was dead before a hospital was reached, and examination showed fracture of the skull and other injuries.

An inquest has been ordered.

Accident Holds Up Curling Semi-Final

VICTORIA RINK, Toronto, February 12 (C.P.). — The semi-final game in the Mail and Empire Trophy at the Vitoria Rink this morning between Peterborough and Hamilton Vics., called for 9.30, did not get under way until 11 o'clock, owing to an accident to the Hamilton teams on their trip down this morning, when a car going west sideswiped them at Etobicoke Creek. Only one player suffered any damage, F. H. Cage being slightly cut on the head. But on arrival at the club his head was dressed by Dr. Cook and he was able to proceed with the delayed game.

The usual play in this competition is 16 ends, but owing to the late start it was reduced to 14 ends.

Labor Gov't Will Move To Aid Unemployment

LONDON, Feb. 12 (A.P.)—A Liberal resolution, moved in the House of Commons by Sir Herbert Samuel and calling on the Government to adopt sweeping measures for the relief of unemployment, has been accepted. Announcement of the Government's policy was made by Premier Ramsay MacDonald, who said the Labor Government accepted the resolution "in the spirit in which it was put forward."

LABORITE DRIFT TO LEFT WINGERS RAISES COMMENT

Gov't Sustained With Liberal Backing on Tory Motion of Censure.

SNOWDEN ISSUES WARNING.

May See Lloyd George Offered Seat in Cabinet Says Thomas Inksip.

LONDON, Feb. 12 (C.P.)—The possibility of an increased drift of Laborites to the left wing of the party was being discussed in political circles today, followng last night's debate on the Conservative motion of censure.

The Government was upheld by a comfortable majority, thanks to the Liberal members. But the ominous tone taken by Rt. Hon. Philip Snowden, Chancellor of the Exchequer, in making one of the most serious pronouncements the House has heard for a long time, is declared to have aroused discontent among the more Socialistic Laborites.

Need Drastic Measures

Drastic and disagreeable measures must be undertaken if Britain is to survive the present crisis, and industry is to be put on the road to recovery, the Chancellor plainly warned. He declared members of the Cabinet were willing to contribute a full share to the sacrifices that would be necessary.

All this was disconcerting to the left wing of the party and the possibility of a split in the Labor ranks was the leading political topic to-day.

"I should not be surprised to see Rt. Hon. David Lloyd George offered a seat in the Cabinet," said Rt. Hon. Thomas Inksip late last night. Sir Thomas, Attorney-General in the former Conservative Government, is a candidate in the present Fareham, Hampshire, by-election. "Many things are more unlikely," he added.

STIRLING WINS FROM TWEED 2-1

Homesters Victors in Flashy Trent Valley League Fixture.

PLAY OVERTIME.

STIRLING, Feb. 12 (Examiner Correspondence).—Stirling were victors 2-1 over Tweed in a Trent Valley League fixture played here last night. The game was close all the way, and blossomed into overtime after three periods of furious battling. Smith of Kingston acted as referee.

The first period opened with several offensive rushes on the part of the visitors, but Morton in the nets for the homesters played a stellar game, relaying many rapid-fire shots back into the play. The penalties were rather heavy in this period, and several of the players missed chances to score by wild shooting.

Davis netted the first goal of the homesters in the opening moments of the third period, breaking through the Tweed defence he countered Stirling's first goal. The same player also scored the deciding count in the overtime period.

The line-up:

Tweed—Goal, McGee; centre, A. Campbell; defence, M. Geraldi and Marchand; wings, A. Geraldi and B. Crips; subs., F. Geraldi and D. Boyd.

Stirling—Goal, Morton; centre, Davis; wings, D. Little and T. Little; defence, Ingram and Beatty; subs., Day, White and Ackers.

Naval Expert's Action Is Scored By France

PARIS, Feb. 12.—(CP)—The Paris Morning Press today manifested a distinct sense of irritation at the intervention of the British Naval Expert, Robert L. Craigie, in defending naval difficulty with Italy.

"Pertina" in Echo de Paris said the foreign office representative should exercise his gifts of persuasion in Rome, not in Paris, if he wishes to avoid a Franco-Italian naval race. Saint Brice, writing in the Journal, said the same thing, adding partly: "This whole affair of naval rivalry would have been settled a long time ago if the British were at last decided to understand that the worst way to bring Italians to reason is to exert constance pressure on France.

He called Great Britain's attention to her own advocacy in times past of a large number of small cruisers for powers possessing a far flung colonial empire.

Growing Deaf With Head Noises? Try This.

If you are growing hard of hearing, and fear catarrhal deafness, or if you have roaring, rumbling, hissing noises in your ears, go to your druggist and get 1 ounce of Parmint (double strength) and add to it ½ pint of hot water and a little sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy, and the mucous stop dropping into the throat. It is easy to take. Anyone who is threatened with catarrhal deafness or who has head noises should give this prescription a trial.

Two Canadian Airmen

Everett L. Wasson (left) hero of the search for the late Capt. Burke and the rescue of Burke's two companions in the Yukon, who is planning a trans-continental flight with a new plane. Norman C. Terry (right), former member of the Royal Canadian Air Force, who with another airman, was lost for fourteen days in 1928 after a forced landing on an ice floe in the Hudson Strait, has been appointed Inspector for the Aircraft Inspection Detachment at Vancouver, B.C.

VARIETY IN GOVTS HAS WIDE EFFECT

Experiments By Britain, Italy, Russia Differ Greatly in Ultimate Goal.

JUSTICE MARTIN AT COAST.

VANCOUVER, B.C., February 12 (C.P.). — Three great experiments in the realm of government, which may have far-reaching effects on human welfare, are in progress in the world to-day in Russia, Italy, and the British Empire, said Mr. Justice W. M. Martin, of the Saskatchewan Court of Appeal, addressing the Vancouver Canadian Club.

The British experiment, said the speaker, giving each of the nations in the Commonwealth complete control of its own destinies, was the greatest experiment in democratic Government the world had ever seen. It bore no real resemblance to any other political organization ever existing.

In contrast with this democratic experiment, the political economic, and social theories being applied in Russia, no doubt repugnant to the principles and even the instincts of Britishers, were yet a great experiment in the governing of 150 million people. Its success or failure must have a far-reaching effect upon the peoples of Europe and Asia, and to a lesser extent on other nations of the world.

Success or failure of the Fascisti theory in Italy similarly must have a great effect upon the history of south-eastern Europe.

YOUTH STAGES BANK HOLD-UP

16 Year Old Fort Francis Boy Gets Away With $1,000 in Cash.

ARRESTED LATER.

FORT FRANCES, Ont., Feb. 12.—(CP)—His daring bid for sudden wealth a flat failure, 16-year-old Robert Kitowski was in jail here today awaiting trial on a bank robbery charge. Masked and armed with a revolver, the boy yesterday held up the Dominion Bank staff here and escaped with $1,000—but he was free for only 45 minutes.

Young Kitowski managed his hold-up alone. He walked into the bank during the lunch-hour lull and, under his levelled gun, the teller handed out cash available in the cage.

Police started to scour the town a few minutes later and within an hour Constable J. Wall arrested the youth. Kitokski, he said, offered no resistance and handed over the entire sum obtained from the bank.

WORK UNDER WAY ON NEW HIGHWAY

Start Stretch Haliburton to Eagle Lake on Road From Dorset to Peterborough.

COME VIA BUCKHORN.

LINDSAY, Feb. 12 (Examiner Correspondent)—According to information received from Haliburton, work started this week on an important highway which, it is claimed, will link the city of Peterborough with the northland. According to the information given The Examiner correspondent, this new highway will run directly south from Dorset through the County of Haliburton, branching off at Gooderham, to enter Peterborough County via Buckhorn.

Survey work started on this highway last September, and the work undertaken this week is on a stretch from the village of Haliburton to Eagle Lake. When the road is completed, it will mean a fifty-eight mile run from the village of Haliburton to the city of Peterborough.

Ferguson's Horse Carries on Work

KEMPTVILLE, Ont., Feb. 12.—(C.P.)—"Old Fred," his master in London serving the people of Canada as Canadian High Commissioner, still carries on. Former Premier Ferguson's old horse, with the smell of election battle smoke in the air, was trotted out, hitched to a sleigh and whinnied in delight as he carried the Conservative voters to the polls in the Grenville county by-election. At each polling booth the faithful old horse pricked up his ears as though taking in the gossip of the polls and then with a toss of the head was away for another load of Conservative supporters.

MYSTERY VEILS COOPER DEATHS

Deutschland Skipper Baffled as to Why Canadian Millionaire Jumped Overboard.

NO NOTES LEFT.

CHERBOURG, France, Feb. 12.—(AP) — Mystery to-day surrounded the death of James Cooper, Canadian millionaire who fell or jumped off the Deutschland Sunday at 4.30 p.m. in the opinion of the captain, purser and passengers.

Upon arrival of the ship here to-day they said that at the beginning of the voyage he seemed quite calm but later became agitated and distraught. He went to the promenade deck alone Sunday afternoon, and a short time later the engineer, looking from a lower porthole, saw him fall into the water.

He recognized the falling man as a passenger and immediately telephoned the bridge man that someone had fallen overboard. The captain ordered the ship hove to and had a lifebuoy thrown out but Cooper had disappeared in the choppy sea.

Nothing was found in his cabin or baggage which would indicate a motive for suicide. His effects have been sent to his wife who is living with their three children at Vevey, Switzerland.

Cooper, who was retired, amassed between $5,000,000 and $6,000,000 in the liquor business, and once was a saloon keeper in Detroit. He had resided recently in Vevey.

SIR C. PARSONS DIES ON CRUISE

Inventor of Steam Turbine Engine is Overcome in West Indies.

IN HIS 77TH YEAR.

LONDON, February 12 (C.P.). — A radio message received here today said that Sir Charles Parsons, inventor of the turbine steam engine, died last night while on a cruise to the West Indies. He was 76 years old.

Sir Charles and Lady Parsons left England last month on the Duchess of Richmond for a pleasure cruise in the West Indies and Caribbean. The ship was believed to-day to be between Havana and Jamaica.

Whether Sir Charles died at sea or in port was not stated. The news of his passing came as a great surprise to his friends, as when he left England he apparently was in the best of health despite his advanced age.

Giant Owl Shot On Seymour Farm

TRENT RIVER, February 12 (Examiner Correspondence). — Edward Armstrong, of Hill View Farm, West Seymour, near Trent River, brought down a large white and black owl one day recently near their residence. The bird's wings measured five feet two inches from tip to tip. It was beautifully marked with black. This is the largest of its kind seen around this vicinity for some time.

QUINTE POWER PURCHASE PLAN IS DISCUSSED

Campbellford Council Promises to Consider Proposition Put Before Them.

J. G. G. KERRY IS PRESENT.

Members Feel Public Meeting Should Be Called For Explanation of Plan.

CAMPBELLFORD, February 12 (Examiner Staff Correspondence).—An informal meeting of the Campbellford Town Council was held last evening in the clerk's office, for the purpose of discussing with J. G. G. Kerry the question of the purchase by the town of the Quinte Power Plant. All members of the Council were present, with Mayor J. M. Bygott in the chair.

Mr. Kerry, in his address to the meeting, pointed out that he was there only to see if he could get together with the Council and work with them on a proposition subject to terms that would have to be agreed upon. He stated that there was a plant in the town that was now idle, the Canadian Paper Board Company, and he knew that it was felt by the people that if this concern could be got running at a profit it would be a great benefit to the community.

He went on to state that during the past two years several things had happened to make the selling of the power plant necessary. The first was the bankruptcy of the Canadian Paper Board Company, the bondholders of this concern now realizing that they cannot run the plant at Campbellford at a profit, and were therefore willing to dispose of it at a low figure. Then there was the matter of the fixed assessment, the willingness of the owners to sell below cost, and the taking over of the Campbellford-Brighton Highway by the Province making transportation better.

This matter was discussed fully by the Council, Mr. Kerry being questioned on many matters relative to the deal. It was felt that a sufficient security should be given if the proposal was to be seriously considered.

Mayor Bygott voiced the opinion of the Council when he said that in any case the matter would have to go to the people. He also thought that a public meeting should be called before hand so that the whole question could be explained.

Mr. Kerry agreed to this, stating that it was his desire that the people should be given the right to accept the proposition. He was there only to get the feeling of the Council to see if they would be favorable to a proposition in connection with the sale of the power plant if he presented one.

The Council did not commit themselves to any action, but told Mr. Kerry that they would give thought and consideration to any proposal he put before them.

TORY MAJORITIES GREATLY REDUCED

(Continued from Page One)

Premier George S. Henry expressed gratification at the results.

Mr. Price said the pleasing feature of the election "is that the people of two ridings, one agricultural and the other industrial have shown they do like fairness in the waging of political battles."

The leader of the Liberal party has received his answer from both ridings to the "campaign of slander and abuse which he has conducted" commented Premier Henry, who expressed pleasure that the Grenville riding had greeted the new administration "with as great enthusiasm as it supported that which was headed by its former member, the ex-premier.

Final returns gave Sanderson 4,761 votes and Barnard 3,285. The riding thus maintained its traditional allegiance to the Conservative Party, having sent Mr. Ferguson to the Legislature for more than 20 years before he resigned his seat to enter the Canadian diplomatic service.

Started as Section Hand

From a humble start as a railway section hand, Mr. Sanderson has risen through various stages to represent his county in the Legislature. He is a farmer, residing near the small hamlet of Oxford Mills and, on the side, is postmaster, storekeeper and cheese dealer. He is a former Warden of the United Counties of Leeds and Grenville, and has been a close personal friend and political ally of ex-Premier Ferguson for many years.

Mr. Barnard, the Liberal candidate, is a miller in Spencerville, and was seeking public honors for the first time.

In all but two divisions, the county went Conservative. The town of Prescott gave Mr. Barnard a majority of seven and the Township of Edwardsburgh, 36. The town of Kemptville, made famous as the birthplace of Mr. Ferguson, gave his political heir a majority of 384.

Henderson To Try And Solve Dispute

PARIS, Feb. 12—Intervention by Rt. Hon. Arthur Henderson, the British foreign secretary, in the Greco-Bulgar disputes was approved today by the French Foreign Office which took the position that Mr. Henderson acted in his capacity as President of the League of Nations Council. His mediation was described as a continuation of Aristide Briand's efforts to settle Greco-Bulgar differences when he occupied the same post five years ago.

5 EMPLOYES ARE KILLED.

TERCOCO, Mexico, Feb. 12. —(C.P.)—Five employes were killed in an explosion at a fireworks factory in the nearby town of Acuoexomac last night. The factory was burned.

Denmark has only 179 miles of air service routes.

TEA STATEMENT HURTS CRITCHLEY

Announcement That Britain Should Grow Its Own Supply Made By Free Trader.

IN EAST ISLINGTON.

LONDON, Eng., Feb. 12. (C. P. Cable).— According to his political opponents, Brig.-General A. C. Critchley, a native of Calgary who is the Empire Free Trade candidate in the East Islington by-election, has been embarrassed by the statement of one of the Empire Free Trade campaign speakers last night that England should grow its own tea. England annually takes large quantities of tea from India and Ceylon.

Brig.-General Critchley, who served with the Canadian Corps during the greater part of the war, is campaigning with the support of Lord Rothermere and Lord Beaverbrook. His opponents are Miss Thelma Cazalet, Conservative, Mrs. Leah Manning, Labor, and Major H. E. Crawford, Liberal. Polling takes place on Feb. 19. The seat is vacant by the death of Ethel Bentham, Labor elected in 1929 with a majority of 1558 in a three-cornered contest.

Unemployment Fund Debt Grows Steadily

LONDON, Feb. 12 (A.P.)—The Ministry of Labor to-day issued a memorandum revealing that from Dec. 19 last to Feb. 2 this year the debt of the unemployment fund to the Treasury increased by about $4,925,000 a week. The memorandum was preliminary to introduction of a bill in the House of Commons which would raise the fund's borrowing power to approximately $450,000,000, an increase of approximately $100,000,000.

Previously the doles have been bolstered by additional grants of $50,000,000 at a time.

DAME NELLIE MELBA SUFFERS RELAPSE.

SYDNEY, N.S.W., Feb. 12.—(C.P.)—Dame Nellie Melba, famous Australian prima donna, who has been seriously ill, suffered a slight relapse Wednesday and probably will not be able to leave the hospital for another fortnight. Her health had been improving for the last three weeks when the relapse occurred.

CAPACITY AUDIENCE ATTENDS OMEMEE COMMENCEMENT CONCERT

Pupils Enact Parts Well in 3-Act Amateur Theatrical, "Cyclone Sally."

PLEASING PROGRAM

OMEMEE, Feb. 12 (Examiner Correspondence) — The Omemee High School Commencement concert held in Coronation Hall, Friday evening, February 6 had a capacity hall, and the commencement exercises compared very favorably with any previous school entertainment.

The curtain was drawn at 8.15. The entire school in uniform sang God Save the King. La Marseillaise in French and gave their High School yell in a brilliant manner.

Rev. A. T. Weir on behalf of the school board gave a few brief remarks regarding the work of the school.

A play entitled "Cyclone Sally" in three acts was given by this cast of characters: Sally Graham, Phyllis Morton; Vivian Vernon, Audrey Weir; Jenny Thatcher, Eleanor Sherin; Ruth Thatcher, Patricia Hunt; Effie Varden, Dorothy Sherin; Jack Webster, Bill Stephenson; Reggie Manners, George Stephenson; Jim Jenkins, Garnet Howden; Willie Clung, Bill Weir.

The scene of the three acts is laid in the living-room of the Webster estate near the town of Cedar Point.

For an amateur play each pupil appeared quite at ease in their individual part, giving the play more finish.

Between the acts dances were given by the girls attired in old time dresden pannier frocks. Also an Irish dance in costumes of green and black. These were all given in good style.

The pupils as a mark of appreciation called Miss Haight, principal, and Mr. and Mrs. Moon, assistants, to the stage and Mr. Howard Vaughan in a few well chosen words asked the ladies to accept the flowers presented by the Misses Wilson and Franks. Miss Haight and Mrs. Moon each expressed their appreciation in a few remarks.

The teachers are to be congratulated on the splendid success of the entertainment.

OBITUARY

MRS. BARROW

TWEED, Feb. 12. (Examiner Correspondence).—The funeral of Mrs. Barrow, who died at the home of her daughter, Mrs. Wm. Kehoe, on Sunday, February 8, was held on Tuesday. Deceased was one of the oldest settlers of Tweed. She celebrated her ninetieth birthday last year. To mourn her loss are two daughters, Mrs. Baker of Tweed, Mrs. Kehoe of Queensboro; three sons, William, Frank and Stephen of Tweed.

The Requiem Mass was sung by Rev Dean O'Riordan at St. Carthagh church, Tweed.

MRS. JAMES VARTY

(Examiner Correspondence)

HASTINGS, Feb. 12. — The death took place very suddenly on Wednesday morning of Mrs. James Harvey Varty. The deceased who has made her home for the past few months with her daughter Mrs. Edward Mouncy was in the act of buying a ticket at the local C. N. R. Station for Campbellford where she intended visiting friends when she was suddenly stricken and died before medical aid could be summoned.

The funeral will take place from the residence of her son-in-law, Mr. Edward Mouncey on Friday afternoon to St. Andrew's Presbyterian Church, Hastings where service will be held at 1:30. Interment will take place in Victoria Cemetery 6 miles north of Havelock.

MRS. JAMES JEFFS

CAMPBELLFORD, Feb. 12 (By Examiner Staff Correspondent).—The funeral of the late Sarah Jane Jeffs was held on Wednesday, February 11, from the home of her daughter, Mrs. Totten Williams, Hoards, with interment being made in Mount Pleasant Cemetery, the Rev. F. G. MacTavish officiating. The pall-bearers were four sons, John of Campbellford, Fred of Hoards, Frank, St. Catharines, Dr. Henry Jeffs, Toronto, and Frank Maines, Toronto, and Totten Williams, Hoards.

Mrs. Jeffs, who died on Monday, was in her 86th year. A pioneer of Hastings County, she was the child of Henry Maines and Eliza West, her father being Canadian born and her mother coming from Ireland, and was born on March 7, 1845, near Tweed. She married the late James Jeffs sixty-seven years ago, he predeceasing her in 1916.

Mr. and Mrs. Jffs came to the Campbellford district to live about twenty-seven years ago. A staunch member of the United Church, the late Mrs. Jeffs was respected by all who knew her. She had been living with her daughter at Hoards, where she died, for the past year and a half.

Surviving are five sons: John of Campbellford; Fred of Hoards; Dr. Harry of Toronto; F. W. of St. Catharines, and Ernest of Vancouver, B.C., and three daughters, Mrs. Tottam Williams (Etta) of Hoards, Mrs. O. Sharp (Charlotte) of Prince Albert, Sask., and Mrs. J. P. Roberts (May), also of Prince Albert, Sask. One daughter, Alberta, died at the age of eight years.

DISTRICT NOTES

By Examiner Correspondents

BAILIEBORO

Mr. S. Waterman was a visitor to Peterborough on Tuesday.

The men in charge of the Bewdley rink have placed boards around the outside of the rink making it possible to play hockey.

Mrs. W. H. Barnard is the guest of her daughter, Mrs. W. E. Thompson of Peterborough.

Among the boys from the village who accompanied the hockey team to Gore's Landing on Monday evening end, K. Lang, S. Johnston, C. Barnard, D. Taylor, S. Fry.

Miss C. Barnard, R.N., of Lindsay was the guest of her parents on Sunday evening.

Mr. A. Dawson was a visitor to Toronto on Monday.

Mr. C. Dawson is taking out ice at Barnard's Landing.

Mr. J. S. Pengelley was a business visitor to Peterborough on Tuesday.

Mrs. W. D. Hibbard is the guest of friends in Peterborough.

Mr. Hub Dean has returned to Cobourg after having spent a pleasant vacation at the home of his mother.

Mr. M. Wood spent Tuesday evening the guest of friends in South Monaghan.

Y.P.S. Meets

Rev. Moir of Springville gave a most instructive address upon the construction and marvelous invention of the great Welland Canal, when he addressed a large gathering at the regular meeting of the Young People's Society in the United Church on Tuesday evening.

Mrs. N. Thompson, convenor of the Missionary Department, had charge of the meeting and led in the devotional exercises.

During the service a solo was well rendered by David Taylor, while J. Barnard gave the explanation of the scripture reading, which was taken from 1st Corinthians, 13th chapter.

Rev. Mr. Moir then gave an illustrated address upon the Welland Canal. The speaker made his address wonderfully interesting by referring to instances which happened during his boyhood days when he lived near Hamilton close to where the canal has been built.

The address was voted by one and all present, one of the finest ever listened to in the Y.P.S. meetings.

Next week's meeting will take the place of a reception to the members of the Millbrook Young People's Society.

Don't forget the date, Feb. 17th. Or the place—Hall of the Canadian Legion. Or the object—Second Relief dance of The Examiner Social Club. There'll be a good time at the old hall that night.

POPE CELEBRATES 9TH ANNIVERSARY

(Continued from Page 1)

was covered with a rich, gold-embroidered and jewel-studded mantle of red. Before the Pope was carried the famous tiara, or triple crown, its gems glistening. His right hand, adorned with the "Fisherman's ring," supposed to have belonged to St. Peter, was raised gently now and again in benediction of the cheering people below.

It was a triumphal progress from the moment the Pope left his private apartments in the Vatican to be carried into the chapel. Owing to the small seating capacity of that sanctuary, the spacious and beautiful halls between it and the Pope's own dwelling places were filled with people gathered to gain at least a glimpse of the colorful procession, although they could not attend the ceremony of the day. Wooden barriers, guarded by Papal gendarmes, restrained these crowds of the faithful or curious. They started their cheers of "Vivo Il Pope" (Long live the Pope) as soon as he came into view, waving their handkerchiefs and clapping their hands.

Cardinals Precede Pope

Immediately preceding the Pope marched nearly all of the 26 Cardnals of Curia, in ermine-bordered capes and flowing purple robes, their trains being carried by pages. They came on two by two, Cardinals Pacelli, Secretary of State to His Holiness, and Pignatelli Di Belmonte, Dean of the Sacred College, bringing up the rear. Before them were the officers of the Noble, Swiss and Palatine Guards, all in full dress with drawn swords.

When the Pope's "Sedia Gestatoria" crossed the threshold of the Sistine Chapel, the Sistine choir inside began to intone the "Tu Es Petrus" (Thou Art Peter). Once he had taken his seat on the throne at the gospel, or left, side of the altar, the Cardinals came forward to pay him homage by kissing his hand. Then the Mass, sung by Cardinal Locatelli, first prelate to be raised to the dignity of the red hat by the Pope, began, being accompanied by the choristers' voices alone, without the organ. The ceremony, unbroken by a sermon or the reading of the epistle and gospel in a modern language, lasted about an hour.

Powerful Plant

The Vatican radio station inaugurated to-day is a powerful plant that gives the Pope and his lieutenants opportunity to communicate with most of the world either by radio-telegraphy or radio-telephony.

The Vatican electric power plant also inaugurated to-day, gives it a power of 12 kilowatts. By broadcasting on a short-wave length—19.84 meters—the station is able to communicate with stations as far distant as the Yukon or Argentina.

The Vatican station also is equipped to broadcast on a wave-length of 50.26 meters, a longer length which will serve for local broadcasts.

Pope Pius followed the construction of the station with the greatest interests. He made frequent visits to it as the work progressed and listened eagerly to the long and often technical explanations of engineers. He received Marconi, designer of the station, in many private audiences.

In the Pontiff's office there is a special radio-telephone instrument that will permit him, whenever he wishes, to broadcast to the world or to carry on telephonic conversations with papal nuncios, delegates or legates thousands of miles away.

The Pope will be in easy communication with his representatives in practically every country owing to the existence of radio stations in Roman Catholic universities and institutions. Many of these are in Canada.

Heads Designers

William J. Levy, Toronto, who was elected president of the Merchant Tailor Designers' Association of America at their annual convention at Rochester.

Bailieboro Hockey Squad Defeats Gore's Landing

BAILIEBORO, Feb. 12 (Examiner Correspondence).—The local hockey sextet played one of the best exhibition games of the season at the Gore's Landing rink, on Monday evening.

The class of hockey played was very fast, with only two penalties during the three periods. The game ended with a four to two decision in favor of the Bailieboro boys.

Keith Barnard acted as referee and kept a close watch on both teams. C. Harris and R. Butler were goal referees.

The teams lined up as follows:

Bailieboro.—E. Earnshaw, A. Deyell and A. Watt, forwards; L. Dawson and A. Brown, defense; I. Muscrat, goal. Subs., J. Barnard, M. Wood, F. Barnard.

Gore's Landing.—G. Harris, goal; defense, Harris and Wallace; forwards, Harris, McDonald, Waldron; subs., Harris and Hogg.

New Books at the Public Library

MADOC, Feb. 12. (Examiner Correspondence). — At Madoc Public Library, the list of books purchased during the year 1930, for the use of the children of the Public School from the additional grant from the Municipal Council of $100.00 specially for use in furnishing children under twelve years of age with suitable reading, free, has been completed, and are included in the list.

The new officers elected for the year 1931, on Wednesday, January 28, are as follows: President, Mrs. (Dr.) S. Eagleson; Vice-President, Miss Jean Mackintosh; Treasurer, Chas. E. Hart; Secretary, J. L. Rutherford; Board of directors, Miss M McEachran, Miss Hart, Rev. G. W. Rivers, Rev. T. G. Marshall, Rev. P. G. Reynolds, Rev. Fr. Meagher, J. B. Hough, G. S. White, G. B. West, W. Whytock, J. B. Irwin; Librarian, Miss E. A. Crawford.

The library is open from 7.30 to 9.30 each evening and from 3 o'clock to 5 o'clock on Saturday afternoons.

Protect Yourself Against

RANCID OIL in STALE COFFEE

Science blames it for Indigestion, Headaches, Sleeplessness

Use Chase & Sanborn's . . . It's guaranteed FRESH . . . Rushed straight from Roaster to Grocer marked with Delivery Date . . .

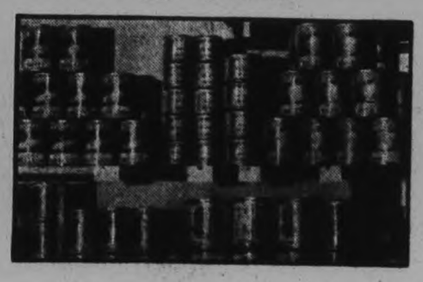
AVOID the dangers of *rancid oil* found only in *stale coffee!* Use Chase & Sanborn's . . . then you'll know you're safe!

This coffee is rushed to your grocer straight from the roasters . . . every tin plainly marked with the date he receives it.

That date is your protection. Regularly a Chase & Sanborn representative visits your grocer to check on the dates and remove any tin more than ten days old. He seldom finds any unsold after ten days because our deliveries are so frequent and your grocer's needs so carefully analyzed. But at any rate there's no danger of your getting a stale tin. Chase & Sanborn's is always fresh when you get it!

You will find this delicious blend reasonably priced . . . no higher than ordinary packaged coffees.

KEEP FIT . . . ENJOY LIFE! Drink fresh coffee, the mild, wholesome stimulant provided by nature! Science now says that rancid oil *found only in stale coffee* is directly responsible for indigestion, headaches, sleeplessness, the very troubles you have always blamed on coffee itself. In fresh coffee there is no trace of this dangerous, rancid oil!



THE PHOTOGRAPH at the left was taken in a grocery store where the photographer purchased high-priced coffee over eleven months old. His affidavit on file. High price won't protect you from staleness!

Guaranteed FRESH

Look for the date on the tin . . .

THURSDAY, FEBRUARY 12, 1931

A CHEERFUL MESSAGE.

The optimistic note in the publicity being conducted by the Canadian Daily Newspapers' Association should have an encouraging effect upon business men throughout the country.

The newspapers believe there is nothing wrong with a country that can show, as Canada can, at the present time bank deposits to the amount of $2,100,000,000.

People who have in reserve a per capita wealth of such proportions, who live in a country with so many varied undeveloped natural resources, need have little worry that the present depression will be of long duration.

Emminent financiers say indeed that the tide has turned and that better times are close ahead; while it is generally recognized that Canada will lead the movement back to prosperity and will be among the first countries in the world to experience the benefits of improved conditions.

It is well to be reminded of these things, and the Canadian Daily Newspapers' Association is doing a real service in using advertising space to bring an optimistic message to the people of Canada.

SHOULD BE CHECKED UP.

If the charges made at the annual meeting of the Ontario Vegetable Growers' Association are true, the Minister of Revenue had better advise some of his customs staff that the producers of Canada are supposed to be protected against imports of American vegetables.

According to delegates to the convention, there have been loopholes in the tariff barrier, and as a result there has been extensive bootlegging of American vegetables.

They declare that while Canadian produce is barred on the part of the United States customs service, Canada is "apparently wide open to truck-loads of surplus American vegetables, taking the cream off the Canadian price levels, while sleepy customs officials on this side of the line accept manifests covering mere fractions of the tonnage involved."

It should be easy to check up on a charge of this nature, and obviously it is in the general interest that there should be no delay in ordering an investigation.

Most people approve of Canadian producers being protected in the home market, and recent charges were supposed to provide that protection.

If their effect is being defeated by careless administration, it is time for a shake-up.

SHUTTING OUT THE PRESS.

In future, so the Owen Sound Council has decided, all Council committee meetings will be closed to the press, the reason for this action being that the presence of reporters put a damper on the discussion of various items of business.

In other words, the Owen Sound Council admits that when the public can learn through the press how the various aldermen stand in regard to municipal issues the course followed is not always that pursued when the meetings are held in camera.

Surely there are no members of the Owen Sound Council, or of any other municipal council, who lack backbone enough to let the people know their views as to the various matters that come before them.

The point that is being overlooked is that members of council are simply the elected representatives of the citizens, and the latter, having to foot the bills, are surely entitled to know how their business is being transacted and just where the various councillors stand in regard to civic issues and problems.

There should be nothing said or done at committee meetings that the members should be reluctant to have the people told about, and the complaint that discussion is interfered with by the presence of the press is merely an admission that some members of the Owen Sound Council have not the moral courage to take a public stand upon matters of public import.

THE RELIEF FUND.

It should be understood in connection with the appeal that is being made for funds for the Peterborough Relief Association's work that donations to this most worthy cause are to be entirely voluntary.

Whether or not a citizen subscribes to this fund is a matter for him to decide; he knows his own circumstances and knows just how much he is in a position to give.

As to the need of the fund that should be apparent to anybody who has the slightest knowledge of local conditions.

The Examiner, which has been closely in touch with relief work all winter and members of whose staff have personally investigated scores of cases, can say unhesitatingly that unless there is to be dire suffering and distress the task of assisting many Peterborough families must be proceeded with until economic conditions are such as to render these citizens once more capable of looking after their own needs.

The majority of such families are not of the type that are accustomed to receiving help; they are for the most part encountering extreme embarrassment for the first time in their lives and finding the experience doubly bitter on that account.

Victims of conditions over which they have no control, anxious to work but finding it impossible to secure employment—there are many local men who find themselves to-day with their savings gone, their income cut off and with food and fuel lacking.

Their plight would be critical if there were no relief organization to extend them a helping hand—and that organization must have funds if it is to carry on.

The City Council relief work plan and the Central Charity Board has accomplished a herculean task in relieving the situation up to the present time.

WHAT DOES UNDERPRIVILEGED MEAN?

A speaker was addressing a service club at a luncheon meeting in an Ontario city the other day when he stated "we are not yet doing enough for the underprivileged boys of this place."

That has come to be quite a much-used phrase in recent years, and those who use it are no doubt well meaning. But it is something that requires considerable thought before one would care to admit that it is fairly applied.

We would hasten to make one exception to any comment on this subject. If a child were crippled in any way, and that physical defect could be totally or partially removed by proper treatment, then that child is underprivileged, and as such needs help.

Apart from such cases it is difficult to make a fair and impartial application of the term. There is a danger that we may come to regard those whose parents have little money, and where children feel the pinch of poverty at times as being underprivileged. On the face of it one might say the term could be correctly applied there, but a longer look at the situation may change this idea.

It is a fact that from such homes there often come boys and girls who show great advancement in after years. They have been schooled by necessity to be thrifty; they have been satisfied, also from necessity, with plain things, and they have been thrown on their own resources to provide what little amusement they have found.

As one stands back, perhaps, and witnesses the struggle, it would be easy to arrive at the conclusion that such folk are actually underprivileged. It would take a very finely-adjusted mind to state accurately to what extent such is the case, and to determine wisely to what degree that early hard training should be interfered with.

Adversity has brought out finer qualities than luxury has ever produced.—Stratford Beacon-Herald.

YOUNG MEN TO THE WALLS.

"My boys have got to be a whole lot smarter than I ever was," a farmer exclaimed one morning this winter as he brought one of his sons to the railway station where he entrained for Guelph to attend a short course at the O.A.C.

"I managed to get along," he continued, "but did it with strength and muscle. My boys will have to use their heads far more than I ever used mine, and they will have to have special training to equip them for it."

Thousands of farmers, if they were willing to express themselves, would readily endorse those sentiments. It implies no criticism of the present generation of Canadian farmers. The cleared, fenced and well-built farms of Eastern Canada are a tribute to the intelligence and perseverance of the pioneers and those who have come after them. But progress (if progress it be) has been so rapid these last few years that even those in whose minds the great inventions have been conceived are at a loss to know whether all this modern equipment and increase in scientific knowledge will raise mankind to higher levels or precipitate our whole civilization into a helpless mass of wreckage.

Advanced methods are taking the place of the easy-going, traditional practices of the past generation, and on such an extensive scale that world output is creating an embarrassing situation for those whose methods or whose soils place them in the marginal class. We in Canada can make so much all-round progress in our agricultural program that the picture is not so dark as at first sight, it may appear.

Surveys of one kind and another have revealed some startling facts. The results of seed-drill surveys show conclusively that a large percentage of the producers are paying no attention whatever to the seed put into the ground in the spring. A survey in Oxford County several years ago discovered that the cost of milk production varied all the way from $1.70 to $4.86 per cwt. on different farms; and it furthermore demonstrated that the dairyman with a herd averaging 5,000 pounds of milk per cow or less had a minus labor income of $116, while the owner of a herd averaging between 6,000 and 7,000 pounds of milk per cow had a labor income of $500 per year. But this problem of production costs goes further back than the cow, then hen or the hog. Digestible protein produced in timothy hay will cost the feeder around $16 per cwt., whereas it can be and is being produced at a cost of $3.25 per cwt. in the form of alfalfa. Going still further back to the beginning of the cost structure, we find farmers purchasing fertilizers individually in one, two and three-ton lots, and giving a note in payment. In Prince Edward Island the requirements are pooled into one huge order and an immense saving is made. Growers on the Island obtain their bluestone for spraying purposes for approximately half what the Ontario grower is paying. Prince Edward Island is adopting the European methods of buying where the growers, not of one country only, but of several countries, unite to place their orders for fertilizers.

The struggle the world over is now to lower the cost of production, and because of our present extravagant methods of doing things no exporting nation with whom we are competing on the markets of the world has a better chance of reducing costs and increasing efficiency than the farmers of this Dominion.

It is a challenge to one and all, but as in days of old, it must be the young men who will lead the attack. Now, as then, it is "Old men to the council; young men to the walls!"—Farmers' Advocate.

EDITORIAL NOTES AND COMMENT.

The barring of Russian pulpwood from the United States means a good deal to this country.

Great Britain is trying the experiment of "orderly marketing" of agricultural products—a plan that may, like other schemes of its kind, run foul of the law of supply and demand.

The Legislature is going to get along this session without "loud speakers." Evidently the by-elections have convinced the Government there is no need for artificial aids to oratory.

Vegetable growers of Ontario are asking for more protection, or at least a better application of the present protection.

It is a small world. Rumors of a Russian revolution caused a sharp rise in the price of wheat at Winnipeg.

A member of the British House jocularly suggests that Lord Beaverbrook should be deported to Canada. But surely not on the ground that he is out of employment?

History repeats itself, but it hasn't anything on small-town gossip.—Port Elgin Times.

Milk is being sold at 50 cents a quart at Churchill. Now we know where the cow that jumped over the moon landed.—Sault Daily Star.

One reason to believe the farmers of the U. S. constitution were of Scotch descent is that they advocated free speech.—Brantford Expositor.

There are no hard and fast rules for being happily married, except the application of ordinary common sense and mutual consideration.—William Lyon Phelps.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner office on the day before it is desired to have them inserted

TOO BIG SPREAD IN PRICES

Dear Editor:

I read in a recent issue of The Examiner a comparison between the industrial worker and the farmer, and venture to express an opinion that the position of the two can hardly be compared in just that way. I do think the positions of the industrial worker in the city and the farm laborer in the country are somewhat similar just at present. In many cases both find it difficult to obtain work and in cases where little or nothing has been saved from the relatively high wages of years past, there is real hardship

But the position of the farmer is different from that of the workers in factory or on farm in that he has thousands of dollars invested in land, buildings which in the last few years cost much to erect or keep in repair, farm machinery the high cost of which is becoming a very sore point with farmers, live stock and poultry, etc. That is, his position is similar to that of the manufacturer or large merchant who have taken years to build up a business, or to that of the professional man.

The statement that the farmer has food and fuel reminds me of an idea I used to have as a child that it would be wonderful to have a store so that one might have candy, oranges or new clothes or hats 'for nothing.' True the farmer produces some of the food he eats on the farm, eggs, milk, butter, fruit, vegetables, and sometimes meat. But does not he pay for them in hours of hard toil, in cost of feed and housing for animals, rent or taxes, etc.? Or do not they represent in cost the amount he would receive if he sold them? In regard to fuel, even the farmers who have a wood, and in this day they are becoming scarce, spent a good part of the winter chopping trees, hauling logs, and after having them sawed, splitting the wood of the right size for the range or furnace. And how many city housewives used to gas or electricity, would like to constantly stuff a hungry stove with wood, after seeing that the children carry it in? No, we do not get either food or fuel 'for nothing.'

But we do not live by food and fuel alone. Clothing and shelter are just as important. Along with the city dweller, the farmer has to pay a high price for all kinds of clothing and shoes, though he receives a little for wool and hides which are used in the manufacture of some kinds of wearing apparel. He too had to pay prices for building to which only the sky seemed to be the limit. I mean to the prices, not the building. Also the costs of food not produced on the farm are high. And what about those for which the original raw material, produced on the farm, passes through the hands of middlemen and manufacturers? I refer to bread, flour, bacon, lard, breakfast cereals, etc. There is too much spread in the prices.

The fact that the prices of most farm products are now about one half of what they were less than two years ago, explains the reason the farmer cannot buy as many manufactured products as before. His taxes, helping to pay many salaries which have not been reduced, are as high as ever.

Little wonder that many farmers are working shorter hours, are letting hired help go, and are thinking very seriously of reducing the amount they produce this summer. They are finding out that a business run at a loss, even for one year, needs a change of method somewhere.

JUST ANOTHER FARMER.

Tweed

Mr. Bernard Collins of Belleville spent Friday with his brother, Mr. William Collins.

Mrs. Menier of Montreal is visiting her sister, Mrs. William Collins.

Mr. Winston Gordon is on a business trip to Montreal this week.

Mrs. Roxborough of Toronto is spending the week with her mother, Mrs. Morton.

Mr. Gerald Quinn, of Kingston spent the week-end at his home here.

Bill Burgoyne of Queens University, Kingston spent the week-end at his home.

Miss Bessie Donnelly of Hazzard's Corners spent the week-end with Mr. and Mrs. J. Martin.

Mr. Clarence Davies of Sydneham attended the Tweed and Madoc hockey game.

Descendant Of Sir Walter Scott

A successful artist showing his work at the Independents' Exhibition in Paris, France, at the Grand Palais, was Mr. John Watson (shown above with some of his pictures). Mr. Watson is a descendant of Sir Walter Scott and is a well known business man in Paris. He paints in his spare time by electric light and his clever landscapes are much admired in France.

CATTLE, GRAIN, PRODUCE

MONTREAL PRODUCE

MONTREAL, Feb. 12.—Prices were unchanged on the produce and dairy market here yesterday.

Car-lot prices of fresh eggs were 30c for extras, 28c a dozen for firsts and pullet extras, and 21c for seconds. Storage firsts were 17½c and seconds 15½c a dozen. Quotations to retailers were unchanged. Receipts were 718 cases.

Western butter in car lots was quoted at 32c, and Eastern Townships No. 1 pasteurized, grass make, regraded creamery was 32½c a pound. To retailers solids were 34c and prints 35c a pound. Receipts were 824 cases.

Winter white cheese was 12c and colored 14½c to 14¾c, while summer cheese was 15½c to 16c a pound. Receipts were only 9 boxes.

New Brunswick Green Mountain potatoes, in car lots, were 75c per 90 pounds, bulk, and to retailers 85c per 80-pound bag.

TORONTO PRODUCE

TORONTO, Feb. 12. — Receipts of fresh eggs were not so plentiful yesterday, and the prices to country shippers for ungraded supplies, delivered, cases returned, were higher. They were quoted 1c more for extras and firsts, but seconds were steady to weaker, the new prices being 26c for extras, 23c for firsts, and 16c for seconds. Retailers were also quoted higher prices at 33c to 34c for extras in cartons, 31c to 32c for extras loose, 28c to 29c for firsts loose, 25c for pullet extras and 21c for seconds. This was an increase of 1c to 2c per dozen on all grades, with the exception of seconds. Pullet extras jumped 2c.

There was a better demand for all grades of eggs. Brokers reported fresh receipts well cleared at 29c to 30c for extras, 25c to 26c for firsts, 23c to 24c for pullet extras, and 20c for seconds, graded and in free cases. This range showed an increase on all grades, but seconds. They quoted storage supplies at 18c for extras, and 16c for firsts; and stated that the stronger demand was for firsts, the extra grade not finding as good a market.

Cheese

There was a good demand for new cheese, but receipts were extremely light and prices were up ¼c to country shippers at 14¾c to 15c for new large, 15c to 15¼c for twins, and 15¼c to 15½c for triplets. Prices to retailers were steady with Tuesday's increases at 16c for new large, 16¼c for twins, and 16½c for triplets.

Butter

The butter market was very quiet, as far as trading was concerned, though a better demand was reported for No. 2 creamery solids, and some changed hands at 30½c. Dealers did not show any indication of lowering the price of 32c for large lots of good scoring No. 1, and buyers were not making any bids for supplies at that figure. It seemed altogether likely that stocks would move, the end of this week or the first of next, at the top price.

Higher Poultry Prices

Local poultry dealers issued new price lists yesterday. Spring chickens and fowl are up generally 1c per pound, with a 2c advance in one weight of fowl.

WINNIPEG GRAIN.

WINNIPEG, February 12.— Wheat prices suffered a setback here yesterday when longs took profits on holdings accumulated on Tuesday's rapid advances. Net losses at close of trading were 1¾c to 2c for the day.

Traders took the view that the setback was a natural drop following unconfirmed reports on Tuesday of a revolution in Russia, which sent prices soaring 2c.

There were fair purchases by the houses with seaboard connections. Export business overnight was estimated at 700,000 bushels. Small business was transacted in the cash wheat section and spreads were generally unchanged from Tuesday. Interest in coarse grains was negligible with prices somewhat easier.

Futures:

	Open	High	Low	Close	Prev. Close
Wheat					
May	.66	.66	.64¾	.65¾	
July	.68	.68	.65¾	.66¼	.68¼
Oct.	.69¾	.69¾	.67¾	.68½	.70½
Oats					
May	.28¾	.28¾	.28¼	.29¼	.29¾
July	.29⅝	.29⅝	.28⅞	.29⅝	.29⅝
Oct.	.30¾	.30¾	.30¼	.30⅝	.30⅞

CHICAGO GRAIN.

CHICAGO, Feb. 12.— Confronted by evidence that Russia's reported revolution had been altogether a myth, grain markets lost their effervescence yesterday. Despite occasional rallies, prices showed a general downward trend, and wheat dropped much of the 7-cent gain scored over last week's bottom level. Increased pressure to dispose of wheat from all export countries outside of North America acted as a weight on values.

Wheat closed nervous, unchanged to 2 3-8c lower, corn 1 3-8c to 2c down, oats 3-8c to 7-8c off, and provisions varying from 30c decline to 10c advance.

WILLIAM GREEN IS 83 YEARS OLD

Veteran Ttax Collector is Celebrating His 83rd Birthday To-day.

31 YEARS CITY SERVANT.

William J. Green, Peterborough's veteran tax collector, took a second look at the calendar to-day and then more or less dismissed the fact from his mind that this is his 83rd birthday. It seem that Mr. Green has seen so much water go under the bridge that another birthday more or less means little to him.

He did express concern, however, that so many of his old friends, who were young bloods of the town with him when Charlotte street was known as Hell street, are only remembered now by stones in Little Lake cemetery. He lamented the fact that he was one of the few left of the "old guard." As a boy Mr. Green played about on a farm near Springville, but while still a youth he moved to Peterborough. After many years in business he entered the employ of the city as tax collector 31 years ago this month. He is the oldest city official and is second only to City Clerk Armstrong in length of service.

Something of an athlete in his younger days, Mr. Green has never lost his interest in sport and there are few keener ball fans in the city. Clean living and regular habits, he declares, has given him good health. "I had the measles when I was a boy," he said, "but I can't recall any other time when I was sick. I don't know why so many people are taking pills these days; I can eat anything without sign of a pain."

12 COMMUNISTS JAILED

ISTANBUL, Turkey, Feb. 12 — Twelve Turkish communists, one of them a graduate of a woman's college, were sentenced to six months imprisonment to-day on charges of disseminating seditious propaganda. Four others were acquitted.

TRADING IS SLOW LIVE STOCK MARKET

TORONTO, Ont., Feb. 12.—(By the Canadian Press)—Toronto live stock receipts and quotations as reported by the Dominion Livestock branch of the Canadian Press, follow:

Cattle receipts 600. Left-overs 500 head. Trade was slow with prices held steady at the week's decline of 50cto 60c good weighty steers brought $6.00 to $6.50 with an odd tov at $6.75. Fair to good light butchers selling at $5.50 to $6.25 with common downward to $4.50 Heifers made $6.00. Fed calves made $7.00 to $8.00 for choice with medium downward to $6.50. Good cows soldup to $4.00. Canners sold downward to $1.50. Good bulls brought $4.00 to $4.50.

Quotations: Steers up to 1,050 lbs good and choice $6.00 to $6.50; medium $5.50 to $6.00; common $4.50 to $5.50; Steers over 1,050 lbs., good and choice, $6.25 to $6.75; medium $6.00 to $6.25; common $5.2 to $6.00; heifers good and choice, $. 75 to $6.25; medium $5.50 to $5.75; common $4.50 to $5.25; fed valces good and choice $7.50 ot $8.00; medium $6.50 to $7.00; cows good $4.00 to $4.50 medium $3.50 to $4.00; common $2.75 to $3.25; canners and cutters, $1.50 to $2.50; bulls good $4.00 to $4.50; common $3.50 to $4.00; stocker and feeder steers good, $5.00 to $5.50; common $4.50 to $5.00; milkers and springers, $50.00 to $80.00.

Calf receipts 206. Calves were weak with most good vealers selling from $9.00 to $9.50 with the odd top at $10.00 Common vealers sold downward to $6.00.

Good and choice veal $9.00 to $10.00; common and medium $6.00 to $8.50; greasers $4.00 to $5.00.

Hog receipts 14c. it is expected that sales will be made to the packers bids of $8.00 F.O.B. or $9.00 off car for bacon.

Sheep receipts 124, lambs were steady at 8.00 to $8.50 for the best ewes and wethers; with culls at $6.00 to $7.00. Good light sheep sold from $4.50 to $5.50 per hundredweight.

Good ewe and wether lambs $8.00 to $8.50; medium $7.50 to $8.00; bucks $6.00 to $6.50; culls $6.00 to $7.00; good light sheep $5.00 to $5.50; heavies $4.00 to $4.50; culls $1.50 to $3.00.

A Thought

TEST OF LOVE.

True love is not a matter of feeling. There may be feeling in connection with true love, and again there may not be. Feeling, emotion, sensation, is a matter of temperament; it is strong in one nature, and weak in another, according to the particular make-up of the individual. But true love is of the character, of the will, of the inner purpose of being; it sways and dominates the intentions and conduct of the individual. To love is to hold dear; it is to be ever ready to act for the loved one's true interest and welfare, without regard to one's present feelings. The mother who has most feeling with reference to her child is not necessarily the mother who loves most; she may, indeed, be less loving than one with less emotion. So with a husband and his wife. So with a patriot and his country. The true measure of love is in the purpose and conduct and action of the loving one with reference to the one loved, not in the amount of feeling or emotion about it. As with love to our fellows, so with love to our God; it is a question of our feelings; it is a question of our attitude and actions day by day, living and dying.

H. B. RYE HEADS PENSION BOARD

Country's Old Age Pension Board Re-organizes for the Year.

WORK COMMENDED.

The county's Old Age Pensions Board re-organized for this year at their meeting Tuesday afternoon. Harold B. Rye was appointed chairman again, and the other members are Morley Smithson, John Clark, James Hawthorne and Frank Breckenridge.

The Board resumed its duties and dealt with a number of applications. A letter received from D. Jamieson, chairman of the Old Age Pensions Commission included the following commendation of the county Board's work: "I quite appreciate the attitude which your Board takes toward this case and we would like very much to meet your wishes, as your Board has been doing such splendid and careful work in the administration of the Act, but you can see how our hands are tied, and we must carry out the provisions of the Act as we find them."

Although not a member of the Board, Warden Tanner called upon the Board Tuesday afternoon to renew acquaintance and express his good wishes.

BAHAMAS NEED CANADIAN MART

Canada Ready to Maintain Obligations Fully Under West Indies Treaty.

MAJOR BELL'S VIEWS.

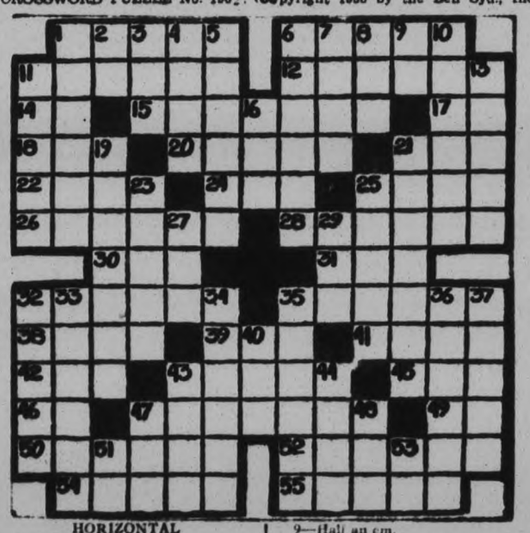
WASHINGTON, Feb. 11.—(CP)—Canadians are economic imperialists, not flag wavers, in the opinion of Major Bell of Nassau Bahamas. Major Bell went to Canada last summer for the purpose of creating interest in marketing Bahamian tomatoes.

In an interview given to the Nassau Guardian, Major Bell discusses the question of the Canadian market for Bahamian tomatoes saying: Our tomatoes must be supplied consistently and with uniformly graded goods. Failure lies squarely upon the producers if this market is lost."

"Canadians are economic imperialists, not flag wavers. Those who will play with fairness will get all the return that can be given and Canada is willing to maintain to the limit her obligations under the West Indies treaty. I do not think, however, than Canadian public opinion will tolerate for long an expensive steamship service that means a drag on the public exchequer, if the treaty colonies seek to ignore their obligations.

"This is my personal opinion and I have hesitated for long to give my views. The Bahamas need Canada much more than the Dominion has need of the Bahamas, and I think that if we close this open door, it is a shortsighted economic plan."

CROSSWORD PUZZLE No. 1902. (Copyright 1930 by the Bell Syd., Inc.)



HORIZONTAL

1—A West Indian.
6—Equipped for war.
11—Rest.
12—Simmer.
14—Part of "to be."
15—Belted.
17—Part of "to be."
18—Seine.
20—To become of use.
21—Mouth of beast.
22—To tie.
24—Female sheep.
25—Location.
26—Strips of leather.
28—Climbed.
30—Spanish for river.
31—Everyone.
32—Small fish (pl.)
35—Capers.
38—Fowls.
39—Possesses.
41—Painful.
42—To consume.
43—Cavils.
45—Religious devotee
46—Article.
47—Great self-esteem.
49—Part of "to be."
50—To note.
52—Wrinkle.
54—Classifies.
55—Taut.

VERTICAL

1—To unite firmly.
2—Above.
3—Marsh.
4—A continent.
5—Provides with courage.
6—Associates.
7—To stagger.
8—Insane.
9—Hall an em.
10—Argument.
11—Classes.
13—To marry again.
16—A bird.
19—Swift stream.
21—A number.
23—Appendages.
25—Seasons.
27—Kitchen vessel.
29—Container.
32—To cut.
33—More miserly.
34—Part of leg (plural).
35—Appearance.
36—Trip by water.
37—Intelligence.
40—Part of circumference.
43—Central part.
44—Father.
47—Domestic animal.
48—A number.
51—Mother.
53—Like.

Fight With Malaria Trinidad's Big Job

Survey of Mosquito Breeding Grounds Now Going on is Valuable Health Work.

PORT-OF-SPAIN, British West Indies, Feb. 10 (By The Canadian Press.)—Trinidad is making a very great effort to eradicate malaria from the island, and a special survey of mosquito breeding grounds is being made by Dr. E. de Verteuil, Medical Officer of Health, Port-of-Spain, with the assistance of two sanitary inspectors. It is a big problem and the actual planning by the Medical Department is expected to take three or four years. Permanent construction works will then be done and for this purpose the Government has already secured the services of Thomas Spence, Water and Sanitary Engineer, who is attached to the Public Works Department.

The work is being done in sections, from Cocorite on the West to Tacarigua on the East. The reason for this is that it is a densely populated area which is likely to become one continuous town in the course of years. The intention is to make the whole of this section, as far as possible, malaria free.

The Trinidad Guardian says it understands that application has been made to the Colonial Development Fund for assistance in prosecuting the campaign. It is proposed to spend something like $350,000 to $400,000 on construction works on the whole campaign, but this is, however, a pure shot in the dark as investigations have just commenced.

Apart from the heavy death toll which malaria takes yearly, it is responsible for more general suffering, and loss of efficiency to labor than any other disease in this colony, hence the necessity for the Government to prosecute an intensive campaign against it. This special campaign is entirely separate from the general educational work conducted by sanitary inspectors in their rounds of inspection, and the work of oiling pools, cleaning and grading streams and drains, the sale of quinine at Post Offices at more than two miles from a drug store, the free distribution of quinine in the schools, and other measures calculated to stamp out the disease.

Coal production in Spain last year established a record for recent years.

Practically all threatened strikes in Norway last year were settled by arbitration.

LIST SLIGHTLY LOWER TO-DAY

Toronto Exchange Fluctuates Within Narrow With New York Market Closed.

INTER-LISTED ISSUES FIRM.

TORONTO, Ont., Feb. 12. (CP)—Meaningless fluctuations were registered on Toronto Stock Exchange this morning as the market idled, reluctant to take a position with New York closed.

Inter-listed issues were firm but within a range of less than ½ point of last night's close. Nickel was slightly higher at 16¾, Ford of Canada firmer while Brazilian, C.P.R., Dominion Stores, Walkers were inclined to ease.

Oils were irregular, B.A. Oil, and International Petroleum down ¼ point or less and Imperial Oil and Supertest about the same amounts higher.

Consolidated Bakeries held its recent gain, selling at 12½ or better. Canadian Canners common was off slightly, but not noticeably, following announcement of cuts in dividends of both the common stock and convertible preferred.

Turnover in Page-Hersey was heavier than usual with the price about the same at 88½. Standard Steel was up 1 point at 9½. Pressed Metals unchanged. DeForest Crosley was steady around 15½.

Consolidated Smelters Advances At Montreal

MONTREAL, Que., Feb. 12. CP)—Consolidated Smelting showed the greatest change in forenoon trading on the Stock Exchange to-day with a net gain of 4½ points to sell at 142. Bank of Montreal sold off to 292, a loss of 3 points.

Winnipeg Electric was on the upgrade, quoted at 20, a gain of two points. Brazilian lost ¼ to 25¼, and Nickel gained a like amount at 16¾. Cement was up ½ at 12½ and Dominion Bridge lost ½ at 54½.

LIVERPOOL PRODUCE

LIVERPOOL, Feb. 12.—(AP)—Closing wheat, spot No. 1, Manitoba 5s 7d, No. 2, 5d 6s.

Hams, long cut, 12 to 16 lbs. 77s.
Short cut, 12 to 14 lbs., 77s.
Extra skinned, 89s.
Picnics, 5 to 8 lbs., 65s 6d.
Bacon, Cumberland cut, 32 to 40 lbs., 66s.
Canadian Wiltshires, 74s.
Clear bellies 14 to 20 lbs., 58s.
Long clear middles, 28 to 35 lbs., 71s 6d.
Short Clear backs, 20 to 25 lbs., 69s.
Shoulders, square, 12 to 16 lbs., 75s.
Lard, prime western in tierces, 45s.
American reqned in boxes, 47s.
Cheese, Canadian finest white and colored, 75s.
Linseed oil, raw, 21s 6d.
Petroleum, No. 1, 1s; No. 2, 1s 1d.
Rosin, types "F" and "G", 14s 6d.
Turpentine, spirits, 39s 9d.

Bicycle racing is popular in Berlin, Germany, this winter.

Winnipeg Review

Special Service to The Examiner through the courtesy of E. J. Bawlf Company, Grain and Stock Brokers, of Toronto

Bullish sentiment in wheat received a check yesterday when Liverpool ignored our advance of Tuesday and importers practically left this market alone, overnight sales being insignificant. Opening prices were ½ to 1 cent lower and the market became filled with offerings that were coming largely from longs who were liquidating and taking profits. Prices broke quickly and on the extreme decline were 2½ to 2¾ under the close Tuesday night and well through the daily bids. On the breaks, there was a little export business worked, and with buying against the daily bids and some show of strength in Chicago, prices reacted about 1½ cents from the early break. While the full upturn was not held the market acted stubborn, but trade during the latter part of the day was light and mostly a local affair, with little pressure in evidence except by those who had bought against their bids earlier.

Export sales overnight and on yesterday's break were estimated at around 350,000 bushels. Smith-Murphy & Co. received a cable from Rotterdam stating that Russia, Argentine and Australia had sold during the last few days large quantities of wheat everywhere, at prices considerably below Manitoba's. Evidently the small demand for Manitobas is for mixing purposes only as this market is now very much out of line with other surplus countries. Russian was credited with selling 1,100,000 bushels yesterday morning mostly to the United Kingdom.

Liverpool closed ¼ to 3-8 lower, and Buenos Aires was 1-8 to ¼ higher at noon.

Offerings of cash wheat continue very light, just odd cars coming out which were being taken by terminal interests. Spreads on the straight grades were unchanged. Toughs about ¼ better.

Coarse Grains.—These markets continue dull and featureless. Oats held up well with a little business overnight to Eastern Canada. Oats closed 1-8 higher to ¼ lower, barley ½ to ¾ lower, Rye 5-8 to 7-8 lower. No feature to Flax trade very light with market slightly easier, closing prices 1 1-8 to ¼ lower.

Liverpool Cables due ¼ lower based on Winnipeg.

BUFAALO LIVESTOCK

EAST BUFFALO, N.Y., Feb. 12.—Hogs 1,600; holdovers 900; rather slow, shippers inactive; generally 10-20 lower, bulk desirable 140-200 lbs. 8.40-8.50, 220-250 lbs. 7.80-8.25.

Cattle 200, butcher cattle trade at a complete standstill, cows about steady, cutter grades 2.50-4.25.

Calves 250, vealers unchanged, good to choice 11.50 to mostly 12.00.

Sheep 1,200, lambs slow, 25 to mostly 50 lower, good to choice 9.50 and sparingly 9.75.

PLEASING PROGRAM AT SCHOOL MEETING

H. B. Cowan, Sr., Gives Interesting Address at King George School Gathering.

The February meeting of the King George Home and School Association was held in the kindergarten room on Tuesday evening, when Mrs. Craig, president, gave a very satisfactory report of the distribution of the children's contributions toward relief.

The program was well received and consisted of: vocal solo, Bertha Binks; piano duet, Mrs. J. Ellis and Dorothy Merritt; violin solo, Jack Frost; recitations, Betty McLeod; choruses, pupils from classes of Miss H. Staples and Miss M. Cox.

H. B. Cowan gave a very interesting and instructive address on "Character Reading" following which T. Hendry expressed the appreciation of the audience to those who had contributed to the program.

Pupils taking part in the choruses were Aubrey Braund, Arthur Cummings, David Rogers, Fred Agnew, Alice Laing, Jeanne Moore, Gladys Brown, Grace Steele, Doreen Braund, Fern Agnew, Audrey Larmer, Ruth Sage, Leslie Sage, Ronald Andrus and Donald Robinson.

To care for the expected growth in shipbuilding, Norwegian ship mortgage banks will increase their capital at once.

LEAD ISSUES REMAIN QUIET

But Outstanding Action Takes Place in Lower-priced Stocks on Standard.

ELDORADO FEATURES.

TORONTO, Ont., Feb. 12. (CP)—Due largely to the fact New York markets are closed to-day, higher-priced issues were quiet on the mining board in the forenoon. Some outstanding action took place in the lower-priced stocks, however, the list retaining a fairly brisk appearance from the opening.

Eldorado was a feature, price moving to a high of 60 and standing up 12 at 58 at noon. The company is reported to be awaiting results of tests made at Ottawa on samples of radium ore from a discovery in the northwest territories. Wright Hargreaves whose report for 1930 shows record earnings and improved grade and reserves, was 3 higher at $2.21. McIntyre and Dome were stronger but Hollinger and Teck Hughes eased 5 a piece.

Pend Oreille, on reports of resumption of operations, featured the base metal group, price gaining 10 to $1.05. Nickel and Hudson Bay showed small recessions but Noranda and Falconbridge were up 5 from last night.

Ajax Oil which featured yesterday's afternoon trade, was some what reactionary in trend to-day after a strong opening. Chemical Research advanced 10 to $2.85 and other oils were practically unchanged.

NEW WELSH SOCIETY PLANNING BANQUET

More Members Enrolled at Regular Meeting of St. David's Society.

The St. David's Society of Peterbrough met on Tuesday evening at the Chamber of Commerce in order to discuss business matters and to form a constitution for the society. Several new members were present and each one introduced themselves.

After drawing up a constitution which was approved of by all members, Mr. Mossley read cuttings from the South Wales' News. He informed the members that a memorial had been unveiled at Pontypridd, South Wales, to the composers—Evan James and his son James James of the Welsh National Anthem. He also told the members that all Welsh people should be proud of themselves for this fact, as it was the only nation which so far had erected a memorial to the composers of its national anthem.

The meeting was then informal. Several members including Gwilym Davies, the vice-president, and Robert Jones, gave humorous accounts of their own native towns, depicting at the same time strange characters who had lived in the neighborhood.

The Rev. J. L. Hughes also gave a very humorous story namely, "Just a mile," connected with one of his visits to Wales.

Before closing the society decided to celebrate St. David's Day by holding a banquet at the Empress Hotel.

The meeting then adjourned with a decision to meet again at the same place on Tuesday, February 24.

W. JENOVES HEADS BRICKLAYERS' UNION

KINGSTON, Ont., Feb. 12.—W. Jenoves, of Toronto, was to-day elected President of the Ontario Conference of the International Union of Bricklayers, Masons and Plasterers, at the annual meeting being held here.

Other officers elected were: J. S. Barker, of Hamilton, first vice-president; J. D. Dell, of Woodstock, second vice-president, and G. W. Johnston, of Kitchener, secretary-treasurer.

It was decided to hold the 1932 convention in Guelph next February.

3,000 MINERS RESCUED

MUKDEN, Manchuria, Feb. 12 (A.P.)—Japanese officials at the Fushun Mines near here announced to-day that 3,000 miners who were entombed following a gas explosion Sunday, had been saved. Earlier reports indicated fear of a heavy loss of life.

Premier Bennett Presents Trophy

Rt. Hon. R. B. Bennett, Prime Minister of Canada, is here seen presenting the "Chateau Laurier" gold trophy to Emile St. Godard, famous dog team driver from The Pas, Manitoba, after he had won the second International Dog Race at Ottawa. Miss Mildred Bennett, sister of the Prime Minister, can be seen on the left of the picture.

Fire Sweeps Montreal Church

Where once devout citizens of Montreal knelt in prayer in the Church of St. Denis, is now a ruin with bare walls and tattered towers, a result of the disastrous fire which swept the edifice. Several firemen were injured fighting the blaze, which caused damage estimated at $300,000.

In reckoning the percentage attendance as indicated above, teachers are permitted to deduct all lawful absence according to the revised Schools Act. The accuracy of the above, reports will depend to some extent, upon the accuracy of each teachers judgment in determining what constitutes lawful absence. Possible attendance denotes the perfect attendance less lawful absence.

Old Country Soccer Results

LONDON, Feb. 12.—(C. P. Cable)—Rugby matches played in England today resulted as follows:

Rugby League Cup

First round replay.
Castleford 5, Hull 4.

Rugby Hospitals Cup

Second Round
St. Mary's 18, St. Georges 10, at Richmond.

SCHOONER AGROUND.

TURKS ISLAND, West Indies, Feb. 12.—(A.P.)—The British schooner Leo Le Blanc, with a cargo of salt, ran aground off Grand Turk to-day. Her rudder is broken and she is leaking badly. She will probably be a total loss.

B. C. LIQUOR BUSINESS DROPS.

VICTORIA, B.C., Feb. 12.—British Columbia's liquor business dropped at the rate of more than $100,000 per month in the six months ending Sept. 30 last, according to a liquor board report filed in the Legislature. In the six month period of 1930 sales totalled $7,847,961 as against $8,454,710 in the corresponding period of 1929, a drop of $606,749, first in the history of the business.

PROTEST MEETING

SYDNEY, Australia, Feb. 12 (C.P. Cable).—The Lord Mayor of Sydney will call a public meeting in protest against the drastic financial proposals amounting practically to repudiation of interest payments on debts, which have been put forward by the Labor Premier of New South Wales, Hon. J. T. Lang.

KITCHENER WOMAN SUICIDES.

KITCHENER, Feb. 12. — With a heavy strap about her neck, the body of Mrs. Mabel Hollingworth, 24, was found on a bed in her home at 130 North Ontario street last night by her husband. A note in the woman's handwriting indicated that she had taken her own life. She had buckled a heavy trunk strap about her neck, fastening the other end of the thing about the bedstead. Coroner Dr. Kalbfleisch decided an inquest unnecessary.

HON. D. M. SUTHERLAND IMPROVES.

WOODSTOCK, Ont., February 12 (C.P.). — The condition of the Hon. D. M. Sutherland, Minister of National Defence, who is in the Woodstock General Hospital suffering from a severe cold, shows some improvement to-day, although it will be several days before he will be able to leave the hospital.

PROBE WORLD WAR CAUSE.

BERLIN, Feb. 12.—(A.P.)—A resolution introduced by the Centrist Party attacking the "war guilt" lie and demanding an impartial commission of inquiry to determine the causes of the World War was approved by the Reichstag to-day against the opposition of the Communists.

WHEN YOU ARE QUEEN

THE EMPRESS of Germany was taught as a girl to mix dough and bake bread. Housekeeping was a serious problem for Queen Victoria of England. The Empress of China sent anxiously to remote parts of Asia for delicacies to serve to guests.

When you as a housewife enter the portals of your new home, whether it is a small apartment or a residence of magnificent proportions, you are truly a queen with power greater and swifter than any of these regal ladies possessed over their own tables.

You have behind you the organized resources of the greatest merchants in all the world. These merchants do not wait for your orders. They anticipate them!

Bread? Merchant-bakers will deliver it promptly to your order, in waxed paper, warm from the oven, perfectly mixed and baked to perfection!

Housekeeping? No special training is needed for this to-day; for mechanical servants serve you at every turn, and the advertisements are always at hand to guide and advise you in your selection of food, furnishings or household aids.

Guests? Advertisers have made the art of entertaining one of the most precious accomplishments of Canadian hostesses . . . and their authoritative advice helps you meet every delightful social occasion.

Advertisements have made you truly a Queen in the Canadian Home!

HEREDITY STUDY IN ANALYZING CRIME

Reflexes of Twins Taken Under Different Circumstances Produce Amazing Results.

MONTREAL, Feb. 12. (CP)—The frequent association of crime with biological or psychological abnormalities and the possibility of rectifying or modifying these through medical treatment, was pointed out by Dr. C. L. Huskins, professor of genetics at McGill University, in a lecture before the Montreal Branch of the McGill Graduates' Society on "Crime as Fate".

Recent studies of a number of pairs of twins and the findings that have been made concerning the influence of heredity on their criminal records were explained. While admitting the important part that environment must play in many cases, the lecturer showed how the definite influence of heredity can be shown through the study of identical twins who have been subjected to different surroundings and conditions during their lives.

Dr. Huskins treated in some detail the records of twins who had been studied in Bavaria by Dr. Johannes Lange. The criminal activities of each member of some of the pairs were extraordinarily similar, though in several cases the brothers had remained separated ever since their early years.

Of the 18 pairs of fraternal twins (those who are no more alike than brothers and sisters) in only two cases did both have criminal records. But out of 12 pairs of identical twins (those which are so much alike that they are very difficult to distinguish) in 10 cases both members had a criminal record, the criminal was criminal because of an injury received at birth.

"Are we then from this and earlier studies justified in concluding that crime is hereditary" the speaker asked. "Certainly not in any strict sense of the term for crime depends on the laws of the country in which the individual happens to live and upon many facts quite external to him.

"If we consider hereditary constitution, the social and economic condition of the parents, the place and country of birth as fate, then I think the evidence is fairly strong that crime is fate. But it is not a fate which is beyond human power to control.

"Such rapid progress is being made to-day by endocrinologists amongst whom Prof. Collip of McGill holds so prominent a place, it is at least possible that many hereditary defects will be subject to modification by endocrinal extract. A number are already, but like all remedial treatments this would leave unchanged the hereditary nature of the individual and if the race is to improve, society will very soon have to take more active measures to prevent the spread of undesirable germ plasm."

EINSTEIN LEAVING

NEW YORK, February 11 (C.P.) —Officers of the Hamburg-American Line state Professor Albert Einstein has booked passage for home from New York, March 5, on the liner Deutschland. Professor and Mrs Einstein and two secretaries have reserved quarters, it was disclosed.

A NEW CANADIAN ROSE

To encourage the production of varieties of flowering plants in Canada the Canadian Florists and Gardeners' Association provides a gold medal annually, to be awarded by the Canadian Horticultural Council to the grower who produces the best florist plant or flower recorded with the Council during the year. The medal for 1930 has been won by a new variety of rose, named "Red Beauty."

Regular $1
Firmly woven cototh with smooth finish. Embroidered in several designs, with choice of hemstitched or scalloped ends. Size about 33 x 42 inches.
—Second Floor, C.D.S.

Striped Flannelette, Yard 13c
Regular 17c
Soft quality in pink and blue stripes. Suitable for nightgowns, pyjamas and kiddies' wear. 36 inches wide.
—Second Floor, C.D.S.

Women's Goodrich Zipper Goloshes
Wool Jersey Goloshes, made by this well-known maker of high-grade overshoes. Choice of black or brown, with Cuban heel. Sizes in the lot, 3 to 8.
—Basement C.D.S.
1.98

2 O'CLOCK SPECIAL
Men's Lined Capeskin Gloves, Pair 98c
Soft, cosy Capeskin Gloves with warm fleece lining. One-dome style. Tan shade only. Sizes 8 to 10½.
—Main Floor C.D.S.

Neckwear Special, 29c
A group including Linen, Organdy, Crepe and Pique Collar and Cuff Sets, also Vestees. A splendid assortment. Shop early.
—Main Floor C.D.S.

Cotton Crepe Kimonas, Each 1.98
Rose shade only. Trimmed with rayon satin and some with embroidered designs. Medium and large sizes only.
—Third Floor, C.D.S.

Floor Mops, Each 39c
Regular 50c
Self-wringing style Mops with knitted cotton mop cloth and long wooden handle.
—Main Floor, Hsfg. Bldg.

2 O'CLOCK SPECIAL
Women's and Misses' Flannelette Pyjamas, 77c
Regular 98c
Tuck-in style, in two-tone color combination, neatly trimmed. Small, medium and large sizes.
—Second Floor, C.D.S.

French Flannel Berets, Each 59c
Sporty little Berets in shades of green, sand and cream mixtures. Suitable for misses and girls.
—Third Floor, C.D.S.

2 O'CLOCK SPECIAL
CLEARANCE OF STAMPED GOODS
In this group are kiddies factory cotton rompers, size 1, 2 and 3 years; dimity slips, in white, mauve, blue and pink, also boys' panties made of blue Indian Head. Limited quantity. Each .....
10c
—Second Floor, C.D.S.

Stamped Goods

Stamped Scarfs, Ea. 39c
Oyster Linen Dresser or Buffet Scarfs with 1-inch hemstitched hem. Stamped in attractive patterns.
—Second Floor, C.D.S.

Stamped Luncheon Cloths, Each 79c
52-inch Oyster Linen Cloths with rose border. Stamped in two corners with dainty pattern.
—Second Floor, C.D.S.

Children's Pullover Leggings
Friday Bargain, 49c to 1.37
Regular 59c to 2.75
Included are Leggings of wool, jersey cloth and leatherette. Some with feet. White, sand, navy, red and blue. Sizes in the lot, 6 months to 8 years.
—Third Floor, C.D.S.

Teapots, Each 49c
Good sized Black or Brown Teapots with colorful trimmings in tan and blue.
—Main Floor, Hsfg. Bldg.

Daisy Tea Kettles, Each 69c
Regular 89c
Good quality aluminum. Capacity about 4 imperial pints. Special value.
—Main Floor, Hsfg. Bldg.

Clearance of Women's and Misses' Dresses, 2.98
Regular 3.98 and 4.95
A group of neatly styled Celanese Frocks in dark shades for present and future wear. Assorted sizes in the lot.
—Third Floor, C.D.S.

Underwear

Misses' Wool Combinations, Suit 1.19
Regular 1.50
Comfortable garments with long sleeves and ankle length. Buttoned front. Sizes 30, 32 and 34.

Rayon Bandeaus, Ea. 69c
Regular $1
Dainty back-fastening garments with rosebud trim and narrow straps. Pink only. Sizes 30 to 36.

Lingerie Dimity Yard 12c
Regular 15c
36 inches wide. Pastel shades of pink, mauve, blue, rose, maize, green, peach and white. Splendid quality.
—Second Floor, C.D.S.

Children's Cotton and Wool Stockings, Pair 29c
Durable Ribbed Hose for school wear. First quality. Shades of riviere, blush and mist. Sizes 6 to 9½.
—Main Floor C.D.S.

Gas-Range, 32.75
Regular $55
A good looking, compact Range with splendid bake oven. Trimmed with enamel. Total width, 44 inches.
—Main Floor, Hsfg. Bldg.

CANADIAN DEPARTMENT STORES LIMITED

PERCY TOWNSHIP COUNCIL APPOINT F. CONVEY SANITARY INSPECTOR

Pound Keeper and Fence Viewers to be Named at Next Session.

1931 WEED INSPECTORS.

WARKWORTH, February 12 (Examiner Correspondence). — The Municipal Council of the Township of Percy met in the Town Hall here on Tuesday pursuant to the adjournment of the last regular session. All members were present, W. J. Baker, Reeve, Alfred Merrill, Deputy Reeve, James Lamey, C. J. Boyce, and George Partridge, councillors. The minutes of last meeting were read and approved.

Communications were as follows: Government re unemployment, Government re annual conference on roads and superintendents James Hill, Mitchell, Ont., re bridges, Ontario Townships Roads Association, J. A. Carroll, Provincial weed inspector, Good Roads Association.

Moved by C. J. Boyce, seconded by George Partridge, that a weed inspector be appointed for each of the two divisions of the township. Carried.

Moved by Alfred Merrill, seconded by James Lamey, that John O'Reilly be re-appointed weed inspector for the Township of Percy for the year 1931. Duties and salary as formerly for Division 2. Carried.

Moved by George Partridge, seconded by C. J. Boyce, that Norah Skinkle be weed inspector for Division No. 1 for 1931 at pleasure of the Council. Carried.

Moved by Alfred Merrill, seconded by George Partridge, that Reeve Baker, James Lamey, and C. J. Boyce be a committee to look after floor and repairs on the Town Hall, Warkworth. Carried.

Pass Auditor's Report.

Moved by James Lamey, seconded by C. J. Boyce, that the auditor's report be accepted and cheques be issued for their salaries, and have one hundred copies printed for distribution. Carried.

Moved by Alfred Merrill, seconded by George Partridge, that the collector's time for returning roll be extended to March 2. Carried.

Moved by W. J. Baker, seconded by C. J. Boyce, that the $5.00 fee for membership in the Good Roads Association be paid, and that Mr. Lamey be delegate for this township on February 25 and following. Carried.

Moved by George Partridge, seconded by C. J. Boyce, that Felix Convey be appointed as sanitary inspector for the year 1931 for the north division of this township, being same division as for assessors. Carried.

Moved by C. J. Boyce, seconded by Alfred Merrill, that By-law No. 868 of this township be amended by adding after the word inspector in the fifteenth line thereof, the words "for the south division only and Felix Convey be appointed for the north division, same as for assessors. Carried.

By-law No. 870 was introduced by Councillor Boyce, which said by-law was duly passed.

Ray Petty's tender for wood was accepted. William Hicks' tender for plank was accepted.

Accounts.

Moved by George Partridge, seconded by Alfred Merrill, that the Reeve, clerk, and treasurer sign the cheques on the Royal Bank of Canada in favor of the following parties for the police village:

Hydro Commission, street lights for January	$ 51.00
C. Fowler, care of Fire Hall and wood	26.00
J. L. Phillips, hauling coal for Fire Hall	7.40
H. O. Skinkle, removing walk over creek	2.00
R. W. Kelly, salary as constable	15.00
H. Field, shovelling snow	8.00
J. F. Dingman, postage	.25
William Anderson, jitney, Cobourg	8.00
Total	$117.65

For Township of Percy:

R. Honey, inspector of sheep killed by dogs	$ 2.30
Thomas Collins, S.S. No. 9, Percy	100.00
C. J. Boyce, certificate of baptism re Mrs. Ingalls	1.00
N. A. Hardy, S.S. No. 10, Percy	100.00
A. O. Cliffe, S.S. No. 1, Percy	125.00
W. E. Herminston, work on road	3.00
C. E. Bowen, salary as auditor	25.00
A. B. Armstrong, salary as auditor	25.00
Leonard Carr, sheep killed by dogs	10.00
James A Armstrong, municipal telephone	450.00
Ewing & Allen, insurance premium Town Hall	87.75
S. L. Squire, membership Good Roads Association	5.15
Ewing & Allen, insurance premium Town Hall	87.75
Total	$961.05

James Lamey gave notice that at the next regular meeting of this Council he will introduce a by-law for the appointment of poundkeeper and fence viewers.

Moved by Alfred Merrill, seconded by George Partridge, that the Council adjourn, to meet on March 3 at 10 a.m.

PILE SUFFERERS

End Your Misery Without Salves or Cutting.

External treatments cannot permanently end Piles. Nor does cutting remove the cause.

The cause is internal—bad circulation of the blood in the lower bowel. The veins are flabby—the bowel walls weak—the parts almost dead. To quickly and safely rid yourself of piles an internal medicine must be used to heal and strengthen the affected parts.

Dr. J. S. Leonhardt, a specialist after years of study discovered a real internal Pile remedy. He named his prescription HEM-ROID and prescribed it for 1000 patients, with the marvelous record of success in 900 cases and then decided every Pile sufferer should be able to get HEM-ROID from their own druggist.

Don't waste time on external remedies or think of the pain and expense of an operation until you have tried HEM-ROID. McDermid & Jury, Bond's Drug Store will supply you and guarantee money-back if it does not end all Pile misery.

Ten men and 20 girls who are to be employed in a new artificial silk factory at Wheatley, England, have been sent to Germany for special training.

RADIO PROGRAM

THURSDAY FEATURES

6:00—Black-Gold Or.—CKGW-NBC

Don't forget the date, Feb. 17th. Or the place—Hall of the Canadian Legion. Or the object—Second Relief dance of The Examiner Social Club. There'll be a good time at the old hall that night.

ACKERMAN CO. VS. PETERBORO

City Appeal Is Dismissed With Costs

Text of Judgment

An appeal by the defendants from the judgment of the Honourable Mr. Justice McEvoy, pronounced on the 23rd July, 1930, by which he found that the plaintiffs were entitled to recover from the defendant, damages sustained by them from the flooding of their factory premises by the waters of Jackson Creek, on the 26th and 27th days of March, 1928, and referred it to the Local Judge at Peterborough as Special Referee to fix the amount of the damages sustained, and granted an injunction restraining the defendants from permitting the bridge in the pleadings mentioned to continue as at the date of the said trial, or in any other condition whereby a sufficient outlet is not provided for the waters of the said stream.

The facts of the case are set out with considerable fullness of detail in the very careful reasons of the learned Trial Judge, and I do not think that it is necessary to here repeat them in detail. They arise out of the construction of a bridge over the creek in the year 1899, and the construction of a sewer with a projecting fender across the creek at a somewhat later date, and the placing of a fender beam some 8 feet to the north of the bridge shortly after its construction, and also to the suspension of a gas pipe 7 inches in diameter below the floor of the bridge.

The combined effect of all these things resulted in a flooding of the plaintiff's lands on the occasion of the spring freshet in the year 1928, when the water rose to more than a foot in depth above the floor of the bridge.

Upon the argument of the appeal it was contended that the bridge and other structures referred to were not the cause of the flooding, that the construction of the bridge was authorized by the provisions of the Municipal Act, and consequently the Legislative authority afforded a complete defence; that the bridge and other works were not in fact negligently constructed, and that there was no evidence that any negligence of the defendants caused the flooding; that if the gas pipe was a factor of the flooding, it was not placed upon the bridge by or with the authority of the defendants; that the flood in question was of such an unprecedented character and extraordinary nature as to be an act of God, and for that reason relieved the defendants from liability.

Upon the whole evidence there can be no doubt that the bridge and subsidiary structures did cause the flooding. In all the 28 years between the construction of the bridge and the occurrences in question although water frequently had risen almost to the floor of the bridge, the floor and the sub-structure had not operated as a dam, but on this occasion the water rose higher, and by reason of the existence of these permanent structures and probably also by reason of the obstruction of the channel under the bridge which I shall mention, the water was not able to get away and was held back to a depth sufficient to produce the flooding of the plaintiffs' cellars.

The under-surface of the girders supporting the floor was probably about the extreme limit the water could rise without doing the damage complained of. When the water rose above this, the damage was inevitable.

To appreciate the situation, and for the consideration of the other matters to be discussed, it is necessary to shortly describe the location.

The bridge is upon Dalhousie Street, where it crosses the creek. According to the plan, the bridge was to leave a clear span of 26 feet as a waterway under the road. Nowhere in the plans is there any indication of the distance between the bed of the stream and the under-surface of the bridge, unless this is to be inferred from the sketch upon the plan, Exhibit 14. There, no depth is actually indicated but the plan was said to be drawn to scale, and the distance in that particular sketch shows 8 feet between the under side of the roadway and the bed of the stream, and between 5 and 6 feet between the under side of the joist seat and the bed of the stream.

In the specifications attached to the contract of May, 1909, in speaking of the walls of the channel, it is said that they "shall be of such height as shall be determined on or after the excavation shall be made, and the nature of the ground ascertained." The importance of this is that it goes to show that little attention was paid to the necessity of adequate space to permit of the escape of flood water. In all the other details shown by the plans, the height of the abutment walls is not indicated, and they are shown as "broken" as an indication that the height had not yet been determined. There is no evidence that any investigation whatever had been made into the question of the provision that should be made to accommodate the flow of the stream in flood time.

The bridge as originally planned was not to be of the whole width of the roadway. The plans show a sidewalk on each side of the bridge, and beyond that an unused portion of the roadway on each side of some 8 feet.

On the up-stream side of the bridge there was apparently the home of an individual of importance, for apparently to oblige him the Municipality at the joint expense of this town and himself agreed to place across the steam an I-beam which would in turn support a wing beam, the wing running from the centre of the I-beam to the shore madea triangular structure over the stream. This was floored and upon the flooring there was placed earth, thus affording an entranceway to the garden, and a structure which was in truth a hanging garden The space between the bridge and this I-beam was at one time floored in, but the floor has long since disappeared, the hanging garden has gone to ruin, the boarding which formed this foundation has fallen into the stream, and after the flood was found lodged below the bridge and this operated to a very considerable extent to dam up the flow of the water. The whole of this undertaking was, I think, while unauthorized by any statutory authority.

The next thing done by the Municipality was to have an iron pipe used for a sewer, placed below the bridge on top of or slightly embedded into the bed of the stream, and to prevent this being damaged by ice or other floating substances in time of high water, a heavy timber, some 12 inches square was placed on the up-stream side of the pipe. This was embedded in concrete to prevent it being under-mines by the flowing water.

These obstructions cut off 15 inches in depth from the already small space left for the water to flow. The importance of the obstruction may be gleaned from the fact that the distance from the top of this beam to the under-side of the girders was 4 feet 7 inches—55 inches in all.

Sometime later a gas pipe 7 inches in diameter was strung on the lower side of the bridge, extending 5 inches below the lower side of the I-beam used for girders. This still further reduced the space left. The original 75 inches is cut down to 55—a reduction in all of something over 25%. The flow over the surface of the bridge was about 1 foot in depth, so that the 20 inches thus improperly taken more than accounts for the flood.

The existence of the I-beam placed on the street boundary was probably also a very material factor. From a photograph, Exhibit 5, it will be seen to be operating effectively as a dam. The lattice work shown in that photograph is not part of the bridge, but was placed there when the board-walk was extended to the north of the bridge.

The photograph, Exhibit 4, shows part of the falling floor from the hanging garden caught by the sewer pipe, and its protecting beam, after the flood had subsided. This photograph also serves to illustrate the exceedingly limited waterway provided in the structure.

Turning for a moment to the second defence suggested, it is at once obvious that even assuming there was statutory authority to construct the bridge, the real trouble apparently arose from the things done, quite independent of the construction of the bridge. For these there was no statutory authority, but for the reasons explained in Guelph Worsted Spinning Co. vs. Guelph, 30 O.L.R. 466, I do not think the defence of statutory authority is open to these defendants. The very thing which was done was not authorized by the legislature. The Municipality had the right to construct a bridge but it has no authority conferred upon it to dam the flow of the stream. The Municipality has the right to construct the bridge in such manner as it might see fit, and it was its duty to so construct it as to avoid the obstruction of the stream, and the consequent flooding of the plaintiffs' land.

It was said that there was no negligence in the construction of this work. If this is material I think there was negligence and that it was the duty of the Municipality to carefully investigate the possible conditions of the stream in flood time, and to avail themselves of the services of skilled engineers to estimate the space that should be left for the water to flow, and to provide for this space with such a factor of safety as to make flooding of the adjacent lands so far as could be ascertained, impossible. It is not shown that anything of this kind was done.

It is strongly argued that the fact that no flooding took place in all the years that have elapsed, is an indication that the bridge was so constructed as to have an ample waterway I fully admit the cogency of this argument, but its weight is much diminished when it is realized that this stream is crossed by several bridges, and that in many of the earlier years these other bridges were found to so obstruct the stream as to prevent the violence of the flooding from being felt at this particular location. This year, for some reason, these bridges did not operate as dams, and the full violence of the flood was apparently experienced at this place, and the existence of the obstructions under the bridge and the quantity of floating material in the stream, no doubt served to aggravate the situation.

The gas pipe, I do not think, was a very material factor in the trouble. At most it extended only 6 inches below the I-beams. It is not shown that this would operate in the same way as a 6-inch stop log on the top of a dam and raise the water to the full extent, but the water rose over the bridge at least 12 inches and this could not all have been caused by this pipe. It was said upon the argument that this pipe was placed in position by the Hydro Electric Commission under statutory authority, but no such authority could be found and none was referred to.

There remains the consideration suggested that this flood was occasioned by vis major, that which is mainly relied upon being the heavy rain which took place the evening in question. The flooding took place at approximately 7 o'clock. The rain did not start until nearly 8 o'clock, and the heavy part of the rain did not take place till later. There was no evidence from which one could estimate the speed of the run-off, and the effect of the rain obviously would not be appreciable until some considerable time after it took place. I do not think this defence is in any way made out. The rainfall, although heavy was not such as would not be reasonably expected, and had any reasonable provision been made in the construction of the bridge, no damage would have been occasioned.

Upon all ground the appeal fails and must be dismissed with costs.

Since this was written a memorandum concerning the gas pipe has been handed in, but what is there said does not affect the result.

CAVAN

Mr. and Mrs. Robert Swain, Valentia, have been visiting friends in Cavan for a few days returning home on Tuesday.

Mrs. J. E. Whitham is hostess for the Cavan Women's Institute at the parsonage on Thursday afternoon, February the twelth.

Mr. and Mrs. A. Tinney were visitors to Peterborough on Saturday.

Mrs. R. M. Howden and Mr. Willie Howden motored to Peterborough on Saturday.

Mrs. G. Kellett, Pontypool, is the guest of the Misses Maude and Blanche Moore.

MARMORA.

Under the auspices of the Deloro Social and Dramatic Society, a dance was given in Deloro Hall on Wednesday evening. Tommy Mason's Commodores supplied music for both round and square dances.

Miss Clara Phillips returned home on Tuesday after an extended visit with friends in Peterborough.

Miss Gladys Gehan spent Wednesday afternoon in Belleville.

Mr. W. Cannon, of Belleville, visited the village on Tuesday.

OMEMEE

Mr. and Mrs. Charles Ivory gave a dinner party Saturday evening in honor of their guest, Mr. A. E. Byers on the approach of his 82nd birthday.

Mr. Jack English of Toronto visited his father, Mr. George English over the week-end.

Mr. Joseph Poyser of Cobourg visited at his home over the week-end.

Mr. and Mrs. Henry Bradley and master Keith spent Saturday with friends in Millbrook.

Mr. William Magee spent a few days last week with his brother, Mr. F. H. Magee, Fenelon Falls.

Mrs. T. Osborne of Hamilton is visiting at the home of her parents, Mr. and Mrs. A. Williamson.

Miss Florence Rutherford was a business visitor to Peterborough on Saturday.

Miss Reta Kennedy spent Saturday in Peterborough.

Mr. Allen Adams and Mr. H. Overholt were business visitors to Peterborough on Saturday.

Mrs. J. White was a visitor to Lindsay during the week.

Mr. McGahey of Toronto spent the week-end at the home of Mr. and Mrs. F. Johnson.

Mr. and Mrs. D. Dick were business visitors to Peterborough on Saturday.

Mrs. A. Williamson and Mrs. Osborne were visitors to Peterborough on Saturday.

Mr. William Henderson is visiting friends in Toronto.

Mr. G. Haygarth was a business visitor to Lindsay on Monday.

An error was made in the report of the Trinity United Church congregational meeting. It should have read, Mr. G. Haygarth was appointed elder to fill the vacancy, as Mr. William Connell was already an elder.

Mrs. E. Jamieson was in Peterborough on business on Saturday.

Mr. L. Windrim of Lindsay visited at the home of his son, Mr. R. Windrim, on Monday.

Mr. J. Morton was a business visitor to Lindsay on Saturday.

Mr. R. Windrim was in Lindsay on Saturday on business.

Rev. W. Smith of Wellington was in town on Monday calling on friends.

Mr. and Mrs. M. D. Earle and daughter, Ethel Maye and Mrs. Burns of Chicago were the guests of Dr. and Mrs. Irvine, of Lindsay on Sunday.

Mr. J. Hill of Peterborough was a business visitor in town on Monday.

A number of the gentlemen friends of Mr. E. Mitchell of Lindsay who for many years was manager of the local tannery and who is now leaving for the United States where he has taken a position, gave a stag party at the Commercial House, Monday evening. During the evening they presented Mr. Mitchell with an address and signet ring. Mr. Mitchell replied thanking the gentlemen for their kindness saying he would long remember the pleasant times spent in Omemee.

Argentina now has 43 radio broadcasting stations.

Guilty Of Murder

Abraham Steinberg, who was found guilty in criminal assize court, Toronto, of the murder of his nephew, Samuel Goldberg, and will be sentenced at the end of the assizes. Steinberg has announced his intention of entering an appeal.

"My Sallow, Blotchy Complexion Has Cleared Up Beautifully"

"FRUIT-A-TIVES" Also Ended Headaches, Bad Liver

"I have found 'Fruit-a-tives' wonderful for clearing my complexion, which was always rough, sallow, pimply, blotchy, due to Bad Liver. They also completely relieved my terrible Headaches, caused by Constipation.

"Then I heard of 'Fruit-a-tives' and started taking them. The result was like a miracle. My Liver disorder vanished; pimples disappeared; my Complexion cleared up beautifully; Headaches stopped at once, and I haven't been troubled with Constipation since. 'Fruit-a-tives' have made a new person out of me."—Miss Ida Silver, Guelph, Ont.

Millions of Canadians praise "Fruit-a-tives" as the quickest, surest relief for bad complexion, liver complaint, bilious headaches, nervousness, constipation. There is a reason. This unique discovery of a brilliant Canadian doctor for the first time combines 6 of the finest herbal tonics with a special secret extract of apples, oranges, prunes and figs—Nature's own remedies to make and keep you well. All concentrated into one small, easy-to-take tablet. No habit-forming drugs.

Stop having ugly complexion, indigestion, biliousness, constipation, dizzy weakness. Get "Fruit-a-tives" from your druggist to-day. New health and vigor quick. Results guaranteed, or your money promptly refunded.

Yeast in palatable form

MARMITE, the great British yeast food, is an improvement on ordinary yeast. It is a vegetable yeast extract. And Marmite is much more palatable—has greater concentration and a wider variety of uses. Marmite is the richest known source of Vitamin B.

For adding zest and flavour to soups, stews, gravies, sauces, savouries and dressings, as well as to meat, fish and vegetable dishes, Marmite is invaluable. As a beverage Marmite is delicious and refreshing.

Your grocer has it. Or write to MacLaren-Wright Limited, 69 Front Street E., Toronto for 60 Marmite Recipes and a free sample jar of Marmite.

TRENT RIVER

Messrs. Harold Cotton of Maple Leaf Hockey team Toronto and Red Horner for Maple Leaf Hockey team arrived from the city Monday to spend a few days guests with Mr. and Mrs. Frank Pollock.

Mr. and Mrs. John Garneau entertained a large number of friends and neighbors to a dance held at the home of Mrs. A. Wight, "Cedar Isle."

Mrs. R. W. Umphrey and little son Jim arrived Saturday from Mount Pleasant and with her husband have taken up residence with Mr. Matthew Sedgwick.

PLACE TAB ON FUEL OIL

NANAIMO, B.C., Feb. 12 (C.P.)—A resolution that the Dominion Government be asked to place an "adequate" tab on all foreign fuel oil was unanimously adopted at an executive meeting of the Vncouver Island Board of Trade yesterday. The resolution came from Cumberland coal community, whose spokesman said that if the coal business went down, 10,000 people would have to seek means of livelihood elsewhere.

VICTOR TALKING MACHINE COMPANY OF CANADA LIMITED — MONTREAL

KIDNAPPED FIFTEEN YEARS AGO YOUTH AT LAST LOCATES PARENTS

Domestic Quarrel Leads to Boy Finding His Position in Foster Home.

PARTNER NOW OF FATHER

CALGARY, Alta., Feb. 12 (By The Canadian Press): — Kidnapped in Barre, Vermont, at the age of three and one-half years and kept in ignorance of his parentage for more than 15 years, Eldridge McDonald has found his parents.

Twenty years ago, Mr. and Mrs. James McDonald, now resident in Calgary, were living in Barre. One evening it was discovered that their little son was missing. Police were notified immediately but, despite searches in the district no trace of the lad was found.

For years the loss was acutely felt by the parents and, finally, the memory was only as of one who had died.

While playing in front of his home young Eldridge was grabbed and hurried away to the home of a German couple, where he was reared believing for 15 years that the German couple were his parents. His first memories after Barre of Cincinnati, where they lived until 1910, and then of Hollywood, California.

Five years ago there was a domestic quarrel and the "father" hotly told the young man that he was no son of his.

Neither the man nor the woman could tell Eldridge the name of his parents — in fact, could give no information save that his father followed the monument business. Then started the young man's search which took him several times across the continent, through 43 states and from one end of Canada to the other.

His father at the time of the kidnapping, was employed as head foreman in one of the leading granite works in Barre. After moving from there he came to Calgary, where he established his own business.

Chance brought the son back to his parents' arms. While in Boston last fall, Eldridge heard the story of the kidnapping of a lad in Barre and heard that the father's name was McDonald. Inquiries among friends in Boston disclosed that the McDonald whose son was kidnapped had gone to Calgary, and immediately the lad set out for the Alberta city. He reached Calgary and speedily found his father.

After a short holiday in Calgary the boy became a partner with his father in business and is now back in the Vermont city where he is learning sand blasting in one of the larger plants of the granite center. He will return to his parents in the very near future

CARIBOU FURTHER SOUTH

THE PAS, Man., Feb. 12 (C.P.) — Heavy snow on the Arctic and sub-Arctic plains has forced the caribou further south this year than for a decade, northland travellers relate. Indian trappers on the fringe of civilization, even though their fur catches are lighter than usual, are finding food easy to obtain with herds of caribou in their neighborhood.

Captain Malcolm Campbell, who recently knocked the bottom out of the existing world's land speed record with a 245-mile-an-hour clip in his Bluebird II at Daytona Beach, Fla., is seen here with a new-found pal at Ormond Beach, Fla. The canine companion is a Morovin Marshall bulldog one of the entries in a dog show down that way.

GOLDEN TREASURE IN BAY OF FUNDY

Old Coins Discovered at Trout Cove Revives Tale of Gold Cargo.

HALIFAX, N. S., Feb. 12. — Wit the discover of several old golden coins on the shores of Trout Cove in the Bay of Fundy, comes the revival of an old tale of 99 years ago, when the rising tides and cruel reefs of Fundy claimed the brig Hiram which ended its romantic career at Trout Cove on January 12, 1832. The Hiram was from New York for Bermuda and part of her cargo was a consignment of English and Spanish gold pieces which were the profits of several years trading in the West Indies.

Trout Cove is a lonely and desolate spot, and a century ago it was more forbidding with only one fisherman's cot, and that a very poor and humble dwelling.

During a blizzard the Hiram struck and all the seamanship of her captain and crew could not save her. Within a few feet of the shore, she impaled herself on a pinnacle of rock and the seas began to break over her.

The crew swam ashore. They forgot the valuable cargo that was in the breaking vessel. But the captain filled a bag with gold pieces and tied it around his waist before he left the ship. The weight of gold carried him down and he could not free himself of the heavy bag to keep his head above water. So he drowned in sight of safety.

The sailors were gathered in the fisherman's cot and in the days that followed when the storms had ceased the fisherman and his family searched the shores and reefs of the bay, and, rumor has it, they found a great portion of the golden cargo, but they never found the gold-weighted body of the captain, which, perhaps, still keeps watch over the gold which caused his death. The fisherman and his family soon afterwards left the coast and purchased a fertile farm far from the sea. The family became prosperous and their descendants still reside in Nova Scotia.

Fishermen of the Fundy shore still believe that a priceless treasure in old gold coins lies beneath the low tide mark at Trout Cove.

WOMEN ADVISED TO DELAY ACTION

Quebec Feminists Are Not Helping Cause by Rushing It—Wait Until After General Election.

MONTREAL, Feb. 12.— Dealing with the attitude of the Quebec legislature towards the feminist movement in the province, the Gazette legislature corresponedntsays:

"Feeling in well-informed political circles there is hat the decision of the feminists in persisting this session in bringing in bills to grant women the vote and to permit them to become members of the Bar is unfortunate, and that the women are not helping their cause by being too persistent at present in these matters.

"The house, as it is now constituted has repeatedly pronounced against both measures though, as far as allowing women to be lawyers is concerned, it is admitted that the cause has made considerable progress. Mrs. Pierre Casgrain, leader of the mevoment, showed rare skill in directing the movement, but it may be that when the matter comes up this session others will have been found to have done a little quiet work in the opposite direction. The gains which have been made have not unduly alarmed the chief opponents (and it is well-known that Premier Taschereau is one of these and has not changed his mind— but have made opponents realize that it would not be a bad idea to cease their passive attitude. It is not expected that men who have been voting for three sessions against a measure will change their minds at the fourth session, and the persistance only places some favorable members in an embarrassing situation and inclines them to the belief that the ladies would be better if they waited until there is a new Assembly in 1932, for there will be general elections this year.

"It is also a matter of surprise in some quarters here that the women have neglected to accept the suggestion made after their defeat last year to go to the courts to have the matter stetled. The situation has changed, it is pointed out, because of the fact that the Privy Council has ruled that women are persons, a decision which allowed a women to be named to the Senate.

"The council of the Bar of the province having pronounced itself as not being hostile to women being lawyers, could hardly enter opposition before the courts."

FRENCH-CANADIAN RACE DISAPPEARING

New Spirit of Pride and Interest in Past Seriously Needed.

MONTREAL, Feb. 12.— Danger of the French-Canadian race disappearing under a veneer of Americanism until it becomes finally and speedily extinct, was pointed out by Marius Barbeau, anthropologist of the National Museum, Ottawa, in addressing a meeting of the French-Canadian Association for the Advancement of Science held in the conference hall of the University of Montreal. In a lecture on the old church architecture and sculpture of this province, the speaker showed how these arts had almost entirely died out. In conclusion, he added, that the old songs, beliefs and literature of the province were also vanishing, and that if French-Canadians did not do something to revive interest in them, there would soon remain nothing but a remnant of the race.

To illustrate this point, Mr. Barbeau pointed to the Indians who had once ruled supreme in the land. The past disappears with terrific speed if it is not fostered and preserved, the lecturer said, and French-Canadians are letting their old arts and traditions slip rapidly throough their fingers without any great attempt to stop them. French-Canada has become surrounded by English, Americans and other races, and in a time when it is fashionable to throw out the old and adopt the new the older citizens of Quebec are allowing a veneer of Americanism to sweep over them.

Mr. Barbeau suggested that those who were most interested in preserving Quebec's historical arts and customs were mostly English-Canadians, professors at McGill and Dominion historians and anthropologists. The songs of Quebec have been collected and preserved by such men as Dr. Cyrus MacMillan, at McGill, and by a number of men in Toronto. Enev the folklore and handicraft festivals at Quebec are sponsored by the English and, in fact, not in the least appreciated by the FrenchCanadians, some of whom think they are been made fun of. One of the best books of popular songs of Quebec has been published in New York.

Mr. Barbeau said he saw in all this a carelessness and lack of pride in the past on the part of French-Canadians and he pictured serious consequences if a new spirit was not encouraged. He told, as an example, a story of a visit he made to a little church in Quebec where there had been two magnificently sculptured and historic figures in the doorway. These he found taken down and thrown away in the cellar. On remonstrating, he was informed that this was a house of worship, not a museum.

Everyone Past 40 Should Make This Test

For Amazing and Lasting Relief From Middle-age Ailments That Cause Daily Annoyance and Sap Vital Force.

No longer need folks near or past the prime of life put up with those painful and often embarrassing conditions brought on by overworked, sluggish Kidneys, or Bladder Weakness with their distressing symptoms of Lameness, Pains in back and down through groins, scanty but frequent and burning urination. "Getting-up-Nights," and Nervous Irritability—because a ten days' test of Dr. Southworth's URATABS will convince the most skeptical of the value of this special treatment for their particular case.

Amazing testimony of Physicians and users gives convincing proof of the power of URATABS to restore Health and Strength to a weakened, inflamed or irritated Bladder and Urinary Tract. A multitude of alarming symptoms seem to quickly disappear—and you see and feel a truly genuine improvement often within two or three days. "No more backaches, no more pain, no more embarrassment or Getting-up-nights I now sleep soundly, and get up in the morning full of 'pep,' thanks to URATABS!"

While new to the general public the wondrous value of URATABS has been thoroughly proven by years of successful use in the private practice of Dr. H. C. Southworth. And now any good druggist will supply them on a guarantee of satisfaction or money back. Try URATABS today.

PROBES CAUSE OF TIDAL WAVE

Arthur Keith, N.S. Expert, Suggests Channel in Ocean Bed Responsible For Phenomenon.

27 LIVES LOST.

ST. JOHN'S, Nfld., Feb. 12 (By Canadian Press.)—A channel of deep water running from the centre of the disturbance to the Bruin Peninsula, accounted for the height and violence of the tidal wave that swept the Burin coast, in the wake of an earthquake, and took 27 lives on November 18, 1929, in the opinion of Arthur eith, chairman of the Division of Geology and Geography, United States National Resaerch CounMheDmiWMMMon M.... MMoM...gy Mh Diivision o eMMMM aand G United States National Resaerch Council. This view is expressed in a letter to Hon. George Bartlett, in which Mr. Keith notes that "there were peculiarities in this tidal wave, not the least of which is the fact that it was so much higher near the south end of the Burin Peninsula than slsewhere. Normally the wave from an earthquake goes in all directions . . . As I now understand it, the general centre of the shock was close to the mouth of the channel running southeast from the St. Lawrence gulf through Cabot Strait. Where the channel reaches the edge of the continental shelf, or the banks, there is an abrupt descent to the greater ocean depths . . . Theoretically, the speed of a tidal wave depends upon the depth of water which it traverses, and such waves are known to cross the Pacific Ocean at speeds of 350 miles per hour. In those cases there was almost unlimited depths for attainment of high speed. In this particular case of Burin, the south coast of Newfoundland is bordered by shallow water with the exception of a channel running north from the centre of the quake directly to the Burin peninsula. Along this line the water perhaps twice as deep as on either side.

Regarding the reported acid character of the water in the wave, Mr. Keith notes that cable ships found samples of "dark volcanic mud." This is of a character to contain minerals which decompose into free sulphurous gas and dilute sulphuric acid.

Collides With Truck Breaks Collar Bone

Barry Humphries, 309 Simcoe street, is in hospital with a broken collar bone and bruises as a result of an accident at the corner of George and Hunter Streets at 4.50 yesterday afternoon, in which the boy is said to have run into the rear of a truck driven by Carl McDonald, 308 Townsend street.

The truck was proceeding west on Hunter street, across the intersection, and, according to police, the boy, in running south across Hunter street with another boy, ran into the rear of the truck. He was attended by Dr. F. O'Reilly and removed to hospital.

Air passenger and mail routes in Europe now cover 72,084 miles.

RICHARD HALL LIMITED

"CUPID SOCIAL" IS FINE EVENT

Colorful Display Seen at Regular Meeting of St. John's Y.P.L.

AT CAMPBELLFORD.

CAMPBELLFORD, Feb. 12 (By Examiner Staff Correspondent)—Fun and merriment reigned supreme on Monday evening in the school room of St. John's United Church, Campbellford, when the Young People's League staged a "Cupid Social" which was attended by a large crowd and featured by a splendid program.

The room was prettily decorated for the occasion. Admission fee to the event was gauged according to the size of the entrant, this causing a great deal of fun from the start.

The chairman, Dr. H. O. Richardson, opened the evening with a few brief remarks. The first number was a chorus of boys in an action song, "Give Yourself a Pat on the Back," which was appreciated by the audience. Following this came a humorous reading by Reta Palliser and an orchestra presentation of popular numbers, the personnel being: Ralph Sperry, piano; Ronald Richardson, violin and Fred Dorie, saxaphone. The Ionic Quartette, consisting of Mayor J. M. Bygott, Dr. Richardson, W. Henson and Albert Hazell, rendered two numbers, "Sweet Kentucky Babe," and "Loves Old Sweet Song" and George W. Luck delighted the audience with a vocal number. Clarke McKelvie was much enjoyed in a violin solo, rendering the "Minuet in G."

Novelty Orchestra Makes Hit

A novelty orchestra, all being in costume, was much appreciated, giving a fine selection of peppy numbers. This was under the direction of Fred Palliser at the traps and comprised of Reta Palliser, Alma Simpson, Ruth Taylor, Vernon Abernethy and Donald Meyers. A humorous reading by Raymond Wragg followed after which a vocal duet was rendered by Mrs. Malcolmn and Mrs. Jones.

Mrs. F. DeCarroll sang very pleasingly a vocal number and responded to an encore with the "Indian Love Call." Next came a guitar duet by Freda Petherick and Gladys Simpson which was well received.

The final number on the program was a costume novelty, "The Wedding of the Painted Doll" which proved a most attractive feature.

Those taking part in this feature were: Nettie Forde, Red Riding Hood; Elsie Connor, Jumping Jack; Ina Boyd, Buster Brown; Alma Simpson, Mamma Doll; Ruth Taylor, Bridesmaid; Violet Osterhout, Bridesmaid; Florence Bibby, Bride; Ruth Plumpton, Bridegroom; Thelma Menzie, Flower Girl; Gladys Stephens, Preacher.

Following the program a delightful lunch was served.

VALENTINE EUCHRE.

Catholic Woman's League of Campbellford Stage Successful Event.

CAMPBELLFORD, Feb. 12 (By Examiner Staff Correspondent)—The Valentine Euchre staged on Tuesday evening by the Catholic Women's League in their rooms in the Herald block, Campbellford, proved a very interesting and successful event.

Gaily decorated appropriate to the occasion, a goodly number of people gathered in the hall to enjoy the play and to indulge in the spirit of good fellowship that prevailed. The prize winners for the different events were as follows: games, ladies, Miss Osterhout, travelling case with hangers; Mrs. Adamson, cup and saucer; gents, Elie Brunelle, book; Charles Collins cigarettes; luck prize, Gerald Gurry, cigarette holder.

A delightful lunch was served by the ladies after the play, the evening ending with a very enjoyable dance. This will be the last of these events before Lent.

MILLBROOK BUYS NEW FIRE HOSE

Agricultural Society Seek Grant For Horse Show at Council Meeting.

ACCOUNTS PASSED.

MILLBROOK, Feb. 12.—(Examiner Correspondence.)—Millbrook Municipal Council met in regular session on Monday evening, Reeve P. Stinson presiding, and Councillors Eakins, Ingram, Ball and Bentley present.

The communications were: From the Globe Indemnity Company, advising that Mrs. J. W. Hutchison's claim has been settled; from the Gutta Percha Rubber Company, with prices for fire hose; from the Goodyear Rubber Company, also containing prices for fire hose.

Mr. Hodges, of the Goodyear Rubber Company, addressed the Council, regarding purchase of fire hose, and prices quoted for same, and it was moved by Councillors Bentley and Eakins that the Council purchase one hundred feet of Goodyear Duplex 2 by 1-2 inch hose at one dollar per foot, complete with couplings.—Carried.

Reeve P. Stinson introduced the matter of the disability of Mrs. W. Turner, and it was moved by Councillors P .I. Bentley and W. E. Ball that the Reeve and Councillor J. R. Eakins be a special relief committee to look after Mrs. Turner.—Carried.

A delegation from the Agricultural Society waited on the Council asking a grant for the Winter Horse Show. No action was taken.

Moved by Councillors T. Ingram and W. E. Ball that the time for returning the collector's roll be extended for one month.—Carried.

Moved by Councillors Eakins and Ingram that Council purchase one forty-four foot extension ladder, for use by the Fire Company.—Carried.

The following accounts were presented, and on motion of Councillors Eakins and Ingram, were ordered paid:

Hydro-Electric Commission, street lighting $71.17, Town Hall, current $3.25—$74.46; Millbrook Telephone Company, acct., $4.70; S. Donnelly, sanding streets, $2.85; W. Budd, sanding streets, $1.00; H. Nattress, salary, $25, meals $3.70—$28.70; P. Stinson, expenses, equalization $15.00; W. G. Russell & Sons, coal, $43.03; Municipal World, 7 subscriptions, $7.00; Mrs. G. Ward, nursing Miss Gillott, $10.00.

Eakins—Ingram: That Council adjourn to the call of the Reeve—Carried.

ROADS DRIFTED JUST YEAR AGO

Stock's Bread Company Inaugurated Airplane Transportation Year Ago.

CONDITIONS NOW DIFFERENT

Roads in this district were so drifted with high banks of snow at this time a year ago that Stock's Bread Company inaugurated their now famous air delivery of bread to the village of Warsaw. For more than a week the roads to Warsaw were impassable and Stock's winged bread into the villagers, thereby creating an absolutely new use for the most modern vehicle of transportation.

No airplanes are required this year in travelling this district. The winter thus far has established something of a record for itself because of the splendid road conditions that have prevailed. Even some of the most remote parts in the north of the district, which in other winters were shut off from the outside world because of the insurmountable snow drifts, have been easily accessible every day this winter. All roads are open even into the wilds of Haliburton.

Felt Tired and Miserable

"I took Lydia E. Pinkham's Vegetable Compound for miserable and tired feelings and it gave me strength to do my work. My nerves are better and I feel well and strong and have a good appetite. I sleep well and am in pretty good spirits and able to work every day now. I recommend the Vegetable Compound and you may use this letter as a testimonial."—*Miss Delvena Wallace, Union Street, North Devon, New Brunswick.*

Lydia E. Pinkham's Vegetable Compound

How Virol builds Children for *LIFE*

Mrs. Baker and her new baby To-day

Two Generations of PROOF

TO-DAY Mrs. Baker is a splendid healthy woman with a splendid healthy baby. Yet 15 years ago she was at death's door. Read how Virol saved her life when she was a child and laid the foundations of her own permanent good health and that of her child.

FIFTEEN YEARS AGO Mrs. Baker's Mother wrote:—

"She was reduced to a mere skeleton (Photo 1). The doctor said the only thing that would pull her up was Virol. In five months she more than doubled her weight. Her illness left her so weak that she could not keep a particle of food down but the Virol—that seemed to feed her and strengthen her chest. She is now a picture of health." (*Photo 2*).

The top photo shows how Virol has enabled her to grow up into a healthy woman whose baby is also a picture of health—how, in fact, the beneficial effect of Virol continues even to the next generation.

Virol is the only food which can exhibit such a remarkable case of racial improvement. Give *your* child Virol in the dangerous winter months.

VIROL
THE FOOD OF LIFE
Sold in 16 oz., 8 oz. and 4 oz. tins
Canadian Importers:
BOVRIL, LIMITED, MONTREAL.
Sales Representatives for Canada:

MRS. BAKER WHEN A CHILD

Age 5 yrs. 7 mths. eight 21 lbs. 2 ozs.
BEFORE TAKING VIROL

Age 6 yrs. Weight 44 lbs. 2 ozs.
AFTER 5 MONTHS on VIROL

These are guaranteed to be genuine photographs and accurate particulars of Mrs. Baker. This and every other case published by Virol Ltd. are open to the strictest investigation by any Doctor interested.

FAIRMOUNT

Warden and Mrs. Hooton entertained a number of their friends on Friday evening at their home. After dinner, games and contests were enjoyed.

Mrs. E. Wilson, of Ida, is at the Millbrook Hospital and her many friends wish for her a speedy recovery.

Miss Myrtle Hooton has returned to her home after visiting friends in Toronto.

Mr. Robert Ballantyne, who has been ill at the home of his daughter, Mrs. John Morrison, is improving in health.

Mr. Harry Brooks was a recent visitor to Toronto.

Mr. and Mrs. George Hooton entertained a number of their friends on Tuesday evening.

Mrs. B. Reid, of Ivanhoe was the guest of Mrs. James Seymour.

SOO MERCHANT SUICIDES

SAULT STE. MARIE, Ont., Feb. 11—Clarence Marshall, prominent young Soo business man, committed suicide just before noon to-day by drinking carbolic acid. He was a son of Dr. William Marshal, head of a local motor agency, who is now out of the city on a trip to the Bermudas. No particulars are known yet.

OBITUARY

TERESA HOOLIHAN

DOWNEYVILLE, Feb. 12 (Examiner Correspondence)—The funeral of the late Teresa Hoolihan was held from the residence of her brother-in-law, Mr. Dennis C. Scully, Monday morning at 9 o'clock to St. Luke's Church, Downeyville.

Requiem mass was sung by Rev. Father Galvin, who also said the prayers at the cemetery.

The pall bearers were Messrs. Timothy Callahan, Thomas Lucas, Patrick Harrington, John O'Leary, Fergus Hoolihan and Edward C. Hoolihan.

The late Teresa Hollihan was born here, received her education here and was a resident until about twenty years ago when she went to New York where she lived until her health failed about a year ago, when she went to live in Lindsay. Although ailing a long time her death was a shock to her friends and relatives here.

She leaves to mourn her loss, her mother, two brothers, Edward C. of Emily and Joseph Hoolihan of the Northwest and three sisters, Mrs. Monahan of Detroit, Mich., Mrs. Jennings of Rochester, N.Y. and Mrs. Dennis C. Scully of Downeyville.

LEGATION SECRETARY SHOT

VIENNA, Austria, Feb. 12 (C.P.)—The secretary of the Czecho Slovakian legation was shot to death in his office to-day by a sixty-seven year old former Czecho Slovakian policeman named Boleslaus Zetka.

Zetka handed the secretary a document and while the secretary examined it he drew a revolver and fired three times. One of the bullets pierced the secretary's eye and entered the brain killing him instantly.

Better Light at Less Cost~

EDISON MAZDA LAMPS cost no more than the ordinary kind . . yet give you the *full value of the current consumed.* Their light is soft and free from glare. Be sure to use enough lamps to provide the good light that saves eyes and adds to comfort. Keep a few "extras" handy, in case old lamps burn out.

The Fire Brigade is the village service club, with its members expressing their citizenship in terms of faithful and effective service for the protection of the lives and property of each and every resident.

SALVATION ARMY REPORT

TORONTO, Ont., Feb. 12 (C.P.).—The forty-eighth annual financial report of the Salvation Army for Canada east and Newfoundland shows $260,955 was collected by the Army for their Self Denial Fund and another $59,362 for their Harvest Festival Fund. Freehold and leasehold property acquired for the use of the Salvation Army is valued at $4,763,656, while the cash balance of the organization amounts to $26,-920.

Suffered For Years With Salt Rheum. Healed by Cuticura.

"I suffered for years with salt rheum. It broke out in a red rash that itched and burned. I had it around my mouth, then it spread to my scalp, on the back of my neck and on my limbs. It itched and burned so that I could not rest day or night. I used to scratch until it would bleed, making the eruptions very sore. My hair all fell out.

"I began using Cuticura Soap and Ointment and after using three cakes of Cuticura Soap and one box of Cuticura Ointment I was healed." (Signed) Mrs. R. B. Hunter, Box 41, West Side, New Glasgow, N. S.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold everywhere. Sample each free. Address Canadian Depot: J. T. Walt Company Limited, Montreal.

PRAIRIE HEMP AND FLAX

Experiments in the production of hemp and flax for fibre are being carried on at a number of the Experimental farms in the Prairie Provinces and at Agassiz, B.C., but the great problem on the prairies is to obtain sufficient moisture in the fall to ret the straw. Attempts are to be made to solve this problem by snow or winter retting.

TOTAL MOTOR TRAVEL IN CANADA

An estimate of the total mileage travelled by all motor vehicles on Canadian highways and streets during 1929 has been made by the Dominion Bureau of Statistics from the 482,715,157 imperial gallons of gasolene consumed in Canada in that year. Using an average of 17 miles per gallon, this would give a total of over eight billion miles. In estimating 17 miles per gallon, allowance is made for the smaller average mileages of trucks and buses. In Canada passenger cars constitute over 85 per cent of all cars registered in the Dominion

TRAPPED FERRY FREES HERSELF

Wawatam Reaches Mackinaw City After 27 Hours in Ice Jam.

HAD 103 ON BOARD.

SAULT STE. MARIE, Ont., February 12 (C.P.). — The car ferry Chief Wawatam, with 103 persons aboard, which became locked in the ice of Mackinac Straits three miles from Mackinac City at eight o'clock on Tuesday night, freed herself, and proceeded to Mackinac City.

She had been fast in the ice for 27 hours. There was plenty of provisions aboard, also a sufficient quantity of milk and food for the several children aboard the vessel.

There were nine automobiles and one big truck aboard the boat, in addition to the train.

After reachnig Mackinac City, the Wawatam returned to St. Ignace, reaching that point at 3.40 o'clock this morning. The passengers suffered no inconvenience at all, reports from Mackinac City this morning said, outside the fact that a number of people travelling on important business were held up for a little more than a day.

BRITAIN SWEPT BY VIOLENT GALE

Wind Blowing Over 50 Miles an Hour Damages Channel Shipping.

FEAR BOAT LOST.

LONDON, Feb. 12.—(AP)—A violent gale, one of the fiercest of this stormy winter, blew over Great Britain and adjacent seas during the night. The wind passed 50 and 60 miles velocity frequently and occasionally blew more than 70 miles an hour.

The channel was lashed into furious waves which seamen estimated to be 30 feet high. Mid-channel and transchannel steamers had alarming passages and some suffered damage, arriving at ports hours late.

The Bemridge lifeboat searched for six hours last evening for a small unidentified vessel seen earlier drifting in the channel. It returned unsuccessful and it was feared that the small vessel was lost.

On shore many trees were uprooted, and chimney and roofs damaged.

NEW "FLU" OUTBREAK

CALGARY, Alta., Feb. 12. (CP)—An outbreak of influenza, has occurred in the Colonel Belcher military hospital here and 100 of the 135 patients have been stricken with the disease.

The disease is of a mild type and no fatalaties have resulted.

Bishop Elect

Monsignor Joseph J. O'Sullivan of St. Augustine seminary, Toronto, who has been named bishop of Charlottetown, P.E.I.

PLANE WILL NOT SPIN NOR DIVE

New Fool Proof Airplane is Inveted By New York Man.

MOVABLE WINGS.

NEW YORK, Feb. 12 (C.P.)—A foolproof airplane which, its inventor claims, will neither stall, spin nor dive and will land itself, is the latest contribution to safety in the air.

While more than a hundred aeronautical experts and financiers watched, the plane was succesfully tested at Glenn H. Curtiss airport yesterday. Piloted by Henry White, it made a half dozen short flights and came to a near-perfect landing each time with the pilot's hands high above his head.

The designer is A. A. Merrill, of White Plains, N.Y., formerly in charge of aeronautical research at the California Institute of Technology, and a contemporary of the Wright Brothers, Octove, Chanute and Langley. He has been working on the plane since 1913 and at one time was forced to mortgage his life insurance to continue.

Moveable wings which can be adjusted over an arc of 14 degrees are the secret of the plane's stability. In flight, these restricted flying surfaces prevent a pilot from unwittingly going into a stall or a dive. In landing, they mechanically level off at the proper distance from the ground and assume the proper gliding angle.

"It is not so much what it will do," Mr. Merrill said, "as what it will not do, that is important. It is definitely a plane to fly and not to stunt because you cannot stunt it."

SPEEDY PROGRAM TIRES PRINCES

Royal Brothers Sleep Late After Dance at Lima Country Club.

RIO PREPARES FOR VISIT.

LIMA, Peru, Feb. 12. —(A.P.) — Tired out after a dance at the country club last night, the Prince of Wales and his brother, Prince George, slept late to-day but this afternoon they were scheduled to visit some of the historic spots in this ancient city of kings. The only official event on their program was a dinner to-night at the British Legation in honor of the Peruvian Government officials.

Last night's dance followed a state dinner at the Presidential Palace and the brothers didn't get to bed until after 3.00 a.m.

Word from Rio de Janeiro to-day said that city was arranging an elaborate program for the Royal brothers when they arrive.

British Labor M.P. Dies In Harlesden

LONDON, Feb. 12.— (A.P.)— Alfred Smith, Labor member of the House of Commons and once a New York street car driver, died suddenly a this home in Harlesden at the age of 71.

Born in London of humble parents, Smith picked up a living as an errand boy, emigrating at the age of twelve to the United States, where he drove a street car in New York, worked in oil fields, and was a cod fish laborer in Boston. He later moved to Canada and lived several months on Prince Edward Island.

Returning to London Smith drove delivery vans. Then a taxi, and numbered many theatrical figures, including the late Sir Henry Irving, among his regular patrons. He became prominent in trade unions, and at the last election was chosen for parliament.

Smugglers At Border Trapped In Detroit

DETROIT, Feb. 12.—A former United States' Customs Inspector and a Montreal citizen were held for the Federal Grand Jury yesterday on charges of conspiring to violate the tariff laws.

The defendants are Edward Randal, the former customs officer, and Joseph Saud, of Montreal, who were arrested in the Michigan Central station Feb. 1, when inspectors seized luggage containing 13 fur coats, 65 pieces of lace, several fur neckpieces and lingerie which had not been declared.

Randal was dismissed from the customs service in November, 1928, when he was found in possession of a fur coat on which no duty had been paid.

Both he and Saud were held for the Grand Jury under $1,000 bond each.

Hostesses To Prince Of Wales

Photographs above show three South American beauties, who occupy the much envied position of hostesses to the Prince of Wales and his brother, Prince George, as they stop at Lima, Peru, for a short sojourn on their trip south to Buenos Aires to open the British Trade Exposition. (1) Senorita Defino Miro Quesada Laos, daughter of a Lima newspaper editor; (2) Senorita Ines Laos Lomer and (3) Senorita Elvira Miro Quesada Garland, daughter of a Lima publisher.—Copyright by Acme Newspictures.

RELIEF FUND CONTRIBUTIONS WILL GO TO HELP THESE CASES

Several Mothers Who Expect Babies Urgently in Need of Help.

CHILDREN ARE STARVING.

"A tight little bundle of wailing and flannel. Perplexed with the newly-found fardel of life."

So the poet speaks of the newborn child.—"We come in with a cry. We go out with a moan."—The tight little bundles of wailing and flannel that cry over that newly-found burden that means life.—Brought from some far-away, happy country to take up the pack of existence and bear it to some distant bourne.'—"Where so you come from baby dear? Out of the everywhere into the here."

Well, the "everywhere" may have been a happy place, but the "here" is not always the best. For the tight little bundles that are ushered into many homes, the "fardel" of life means just what that old, unused word means: a "burden" and a "load."

Babies are coming into Peterborough's homes with the same regularity that they exhibit in other places. Sometimes they arrive in beautiful surroundings, and sometimes the reverse.

One is due in a home where six other children fill the little place. "We are seven," is the refrain that this baby might warble later on. The corner grocer has a bill of over $100 against this family, and the landlord, presumably, waits in more or less patient mood for his dues. They are very poor.

Another will make the thirteenth child in a home where the wind shrieks through bare rooms, on cold nights. Three of the children are dead. Only the kindness of friends can provide this mother with the little pieces of flannelette that will go to make the new baby's outfit.

A woman who had been working at scrubbing up to the last minute has just given birth to a fourth child in a home where unemployment has stripped it bare of nearly everything in the way of furnishings, through many long months These are Old Country people.

In a house where the monthly rent is $5 there are six children, ranging in years from fourteen to three. Neither of the parents is very strong and the baby will inherit little of any value, except, perhaps, a good deal of courage in battling adverse circumstances.

In two tiny rooms at the back of a small house there live a man and wife and a small child. Soon another child will be born here. Through lack of money and various regulations, the mother cannot go the hospital, so the physician will do his best, just the same as in another case, with another doctor, where one small room where dwell the parents and a small child, will form the theatre for this ever-recurring drama of life and death. In this room, until recently, one bed served for the three people. Now there is a cot for the little girl. The new baby can sleep in a baby carriage that was presented also from a kind home. Lack of work and recent arrival in the city form the nucleus of a rather desperate situation here.

Seven children, from five to twelve years, are in another house where a gift heater adds to comfort, for the time being. The new baby comes to people who refuse to ask for help at any time.

A heritage of that Great White Plague that once formed the highest marks in deaths throughout the world; the scarlet torch of consumption, will descend on the head of a baby in another home where six little boys and girls already await it.

And then there is a shack where two little children run about, in bare feet. With the curious generosity of people who have very little to offer, this woman, after her own baby comes, is planning to help a relative who is in somewhat worse case, in one of the adjoining country districts, and who also expects another baby, very shortly.

These are Canadians, and, given a fighting chance, they may in the future do much for their own land. Abe Lincoln was born in a shack, the son of poor people, and Napoleon Bonaparte, on the island of Corsica, made his initial bow to the world in an impoverished home where fourteen children had arrived before he appeared.

Anything you give to the Peterborough Relief Association will help these and other children. Or, if you have a taste for frivolity and a dancing foot, try to attend The Examiner dance next Tuesday evening in the Candian Legion hall, when all proceeds will be used for relief work.

Many Happy Returns

WILLIAM J. GREEN

Veteran tax collector, who is celebrating his 83rd birthday to-day. Mr. Green has been tax collector of the city of Peterborough for the past 31 years.

BANDITS LOOT MAILS

WASHINGTON, Feb. 12. (AP)—In a sensational attack on a mail clerk in Union station three bandits early this morning obtained three pouches of registered mail, believed to have contained packages on their way to the treasury from the Federal Reserve Bank of New York.

Bartering Of Brides Is Being Protested

GROZNYI, Russia, February 12 (C.P.). — Resolutions condemning polygamy and the bartering of brides have been forwarded to the Central Executive Committee in Moscow by the Fifth Congress of Soviets here with a request that the committee pass stringent laws to abolish the practices in this vicinity.

The resolution refers to "this most shameful form of exploitation which is mainly practised by the Kulaks," and asks that more severe punishment be imposed upon violators of the present statutes.

BREAKS UP GAS IN THE STOMACH

Don't suffer from dangerous gas pressing around your heart, from sourness, acidity, bloating or pain of indigestion. Stop worrying. Whenever you need quick stomach relief, take a little Bisurated Magnesia—powder or tablets. It breaks up gas, neutralizes acids and keeps the stomach sweet and strong, and digestion perfect. At good drug stores everywhere. Not a laxative.

ENTIRE SURVEY OF CANAL DISTRICT PLANNED BY TRENT ASSOCIATON

Department Has Found That Such Pictures Are Valuable Publicity.

MAKE THREE REELS.

Plans for the complete photographing of the Trent Canal system and surrounding country were discussed with the director of the Motion Picture Bureau by the manager of the Chamber of Commerce and of the Trent Waterway-Iroquois Trail Association, while in Toronto yesterday.

The local Association proposes an entire survey of the district from the Bay of Quinte, past Trenton and Peterborough, through the Kawartha Lakes, and over the marine railways to the Georgian Bay.

In 1927 a photographic survey was made of the canal, and was entitled "Kelly's Cruise." Four thousand feet of film were taken, but this was shortened down to 1800 feet, or two reels. These were shown in the local theatres and in Sportsmen's and Motor Boat Shows in several pivotal points in the United States.

The Motion Picture Bureau which is a subsidy of the Treasury Department, has learned from its three years' experience with the type of publicity gained from the showing of

(Turn to Page 19, please)

You Name Them

CHICOPEE, Mass., Feb. 12—When Penelope Kaintgios came from her native Greece three years ago to marry Alexeos Pappatriandofilopoulos the length of the bridegroom's name landed them on the first page of newspapers that were aware of the event. To-day the same factor assisted publicity on announcement of the birth of twins, Michael and Katherine Pappatriandofilopoulos.

NEW SHOCKS FELT AT NAPIER

NAPIER, New Zealand, Feb. 12.—(AP) Prolonged earth-shocks rocked the ruins of this city and nearby town of Hastings to-day but they seemed to be of different character from the destructive quake of last week and no further damage was reported.

A heavy rainfall which lasted half an hour caused fears for a time that the rivers in the vicinity would be flooded, but the apprehension ended when the rain stopped. Considerable progress has been made and at Hastings in clearing up the earthquake wreckage.

FAIRMOUNT W.M.S. HEARS ADDRESS

Mrs. B. Reid is Special Speaker at Regular Meeting of Society.

FAIRMOUNT, Feb. 12 (Examiner Correspondence)—The members of the W.M.S. of Fairmount Church held their meeting recently in the school room with Mrs. C. Hanbidge, the president in the chair.

The third chapter in the Study Book was taken up and Mrs. Russel Earle gave a very interesting paper on the "Family Duties of the Social Institution of Missionary Work" and also an "Japanese Customs."

The second part was taken by Mrs. B. Reid, a visitor in the neighborhood, who gave an excellent talk on "The Christian Influence and the Temperance Movement," also the Christian and social examples which give a wonderful effect on Buddahism and the moral standards of the Japanese.

Mrs. Fred McIndoo contributed a solo, "The Garden of Prayer" and Mrs. Moyer gave a short talk on Temperance.

ANNUAL MEETING OF QUEENSBORO CHURCH

Satisfactory Reports Read by Various Committee Heads at Meeting.

QUEENSBORO, Feb. 12 (Examiner Correspondence)—The congregational meeting in the United Church which was postponed last week on account of the snow storm was held on Friday evening in the church with a good attendance. The meeting was opened by Miss Marion Carey, president of the Young People's Union who read the scripture lesson from Romans, seventh chapter. Miss G. M. Harper gave a paper on Pentecost showing the value and strength of living right. Mr. Everson conducted the business part of the meeting. Mrs. Bruce Leslie gave the report of the W.M.S. which showed that there were fifteen members in the society and the amount of $80 had been sent to the branch treasurer. Mrs. C. B. Hamm gave a very fine detailed account of the work of the Ladies' Aid Society which began the year with a balance on hand of $145.17 and closed it with a balance on hand of $119.15 after giving the Church Board $100 and paying over fifty dollars toward improvements done on the parsonage. The Sunday School report gave the enrollment at 88, the total collections amounted to $97. The net proceeds of the Christmas tree amounted to $22 and of the picnic held in August to $136. The amount given for supplies was $108. Thirty dollars was given to the M. and M. Fund and there is a balance on hand of $72.

There are sixteen paid members of the Young People's Union. The total receipts amounted to $53.77. Twenty-five dollars had been given to the Church Board and fifteen to the M. and M. Fund. There is a balance on hand of $9.19. Mr. Fred Rollins, treasurer of the Board of Stewards in his report stated that after all bills had been paid there was a small balance to begin the new year.

Mr. Everson stated that four members had died during the year. Six dollars had been given to the O.R.E. C. work, and seven dollars to the Presbytery Fund, while on the charge the Missionary and Maintenance givings had increased $68.

The following officers were elected: organist, Miss Evelyn Holmes; choir leader, Miss Marion Love; ushers, Mr. Harry Tokley and Mr. John O'Rorke; elders, Harry Tokley, George Glover, Bruce Leslie and Sidney Holmes; committee of stewards, Miss Ida McCaw, (convenor), Mrs. C. B. Hamm, Fred Rollins, (treasurer), John O'Rorke, Walter Tokley, (secretary) and William Lynn.

The granulated soap for tub, washer and dishpan

ANNOUNCEMENTS MADE AT MEETING

Missionary Committee Has Charge of Millbrook Y.P.S. Meeting.

MILLBROOK, Feb. 12 (Examiner Correspondence) — The missionary committee had charge of the Young People's Society on Monday evening, the chair being taken by the convenor, Miss Mary Wood. Associated with the vice-president on the platform was the secretary, Miss Dorothy McDowell, and the business session was conducted by the president, B. B. Dawson.

Announcements by the president included the fact that the regular Y.P.S. meeting will be on Tuesday of next week, rather than on Monday evening, as the young people are invited to visit the Bailieboro Society on Tuesday night, and arrangements for conveyance to that centre will be completed as soon as possible. All members wishing to go are asked to Dawson, or with Miss Marjorie Sayles. The latter, as president of the Golden Links Mission Circle, is having that organization hold its monthly meeting at her home, Waverly Apartments, next Monday evening.

Miss Charlotte Luxon read the scripture lesson, 1 Corinthians 13, and Miss Mary Burnham presided at the piano throughout the meeting. A piano duet by the Misses Bryar Edmunds and Mary Burnham preceded the main feature of the evening, an interesting set of slides on "Japan: Her People and Industries," Mr. O. E. Kelly reading the lecture material, and B. B. Dawson managing the lantern.

The homes of the people, their home industries such as the care of the silk worms, and the weaving of the silk from the cocoons; the 'bad advertising' whereby the lovely landscape is disfigured with huge advertisements, just as it is in Canada and the United States; man-pushed street cars; street preaching, and other missionary work being accomplished, were among the many of the fine views shown, instruction and keen interest being combined in the evening's enjoyment.

A skating party at the Cosmos rink will feature the meeting of the Y.P.S. on Monday, February 23, each member being allowed to purchase one or more extra tickets and thus privileged to invite friends to participate in the gathering. Those paying their annual fee between now and the time of the skating party, according to announcement by the president, will be given their personal entry ticket to the rink gathering without extra charge. Members are urged to 'boost' the skating party and thus help in making the event an outstanding success.

The meeting closed with the Mizpah benediction.

Unemployment Insurance Is Planned By Builders

KINGSTON, Ont., Feb. 12 (C.P.)—Yesterday's session of the Ontario provincial conference of the bricklayers, masons and plasterers of the International union, a resolution was passed, calling for the establishment of some kind of unemployment insurance. The resolution will be sent to the Ontario government.

The convention also went on record as approving of the five-day eight-hour week.

Delegates are present at the meeting from Toronto, London, Hamilton, Windsor, St. Catharines, Ottawa and other Ontario points.

Don't forget the date, Feb. 17th. Or the place—Hall of the Canadian Legion. Or the object—Second Relief dance of The Examiner Social Club. There'll be a good time at the old hall that night.

Our Mail

Conducted by ANNE WILCOX

Dear Anne Wilcox:

Thank you so much for your lovely greeting card. It was indeed kind of you to remember me.

I was sorry to know that Water-Lily had been under the weather and hope she is now fully recovered. Now when last I wrote, I had been recovering from a serious operation and was very depressed, but am glad to say I am now better than I have ever been. I really think a great deal of the credit is due to the prayers and good wishes of Anne, Water-Lily, Elizabeth, and all my good friends of the page. My thanks go out to all of you.

I read your articles every day, Anne, and find much food for thought, in what you say. Although we do not think so, we are largely dependent on one another. If we know that someone thinks well of us, and our line of conduct it spurs us on to better things. When we get depressed with illness or worries, and begin to think that we are not of much account, in the scheme of life, and friends, although unknown, write the lovely letters which I have received, then our spirit stirs and we begin to think that maybe we have something in ourselves which appeals to others, and we try to raise ourselves again.

When we try to do our best, taking each day as it comes, God in His Wisdom gives us strength and courage to go on. Once, in discussing the next world with a friend, she asked, "What would you like to have in Heaven?" and I said, "I'd like to meet God as my dear Friend." Friendship to me is a precious thing, deep communion soul to soul. In my opinion most friendships are wrecked by too much confidence, given and received. As in love, so in friendship, there must be a little mystery to hold the interest.

When friends tell each other everything, there is nothing left to expect and one or the other being dominant will seek to impose her views on the other, then resentment follows and another friendship is broken.

I often think also, about letter-writing. If you receive a letter which hurts or annoys you, your first reaction is to write one which will hurt or annoy the one who sent it. All right. Go ahead and write it, but keep it for twenty-four hours and read it over. In almost every instance you will not send it. A letter is such a cold thing sometimes—no high or low inflections such as are in a voice, no smile of understanding to accompany the words. So again I say, write your letter, it will get the sting out of your system but keep it and read it again. And this is meant also for the one who wrote the first letter. The sting of words written last longer than the spoken word.

Oh, Anne, I could go on and on but am afraid I would bore you. Water-Lily, I feel you are my friend. I like your letters. Elizabeth you appeal to me and your letters are good. Highflyer, write us another sparkling letter. Do not let your duties quench your high ocurage. And to all other friends of the page, won't you write and make our page so interesting that we shall turn to it first? Do not leave the letter-writing to two or three of us. We want your point of view also. Tell us of letters which caused trouble. Tell us of friendships broken.

Anne, I hope you get so many letters that you will require a whole page. If the neighbors don't like something write and tell us If you do like something we might like it too. Oh I can see the W.P.B. looming near or that blue pencil so I will sign off.

Your sincerely,
AD INFINITUM.
(Formerly Ad Nauseam)

Thank you, Ad Infinitum, for your splendid letter and I am so glad you are feeling better, because it does help so much, doesn't it. Like myself, I am sure all the neighbors will be pleased that you have changed your pen-name. I would like nothing better, Ad Infinitum, to get so many letters that it would require a page to print them, so this will be an invitation to everyone to write real soon.

Anne Wilcox

Colorful Costume

A unique and colorful costume for the young miss. It is of black, white and pink gingham with white pique coat. The coat has hand-embroidered scallop edges, and the hat, of pique, is treated in the same manner—exclusive — Associated Press photo.

NEGOTIATIONS CONTINUE

PARIS, Feb. 12—Negotiations with a view to clarifying the Franco-Italian differences are still going on, a Associated Press to-day. He said there was nothing extraordinary about the visit here of the British expert, Robert Craigie, and that Mr. Craigie had come home merely to resume conversations with government officials.

District Churches

ROSENEATH

ROSENEATH, Feb. 12 (Examiner Correspondence) — The United Church was well filled on Sunday evening, when Rev. R. W. Paton, M. A., delivered a splendid discourse from words taken from St. John's Gospel, chapter 20 verse 19. The incident described took place the evening of that day when dawning had been signalized by the resurrection of Jesus. "Let us notice particularly the fact that these disciples had unintentionally closed a door against Jesus," said the speaker. Had they known He was to be their guest they would willingly have left open the door.

We have here an illustration of an experience which appears and reappears in the human life. It is very possible to close a door against God and do it unintentionally.

The word pleasure is one which we hear frequently these days. We find that the craze for pleasure is having a marked effect upon the lives of the masses. The craze for pleasure has done much to hinder the progress of the church of Christ. Pleasure seekers are numerous and they have no deliberate intention of excluding God from their life; but they have allowed pleasure to so monopolize their life's energy and strength that no room is left for the things spiritual and a door has been closed against Jesus Christ.

Business has a necessary place in life, but here again it is possible to allow that which is right in itself to gain control until the things spiritual are absolutely crowded out. Men who have no real desire to ignore the things of God, are allowing business interests to occupy so prominent a place in their life, that a door is actually closed against Jesus Christ.

But there is a blessed thought that comes to us, as we read this story. Jesus Christ can come in in spite of the closed door. He came to His disciples, even when the door was shut. He is inescapable. All life is so interpenetrated with Christ. He can come into the human heart, in spite of any barrier of sin. Sometimes in ways we cannot understand. He finds His way into a heart where a door had been closed against Him. Even if you are conscious of this closed door, you can still have Jesus as your personal Saviour. Jesus will come to you, as He came to the disciples in the days of old, when the door was shut and He will bring to you that same message of comfort, of reassurance and of peace, "Peace be unto you." We thank God for this blessed truth that Jesus Christ can come into our hearts, in spite of any closed door.

The large choir aided greatly to the service and rendered selections very fitting to the sermon.

"AYLMER please—nothing else will do!"

Rich Legacy from Southern Hosts Canada's Favourite Now

Nashville liked it . . . Dixie praised it

MILLIONS DRINK IT TODAY

VISION the old Maxwell House in Nashville, Tennessee. Conjure up its brilliant balls and lavish banquets. Imagine Dixie's beaux and belles enjoying the old inn's hospitality and—its flavoury, savoury coffee.

Such coffee! A rich mingling of flavours. A special blend bringing out all the shades of difference in the fine coffees used. Maxwell House was the outstanding achievement of an old Southern gentleman, an expert in coffee.

It was not only an instant, lasting success in Dixie. The modern coffee lover today prefers Maxwell House.

Canada Learns Its Goodness

The fame of Maxwell House spread like wild-fire. Everyone wanted it. Today, Dixie's heritage is Canada's favourite coffee, with a great Canadian plant to roast and pack it. You may enjoy Maxwell House vacuum-packed in tins which means that it is always fresh as if just ground. At all grocers in the blue tin.

In 1 lb. and ½ lb. tins.

Maxwell House Always Fresh

You can always be sure of its freshness because it comes to you packed in a vacuum tin which protects its fragrance and flavour. Coffee in a newly-opened Maxwell House tin is fresher than coffee packed any other way even one day old.

"GOOD to the LAST DROP"

A charming tea was held yesterday afternoon at the home of Mrs. G. C. Carruthers, Aylmer street yesterday afternoon under the auspices of Group G of the W.M.S. of George Street United Church. The attractive rooms were lovely with ferns and flowers. The guests were received by the hostess assisted by Mrs. W. Burns, the group leader. Drawing room assistants were Mrs. Follet of Toronto, Mrs. B. F. Ackerman and Mrs. Manning. Mrs. B. Shortley and Mrs. J. E. J. Millyard ushered the guests to the tea room, where tea was poured by Mrs. E. E. Harvey. The table was lovely with a central silver basket of paper-white narcissus, yellow daffodils and smilax on a reflector; tall yellow tapers in silver candle holders and silver tea service. Tea room assistants were Mrs. F. Whatley, Mrs. P. Rutherford and Mrs. R. Best, and the Misses Edna Manning Grace Burns and Pearl Carruthers. A splendid program consisted of vocal solos by Mrs. C. Saunders, Mrs. Wildman, and Mrs. J. B. Nelson, accompanied by Mrs. D. Howat, and a delightful reading by Miss Phyllis Moore. The program was interspersed with pleasing piano solos by Miss Dorothy Whatley.

The crimson and white of St. Valentine's season were the main notes in the decorative scheme of Mrs. J. A. Morgan's lovely home yesterday afternoon, for the very successful tea held there under the auspices of the Otonabee Chapter, I.O.D.E. In the handsome living-room, with its glowing grate fire on the wide hearth, its soft lights and its interesting antique furnishings, there were tall green vases filled with deep red Darwin tulips and paper-white narcissus. A bowl of Italian cream pottery was filled with the same pretty flowers, on the little table devoted to the White Elephant sale, where the dainty parcels were wrapped in red and white and tied with crimson ribbons. The tea room was charming with plenty of soft lights and a table whose appointments were carried out in the same softly brilliant tones of red and white. On the cloth of Irish Cluny lace were servers holding cakes iced with red hearts and tiny red heart sweetmeats were in frilly red paper baskets whose slender handles held little gilt Cupids. The centrepiece was a novelty in the form of a Valentine old-fashioned bouquet. On the cone-shaped crimson paper standard, decorated with gilt hearts, was an old-time nosegay of crimson paper flowers, encircled by a lace paper frill, with a pendant fringe of red terminating in little gilt hearts. The same golden hearts depended from the overhead electrolier, and there were crimson candles in silver candlesticks that boasted perky bows of crimson satin ribbon. The guests were received by Mrs. Morgan and the Regent of the Chapter, Mrs. C. A. White, and they were taken into the tea room by Mrs. W. Comstock and Mrs. K. S. Wightman. Mrs. J. D. Cameron and Mrs. H. Beal were in charge of the White Elephant sale and Mrs. J. A. Robinson acted as treasurer. Mrs. F. L. Robinson was in charge of the tea room, where the table was arranged jointly by Mrs. W. Comstock, Mrs. R. J. Soden, and Mrs. G. H. Roper. Tea was poured by Mrs. J. A. Aylmer and Mrs. A. Murphy, assisted by Mrs. R. J. Wolstenholm, Mrs. W. P. Blackmore, Mrs. D. W. Clark, Mrs. H. C. Sherwood, and Mrs. W. N. Hayes.

A very successful Valentine tea was held at the home of Mrs. E. Wand, Burnham Street, yesterday afternoon and evening, under the auspices of Group 1 of the Women's Association of Mark Street United Church. The rooms were prettily decorated in Valentine colors with red hearts in profusion. The guests were received by the hostess, assisted by Mrs. G. S. Hurl. Mrs. William Payne ushered the ladies to the dining-room, which was very attractive in a color scheme of red and white. The tea table was centred with a basket of red tulips, and red candles were in flower-like holders. Mrs. A. E. Thornley and Mrs. Cox poured tea. Assistants in the tea room were Mesdames Benson, Matchett, and Mesley. A splendid program consisted of vocal solos by Mrs. W. L. Hepburn, Mrs. Mendell Braund, Mrs. W. J. Smith, Mr. Binks, Mr. W. J. Smith, Miss Fern Agnew, and Miss Joan Welsh; vocal duets, Mr. and Mrs. W. A. Greenslade, Mrs. Binks and Mr. Greenslade; reading by Miss Ruth Ellis; piano solo by Miss Freda Kilcher; instrumental piano duet by Mrs. Greenslade and Mrs. Ellis.

BESSBOROUGH SAILS MARCH 27

OTTAWA, Ont., Feb. 12.—Premier R. B. Bennett was in trans-Atlantic telephone communication last evening with the Earl of Bessborough—Canada's new Governor-General. The new incumbent of Rideau Hall is making expeditious arrangements respecting the affairs of his two large estates in the British Isles prior to his departure for the Dominion.

Tentative arrangements call for the sailing of the Earl of Bessborough from Liverpool on March 27 on board the Duchess of Bedford.

I am going to ask you a rather peculiar question: "Do you like wrapping up bundles?"

• • • • • • •

The reason I ask you this is that I was in a home recently where the lady of the house was wrapping up a few parcels and she told me that she detested it.

• • • • • • •

And probably because she disliked this task so much, her parcels did not look neatly wrapped.

• • • • • • •

Some people wrap their parcels very neatly and because of this there is an added attractiveness about the bundle. This is especially true of Christmas gifts

• • • • • • •

But I have often heard it said that women have the reputation for doing up bundles very badly. Perhaps some of you will instantly rise up in arms at this, but nevertheless I believe it is true to a certain extent.

• • • • • • •

I don't think there is any reason whatever, why a woman should not be the equal of a man in this task do you? One reason why she is not is because she tries to use up inadequate pieces of wrapping paper and odd bits of string or ribbon.

• • • • • • •

There are plenty of pieces of wrapping paper that come into the home and which are saved for doing up parcels, for the woman to find the right-sized pieces for herself.

• • • • • • •

But it is just as important not to use too large a piece because then one has trouble in getting the corners to look neat.

• • • • • • •

After securing wrapping paper that is the correct size or which can be made the correct size, place the article to be wrapped in the centre.

• • • • • • •

Fold the end that is away from you over the goods and bring the end toward you over this. To make a firm edge fold this edge of the paper under and crease well. Then it will not tear easily.

• • • • • • •

The next thing is to make neat end turnings. Fold the top end of one side down firmly against the side making as square a turn as possible. Fold each side piece of the paper over this already folded top end and last of all turn up the piece of paper that remains.

• • • • • • •

If all turnings have been square and flat this last fold will be an even triangle. After each end is so folded, the parcel has to be fastened.

• • • • • • •

Now that glue paper strips are available, many parcels are fastened by moistening this glue with water and pressing the strip down over the edges of the paper Cut strips off evenly in correct lengths first.

• • • • • • •

In tying the parcel with string, make a knot in one end of the twine and slip the other end through the loop. Draw the string taut and secure it with a knot. Bring the loose end of the string around the bundle the other way, making a turning at right angles with the tied portion.

• • • • • • •

Draw this taut and tie around the string where it crosses under the parcel. Bring to the top, draw taut and fasten with knots about the string at the first knot.

That Body of Yours

By James W. Barton, M.D.

ARE OUR MEDICAL DISCOVERIES REALLY NEW

I am wondering if some of my readers are thinking, as I am, of some of the newer discoveries in medicine, and how some of the "medicine men" of ignorant native tribesmen apparently knew something about these things hundreds and thousands of years ago

You will remember that some of their medicines were potions or soups made up of one or more of the different organs and glands of the body.

What do we find today?

That pernicious anaemia always a fatal disease, is now cured by the actual eating of liver or soups or extracts made from liver. To this discovery of Drs. Minot and Murphy has come the knowledge that the lining of a hog's stomach can be used for the same purpose—blood making—with excellent results.

It was also found that the thyroid gland in the neck manufactured a juice that made the processes of the body work faster thus accounting for the fact that in those individuals in whom this juice was too active, their hearts beat rapidly, and the foodstuffs were burned up so quickly, that there was little or no fat left in the body, they became very thin "skinny" in fact. In those individuals where the juice was not active enough, the fact was not burned up rapidly and overweight was the result. Thus extract of thyroid gland is now used safely in this type of overweight.

Then Banting discovered that a juice, insulin from the pancreas, (one of the abdominal organs that makes the important digestive juice) regulated the use of sugar in the blood, and that if it were not manufactured in sufficient quantities, sugar was lost to the system and was thrown out of the body in the urine. By supplying insulin, secured from animals, to individuals whose pancreas did not manufacture enough of it, that terrible scourge of man, diabetes, can be cured.

And now, Prof. Frey, Berlin, has discovered another juice in the pancreas which has the power to dilate or open blood vessels more widely, which has been found of great benefit in some cases of high blood pressure. Dilating or opening of the vessels naturally lowers the pressure.

I wonder how much the old Indian or native medicine man really did know.

OBITUARY

MRS. WILFRED JONES.

Mrs. Wilfred Jones passed away at her home on 2 Gordon avenue at 1.30 this morning after a lingering illness. The late Mrs. Jones (nee Elsie Agnes Hawthorne) was born in Kidderminster, England, in August, 1889, the daughter of the late Mr. and Mrs. Thomas Hawthorne. Mrs. Jones came to Peterborough from England 24 years ago, and has resided here ever since. The deceased was a member of St. George's Anglican church, and of the Confederation Home and School Association.

She is survived by her husband, three sons, Eric, Richard and Wilfred, and two daughters, Hazel and Elsie, all of this city.

A private service will be held from the family residence at 1.30 p.m. Saturday to St. George's church at 2 o'clock. The rector, Rev. J. L. Hughes, will officiate, and interment will be made in Little Lake cemetery.

A French air service in South America covers 6,917 miles.

FASHION SERVICE

Every smart woman knows that the printed crepe silk frock is indispensible in daytime wardrobe.

And this one is outstandingly chic and extremely wearable for street or afternoons.

And it's cut on slenderizing lines, too, with its draped cowl bodice in plain blending crepe. The modish flounces of the sleeves repeat the plain crepe as does the tiny vest.

The curved seaming of the hipline is length giving.

Style No. 2997 may be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

Plain crepe silk and crepy woolens are smart for this becoming model.

AGRICULTURE PLAYS BIG PART IN THE PROPOSED LEGISLATION

(Continued from Page One)

special surveys of crop conditions and marketing opportunities, improvement of dairy herds and protection of livestock against parasites.

Training Schools for Girls

Further steps to put in effect the recommendations of the Public Welfare Commission are indicated, in particular the establishment of a training school for girls.

The work of the Hydro calls forth the comment that "growing demands for electrical power have been met through the completion of the Queenston Development and the works on the Nipigon River, and power being generated by commercial developments has been reserved as a further safeguard against probable shortage in the future."

Included in the social legislation to be presented to the House will be a bill to revise and consolidate the laws relating to hospitals. Steps to bring blind persons within the scope of the Workmen's Compensation Act will also be proposed.

The following is the text of the Speech from the Throne:

Mr. Speaker and Gentlemen of the Assembly.

"It is my privilege today to welcome you to the second session of the Eighteenth Legislature of this Province.

Our earnest thanks are due to Almightly God for the bountiful harvests, and all blessings we have enjoyed during the past year.

The loss sustained by our gracious sovereign through the death of his sister, the Princess Royal, the Duchess of Fife, elicited expressions of sympathy on behalf of the Government and the people of Ontario.

Tribute to Earl of Willingdon

In all parts of Canada regret was felt at the departure of the Earl of Willingdon to assume the responsible duties of Viceroy of India. While occupying the high office of Governor-General, Lord Willingdon, along with Lady Willingdon, enlisted warm personal friendships and cordial appreciation everywhere. A hearty welcome awaits the Earl of Bessborough as the representative of His Majesty, the King, in this country.

Ontario has been honoured by the selection of its former Prime Minister for the important post of High Commissioner for Canada, in Great Britain. You will therefore miss a familiar and distinguished figure from these legislature halls, and both the Hon. Mr. Ferguson and Mrs. Ferguson will carry with them to their new sphere, the good wishes of Canadians in every walk of life.

Special interest attached to the deliberations of the recent Imperial Conference touching the commercial relations of the various portions of the Empire. The adjournment of the Conference to meet again in Canada is a significant recognition of our position in the British world. Certain constitutional questions which arose at the gathering will be submitted to an early conference of the Dominion and Provincial Governments.

Relief Situation.

During the past year difficult economic problems have arisen throughout the world, causing a slowing up of industry, from which Ontario has not escaped, but this has not affected the confidence nor the industry and enterprise of our people. The shortage of employment called for practical and generous measures on the part of public bodies and citizens generally. The co-operation of the Federal and Provincial Governments with the municipalities contributed materially towards relieving the situation.

"Plans for further assistance to agriculture, now being matured, will engage your attention. These plans involve special surveys of local crop conditions and marketing opportunities, the improvement of herds in regard to milk production and more effective means of protecting live stock against the ravages of parasites. The application of electrical power to agricultural operations is meeting with every encouraging results.

"The report of the Public Welfare Commission has led to the creation of the Department of Public Welfare. Consideration is being given to various recommendations calling for remedial action. One of the early activities of the new department will be the establishment of a training school for girls.

"Departmental changes have vested the control and administration of the various hospital services in the Minister of Health, which is an appropriate arrangement.

Will Improve Jails.

"Efforts are being made to improve conditions in the various gaols and to segregate first offenders from habitual criminals. An extensive program of repair and reconstruction has been applied to the public institutions in order to remedy existing defects, and to afford employment for labor.

"Growing demands for electrical power have been met by the Hydro-Electric Power Commission through the completion of the Queenstown development and the works on the Nipigon River. A further supply of power is assured by the utilization of the Ottawa River and other developments in contemplation. Power being generated by commercial developments has been reserved as a further safeguard against probable shortage in the future.

"From various branches of the educational system encouraging reports indicate the increased advantages being received from the substantial public expenditures being required for these purposes. The renewal of the Federal grants for technical and vocational education will impart a new impetus to this improtant feature of our educational activities.

"With the progress of cancer research and the realization of the value of radium in the treatment of this disease, the Government is considering plans for rendering this curative agency more generally available.

"Mineral production maintained its relatively important position during the past year. The output of base metals was curtailed by the fall in price, but this loss was mainly compensated for by the increased production of gold. It is of interest to observe that Ontario's contribution has raised Canada to the second position among the gold-producing countries of the world.

"By setting apart sanctuaries for game and stations for the rearing of fish, as well as by establishing the new bird farm, the Department of Game and Fisheries has opened up wider avenues of usefulness. Further progress may be expected from the contemplated investigation of the wild life of the province.

Notable Milestone

"The extension of the Temiskaming and Northern Ontario Railway will reach tidal waters during the current year. This will be a notable milestone in Ontario's progress.

"Last summer the new Ontario Building in London was completed and formally opened for business. The structure reflects credit on this Province, being composed of our native materials, and affording accommodation for a more effective display of the products of Ontario.

"An enquiry has been instituted into the operations of the Workmen's Compensation law with the view to eliciting information leading to possible improvements in the act.

"Increased activity marked the operations of the Northern Development Department during the past year, this work, while conferring immediate benefit on local communities, is rendering available the vast stores of natural wealth of the north which are potential sources of prosperity to our country.

"Highway construction was carried forward energetically during the past season in various parts of the province. The assumption by the Department of some three hundred miles of local roads, and the increased subsidies for township roads, have added to the demands upon the treasury but constitute a proportionate relief to the municipalities. Helpful results are indicated by the operation of the financial responsibility law which came into effect last September.

"Owing to the growth of Provincial business and the new services undertaken increased accommodation is required for the various departments. The extension of the east block of the Parliament Buildings which has been in contemplation was therefore commenced and afforded a timely opportunity for the employment of labour.

Final Auto Insurance Report.

"The second and final report of the commissioner appointed to investigate automobile insurance rates has been presented and will be submitted to you. Meanwhile the findings and recommendations are receiving the consideration of the government."

"Legislation will be introduced respecting the Department of Public Welfare, confirming municipal expenditure to relieve unemployment, respecting the establishment of health units, to amend the Judicature Act concerning the constitution of the Supreme Court of Ontario, for the better marketing of agricultural products, regarding compensation to blind persons engaged in industrial occupations, respecting trades disputes, to revise and consolidate the laws concerning hospitals, to promote uniformity of legislation respecting the assignment of book debts and for other purposes.

"The public accounts have been prepared and will be submitted to you at an early date. The ordinary revenues and expenditures have come reasonably close to balancing each other, and the financial credit of the Province has been maintained at a high standard. Estimates of the proposed expenditures for the current and fiscal years will be brought down in due course.

"In conclusion, I command to your earnest consideration, the sessional business, and I trust that under divine guidance your labors will advance the welfare of our people."

The standing of the parties in the House was not affected by the two by-elections yesterday in Hamilton West and Grenville, both seats remaining in the Conservative column. For the present session the parties are aligned as follows: Conservatives 89, Independent Conservatives 2, Liberals 14, Progressives 5, United Farmers 1 Argue Martin and James A. Sanderson, the two members elected yesterday, are unable to take their seats in the House for about ten days, but other new members, elected in earlier by-elections, C E. Richardson, Cons., Perth South; E. R. Stedman, Cons., Lanark; Norman O. Hipel, Liberal, Waterloo South; and C. R. Harrison, Cons, Nipissing, were introduced.

As Mitchell F. Hepburn, newly elected Liberal Leader, has no seat in the House, W. E. N. Sinclair, former Leader, is carrying on as chief of the party in the House. H C. Nixon, heads the Progressives. New Cabinet Ministers since the last session are: Hon. T. L. Kennedy, Minister of Agriculture; Hon. J. M. Robb, Minister of Health; Hon Leopold Macaulay, Provincial Secretary; Hon. W. G. Martin, Minister of Public Welfare; Hon. Paul Poisson and Hon. H. C. Scholfield, ministers without portfolio.

The Royal Brothers In Jamaica

The photograph above shows the Prince of Wales (seated right), and his brother, Prince George (also seated), as they appeared at Kingston, Jamaica, golf course, where they stopped off on their cruise south to the Argentine for the trade exposition. A round of golf came as a pleasant relaxation to the royal brothers after their long sea voyage.

THE POPE'S ADDRESS

ROME, Feb. 12 (C.P.).—The text of the Pope's address at the Pontifical Academy of Science, translated from Italian into English, follows:

"We say most willingly that our acceptance of the radio station is most dear to us, but still more dear is the gift and the sentiment of Senator Marconi.

"We offer thanks to God and thanks to man for this great new invention. Thanks to God for His manifestations, so genuine and so accurate of His divine goodness. We give thanks to God for this great invention which brings us so close to Him.

"A few days ago we inaugurated the power station, perhaps one of the most modern of its kind in Italy and one of the most perfect in existence.

"To-day we have attained the apex of modern invention in the new radio apparatus—the last word in technicalities and science.

"Senator Marconi had promised us one of the most modern of inventions. This promise he has fulfilled so magnificently that we may ask what yet remains to constitute the latest development in radio.

"No one will think we are far from the Primate of Peter in adopting this new invention. Let it be known that we have adopted it in the true sense of Peter propagating the Church.

"The radio is the offspring of ultra modern science. It serves the glory of God and the efficacy of spreading salvation into all souls.

"In this great privilege we shall rejoice continually. The realization of this dream is a recompense for the work that was needed to build this station.

"We have heard expressed the sentiments of Senator Marconi and of Father Gianfrancheschi in dedication of the new Pontifical Academy of Science.

"Finally we give thanks again to God, but not only to God but to men as well. We thank you, Senator Marconi, and all those who have co-operated with you so intelligently, faithfully and devotedly in making possible this great work.

"To make your expressions of gratitude more real we now give the apostolic blessing to all of these."

New Brunswick Opens Its 17th Assembly

FREDERICTON, N.B., Feb. 12. — (CP)—The benefits that will accrue from the electrical development in the Minto, N.B., coal field were outlined in the speech from the throne delivered by Major-General the Hon. Hugh McLean, Lieutenant-Governor of New Brunswick, in opening the first session of the seventeenth Legislative Assembly of the Province since Confederation. The development would have two-fold results in that several counties would receive their power supply from that source and at the same time considerable impetus would be given the coal mining industry in Queen's and Sunbury counties, he declared.

Confidence was expressed by the Lieutenant-Governor that there would be an early return of more favorable conomic conditions.

Rescue Of The Last Of The 25 Stranded Fishermen

Seven coastguardsmen and three fishermen, comprising the last of a group of twenty-five stranded on a floating piece of ice on Lake Erie off Pinehurst, N.Y., were rescued by the coastguards, who trudged six miles across on ice shelf. Photographs above show top group of Erie fishermen after rescue from the ice floe. Bottom, fishermen on their way back to shore after they had been ferried to the main pack ice by coastguards.—Copyright by Acme News-pictures.

SINGER QUERIES LONDON PLUMBER

Russel Wright Gives Information as to Standing of Local Guild.

NO ST. THOMAS MEMBERS.

LONDON, Ont., Feb. 12 (CP)—The preliminary hearing was resumed today of Louis M. Singer, K.C., William O'Connor, K.C., and Roy E. Belyea and Harry Weinraub, all of Toronto, charged following Combines Investigation Act investigation with conspiracy to limit facilities for the supply of certain commodities.

Mr. Singer, commissioner of the Amalgamated Builders' Council, began cross-examination of Russell Wright, a London plumber, who had been examined by J. C. McRuer, K.C., and E. G. Slaught, K.C., Crown counsel.

"Why did you call it the local guild"? Mr. Singer asked.

"I don't know, unless it was an idea thrown out by Mr. Belyea at the meeting before, Mr. Wright replied.

Mr. Wright said the local guild had no authority. Mr. Singer had written telling the organization it had no authority to call itself a local guild until it should have a Provincial charter.

"I think we got authority later on to call ourselves the local chapter of the Canadian Plumbing and Heating Guild," said Mr. Wright, but admitted he had received no authority to sign cheques or make contracts in the name of the Canadian Plumbing and Heating Guild.

"Were you secretary treasurer of the London chapter of plumbing and heating contractors?" "Yes."

"Were any St. Thomas men members of the chapter?" "No".

"Prior to the organization of your local organization they got notices to come down?" "Yes."

This organization had no rules; the executive was elected by the members, Mr. Wright said. No defendants in this action had any control over the chapter. The accused were not even consulted as to fees.

One of the two members had become a member of the A.B.C. The other had retired. Mr. Wright said that none of the accused had had anything to do with the retirement.

Toronto Optometrists Offer $20 Spectacles For $2.98

Send Them on 10 Days' Trial

Toronto, Ont.—The Dr. Ritholz Optical Company have devised a new comfort spectacle that will not break or tarnish and leaves no mark on the nose or face. These spectacles are really beautiful, give wearer a distinguished appearance and will enable anyone to read the finest print, see far or near. The Doctor offers to send a pair on 10 days' trial to any reader of this paper with the understanding that if they are not amazed and delighted and do not think the spectacles he offers at $2.98 equal to those sold elsewhere at $20, they will be out nothing. Just send name, address, and age to-day to the Dr. Ritholz Optical Co., Suite N-251, 29 Melinda St., Toronto, Ont., for a 10-day trial and learn how you may get them without cost, also new catalogue free.—(Adv.).

Charts Are Used In Dairy Cattle Feeding

Several large and valuable charts have been received by the local Department of Agriculture, showing Dairy Cattle Rations, as approved by the Ontario Feed Committee. These are issued with a view to aiding the producing cow by a better balanced system of rations.

Freed mixtures are given for various local conditions: for where roots and silage are available; for where they are not procurable; and a list of substitutes. The rations charts are based not only upon the milk producing value of the rations, but also on the present prices of grain.

These charts are at present used in a large number of the dairy barns in Ontario. They are being offered to the farmers of this district free of charge, upon applying to the local Agricultural office.

With such a chart, posted in a prominent place in his barn, the farmer ought to benefit greatly from its use, both in the matter of bettering his stock and of increasing his financial returns.

Norwood Combines Take 3-2 Decision From Tool Makers

REBUILT COMBINES ARE WINNERS IN CLOSE-CHECKING E.P.L. DUEL FEW PENALTIES ARE METED OUT

Sterling Defence Work By Both Teams Keeps the Score Down.

VISITORS STAR.

Passing of Hatton, Creighton and Epps Hindered By Norwood Checking.

The Norwood-Havelock intermediate entry in the East Peterborough Hockey League clearly demonstrated to the hockey public at the Brock street arena last night that they were the surprise team in the circuit, by trouncing the well-balanced C.G.E. Tool Room outfit 3-2 in a close checking duel that was noticeable for its lack of penalties.

The Combines iced a rebuilt aggregation, playing Ware on right wing and the junior defence, Shannon and McLaughlin, while Wright held down the centre position.

Sterling defence work by both teams kept the score down and even with this two of the counters were of the freak variety. Hatton bagged the first soft tally when he snared Ware's pass, which came from behind the Norwood net and backhanded a slow shot past Beavis from well out. Wright kept the books even by scoring on a lone rush, netting the puck just as he fell, while several of the Tool Room players were assisting Brennan, who had bumped his head on the boards.

The Norwood defence pair stood out as the stars of the game, although every player on the winning team figured prominently in the victory. The second string forward line, composed of Jacks, Stevenson and Rogers were noticeable for their tenacious checking.

Lackey, Creighton and Harold Epps were the pick of the locals, who were handicapped in their usual neat passing game by the close checking in centre by the opposing forwards. Red Hollingsworth between the posts for the Tool Makers smothered more than one shot that looked like a sure thing while his opponent, Beavis, had one of his most active workouts, stopping almost twice as many shots although most of them were from well out.

Shannon Opens Scoring.

Ware brought the first gasp from the audience when he burned a low shot at Hollingsworth which glanced off the latter's pads, hit the post and rebounded out. Play ranged rapidly from end to end until the middle of the period when the Tool Room forwards effectively bottled up the Combines inside their own blue line at the same time harassing Beavis with dead on shots which he repeatedly blocked. Shannon, after several imposing rushes finally netted the first counted of the game, when he broke fast with Stevenson and after faking a pass at the defence, drilled a shot at Hollingsworth which nicked the open side of the net. The Mechanics speeded up for the remainder of this session and had the edge on the play for the greater part of the time. Two minutes before the period bell Hatton took Ware's pass from behind the Norwood net and scored.

Second Period Fast.

The second stanza started at a torrid clip with both teams dishing out some rather stiff body checks, one of which piled Brennan, Norwood wing man into the boards where he stayed for some moments. Several Tool Room players went to his assistance but play continued with Wright making a solo rush, which resulted in a goal. McLaughlin missed a wonderful chance shortly after this when he worked his way right through only to miss the net. Micky William, Lackey and R. Epps were rather prominent at this stage of the battle when they carried the fight to the visitors and only sterling net minding kept them off the score sheet. Creighton evened the score after a concerted rush with Hatton and Lackey, the latter giving the pass when well inside the blue line.

Final Period.

The final lap of the contest failed to uncover much organized hockey but the Combines cinched the argument, when the period was only three minutes old, when Shannon engineered an attack which carried him into the Toolmaker's territory, where he slipped the puck over to Ware, who scored on a bullet-like drive. Lackey came back strong on one of his characteristic solo trips which landed him at the mouth of the visitors' net, only to be thwarted by the spectacular work of Beavis. Wright's poke checking at centre ice played havoc with a great many of the Mechanics' attacks and in this session he was very dangerous on the attack. Swanger on the Tool Room defence tried hard to use his weight to advantage but found most of his opponents rather elusive. From the middle of this period to the end of the game the play was very ragged with the Diemakers throwing four men on the attack. To ease the pressure the Combines shot the puck the length of the ice several times but the locals swarmed around the visitors' citadel in a vicious series of attacks which Beavis weathered. One minute before the final bell Brennan drew the only penalty of the game, which incidentally was his only penalty so far this season.

The teams:

Norwood-Havelock—Goal, Beavis; defence, Shannon and McLaughlin; centre, Wright; wings, Ware and Brennan; alternates, King, Stevenson, Jacks and Rogers.

C.G.E. Tool Room—Goal, Hollingsworth; defence, Swanger and Lackey; centre, H. Epps; wings, Hatton and Creighton; alternates, Palmer, Ray Epps, Williams.

Referee—Ray Rose.

TERRIERS BACK IN 1ST PLACE

Western Ontario Teams Dominate Spotlight in Last Night's O.H.L.

NATIONALS ARE THIRD.

TORONTO, Ont., Feb. 12 (CP)—Western Ontario teams dominated the spotlight in last night's Ontario Hockey League matches.

Three games were played and the results hoisted Galt Terrier's back to the driver's seat, placed Stratford Nationals in third place and created a deadlock between Kitchener and Guelph for fourth position.

The Terriers clashed with the erstwhile leaders, Niagara Falls Cataracts in the Border City and a splurge of scoring in the final frame enabled them to merge with a 5 to 3 victory. The home club was leading by the odd goal in three at the conclusion of the first frame but the Terriers knotted the count in the second session and then won decisively as the result of a spectacular bit of marksmanship on the part of Sellars, who netted three times in the closing frame.

Nationals playing at home, defeated Guelph Maple Leafs, 5 to 2, in a closely contested fixture, while Kitchener nosed out the the tail-end Oshawa Pats, 4 to 3, at Oshawa by a three goal rally in the final period.

ROSS ROBINSON LEADS SKATERS

Amasses Total of 50 Points in Race for North American Championship.

SINGLE SENIOR EVENT.

SARANAC LAKE, N.Y., Feb. 12.—(C.P.)— Ross Robinson of Toronto, holder of the Canadian national title, appeared well on his way toward victory in the North American amateur speed skating championship today as the competitors moved on from Saranac Lake to Lake Placid for the last two days of competition.

Winning the five mile race in 14.31, close to record time, Robinson increased his total to 50 points for two days of skating. Ray Murray, of New York, who did not place in yesterday's only senior championship event, was second with 40. O'Neill Farrell of Chicago finished third in the five mile to get third place in the totals with 30 points.

Younger skaters outstrone the seniors yesterday, with two new records to their credit. Orel Duffy, juvenile competitor from Toronto, made his second world mark in two days by skating 220 yards in 22 1-5 seconds. Eddie Stundle, of Chicago, leader of the intermediate division, set a new world's record of 1.20 3-5 for the intermediate half mile.

THE RING.

PARIS.—Panama Al Brown, New York, outpointed Nick Bensa, France (10).

SAN FRANCISCO. — Kid Capley, San Rafael, Cal., outpointed Bobby Vincent, Ardmore, Okla. (10).

Lakefield Suffers first E. P. L. Defeat

Being Prexy of five thousand care stars isn't an afternoon tea party for anybody, yet that's the unfortunate or fortunate position of Dalton Mr. Fisher of St. Catharines, Ont. Of course when a man has as much as thirteen years of active participation in basketball to his credit then we are under the impression that he knows all the rules even the ones you can't find in the rule book. Mr. Fisher started his basketball experience in 1918 when he wore the red and grey colors of the "Y" in junior, intermediate and senior company. In 1924 he was forced to give up the game after having had his knee broken. His interest in the game still remained and from that time on he has coached the St. Kitt's Grads, a club that has made a rep that is known by basketball fans from coast to coast. He joined the O.A.B.A. executive in 1924 and two years later we find him forging ahead into the vice-president's chair. Not being satisfied with this he moved up into the president's chair in 1928 where he has been guiding the game that has been going to the front as a winter sport.

ODDS FAVOR FALCONS TO WIN FROM RANGERS AGAIN TO-NIGHT

Battle For Third Place in United States Section of N.H.L. Renewed.

HAWKS AT OTTAWA.

TORONTO, Ont., Feb. 12 (By George Maguire, Canadian Press Sports Writer).—Resumption of the battle between New York Rangers and Detroit Falcons for third place in the United States section provides the highlight of to-night's National Hockey League schedule of two matches.

Rangers hold the third rung at present by a margin of one point, but past performances favor the Motor City hockeyists to regain the coveted play-off berth. The teams have met in five previous intra-group matches during the current schedule and by a peculiar coincidence the victor on each occasion registered a shut-out. The Falcons won the first two tussles by counts of 1 to 0 and 3 to 0. Rangers then reversed the procedure by taking the next two by identical scores. The Motor Magnates won the odd game by a 1 to 0 count and as they are at home to their blue-shirted opponents should give the rabid Detroit fans a thrill by winning the sixth encounter.

The clever Chicago Blackhawks visit Ottawa Senators in the other tilt and appear too formidable for the luckless Ottawans. Holders of second place in the southern division, the Hawks will be battling hard for the valuable two points, for should Rangers blast the Falcons, the New Yorkers will be only three points behind.

In their two previous clashes the Chicagoans won but only after sixty minutes of tightly contested hockey. The score in the first tilt was 3 to 0 and in the second 4 to 2.

Two Olympics Are Shifted To Falcons

DETROIT, Feb. 12 (C.P.)—Leroy Goldsworthy and Johnny Newman of the Olympics, Detroit's International Hockey League team, reported for practice yesterday to the Falcons, the city's entry in the National League.

With the Olympics practically out of the running in the International race as a result of last night's defeat by Buffalo, the Falcons helped themselves in an effort to reach the major League playoff. Goldsworthy is a right wing and Newman a center. Both may be used to-night against the Rangers.

To-night's Schedule.

(By The Canadian Press)

National League

Chicago at Ottawa.
New York Rangers at Detroit.

International League

Pittsburgh at London.

Pacific Coast League

Seattle at Portland.

American League

St. Louis at Buffalo.
Duluth at Kansas City.

BIG CROWD OUT FOR TO-NIGHT'S JUNIOR BATTLE

St. John's Meet Lindsay Midgets in Second Game of Group Finals.

VISITORS HOLD LEAD.

Saints Favored to Win on the Larger Ice Surface—To-night's Line-ups.

With many Lindsay fans coming down for the battle and Peterborough enthusiasts preparing to attend in hundreds, it looks as if the season's attendance record will be left far behind when Lindsay Midgets and the St. John's teams meet to-night at Brock Street Rink in the second game of the group finals.

Lindsay starting with a lead of three goals are supremely confident that their margin will carry them through. The Saints, on the other hand, pointing to the fact that they outscored the Midgets in the latter stages of Tuesday's game, predict that on the bigger ice surface they will pull the round out of the fire. At all events it will not be for lack of trying and if the red team puts on one of its sustained offensives they will be hard to head off.

Here are the line-ups for the big game, with the numbers of the players. Fans may find this information of use to-night:—

Lindsay.		St. John's
Stephens	goal	Miller
Begley (2)	defence	Ellis (3)
Pogue (8)	defence	Howe (2)
Mills (7)	centre	Calladine (10)
Spratt (4)	r. wing	Gardner (6)
Gerster (5)	l. wing	Cuthbertson (13)
Parsons (9)	sub.	Merrett (8)
Campbell (6)	sub.	Milliken (9)
Bergenaw (3)	sub.	Wilshaw (12)

Referee—A. W. Armstrong, Oshawa.

TWO TEAMS IN TIE FOR WESTERN LEAD

Native Sons Defeat Winnipeg Last Night 4 to 2—Elmwood Plays Monday.

WINNIPEG, Man., Feb. 12 (C.P.)—A new shuffle in the Winnipeg Senior Hockey League leaves Elmwood Millionaires, 1930 Manitoba champs, tied at the top with Native Sons. Sons last night defeated Winnipegs, 4 to 2.

Winnipegs and Elmwood meet next Monday in the season's final game, and a win for the 'Pegs will mean a three-cornered tie in the three-team league.

LAKEFIELD DROPS 3-1 DECISION TO COGS CLUBMEN

Winners Score Two in Second and One in Third to Come Away With Victory.

PAYNE GOOD IN NET.

Visitors Play Poor Game in Spots, Seem to Lack Pep of Other Battles.

Lakefield met with their first defeat at Brock street last night when they dropped the second game of the double bill to the Cognawagas by 3-1.

The Cementville team led at the first sweeping by 1-0, but the Cogs grabbed the lead from them in the second with two goals, one of them a fluke that was deflected into the net off a Lakefield skate. Only Payne's smart work in the Cog net kept the visitors off the score sheet in the third period especially when he robbed Stabler of a goal on two successive shots toward the end of the session. And just to finish off their margin, and nail it down tight, Bernie Jones made it three for the Blue Shirts on a pass from Jarvis, a few minutes before the final bell.

Lakefield's performance was spotty, and was due in part, at least, to the indisposition of Johnnie Sabatino, who took the sub role for the first time this season, and also to Braden Blewett's heavy cold that required a couple of mustard plasters under his shirt. Moose Murduff, however, did not offer any alibis, and if the breaks went against them on Stabler's one-two attempt, the Cogs bumped into some neat goal guarding by Junkin.

The winners showed more consistent passing, and both their front lines kept up the pressure throughout the whole piece. Maudsley, Jones and Cripps teamed up smoothly, and there was no letting down in the pace when Jarvis, Wilson and Rooke were on the ice. Pat Calladine retired at the end of the first period with a broken skate. The Blue front line were backed up by the strong defensive play of Ted Lebarr and Eddie Williams, both of whom contributed numerous rushes with Lebarr assuming the larger share.

Louie Sabatino and Stabler stood out in the Lakefield attack with Tom Wood assuming a little more than his usual burden of the rear guard action. He was also frequently up with the forwards. Stuffy Mahood rang up his customary goal. White uncorked plenty of speed, and Wingett of the Lakefield juniors made a favorable impression as a substitute. Babe Wannamaker held up his wing while he was on. In White and Louie Sabatino the team from Charlie Tanner's town have a fast and shifty pair that give the impression they would look good together on the forward line. If last night's game is a sample of what the Lakefield team can do, they will have their hands full trying to hold the position which they attained in the first half of the schedule.

The teams were:

Lakefield—Goal, Junkin; defence, White and Wood; centre, L. Sabatino; right wing, Blewett; left wing, Stabler; subs, Wannamaker, J. Sabatino and Mahood.

Cogs—Goal, Payne; defence, Lebarr and Williams; centre, Maudsley; right wing, Jones; left wing, Cripps; subs, Jarvis, Wilson, Rooke and Calladine.

Referee—Orville Kennealy.

First Period.

Lakefield—Mahood (White), 17.00 mins.

Second Period.

Cogs—Maudsley, 4 mins., 40 secs.
Cogs—Cripps, 3 mins.

Third Period.

Cogs—Jones (Jarvis), 17 mins.

The First Period.

Blewett's shot was the first of the engagement, and it was easy for Payne. Stabler broke up Maudsley's rush close to the Lakefield goal, and the Cogs threatened again, buzzing around Junkin in a scramble that Wood squelched by shouldering Wilson out of the danger zone. Jarvis got in fairly close, and his shot was on the net, but Junkin tossed it out. Jarvis missed a likely chance on a pass from Calladine. At the other end, Wood's effort was blocked by Payne, and Ted Lebarr rushed along the boards on a lone hunt. Junkin handled his shot and also a rebound, and White broke through the Cogs without effect. Lakefield scored the only goal of the period on White's pass from behind the Cogs' goal line out to Mahood, who once more turned his familiar trick of relaying the rubber against the hemp.

Maudsley put the Cogs on even terms early in the second period by breezing along the west boards, eluding the defence and sailing toward the goal. He lifted the puck into the corner of the net with plenty of time to shoot.

Play shuttled back and forth for about fifteen minutes without any distinct advantage either way, and then came the rather flukey counter that puts Cogs ahead. Fred Cripps grabbed the puck behind the Lakefield goal line and in passing it out in front the rubber hit a Lakefield skate and was sidetracked into the net. Junkin hadn't a chance on that caroom.

Third Period.

In the third period Jarvis bumped a hot one off Junkin's pads Woods stopped Cripps with a timely body-check. Rooke carried the play back to Lakefield, and Junkin handled the shot neatly. Jones and Rooke sifted through the Lakefield defence together, and Lebarr pressed the Cogs' attack with a great dish that swung him into close range, but Junkin saved. A Lakefield attack with Stabler on the firing end of it was a feature of the session, and Payne went down on his tummy to stop two shots in a row from Stabler's stick.

A Jarvis to Jones combination gave the Cogs a two-goal margin. Jones getting the goal on a neat play that earned it. Those were the high lights of the game and the Cogs' win served notice that they are in the hunt for the play-offs.

Race Tightens Up.

Norwood with two victories in a row are leading the race in the second half of the schedule and if Alex Kempt can persuade his gang of the benefits of at least occasional combination, if the soloists must do their stunts, they should be a good bet in any of the remaining games. Their team right out has the balance the management has been hoping for, and if their methods can be smoothed out a little more they will take a lot of beating.

Canadian Cyclists In Eighth Position

CHICAGO, Feb. 12 (C.P.)—William "Torchy" Peden and Lew Elder, the Toronto boy, and Canadian team, were in eighth place in Chicago's 25th international six-day bicycle race as the grind entered the fourth day. The lead in the race was held by three teams. The pairs tied were Pietro Linari and Gaetano Belloni, Alef. Letourner and Marcel Guimbretiere and Emil Richili and Bill Grimm. Peden and Elder were four laps behind the leaders.

HIGH PARK CURLERS WIN DISTRICT CUP

Defeat Barrie in Final For Governor-General's Trophy By Seven Shots.

TORONTO, February 12. — Disposing of Kitchener, last year's winners, in the semi-finals, the Toronto High Park rinks went on to beat Barrie in the final for the Governor-General's Cup in the district curling competition at the Toronto Victoria Club yesterday afternoon.

In each match the total score of High Park was 33, Kitchener being nosed out by 2 shots when the opposing clubs divided two one-sided games. IIn the final match the local curlers obtained an early lead on Barrie, and maintained it throughout, winning both games to get a total margin of 7 shots. The game between the High Park rink skipped by E. P. MacInnes and the Barrie rink skipped by G. Hubbard produced some large ends, and wound up with High Park on top, 19 to 18.

Rinks and scores were:

LOCAL CURLERS IN SEMI-FINALS OF CONSOLATION

Hamilton Victorias, Kitchener and Peterborough Left in Mail and Empire Event.

PLAY-OFF THIS MORNING.

Winners of First Match Will Meet Dutchmen For the Trophy.

TORONTO, Feb. 12.—The Mail and Empire event simmered down to the semi-finals as a result of yesterday's play. Hamilton Victorias, Peterborough and Kitchener remain in the running. The first-named two will meet this morning, the winners to play Kitchener in the final in the afternoon. In yesterday's games, Brockville, Scarboro', Colborne, Bobcaygeon and Waubaushene were eliminated.

Kitchener's majority, 13 shots.

Two Group League Is Formed In Millbrook

MILLBROOK, Feb. 12 (Examiner Correspondence) — The boys of the community, senior and junior, have been organized into a Town Hockey League; with four teams rejoicing in the euphonious names of Rink Rats, Millionaires, Maroons and Maple Leafs. Monday and Thursday evenings are the nights for play on the Cosmos rink.

A double-header game on Monday night brought out a good crowd of spectators, and exhibited some good fast hockey, the Maple Leafs and the Rink Rats holding each other down to a tie score of 4-4; while the Maroons and Millionaires battled through to a finish with a score of 5-2, in favor of the latter. Art Jeffrey, who distinguished himself with some fine defence work on his own team, refereed the first game, and S. Cawker the second. The next tussle will be on Thursday evening, when the somewhat varying personnel of the teams will probably be available.

COP JUNIOR HONORS

REGINA, Sask., Feb. 12 (C.P.) — Regina Pats, Memorial Cup holders, completed their season's campaign in this city last night without a defeat by taking the measure of Canucks 6 to 1, and thereby cinching the junior hockey championship of the city.

CANUCKS LOSE SECOND GAME THIS SEASON

Tranter Scores Two Counters For Winners—Tounch-and-go Affair.

PLENTY OF ACTION.

Electrics Put Up Stiff Fight Against Corsairs But Lose Out 3-1.

Action in generous portions was on display at the Sacred Heart rink last night when the four junior teams in the South End City League strutted their stuff in a snappy double-header. Fast ice and speedy hockey kept a fair crowd of fans on their toes through both games. To-night's contests wind up the schedule for the juniors.

The first battle was something of an upset; Stars shutting out Canucks 2 to 0. This is only the second game dropped by the latter this season. It was a close game, and with both outfits travelling at a good clip, it was touch-and-go right to the end. The winners had the edge in the first period. Tranter scoring in the first two minutes. A little later the same player took a pass from Pierson to make it two. The second frame was tight and somewhat rough, the boys bodying hard and tripping often. Neither crew could work in close enough to score. Canucks sent four men up in the final chapter, but were checked constantly and there was no further countering. Two minutes to the end, the losers' goalie went off for chopping.

Canucks: Goal, Collins; right defense, Lasure; left defense, Martin; centre, Post; right wing, O'Toole; left wing, LeSurf; alternates, J. Collins, Hatton and O'Brien.

Stars.—Goal, B. Pierson; right defense, Hope; left defense, Mowry; centre, Tranter ;right wing, R. Pierson; left wing, McWilliams; alternates, Frost, Parnell, Padgett and Fisher.

Referee—C. Raney.

Lost Out 3—1

Pirates forced Electrics to walk the plank 3—1 in the other half of the double-header. The losers, playing without alternates, put up a stiff fight against the faster Corsairs. The winners started strong, going through often on combination rushes and shooting hard. They got one when Rogers took a pass close in and netted the rubber. Gray evened it up for Electrics before the end of the frame. The first half of the second was even, but toward the end, the Bucs got going and notched another, Bailey scoring. The "Moose" picked the corner for another one in the third, and so it ended. The fast-breaking forwards of the Pirates went great throughout, and Bailey was dangerous on his lone rushes. Master's went nice for the Electrics.

Electrics.—Goal, Clark; right defense, Jones; left defense, Wiley; centre, Masters; right wing, Payne; left wing, Gray; no alternates.

Pirates.—Goal, Babbs; right defense, B. Bailey; left defense, Beatty; centre, Ellison; right wing, Rogers; left wing, Watman; alternates, J. Bailey, Yeates and Evans.

Referee—C. Raney.

Members Of All-Canadian Bicycle Team

Doc Morton, Lou Elder and Art Best, the Toronto end of the all-Canadian team for the six-day bicycle grind which starts at the Pineapple City on Sunday night have "hauled their freight" for Chicago, where they will meet Archie "Torcy" Peden of Victoria, B.C. Elder and Peden form the Canadian team and Doc Morton, who, with Best will handle the combination in the squirrel-cage contest, declares that he is handling the best balanced team he ever had in his charge in a six-day race. No. 1 is Lou Elder of Toronto; No. 2, Art Best of Toronto, also a six-day plugger of considerable merit, and No. 3, Torchy Peden, the greatest long-distance rider Canada has turned out in twenty years

CLOSE DECISIONS IN 'CAGE GAMES

De Laval Noses Out C.G.E. Test By 18-16 While Westclox Takes 26-25 Win From Engineers.

GOOD COMBINATION.

The second half of the City Basketball League opened last evening with two fast games: DeLaval vs. C.G.E. (Test) and C.G.E. (Engineers) vs. Westclox. The teams in both games were evenly matched, as the scores testify, 18-16 for De Laval and 26-25 for Westclox.

The first game proved to be an even one; ten minutes before the end the score rested at 12 all. The C.G.E. team were the faster of the two but De Laval's good passing and interceptions won the day. At first the Milkmen made a number of poor shots, but later their shooting improved greatly.

Sturgeon turned out to be the major scorer for the DeLaval, tallying 9 points in all. Levine followed closely with an aggregate of 7. Emery was the star for the C.G.E. five with 4 points made on fouls and 2 for a basket. McKeagan scored 4 points.

Line-ups:

DeLaval—Levine and Sturgeon, forwards; Graves, centre; Routley and Cooper, guards.

C.G.E. (Test)—Emery and McKeagan, forwards; Holgate, centre; Mahood and Lawrence, guards; Tracy, sub.

Referees—H. McLeod and A. Reynolds.

Good Combination

The second game for the evening was not such a closely contested one although the score at half time was 12-11 for Westclox. The usual good passing and infallible combination of the engineers was particularly noticeable. Westclox made some spectacular long passes down the floor. Both teams were in good form and were ready to fight for an extra point. With only half a minute to go and the score 26-23 in favor of the Watchmen, C.G.E. put their heads down and fought madly to gain the necessary two baskets. Their efforts were rewarded, but only two points could be eked out before the whistle blew for full time.

Every player on the Westclox team did some scoring. Kitchen the most for his team, totalling 9 points in all. Kingston was not in such good form as usual, and so tallied only 7 points. Smith did well with his three baskets. Only one player failed to score for the C.G.E. McLeish's accurate shot and 9 points to his credit, won for him the name of being the major scorer for his team. Greenlaw followed closely with 8 points.

Westclox—Kingston and Smith forwards; Kitchen, center; McLeod and Curry, guards.

C.G.E. (Engineers)—McLeish and Greenlaw, forwards; Osterland centre; Jones and Cameron, guards; one sub.

Referees—J. Cooper and V. Reynolds.

Carpetmakers Blank Silverwoods 6 to 0

Brinton Carpet defeated Silverwoods, 6 to 0, at the Sacred Heart rink last night in the first game in the revamped Mercantile Hockey League. The Milkmen found it impossible to hold the smart teamwork of the Brintons. Goal scorers were: Howarth, Miller, Corbett and McGarrity. The teams:

Silverwoods.—Goal, Hele; defence, Crough and Nichols; centre, K. Anderson; wings, G. Gillespie and B. Anderson; sub. Kennedy.

Brinton Carpet.—Goal, Melrose; defence, Howarth and Miller; centre, Corbett; wings, McGarrity and Kitchen; sub. Hatton.

Jackets Are Hopeful Of Beating Tecumsehs

(By George Maguire, Canadian Press Sports Writer)

TORONTO, Ont., Feb. 12.—Having beaten Cleveland Indians on Tuesday night for the first time this this season Pittsburgh Yellow Jackets journeyed to London today with strong hopes of adding the Tecumsehs to their list of vanquished opponents in to-night's solitary International Hockey League fixture.

A victory for the Smoky City squad will place them within half a game of the Cleveland Indians and a play-off berth. The Tecumsehs, however, are striving mightily to keep ahead of the fourth place Ohio city team who are only two points in the rear and the Yellow Jackets will have to show their best hockey to down the aggressive Londoners in their home arena.

Bob Gourley Wins Title But No Cups

WINNIPEG, February 12. — Bob Gourley's Strathcona curling rink last night stood as Manitoba's first cupless champions. Prizes aplenty were theirs and the greatest honor that can be won in the annual Manitoba bonspiel—but no trophy.

Down the seven-day trail in three major events, the Gourley marksmen outshot 151 other rinks, ran up a total of 16 victories beside a single defeat, and then fell down when trophies were at stake. Gourley had clinched grand aggregate honors and the right to represent Manitoba in the Dominion championships, however, before things went wrong.

Last night he was beaten by Hugh McDonald, Deer Lodge, in the final for the Birks Trophy. On Tuesday night he lost the Dingwall Trophy final. At Toronto early next month Gourley will lead his rink into play for the Dominion Macdonald Brier Trophy, and this is the bit of silver he really wants.

Belleville Juniors Stay In Race For Group Title

KINGSTON, Feb. 12. — Belleville Juniors remanied in the running for their O.H.A. group when they outscored Queen's by 3 to 2 here last night. Belleville must defeat Kingston in Belleville on Friday to still have a chance, the local juniors having won six games in a row.

Belleville scored soon after the game opened, when Runions skated the length of the ice and drove in a hard shot. Five minutes later, Queen's evened it up when Nesbitt batted in a rebound after McKinnon's slow clearing of a shot. The game roughened up and six penalties were handed out, two coming when Quinn and McDonald engaged in fisticuffs.

HOCKEY FINALS IN CHURCH LOOPS

Championship Hockey Will Be Exhibited Aplenty To-night at Al Saints' Rink.

FIRST GAME STARTS AT 6.

Championship hockey will be exhibited to-night at All Saints' rink when final round of Church Hockey League play-offs will be run off. It will be a fight to a finish, and none of the teams have enough lead to feel safe. The first round played last Monday produced a fine brand of hockey, and to-night's battles are sure to be without mercy.

George Street and Mark Street Midgets take the ice at six, the latter team trailing by one goal on the round. They are followed at 7.15 by the juvenile leaders, Knox and Trinity, the former outfit having a one-goal margin. The final game at 8.30 will see the juniors in action, and it should be a whale of a game. These teams battled to a 3-all draw in the first fame, so neither one has any edge in to-night's fixture.

The three teams are fighting for the championship of their sections, and for shields which will later be presented thew inners. Some first-class hockey has been seen in the Church League this season, and the final games to-night will show the class of each section at their best.

Hockey Moguls Plan On Ten Club Circuit

CHICAGO, February 12 (C.P.).—Further eastward expansion, with the view of ultimately building up a ten-club circuit, is planned by the American Hockey League.

Buffalo is the only eastern member of the league, but officials, in meeting yesterday, decided to again try for a New York City entrant. The circuit also has under consideration planting a franchise in Toronto, but there is considerable sentiment in favor of keeping the organization an all-United States affair.

Every club in the league has had a satisfactory financial season with the exception of Minneapolis. The Millers failed to draw at home, and it is likely they will operate as a road outfit for the rest of the season.

Bathrooms on sleeping cars have just appeared in Scotland.

180,492 GIVEN WORK.

OTTAWA, Ont., February 12 (C.P.).—A statement issued today from the office of the Director of Dominion unemployment relief shows that 180,492 individuals have been given employment for 2,863,168 man days, from the commencement of the operations of the Unemployment Relief Act, to the end of January. These figures are not complete as returns from the Province of Quebec, where considerable work is being done, are only partially included.

Demand Clean Rugby On French Fields

PARIS, France, Feb. 2. (By Mail from George Hambleton, C. P. Staff Correspondent).—France is to play cleaner rugby. The long story of accidents (three since last October ending fatally) have stirred the French Rugby Federation to rigorous action. A special committee of five members has been formed to draw up rules for the suppression of brutality.

Referees are to be authorized to send brutal players from the field. Another rule proposed will check excited fans. It is suggested that if the spectators become too noisily partial and drive the players to excesses, then the referee should have authority to stop the match.

Rugby is enormously popular in France, particularly in the south and rough-house playing has become common. One southern town recently encouraged its home team with the placard "valmero ou mourir." ("victory or death.").

PROFESSOR GIVES FORMAL NOTICE OF HIS ENTRY INTO PUBLIC LIFE

Prof. Edouard Montpetit, of Montreal University, Makes Pronouncement Signifying Intention.

STATES REASONS

MONTREAL, Feb. 12 (C.P.)—Prof. Edouard Montpetit, well-known economist, director of the department of social, economic and political sciences of the University of Montreal, recently announced that from now on it is his intention to take a more active part in public affairs. This important decision has aroused much interest in political and intellectual circles, as the professor never took an active part in public life, and this new attitude on his part is considered in some quarters quite a departure from deeply rooted traditions.

In answer to a number of questions, Prof. Montpetit replied as follows:

"Society may be considered as divided in two groups, one composed of people actively engaged in politics and generally called politicians, and the other of theorists or intellectuals, whose action is rather limited to their university lectures or their office research work.

"Strange to say, many people contend that the theorists do not take an active enough part in the discussion of public affairs. It is no doubt due to their lack of active participation in public meetings, or in the discussion of public issues that they are considered only as theorists—idealists, without immediate contact with reality.

"From my point of view there exists in French Canada at any rate, a sort of deadlock between these two groups I have just spoken of.

"Do you not believe that this state of affairs is deplorable? It prohibits, in a certain way, people from expressing freely their views on matters of national importance. Many voices are not heard, and will not be heard, although the nation is composed of all elements and each and every one should have at least an equal say on important public issues.

"If free speech is granted to all other classes, why should university people be excluded? In the discussion of public problems the tehorists, precisely on account of their university training, are inclined to consider public issues from all angles, weighing carefully the arguments offered for and against, before pronouncing an opinion or giving a judgment. The opinion of the theorist is, generally speaking, moderate, couched in careful terms, because of the fact that he is not himself personally interested in the fight.

"It is not so long ago that Prof. Adelard Godbout, one of the agricultural experts attached to St. Ann de la Pocatiere College, ran for office in L'Islet County. His election was the occasion of much rejoicing because Prof. Godbout, whose experience had been limited to theory, took immediate contact with the rural class of this province. In a short time he was made Minister of Agriculture in the Quebec Legislature."

Prof. Montpetit hopes to come in closer contact with the people of this province, to debate in public some of the theories evolved before the limited number of pupils who have listened to his lectures for the past fifteen years.

Honored By Airmen

JAIL FARM NEEDS RE-ORGANIZATION

Would Give Superintendent Full Control Under Direction of Ontario Gov't.

RETIRE MAJ. MORRISON.

TORONTO, Ont., Feb. 12.—A thorough re-organization of the Toronto jail farm at Langstaff, to improve custodial features, and retirement of Major Wm. Morrison, superintendent, on May 1, are contained in the findings of the probe ordered by Hon. Leopold Macaulay, provincial secretary, into the administration of the jail farm, which concluded recently. Dual control of the institution between the province and the city is to be abolished, the superintendent having full control under the direction of the Ontario government.

Improvement of rationing arrangements and discipline amongst the staff and inmates is felt will follow the re-organization, and in future closer relations are asked between the superintendent and the city property commissioner.

Hon. Mr. Macaulay observes the farm is a very valuable asset, not only in reclamation of human material but as a producer of revenue, but there is not sufficient employment during winter months for inmates. This is to be a matter for consideration.

BATTLESHIP DAMAGED.

NAPIER, New Zealand, February 12—(C.P.) — H.M.S. Veronica was taken from the inner harbor here today by tugs and will proceed to Auckland for docking and repairs.

The warship was left stranded in very low water when the earthquake of last week raised the level of the harbor floor. A subsequent earthquake lowered the floor somewhat, and the ship was refloated.

PROMINENT MILITARY MAN DIES

OTTAWA, Ont., Feb. 12.—Well-known figure in military circles, Major Franklin Aitken Campbell, Senior Supply Officer of the 3rd Divisional Train, Canadian Army Service Corps, died at his home last night. He had been in poor health for six weeks. Major Campbell was born at Brampton, Ont., 53 years ago. He had been a playing member of the Ottawa Cricket Club for some years.

OPENING SESSION OF A.B.C. HEARING HELD IN LONDON

First Charge is Conspiracy to Limit Facilities For Supply of Certain Commodities.

EIGHT COUNTS REMAIN.

Counsels McRuer and O'Connor Clash on Procedure in Filing.

LONDON, Ont., Feb. 12 (C.P.). — After a delay of many months in which several adjournments were made the preliminary hearing of eight charges against six officials of the A.B.C. and its predecessor, the Canadian Plumbing and Heating Guild and the Dominion Chamber of Credits got under way at noon to-day.

Those facing preliminary hearings are Louis M. Singer, K.C.; W. F. O'Connor, K.C.; Roy E. Belyea and Harry Weinraub, all of Toronto, the Canadian Plumbing and Heating Guild and the Dominion Chamber of Credits.

Messrs. Singer and O'Connor head the defence counsel, and the special prosecutors are J. G. McRuer, K.C., and A. G. Slaght, K.C., both of Toronto.

Face Nine Charges.

They face nine charges, but the present preliminary hearing effects but one charge, which alleges conspiracy to limit facilities for the supply of certain commodities. The evidence, however, will apply to remaining seven charges.

The remaining seven charges allege conspiracy to restrain trade, to enhance prices, to lessen competition and to limit facilities.

The ninth charge, which is the local one, alleges a fraud charge by padding tenders, contrary to Section 444 of the Criminal Code of Canada.

Immediately prior to the opening of this morning's hearing, James A. Allen of Windsor, Crown Attorney for Essex County, formally turned over to the local court the exhibits that had been introduced during the Windsor hearing.

Among the first sixty exhibits filed by Crown Counsel J. C. McRuer, K.C., was the London minute book of the Master Plumbers' and Steam Fitters' Guild, covering London, St. Thomas, and pointing to a minute of June 7, 1927, where the president asked Mr. Haslett to say something and Mr. Haslett asked the members to treat the proceedings of the Guild as secret.

PROBABLY SHELVE RADIO BILL

OTTAWA, Ont., Feb. 12. (CP) — Consideration of radio broadcasting by the Dominion parliament may possibly not be taken up at the coming session in view of the stand taken by the Province of Quebec, it was stated by Hon. Alfred Duranleau, Minister of Marine to-day. The minister explained that the matter was being given very careful consideration.

TO BUILD 10-STOREY [illegible]

QUEBEC, Que., February 1 (C.P.). — Notice was given by the Government yesterday of the intention to add a ten-storey wing to the Legislative Buildings. The new structure will face on Grande Allee and will be connected with the main building by an overhead gallery.

Stay Young with ENO!

Women, as well as men, are as young as they feel. Years don't matter, it's a question of health—the health that comes from keeping inwardly clean.

Start and finish the day with a dash of ENO in a glass of water for just a few days and see how quickly you begin to feel "at your best." But remember . . . .

Only ENO Can Give ENO Results

CARTRIDGE FAILS MURDER FOILED

Bandit Pulls Trigger Without Results in Scuffle With Victim.

THUG ESCAPES.

MONTREAL, Que., February 11 (C.P.). — Because an old and damp cartridge in an old-fashioned revolver failed to discharge, Harry Frank, proprietor of a restaurant, is still alive after fighting with a hold-up man here last night. His assailant escaped.

A man entered his restaurant, he told police, and drawing a revolver ordered him to hand over the money in the cash register. Though there was only a small amount of money in the till, Frank grappled with the man and seized the revolver. The hold-up man pulled the trigger of the gun, which was pointed at Frank's chest, but the cartridge failed to discharge, and he dropped the gun and fled.

HOG PRICES LOWER AT CLOSE TO-DAY

No Cattle Offered on Toronto Livestock Exchange—Calves Also Lower.

TORONTO, Ont., February 12 (C.P.). — There were no cattle offered on the Toronto Live Stock Exchange to-day. About 100 common stocker cattle were left unsold yesterday. The closing prices on butcher cattle were 50c lower for the week.

Calf receipts, 800. Closing prices for the week on calves were $1.00 lower for the week at $9.00 to $9.50 for choice.

Hog receipts 150. The closing prices on hogs were 50c lower for the week at $8.00 f.o.b. for bacon or $9.00 off car.

There were no sheep or lambs offered to-day.

Don't forget the date, Feb. 17th. Or the place—Hall of the Canadian Legion. Or the object—Second Relief dance of The Examiner Social Club. There'll be a good time at the old hall that night.

FIVE YEAR PLAN AUTHOR MOVED

Noted Soviet Demoted to Membership in Supreme Economic Council.

MINERS PAY BOOSTED.

MOSCOW, Feb. 12— (A.P.) —Gleb Krzhizangysky, generally recognized as the author of the five year plan for industrialization of Soviet Russia, has been removed as vice chairman of the State Planning Commission and appointed to membership in the Supreme Economic Council with supervision over central management of power stations.

A brief announcement of the transfer to-day said he had been relieved at his own request but although his new job is of considerable importance it is not regarded as quite so important as that from which he has been retired and the change was interpreted as in the nature of a demotion.

With announcement of the transfer came another announcement from the Supreme Economic Council of a decree boosting the wages of underground coal miners twenty per cent and increasing the pay of other mine workers.

The decree explained the increase as a step to "stimulate output and improve conditions of the miners," but there seemed to be a general belief that it had been dictated by failure to produce the amount of coal scheduled under the five year plan.

ENTIRE SURVEY

(Continued from page eleven)

these pictures, that it was "a paying proposition." Although the photographing entails no expense to the Chamber of Commerce or to the Association, it is expected that the Bureau will undertake the work of surveying the Trent Canal this summer, most likely from F. G. Stinson's yacht.

Several aspects of the Canal will be brought out in more complete details this time. The railways and highways leading to embarking points along the system will be given more publicity, as it will be necessary in many cases for tourists to come from the States either by train or by car. A greater recreational appeal will be given; the fishing, boating, bathing and regatta sides of the activities along the Canal will be more vividly depicted. Pictures of the summer cottages along the waterway will be shown, so as to show the prospective visitor homes of other tourists, and also cottages for rent.

For this reason it will be necessary to make three reels of film instead of the two taken in 1927. It is felt that the old films have served their purpose, and that the present day attraction of the district should be depicted in as modern pictures as possible.

Several busy business men and women have been greatly interested in the films which were shown at the various exhibits in the United States during the past three years running of the 1927 films, and have stood as long as an hour to see the pictures through. This has resulted in a very noticeable increase in the tourist revenues in this region. For this reason, the Motion Picture Bureau is more than justified in undertaking to photograph the Trent Canal system for the furthering of the publicity campaign in the province of Ontario.

THE BEASTS OF TARZAN No. 70 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

With the sinking of the Kincaid, Tarzan's heart sank, though he successfully hid his fears from Jane. There seemed slight chance now of their ever returning to England, save for the remote possibility of rescue by some passing ship. And many disasters might occur during the months they were likely to be marooned upon Jungle Island. Well, it couldn't be helped, he told himself, as he sized up their almost hopeless situation.

Never yet had he failed to find some way out of his difficulties. The first consideration was to locate fresh water and make camp, for their term of existence upon this out-of-the-way island might be drawn out for years. Tarzan knew the nearest water and to this he led the party. Here the men fell to work to construct shelters while Tarzan went into the jungle after meat.

He left the faithful Mugambi and the Mosula native woman—she who had hidden in the canoe that night his beasts came to the rescue—to guard Jane, whose safety he would never trust to any member of the Kincaid's cut-throat crew. Lady Greystoke suffered greatly, though she tried to be brave, for the blow to her hopes in the knowledge that she might now never see her firstborn was almost more than she could endure.

A daylight watch was maintained from sunrise to sunset upon a bluff near the camp which overlooked the sea. Here, ready for instant lighting at night they assembled a huge pile of dry branches and from a lofty pole floated a distress signal fashioned from the mate's red undershirt. But never a speck upon the horizon that might be sail or smoke rewarded the eyes that strained in vigil across the vast expanse of ocean.

VISITS IN CITY.

George Van Volkenburg, former Reeve of Seymour Township, was a visitor in Peterborough on Tuesday.

UNABLE TO ATTEND MEETING.

Reeve John McIntosh was prevented by illness from attending the meeting of the North Monaghan Council on Tuesday.

WAGE REDUCTION.

Ontario County Council is holding an adjourned and extra session this week at which the main question to be considered is a general reduction of wages and salaries in an effort to cut the overhead of municipal expense this year.

E. F. SHEEHY ENTERS ACTION.

Emmett F. Sheehy is plaintiff in an action against Willison Neely Corporation, Limited, of Toronto, begun to-day with the issue of a writ at Osgoode Hall to recover $1,605.65, the price of bonds and stocks in Canadian Terminal Systems, Limited, sold to him by the defendant firm. He alleges that the defendants agreed to repurchase the securities on demand within three years of the sale.

CAR STRIKES HYDRO POLE

Traffic was congested on Aylmer street near the Silverwood creamery this morning, and in trying to avert hitting the rear of another car Keith Leck, 788 Aylmer street, drove his car into a hydro pole. He was proceeding south and several cars and milk rigs were parked in the vicinity. In turning out to miss the other car he grazed a horse and then hit the post. The car was not badly damaged and he escaped injury.

LEGION LADIES PLAN CONCERT.

The concert to be given in the hall of the Canadian Legion next Monday, February 16th, under the auspices of the Ladies' Auxiliary to the Canadian Legion, promises to be very entertaining. The ladies have arranged a pleasant program that will include selections by the band of the Peterborough Rangers and by several of the noted boy choristers of St. John's Church, who recently broadcasted from Toronto.

The piano which was donated to the Auxiliary, in aid of their relief work, and which has been on view in the Grafton Company's store, will be drawn for at this concert.

WEDDINGS

JOHNSTON—DINGMAN.

A quiet wedding was solemnized on Wednesday, February 11th, at St. Paul's Manse by the Rev. W. Allan, of Edna E. Dingman, only daughter of Mr. and Mrs. Dingman, Castleton, to Fredrick G. Johnston, son of Mr. and Mrs. T. Johnston, formerly of Montreal.

They were attended by Miss Sylvia Vollans and Russell Woodall.

The happy couple will reside at 583 Aylmer Street, this city.

BEGGS—TAYLOR.

All Saints' Church was the scene on Wednesday of a pretty wedding, when Florence Margaret Taylor, only daughter of the late John Taylor of Glasgow, Scotland, and Mrs. G. Nimmons of this city, was married to William Beggs, youngest son of the late William Beggs and Mrs. Agnew of Hamilton, Scotland. The Rev. J. D. Paterson officiated. Mrs. W. A. Logan played the wedding music.

The bride was accompanied to the altar by her stepfather, Mr. George Nimmons, who gave her in marriage. Her attendant was her step-sister, Miss Nettie Nimmons. Mr. Alex. Beggs, brother of the bridegroom, was best man.

The bride wore a lovely gown of orchid chiffon. The bodice was tight-fitting, with shoulder capelet, lined with egg-shell lace. The skirt was designed in three tiers, and reached to the ankles. She wore egg-shell lace mittens, egg-shell silk hose, and orchid satin shoes. Her hat of orchid velvet with its small bows of ribbon at the back was very becoming. She carried yellow Claude Pernet roses.

The bridesmaid wore a gown of Chantilly lace of a nile green shade, made long in the new fitted lines. Her hat was of felt, in a matching shade, and she wore egg-shell silk hose and green and gold brocade slippers. An arm bouquet of pink carnations was carried.

During the signing of the register Mrs. E. Foster played a violin solo, "Salut d'Amour" (Elgar), accompanied on the organ by Mrs. Logan.

The bride's gift to the bridegroom was a gold wristlet. The bridegroom's gift to the bride was a cheque; to the bridesmaid a necklace and bracelet, and to the best man a smokers' set.

Following the ceremony, a reception was held at the home of the bride's parents, Mr. and Mrs. Nimmons of Park Street, when dinner was served to about forty-five guests. Mrs. Nimmons was assisted in receiving the guests by Mrs. E. Brown, sister of the bridegroom. The rooms were tastefully decorated with spring flowers and white bells, white and pink being the predominating colors. The dining table was centred by a silver flower basket arranged with pink and white carnations and smilax. The bride's cake, made in three layers and beautifully iced, occupied the place of honor on the table.

The evening was pleasantly spent in music, Miss Irene Foster acting as pianist for the singing.

Mr. Beggs and his bride left this morning for a wedding trip to Toronto. On their return they will reside in the city.

LANCASHIRE LOCK-OUT WON BY WEAVERS

Application Made To Upset Election

FIAT BEEN ISSUED BY JUDGE HUYCKE IN BELMONT CASE

Application is Made by Frederick F. Fry to Upset Belmont-Methuen Election.

IRREGULARITIES ALLEGED.

February 25 is Set as Date to Hear Motion to Have Election Declared Null.

Proceedings which promise to upset the recent election of Reeve J. F. Breckenridge and Councillors Isaac Anderson, Norris Whitney, Christopher Steenburgh, and Harry Vansickle in the Townships of Belmont-Methuen, have been instituted under Section 169 of the Municipal Act, Frederick Fry, relator, having made application to the County Judge through his solicitor, W. F. Huycke, to have the election declared null and void on the grounds of certain irregularities. His Honor issued a fiat on the motion to be heard before him at the Court House here on Februarv 25.

In the affidavits, allegations are made by certain ratepayers of the townships that at Polling Sub-Division 8, the D.R.O. kept the polls open after five o'clock and allowed two voters to ballot, and also voted himself.

At Polling Sub-Division 1, Old Havelock, it is also alleged the D. R.O. allowed a person to vote whose name was not on the polling list, while at Polling Sub-Division 2, Belmont Town Hall, it is claimed fifteen unauthorized people were congregated in the polling station smoking and talking. Unauthorized persons were also present at many of the polling sub-divisions, it is declared, when votes were being counted.

Voters Canvassed.

At Cordova Mines Polling Sub-Division, it is stated in the affidavits, voters were canvassed for votes as they came in to vote. It is also alleged that at South Lake Sub-Division the D.R.O. stated: "It is now five o'clock by the school clock. We started by this clock and it is now time to close the polls." He then saw a rig coming down the road, it is claimed, and waited for the parties in it, to enter the polling office, informing them that he had kept the polls open for them to vote. He then allowed them to register their votes.

If the irregularities are proven, it will necessarily result in another election in these townships, it is learned. It will be recalled that Reeve Breckenridge was elected by a majority of one vote over his opponent, the former Reeve W. E. Griffith, and that a recount was ordered on the petition of Mr. Griffith, the defeated candidate. The scrutiny of the ballots conducted under the supervision of His Honor Judge H. C. S. Huycke, on Friday, January 16, resulted in a confirmation of the original declaration of Returning Officer Grant Dafoe of Belmont.

Dr. William John Cooper in 138 Words Describes Our Present Day Education

WASHINGTON, Feb. 13.—(AP)—To the aid of those who ask themselves what is education today came Dr. William John Cooper, Federal Commissioner of Education, with a 138-word definition.

Here it is:

"Human education is a process of individual growth and development beginning with birth and ending only with death, requiring at the outset much effort on the part of others in discovering, nourishing, and directing inherent potentialities, but at every stage demanding increasing self-reliance and self-control.

"During this entire process, the individual learns to observe and analyze his natural environment, to modify it to his needs, and to adjust himself intelligently to non-alterable conditions, and "to comprehend the social environment in which he finds himself, to understand how it came to be what it is and how it can be changed, and to appreciate the mutual 'give and take' character of human association to the end that he may not only demand his own rights and opportunities but also will discharge to the full his economic and social obligations."

PLANE CRASHES AT CAMP BORDEN TWO MEN KILLED

Two Members of the Royal Air Force Are Dead When Airplane Crashes.

UP ABOUT 1,000 FEET.

Court of Enquiry is Convened But Cause of Crash is Not Known.

CAMP BORDEN, Feb. 13.—(CP)—Two members of the Royal Canadian Air Force were killed today when a training aircraft crashed from an altitude of approximately 1,000 feet in the precincts of the R.C.A.F., camp at noon today. The dead are: Pilot Officer Carl Alan Kaspner Gill, of Trail, B. C., and Napoleon Albert Duval, of Contrecoeu.

Gill, who was 23 years old, and Duval, who was 21 years old, were the only occupants of the plane. They were both instantly killed.

Officers of the R.C.A. said the cause of the crash was for the present obscure. A court of inquiry has been convened.

The next-of-kin of the two men have been communicated with by officers of the R.A.C.F., who are awaiting instructions with regard to funeral arrangements.

PRINCES STAGE DANCE.

LIMA, Peru, Feb. 13 (C.P.). — The Prince of Wales and his brother, Prince George, danced last night with the wives of several South American diplomats at a dance which they gave for the British Minister, Charles H. Hentinck, after the state dinner in their honor at San Cerro.

Bill Would Brand Reckless Drivers

ALBANY, February 13. (C.P.). —Persons convicted of reckless driving would be required to carry on their cars vermillion-colored plates bearing the letters "R.D." (reckless driver), for a period not to exceed three months under the terms of a Bill introduced in the Legislature yesterday The measure was submitted by Assemblyman Roy Hewitt, Niagara County Republican

B C PLANS ACTION IN GAS TAX CASE

Will Invoke Reserve Legislation on Adverse Decision in in Quebec.

VICTORIA, B.C., Feb. 13.—If the gasoline tax of Quebec is upset by litigation now under way as in a Montreal case, the British Columbia levy in its present form will go by the board also, it is stated here.

But if this should occur, British Columbia will invoke the reserve legislation drafted by J. W. B. Farris, K.C., years ago, in expectation of such an emergency. The Farris Act would appoint all garage owners and service station operators as Government collectors empowered to collect the gasoline tax direct from the customer.

In this way, the tax would be beyond legal question as it would be absolutely direct. Argument against the existing tax is that it is direct since it is not collected from the customer himself but from those who sell gasoline in bulk.

Test of the Quebec Act comes at a time when British Columbia is planning to ask an Interprovincial conference in Ottawa in the spring to insist on validating the existing gasoline taxes in all provinces by Dominion legislation.

MARCONI HINTS AT NEW STEPS IN RADIO FIELD

Gives First Interview Ever Conducted Between New York and Vatican City.

CLOSE TO TELEVISION.

May Have Something Definite to Divulge on Visit to U.S. in Fall.

(By C. E. Butterfield, Associated Press Radio Editor. Copyright by the Associated Press.)

NEW YORK February 13. — An important radio development is in the offing, its nature so far undisclosed, Guglielmo Marconi has indicated in the first radio interview ever conducted between New York and Vatican City.

Responding to questions put to him over a 3,500-mile invisible short wave radio circuit, Senator Marconi vaguely hinted that another forward step was to be taken in wireless, to which he has contributed so much since its earliest days

The question that elicited this information was: "What, in your opinion, is to be the next important development in radio?"

To which he replied: 'Well, I wish I could answer that important question. Perhaps if I could, I am not sure that I would broadcast it."

He added that on a proposed visit to the United States next fall "I may be able to say something more."

Wide Range of Subjects.

A wide range of radio subjects was touched upon by the Senator, including the statement that power transmission by radio was possible, "but in an extremely inefficient manner."

Television development, he believes, depends largely upon further perfection of telephonic and rapid picture transmission. Then he said: "We may be very close to practical television."

The interview was made with the questioner seated before a microphone in a broadcast laboratory.

Just like talking on an ordinary telephone, questions and answers passed back and forth as if the two were in the same room

The interview was made in conjunction with the preliminary tests that preceded the inauguration of the new station by Pope Pius XI.

V.C. REFUSED JOB PROTEST ENTERED

Northumberland Veterans Hold Mass Meeting Following Council's Action.

APPEALS TO GOVERNMENTS.

COBOURG, Feb. 13.—A resolution urging Federal and Provincial support of Victoria Cross holders was adopted here last night at a crowded meeting of Great War Veterans in Northumberland County, protesting against the defeat in the Holdimand Township Council of Lieutenant Charles S. Rutherford V.C., M.C. M.M., an applicant for a $900 position as Township Clerk.

The veterans will bring the resolution to the attention of the Provincial Government through the Provincial Command of the Canadian Legion, Rev. E. R. Adye of Whitby, Provincial Zone Director of the Legion, declared.

The veterans condemned the action of the Township Council in rejecting the application of Lieutenant Rutherford.

It was said that Rutherford had never been offered a Government position and that he did not receive any pension.

Rev. Mr. Adye pointed out that, with the help promised the veterans by Attorney-General W. H. Price, Lieutenant Rutherford's circumstances will probably be placed before the Provincial Government through the Attorney-General.

BUY BOSTON TIGERS.

BOSTON, Feb. 13 (C.P.). — The purchase of the Boston Tigers hockey club of the Canadian - American League by the Boston Bruins National League club was announced to-day by the latter organization. The purchase includes all players of the Tigers, which organization will henceforth be known as the Bruins' Cubs.

Irish Linen Shirts Preferred by King

LONDON, Feb. 13 (By Thomas T. Champion, C. P. Press Staff Correspondent).—"I prefer Irish linen and every shirt I have comes from Belfast," said His Majesty when, with Queen Mary, he visited an exhibition of the Linen Industry Research Association to-day.

Examining table linen that had been washed in various laundries, the King remarked: "Some laundries do use up linen, but I suppose when it comes back with holes, it is good for trade."

His Majesty has just placed several acres of the Royal Estate at Sandringham, Norfolk, under cultivation for flax, though most English land-owners say that flax takes more out of the earth than it yields.

NOVA SCOTIANS PLACE WORRIES BEFORE BENNETT

Delegation Requests Establishment of National Coal and Steel Policy.

Survey of Resources Given.

Gov't Anxious to Aid Says Premier, But Many Difficulties Lie Ahead.

OTTAWA, Ont., Feb. 13. (CP)—"In common with every member of the Government I have a most earnest desire to establish a national fuel policy. But those who have studied the matter can not fail to be impressed by the dificulties to be overcome," the Prime Minister told a large delegation of Nova Scotians here to-day. Headed by Hon. G. S. Harrington, Premier of the Province, the delegation presented to the Government certain recommendations requesting the establishment of a national coal and steel policy.

Mr. Bennett presented a survey of the coal resources of the Dominion from Vancouver Island to Sydney. In the face of these, he said, it seemed almost ridiculous that a people numbering 10,000,000 should be called on to pay out vast sums of money every year for importations of coal. Yet, such was the case.

Considered as a whole, the question was mainly one of distance. That could be overcome by science, but in the end the matter got down to the final question of utilising the federal treasury to furnish the necessary assistance so that Canadian coal might be transported to Canadian consumers.

Problem Has Solution

"I do not think that this problem is incapable of solution" continued the Prime Minister. "But when you face such a condition as exists in the country at the moment, it is dificult. We are confronted with falling revenues; we have to maintain certain expenditures in order that the nation may continue to function. There are fixed charges on our revenues. This year there will be $150,000,000 for interest on debt and pensions—perhaps more.

The Prime Minister continued: 'I cannot express to you what may possibly be done at the coming session of Parliament." But, he said, the policy of this Government is predicated upon the principle of developing the natural resources of this country within itself and to the extent that it might be possible to do so enabling steps in this matter would be taken."

Deputation Waits On Ottawa Ministers

It is somewhat confidently predicted by Mayor Denne that business which will re-act to the benefit of Peterborough was transacted in Ottawa on Wednesday and Thursday. A delegation composed of the Mayor, Alderman Hamilton, City Clerk Armstrong, J. H. Vernor of the Western Clock Company and Hugh Campbell of Johnston Motors, had interviews with Cabinet Ministers regarding factors affecting manufacturing here and the erection of a new Government building here.

E. A. Peck, M.P., arranged the appointments and was one of the chief spokesmen for the deputation. Mayor Denne stated to-day that the deputation was most cordially received and given a most favorable hearing.

Mr. Vernor and Mr. Campbell are still in Ottawa to-day.

TORONTO WOMAN CLEARED BY JURY IN SHOOTING CASE

Mrs. Elizabeth Lloyd Faced Charge of Wounding Husband, ex-R.C.M.P. Officer.

JURORS OUT 55 MINUTES.

No Further Punishment Intended Irregardless of Verdict's Nature Says Judge.

TORONTO, Ont., Feb. 13.—(C. P.) Mrs. Elizabeth Lloyd, who was arrested last September on a charge of attempted murder, following the shooting of her husband was found not guilty by a jury in the Criminal Assizes here to-day.

Mrs. Lloyd was arrested on September 16 and has been in custody since that date. She is the wife of Harold Lloyd, former Royal Canadian Mounted Police constable who was wounded in the neck by a shot alleged to have been fired by his wife.

Lloyd was removed to the hospital following the shooting and for a time his condition was reported as serious.

During her trial Mrs. Lloyd denied any recollection of the shooting and told the jury of alleged brutal treatment by her husband. She stated that she had lived with her husband only thirteen days since they were married in 1928.

Assisted Out By Matron.

After deliberating 55 minutes the jury returned the verdict of not guilty. Through tear-dimmed eyes, Mrs. Lloyd flashed a glance of gratitude at the jury, and as she was being assisted from the court by a matron she thanked the jurymen.

"You have been through a very trying and sorrowful time, Mrs. Lloyd," Mr. Justice Jeffery told the woman. "Although you have taken the law into your own hands, the jury has seen fit to acquit you. May I point out I had no intention of heaping further punishment on you, had the jury returned another verdict. I trust you have learned your lesson and your life from now on will be more pleasant."

To the jury His Lordship said he hoped the public would not assume from their verdict that one could take the law into one's own hands, no matter how great the provocation.

YEGGMAN ROB LONDON SAFE

LONDON, Ont., Feb. 14 CP)—Yeggmen jimmied the safe at the L. H. Martin Lumber Co. office, York street east last night. After they had smashed their way through a rear door at the plant they unlocked a special burglar proof attachment which was fastened to the door lock. The robbery marks the fourth at this city which has been robbed during the past few weeks.

300,000 Workmen End Jobless Month At Mills Monday

Peace is Outcome of Conference in Which Mill Owners Agree to Abandon So-called More Looms Per Weaver System With Which They Experimented at Several Mills.

ADMIT CONTINUANCE OF TIE-UP WOULD HAVE MEANT IRREPARABLE INJURY OUT OF ALL PROPORTION TO AIM

Turn in Affairs Probably Means Semi-automatic System Will Not Be Introduced—Manufacturers Deeply Impressed by Grave Warning Issued by Philip Snowden.

MANCHESTER, Eng., Feb. 13.—(AP)—The long drawn out tieup in the Lancashire cotton industry ended today and 300,000 weavers who were locked out last month will return to work on Monday. Peace came out of a conference in which mill owners agreed to abandon the so-called more looms per weaver system with which they experimented at several mills in Burnley.

This system provided that each weaver operating four looms take over eight. The mill owners offered a ten dollar a week increase in pay but the men refused to accept the system, asserting that it would throw many weavers out of work.

The lockout was declared on January 17 and subsequent negotiations during which the Government and even Premier Ramsay Macdonald himself tried to settle the dispute were futile.

Owners' Statement

In a statement issued after the meeting the mill-owners said:

"Undoubtedly we could have continued this lockout many weeks longer but we took the view that under the circumstances it would be a long time before the dispute was settled and that during that period the industry would suffer irreparable injury out of all proportion to the objects in view."

The change from four looms to eight looms per weaver that had been proposed, did not involve altogether a doubling of the work. The owners proposed to institute a number of mechanical devices through which the weavers could operate double the number of looms.

Apparently the semi-automatic weaving will not now be resorted to, if the weavers are to continue operating four looms each.

Heed Snowden's Warning

The manufacturers were deeply impressed, the statement said, "By the very grave warning sounded by Rt. Hon. Philip Snowden in the House of Commons on Wednesday, and felt themselves obliged to consider their own dispute in the light of his appeal.

They also realized, they said, the incongruous situation which would have been created next week at the opening of the British Industries Fair in London at which Lancashire, advertising her products, at the same time would advertise herself as still at odds over a "relatively unimportant question which should have been settled by mutual adjustment."

FIRE THREATENS OKLAHOMA CITY

Geyser Breaks Loose Spouting 600 Barrels of Oil an Hour.

IN NEARBY FIELD.

OKLAHOMA CITY, Okla., Feb. 13 —A rampant gusher spouted a threat of fire in the Oklahoma City oil field to-day.

Twenty families were driven from their suburban homes as clouds of gas, held close to the ground in a heavy atmosphere, were borne upon them by a south wind. More than 150 men toiled in a rain through the night building earthen dykes to hold the floods of oil.

The well, No. 4, Mary Jane Unsell of the Indian territory Illuminating Oil Company, broke all connections last night. Its flow was estimated at about 600 barrels an hour.

No effort was made to curb the well until daylight because of the danger of having lights near the highly inflammable geyser.

I.T.I.O. officials said the fire menace was increased because the high humidity prevented gas from dissipating in the air.

TWO DIE IN MOSLEM-HINDU CLASH

BeNARES India, Feb. 13. (C. P. Cable).—One Hindu and one Moslem were killed to-day and 50 other natives seriously injured in rioting that Hindus should close their stores that iHndus should close their stores during the funeral of a Moslem merchant. The Moslems charged that the merchant was killed by a nationalist volunteer for selling foreign cloth. Police brought in reinforcements and patrolled the city.

COTTON INDUSTRY LEADERS CONFER

View That Solution of Crisis is in Sight Prevails in District.

300,000 MEN IDLE.

MANCHESTER, Eng., Feb. 13.—(A. P.)—Both employers and workers of the Lancashire cotton industry met here to-day with the hope of finding some way out of the dispute which has made idle more than 300,000 employees through strikes and lockouts.

Reports were current that the employers might take the bold course of declaring the lockout in the manufacturing section off, hoping thereby to induce the weavers to negotiate for installation of the more looms to the weaver system. The weavers have persistently refused this under existing condition.

Despite the increasingly critical situation in the industry a more hopeful view prevailed to-day that some solution would be fund which would permit the strikers and lockout workers to go back to their jobs.

KING HONORS LORD BESSBOROUGH

LONDON, Feb. 13 (C. P. Cable).—His Majesty to-day honored the Earl of Bessborough, new Governor-General of Canada, by conferring upon him the Grand Cross of the Order of St. Michael and St. George.

Lord Bessborough, Brabazon Ponsoby, already holds many high decorations, including orders of France, Belgium, Russia, Italy and Greece.

W. E. N. SINCLAIR GIVEN FREE HAND IN GUIDING PARTY'S HOUSE POLICIES

Hepburn in Letter States He Will Take No Part in Determining Liberal Tactics.

FRICTION IN RANKS DENIED.

TORONTO, Ont., Feb. 13. (CP)—W. E. N. Sinclair, leader of the official opposition in the Ontario Legislature, has a free hand in guiding the policies of the Liberal Party in the House. At a caucus of Liberal members this morning, a message was read from Mitchell F. Hepburn, leader of the Ontario Liberal Party, sent word that he would take no part in determining the tactics of the Liberal group in the Legislature.

Mr. Hepburn was invited to attend the caucus but was unable to do so as he is ill in bed with flu. It was announced after the caucus that Mr. Sinclair would be solely responsible for the direction of the group of 14 Liberal members in the House.

There was a full attendance of members at the caucus and among other matters the question of moving an amendment to the address in reply to the speech from the throne was discussed. No decision on this point was reached but a further caucus is to be held Tuesday.

Both Mr. Sinclair and Dr. G. A. McQuibban, Liberal, scouted suggestions of friction in the ranks of the party.

Hunting of Snakes Turns Into Racket

BOSCOBEL, Wis., Feb. 13—This snake business has become a racket.

At least that's what some of the citizens around here allege.

Several snake hunters, they charge, get the rattles from rattle snakes, collect a bounty and then turn the creatures loose to propagate.

The anti-snake hunting citizens are asking the Legislature to change the bounty law so that no one will be paid unless he is able to show at least ten inches of a snake's tail as well as the rattles.

MAY CALL SPECIAL SESSION

REGINA, Sask., Feb. 13.—A special House Committee to seek, in collaboration with creditors and debtor classes of the Province a scheme for re-arranging and re-adjusting present agricultural indebtedness, is the plan of J. G. Gardiner, Leader of Saskatchewan's Liberal opposition. A special session of the Legislature should be called, if necessary, to consider the report of this committee, with no extra indemnity for the members, he considers.

CROMER TABOOS SUNDAY SHOWS

Action Pends Revision of Ancient Law By British Court.

CANCEL CHARITY CONCERTS.

LONDON, Eng., Feb. 13. (C. P. Cable).—The Lord Chamberlain, the Earl of Cromer, has banned Sunday concerts in theatres under his jurisdiction, following the example of the London County Council pending revision of the ancient law under which the high court recently found Sunday performances illegal.

Several functions arranged in aid of charity have been cancelled as a result of the Lord Chamberlain's decision. Rt. Hon. J. R. Clynes, Home Secretary, has promised that an official statement will be made as soon as the Government has considered all aspects of the situation.

The Lord Chamberlain, in addition to overseeing all ceremonial events in which the King and Queen participate, also has the responsibility of censorship of all stage plays.

48 FIREMEN RUSHED TO HOSPITALS DURING HUGE BLAZE IN ROCHESTER

Many Others Overcome By Smoke and Gas Are Treated Upon Streets.

FIGHT LASTS 5 HOURS.

ROCHESTER, N.Y., Feb. 13 (C.P.). — With 48 firemen, including three battalion chiefs, in hospitals and nearly as many more recovering from smoke and gas poisoning after being treated on the street, the last ember in a five-hour downtown fire was extinguished this morning, putting an end to a situation which overcame entire companies.

Smoke and carbon monoxide gas issuing from the basement of a blazing retail building on the main street bridge dropped firemen by the scores and taxed the city's first aid facilities and nearby hospitals to the utmost. Even those with gas masks were overcome almost as rapidly as those without them. More than a hundred firemen were affected.

First Aid Stations In Street.

Emergency first aid stations were set up in the street by nurses and internes from hospitals, and in the lobby of the Security Trust Company. Ambulances kept up steady runs to and from hospitals, pausing only to discharge victims before speeding back for more.

More than 150 gallons of blazing fuel oil in the basement of the building was held responsible for the carbon monoxide gas. Damage to the building was estimated at $30,000.

Hawks Forecasts 1,000 M.P.H. Plane

LITTLE ROCK, Ark., Feb. 13. (A.P.)—Capt. Frank M. Hawks, famous speed flier, who is Will Rogers' pilot and vaudeville partner in their benefit tour in the drought regions, told an audience to-day that the time will come when planes will travel one thousand miles an hour.

No Trace Yet Found Of Immigrant Boy

LONDON, Ont., Feb. 14.—(C.P.)—The mysterious disappearance of a young English immigrant, Edgar Turner, age about 21 who for seven months was employed on a farm near Thamesford, Ont., has caused grave concern to his parents, who live in England, according to a letter received by local authorities.

The boy came to Canada last year and obtained work on a farm, but owing to the condition of his health, was unable to stand the burden. He got in touch with his parents, who forwarded him sufficient money to pay his return fare to the old country. Since then, he has completely disappeared. His parents fear foul play.

BRITISH REQUEST SUGGESTS SLASH OF 25 PER CENT.

Similar Action on Imports From Britain Asked of Other Countries.

LARGE SCALE PLAN.

Little Favor Seen For Proposition Due to Obscurity of Corresponding Advantages.

PARIS, February 13 (C.P.). —The French Foreign Office announced to-day that it had received a note from the British Government asking France to consider a twenty-five per cent. reduction in customs duties on British products imported into France

A similar request has been made, it was said, to the German, Italian, Polish, Danish, Swedish, and Norwegian Governments. The plan appeared to be about the same, on a large scale, as that advanced at the last League of Nations Assembly by William Graham, president of the British Board of Trade.

It was observed here that the proposition is hardly likely to meet with much favor, for while the advantages to Great Britain would be obvious, it is difficult to see what corresponding advantages it would offer to the other Powers.

RUMANIAN QUEEN RUMORED LIKELY TO MARRY AGAIN

Army Officer Named in Bucharest Reports as Helen's Next Husband.

URGES FOR DIVORCE.

Contemplated Marriage is Almost Unheard of in European Royal Circles.

LONDON, England, Feb. 13. (AP) Bucharest society reports that Queen Helen, unable to hold the love of her handsome prince, now King Carol, plans to marry a Rumanian officer, Colonel Skeletti, were published here to-day.

Helen is said to have written Carol whose friend in Paris, the red headed Maga Lupescu is understood to be lodged now near the royal quarters, that she will resist all his efforts to nullify the divorce she obtained from him in Absentia in 1928.

While the Hol yHynd of the Rumanian Orthodox Church declared that divorce null and void shortly after Carol became king last June, it has been explained that this made it only moral non-existent since legal annulment would have to come through the courts.

Such a marriage as is reported to be contemplated by Helen would be almost unheard of in European royal circles. A Princess of the dethroned Grecian House, she and Carol suffered more than their lot of matrimonial vicissitudes from the very beginning of their life together.

Associated With Enemies

His complaints against her are of unresponsiveness, incompatibility and that instead of sharing exile with him when he was "framed" by politicians at home in 1925 she remained in Rumania and associated with his enemies.

After his return to Bucharest in June last year in a coup d'etat which dethroned his son Michael and put the crown on his own head he is said to have attempted a reconciliation, and meeting with rebuffs, to have sought to make her feel the brunt of his scorn.

This took the form of speaking to her only over his shoulder, of minimizing her association and control over Michael, who became the Grand Voivode of Alba Julia, and other annoying and provocative actions.

Helen's principal complaint against Carol has been that of infidelity. Helen is now ill with influenza.

BRIITISH DELEGATES SAIL.

LONDON, February 13 (C.P.). —Several members of the British trade delegation to Buenos Aires British Trade Exposition left to-day for South America taking the steamer Almanzora from Southampton. There will be fifty British delegations and fifty Canadian delegates. Sir Burton Chadwick heads the British delegates.

High Commissioner Draws a Pat Hand

The photograph above shows Hon. G. Howard Ferguson, former premier of Ontario and new Canadian high commissioner in London, finishing his last game of cards of the voyage with Mrs. Ferguson aboard the liner as it docks on English soil. Judging from his expression, the new high commissioner has drawn a pat hand and considers it a good omen. Anyway, he's mighty pleased with it.

Prisoner Sharpens Spoon to Suicide

NEW YORK, Feb. 13—As keepers prepared to remove him to Sing Sing toserve fifteen years for burglary, Vincent Fischetti, thirty-four, prisoner in Raymond Street Jail, Brooklyn, slashed his throat yesterday with the sharpened edge of a spoon.

In a critical condition, he was taken to Kings County Hospital.

Fischetti had pleaded guilty to the burglary charge. In open court he threatened to kill his accomplice, Feliz Parzski, of Brooklyn, who had turned State's evidence.

TWELVE SHORTHORN CATTLE SOLD AT BREEDERS' AUCTION FOR $922

Top Price Was $100—Catalogue Listed Nineteen Purebreds.

SATISFACTORY SALE.

Twelve Shorthorn cattle were sold for $922.50 at the thirteenth annual auction sale under the auspices of the Peterborough County Shorthorn Breeders' Association at the Exhibition grounds Thursday afternoon.

The catalogue listed nineteen head, but several of them were withdrawn, and others were reported to have been sold privately. Two young bulls brought $100 each, and two others went for $97.50. S. S. Staples of Ida was auctioneer.

Members of the Association expressed themselves as being quite satisfied with the prices, taking into consideration all the affecting conditions especially the prevailing financial stringency. The attendance appeared to be as large as usual, indicating the interest of many breeders of the district, some of whom came from as far as Port Hope and Lindsay.

Walter Bowles is president of the Shorthorn Breeders' Association and Beecher Matchett is secretary. They and Mr. Staples were pleased with the result of the sale in what is generally regarded as a rather unfavorable year

The List of Sales.

The following animals comprised the list disposed at yesterday's auction:

"Ruby 2nd", born July 1907, bred by Beecher Matchett, Otonabee and sold to T. Beatty, Otonabee, for $67.50. The dam was "Diana", bred by R. Hanbridge & Son, and the sire was "Pear Lawn Pride's King", bred by H. J. Miller.

"Red Duke", born November 1929, bred by Beecher Matchett, and sold to Allan B. Mann for $65. The dam was "Ruby", bred by R. Matchett, and the sire was "Eclipse", bred by Harry Coyle.

"Red Prince", born November 1929,

Music Conservatory Voted $500,000 Grant

MONTREAL, Que., February 13 (C.P.). — It was announced here yesterday by Alderman Bray that the city executive had voted $500,000 to the National Conservatory of Music. The sum voted will extend over a period of twenty years at the rate of $25,000 a year.

A short time ago Hon. L. A. David, Provincial Secretary, announced that a grant of $25,000 a year had been made to the Conservatory, and it was also announced that a concert hall was to be built adjoining the St. Sulpice Library, using the library as the main entrance. It is planned by Dr. Eugene Lapierre, director of the Conservatory, with the co-operation of the provincial and municipal authorities, to give free public courses in music to young students, to be selected by contests, and to provide better facilities for the education of students. Concerts at popular prices several times a year and renting of the hall to organizations at reasonable rates are also planned.

BANK PARTIALLY AGREES TO PLAN SAYS THEODORE

Premiers Unable to Reconcile Statement With Resolution By Bank Board.

NO FURTHER CO-OPERATION.

Extraordinary Care Taken to Keep Decision Secret—Text Unofficial.

(C. P. Cable Via Reuters)

CANBERRA, Australia, Feb. 13. — Hon. E. G. Theodore, Commonwealth Treasurer, informed the conference of Premiers this afternoon that he regarded the Commonwealth Bank as having "partially agreed' to his plan for bringing the Australian currency back to the 1929 level, through a three-year plan involving moderate inflation.

But the conference found itself unable to reconcile this statement with the text of a resolution passed by the board of the bank, and neither Mr. Theodore, nor the Commonwealth Prime Minister, Rt. Hon. James Scullin, officially revealed the results of the conference they had with the bank's officials two days ago. Mr. Theodore merely informed the conference that the bank had decided no: to co-operate any longer in financing the State Governments unless drastic steps were taken to reduce expenditures.

Direct Contrast

The bank board's resolution seemed also in direct contrast to the Federal proposals, which do not contemplate reductions in wages, for it read as follows: "Subject to the adoption of equitable reductions in all wages, salaries, allowances, pensions, social benefits, all kinds of interest and other factors affected by the ghost of living, the board will actively cooperate with the trading banks and the Governments in sustaining industry and restoring employment."

Extraordinary precautions were taken to keep this resolution secret and the text had to be obtained unofficially today. Premier Scullin and Mr. Theodore declined to make any statement.

FASCIST VISITS END WITH RIOTS

One Killed and Many Arrested in German Towns Following Speeches.

POLICE HARD PRESSED.

BERLIN, Feb. 13. (AP)—Widespread riots and disturbances are following the National Socialist, or Fascist members of the Reichstag as they proceed with their soap box tour of German towns and cities.

At Mainz last night one man was fatally wounded in disturbances following the Fascist meeting which had been addressed by deputy Peter Gemeinder. The victim was struck by a bullet when a policeman, hard pressed by the crowd, had to resort to his pistol.

At Wuppertal, in the Reheinland, Fascist youths and women battled police with beer mugs and chair legs when police attempted to break up their meeting which was being addressed by Freidrich Karl Florian, who had mad, an incendiary speech against the Government.

The police retaliated with their rubber clubs and when the Fascist herren and frauleins had been smacked into submission several score were led off under arrest.

WORKERS INJURED IN SECOND 'QUAKE

Considerable Property Damage Done in Hawk's Bay District, New Zealand.

NAPIER, New Zealand, Feb. 13.—(AP)—Severe earth shocks which rocked the Hawkes Bay District at noon today did considerable damage in town, already practically destroyed by quakes of a week ago.

Walls left standing in the ruined business area fell, inflicting minor injuries upon workers. All further work of clearing the town was halted. There were many narrow escapes as returning residents leaped from beneath tottering masonry.

The entire coast to the south of the town was buried in clouds of dust.

Make your Walls Friendly with Empire Wallpapers

Empire Wallpapers are Different

because they are made exclusively for EMPIRE WALLPAPERS LIMITED from designs selected in the Fashion centre of the world and colored by our own staff of experts. They are both SMART AND ARTISTIC, and cost no more than the ordinary kind.

MANIAC THUG'S ATTACK CAUSES TERROR IN N. J.

Bogota Residents Fear New Outrage by Burglar Who Beat Teacher's Wife.

BLACKENS VICTIM'S EYE

NEW YORK, Feb. 13—The town of Bogota, N.J., was in a state of terror last night as residents learned of a vicious attack Monday upon Mrs. John A. Wilcox in her home by a maniacal burglar.

Mrs. Wilcox, wife of the vice-principal of the Hackensack High School, was badly beaten by a masked marauder who lay in wait for her in her home after gaining entrance through an unlocked door while Mrs. Wilcox shopped.

Handcuffed to Chair

At the point of a gun the assailant handcuffed her and bound her arms and legs with sashcord. In the struggle he blackened one of her eyes and knocked out a front tooth. She described him as six feet tall and thin, but said she saw nothing of his face, for in addition to the mask he wore a handkerchief over his lower face.

The burglar took $8. He left her bound to a chair. The alarm of other residents followed disclosure that he had told Mrs. Wilcox he would soon "return the $8 with interest" and that he had taken the handcuffs with him saying he would "need them soon."

The police station was beseiged with telephone calls asking if "the maniac" had been caught yet. Residents told police they feared to permit their wives or daughters to go out or stay alone at home. Mrs. Wilcox, under medical care, was unable to identify two suspects.

CENSURE PROFESSORS

TORONTO, Feb. 13—It was learned late last night that the Board of Governors of the University of Toronto, at its meeting yesterday, unofficially registered a majority condemnation of the action of the 68 "professors" who essayed to commit the university by a joint manifesto to a declaration condemning the police administration in Toronto for an alleged attitude regarding "free speech."

Girl Flier Plans Atlantic Ocean Hop

LONDON, Feb. 13.—Miss Marion Eddy, young American aviatrix, plans a solo trans-Atlantic flight this summer. She holds the American altitude record for women in an amphibian plane.

While in England she is arranging to fly the English Channel at least half a dozen times to practice flying "blind." She says:

"I have planned out the entire flight and I shall make the attempt from New York to Paris. I have figured that if I leave New York in the summer when the moon is at the full I shall be able to make the whole flight with very little darkness."

SAWYER SLIPS FOOT BADLY CUT

Little Boy Bitten By Dog as He Was Playing on Havelock Street.

MAIL DELIVERY BURNED.

HAVELOCK, February 13 (Examiner Correspondence). — When he slipped yesterday afternoon as he was operating a circular saw, Robert Vansikle's left foot came in contact with the saw and was almost cut off. Vansikle was cutting up some large timber. He bent to remove the wood and as he stopped he slipped. He was attended by Dr. Holdcroft at his home. It is expected that the foot will be saved

BITTEN BY DOG.

A dog bit Donald Leask, son of John Leask, on the left cheek yesterday afternoon as he was playing on the street. It is not known definitely whether the boy was teasing the dog or whether the animal sprang at the boy as he was merely passing on the street.

MAIL DELIVERY BURNED.

Fire totally destroyed Harold Spencer's mail delivery car yesterday afternoon. The mail carrier was one mile from Trent River on the Mud Lake Road, when he applied the brakes quickly to keep from slewing in the ditch. The car immediately burst into flames. Spencer had time to remove the mail, but could save nothing else.

CONDUCTOR INJURED.

John Carrett, C.P.R. railway conductor of Smith's Falls, formerly of Havelock, was seriously injured yesterday afternoon in jumping from his train while it was still in motion. Garrett jumped from the train at a small station. He tripped and fell heavily upon his head. Less than a month ago a Smith's Falls conductor was instantly killed in the same manner when he slipped and was dragged beneath the wheels.

HUGE CANADIAN TAILORING FIRM

Takes Entire Output of Several Famous Canadian and English Woollen Mills.

Tip Top Tailors Limited wished to have the majority of their patterns exclusively for their customers; that is, no other clothing concern in the world would be able to sell the same patterns as Tip Top.

To accomplish this, they guaranteed to take the entire output, in certain patterns, of several world-renowned English and Canadian woollen mills.

Such a noteworthy effort required a rapid turn-over, huge volume and across Canada distribution. Tip Top has them all. As the world's largest one-price, made-to-measure Clothiers, Tip Top has stores in every city in Canada, also hundreds of licensed dealers and agents are strategically situated throughout the Dominion so as to render the best possible service to Tip Top customers.

No matter where you may go there is a Tip Top representatives. Peterborough branch is located at 329 George street.

MAPLE LEAFS TIE MILLIONAIRES 3-3

Action Aplenty in Double Hockey Bill at Millbrook Rink.

MILLBROOK February 13 (Examiner Correspondence). — The second double-header hockey game in the recently-formed Town League took place at the Cosmos Rink on Thursday evening, a tie score again featuring the play between the Millionaires and the Maple Leaf teams, while the Maroons and Rink Rats ended up 5-2.

There was an unusually large number of spectators, and a fine brand of hockey was put up, excitement running high during the entire time of play. The line ups included.

Maroons — Goal, E. Gray; defence Owen McCarthy and Cameron Vance; centre, G. Sayles; right wing, G. Gray; left wing E. Nattress; subs., Roy Ferren and E Budd.

Rink Rats — Goal, D. Hutchison defence H. Jeffrey and S. Sloan; centre, H. Whyte, right wing, K Donnelly; left wing, G. Todd; subs., V. Nattress and B Russell.

Referee—Hardie Nattress.

Score—Maroons 5, Rink Rats 2.

Millionaires — Goal, H. Raper; defence, D. Sheppard and M Kinsman; centre, J Stinson; right wing D. Brown; left wing, B. Freelove; subs., W. Skitch and G. Clarke.

Maple Leafs — Goal E C Richards; defence, L. Rowland and E. Hutchison; centre, W Sayles; right wing, G. Harkness; left wing, E. Mitchell; subs., H. Gray and R. Edmunds.

Referee—A Jeffrey

Score—Millionaires 3, Maple Leafs 3.

A. Jeffrey is manager of the Maple Leafs, H. Nattress of the Maroons, Dr. Wright of the Millionaires, and S. Cawker of the Rink Rats

OBITUARY

ADAM PATTERSON.

NORWOOD, Feb. 13. (Examiner Correspondence.)—One of Norwoods most highly respected residents for over half a century, Mr. Patterson, passed away at Tweed on Tuesday. He had been spending the winter in Tweed with his sister-in-law, Mrs. Robert Patterson. Death was due to pneumonia.

The late Mr. Patterson was born in Cobourg 82 years ago, coming to Norwood as a very young boy with his parents and has resided here ever since.

He leaves his widow, who was a daughter of the late Mr. and Mrs. Wm. Nicol of Norwood, also one daughter, Mrs. W. E. Henderson, of Lamont Alberta, and one son, Norman of Rochester, N.Y., also one sister, Mrs. James Calder, of Norwood and one brother, William Patterson, of Lewiston, Montana. The funeral will be held on Saturday February 14, at 3:30 o'clock. Service in the Norwood United Church, with interment in Norwood cemetery.

PORT HOPE COLLEGE DEFEATS GROVE 6-4

Dench, Findlay and Hepburn Play Stellar Game For Homesters.

LAKEFIELD, Feb. 13. Examiner Correspondence.—Trinity College School and The Grove met in a very snappy junior hockey match on Wednesday afternoon in the Lakefield rink, with a good crowd of spectators in attendance.

The goalies were stalwarts and held their nets like veterans, but Port Hope had the edge and walked off with the big end of a 6-4 score. Louis Sabatino, handled the bell and only handed out enough penalties to keep the penalty box in use and not as an ornament only. Dench and his team mates Findlay and Hepburn, played a plucky game throughout. The following is the line up:

T. C. S.—Goal Bell; right defence, McGinnis; left defence, Burton (captain of the team); centre, Keefer; right wing O'Brian; left wing, Worthington; subs. Truax, Dumaresq, Redpath Dawes.

Grove—Goal, Burgess; right defence, Drake; left defence, Wood; centre Dench; right wing, Findlay; left wing, Hepburn,; subs., Strickland, Carter MacPherson, Grey.

SPLENDID ADDRESS HEARD AT NORWOOD

Mrs. William Barrie is Special Speaker at W.C.T.U. Meeting.

NORWOOD, Feb. 13. (Examiner Correspondence.)—The February meeting of the W.C.T.U. met on Thursday February 12, at the home of Mrs. Oliver Buck. After the singing of the first hymn, Mrs. John F. Elliott, read the scripture lesson Mrs. A. Brethen then rendered a beautiful solo. Mrs. William Barrie was the special speaker and gave a splendid address on the Evils of the Drink Traffic which was most instructive and educational. Mrs. Lawlor then gave out clippings to be read by the members that also gave much information along the temperance work.

Mrs. William Barrie was then initiated as a new member of the Norwood Society and Mrs. Stillman presented her with the white ribbon beau.

The meeting was then closed with the singing of a hymn and Mrs. Thos. Buck lead in prayer.

TRENT RIVER

Messrs. Harold Cotton and Red Horner, left Wednesday for Toronto, after spending a few days, guests with Mr. and Mrs. Frank Pollock.

The Women's Institute met Thursday afternoon at Mrs. Fred Scott's for a quilting.

Mr. and Mrs. John Garneau entertained a number of friends and neighbors to a dance on Wednesday night at "Cedar Isle."

Tweed Consolidated School.

CUTTING DOWN AIR ADVERTISING.

Canadian broadcasting organizations in deciding to practically eliminate radio advertising on Sundays and to materially reduce the time given to advertising on week nights is showing a commendable desire to meet public opinion in respect to this matter.

So far as Sunday publicity is concerned the general opinion in this country is that there is no need to commercialize Sunday by allowing broadcasting companies to flood Canadian homes with advertising propaganda and the decision to limit such advertising to the mere mention of the firm sponsoring the program will be acceptable to Canadian set owners.

Equally wise is the policy approved of by the Canadian stations to the effect that advertising after 7 o'clock on week nights shall be cut down to a minimum.

It is recognised, of course, that these privately-owned stations must earn revenues and it is necessary therefore that advertising under certain conditions must be permitted but the thing has been overdone to such an extent that radio enthusiasts have almost lost patience.

The fact that Canadian broadcasting units on their own initiative have taken steps to improve the conditions is evidence that they are alive to the situation.

TAGGING RECKLESS DRIVERS.

How would local motorists whose driving habits are not above reproach like to travel round the country with a red plate containing the letters "R.D." on their cars to tell the world that they are reckless drivers.

That is what careless car-owners in New York State will have to face if a bill introduced into the State Legislature this week becomes law.

An assemblyman from Niagara sponsors the legislation which would require every motorist convicted of reckless driving to carry a warning plate on his car, the plates to be sold at the rate of $1 each and to be carried so long as the Motor Vehicle Commissioner or the Court might direct.

"I believe," said the member who introduced the bill, "that if the state would tag the reckless drivers it would be a step toward reducing deaths by automobiles. If the reckless driver was compelled to carry a sign on his car it would give every one an opportunity to watch his step when he came up to such a fellow on the road."

Certainly few motorists would care to carry the proof of their incompetence and recklessness where the world and his wife could see it and jeer at the car-owner whose disregard for others had brought this public shame upon them.

There is, of course, this to be said, that as a rule reckless drivers need no identification plates—their conduct at the wheel is enough to tell everybody what they are.

THE SPEECH FROM THE THRONE.

The Speech from the Throne at the opening of the Ontario Legislature yesterday followed the modern trend inasmuch as it was more a review of what has been done in the past year rather than a forecast as to what is to be expected this year.

It used to be that the Speech from the Throne was an accurate guide as to legislation coming before the House during the session, but in recent years, both in the Federal arena and in the Provincial Legislature, the former practise has been more or less abandoned.

If major interest in the legislation that is mentioned are the references to the program that is to be carried out for the benefit of agriculture in Ontario.

The plans spoken of include special surveys of local crop conditions and marketing opportunities, the improvement of herds as regards milk production, and more effective means for protecting livestock against the ravages of parasites.

Steps are also to be taken to carry out some of the suggestions of the Ross Public Welfare Commission, the Judicature Act concerning the constitution of the Supreme Court in Ontario is to be amended, compensation under the Workmen's Compensation Act for blinded purposes is to be provided and there is other legislation of minor importance hinted at.

Altogether the Speech from the Throne indicates far from as pectacular session.

THE BY-ELECTION RESULTS

The by-election campaigns which have occupied so much newspaper space in recent weeks have resulted in victories for the Government, although in the West Hamilton fight there was such a startling turnover that a majority of 4,700 at the last general election almost disappeared.

The new Liberal leader, Mitchell F. Hepburn, declares that the close call in the Hamilton battle and the reduced majority in Mr. Ferguson's old riding of Grenville are definite proof that the tide has turned. The Government, on the other hand, accept the double victory as a vindication of their policies and an answer to the charges hurled against the Attorney-General.

These opinions, of course, are given after sizing up the situation through party spectacles.

Viewed from a less partisan vantage ground and considering the two contests collectively the results, however, are not without their element of significant warning for both parties.

Certainly the West Hamilton figures should give the Government pause; there is nothing in the almost complete wiping out of a four-figure majority to indicate on the part of the electors of the constituency any great measure of confidence in the present administration.

On the other hand Mr. Hepburn, if he is as shrewd a politician as his admirers declare him to be, should not miss the significance of the fact that his tactics were much more successful in the urban constituency than they were in the rural riding of Grenville.

True the majority obtained by the Conservative candidate fell short of that piled up by Mr. Ferguson, but it was not to be expected that a newcomer to politics would carry the same prestige as the Premier, and in addition the by-election was a straight party fight while Mr. Ferguson's opponent at the last general election was a prohibitionist, who did not enter the contest until nomination day, and had no organization to help him.

Comparing the results in the two constituencies it is apparent that while the Liberal campaign methods came within an ace of carrying the city riding, they were without a great deal of effect in the rural battle ground.

It would be interesting to know whether this difference was caused by the fact that at its recent convention the Liberal party scrapped its prohibition plank because if that is the explanation it throws a bright light upon possible political developments and suggests that the advent of the threatened prohibition party into the next provincial election would precipitate an unusually interesting and involved campaign in which the results in many rural ridings would be doubtful.

THE FIVE YEAR PLAN

According to Mr. Walter Molson, retiring president of the Montreal Board of Trade, the principal cause of the falling off in the Canadian lumber industry was the encroachments of Russian lumber into markets which were hitherto extensive purchasers of the Canadian article.

In the past few years 80 per cent. of the Canadian spruce cut in the eastern provinces was exported to the United Kingdom. This year shipments were negligible. Russian white wood, which resembles Canadian spruce, took its place at exceedingly low prices. It is estimated that in 1930 Great Britain imported 1,200,000 board feet from the Soviet Union. Similarly a large amount of Soviet lumber was 'dumped' in New York at a price which made it impossible for Canadian dealers to compete.

Whether Canadians agree or disagree with the policy of the MacDonald Government with regard to Empire trade, they will be unanimously of the opinion that it is unsound Empire policy to refuse to erect a barrier against a large part of the Soviet lumber. Years ago a Liberal government passed a bill to stop the manufacture of goods by "sweated labor," which competed with goods made under trade union conditions in British factories. That Act was endorsed by the Labor members of the House, and the conditions under which lumber is produced in Russia to-day are so analogous—indeed a hundred times worse—that it is difficult to understand how Premier MacDonald could condemn one yet condone the other.

The conditions in Russia timber camps were described in a sworn declaration made before the Finnish authorities at Helsingfors by a refugee from Russian Karelia, one Nicolai Lukin, a forest engineer formerly in the employ of the board of forests of Red Karelia. He states that the program of the forestry trust was increased in 1929-1930, and as there was not sufficient free labor available prisoners were used. These prisoners were taken part of the way by train but were obliged to finish the remainder on foot at the rate of 18 miles a day. Their food consisted of cabbage soup that is par-boiled cabbage leaves, some grits and some preserved meat and fish. Among the prisoners are both political offenders and criminals.

Each prisoner is set a definite measure of work per day which must be finished under pain of severe punishment, including maltreatment and bodily injury. When prison labor is not sufficient a program is introduced which applies to free laborers. To each village a certain amount of work is allotted and the able-bodied are told off to do it. The villager who does not complete his share of the work is fined severely. For instance, last winter the brother of the forest engineer who made this affidavit failed from weariness to complete his job by a small margin and was fined 100 roubles.

Similar conditions exist in other industries. This desperate gamble with the lives of 150,000,000 people is being helped by men of other nations who work for the Soviet gold, or buy and sell products. The United States, Great Britain and other countries are making rods for their own backs.

Only last week the dictator Stalin boastfully declared that the five-year-plan would achieve success in four years all told. Little attention need be paid to that claim. It is meant for home consumption, with the view of encouraging the miserable workers to endure their tasks and keep down revolution.—St. Thomas Times-Journal.

EDITORIAL NOTES AND COMMENT.

The newly-elected members of the Legislature won't be able to take their seats until the official returns are made. The Government will probably be able to carry on without them in the interval.

Both parties claim they won the by-election, so that everybody should be happy.

Nothing in the Speech from the Throne indicates that the municipalities are to be given any measure of taxation relief.

The West Hamilton "dog fight" was close enough to give old party men heart failure. The press reports indicated a warm battle and it was just that.

Mr. Ferguson sat up until the wee sma' hours over in London to satisfy himself that Grenville had run true to form.

And now the speeches in the Legislature will take the place in the headline that has been occupied for some time by the "oratory" from the by-election.

It may have been alright for the groundhog to go back, but we hope the roadhog never comes back.—Kitchener Record.

Marriage is the result of a couple having words with a minister. After that they have words with each other.—Brandon Sun.

If we had known that February was like this we should have asked weeks ago for a law to prohibit January.—Buffalo Courier-Express.

Six weeks more of winter according to the groundhog sign. Also, according to the official reckoning, which declares March 21 the opening of spring.—Woodstock Sentinel-Review.

California's return to the terraced farming of the ancient Incas adds more evidence for the growing argument that things are not necessarily useless because an older generation used them.—Christian Science Monitor.

We read that an Italian opera singer, Nino Martini, is going to America to appear in singing films. We hope he is looking forward to becoming a dry Martini.—London Humorist.

A Thought

WISDOM

God places wisdom in multidinous small bottles; but some men seem to think most of it has been placed in a very large jug and that they are the jug.

What To-day Means To You

"AQUARIUS"

If February 13th is your birthday, the best hours for you on this date are from 8 a.m. to 10 a.m., from 2:30 p.m. to 3:45 p.m. and from 8:30 p.m. to 10 p.m. The danger periods are from noon to 1:30 p.m. and from 6 p.m. to 8 p.m.

This date marks the beginning of an eventful period in your life, full of vivid experiences. Material will be placed in your hands, which can do you an infinite amount of good, or an infinite amount of bad, according to your usage. Old ties will be broken, and new ones formed. Young folks will chafe to get away from the family nest.

Children born on this Febryary 13th will be apt to be changeable, undecided and lacking in perseverance, so that they will not get credit for the abilities which they possess. They will be very impartial and judicial, seeing both sides of a question, and would do well in law work. Irritability is apt to mar their finer qualities.

Born on a February 13th, your character is not conspicuous for its consistency, and in many phases of life you are distinctly fickle and changeable. You are curiously human, and have a philosophy of life that is broad and tolerant: you "live and let live." Your instinctive liking for travel and change urges you to voyage into unknown regions, both in the physical world and in the world of mind. You would rather risk suffering through adventure, than to mope in monotony. You are, however, usually fortunate in your risks, and usually light on your feet. Your nature is adaptable, your personality is winning, and your talk convincing.

You are exceedingly generous, though you have a strong family sense, and consider your home and relatives before you consider outsiders. Your loyalty is that of a clansman. Your ambitions are rather vague, and any goal which will give you comfort and interest, is as good as another to you. You are not self-centred, and your thoughts and activities are ever working outwards. You do not harbor resentment—that arsenic of the soul. You have sufficient self-conceit to make you rather thick-skinned to slights, and you are not looking for abuse from other people. Your indifferent attitude is a protective one, as far as you are concerned. There will be more happiness than unhappiness, in your married life. You will assure that.

(Copyright, 1931, The Bell SynInc.,)

W. Knight Purchases Hastings Star Plant

HASTINGS, Feb. 13.—Charles P. Doughty has disposed of the Star office to W. W. Knight, a well-known Hastings' boy who has had considerable experience in the newspaper game.

Mr. Doughty took over the Hastings Star in April, 1919, coming to Hastings from Guelph and during his twelve years as editor of the Star, there have been numerous changes made until now it ranks as one of the best small weeklies in Ontario.

"Charlie" as he was known to his friends, will be greatly missed in the village as he always took a deep interest in everything that would be of benefit to the village. His many friends will be pleased to know that he has accepted a position in Ottawa.

Lakefield

The Ladies' Association of St. Andrew's Presbyterian Church are holding an afternoon tea and sale of home cooking at the home of Mrs. G. Preston on Saturday of this week.

Personals

Rev. W. J. Creighton is in Toronto this week attending the quarterly committee meetings of the Synod.

WINNIPEG GRAIN.

WINNIPEG, February 13.—Wheat future prices again dipped lower in the Winnipeg grain market yesterday, weakness being attributed to weak foreign cables and a scarcity of export sales. At the close prices ranged from 2¾c to 3c lower than the previous close.

At the start offerings were quite heavy, but good buying orders temporarily halted the decline. Following a period of dull trading, another weak spell overtook the market, and prices in all three futures hit the low level for the day.

Expert business overnight was estimated at a scant 200,000 bushels.

Trading in cash wheat was light and featureless, while coarse grains eased with wheat in dull trading.

Futures:

TORONTO PRODUCE

TORONTO, February 13. — Offerings of new cheese were few yesterday and prices took a real jump, brokers quoting lots at ¼c to ½c higher than Wednesday's advance. Prices to shippers were 15c to 15¼c for new large, 15¼c to 15½c for twins, and 15½c to 16c for triplets. Quotations to retailers were unchanged at 16c for new large, 16¼c for twins, and 16½c for triplets.

Butter.

There was a slightly better demand for butter and prices were steady with previous closes at 31¼c to 32c for No. 1 creamery solids and 30½c to 31c for No. 2. Brokers were still holding for top prices on high-scoring lots, and buyers were trying to secure supplies—in a small way—at a lower price.

Cream.

Country shippers were quoting firm prices for cream at 31c to 32c for special, 30c to 31c for No. 1, and 27c to 28c for No. 2, f.o.b. country points.

MONTREAL PRODUCE.

MONTREAL, February 13. — Potato, egg and butter prices were lower, while cheese was unchanged on the produce and dairy market here yesterday.

New Brunswick Green Mountain potatoes to retailers eased 5c an 80-pound bag, being quoted at 80c to 85c, while in car lots they were unchanged at 75c per 90 pounds, bulk.

Carlot prices of eggs were lower, fresh extras being unchanged at 30c a dozen, while fresh firsts and fresh pullet extras were also unchanged at 26c, and fresh seconds lost 1c at 20c to 21c a dozen. Storage firsts and seconds both lost ½c at 17c and 15c a dozen, respectively. Quotations to retailers were unchanged. Receipts were 603 cases.

On the butter market, price for car lots was quoted at 32c to 32¼c a pound, which was ½c lower. The majority of stock was Eastern Township No. 1 pasturized, grass make, regraded creamery, with some Western butter. Broken lots were up to 32½c a pound. To retailers solids were 34c and prints 35c a pound. Receipts were 884 boxes.

Winter white cheese was 12c a pound and winter colored 14½c to 14¾c, while summer cheese was 15½c to 16c a pound. Receipts were only 5 boxes.

Artist Hits Girl Who Made Him Walk Home

NEW YORK, Feb. 13.—Albertt Jaccoma, commercial artist, thought Miss Beverly Spire, twenty year old model, should pay their taxi fare Sunday morning. For he had just taken her to a Harlem night club and had spent his last cent. Miss Spire advised him to hop out and take the subway.

And then, Miss Spire charged Wednesday in Washington Heights Court, Jaccoma broke her nose. The artist was held in $1,000 bail for examination until to-day.

Wooler Church Has Successful Year

Encouraging Sunday School Report Read at Annual Congregational Meeting.

WOOLER, Feb. 13.—(Examiner Correspondence).—The annual congregational meeting of Wooler United Church was held on Monday evening, Rev. A. Poulter, being chairman.

C. F. Wessels gave an encouraging report of the work of the Sunday school during the year, when the average attendance was 140. The sum of $105 was given to Missions and a good staff of teachers is being maintained.

Mrs. S. L. Terrill reported for the Women's Missionary Society showing that the Society had progressed during the year although it did not reach its objective. Total receipts amounted to $262.40.

Mrs. C. F. Wessels, secretary of the Ladies' Aid, reported total receipts for her society to be $638; while Douglas Fox, for the Young People's Society, reported receipts to be $33.90. Mrs. Poulter, leader of the junior congregation, reported 50 names on the roll. William Montgomery, treasurer, reported expenses to be $1,927.03; missionary and maintenance, $520.55; wiring church and parsonage, $280.

The pastor's report was very interesting, giving the circuit work in a general way.

A vote of appreciation was extended to Rev. A. and Mrs. Poulter for their work during the last seven months, the former replying in a few well-chosen words.

The elders and stewards were re-elected at this meeting.

Nearly half the total area of Yugoslavia will be devoted to agriculture this year.

PEND OREILLE MINES RESUME OPERATIONS

Purchase of Ore Shipments Said to Have Been Guaranteed.

VANCOUVER, Feb. 13.—News was received in Vancouver yesterday that the Pend Oreille Mines, and Metals Company of Metaline Falls, Washington, the stock of which is largely held in Vancouver, Winnipeg and throughout Ontario, has resumed operations on a large scale.

This is the stock which had such a sensational rise to $25 a share two years ago. The news came from Seattle and Spokane and was confirmed by Miller, Court & Co., of Vancouver, who are identified with the direction of the company's affairs. Purchase of shipments of ore, says the report, has been guaranteed by the American Zinc and Lead Smelter Company of East St. Louis.

The smelter was understood to have contracted for the purchase of at least 30,000 tons of ore from the Pend Oreille Mine and shipments will move at the rate of 200 tons daily. News of the transaction and renewal of mining activity was received through the Milwaukee Railroad, which will handle the shipments. Pend Oreille stock has been rising steady for several days, and this afternoon was meeting a bid price of one dollar, with no stock offering. Grandview has strengthened also with a prospect that operations at this property which was producing steady before the break in the price of metals may also be resumed. Reeves McDonald of which Pend Oreille holds a substantial share has doubled in price in the past week, closing yesterday at 45.

PLAN MEMORIAL TO LYNNWOOD FARNAM

Bust of Famous Organist to be Placed in Christ Church Cathedral, Montreal.

MONTREAL, FEB. 13.—A memorial to the late Lynnwood Farnam, formerly, over a period of years, organist of Christ Church Cathedral and recognized as one of the foremost organists in the world in his day, is to be placed in the cathedral shortly, according to well advanced plans. It is expected that a bust of the late Mr. Farnam, to be executed by Alfred Laliberte, Montreal sculptor, will be the form of the memorial chosen.

Tentative plans would place the bust in a position near the organ he loved and used with such mastery during his time in Montreal.

A further proposed memorial to the great organist is the compilation of a volume of organ compositions to be written by outstanding composers of Canada, England, France, Germany, and the United States, and dedicated to the memory of Lynnwood Farnam. There is every hope that this memorial will be excuted in addition to the other.

France sent more than 5 500 00 pairs of shoes to the United States last year.

TORONTO CURB HOLDS LISTLESS

General Trend Shows Inclination to Ease Slightly From Last Night's Close.

OILS OFF LIGHTLY.

TORONTO, Ont., Feb. 13.—(By the Canadian Press)—An inclination to ease somewhat from the close last night, was the course taken on the Toronto Stock Exchange market throughout the entire morning. Volume too, was lower with the decline in prices.

Oils were off from ¼ to ½ point with British American going at 14¾, Imperial at 17½, International Pete at 13 7-8, and McColl Frontenac 18 3-8.

International Nickel proved indifferent to the general run of things and nearing the end of the second hour showed a small advance to sell at 17. Noranda on the other hand, followed the rest of the list and sold off 5 to 17.75.

Interlisted issued firmed somewhat after the market at New York leveled off after early weakness. Steels were spotty with Steel of Canada going at 39½ for a gain of ¾. Standard Steel was off a ¼ point to 9¼. Liquors eased slightly from the close last night while industrials and utilities follows suit. C.P.R. was off a ¼ to 43½. Dominion Stores a ½ to 17¾, All Canada Canners issues were slightly lower, while Ford of Canada, Bell Phone and Walkers were all unchanged.

On the curb De Forest was unchanged as was Service Stations and Distillers Seagrams.

Winnipeg Review

Special Service to The Examiner through the courtesy of E. J. Bawlf Company, Grain and Stock Brokers, of Toronto

The market started off under the handicap of weak cables and dipped 1½ to 1¼ cents in the early trade. Selling was of a concentrated kind which had the appearance of being for foreign account and support was quite indifferent until the lower levels were reached. Seaboard house buying came into the picture at this stage, but it was not sustained and the re-action caused by this buying was only temporary. Overnight business was on the small side, and despite the substantial decline in prices, there did not appear to be much more business coming in. This led to later breaks, which were widened by some stop loss selling which developed.

Argentine shipments of 3,589,000 bushels, as estimated this morning, were fairly heavy and had a bearish influence particularly at Liverpool. American markets were closed for Lincoln's Birthday and there was no indication from the source to affect local prices.

A forecast of unsettled weather in United States wheat areas was, how-ever, another weakening influence here, and led to the late selling which came on in the last half of the session. Another factor was the total of Russian shipment the two million bushels reported, indicating that pressure was being maintained from that country. There was some fair outside buying in the October but when these requirements had been filled, the market was again left with fairly general offerings, partly in the way of realizing sales, and with very indifferent support. The result was that re-actions from the low levels were almost negligible and declines ranged from 2¾ to 3 cents were registered for the day. The cash wheat market was quiet with business confined to odd car loads mostly at unchanged spreads.

Coarse grains—Just a minor domestic business was done in oats and barley and there was no revival of export interest pit trade had no special feature, with prices mostly influenced by the wheat market trend.

Liverpool due 1⅜ to 1 3-8 lower based on Winnipeg.

Col. Cockshutt Mum On Big Soviet Deal

BRANFORD, Ont., Feb. 13.—"You papers are doing pretty well on it. You know more than I do", Col. Henry Cockshutt, President of the Cockshutt Plow Company said this morning when queried concerning the repoprted Russian Government offer to take a million dollars worth of seeders from the Cockshutt Company provided they could be paid for with Russian anthracite coal. Asked if his company would consider taking Russian coal in payment for their products, his reply was: "I have nothing to say. I don't want to commit myself."

CURLING

The annual bonspiel between the leads and seconds of the Peterborough Curling Club is scheduled to commence on Monday evening, for the R. L. Dobbin trophy. Further announcement will be made regarding the personnel and draw for ice.

PROHIBITION BILL OUSTED.

LONDON, Feb. 13 (C.P.). — The House of Commons, by a vote of 137 to 18, to-day rejected the bill which would have prohibited the use of alcoholic liquors as beverages throughout the United Kingdom.

SMALL LOSSES IN MAJORITY ON STANDARD

Increased Activity in Higher-priced Issues Follows New York Operations.

HUDSON BAY STRONG.

Pend Oreille Holds Around $1.40 While Noranda Loses 10 to $17.75.

TORONTO, Ont., Feb. 13.—(Cp)—Though resumption of trading in New York was reflected in increased activity among interlisted and higher-priced issues on the mining market to-day, the list lacked definite trend with small losses slightly in the majority at mid-day.

International Nickel advanced a quarter to $16.75, and Hudson Bay was strong at $5.75. Noranda eased 10 to $17.75, and Pend Oreille was holding around $1.40. Sherritt Gordon, whose directors announced the company would enter production with one unit in operation in the near future, was up 5 to $1. Other Lindsleys were quiet.

In the gold group, Lake Shore firmed 15 to $25.60. Dome and Teck Hughes 5 apiece to $11 and 7, respectively, and Big Missouri a couple to 49. Loss of 4 cents were displayed by Wright-Hargreaves and Granada, and Vipond sold off 2 to $1.12. Eldorado continued strong, gaining another 3 to 63. Penny stocks were active but irregular.

Acme Gas, which brought in a gasser near Tillsonburg recently, was fractionally higher at 23. Ajax Oil was quiet and easier and Home Oil dropped a couple to $1.55. Other oils were only lightly traded.

CONTROL LIGHTS FOR CITY URGED

Executive of Automobile Club Sends Several Resolutions on to City Council.

NO "U" TURN SIGNS.

H. S. Huffman and James Juby were recommended for the directorate of the Ontario Motor League representing the Peterborough Automobile Club, at an executive meeting of the local club held last night.

President J. L. Gillespie reported that the large advertising signs east and west of Port Hope calling attention to Peterborough had been resurfaced and re-lettered during the summer of 1930. One of these signs had been blown down, but had immediately been repaired at a cost of about $50.

The Secretary stated that the membership of the Club had been sustained throughout the past year and that many members were taking out the emergency service membership.

A letter was received from the Ontario Motor League calling the attention of the Peterborough Automobile Club to the 24th annual meeting of the League in the Royal York Hotel, Toronto, on February 23. It is expected that a number of the executive and other motor enthusiasts will be in attendance to represent this city.

The following resolutions were drawn up, approved, and sent to the City Council for consideration:

(1) That traffic control lights be installed at the corner of Park and Charlotte Streets.

(2) That traffic control lights be so as to alternate in a fashion permitting of through travel by automobile at a given rate of speed.

(3) That in the congested section signs be erected prohibiting "U" turns.

A petition was framed and forwarded to the Ontario Department of Highways to erect signs in Port Hope directing traffic to Peterborough, as there are Port Hope signs in this city.

MONEY FOR SPEED PLANES.

WASHINGTON, D.C., Feb. 13. — (C.P.).—The Laguardia amendment to appropriate $220,000 to develop high speed naval airplanes was adopted to-day by the House.

The speed plane item was inserted in the $31,070,000 aviation provision in the naval supply bill for the next fiscal year. The provision also was approved.

Weygand May Join "Forty Immortals"

PARIS, France, Feb. 13 (AP) General Weygand, now virtual head of the French army, to-day formally announced his candidacy for election to the French Academy, the so-called "forty immortals."

The seat he hopes to fill is that vacated by Marshal Joffre's death and since his election is a foregone conclusion, it will mean the inclusion of three distinguished soldiers in the academy, the others being Marshals Lyautey and Petain.

Besides a recognized tactical prowess, General Weygand is known as a brilliant writer and lecturer on military and colonial subjects. Since by tradition, the speech of a new member must be devoted to eulogy of his predecessor, the General's summing up of the life of Marshal Joffre is eagerly awaited in military and political circles.

NEW VICE-PRESIDENT.

A. L. Ainsworth, whose appointment as vice-president and managing director of De Forest Limited, radio manufacturers, has been announced. With the company since its inception in 1923, he has for the past few years occupied the position of vice-president and plant manager, gaining a wide reputation for his ability as an efficient organizer of industrial production. Mr. Ainsworth has the distinction of being one of the youngest managing executives in Canada.

MINING BRIEFS.

TORONTO, Ont., Feb. 13. (Special to Examiner.)—The mining market lacked definite trend to-day, though resumption of trading New York after the holiday was reflected in more activity among higher-priced and interlisted issues. Yesterday's features, Eldorado and Pend Oreille, still saw fair turnover, former adding a few cents to its lead and the latter developing a slightly reactionary trend.

Bulk of the news still centred in the smaller operations. It is understood that San Antonio, which, for some time, has been attempting to arrange suitable financing, will shortly send out notice of a special general meeting of shareholders to be held around the end of the month to consider an increase in capital from 4,000,000 to 5,000,000 shares. This increased stock it is believed, will be the basis of a deal for financing of development and, possibly, installation of a small mill, as recommended some time ago by the company's consulting engineer.

Work a Premier.

From the north comes word that Premier Gold has already begun preliminary work towards further opening up of the Tough-Oakes Burnside property. Remaining water is being pumped from the mine and crosscutting to the north vein system near the Sylvanite line should be under way in the near future. It is unlikely the mill will be reopened until the north vein system has been thoroughly explored and diamond drilling intersections secured by Bunker Hill Extension opened up.

Exchange Merger.

Considerable talk has been going the rounds regarding a merger of the Toronto Stock Exchange and the Standard Stock and Mining Exchange. In the opinion of a number of members of both exchanges such a course would be beneficial under existing conditions, but the basis of consolidation presents a difficult problem to be solved. Conversations are said to be of a very preliminary character with no official negotiations under way as yet.

Tillsonburg reports that a natural gas well was brought in recently by Acme Gas and Oil Co. on the Heemer farm, six miles east of the town. The initial flow is estimated at 450,000 feet a day and Dominion Natural Gas Co. has contracted to take all Gas Acme can produce from the district.

A contract which is expected to have an important bearing on future development of the oil field near Ribstone Alberta has recently been entered into between Ribstone Oils Limited and the Canadian Pacific Company. An arrangement has been made wherebythe railway company will take 400 barrels crude oil daily for use as fuel in oil burning locomotives running through the rocky mountains.

Sharp Grain Drops On Chicago Market

CHICAGO, Ill., Feb. 13.—(CP)—Sharp downturns in grains resulted early to-day from acute weakness of wheat quotations at Liverpool, Associated with increased shipments by Argentina and Russia. Corn receipts in Chicago, 355 cars, were larger than either a week or a year ago. Starting 1-8-2½ cents off, wheat afterward held near to the intial range. Corn opened 3-4-1¾ lower and subsequently displayed little power to rally.

BUFFALO LIVESTOCK.

EAST BUFFALO, N.Y., Feb. 13.—(CP)—Hogs 2,800; holdovers 1,000; generally 25 lower; below 200 lbs. active at decline, others slow; desirable 140-200 lbs. mostly 8.25; 220-240 lbs. 7.40-8.00; 250-280 lbs. 7.00-7.25.

Cattle 250 draggy; butcher cattle 25-50 lower; cows weak to 25 lower.

Calves 800; vealers barely steady; good to choice 11.50-12.00.

Sheep 3,500; holdovers 700; fat lambs slow, generally 40-50 lower; good to choice 92-lbs. down 9.00 to mostly 9.10; few handiweights 9.25.

2,056 PATIENTS WERE TREATED IN NICHOLLS HOSPITAL DURING 1930

Annual Meeting of Hospital Trustee Board is Held in Dominion Bank.

V. EASTWOOD RE-ELECTED.

The annual meeting of the Nicholl's Hospital Trustee Board was held yesterday in the Dominion Bank Chambers at 4 p.m. There were present Vincent Eastwood in the chair, and Messrs. E. B. Fowler, E. F. Mason, L. J. Dobbin, A. J. Throop, R. J. Kidd, W. Langford, H. J. McCannon, Dr. H. M. Yelland, Dr. J. M. McCulloch, Dr. G. R. Scott and J. J. Turner.

J. Crane, secretary-treasurer, presented the statement of receipts and expenditures and balance sheet for the statutory years ending September 30th, 1930, which was certified as correct by the city auditor, F. J. A. Hall.

Receipts

Pay patients	$63,494.50
Peterborough City grant	4,800.00
Provincial grant	4,253.70
Refund customs	588.04
Interest on Endowment	12,881.91
	$86,018.15
Loss for year, after depreciation	11,425.43
	$97,443.58

Expenditures

Dietry	$22,088.16
Drugs, Medical and Surgical Supplies	10,495.26
Fuel	8,422.80
Repairs	5,126.18
Furnishings, Napery, etc.	5,479.20
Salaries and Wages	29,537.69
Light, Water, Ice	2,020.01
Taxes, Insurance and Interest	2,009.94
Stationery, Printing and Postage	1,238.08
Miscellaneous	1,446.26
	$87,863.58
Depreciation	9,580.00
	$97,443.58

Balance Sheet
Assets

Cash on hand	$ 1,196.26
Accounts receivable	5,845.91
Inventory, Coal, etc.	5,240.00
Unearned insurance	400.00
Endowment fund	232,000.00
Plant and equipment	66,499.91
Buildings and land	191,331.00
	$502,312.68

Liabilities

Accounts payable	3,900.00
Due new wing account	18,000.00
Reserves for depreciation	37,647.00
Assets	442,765.68
	$502,312.68

In commenting on the report, Mr. Crane pointed out that without taking into account the amount charged for depreciation, the running expenses had been met in spite of the difficulties brought about by the depression which had an effect on collections. The average per day cost was $3.30 which is well within the average cost for the Province. The number of patients treated was 2,056 as against 2,041 for the previous year. The average days' stay for a patient was 12.8. There were 339 births and 106 deaths at the hospital during the year.

After discussion the report was adopted. The election of officers was then proceeded with:

Chairman, V. Eastwood; honorary secretary, E. B. Fowler.

A nominating committee composed of Messrs. Mason, McCulloch, Dobbin, Kidd and J. J. Turner was appointed to strike the standing committees for the year. The committee reported recommending the following:—

Supervision.—H. J. McCannan, chairman; L. J. Dobbin and R. J. Kidd.

Finance.—J. J. Turner, chairman; W. Langford and Dr. M. H. Yelland.

Property.—H. J. Throop, chairman; C. F. Kitney and Dr. G. R. Scott.

Building.—Dr. J. M. McCulloch, chairman; H. A. Morrow, E. F. Mason and H. J. McCannan.

Investment.—V. Eastwood, E. B. Fowler, and the secretary treasurer. The chairman and honorary secretary are ex-officio members of all committees.

Visiting.—January and July: J. J. Turner, H. A. Morrow, and the Mayor. February and August: C. F. Kitney, R. J. Kidd, H. J. Throop. March and September: H. J. McCannan, V. Eastwood, Dr. G. R. Scott. April and October: E. F. Mason, Dr. J. M. McCulloch. May and November: Dr. H. M. Yelland and W. Langford. June and December: E. B. Fowler and L. J. Dobbin.

ADVERTISE IN THE EXAMINER

Bible Class Elects Officers For Year

The Co-Workers' Bible Class of George Street United Church met last evening for their annual meeting with a large number of members present.

The president, Mrs. James A. Spencer occupied the chair and after prayer by Mrs. A. Brown, the annual reports from all departments were received showing a very active and successful year's work. The secretary, Mrs. J. W. Hales gave a splendid annual report and the treasurer, Mrs. W. H. Cunningham the financial report showing a fine balance on hand.

The following presented reports: Finance committee Mrs B. M. Frederick; flower, Mrs. C. E. Wiley; relief, Mrs. J. Tinney, which showed an immense amount of work accomplished; social Mrs. W. Flannery; King's Bank, Mrs. Wasson; program, Mrs. F. Miller; reception, Mrs. A. I. Brown; devotional, Mrs. J. C. Wood; sick and visiting, Mrs. Hall.

Mrs. A. I. Brown, presided for the following election of officers for 1931: Honorary president, Mrs. A. Allison; president, Mrs. J. A. Spence; vice-presidents, Mrs. W. J. Copp, Mrs W. Outram; secretary, Mrs. J. W. Hales; treasurer, Mrs. W. H Cunningham; King's Bank treasurer; Mrs. Wasson, devotional committee Mrs J. C. Wood; finance, Mrs. B. M. Frederick; program, Mrs. W. H. Morton and Mrs. F. Miller; sick and visiting, Mrs. W. Hall; relief Mrs. J. Douglas; social, Mrs. W Flannery; membership, Mrs. F. Smith; flower, Mrs. C. E. Wiley, press secretary, Mrs. F. Miller; telephone, Mesdames Hales, Frederick; Fairbother Cunningham, Flannery; auditors, Mrs. Brown and Mrs. Wood.

Mrs. Spencer in resuming the chair asked the members to give her the same co-operation and loyalty shown during the past year. Dainty refreshments were served by Mrs. Flannery and her committee.

It was decided to sponsor the play "No Account David" on March 6, and it was also decided to continue the sewing for relief and a hearty vote of thanks was extended to Mr. W. H. Cunningham for his assistance in distributing relief parcels and baskets.

The British lifesaving service saved 365 lives from shipwreck last year.

OIL SHARES ARE ACTIVE TO-DAY

Volume of Trading Considerably Lower From First of Week.

ON NEW YORK EXCHANGE.

(By Claude A. Jagger, Associated Press Financial Editor)

NEW YORK, N.Y., Feb. 13 — The long-depressed oil shares were brought forward to smooth the way for the infant bull movement in the stock market to-day.

The impetuous recovery showed decided signs of tiring as trading was resumed after the holiday, but setbacks were checked, first by bidding up the coppers and utilities, and later by bullish demonstrations in the oils. The volume of trading shrank sharply from that of Tuesday and Wednesday, and some of the pivotal shares, notably U. S. Steel, had sinking spells, but Wall Street had been inclined to look for a substantial technical reaction after the vigorous rise earlier in the week, and was impressed with the bulls' ability to carry on as well as they did.

Standard of New Jersey, Atlantic Refining, Mexican Seaboard and American Republic moving up about 2 points, and Houston Oil stock jumped up 7. Such issues as Barnsdall "A", Sinclair, Phillips, Simms, Texas Corp. and Standard of California.

MRS. W. H. MORTON ADDRESSES CIRCLE

Valentine Supper is Held by Members of George Street Twilight Mission Circle.

The February meeting of the Twilight Mission Circle of George Street United Church was held in the Sunday school auditorium when the members met at 6:15 and enjoyed a fine supper. The tables were very attractively decorated with Valentine colors, the arrangements being in charge of Miss Grace Burns' group.

A devotional and business meeting followed with the president, Miss Helen Burns, presiding. Miss Margaret Taylor read the scriptural lesson.

Ways and means of meeting their allocation for the year were discussed and it was decided to sponsor a play. Sides were chosen for collecting coppers issued in 1926 or 1929. Miss Ethel Mills rendered a very pleasing piano solo.

Mrs. W. H. Morton, Superintendent of Mission Circles for the Peterborough Presbyterial was the speaker of the evening, giving a very inspiring talk on Missionary work.

Mrs. Morton spoke on Missions in Africa, telling of the change in conditions where the missionaries were working. Going on to China she spoke of the work of the missionary, Miss Coon, in that country and then referred to conditions in India where there is so much unrest at the present time and where so many object to western civilization, the lower class accepting Christ more readily than the upper classes.

In conclusion the speaker referred to Japan's great spiritual awakening and mentioned that the Conference Rally of Mission Circles and Y.W.A.'s of the Peterborough Presbyterial would be held this year at George Street United Church, and announced that Miss Jamieson, returned missionary, would give a talk, accompanied by lantern slide in April.

Liquor Runner Fined Has Van Confiscated

NIAGARA FALLS, Ont., Feb. 13 — (C.P.).—Friday the thirteenth was an unlucky day for James Wedge, 35, of 198 Wellington Street, Hamilton, for to-day he had his moving van, valued at $50,000, confiscated, a cargo of $10,000 worth of imported liquors held and was fined $500 and costs. Wedge was arrested Tuesday night at Chippawa as he awaited orders for the movement of his load, four tons of liquor, packed in large cases labelled "office furniture." His companion, Murray Stewart, 22, of 202 Wellington Street, Hamilton, was acquitted. The liquor, all bearing labels of the Quebec Liquor Commission, has been taken to Toronto.

QUEER WELCOME GREETS TOURISTS

Loud Speaker on Paris Train Produces Starins of "Home Sweet Home."

PUBLICITY STUNT.

PARIS, Feb. 2— (By mail from George Hambleton, C. P. Staff Correspondent.)— A party of English tourists tell in wondermen of a strange welcome to France.

The channel had been very unkind. They inaded at Dieppe weary, hungry and sad. They passed gloomily through the customs shed to the platform for the Paris train. There they stopped in amazement. The first welcome to France was 'Home Sweet Home" from a loud speaker over the train. Then came "Auld Lang Syne" and the train pulled out.

It was a publicity stunt, although the wondering tourists did not know it. Some of the French trains have been equipped with radios. You hire a headset for eight francs, plug it in and there you are. But it wasn't a French broadcasting station which brought auld acquaintances to mind at Dieppe. The operator had switched on to a couple of phonographic records to make the crowd feel more at home.

Grove School Splits Bill With St. Albans

LAKEFIELD, Feb. 13. — Grove school first and second hockey teams which journeyed to Belleville on Wednesday last to meet teams from St. Alban's School, Brockville at the Arena won out 3-2 in the senior game and registered a 2-1 defeat in the second game. The matches in the nature of a friendly tussle, are annual events, each of these two schools always arranging to meet each other half way.

In the senior game the St. Alban's goal keeper was the star player and turned in an almost perfect game. Seager, wing, also played a clever game, netting two goals for St. Albans. With but eight minutes to go Lakefield forwards unearthed some extra combination, and scored three goals in rapid succession. Macrae got two of these alone and one on a pass from Elmsley. Score 3-2 for the Grove.

In the second scrap, St. Alban's managed to get two goals in the first period, a lead which was not overcome, though Beardmore, Warren and Harris in the Lakefield nets worked overtime. The final score was 2-1 for St. Albans.

TWELVE SHORTHORN CATTLE SOLD

(Continued from Page 1)

bred by R. Matchett, and sold to A. B. Mann for $65. The dam was "Gloster Queen" bred by B. Matchett, and the sire was "Eclipse"

"Promoter", roan bull, born September 1929; bred by R. O. Gibbs, Port Hope; sold to E. Holdsworth Port Hope, for $97.50 Dam was "White Beauty" bred by William Arnold, and the sire was "Collynie Star," bred by A. W. Skinner.

Union Farmers' Tour Of Britain Planned

Party of South African Farmers Will Visit England and Scotland in Summer.

PRETORIA, South Africa, Feb. 13 (By The Canadian Press)—Farmers of the Union of South Africa have again been invited by the British National Union to take part in a tour of Great Britain. The tour will start on June 1 and will be the seventh organized by the British National Union for the benefit of Dominion farmers. A. Canham, a former Trade Commissioner for the Union of South Africa in London, now secretary of the N.N.U., has the arrangements in hand.

There will be a week in London, including a visit to Epsom for the Derby. The party will go to the Smithfield Meat Market and Covent Garden Fruit Market, and a reception will be given by the Lord Mayor.

In Scotland the visitors will visit the Highland Show in Edinburgh and Scotland. Gretna Green, Windermere, the Lake District and various industrial centres, and the Royal Show at Warwick will be visited. The tour will last 61 days, costing approximately $935, which includes second class steamer from Cape Town to England.

Teacher "Skinny" Nervous, Gains Pep 14 Lbs. in 3 Weeks

ST. AURELIE, P.Q.—"Was nervous, exhausted. So skinny, was embarrassed," says Miss Alphonsine Fortier, teacher. "Tried Ironized Yeast. Gained 14 lbs. in 3 weeks. Now healthy and happy."

Teachers, lawyers, doctors, nurses, mothers, ministers all write of gains of 5 to 15 lbs. in 3 weeks with new Ironized Yeast. Blemished skin clears. "Nerves," constipation, indigestion go overnight. New pep.

Ironized Yeast is two great tonics in one. Weight-building brewer's Yeast plus strengthening, blood-enriching Iron. Many times more effective than unmedicated yeast. Results in half the time.

Don't be "skinny," weak, nervous in danger of serious ills. Take these pleasant little tablets. No yeasty taste; no gas. If not delighted with quick gains, manufacturer refunds money Get Ironized Yeast from druggist today. Feel great tomorrow. New pounds quick.

OBITUARY

WILLIAM SMITH

STIRLING, Feb. 13 (Examiner Correspondence)—William Smith of Charlotte street passed away February 6th after an illness of 2 years. The deceased had resided here for 18 years coming from a farm in the Oak Hills.

He was a mason and a member of the Anglican Church.

A masonic service was held at the Anglican Church Sunday afternoon. Rev. B. F. Byers conducted the service.

MRS. JOHN CHRISTIE

The death of Mrs. John Christie on January 25 at St. Joseph's Hospital, Peterborough, after an illness of five days' duration, came as a great shock to her many friends and relatives.

The deceased was twenty years old and before her marriage on Sept. 30, 1930, was Mary Amelia Quinlan. She was an active member of the Catholic Women's League, Norwood, and all through life was loved for her cheerful, kindly disposition.

The funeral was held from the family residence on January 27, at 8.30 o'clock to St. Paul's Church, Norwood, where High Mass was sung by Rev. Father McCarthy, followed by a sermon in which the speaker beautifully expressed himself in regard to the late Mrs. Christie's life; saying she was as a seed planted on earth, to grow in virtue, and now had gone forth to blossom in Heaven and to enter in upon her Eternal Life.

Left to mourn her loss are her husband; her parents, Mr. and Mrs. A. Quinlan, and six brothers, all at home.

Pall bearers were William, George and Thomas Quinlan, brothers of the deceased; also Leo Vincent and Leonard Christie.

MRS. ADELINE SHERWIN

COBOURG, Feb. 13.—The death of an aged resident took place Thursday in Hamilton Township at the home of her cousin, Mrs. J. F. Smith, when Adeline Bush, widow of William E. Sherwin, passed away. She was in her eighty-third year. Mr. Sherwin died twenty years ago. She is survived by a stepdaughter, Miss Edith Sherwin of All People's Mission, Winnipeg, and two stepsons, R. E. Sherwin, Orono, and Austin, of Hamilton.

RHEUMATISM GOES Swollen Joints Vanish

How to End Rheumatism in Less Than a Week

If you suffer from torturing rheumatic pains sore muscles or stiff inflammed joints it's because your system is full of the dangerous poisons that cause rheumatism and make thousands helpless. What you need is RU-MA, and need it right now.

RU-MA acts on the blood, stomach, kidneys and liver, and drives the dangerous rheumatic poisons from the system through the natural channels of elimination—it eases pain the first day.

You must use an internal medicine to free the joints and muscles of crippling stiffness, soreness and torturing pain. That's why RU-MA succeeds while external remedies and pain deadening drugs give only temporary relief.

McDermid & Jury, Bond's Drug Store says no matter what kind of rheumatism you have, or how long you have suffered try RU-MA—it must completely end all rheumatic agony or you get your money back

DELIGHTFUL ENTERTAINMENT HELD BY MEN'S BIBLE CLASS MEMBERS

Social Evening Held in Basement of St. Andrew's Church at Millbrook.

PLEASING PROGRAM.

MILLBROOK, Feb. 13. (Examiner Correspondence). — An evening of delightful entertainment, interspersed with fun and laughter, was provided by the Men's Bible Class of Saint Andrew's United Church Sunday School, the largely-attended gathering being held in the basement of the church on Tuesday, February 10, at 8 p.m., with the superintendent of the school, W. Fred Fails, in the chair.

Community singing of familiar hymns, with Miss Estelle Hetherington as the pianist of the evening, appropriately opened the program, following with the chairman in his opening address mentioned the fact that the Bible class is the largest of its kind within a radius of at least twenty-five miles, and he congratulated the men and their teacher, Mrs (Dr.) Rae, on the good work being done in the members' lives, in the church, and in the community.

Recitations by J. H. George were warmly encored, his opening numbers, "The Beat" being followed by a double recall when he gave, "McSorley's Twins" and "The Sportsman's Prayer."

Comic Quartette

A quartette next called upon literally "brought down the house" as Messrs. J. H. Might, in loud-checked trousers and tie, with long black coat, and goatee; I. M. Nattress, transformed for the time being into a 'real lead' and wearing a white bridal dress, with pearl ear-rings, rope of pearls about 'her' neck, white shoes and stockings, and coiffure ornamented with combs set with brilliants; Milton Challice, who had also joined the opposite sex for the evening and was wearing blonde hair coiled high upon 'her' head, a full-skirted and tight-waisted gown of checked gingham and tan shoes; G. E. Burnham, who contented himself with the attire of the early sixties, cutaway coat, light grey trousers, high stock and collar, walked upon the stage, and sang "Three Black Crows" Mr. Burnham distinguishing himself by singing the verses as a solo, the others joining in the chorus. An insistent demand for an encore brought the four back upon the platform, "Polly Wolly Doodle" being the classic selection chosen for the recall.

The pastor, Rev. W. W. Jones, B.D., spoke briefly bringing applause with his announcement that Judge Mott, of the Juvenile Court, Toronto has promised to be one of the speakers on the last Sunday in May, when the Men's Class observes its anniversary occasion. Mr. Jones also highly complimented the class on its excellent record, the faithfulness and efficiency of the teacher coming in for particular mention, and added his wishes for the organization's continued enterprise and success, predicting a bright and useful future as the work of building Christian character among the membership goes steadily on.

Mr. George gave "Other Days" by request as his second reading, the encore being "Opportunity" and Miss Hetherington played one of more piano solos while the stage was made ready for the special feature of the evening, "The Family Album" a one-act playlet in which several members of the class participated.

An old-fashioned sitting-room, with a dish of rosy-checked apples on the table, big cushioned rocker, wicker knitting-basket holding a half-completed grey sock, tall candles burning in wooden holders, was the setting for the story, while Almira Hobbs (L. W. Smith) attired in quaint black silk dress crocheted shoulder shawl, and with white frill inside 'her' black bonnet encircling her face, and showing off her white hair quite naturally, took the part of the hostess telling the family history from the old-time photograph album.

Picture Album

Featuring the centre background of the stage was a specially-built big family album, covered with red plush and with the word "Album" in large gold letters on the front, "Timothy" (Thomas Douglas) an old friend of Almira's opening the cover each time as the various 'pictures' were shown.

As the cover was turned back, framed within exact likeness to the once popular 'cabinet photograph' the several characters took their places in turn, as the old lady in the rocking-chair continued her relaion of family history, the audience being convulsed with laughter not only at the humorous anecdotes told with relish by Almira, but also at the old-fashioned and often ridiculous make-up of the one posing as the 'picture.'

The list of characters included the following: My mother (Robert McDonald; My father (T. H. Aiken); Me as a little girl (Cecil Hubbeard); My first beau, (Fred McMahon); Eben, my husband (William Rowland); Me as a bride (I. M. Nattress); The twins (Fred Hard and Hilliard Lang); The Parson, (J. Powell); The parson's wife (Walter Lane); The parson's boy, (Edgar Fallis); Sister Jane, William Theobald); Sister Jane's husband (William Roberts); Sister Jane's eldest daughter, Irwin Hatherly); Sister Jane's son, (Albert Muspratt); Sister Jane's youngest daughter, (Walter Widdis); The village beauty (Milton Challice); The Mayor of the village (Mr. Bradburn); Grandpa Hobbs (F. A. Kidd).

Side whiskers of the 'mutton chop' variety, chin whiskers, heavy mustaches, big button-hole bouquets on the men's coat lapels, flower-trimmed bonnets and hats of an earlier era, face veils, cut-away coats, high stocks, and bulky neckcloths, lace collars, wide hair bows, white vests, and a bridal veil and orange blossoms for 'Me as bride', helped in the disguise for the photographs, and many times the onlookers, while rocking with laughter, were kept guessing as to the identity of the character shown when the album lid was turned back.

A chorus by all those who had taken part, with the other members of the class, the selection being "Auld Lang Syne" completed a most entertaining program, and after the National Anthem had been sung, homemade candy was served, and a pleasant social hour enjoyed.

RHEUMATISM

Neuritis—Sciatica

For Swift Relief Here's Something That Never Fails

Make no mistake—there is one supremely good remedy for ailing joints and muscles and the name of that wonder worker is—JOINT-EASE.

All over the world people use it for the agony of Rheumatism, Neuritis and Sciatica—and find it good.

Just rub it in—and rub it in good—it's a splendid penetrating emollient is Joint-Ease, and when you rub it in—away it goes—right to the seat of pain and agony—Then blessed relief comes speedily.

Use it freely for joints that are stiff, inflamed—swollen or creaky—use it to put youthful suppleness into joints that are growing old.

Use it for swollen knuckles—for stiff neck—lameness—lumbago and lame, aching back—it will never disappoint you.

Joint-Ease is made in Canada and sold wherever good medicines are sold—60 cents a generous tube.

Dr. Wood's

Norway Pine Syrup

Contracted Bad Cold Believed Getting Pneumonia

Miss Marguerite Croft, R.N., Chester Basin, N.S., writes:—"Last winter I contracted a very bad cold. Nothing I tried gave me any relief from the severe pains in my chest, and I believed I was getting pneumonia. My father told me one night he had a new cough medicine for me to try. Before I had taken a half bottle of Dr. Wood's Norway Pine Syrup the pain was greatly relieved. I took two bottles and my cold had disappeared."

KINSMEN PLAN TICKET DRIVE

Adrian Macdonlad Introduced as New Member of Kinsmen Club.

DELEGATES NAMED.

The members of the Kinsmen Club at their regular bi-weekly dinner held in Hooper's Palm Rooms last night laid plans for final ticket selling drive for their play Hay Fever which is being presented in the Collegiate auditorium on Wednesday, February 25. The proceeds of the play are being used for relief and service club work and the cast is working hard at one of the finest plays ever to be presented by amateurs in the city.

Newt. Staples, chairman of the Sunshine Committee appealed to the members to get behind the project and put it across for "We are presenting to the citizens of Peterborough something new in the world of drama and something that is hoped will firmly establish the Kinsmen Club in this city as a real service organization which plans to aid in the educational welfare of this community."

Adrian Macdonald, master at the local Normal School, and director of the play, was introduced to the club as the baby member by Herbert Wilson.

Alex Elliott and Dr. Ralph Honey were appointed delegates to the district convention with Herbert Wilson and Roderick Davis alternates.

The invitation of the Toronto club for the Peterborough Kinsmen to attend a dinner in Toronto in March was accepted.

Announcement was made that the seat plan for the play would open in Riley and Hickey's store on Friday, February 20.

After the dinner the members went to the Chemong Park pavilion where a big dance and barbecque was held, with Eric Robert's orchestra providing the music.

HEADACHES AND DIZZY SPELLS

TANLAC Brought Ease and Comfort.

So many women live in dread of these blinding headaches and flashes of dizziness that come with attacks of indigestion or whenever the stomach is upset, and yet—all they need do to be free of pain and suffering is to take a teaspoonful of TANLAC before each meal.

When Miss Jeanne Aubin, 6726 Chateaubriand St., Montreal, began taking this wonderful tonic, she weighed only 89 pounds, and was constantly tortured by headaches and dizzy spells, due to indigestion. "I gained eleven pounds and could not ask for better health than I now enjoy," she writes.

Over 100,000 men and women have testified by letters to receiving the same gratifying results from taking TANLAC. It does far more than stop pain, gas, palpitation. It builds strength and vigour. It tones up and rejuvenates the whole system.

And remember that TANLAC must help you or your money will be promptly refunded. Your druggist sells every bottle on this positive guarantee—and more than 55 million bottles have been sold.

FASHION SERVICE

A jaunty dress for youth is this little bolero model. It is printed crepe silk in dark hued ground. A striking effect is achieved through the bodice of plain crepe in matching tone of the pattern of the print.

The peplum flounce split at the front gives it darling chic. The skirt displays smart comfortable flaring fulness at the hem.

It's a splendid dress for immediate wear and one that you'll find so much use for Spring for street without a coat.

Style No. 3008 may be had in sizes 14, 16, 18, 20 years, 36, and 38 inches bust.

Another charming suggestion is light navy blue wool crepe with eggshell wool lace blouse.

Plain crepe silk in wildfire red with white embroidered batiste blouse is ultra-young and modish.

SEEK RESIGNATION OF RELIEF OFFICER

North Monaghan Citizens Form Central Relief Committee.

Plans for the formation of a central committee to handle relief work in the township of North Monaghan were fully discussed at a meeting conducted in Confederation School last evening by members of the Ratepayers' Association of North Monaghan, with James Milby in the chair, and representatives from each of the districts in the suburban area were appointed with the idea of forming sub-committees which shall comprise the central organization.

Convenors of committees were appointed as follows: Jackson Park—W. Cartner; Brownton, W. Stevens, Mrs. G. Patton; Claraday—Rev. J. L. Hughes and Mr. Harrington; Crawford's Grove—Mr. Stephenson.

Officers of the Ratepayers' Association were also elected, the organization which was formed just previous to the last municipal election having previously been run by an interim committee. They are as follows: President, J. Milby; vice-president, W. Carter; secretary-treasurer, B. L. Barnes.

Organizations represented at the meeting besides individual ratepayers were: Confederation Home and School Association, St. George's Anglican Church, and No. 2440 N. Monaghan L.O.L.

The discussion showed a keen desire on the part of the meeting to aid in the alleviation of distress in the township, and to combine their efforts to prevent overlapping, and no time is to be lost in carrying out these objects.

On the motion of Rev. J. L. Hughes seconded by Mr. Stevens, it was decided, "That the township council be required to separate the work of the relief officer from all other situations at the disposal of the council and that they recommend the appointment of some other party to do this work."

The motion is to be brought to the notive of the township council at today's meeting.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

WHEN YOU SIT down to write a short note, do you end up by writing one about twice as long as it should be?

* * * * * * *

I know a number of women in Peterborough, who do this, and yet a short note is sometring that every woman should learn to write.

* * * * * * *

Most women, when they sit down at their desks are inclined to write letters when notes would do just as well and which are really the things to be sent

* * * * * * *

A letter takes so much longer to write and is less appropriate in many cases, than notes which are in good form.

* * * * * * *

When a family i bereaved by the loss of one of its members, just a line written across one's calling card, and mailed promptly, is enough to let the friend in the family realize that your thoughts are with her in the sorrow.

* * * * * * *

Be sure, when you do this, when sending to all but formal acquaintances, to cross off the Miss or Mrs. and write above it your first name.

* * * * * * *

If you prefer to send a written line, let it be short, not gushing, and above all expressing sincerity. When one is in trouble a few words of genuine sympathy are cherished.

* * * * * * *

When a family is bereaved by the loss of one of its members, just a line recovery while saying enough about the illness for her to realize you do not under-estimate it.

* * * * * * *

When a friend receives some honor, or has done some work worthy of recognition, send an appreciative line to her. So often such notes are never sent although one has every intention of doing so.

* * * * * * *

Everyone has the ability to assuage grief to some degree by notes of sympathy. The ability to cheer hours of sickness is within the power of everyone, too. And the joy of increasing the happiness of those to whom the wheel of fortune has brought good things is also in the hands of the person who writes a short note expressing pleasure.

BANKS WILL NOT CO-OPERATE.

CANBERRA, Australia, February 13 (C.P.). — The Board of Directors of the Commonwealth Bank today decided not to co-operate further in financing the State Governments unless drastic steps are taken to reduce expenditures.

The Commonwealth Treasurer, Theodore, took an expression of the bank's attitude to a conference of State Premiers to-day as its answer to his request for endorsement of a plan to restore 1929 price levels.

AIMEE IS IN JAPAN

TOKYO, Feb. 13. (CP)—A Rengo news agency report from Kobe today said Aimee Semple McPherson and her daughter Roberta had sailed from there on the liner President Wilson after two days of sightseeing in Kobe and Kyoto.

Roberta told reporters they were enroute to Hong Kong to visit the grave of her father, Robert Semple, a missionary who died in 1911. The girl said her mother still was a bit nervous, but that the voyage across the Pacific had done her much good.

SUNDAY SCHOOL PRIZES AWARDED

Successful Program Presented at Annual Concert of St. George's S. S.

PLEASING NUMBERS.

The annual concert and distribution of prizes for regular attendance at St. George's Sunday School for the past year was held in the church basement last evening with a good attendance of parents and friends. Rev. J. L. Hughes acted as chairman and the proceedings opened with the singing of "O Canada." A program was provided by scholars of the Sunday School, and consisted of recitations by Ruth Farr and Alma Carter, pianoforte solos by Mary Parkes and Marjorie McCormick, a pianoforte duet by Ruth Farr and Ruth McBride, vocal solos by Doris Dossett (accompanied by Marjorie McCormick) and Aileen Hughes, choruses, "Two Little Eyes" and "Joy, Joy, Joy" by the Primary Class (accompanied by Marjorie Sims), and an action song "Five Little School Girls," by Lois McBride, Ethel Sims, Aileen Hughes, Margaret Russell and Madeline Russell. Members of the Junior Auxiliary, trained by Mrs. Hughes, gave two pleasing items in the form of action songs. "Seven Little Days of the Week" was sung by Theodora Johnson, Evelyn King, Ruth McBride, Mary Parkes, Agnes Sturgeon, May Pickles, and Ruth Farr. "The Village Blacksmith," with Rev. J. L. Hughes as soloist, and actions taken by eight boys and four girls, was an item which brought back the work of the old-time blacksmith, and was so loudly applauded that it was repeated. Those taking part in it were Alfred Johnson, Walter Farr, Lawrence Johnson, Earl Gibson, Arnold Pickles, Stanley McCormick, Teddy Styles, Frank Ferguson, Elsie Martin, Audrey Russ, Doris Styles, and Betty Ferguson. Mrs. Hughes acted as accompanist. Two other items were cancelled owing to sickness of the performers.

Prizes to the successful scholars were presented by the rector, the following being the winners: Eddie King, Douglas Jonnson, Lawrence Johnson, Cecil Johnson, Jim Ferguson, Fred Johnson, James McCormick, Kenneth Anderson, Thomas Panter, Ethel Sims, Lois McBride, Evelyn King, Betty Ferguson, Mary Parkes, Mildred Lush, Ruth McBride, Marjorie Sims, Doris Dossett, Grace Field, Howard McBride, Frank Ferguson, Arnold Pickles, Stanley McBride, Bernard King, Alfred Johnson, Stanley McCormick, Wilfred Gynane, Alfred Field.

Mr. E. Tucker moved a hearty vote of thanks to the rector and Mrs. Hughes for the time and trouble taken in arranging for the program and preparing the children for the action songs. The meeting was brought to a close with the singing of the National Anthem.

BELGIAN COMMANDER IS DEAD.

PARIS, Feb. 13.—(C.P.)—Lieutenant-General Bernheim of Belgium, who commanded the Belgian troops on French soil during the Great War, died here to-day.

Dublin is to have a "gay white way."

CURLER IS FOUND DEAD IN HIS CAR

Waubaushene Man Collapses While Driving Home From Toronto.

THIRD RECENT FATALITY.

WAUBAUSHENE, Feb. 13.—While driving from Midland to Waubausene on his way home to Orillia from the Toronto curling bonspiel, Charles O. Wilkin, Waubaushene Hydro employee aged 41, died suddenly in his automobile, which, with the body lying across its single seat, was found by Harry Holmes, traveller, on the roadside yesterday afternoon.

The late Mr. Wilkin was apparently in the best of health when he and George Price of Waubaushene left Toronto. They drove to Midland and had lunch there. Price remained at Midland, and Wilkin drove on alone. On the way to Waubaushene his car was passed by a friend, C. W. White, to whom Mr. Wilkin waved gaily as he sped by.

Wilkin's machine was found by Holmes parked on the roadside, giving evidence of having been driven there by Wilkin himself. There was no semblance of accident, and apparently Wilkin felt the spell coming on him in time to stop his car in a safe place.

D. Porter was called to the roadside, and he pronounced life extinct. Upon investigation by the Coroner the cause of death was given as acute indigestion. The funeral will be held Saturday in Orillia, under Masonic auspices.

The late Mr. Wilkin was married, and is survived by his widow and an 8-months-old child.

Mr. Wilkin was the third Ontario curler to collapse and die within the last ten days. A little over a week ago Hugh Walker of Galt dropped dead on the ice at Paris. Tuesday night Alex. Forbes, also of Galt, was stricken while leaving the rink, and died soon afterward.

The next Irish Free State general election may not be held until September, 1932.

SOCIETY DECIDES FORM STUDY CLASS

W.M.S. of Norham United Church Holds Monthly Meeting—Pleasing Program.

NORHAM, Feb. 13.—(Examiner Correspondence). — The monthly meeting of the W.M.S. of Norham church was held on Tuesday afternoon, when the president, Mrs. D. R. Clare, was in charge.

A letter from the Warkworth Auxiliary was read, inviting the Norham Society to join with them in the service for the World's Day of Prayer on February 20, and this was accepted.

It was decided to form a study class during Lent to take a more definite study of last year's study book, "From Jerusalem to Jerusalem." It was planned to have a weekly class during the Lenten season, and that Rev. D. R. Clare be asked to lead the class.

Mrs. George Palmateer, leader of Group 2, had charge of the program when Mrs. Stanley McNutt read the scriptural lesson and Mrs. Wilton read the leaflet, "Lead us not into temptation."

Two heralds responded, Mrs. Clare for Korea and Mrs. D. Evans gave a talk on "How education affects the social conditions of Japan." Little Ferne Wilson sang very sweetly "In His Name." An instrumental duet by Mrs. Harry Wilson and Miss Edna Evans was much enjoyed. Mrs. George Palmateer gave a splendid paper on "The glorious opportunity of giving." Mrs. Harry Wilson sang in her usual splendid voice. After closing prayer by the president the groups discussed some of the problems of the coming year during the tea hour.

Urgent Appeal Made For Prairie Children

LONDON, Feb. 13. — (By Thos. T. Champion, C. P. Staff Correspondent.)—In many outlying districts of the prairies the children receive no religious instruction at all and as a result juvenile crime in that part of Canada is on the increase," asserted the Duchess of Atholl, a Conservative member of Parliament, speaking to-day in aid of an appeal for funds for a Western Canada Sunday School Caravan.

Miss Hassell, secretary of the fund, said that hundreds of new settlers were literally starving. "No wonder feeling runs high when Britain buys wheat from Russia and Germany instead of from a Dominion whose settlers have been persuaded to leave England for Canada, only to be left to starve," she said.

Know the Feeling of Vibrant Health in 7 Days or Vitalex Will Cost You Nothing!

DR. HARRY J. PERKINS, M.D., PITTSBURGH, PA.

Physicians All Over Country Amazed How Vitalex Speeds New Strength to Weak Run-Down, Constipated People

"I have tried your Vitalex and I find that it is an excellent product, as it contains the ingredients that go to make up a strictly first-class tonic, one that is indicated in a variety of ills that human flesh is heir to, such as an overworked liver, biliousness, followed by headache, coated tongue, nausea, pain in the back, palpitation of the heart, a variety of kidney complaints, acidosis, meaning an increased acidity or gas on the stomach. You may avoid or overcome Nephritis or inflammation of the kidneys and sistitis or inflammation of the bladder if Vitalex is used persistently.

"The ingredients of Vitalex are some of the oldest and best known to the Medical Profession and have never been improved on or replaced by other ingredients, consequently they have stood the test of time and are the best known remedies for the complaints above mentioned. Therefore, I do not hesitate to recommend them, for they are worthy of the highest recommendation. So I feel that I am spreading sunshine when I am recommending Vitalex to the public."

Real Relief From Rheumatic Pain

Does your back ache? Do you have twinges in the shoulders? Stiff arms Are you crippled so walking is difficult? Are your hands twisted and snarled? Are your knees stiff? Does rainy weather or change of weather torture you with shooting pains Dr. Kunkel, of Philadelphia, says: "Vitalex is a Specific for Rheumatism in addition to its other merits."

Vitalex Recommended and Sold With a Money Back Guarantee by

LYNCH'S DRUG
M. E. FINN
McLEOD'S DRUG
E. H. NORTHEY, Lakefield

TEAR OUT THIS IMPORTANT REMINDER

GUARANTEE

This is your guarantee that Vitalex will help cases of general exhaustion, biliousness sleeplessness, headaches, backaches, dizzy spells due to constipation gases, or the druggist will refund the complete purchase price.

Every person who would like to feel better, eat better, sleep better and look better can obtain a bottle of this wonderful Vitaminized Vitalex on this liberal offer; that if Vitalex does not bring satisfatory results by the end of seven days you may return the unused portion of the bottle and have your full purchase price refunded.

Vitalex contains nothing harmful whatever, and it may be the beginning of a new life for you.

Don't delay. Start taking Vitalex TO-DAY. The pure, harmless ingredients are carefully explained to you. You will get a new grip on life at once. Your improved health and appearance will be a revelation.

MODERN GIRLS JUST 'SAVAGES' SAYS EXPLORER

Mitchell-Hedges Can't See Difference Between Women of To-day and the Primitives.

ALL ARE SISTERS

Highly Civilized Woman of Great Cities Reverting to Habits of Primitive.

NEW YORK, Feb. 13—When a woman bobs her hair, arrays herself in fancy jewelry, puts paint on her face, wears less clothing and demands complete emancipation, she's primitive.

So said Frederick A. Mitchell Hedges, English explorer, who knows something of the primitive state, having associated with the tribes of Central America for seventeen years. He arrived on the White Star liner Adriatic to prepare for his ninth expedition.

All Are Sisters

The highly civilized woman of all great cities is following precisely the well-ordered course and reverting to the same habits as the primitive woman, Mitchell-Hedges declared. He added:

"When the Indian woman is at the transition period between girlhood and womanhood, she has her hair cropped close, to signify she is of the marriageable age. The civilized woman now has her hair cropped close.

"The civilized woman delights to wear large necklaces and decorate herself in other fancy ways. She puts excessive paint on her face. So does the primitive woman.

Discard Clothes

"The primitive woman discards clothing—the less clothing she has the more primitive she is. The civilized woman is doing the same.

"The analogy is carried further in the demand of the civilized woman for complete emancipation. I know of a tribe, the Chucunaque Indians, where the woman chooses her mate, takes him to live with her and never lets him do a thing unless he is ordered."

Mitchell-Hedges will lead an expedition, sponsored jointly by the Museum of the American Indian and the British Museum, which will investigate further his findings last year of a pre-Mayan culture.

Grace Church Society To Act As Hostesses

Millbrook Women's Auxiliaries to Observe Day of Prayer.

MILLBROOK, Feb. 13 (Examiner Correspondence) — The executive of the Women's Missionary Auxiliary of Saint Andrew's Church was responsible for the February meeting, held in the church parlors on Wednesday at 3 p.m., the chair being taken by the corresponding secretary, the president, Mrs. (Rev.) W. W. Jones, being unable to be present. Over forty members and visitors were in attendance.

The meeting was under the supervision of the secretary of Christian Stewardship, Miss Estelle Hetherington, who took the chair when the opening devotional and business period had been completed. Mrs. H. E. Smith led in the opening prayer, and the scripture lesson was read by Mrs. (Dr.) Rae. The hymns throughout the meeting specially emphasized the subject of Stewardship.

Announcement was made of the World's Day of Prayer on Friday, February 20, the three Auxiliaries of the community following their usual custom of uniting for this important gathering, it being the turn this year of the Grace Presbyterian Church to act as hostess Society for the occasion. All the women of the community will be heartily welcomed to the service.

The hymn, "O Jesus I Have Promised" opened the formal program on Wednesday, Mrs. J. McKnight reading a leaflet on "Preparation for the Master's Work," after which Mrs. G. W. Sayles and Mrs. Irwin Hatherly delighted the listeners with their duet, and the prayer specially on the subject of Stewardship was offered by Miss Burnham.

Mrs. Thornton's reading, "How the Tenth Saved a Man" was replete with interest and instruction, and Miss Hetherington's paper on "The Stewardship of the Means of Grace," with special emphasis on prayer, Bible study, Christian testimony, and Christian living, particularly inspiring and helpful, leading up to the personal question, "How shall I render an account of my stewardship in these essentials?"

A survey of the women of the church not yet connected with the Missionary Auxiliary preceded Miss Hetherington's address, the list being read, and the thought pressed home that, although the W.A. has over ninety members including the life and annual members, there is still room for canvassing for new names for the list.

The meeting was closed with the W.M.S. Watchword, "Not by might, nor by power, but by my spirit, said the Lord of Hosts; this is the victory that overcometh the world even our faith."

Avoid that sneeze

UNLESS you enjoy sneezing and sniffling and coughing through the winter, you really should follow the advice of doctors, who know that prevention is the best cure for colds.

All that's necessary is a daily lubrication of the membranes of nose and throat. At bedtime, simply snuff a little "Vaseline" Petroleum Jelly into the nostrils. It coats the nose and throat with a film of Jelly which prevents germs from getting a foothold in the sensitive tissues. If you spend much of your time in a very warm, dry room, do it oftener. For a raspy throat, swallow a spoonful of "Vaseline" Jelly—it is perfectly safe to take internally.

You can buy "Vaseline" Petroleum Jelly at any drug store for a few cents. And remember when you buy that the trade-mark Vaseline on the label is your assurance that you are getting the genuine product of the Chesebrough Manufacturing Company, Cons'd, 5520 Chabot Ave., Montreal, Canada.

VALENTINE TEA SOCIAL SUCCESS

Held Under Auspices of W. A. of St. John's Church at Lakefield.

HALL DECORATED.

LAKEFIELD, Feb. 13 (Examiner Correspondence).—The annual Valentine Tea held under the auspices of the W.A. of St. John's Church was the premier event of Tuesday. The Parish Hall was gay with its red and white decorations, and hearts, arrows, cupids and the insignia of St. Valentine ran riot everywhere. This is the seventeenth annual Valentine tea and its success was decided as the proceeds amounted to about one hundred dollars, which was gratifying to both officers and members who had put so much individual effort into its preparation. Two members, active always in this event each year were missing, being called away by death during the Autumn, these ladies, Mrs. Barker and Mrs. Mahood, have handed their touch of service to other hands who are continuing to hold it high.

Guests were received by Mrs. W. J. Creighton, president, and Mrs. F. G. Kendall, honorary president.

A table of dainty novelties was in charge of Mrs. J. W. Todd, while Mrs. S. E. White and Miss F. M. Atwood presided over the fancy work; Miss S. Hetherington sold aprons, fancy and plain, which were especially attractive.

Home cooking of many varieties, cake, biscuits, tarts, etc., were sold by Mrs. T. Watson, Mrs. T. Z. Webster and Miss Creighton.

The candy table was, as usual, in charge of Mrs. K. A. Mackenzie, who was assisted by Mrs. Goldsmith, who also was guardian of the fish pond, which enjoyed a whole afternoon's popularity among the younger visitors who found it highly satisfactory and most alluring.

Afternoon tea was served by a competent committee, composed of Mrs. T. Junkin, Mrs. C. Stenner, Mrs. W. Chappell and Mrs. J. Earnshaw.

Following the custom of the past few years a progressive euchre was held in the evening and was much enjoyed. Seven tables were played and the prizes were won by Mrs. A. Wannamaker and Mr. G. O'Neil. The consolation prizes were won by Mrs. Earnshaw and Mr. Leslie Gregor. The special prize which was donated by a friend, for the highest score made by a member of the W.A., was won by Mrs. W. Chappell. Mrs. Chappell was tied with Mrs. C. Stenner and the winner was decided by a cut.

SUFFERED FOR 50 YEARS

IF YOU suffer from constipation, read this enthusiastic letter from Mr. R. J. Foster (address on request).

"I have been constipated for the last 50 years—taken all kinds of drugs with only momentary relief. I have been using your ALL-BRAN six weeks. It has given me permanent relief. I can heartily recommend it to be a certain remedy for constipation."

Eat this pleasant cereal and overcome constipation in a natural, safe way. Two tablespoonfuls of Kellogg's ALL-BRAN daily. In stubborn cases, serve with each meal. Do this and banish pills and drugs from your life.

Kellogg's ALL-BRAN also adds needed iron to the diet. Look for the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

Mrs. Lewis Hie, Miss Cora Baxter and Mr. James Baxter, were in Cobourg on Tuesday.

The members of the Young People's Society met in the Sunday School Hall on Tuesday vening when Miss Hazel Blodgett read the scriptural lesson and Mrs. Lawley gave the topic, "Christmas in Africa." Miss Bethel will take the topic next Tuesday evening.

Stop That COUGH!

A most effective method of treating coughs, colds, sore-throat and bronchitis is to let a Peps tablet dissolve in the mouth. Soothing, healing fumes are released, which are breathed down the air passages, loosening the phlegm in the throat, stopping the racking cough and clearing the bronchial tubes.

PEPS 25c. A Box

HOME TOWNERS

Tidbits, Interesting and Humorous CAMPBELLFORD

Mrs. T. S. Baker is on a visit to Toronto the guest of friends and relatives there.

Mr. J. G. G. Kerr of Toronto was a business visitor to town on Wednesday and Thursday of this week.

Mr. and Mrs. Alex Hall have as their guest their daughter, Mrs. Beecher Blake of Peterborough.

Mr. A. D. Bennett left on Thursday for Toronto, Stratford and Waterloo. He will attend a banquet tendered to the new mayor of Toronto, William S. Stewart, by the undertakers of the city on Saturday.

District Churches

CAMPBELLFORD

Services at Christ Church (Anglican) on Sunday will be conducted by the rector, Rev. N. Clark Wallace, who will preach at morning and evening prayer, which will be at the usual hours. There will be a celebration of the Holy Communion at 8 o'clock in the morning on Ash Wednesday, February 18, there will be a Holy Communion service at 10.30 a.m. and shortened evensong at 7.30 p.m. A vestry meeting in the Parish Hall will be held on Monday evening, February 23, at 8 p.m. The Willing Workers will entertain all the women of the congregation on Monday, February 16, at Mrs. C. W. Smith's, at 8 o'clock. It is expected that all ladies will make an effort to be present.

At St. John's United Church the Rev. R. C. Tait will take for his sermon theme in the morning "Beauty for Ashes" and in the evening his subject will be "Man, Stand Up." The evening service will be featured by the orchestra under the direction of Mr. Albert Hazell, which will assist with the service. The annual congregational meeting will be held on Tuesday evening, February 17 in the Sunday School room.

At St. Andrew's Presbyterian Church the preacher for the day will be the Rev. J. C. Robinson who will conduct both morning and evening services. Special music will be featured by the organist, Mr. W. A. Newcourt, A.L.C.M. At the morning service the choir will render the anthem, "By Babylon's Waves," (Gounod). At the evening service the soloist will be Miss Helen McDonald and the choir will sing the anthem, "Praise Ye The Father," (Gounod).

On the Seymour United Church circuit the Rev. F. G. MacTavish will conduct services at Zion at 11 a.m., Stephens at 3 p.m. and Tabernacle at 7 p.m.

At St. Andrew's Presbyterian Church, Burnbrae, the Rev. Donald A. McKenzie will take for his sermon subject at the morning service of worship, "Vision and Service."

RADIO PROGRAM

The most complete all-Canadian radia hook-up will take place Sunday evening, February 15, from 6 to 6.30 p.m., Eastern Standard Time. The programme, distinctly Canadian throughout, will be broadcast from Tudor Hall, Montreal, and has been arranged by the Rotary Clubs of Canada.

A twelve minute address on "The Privilege and Duty of Citizenship" will be given by Dr. E. Leslie Pidgeon, formerly of Vancouver and Winnipeg, now a resident of Montreal. Dr. Pidgeon is a past-president of Rotary International.

An English-speaking choir and a French-Canadian quartet will sing a number of Canadian compositions, with accompaniments on the great organ in Tudor Hall.

This complete broadcast has been made possible through the co-operation of the Canadian National Radio Depratment, working in conjunction with the Canadian National Telegraphs, whose lines will carry the broadcast to the various stations from coast to coast.

Shrove Tuesday

Aunt Jemima's for "Pancake Day"

FROM time immemorial, custom has decreed that pancakes shall be served on Shrove Tuesday . . . and as a variation in diet throughout the Lenten season. No other pancakes are so good . . . so light . . . so easily digestible, as Aunt Jemima's.

They are so easy to make . . . just stir milk or water with equal quantities of Aunt Jemima Pancake Flour. A few minutes over a moderate fire, and they are ready to serve . . . quicker than you can make the coffee.

"I'se in Town, Honey"

Next Tuesday is Shrove Tuesday. Buy Aunt Jemima Pancake Flour, and on Pancake Day enjoy better pancakes than you have ever tasted.

BUCKWHEATS, too—For pancakes with the Buckwheat tang . . . favourites of men for breakfast or supper on cold days . . . Aunt Jemima *prepared* Buckwheat Flour.

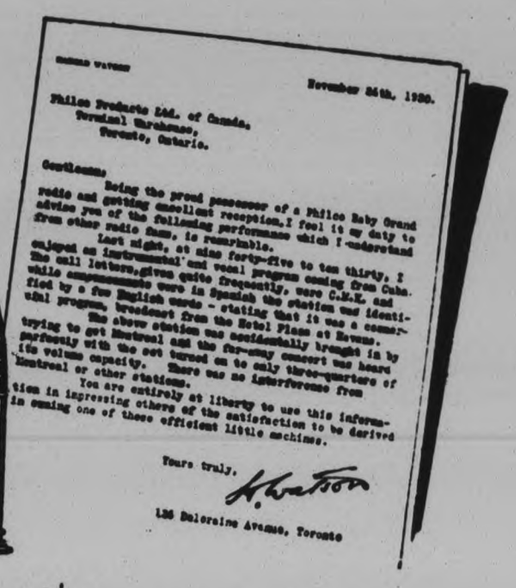
Havana — Cuba



November 24th, 1930.

Philco Products Ltd. of Canada,
Terminal Warehouse,
Toronto, Ontario.

Gentlemen:

Being the proud possessor of a Philco Baby Grand radio and getting excellent reception, I feel it my duty to advise you of the following performance which I understand from other radio fans, is remarkable.

Last night, at nine forty-five to ten thirty, I enjoyed an instrumental and vocal program coming from Cuba. The all lectures, given quite frequently, were C.M.K. and while announcements were in Spanish the station and identified by a few English words - stating that it was a commercial program, broadcast from the Hotel Plaza at Havana.

The above station was accidentally brought in by trying to get Montreal and the far-away concert was heard perfectly with the set turned on to only three-quarters of its volume capacity. There was no interference from Montreal or other stations.

You are entirely at liberty to use this information in impressing others of the satisfaction to be derived in owning one of these efficient little machines.

Yours truly,
H. Watson
136 Belcraine Avenue, Toronto

with a

PHILCO BABY GRAND

This is only one of countless instances of the BIG PERFORMANCE of the marvellously engineered Philco Baby Grand. Equally outstanding is its reputation for Sensitivity and Selectivity, and for the wonderful true, clear, undistorted tone that only Philco Balanced Unit construction can give.

Because of its unequalled value, and outstanding performance the Philco Baby Grand has outsold all similar sized sets combined *more than two to one.* Whether you are buying a compact set as an "extra" or as your only set, take no chances—see that it is a Philco Baby Grand—less tubes $74.20.

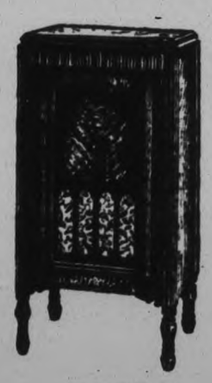
NEW PHILCO TRANSITONE AUTOMOBILE RADIO

Here is the very latest development in Radio . . . a radio for your automobile . . . and a real "Big Time" Performer . . . Actually superior to most home radios. It is a 7 tube Triple screen grid Balanced-Unit receiver, with full Automatic Volume Control, an illuminated single dial which mounts attractively on the instrument panel. Be up-to-date . . . radio as you ride. Installation requires only a few hours. Price including tubes—"B" batteries and installation extra—$95.00.

All-Electric Radio-Phonograph

Here is a record-breaking value, even for Philco. Never before has a radio-phonograph with fine big tone Balanced Unit, good distance range and Screen Grid selectivity, been combined with a fine all-electric phonograph at such a price! 7 tubes (Screen Grid) Electro-Dynamic Speaker. Electric Phonograph Motor, Electrical Pick-up self-starting turntable. Takes 12 inch or 10 inch records. Price,

$150.20 less tubes



MODEL 20 LOWBOY

An ideal set for the small home or apartment dweller who wants a cabinet model but has not space for a standard sized Philco. Beautiful cabinet of American Black Walnut and Birds-Eye Maple Veneers, Zebra wood trim. Same wonderful chassis as in the Baby Grand. Size over all 23¾ inches high; 19 inches wide; 13¾ inches deep. Price,

$104.20 less tubes

For Mardi Gras night, the "Big Tuesday" of the year, the committee in charge of The Examiner Social Club's second relief dance is planning an extensive program. All the funds derived from this event, as was the case with the first dance, will be used for furthering relief work in the city, and everyone is hoping for a real big crowd, to do as much as possible with the money. Mr. Louis Yeotes, proprietor of the Elite Cafe, is releasing his orchestra for that night, and Mose Yokom and his boys will provide splendid dancing music for the event.

Mr. Ernest Withers, McDonnel street, has returned home after a brief visit to Smith's Falls.

The members of the cast of "I'll Explain Everything," the entertaining three-act comedy presented under the auspices of the Immaculate Conception parish, with a cast recruited from the three parishes of the city, and with Mr. George Lynch as director, gave their play last evening in Ennismore parish hall, with a large and very appreciate audience.

Miss Mabel Clarry is in Toronto, to attend the Mendelssohn Choir concert this evening and the production of Bernard Shaw's "Apple Cart" tomorrow.

Mrs. Elizabeth Winch, whose annual parties are looked forward to by her friends, entertained last evening at the home of Mrs. M. Horsfield, 220 London street. These pleasant affairs planned by a gracious hostess must recall to some of her older friends the genial atmosphere of the gatherings of a more leisurely period. Mrs. Winch's guests appear to have the best possible times at these delightful parties where attention is paid to every need, and where cards and music make the program of entertainment. Ten tables of bridge were played, with piano and vocal music later by Miss Bryce, formerly of Keene, who sang "Danny Boy" and "The End of a Perfect Day" for her listeners. Catering for the midnight fowl supper was done by Messrs. Hooper and Sons, and decorations were in spring flowers; red tulips, pink carnations, paper-white narcissus and daffodils. The ices, cakes and candies were in the colors and shapes of the Valentine season. Little parcels of red and white contained the prizes of the evening, first awards going to Miss Agnes Horsfield and Mr. E. A. Peck, M.P.; consolation prizes to Mrs. Shannon and Mr. Walter Rye, and the prize for the lucky chair to Miss Mamie McCarthy. The party broke up with the singing, in honor of the hostess, of "For She's a Jolly Good Fellow." The guests were Mr. and Mrs. A. C. Gray, Mr. and Mrs. R. G. Kingan, Mr. and Mrs. J. Bell, Dr. and Mrs. A. W. McPherson, Mr. and Mrs. C. Kingan, Dr. and Mrs. W. N. Hayes, Mesdames Shannon, Savigny, M. Blewett, J. Marvin, C. D. McClelland, A. E. A. Robinson, Holmes, J. McIntyre, Dummitt, M. Horsfield, F. Eyres, E. Tanney, the Misses Jean Horsfield, Agnes Horsfield, Victoria Bell, Margaret Eastwood, Mamie McCarthy, Bryce, Grace Nicholls, Irene Herridge, Bessie Matchett, Fyfe, Cathleen McCarthy, and Messrs. E. A. Peck, M.P.; B. Quinn, G. Eastwood, Walter Rye, T. Rye, McGill.

Members and friends of the Peterborough Kinsmen were present at a jolly party held under Kinsmen auspices last night in the Pavilion at Chemong Park, and preceded by a stag dinner in Hooper's Palm Room, when the men attended in outing costume, in preparation for the program of fun in the later hours. At the Pavilion, Eric Roberts and his Melody Men provided excellent music for the dancing, which included a number of novelty features. Refreshments were served from a lunch counter which simulated a soup kitchen for the unemployed, as the funds were designed to be used for relief purposes. Those present included Dr. and Mrs. H. N. Young, Mr. and Mrs. D. MacTavish, Mr. and Mrs. Ed. Riley, Mr. and Mrs. Gordon Hill, Mr. and Mrs. E. Foley, Mr. and Mrs. Paul Johnson, Mr. and Mrs. Clif Carruthers, Mr. and Mrs. Rod Davis, Mr. and Mrs. Adrian Macdonald, Mrs. Fred Hooper, Mrs. H. Campbell, the Misses Lenore Lyle, Daisy Davidson, Janet Stapleton, Doreen Sheehy, Geraldine Collins, Florence Adams, Marcelle McNulty, Mildred Archambault, Dorothy Couper, Messrs. P. Whyte, Herb Wilson, Vernon Lyle, Murray Smye, Alex. Sollitt, Emmet Sheehy, H. G. Mason, Roy Taylor, W. Collins, Al Hodgens, Fred Dundas, A. Archambault, Al Volpe, Victor Rutherford, W. Thompson, Dr. S. Y. Walsh, Dr. Gunderson of New York, Dr. M. Crough, Dr. R. Honey.

The many friends of Mr. M. Foley of 622 Lock Street, who is ill in St. Joseph's Hospital, will be pleased to know that he is progressing favorably.

• • •

Mrs. Joseph Welsh and Miss Enid Welsh are in Toronto, visiting friends.

• • •

Mrs. D. Lindsay and Miss Mary Clingan were joint hostesses at an enjoyable card party held last evening at the home of the former on Morrow Street. Five tables of whist were played. Mr. D. Anderson acted as supervisor. The lucky prize-winners were Mrs. D. Kinmond and Mr. D. Anderson. Consolation prizes were awarded to Mrs. R. Hendry and Mr. Munn. After the card games a delightful luncheon was served by the hostess, and a social hour spent in music and dancing. The singing of "Auld Lang Syne" ended a pleasant evening.

• • •

A very pleasant evening was spent las tnight in the parlors of Mark Street United Church when the C.G.I.T. girls entertained their mothers. After the C.G.I.T. program of Flag Salute, Pledge and Purpose was repeated, the president, Miss B. Laing, read a letter of welcome to the mothers. Miss D. Green called the roll and Miss L. Chartren conducted the Devotional period, while Miss B. McLeod played softly "Follow the Gleam," after which Miss M. Forbes led in prayer. A paper dealing with the origin of St. Valentine's Day, which proved very interesting was read by Miss E. Barringer, followed by a piano selection by Miss B. McLeod and a reading by Miss M. Agnew, entitled "Mother Dear." The guests were then entertained at a program of games followed by a dainty repast served by four of the girls. The guests voiced a hearty vote of appreciation to the girls and their leader, Mrs. Charles Barringer, the latter responding to the effect that this was just the first of a series of entertainments, and reminding the girls that they should make companions of their mothers.

Miss Ella Welsh of Picton, Ontario, is visiting at the home of her cousins, Mr. and Mrs. J. Welsh, Reid street.

• • •

The C. G. I. T. of Regent street church, Lakefield and their friends held a jolly toboggan party on the school slide Wednesday night. After about two hours of the popular sport the group returned to the church where a social hour was spent. Among those present were Mrs. S. A. Kemp, the Misses P. Charlton, V. Hendren, P. Lake, V. Murphy, M. Harvey, H. Miles, M. Abrams, M. Webdale, M. Webster, W. Sage, B. Charlton, G. Bickell, F. Simmons, the Messrs V. Payne, C. Tanner, G. Kemp, H. Morrison, W. Whetung, R. Davies, R. Kemp, E. Dunsford, R. Garbutt, H. Wannamaker, N. Graham.

Mrs. F. Mowry, 66 Aylmer street lent her home yesterday afternoon and evening for a very successful Valentine held under the auspices of the Women's Guild of All Saints Church. The pretty rooms were decorated with vases of spring flowers; tulips and daffodils, and the Valentine idea was carried out in the dainty decorations of the tea-room, which was gay with gilt cupids and red hearts. The table was done very attractively with a Cluny lace cloth and a central miniature flower garden containing tulips and narcissus surrounded by a little picket fence. The red candles were in silver candlesticks tied with bows of red tulle and the candy baskets of frilled red and white paper had little gild cupids on their handles. The guests were received by Mrs. Mowry, Mrs. James Price, president of the Guild, and Mrs. J. D. Paterson. Mrs. F. C. Roberts was convenor of the tea, assisted by Mrs. C. Meeks, Mrs. A. Milne, Mrs. K. Sisson, Mrs. A. Merritt, Mrs. D. J. McLeod, Mrs. E. Dillon and Miss Muriel Wallace. Tea was poured by Mrs. Joseph Crowe. The guests were ushered into the tea room by Mrs. T. Pitchford and Mrs. L. Dobbin, and Mrs. N. H. Sutton acted as treasurer. Mrs. T. Sabin and Mrs. A. W. Clysdale had charge of the sale of home-made candy and the sale of home-made cooking was in charge of Mrs. E. J. Brown and Mrs. C. H. Hotston.

A pleasant innovation in the form of what might be termed, in the old-time phrase, "tea meetings," is taking place weekly this season, when the Household Arts Department at the Vocational School is entertaining, in turn, the girls of the Entrance classes of the various schools of the city, in order to give them an adequate idea of the work carried on in these Household Arts classes. As Principal H. R. H. Kenner remarked, in the course of a brief talk to the guests yesterday afternoon, the academic course at the Collegiate Institute should be taken only by those boys or girls desiring to become teachers or by those wishing to enter what are termed the learned professions. All others should try to choose another course. These little afternoon teas and the inspection of the workrooms which follows them, are designed to afford an opportunity for the girls to choose their future occupation, after passing the Entrance examinations. The first of the series was held a week ago, when the Entrance girls of the King George School were entertained, and yesterday, the guests were from the Queen Alexandra School, with their principal, Mr. M. H. Park. Preparations are made by the girls of the second-year Household Arts classes, assisted by a few of the third-year pupils. In the pleasant, well-lighted diningroom in charge of the teacher of the Household Arts' cooking classes, Miss Sybil Kendall, the girls served their guests with delicious sandwiches and cakes made in their own classes. Cocoa was poured by Miss Helen Gerrard, head of the Sewing Department, and Miss Meta Meredith, who teaches the English subjects, literature, history and composition, which supplement the course. The table, with its cloth of snowy white linen sprayed with tiny red hearts in honor of the Valentine season, looked most attractive with its silver centerpiece holding red tulips and white narcissus, and with four tall red tapers in junior silver holders. Later, in one of the classrooms, the girls were addressed briefly by Mr. Kenner, Miss Kendall, Miss Gerrard and Miss Meredith, the ladies outlining the benefits and advantages of the various courses. Miss Marguerite Payton, one of the pupils, also spoke from the students' standpoint.

St. John's Tie Round With Linasay Miagets

Saints Win 2nd Game 5 to 2

Gardiner Sinks Tieing Counter Five Minutes Before End of Game.

LOCALS OVERCOME LEAD.

Teams Will Play Off To-night at Toronto Arena Gardens.

The Junior O.H.A. group championship still hangs in the balance. Before more than 1,500 wild-eyed fans at the Brock street arena last night, St. John's just fell short of grabbing the highly-prized district honors from the Lindsay Midgets. The raging Redshirts did smash their way to a 5-2 victory over their sturdy Scugog rivals to overcome the three-goal lead seized by the Midgets in their home ice-box on Tuesday night and tie up the round 8-8.

The two teams will be sent right back into action to-night at the Toronto Arena Gardens with Ernie Collett of Toronto handling the bell. Arrangements for the third and final game were completed with Secretary Hewitt of the O.H.A. last night. Lindsay met their Waterloo last year on the Oshawa arena and refused to play the deciding game there again. The Belleville arena was not available for Saturday night, so there was nothing else for it but to have the teams take up the combat to-night in Toronto.

The winner will play the champs of the Oshawa-Belleville series on their home ice on Monday night with the return game in the lakefront being billed for Wednesday.

No game this season has been so packed with excitement as last night's tangle. St. John's had the better of the play most of the way and deserved to win by at least five goals. But again Goalie Stephens proved an almost unbeatable obstacle. In the second and third periods St. John's hedged their opponents in and kept play mostly inside Lindsay's blue line. They pounded the rubber at Stephens from every angle, but the net-minder calmly gloved their drives and tossed the puck into the corner. He was the hero of the game for more than 300 Lindsay fans and his spectacular work ranks all the more remarkable, since he was still suffering from a painful injury gained in Tuesday's affray.

Peppy Hockey

It was peppy, rugged hockey. The two teams sailed into each other like gamecocks. There was more stiff bodychecks handed out in this one tussle than in all the other games this season. St. John's defence pair were especially willing to step into all and sundry that attempted to bore in, and the rugged jolts they dispensed so freely noticeably slowed up their opponents. There was plentiful bumping at mid-ice, too.

More than fifty minutes of the game had gone before St. John's secured the goal that tied the round. It was those many close yet unsuccessful attacks that they launched on the Lindsay nets in striving to overcome their deficit that kept the packed house on edge.

Midgets Get First Goal

The Midgets nabbed the first goal and so boosted their lead on the round to four with the first period half gone. Thirty seconds after Calladine evened the count and later Howe stickhandled his way through to make it 2-1. Both teams scored in the second frame, so that it left St. John's two down on the round when the third started. In that final go St. John's shoved only two past Stephens although they heaved at least forty at him. Ellis getting the first one on the prettiest effort of the entertainment, and Calladine giving Gardner the pass out for the counter that tied the round.

St. John's defence pair, Ellis and Howe, stood out not only for their stalwart work in stopping the Midgets' raids but they were also the winners' chief offensive threats. Both made many dangerous excursions, Howe scoring a goal on one such effort, Ellis doing the same and giving a pass for another.

Little Combination

All the forwards gave their best, but the close checking and heavy ice prevented combination play, making most of their work of a more or less individual nature. Calladine and Gardner both opened many great chances around the nets. Miller turned in a nice card in the nets, although he did not have nearly the work to do that Stephens did in the opposite cage.

Mills, at centre, was best for Lindsay and proved one of the most effective men on the 'ice. His checking stopped many a St John's rush and he was a great playmaker. Spratt on the right boards was given a rough passage and was twice injured, but his work stood out. Most of the defensive duty was carried by Begley. Pogue, his mate, being injured in the early part of the game, and Begley also rushed effectively.

The teams:

Lindsay—Goal, Stephens; defence, Pogue and Begley; centre, Mills; wings, Spratt and Gerster; alternates, Bergenaw, Parsons and Campbell.

St. John's—Goal, Miller; defence, Ellis and Howe; centre, Calladine; wings, Gardned and Cuthbertson; alternates, Merrett, Milliken and Wilshaw.

Referee—A. W. Armstrong, of Oshawa.

It became apparent from the outset that the Midgets were going to adopt a hard offensive as their method of defending the three-goal lead that they were carrying into the game. The teams had just been tossed the disc when Gerster and Mills combined for a dangerous onslaught. Stickhandling through the wings and circling the defence, Ellis went in on top of Stephens for the first St. John's thrust, and Calladine came right back.

Mills drew a penalty for upsetting Howe as the defence man rushed dangerously, and while the fiery centre was off Ellis and Cuthbertson combined for another close attempt. The redshirts continued the pressure, opening up many likely chances but being balked by Goalie Stephens. Begley bore in on St. John's nets but Miller grabbed the drive.

The checking became closer and the rubber was batted around centre ice. Then with eleven minutes gone Lindsay registered the first goal and eased their round-lead up to four. Spratt speeded his way down the right boards and in top of Miller to plug the twine.

Less than half a minute later St. John's got that one back, when Calladine took the rubber from a face-off just to the right of Lindsay's cage, tricked his way out in front and backhanded it into the corner.

St. John's continued the pressure with Calladine and Gardner leading the way. With Begley benched for tripping Calladine St. John's enjoyed an even larger share of the battle. However, the ice was getting soft and the puck-carriers had difficulty in guiding it. Calladine took Wilshaw's pass for a close-in shot.

With only a minute left to the period, Howe went up centre alone to whizz one past Stephens and put St. John's one up on the game. Gardner came back to dint the rubber on the goal posts after having beaten the defence.

Begley and Ellis opened up the second session by each staging a dangerous solo effort. The stiff checking kept play at mid-ice until Ellis hurtled down centre, and passed to Gardner at defence. The right-winger bore in to salt the puck deep in the twine for St. John's third goal, thus reducing Lindsay's lead on the round to one.

Play remained at centre with few openings being made owing to the close checking.

With the period nair over Lindsay notched their second goal. Spratt gave Mills a pass to allow the centre to juggle through the defence. Miller went spread-eagle in front of the cage, but Mills deftly pushed it around him.

At this stage the Midgets came on to take the bigger share of the play. With St. John's again on the offensive, Calladine gave Milliken a pass directly in front of the nets but Stephens saved. Howe came right back but again the goalie made a sensational stop. The pressure was continued by the redshirts. Howe drew a penalty and right after Parsons and Ellis were benched together for a private pushing contest. With Mills chased to the box, both teams were playing two short. St. John's were opening many great opportunities but they failed to score.

St. John's staged their big offensive in the third stanza. The going was tough on the soft ice and the players were bumping and digging in with both feet. Howe drew a penalty, but Calladine was carrying play in around the Midgets' citadel. The Lindsay forwards combined for a rush that ended with a hard shot, but Merrett and Calladine brought the rubber right back to the Lindsay end. Ellis and Gardner drew penalities and St. John's were forced back on the defensive.

With seven minutes gone St. John's nabbed one of the two precious counters needed to tie the round. Ellis went down centre alone and in to score the smartest goal of the evening.

From then on St. John's hammered the rubber at Stephens. They worked right in on him but the Lindsay goalie was picking the disc out of the air like a sweating shortstop in midsummer. They beseiged the Lindsay nets like hornets.

With the period half gone Calladine passed the disc over to Gardner who was parked right in front. Gardner made no mistake, but whipped a high fast one out of Stephens' reach into the corner.

Bergenaw was penalized and this did not help the Midgets in their desperate attempts to hold St. John's out. Ellis drew a penalty and shortly after Begley and Mills were sent to the box. For more than a minute Lindsay were two short and St. John's pounded rubber at Stephens, only to have the goalie stab their shots from every angle.

Summary:

First Period.

1. Lindsay—Spratt, 11 mins.
2. St. John's—Calladine, 30 seconds.
3. St. John's—Howe, 7.30 mins.

Penalties—Lindsay (2): Mills and Begley.

Second Period.

4. St. John's—Gardner (Ellis), 2.30.
5. Lindsay—Mills (Spratt), 6.45.

Penalties—Lindsay (2): Parsons and Mills; St. John's (2): Howe and Ellis.

Third Period.

6. St. John's—Ellis, 7.30 mins.
7. St. John's—Gardner (Calladine), 3.30 mins.

Penalties—Lindsay (4): Mills 2, Bergenaw and Begley; St. John's (4): Howe, Ellis 2, and Gardner.

RANGERS AND FALCONS PLAY OVERTIME TIE

Bill Cook Overcomes Detroit's Lead in the Third Period.

HAWKS BEAT SENATORS.

Chicago Comes From Behind Twice—Abel Draws Match Penalty.

DETROIT, Feb. 13. — The New York Rangers and Detroit Falcons, battling for third place in the American section of the National Hockey League, fought through three periods and an overtime here last night, the game ending in a 1 to 1 tie, with the Rangers thereby holding a one-point margin on the play-off position.

Carson Cooper, Falcon wingman, drove in the Falcon goal early in the second period, while Joe Jerwa of the Rangers was in the penalty box. Immediately the New York team opened up a slashing, fast skating attack that the Falcons could not defeat, "Bill" Cook scoring the tying goal seven minutes after the final period opened.

HAWKS BEAT SENATORS

OTTAWA, Feb. 13.—Ottawa Senators could not cope successfully with the speed and abundant supply of man power of Chicago Black Hawks when they met in a National Hockey League thriller here last night. The lowly Senators played one of the best games they have shown recently, but when the Chi-Hawks opened up in the final period the local were forced to take the back seat and a 3-2 defeat.

Twice the homesters went to the front on goals by Art Gagne, and twice the visitors came back to knot the count, first through Couture and then Gottselig. The winning marker came from the stick of Desjardins five minutes from the end of the game.

To-night's Schedule.

TO-NIGHT'S HOCKEY SCHEDULE.

GARSIDE CURLERS WIN STEELE CUP

Special Competition Held In Honor of Messrs. Harry and Charles Tate.

AT MILLBROOK.

MILLBROOK, Feb. 13. (Examiner Correspondence).—John Steele, the veteran skip of the local curling club, has donated a handsome silver cup to be completed for annually between rinks lined up on the side of the president, and the vice-president respectively, the initial contest for this trophy taking place on Wednesday night, the special evening being planned in honor of Messrs. Harry and Charlie Tate, who have been popular members of the club, and who are shortly moving to Bannockburn to reside.

The president, C. C. Garside, was up four points when the games were concluded, his total score being 31, while the vice-president, P. I. Bentley came ac lose second with a total of 27. The rinks participating were:

President	Vice-President
R. J. Scott	W. H. Whyte
H. Lancashire	E. L. Morden
H. Tate	Chas. Tate
J. E. Allen	H. B. Allen
Skip—9	Skip— 3
W. Sayles	Aubrey Todd
E. Budd	T. W. McCamus
P. Stinson	H. G. Lancashire
W. G. Hetherington	H. R. Edmunds
Skip—9	Skip—11
President	**Vice-President**
L. J. Morton	E. Mitchell
B. L. Richards	M. Challice
J. R. Smith	S. Sloan
G. W. Sayles	T. H. Collins
Skip—8	Skip— 7
P. Bingham	S. Brown
J. Guthrie	J. G. Armstrong
D. Sheppard	E. C. Richards
W. E. Ball	J. N. McGill
Skip—5	Skip— 6

After the game adjournment was made to the I.O.O.F. Hall where a well-served and abundant supper was enjoyed, a number of those present briefly addressing the gathering. Reeve P. Stinson making the main speech of the evening, referring especially to the loss the curling club will sustain throogh the removal of the Tate brothers, who have proved themselves good sportsmen and creditable citizens during their residence in the community. W. E. Ball, on behalf of the club, presented them with gold cuff-links as a mark of approval and esteem.

The Steel Trophy was also presented to the winners, this making the fourth cup the local club now has for competition, annually, the other three being the H. B. Allen Cup, the Waddell Trophy, and the W. J. E. Gillott Cup. The evening was one of the special enjoyment and significance in the curling club annals.

Toronto Cycle Pair In Eleventh Place

CHICAGO, Feb. 13. — Peden and Elder, Toronto anklers, slipped into eleventh place to-day as the six day bicycle race neared the finish. An injury to one of Peden's legs helped to slow down the Canadian team.

With Bobby and Jimmy Walthou. climbing abreast the quartet of other teams, five duos of riders were tied to-day for the leadership. Ninety-three laps were g ined last night and this morning.

Steve Wagner and Mickey Rodak, Chicago boys, withdrew from the race shortly before 9 o'clock last night when Wagner was unable to go any further.

Belleville Wins Group; Defeating Queen's 4-3

KINGSTON, Feb. 13.— Belleville won the local senior B O.H.A. group here last night by defeating Queen's 4 to 3 in a hard fought game. The victory was made possible because of a gift goal when Murphy, defense player for the Tricolor, accidentally poked the rubber into his own net after Morris had stopped a shot. It was a hard-checking game, with heavy body-checking, but Belleville displayed the better team work.

Queen's scored tht only goal of the first period in brilliant fashion when Gibson took a loose puck at Belleville's blue line, stick-handled around the defense, and skated in on top of Jeffery, who had not a chance. It was the prettiest goal seen here this season. Play became ragged half-way through the period, but the Tricolor maintained a slight margin, mainly through the work of Gibson, McDowell and Reist.

CHURCH LOOP JUNIORS FAIL TO END FEUD

Fast Hockey Exhibited in Midget and Juvenile Finals Last Night.

FIGHT TO A FINISH.

George Street Beats Mark on Round 8-5, While Knox Cops 5-4 Victory.

The curtain was rung down for the midgets and juveniles in the Church Hockey League last night at All Saints' rink in their final play-off games. George Street Midgets and Knox Juveniles won the championships of their sections and the shields, but only after two hard-fought battles. The junior teams again went the distance without either outfit showing the slightest superiority, the game ending 2-2. They will fight it out to a finish at the Brock next week. The ice was fair but softening toward the last, but all three games were speedy, the final two being lightning fast.

The midget game between Mark Street and George Street went to the latter 6-4, making it 8-5 on the round for George Street. It was a well-deserved victory, the winners looking much better on the night's play. Burton was a tower of strength for the losers, being the outstanding player on the ice and netting all his team's goals.

The winners took the aggressive from the face-off and kept hammering away, Heard finally slipping one in. Again in the second period, George Street took the offensive, Howland going good to net a pair and threatened often. Burton broke away for Mark Street late in the frame, but Wright evened that before the bell, Howland went in for another in the third, and then Burton started. Three times he snaked his way through, scoring every time. Just before the final bell, Howland countered again for his fourth of the game. That ended the scoring.

The teams:

Mark Street—Goal, G. Hunter; right defense, D. Hunter; left defense, Pearse; centre, Earle; right wing, Gardner; left wing, Burton; alternate, Craig.

George Street—Goal, Harding; right defense, Howland; left defense, White; centre, Wright; right wing, Heard; left wing, Kelly; alternates, Culcheth.

Referee—G. Jarvis.

WINNERS ON ROUND 5-4

Trinity and Knox Juveniles fought to a bitterly-contested draw in the second game. The score ended 2-2, giving Knox the win on the round 5 to 4. The pace set was a hot one, both outfits breezing up and down a mile a minute to the final bell. Knox countered early in the first session when Gatfield took a pass from Seabrooke and pushed it in. The boys from Knox played a great game around the net. Trinity got going before the period was very old, countering twice, but one was off-side. Stabler got the other one, and the frame ended 1-1. The middle chapter was rapid and close, the puck going up and down continuously, and both goalies saving spectacularly. Neither crew were able to cage the rubber though they shot plenty. Stabler put Trinity one up in the third on nice stick-handling, but midway through the stanza, Seabrook bulged the hemp to balance it once more. Trinity had the play up the ice the last five minutes in a desperate but unavailing attempt to score. Both goalies were good, and Stabler for Trinity went nice when he was not off for roughing it. Archibald worked hard all the time for Knox. In fact, credit must be evenly-distributed among the whole team.

Trinity—Goal, G. Clark; right defense, Hamley; left defense, Ward; centre, Logan; right wing, Armstrong; left wing, Stabler; alternates, K. Hamley, D. Clark and P. Clark.

Knox—Goal, Wilson; right defense Fisher; left defense, McDonald; centre, Archibald; right wing, Seabrooke; left wing, Gatfield; alternates, Ringer and Ward.

Referee—G. Jarvis.

BATTLE TO 2-ALL DRAW

The junior game was a whiz, ending in a 2-2 draw, which leaves the championship still in the air as the same teams went to a tie in the first play-off battle last Monday. It was a sparkling contest, fast, clean and with flashes of beautiful stick-handling throughout. St. James kept boring in and had an edge on the play the last two periods, but this was offset by their tendency to "bunch" while Mark Street combined better. Jamieson whistled one in from close quarters early in the initial go to put the Saints ahead. But shortly after Burton got that back, and then Hunter notched another one for Mark Street when he batted in a rebound. The second chukker was scoreless, but only brilliant net-minding by Ferguson kept the Saints out. The latter sent four men up in the last canto and Jamieson got another persistent work around the net. From then to the end play was fast and furious marked with great stick-handling efforts, close back-checking and hard shooting. But both goalies were stone walls turning aside everything. The whole East City forward line went great, and the defense checked hard all the way. Jamieson for St. James' never slowed down.

Mark Street—Goal Ferguson; right defense, Wright; left defense, Forbes; centre, Hunter; right wing, Ligsett; left wing, Hoy; alternates, Burton, Gardner and Sager.

St. James—Goal, Sloane; right defense, Price; left defense, Spence; centre, Jamieson; right wing, McDonald; left wing, Meredith; alternates, Grose and English.

Referee—G. Jarvis.

BUFFALO TRIUMPHS OVER ST. LOUIS 2-1

Mighty Struggle Being Supremacy in American Hockey League.

CHICAGO, Ill., Feb. 13. (CP)— Unaltered standings in the American hockey league to-day told little of three mighty struggles waged last night in the middle west.

An overtime victory over Chicago Shamrocks, 3 to 2, kept Tulsa half-a-dozen points ahead of the second-place Pla-Mors. Kansas City's goalie, "Paddy" Byrne, was scored on for the first time in five games when Duluth Hornets went down unwillingly to a 2-to-1 defeat at the Missouri city.

Two extra sessions were necessary before Buffalo triumphed, 2 to 1, over the tail-end St. Louis Fliers.

TEST MATCH OPENS

JOHNNESBURG, South Africa, Feb. 13. (Canadian Press Cable). — The fourth test cricket match between England and South Africa opened here to-day. South Africa won the first and the other two tussles were drawn. A. P. F. Chapman won the toss to-day and put England in first.

P. C. I. INVADES OSHAWA SCHOOL SATURDAY P. M.

Meets O.C.I. in First Game For Central Ontario Championship.

FOR BASKETBALL HONORS.

Both Schools Will Floor Smart Aggregations For Crucial Game.

To-morrow afternoon the Peterborough Collegiate basketball squad invade Oshawa in the first play-off fixture for the Central Ontario championship with the return game on their own floor the following week.

The Garnet and Grey team has had a comparatively easy time in their own district, having disposed of Lindsay and Uxbridge without much trouble, and are now ready to commence the playdowns in search hunt for honours.

The entry from the Motor City has always been a high class aggregation of ball tossers and they romped home an easy winner in the Lakeshore district, defeating Cobourg last season's winner, quite handily and the "Petes", who are considered one of the best basketball quintets turned out at the Collegiate for some years, will have to play heads up ball, if they hope to continue in the hunt for hanours.

Total points on the round will count, and the locals will have to be right in the game all the time to hold the Oshawa Collegiate on their own gym.

The game is called for 1.30 p.m. on the Oshawa Collegiate gym and the locals, who will be accompanied by a large crowd of rooters from the school, have high hopes of extending the much touted Motor Team to the limit.

KEOUGH KIDS BEAT TAXIMEN

Chemong Park Relics Even Old Scores With Their Summer Chaffeurs.

FINAL COUNT IS 4-1.

The Keough Kids short-changed the Taxi Drivers 4 to 1 in a fracas committed on the Brock Street Rink last night. It was an ideal game, the kind one dreams about—after eating too many oysters! There were no serious casualties, though many reputations were seriously damaged in the battle. The Taxi Drivers started fast but kept slowing down on the corners, probably a matter of habit. The Ronco brothers tore down the ice time and again, only to reverse gears at the defence line. Mein in the net for the Chauffeurs robbed the Kids on many occasions. Jones, Clarke and Wylie, the Kids' kid forward line, punctured the Cabbies' defence constantly when they tried. Other times they playfully exchanged smacks on the shins with their opponents. Beatty and White, the winners' sturdy guardians of the blue line, had a great night—waving at the lady spectators. The latter claimed he was leading at this game when the bell mercifully sounded. Cyril Tuck was the referee, and everyone thought he looked like a nice young chap. As for his refereeing, perhaps it is as well to say no more. After all, he deserves credit to even get on the same rink with the reckless—not wreckless—Taxi Drivers and the careless Keough Kids. The contest might have been worse — a little—and the Kids gleefully ran home after letting the wind out of the Cruisers' tires. Some of the guilty parties present were:

Taxi Drivers—Goal, Mein; right defence, MacDonald; left defence, Sutherland; centre, T. Ronco; right wing, McDougall; left wing, F. Ronco; alternate, Johnson.

Keough Kids—Goal, Carson; right defence, Beatty; left defence, White; centre, Wyllie; right wing, Jones; left wing, Clarke; alternate, Burnley.

Referee—Cyril Tuck.

ROBINSON AMASSES 100 POINT TOTAL

Toronto Speed Skater Holds 20 Point Margin Over Nearest Rival.

LAKE PLACID, N. J. Feb. 13. — (CP)—Concluding events in the North American amateur speed skating championships today found Ross Robinson of Toronto still holding a 20-point lead.

Robinson captured the three quarter mile event and finished third in the 440 yards to bring his total points to 100. Murray finished second in each of these races to boost his point total to 80. Third place was held by Allan Potts of Brooklyn with 40 points. Potts won the 440-yard title in 36 2-10 seconds and placed third in the three-quarters.

LYONS RECALLED.

BOSTON, Feb. 13.—Ronald 'Peaches' Lyon, loaned to the Philadelphia National League Hockey Club by the Boston Bruins, has been recalled. He left for Montreal to-day with the Boston team and will play to-morrow night against the Maroons.

Fans Phone 725 For Junior Game Result

Local hockey fans may obtain the score by periods of to-night's Lindsay-St. John's game in Toronto by calling 725 at Harrison's Store. Percy Harrison has made arrangements to have the scores sent down immediately the period is over, and he invites anyone interested to call him on the 'phone.

Rifle Shoot Results.

PETERBOROUGH RIFLE ASSOCIATION

Last night a set of new targets was used which called for much finer shooting. The prize for the first practice was won by A. Clarke, a new member, who did some fine shooting considering the fact he was using an unfamiliar rifle.

In the first elimination contest Lt. James Parsons came out on top. Next week a rapid fire practice will be held.

LONDON TIES WITH JACKETS

Pittsburgh's Two-goal Lead is Overcome By Belated Drive in Third Period.

FINAL COUNT 2-ALL.

LONDON, Ont., Feb. 13.—London Tecumsehs and the Pittsburg Yellow Jackets battled to a two-all tie in an International Hockey League game before 2,800 spectators here last night. With only 13 minutes to play, the Yellow Jackets enjoyed a two-goal lead, but the Londoners fought back and scored two goals in an equal number of minutes to again place the two teams on even terms. The overtime found both clubs playing cautiously and apparently being content with a draw.

For 43 minutes the close checking of the Yellow Jackets had the Tecumsehs somewhat baffled, and it appeared as if Pittsburg had the game within their grasp, but two goals in short order changed the complexion of the contest considerably. The draw resulted in London retaining a five-point lead over the Yellow Jackets, and the locals gained one point on Cleveland, while Pittsburg also drew one point nearer fourth position.

HARVEY FAVORED TO BEAT DUNDEE

Britisher Thinks He Can Wipe Out Former Defeat at Hands of Italian.

NEW YORK, N.Y., Feb. 12 (C.P.)— A return bout between Len Harvey British middleweight champion, and Vince Dundee, of Baltimore, heads Madison Square Garden's weekly card to-night.

Harvey dumped Dundee on the floor twice in their first meeting but the rugged Italian got up to carry the fight to his British rival and win a decision in 12 rounds.

Harvey was just off the boat when he battled Dundee the first time. Now, with a few more weeks of training on this side to put him in shape, the Briton thinks he can wipe that defeat off a record that shows only two reverses in something like 350 ring engagements.

Harvey rules a slight favorite in the betting, although Dundee does not lack for support. The bout is at 12 rounds and there is a possibility that the New York State Athletic Commission will recognise the winner as 160-pound champion of the world.

O.H.A. Bulletin

JUNIOR SERIES.

Oshawa juniors will play Lindsay or Peterborough St. Johns, the first game at Lindsay or Peterborough, Monday, Feb. 16, and the return game at Oshawa, Wednesday, Feb. 18.

CANADIENS WIN.

LEWISTON, Me., Feb. 13 (C.P.).— Montreal Canadiens, world hockey champions, defeated an all-star Maine hockey squad by a single goal in a high scoring exhibition tussle here last night, the Canucks coming out on the long end of an 8-7 score. Hainsworth, Leduc and Lipen played for the Maine team.

Mose Yokom and His Band

THE RED HEADED GODDESS

by Alice Ross Colver

SHE loves him and he loves her—but she won't marry him because his is an antiquated love, an old-fashioned protective worship that promises safety when she wants thrills. Stung to desperation, he kidnaps her from a dance and rushes her in his airplane through the blackness of night toward Utah.

An unforeseen accident frustrates the boldness of his plans; for while they are flying over the Arizona desert, they are forced to jump for their lives with their parachutes. Although they make a safe landing they are, of course, without food or equipment of any kind, and these two reckless children of luxury stand on the vast stretch of silent burning sands, overwhelmed by its grim challenge, until the confidence born of youth and health comes to their rescue.

Story Starts on Saturday in the The Examiner

LARGE INCREASE IN MEMBERSHIP OF CHURCH IS SHOWN AT MEETING

Total Membership of Peterborough Presbytery of United Church is 7,596.

INTERESTING FACTS.

A very heartening increase in the number of members uniting with the church by profession of faith was particularly noted at the meeting of the Peterborough Presbytery of the United Church, held in the George Street United Church. Rev. A. E. Moorehouse of St. James' United Church took the devotional exercises at the Presbytery, and Rev. W. R. Archer of Havelock presided as chairman.

The statistical report, reviewing the life and work of the charges within the Presbytery, brought forth several interesting points of information. There were large increases noted in the number of elders, in the number of families reported, and in the number of people under pastoral oversight. The decrease in the number of marriages performed by the churches' ministers was thought to have been caused by the present economic depression. There was a welcome decrease in the number of deaths reported.

The total membership of all the churches in the Presbytery was reported to be 7,596; there are over 8,000 in the Sunday Schools; the membership in the Young People's Societies is in excess of 1,500; there are over 1,500 in the Women's Missionary Societies.

The value of all property in the Presbytery was estimated at $1,177,975, and 50 percent of this is covered by insurance. The total amount raised for all purposes was $153,400, and of this the amount for missions was over $37,000.

It was agreed that permission to the Hastings-Westwood charge, given some time ago, to dispose of the sheds of the former Methodist Church in Westwood be now confirmed.

In preparation for the meeting of the Bay of Quinte Conference to be held in Belleville in June, the lay delegates were appointed.

The work of the Presbytery in Home Mission Charges was reviewed. It was agreed to continue the work as at present in Lakehurst, Apsley and Hiawatha; asking for the same amounts of grants necessary to their upkeep. With regard to Cordova Mines, however, it was found that it was possible to make a re-arrangement whereby the mission would be divided between the Havelock and Marmora charges, thus effecting a saving of over $600 to the Home Mission funds.

A vote of appreciation was expressed to the officials of George Street United Church for their generous entertainment of the Presbytery.

STIRLING

STIRLING, Feb. 14. (Examiner Correspondence.)—The members of the local branch of the Women's Institute held their annual "At Home" in the community hall on Tuesday evening, when ninety-seven members responded to the roll call by giving their nick names.

The first part of the program consisted of impromptu speeches by the following: Mrs. Shaw, president of the Institute, "Our Motto —Home and Country"; Harold Martin, "My Favorite Movie Actor;" Ross Coulter, "Why I am Happy, though Married." Lawrence Munroe, "A Descripton of My Wife's Wedding Dress;" George Luery, "How it feels to be a grandfather"; Ray atkin, "Why I'm Glad I'm Thin;" Gerald Clute, "Why I am so Good Natured;" C. Allen, "Why I'm sorry I'm Single"; J. Craven, "Why I'm Glad I'm Single;" Mrs. R. Meiklejohn, "Why I am Glad I am a Member of the Women's Institue."

Other numbers on the program included a ladies chorus, "Lassie O' Mine" followed by "Old Missouri Home" by Maud Butler, Mae Nolan, Laura Coulter, Lena McGuire, Olive Whitehead, Christine Munroe, Alice Munroe, Bessie Patterson, Cora Eggleston and Olive Meiklejohn; debate, "Resolved that Men are More Company Than Books," by Percy McGuire and Mrs. W. West for the affirmative and George Luery and Mrs. Harper Rollins for the negative side. The judging of the debate was left to the audience while the married ladies were sure books won out, the single ladies were sure that in spite of the eloquence of the negative side, men were much more necessary to their company.

Mrs. Butler favored the audience with a pleasing solo and a medley was given by the boys, "Here Comes the Sun" and "Blue Again." The singers were Roy Eggleston, Ernest Nunroe, Bob Patterson, Jack Croskery, Lawrence Munroe, Roger Meiklejohn, Ross Coulter, P. McGuire, Jack Butler and Joe Wilson.

A one-act play, "Not on the program" created a great deal of merriment. Bessie Patterson in her efforts to become an actress and taking lessons under a dramatic coach, started something she couldn't stop. Her maid, Alice Munroe, soon became suspicious of Mr. Fielding, the coach, (C. Wright). Mrs. Jones (Nora Wescott) a social butterfly, loses a most expensive ring. The plumber (Flo Bastedo) works on the leaky bath tub when she can spare time from her sweetheart, the maid. The dramatic coach (Coza Wright) tries to ear $15 a lesson by tutoring the lady of the house but is being incessantly interrupted by the maid and the plumber. The maid listens at the door to find out all the facts in the case, then between her and her lover and the telephone they turn on the heat. An officer (Lou Corrigal) arrives to arrest somebody and the coach who is not in the habit of runninga way, stands his guard. That throws suspicion on the plumber as his "wrenky munch" has been found near an open drawer from which a ring had been taken. Mrs. Jones' ring is found in the bath pipes. The maid understands that the coach's protestations of devotion are only rehearsing and all ends happily.

A number was then given by "The Sisters of the Skillett," and "The Kings Horses." Lunch was then served and dancing followed.

Will West was successful in winning the door prize. The March of the Valentines was won by Mrs. B. Belshaw and Harper Rollins and the spot dance by Maria Garry and Deb Little, while the most graceful couple in the military Schottise was Olive Whitehead and Ray Atkin. The Dance of the Movie Stars was won by Marie Dressler (Mrs. A. Corrigal) and Ramon Navarro (Jerry Craven.)

Pianists for the evening were Gerald Clute, Ross Coulter and Charley Allen.

The committee in charge of the entertainment was Mrs. R. Meiklejohn, Mrs. Wescott, Mrs. R. Coulter and Mrs. Shaw president of the organization.

STIRLING

Mrs. A. Murduff, Don and Helen are in Hagersville. They were called there by the sickness of Mrs. (Rev.) Bridge, Mrs. Murduff's mother.

Mr. and Mrs. James Haggerty have been visiting Mr. and Mrs. Adam Conigal.

The many friends of Mrs. (Dr.) McMullen of Frankford were deeply grieved to hear of her death which occurred in Kingston General Hospital last week.

Mrs. J. M. McGee is spending a few weeks in Toronto.

HYDRO COMMISSION CHOSEN BY COUNCIL

Much Business Transacted at Hastings Meeting—Accounts Passed.

HASTINGS, Feb. 13.—(Examiner Correspondence)—The regular meeting of the village council was held on Friday evening in the Council Chambers, with the following members present: Dr. W. E. Wilson, reeve; councillors A. G. Parker, J. J. Collins and W. M. Fowlds.

The following accounts were ordered paid: J. M. Baker, $2 50: Bell Telephone Company, Town Hall, $8.45; Fowlds Co. Ltd., electric lighting, $174.35; C. P. Doughty, printing, $45.94; Everett Brinklon, streets, $3.25; L. E. Kelby, $2.50; James Stevenson, charity, $2; J. M. Baker charity, $3; James Calberry, Sr., $19; J. J. Armstrong, charity, $3; C.N.R. watchman for December, $16.67; P. S. Ewing, division court for December, $16; A. Wilson, attending equalization court, $2.50; Bell Telephone, constable's phone, $4.33; William Boyle, Town Hall, $1; H. B. Wilson, auditor, $7 50; E. Perrault, auditor, $7.50; William Doyle, salary, $8.33; George Lynch, salary, Fire Department, $7; Thomas Kirk, constable, $30; Eldon Simpson, snow plowing, $10.20; Bell Telephone, fire chief's phone, $2.05.

On motion, the bonds of the treasurer, J. M. Baker, and collector, L. T. Huycke, were accepted and filed.

It was moved by J. J. Collins, seconded by W. M. Fowlds, that J. J. Perrault's offer of $100 per year for the town scales be accepted, starting October 14, 1930, to October 14, 1931, fifty dollars to be paid in advance.

On motion of A. G. Parker and J. J. Collins it was decided that the Council spend $25 in getting out literature or booklets explaining local conditions to send to manufacturers contemplating locating branch industries in Canada. On motion of J. J. Collis and A. G. Parker, T. A. Coughlan and G. B. Stevenson were appointed Hydro commissioners.

The council expressed its deepest sympathy to Councillor W. M Fowlds in the recent bereavement he has sustained in the death of his sister, the late Miss Polly Fowlds.

LODGE HONORS C. P. DOUGHTY

Address and Presentation Made to Hastings Family at Farewell Party.

SOCIAL EVENING

HASTINGS, Feb. 13 (Examiner Correspondence)—On Tuesday evening the members of Hastings Lodge No. 633 A.F. and A.M., with their wives and friends gathered in their lodge rooms in the Fowlds Block to bid farewell to Charles P. Doughty and family, prior to their departure to Ottawa where Mr. Doughty has secured a good position.

The chairman of the meeting was Rt. W. Bro. W. R. Learnmonth who in a few well chosen words explained the reason for the gathering, and called on the following.

W. Bro. Walter Humphries, address; instrumental, W. Bro. P. Gillespie, Keene; Reeve Dr. W. E. Wilson, address; solo, Mrs. Charles F. Battersby, address; solo, Bro. W. W. Knight.

Wor. Bro. Doughty was then called to the front and Wor. Bro. C. B. Plant read the following address:

"Dear Bro. Doughty,—

We have convened to-night in your honor and to say good-bye. We cannot, however, do so without expressing our high appreciation of your valued services to our order in general, and our own lodge in particular. Without doubt it is owing, in large good will, faithfulness, that our cause has now a splendid lodge in Hastings. And in carrying-on of our work after inauguration you have been an example for us to follow, your faithfulness to duty whether as Warden, Secretary, Worshipful Master or Past Master of our lodge.

We will therefore, miss you very much because of these good qualities and regret your leaving us, but we submit to the will of the Great Architect of our lives, and wish you every good wish for prosperity in your new home and new sphere of labor. We desire you to accept this gift as a slight, but tangible token, of our good will.

Happy to meet, sorry to part, but happy to meet again."

Signed on behalf of Hastings Lodge No. 633, A.F. and A.M."

Walter Humphries,
Worshipful Master,
Charles B. Plant,
Secretary.

Wor. Bro. W. R. Montgomery made the presentation of a beautiful engraved silver pitcher.

Bro. J. M. Baker read an address and Wor. Bro. W. R. Montgomery and Rt. Wor. Bro. W. R. Learmouth made the presentation of a lovely leather purse to Mrs. Doughty and a large box of chocolates.

Bro. Doughty, on behalf of himself and family, feelingly replied to the many kind words expressed in the addresses and for the beautiful presents, and gave a short resume of the articles of the lodge since its dedication.

Rev. D. A. Thomson, D.D., address; solo, Mrs. Charles Breckenbridge; Wor. Bro. Robert Johnson, adress; Wor. Bro. C. B. Plant, address; solo, Bro. W. W. Knight; instrumental, Wor. Bro. P. Gillespie.

A dainty lunch was served after dulged in. Mrs. J. Scott Fife won which progressive euchre was in the ladies' prize and W. W. Knight the gent's prize.

RASHES VANISH QUICK

"My face was covered with itching rashes. One application of 'Soothe-Salve' ended the itching. It cleared my skin." Mrs. C. B. Hines. Get "Soothe-Salve" today. All druggists.

Local Residents On Panama Cruise

NEW YORK, N.Y., Feb. 13.—(Special to The Examiner.)—Two former Cabinet ministers, one Federal and one Provincial, headed the passenger list of the Canadian Pacific liner Duchess of Bedford when she sailed from Pier 61 north river at noon on Wednesday, for her second 1931 cruise to the West Indies and Panama. Hon. W. D. Euler, former Minister of National Revenue at Ottawa, and Hon. F. C. Biggs, Minister of Highways in the Drury government in Ontario, both left for a 29 day sojourn in the balmier airs of the sunny Caribean.

Included from Ontario were Miss Elena Stacey of Oshawa, Mr. and Mrs. H. A. Morrow, Miss Elizabeth and Miss Mary Mulholland of Peterborough, Ont.

TRENT RIVER

Messrs. Oliver Garneau and Sam Adams are busy with their sawing machine throughout the district.

Mr. Robert Carnrite has his sawing outfit ready and is also very busy.

Mr. and Mrs. John Garneau gave a dance to a large number of friends at the home of Mrs. A. Wight, "Cedar Isle" on Wednesday evening.

The ice being taken out at the old dock is of excellent quality.

ARGUMENT ENDS IN SUICIDE

TORONTO, Ont., Feb. 12. (CP)—Following an argument in her home, police state, Miss Anna Mullet 27, took her life in her room early today by drinking carbolic acid. Police officers who investigated after hearing story of the girl's mother, have asked the chief coroner to investigate.

February Meeting Of Ivanhoe W.I.

IVANHOE, Feb. 13 (Examiner Correspondence))—The Ivanhoe Women's Institute held their February meeting at the home of Mrs. John Clements on Tuesday, February 10. There were twenty-seven members present. The roll call was answered by an autograph verse.

In the absence of Mrs. Reid her paper "Balanced Rations in every day life" was read by Mrs. S. Fargey. Annie Fleming sang "I shall not pass this way again." Mrs. John Clements gave a reading "Mrs. 'Arris at the Telephone."

It was decided to have the Cooper Institute give the play "The Little Clodhopper," sometime in March. Lunch was served at the close of the meeting.

Y'S MEN'S CLUB IS ADDRESSED BY HAROLD VAUGHAN

Importance of the Various Types of Boys' Work is Outlined.

BOYS' PARLIAMENT.

Growth of Boys' Work During Past Decade Has Been Phenomenal.

The importance of the various types of boys' work in the formation of character and manhood was stressed by Harold Vaughan of Toronto, before a combined meeting of the Y's Men and the several Church boys' work leaders at the Y.M.C.A. last evening.

The meeting was preceded by a supper, and club songs led by Hector McLeod. John Hunter, member of the Boys' Parliament for Peterborough, introduced the guest speaker of the evening In his introductory remarks, Mr. Hunter said that Harold Vaughan was a Kitchener man, a Trail Ranger, a member of the Tuxis, a Y'x Man, and at present a student at Victoria College, Toronto. Mr. Vaughan was also at Geneva as a representative of the Y's Men's Convention.

"The growth of boys' work during the past few decades has been phenomenal," declared Mr. Vaughan. The work started in a very dim way, but was brought to its present importance through the instrumentality of Taylor Statton. In practically every place where there is a Christian Church, there is some form of boys' work going on at present. "The present success of men is not simply a result of self making, but of dependence upon society," said the speaker.

Finance is an important factor in life to-day.. especially in view of the hard times. This is particularly true with regard to boys' work. For this reason, the boys are going out to raise a budget of $13,000 to carry on the year's work. The organization for this work consists of two paid secretaries with their secretaries, etc.

Mr. Vaughan stressed the importance of boys' camps as a means of contact with the out-of-doors and nature. "There is an inexpressible freshness to be gained from rising with the morning sun," he said. Great Value is also to be derived from the contact of the boys with "Trained leadership."

Boys' Parliament

The speaker spoke very highly of the Boys' Parliament as a training for original thinking and leadership through the power of speech. One great feature of the Parliament is the adjusting of the race problem—a problem eminent in the world to-day. Universal brotherhood is to be gained from the appointing of members from different races to the Cabinet.

Local conferences play their part towards the furthering of boys' work, in the speaker's estimation, for the members or delegates seek in their own way the solution of their own problems.

All this work has to be carried out by the budget, and therefore the bond system is being used. It requires much hard work on the part of the boys to sell the bonds for their own work, for they have to meet with the "hard times" opposition. This provides an additional challenge.

Developing Character

"The real purpose of boys' work is the fostering and developing of character in the boy," declared Mr. Vaughan. "The importance of this character development in the life of a nation may bejudged from Mazzini's Young Italy Movement and the training of youths in Germany. Therefore let us get behind the boys' organizations and co-operate with them, for we are responsible for the youth of the country and their preparation to carry on the work of the world."

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

SECOND RELIEF DANCE.

Don't forget the big Relief Dance to be held on Tuesday evening next, February 17th, in the hall of the Canadian Legion. All funds will be used for relief work in the city. Mose Yokom's Orchestra will provide the music.

MEN'S GOLOSHES NEEDED.

There is urgent need for men's goloshes, size 9, for men's working pants, size 40, and for boys' boots, size 7. Anyone having these articles is asked to telephone The Examiner and they will be called for.

The ladies looking after the distribution of clothing at the Relief Association bureau over the offices of the Toronto Savings and Loan Company, have a variety of things on hand, including men's overcoats, shoes, dresses and a little underwear. They are in the rooms from two to five o'clock every day, and will be glad to give out anything that they have, to those in need.

MAKING GOOD RECOVERY.

Charles H. Davidson, of Campbellford, is making a most successful recovery at Nicholls Hospital after his recent operation.

OBITUARY

WALTER M. HOGAN.

The funeral of the late Walter M. Hogan, of Montreal, formerly of Peterborough took place yesterday morning from the home of his father, on the Norwood Road, to the Church of the Immaculate Conception and to St. Peter's Cemetery. Rev. J. C. Moloney sang the Requiem Mass, while Rev. Father Carroll officiated at the cemetery.

Mr. Hogan leaves his wife (formerly Myra Moloney), two sons Walter and William, his parents, Mr. and Mrs. J. J. Hogan, two sisters Laura and Mary, and three brothers, John of Toronto, Grady of Windsor, and Joseph of Owen Sound. The esteem in which Mr. Hogan was held by his host of friends in Peterborough and Montreal and by his business associates is testified to by the many floral offerings.. The remains were borne to their resting-place by his three brothers, two brothers-in-law, Robert Brown and James Moloney, and a cousin, Herman Reilly.

THE OUNCE OF PREVENTION

The old saying that an ounce of prevention is worth a pound of cure has no truer application than in the case of fire.

Carefulness costs nothing, yet thousands of dollars are saved every day, for instance, by the matches that are not thrown away while burning.

Every child should be taught to recognize and appreciate the dangers that lie in all exposed flames.

Of the ten thousand annual deaths by fire in the United States, one-third are children under ten years of age.

TWO FIXTURES ARE DEFAULTED

Electric and St. Peter's of South End League Fail to Ice Full Teams.

TIGERS WIN OUT 4-0.

Two of the four scheduled South-End City League games at the Sacred Heart Rink last night were defaulted, Electrics and St. Peter's failing to ice full teams. Of the remaining two affairs, the juvenile one was somewhat one-sided, but the juniors put up the best battle of the year. Canucks and Stars of the junior section will enter the play-offs for the championship by virtue of their wins last night. The bantam and juveniles have one more night to play before winners are declared.

Tigers had not much trouble beating Canucks in the juvenile opener by the score of 4 to 0. The ice was only fair, and little combination was seen. The league-leading Tigers went through pretty much at will, generally in one-man rushes. Canucks checked hard, but lacked an offensive punch. The winners bagged two goals in the first period, and then took it easy. There was no countering done in the middle frame, both teams playing ragged hockey. Coming out for the third, the Tigers played hard for a while, netting the puck twice in short order. From then on, they played defensively and kept Canucks shooting from a distance.

The teams:

Canucks — Goal, Fleming; right defence, Lefavre; left defence, Hallahan; centre, Delpellario; right wing, Hill; left wing, Shaughnessy; alternates, Kirn, Collins, Wells and McCarthy.

Tigers — Goal, McCarrol; right defence, Boyler; left defence, Weir; centre, Watson; right wing, Fields; left wing, Cournyea; alternates, Kingdon and Gibson.

Referee—W. Rogers.

STARS WIN OUT 2-1.

Stars staved off a ferocious Pirate attack in the third period to win out 2-1 in the final junior game. It was a great game to win and a heartbreaker to lose, but fans witnessed the finest exhibition of hockey seen in a long time. The pace was fast from beginning to end, with both goalies starring in the nets. Fine combination for both teams marked the contest, and back-checking kept the score down. Stars had a slight edge in the opening frame, netting one and threatening often. The second stanza was tight, with J. Bailey and Mowry, opposing defence men, tearing through in dangerous rushes. The latter made it two for the Stars late in the period. The last session saw the play swinging over to the Bucs, and they fairly machine-gunned the Stars' citadel. But Pierson simply couldn't be beat; till toward the end, the Corsair forward line swept in on him and didn't give him a chance. Rogers and Watman buzzed around the goal like hornets till the last gong without, however, scoring again. Tranter and Hope worked hard for the winners as well as the whole team from the goalie out. For the Pirates, every player gave his best. "Moose" Bailey and the forwards performing in great style.

The teams:

Pirates — Goal, Babbs; right defence, B. Bailey; left defence, Beatty; centre, Ellison; right wing, Rogers; left wing, Watman; alternates, J. Bailey, Yeates, and Evans.

Stars — Goal, B. Pierson; right defence, Hope; left defence, Mowry; centre Tranter; right wing, R. Pierson; left wing, McWilliams; alternates, Frost, Parnell, Padgett, and Fisher.

Referee—W. Rogers.

TUSA WINS IN OVERTIME.

TULSA, Okla., Feb. 13.—Superiority of Tulsa Oilers in the American Hockey League seemed assured last night as the league-leaders humbled Chicago's third-place Shamrocks, 3 to 2, to sweep a two-game series. The Rocks, one-time leaders of the loop and rated among the circuit's best, bowed only after overtime play.

Citizens Are Ordered To Vacate Towns

BUCHAREST, Rumania, Feb. 13.—(C.P.)— All attempts to save the fishing town of Kowiar Walkow on the lower Danube from flood have proved fruitless and the government to-day ordered the entire population evacuated.

Seven thousand carts of all descriptions from neighboring villages removed the refugees who numbered among them weeping, despairing children and aged persons, who left all their wordly goods behind in collapsed dwellings.

The town was flooded through failure of the canals to carry off water shoved back on it by an ice dam.

UNEXPECTED OPPORTUNITY

This winter our efforts have been centered on securing the greatest values for our customers to help over the general depression as far as we could. Our special dress value at $5.98 delighted hundreds of customers, but, the source of supply appearing cut off, we so informed our patrons. However

We Did Get One More Lot of

Silk Travel Tweed Dresses

They are made in pretty, one or two piece style, mostly in sand, brown and other plain shades. Sizes 18 to 42. Included are many crepes and satins, jerseys and printed silk-knit dresses. Sizes range up to 48. Values range to $12.50 and will be sold, while they last for our popular price of **$5.98**

Here is a Choice for Particular Buyers

50 new printed silk dresses, just arrived, in exclusive styles. A manufacturer who was overstocked, offered this lot to us at a very special price. There are dresses and suits in an assortment of newest shades, ½ sizes and stouts amongst them. Made to sell at $20.00 each. We offer them as a 3 days special at **$14.95**

See Our $9.95 Rack of DRESSES

A lot of new ones have been added to it.

THE BEASTS OF TARZAN No. 71 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

After two weeks had passed the marooned party had compelled several small and comfortable shacks but never, meanwhile, had there been even a hint of rescue. It was Tarzan who suggested finally that they attempt to construct a boat large enough to carry them back to the mainland. He showed the men how to fashion rude tools and eagerly they commenced their labors under the ape-man's supervision.

But as time went on the Herculean nature of their task became more and more apparent and they fell to grumbling and quarreling among themselves, so that to the other dangers were now added dissension and suspicion. More than before did Tarzan now fear to leave Jane among the half brutes of the Kincaid's crew. But hunting he must do, for none other could so surely go forth and return with meat as he.

Sometimes Mugambi spelled him at the hunting; but the black man's spear and arrows were never so sure of results as the rope and knife of the ape-man. Finally the men shirked their work at every chance they got. All the time the camp had had no sight of Sheeta or Akut and the other great apes. Though Tarzan had sometimes met them in the jungle as he hunted, always each went their separate way.

And as matters tended from bad to worse in the castaways' camp upon the east coast of Jungle Island, another camp came into being on the north coast. Here, in a little cove, lay a small schooner whose decks had but a few days since run red with the blood of her officers and loyal members of her crew during a mutiny instigated by that arch-fiend, Kai Shang the Chinaman, for possession of the schooner's rich catch of pearls

Chinese Mine Disaster Ordered Probed

CLAIM 3,000 MEN WERE SACRIFICED TO CONTROL FIRE

Mukden Newspapers Dispute Colliery Reports That Miners Were Saved.

PITIFUL SCENES DESCRIBED.

State Mine Officials Refused Pleas to Release Workers From Burning Shaft.

PEIPING, China, Feb. 14.—(AP)—Despite denials of colliery officials Chinese newspapers here today insisted that 3,000 miners had been burned to death in a fire in a coal mine at Fushun, near Mukden, Manchuria, last Sunday.

At the same time representatives of the Japanese management of the mine announced that there had been no casualties and that material damage had been negligible.

The Mukden correspondent of the Takung Pao, known as one of the most reliable newspapers here, reported today that in order to localize the blaze the management had closed the affected shaft, thereby trapping in a roaring furnace three thousand Chinese laborers and 30 or 40 Japanese foremen, all of whom perished.

Pitiful Scenes

The correspondent described pitiful scenes which he said took place at the pithead when relatives of the entombed miners pleaded that the burning shaft be opened.

Telegrams from Nanking today indicated that the Government had instructed provincial authorities to hold an investigation and organize relief measures.

The newspapers recalled that in 1917 an explosion in the Fushun colliery killed more than 1,000 Chinese workmen in the greatest disaster in the history of far eastern mining. Several hundred were drowned the following year when one of the pits was flooded.

Claim Gillett Bill May Foster Free Love

WASHINGTON, D.C., February 14 (C.P.). — Opponents of the Gillett Bill to legalize dissemination of birth control information to-day marshalled their testimony before the Senate Judiciary Sub-Committee.

Ralph Burton, of Washington, representing the National Patriotic League, declared advocates of birth control "have been used as cats' paws by Communistic propagandists."

He said passage of the Bill proposed by Senator Gillett, Republican, Massachusetts, would "break down the marriage state and foster free love."

A lengthy list of those supporting the measure appeared yesterday.

Motor Vehicle Total Sets Up New Record

TORONTO, Ont., Feb. 14 (C.P.) — Registration of motor vehicles in Canada during the year 1930 reached the highest figure in the history of the Dominion, according to a report of automobile statistics made public to-day by John Atkins' statistical service of Oakville, Ont. Despite the abnormally low scale of new cars, total registrations for 1930 amounted to 1,222,932, representing an increase over 1929 of 45,393 units. Of the total registrations 1,056,078 were passenger cars and 166,854 commercial cars.

Increases in both passenger and commercial car registrations were shown by eight out of the nine provinces, the exception being Saskatchewan, where an apparent decrease of 1,309 units is shown on available figures.

Disgruntled Guest Said To Have Laid Charge

COBOURG, Feb. 14.—Laurie Mitchell of Murray Township came before Judge L. V. O'Connor in County Court here, charged with conducting a lottery, to which he pleaded guilty. He was given suspended sentence for one year on his own recognizance of $200. The defendant's counsel was Archie Cochrane, and F. D. Boggs appeared for the Crown.

It would appear from the evidence that information was laid by a disgruntled and uninvited guest who attended a goose raffle conducted by the defendant.

Dumbarton Football Club in Scottish Second Division

All hopes of the Dumbarton Football Club getting into the First Division of the Scottish League were practically eliminated today when the team was defeated by Alloa 2 to 0. Dumbarton are members of the second division of the Scottish League and are building up a young team with which they had hopes of promotion next season. It is only a few years ago since Dumbarton were in the first division and have turned out some clever players. S. G. Lennie was awarded an amateur international cup for the game against Wales on February 7. The club recently reported to the Scottish Football Association that an attempt had been made to bride a player. An investigation is under way. Players in the photograph are: BACK ROW, Left to right: D. Muir, J. Kelso, A. Fraser, A. Wilson, J. Stewart, S. G. Lennie; FRONT ROW, W. Parlane, W. Mooney, S. Swanson, N. Shaw and J. Haddon.

GOV'T RESIGNS; SPANISH RULER IS FACING CRISIS

Alfonso Cancels Parliamentary Elections Scheduled For March 1 and 15.

SUMMONS POLITICAL HEADS.

Crash Comes When Monarchist Chiefs Refuse to Support Election Program.

MADRID, Feb. 14.—(A.P.) —The Government of Premier General Damasco Berenguer, successor to the Primo De Rivera Dictatorship, fell to-day, bringing to a head a crisis which appeared to be the most dangerous of any faced by King Alfonso in the course of his long reign.

The King, accepting the resignation of General Berenguer and his cabinet, cancelled Parliamentary elections which were scheduled for March 1 and 15 and immediately began conferences with political leaders with a view to formation of a new cabinet.

While the cabinet had been under fire for several weeks, indeed from its very inception in January, 1930, the situation which brought its fall developed only late last night when the Count of Romanones and other important Liberal Monarchist leaders withdrew their support to the Cabinet's election program.

New Constitution.

Dr. Romanones, a former Premier, and the Marquis de Alhucemas, issued a statement in which they said that they would participate in the forthcoming elections because they believed that abstention would set a bad precedent, but that upon convening of the Cortes, or Parliament, they would ask its dissolution and convocation of a convention to write a new Spanish constitution.

The election program, which King Alfonso had put into decree form Feb. 7, bringing within the immediate future a return to parliamentary rule after seven years of dictatorship and virtual dictatorship, had already been under fire from extremist elements, who had voted not to participate in the balloting. The loss of support of the strong Liberal group headed by De Romanones therefore left the Government with little backing with which to proceed.

In view of growing Republican agitation, the depressed state of the Spanish currency, and increasing internal dissatisfaction the crisis was hailed here as most grave, and one in which the throne itself is threatened.

Coalition Cabinet.

The new cabinet, it was indicated, will be composed of a coalition representing all the Monarchist parties.

Admiral Juan Bautista Aznar apparently is being considered by the King for the Premiership. He was Minister of the Navy when Primo De Rivera established his dictatorship, and since he has not been active in partisan politics recently and is regarded as a political neutral he probably would be satisfactory to the several political groups.

It was not certain whether a new cabinet could be put together to-day or would require several days. Meanwhile the Berenguer cabinet will continue.

Soviet Program Spoiled Papal Ceremony Canadian and French Stations Report

VATICAN CITY, Feb. 14.—(AP)—Canadian wireless and French stations reported to Vatican City today that while the papal ceremony was being broadcast from here Thursday a Soviet station sent out continuous signals on the same wave length, 19.84 metres.

A similar report was received yesterday from French stations who said that these signals interrupted badly the broadcast message of Pope Pius, and that a news agency had to have the text telegraphed from Rome for general publication.

According to the report of the Canadian stations the Russian signals were constant but the Vatican City station was so powerful that it drowned out the Soviet signals.

Great Britain also failed to hear the program properly and while stations there did not inform the Vatican of the reason, newspaper dispatches said there also it was a case of air interference from a Soviet station.

Old Man Winter Is Far From Dead

NORTH BAY, Ont., Feb. 14.—(C.P.)—The coldest spell of winter was being experienced to-day in Northern Ontario following two mild days during which water was running in the streets of towns.

Dropping suddenly last night, the mercury went down to 40 below zero, in Hornepayne, the coldest spot, while at Cochrane it was 30 below.

Prospects were that North Bay and Sudbury would get the full force of the cold wave to-night.

TWO SEAMEN DIE IN FILLING DUTY

Overcome By Gas Fumes as Tanker Becomes Flooded With Petroleum.

RESCUED TOO LATE.

LIVERPOOL, England, February 14 (C.P.). — Deaths of two ship's officers in a mid-ocean battle against suffocating petroleum fumes were disclosed to-day when the tanker Lumina arrived here from San Francisco.

Captain Walsh said that when it was discovered that the pumproom plates were awash with petroleum the chief engineer, Angelo Lazarus, went down on a lifeline to open the valves, but collapsed.

The second engineer, R. M. Forth, went to his assistance, but also was overcome. The boatswain was then lowered into the hold. He tied himself to the others, and was hauled up unconscious. He was revived, but the other two men were dead

WALSH AWARDED $300 DAMAGES

Case Arose From Auto Accident on the Keene Road.

THREE CIVIL ACTIONS.

John R. Walsh, of Otonabee, is awarded $300 damages and costs by a judgment of His Honor Judge Huycke handed out yesterday in three actions heard before him in the County Court on January 26 last.

The case, which was a complicated one, arose from an auto accident on the Keene road on the evening of July 9, in which Walsh's truck and a car owned by Thomas Roach, driven by Leo Herr and containing Roach and Isaac McNevan as passengers.

Walsh sued Herr and Roach who, in turn, counter claimed against Walsh in the amount of $1,000. Roach instituted another action, claiming $1,000 adamges against Walsh and Isaac McNevan.

All actions were tried together and 28 witnesses testified at the hearing. In the box Roach claimed that Walsh was intoxicated while driving the car and in turn Walsh alleged that the occupants of the Roach car had been drinking.

By Judge Huycke's decision Herr and Roach's counter claims against Walsh were dismissed and the actions of Roach and McNevan against Walsh were also dismissed, and Walsh was awarded $300 damages and his costs.

J. A. O'Brien appeared for Walsh and G. N. Gordon, K.C., for Herr, Roach and McNevan.

SENATOR ANDREW HAYDON VERY ILL

OTTAWA, Ont., Feb. 14 (C.P.)—Senator Andrew Haydon is seriously ill at his home here. He had been unwell for about a week and to-day suffered a heart attack. At noon his condition was given as somewhat better. His friends in all parts of Canada will eagerly await word of his recovery.

TWO WOMEN DIE TRAPPED BY FIRE IN LONDON HOUSE

Wife of Eminent King's Counsel and Maid Perish in Bedrooms.

OTHERS BARELY ESCAPE.

Tragedy Follows Celebration of 30th Wedding Anniversary With Big Party.

LONDON, Feb. 14 (By Thomas T. Champion, C.P. Staff Correspondent) —Mrs. John Roskill, wife of the eminent King's Counsel, who also is Judge of the Salford Court, Lancashire, was burned to death early today with a nurse named Weir at the Roskill residence in Montague Square in the West end of London.

The whole family was trapped in the upper rooms of the house, and rescue of the other members of the family was effected with great difficulty, including a son, Oliver, who was suffering from pneumonia. Another son and a servant leaped 15 feet into a sheet.

Only last night Mr. Roskill celebrated the thirtieth anniversary of his marriage to Sybil, daughter of the late Ashton Wentworth Dilke, M.P., Newcastle-on-Tyne, the victim of to-day's holocaust. The anniversary was celebrated at the house with a large party.

Embargo On Lumber Brings Red Threats

MOSCOW, Feb. 14.—(A.P.)—Moscow newspapers commenting to-day on an United States' embargo on Russian lumber, reiterate assertions that charges of forced labor in the Soviet Union are "ridiculous," and threatened retaliatory measures whose nature is not described.

Pravda, asserting that the action will be felt as keenly by United States business as Russian, claims the embargo "will endanger future industrial relations between the two countries and certainly will affect the balance of trade which in 1930 was more than $100,000,000 in America's favor."

IRELAND DOWNS ENGLAND

TWICKENHAM, Eng., Feb. 14 (C.P. Cable).—Ireland defeated England in their annual rugby football fixture here to-day by six points to five.

CAR FALLS THOUGH ICE—

SARNIA, Ont., Feb. 14—Caswell Waterman, 21, of Algonac, Mich, was drowned and his sister, Pearl Waterman, was saved from a similar fate when a car in which they were driving across the frozen St. Clair River went through an air hole off Port Lambton and sank yesterday.

FIVE ARE MISSING AS GREAT DELUGE SWAMPS VILLAGE

Wall of Water Six Feet High Carries Away Homes, Demolishes Buildings.

RESIDENTS FLEE TO ROOFS.

Telephone Lines Down, and Miles of Railway Tracks Washed Out at Wellton.

YUMA, Ariz., February 14 (C.P.). — A cloudburst sent a wall of water down a canyon and through the village of Wellton, 38 miles east of here, last night, and otherwise wrought havoc in Southern Arizona. At least one person, a Canadian, drowned, and five were missing as a result of the storms.

Rain had fallen for an hour in Wellton when the roar of rushing water was heard. Within a few minutes a well of water six feet high and 250 yards wide tumbled out of a flat-bottomed canyon running from the rocky hills into the city.

Cottages Washed Away.

The water swirled through the streets, washing away a dozen cottages, demolishing two business buildings, ripping up a mile and a half of railroad track and highway, and tearing out power and telephone lines.

Automobiles caught in the first rush were carried away and wrecked. The one known victim was drowned when his car was washed into a ditch. He was identified only as a man named Temple or Templeton, bound from Ontario to El Centro, Calif.

Residents of Wellton scrambled to the roofs of their houses and remained there overnight. One motorist climbed a tree and perched there until dawn. The town for a time was a lake six feet deep.

A less severe storm sent a cataract into Mohawk and washed out the railroad and highway there.

Four Southern Pacific trains were halted by the washouts. Two passenger trains, bound from Chicago to Los Angeles, were stopped short of Wellton, and spent most of the night backing into Phoenix for transfer to the Santa Fee tracks. They were the Golden State Limited and the Apache.

Two freight trains were stalled between here and Wellton. One was reported to have been hopelessly stranded when the track gave way under ten cars loaded with perishables, and the caboose.

200 Volunteers on Way

Scores of automobiles left here upon receiving reports of the storms and attempted to fight their way through to the affected region.

One telephone was operating last night to Tacna, 15 miles east of Wellton, but there was no direct communitcation with either Wellton or Mohawk.

The rain was general, hampering motor traffic over most of Arizon's highways. Phoenix reported a downpour early to-day.

A storm similar to that which inundated Wellton poured a flood into the twin cities of Nogales, Ariz., and Nogales, Sonora, last year, drowning more than a dozen.

Legal Committee Will Carry Case To Supreme Court

Committee Which is Composed of Five Aldermen and the Mayor is Unanimously Agreed to Carry B. F. Ackerman Damage Action to the Supreme Court of Canada.

COMMITTEE GOES ON RECORD AS BEING IN FAVOR BROADCASTING FROM PRIVATELY OWNED RADIO STATIONS

If Appeal of Ackerman Case Goes to Supreme Court it Will be Second Time City Has Appealed the Judgment in the Damage Action for $15,000.

Unanimous decision to carry the appeal against Mr. Justice McEvoy's decision, given in favor of the B. F. Ackerman Company in their $15,000 suit for damages against the City of Peterborough, to the Supreme Court of Canada was reached last night by the Legal Committee of the City Council. The committee composed of five aldermen and the mayor will recommend to the Council that the appeal be entered.

If the case is carried before the Supreme Court it will be the second time that the city has appealed Justice McEvoy's decision on the case which was first heard before him hree in the spring of 1929. The first Divisional Court at Osgoode Hall, which heard the first appeal, sustained Justince McEvoy's judment Chief Justice Sir William Mulock announced last Monday.

Caused By Flooding

The Legal Committee also went on record as being in favor of private ownership of radio broadcasting stations in Canada and being opposed to the mooted change to Government ownership and control of the air. The Committee studied the report of Sir John Aird on Government ownership and also a report by C. A. Peck, M.P.

Alderman Tuggey will be asked to remove his motion putting the City Council on record as being opposed to Government ownership of radio. Alderman Tuggey previously moved this motion in Council but it was not dealt with being referred to the Legal Committee for study.

MAHATMA SEEKS FIRST INTERVIEW WITH LORD IRWIN

Believed Viceroy Would Free Prisoners if Gandhi Calls Off Campaign.

MACDONALD MUST APPROVE.

Nationalists Parley Ends Abruptly Pending Latest Move —No Statements.

ALLAHABAD, India, Feb. 14 (C.P. Cable).—The first move towards a conference between Lord Irwin, Viceroy of India, and Mahatma Gandhi, Nationalist leader, was taken to-day when Gandhi sent to the Viceroy a formal letter asking for an interview.

It was virtually certain that the Viceroy would invite Gandhi to New Delhi with the least possible delay.

Sir Tej Bahadur Sapru and M. R. Jayakar, leading delegates to the London Round Table Conference, were given credit for inducing Gandhi to make the first move in the deadlock between the authorities and the Hindu Nationalist Congress Party.

Irwin May Agree.

While it was expected that Gandhi would adhere to his request for amnesty of all political prisoners, before the Nationalists would co-operate with other parties in important negotiations that are to take place, it is also believed that Lord Irwin might grant this request if he received assurance that Gandhi would call off the civil disobedience campaign. Prime Minister Ramsay MacDonald would, it is believed, have to give approval before amnesty of political prisoners was decided upon.

Parley Ends Abruptly

India's own Round Table Conference of the Congress Party Working Committee terminated abruptly today, withholding announcement of its decisions until after a projected interview between Mahatma Gandhi and the Viceroy, Lord Irwin.

SIR EDWARD CLARKE ON SUNDAY CELEBRATES HIS 90TH BIRTHDAY

Noted British King's Counsel Played Part in Many Famous Cases.

SPURNED HIGHEST OFFICES.

LONDON, Feb. 14 (By Thos. T. Champion, C.P. Staff Correspondent). —Only those with long memories will recall when Rt. Hon. Edward Clarke, K.C., small as he is in physical inches, was a giant at the English Bar and a leader in the House of Commons. To-morrow he celebrates his 90th birthday anniversary On occasion he is still to be seen at the Temple and in other places where men of law are wont to congregate

For a period Sir Edward was Solicitor-General, and the highest office in the judiciary might have been his. But for the sake of personal principle he more than once put aside certain political advancement. He refused the Mastership of the Rolls, third in the judicial hierarchy, leading to a peerage and a Lordship of Appeal, not because he preferred the bar to the bench but rather because he felt the office required a more profound knowledge that he possessed of the Chancery side of the law. He retired from active work in 1914.

Had Lowly Start.

Clarke's father was a jeweller, and the family lived over the shop, young Edward sleeping on the stairway. He won a clerkship at the old East India House when he was 18, and asked to be let out in the reorganization a year later. With a small gratuity and newspaper writing he maintained himself while reading for the Bar. He was as eagerly sought in criminal as in civil cases, and appeared for Captain O'Shea in the divorce suit against Parnell. He was counsel for the plaintiff in the famous Baccarat case in which the Prince of Wales, later Edward VII., was a witness. He also defended Dr. Jameson in the criminal proceedings following the Jameson raid.

At 25 years of age Sir Edward was rejected by an insurance company—and for more than half a century afterwards did not spend a dollar in doctors' fees for himself. His main exercise was, and is, walking.

CARROLL'S REVUE RAIDED BY POLICE

Twenty-eight Chorus Girls, Two Stars and Manager Are Arrested.

CURTAIN RUNG DOWN.

CHICAGO, Ill., Feb. 14 (C.P.). — Earl Carroll's "Sketch Book" revue was halted by police last night in a spectacular raid at the Grand Opera House in which 28 chorus girls, two principals in the cast and the manager of the play were arrested, on charges of participation in "an indecent threatrical performance."

Armed with warrants, nine uniformed officers marched in through the main entrance, and ordered the curtain down.

The girls, many of whom were in professional dishabille, were loaded into the four patrol wagons, and were taken to a police station. With them rode James J. Carroll, brother of Earl Carroll of the champagne bath notoriety, and two stars, William Demarest and Don Howard. James Carroll is manager of the show.

All were subsequently released on bond.

"The Eccentric Millionaire" was the name of the scene being shown when the police swooped down. The management returned the money to the customers.

Flaming Oil Gusher Defies All Control

OKLAHOMA CITY, February 14 (C.P.). — Victorious in a floodlighted night battle, a wild oil well, Mary Jane Unsell, No. 4, roared into another engagement at daybreak.

Officials of the Indian Territory Illuminating Oil Company, owners of the well, said the gusher probably would be capped to-day

Masked workmen, unmindful of the danger of gas and fire, struggled in vain to cap the geyser until late last night. The task was abandoned until daylight with a new connection ready to be stabbed in place. The oil flow was estimated at 600 barrels an hour.

ENGLISH TEAM WINS.

BOURNEMOUTH, Eng., Feb. 14.—(Canadian Press Cable.)—England's team defeated Wales by five goals to nil in an international amateur soccer match here to-day.

DEATH CLAIMS NOTED POLITICIAN IN SIR W. L. EVANS

Prominent Britisher Was Secretary of State for War in Two Tory Cabinets.

CREATED BARONET IN 1916.

Loss Leaves Vacancy in St. George's Division of Westminster.

LONDON, Feb. 14 (A.P.) — Sir Laming-Worthington Evans, Bart., Secretary of State for War in two Conservative Cabinets, died in his sleep early to-day. He was 83 years old.

During the Great War Sir Laming was attached successively to the Foreign Office, the Ministry of Munitions, the Ministry of Blockade and, in 1918, was made Under-Secretary for Foreign Affairs. He was Minister of Pensions in 1918-19, and Minister without Portfolio in 1920-21.

He was created a Baronet in 1916.

Sir Laming had a distinguished political career and was one of the mainstays in the high councils of the Conservative Party.

He had not been well of late, but his death came suddenly and unexpectedly.

He made his last speech in the House of Commons only last Wednesday when he moved a vote of censure against the Labor Government in behalf of the Conservative opposition.

His long Parliamentary career had given him full command of the tactics of that body and he was a fluent speaker. His death leaves a vacancy for the St. George's Division of Westminster, where had had more than 16,000 majority votes in the last election.

Wartime Discovery

Sir Laming Worthington-Evans, was a wartime discovery as an administrator. He was one of the Conservative members of the Wartime and Postwar Coalition Government, headed by Right Hon. David Lloyd George, who held out against the Carlton Club celebrated meeting at which a majority of the party declared against Mr. Lloyd George. For a time Sir Laming refused to serve under Right Hon. Stanley Baldwin, Conservative leader, unless Sir Austen Chamberlain, then under sentence of ex-communication by the Tory diehards, was included in the cabinet. Sir Laming finally accepted the post of Postmaster-General.

When the appointment of right Hon. Reginald McKenna as Chancellor of the Exchequer in the Baldwin Government was being discussed there was issued to the press on postoffice paper a biography of the Postmaster-General in which the public was informed among other things that he was known to his friends as "Worthy"—an indiscretion of which the most was made by the opposition wits. The Postmaster-General disclaimed knowledge of the effusion, which he described as vulgar and stupid.

Sir Laming had an amiable personality, a bland manner, and a voice some found irritating and others pleasing. He is understood to have been the creater of the scheme of national saving certificates, originally introduced for the purpose of raising war funds, and continued after the war for the cultivation of general thrift.

CRICKET PLAYERS RESENT ATTACK

Ask What Lady Astor Knows of the Game, After Her Statement in Commons.

DRINK RUMORS DENIED.

LONDON, Feb. 14.—(A.P.)— Lady Astor's claim in the House of Commons yesterday that Australians won their recent cricket matches with England because they do not drink, with its obvious implication that the British lose because they do, has stirred the ire of many leading English cricket players.

The Daily Express, which sought their views, published a radiogram to-day from Lord Tennyson, famous batsman who is en route to New York aboard the Olympic, in which he said the suggestion was absolutely untruthful.

Another famous player, A. W. Carr, who like Lord Tennyson, played against the Australians, said that the suggestion was "absolute rot."

Both said that the reason the Australians won was because they were better cricket players and both wanted to know what Lady Astor knew about cricket. Carr suggested that it would be better if the members of the House of Commons learned to mind their own business.

American farm implements are used almost exclusively in the West Indies.

Seven Year Old Quadruplets Doing Quite Well; Four Children Born in 1923 Attending School

ST. JOHN, N.B., February 14 (Special to The Examiner, S.N.S. —Copyright 1931). — The Mahaney quadruplets of St. John, N.B., are sure of having enough playmates without going outside the family. Another son arrived in the family recently, the second born to Mrs. William Mahaney, since the birth of the quartette, on Christmas Day, 1923, as a four-play Yuletide present.

Prior to the arrival of the quadruplets, five children had been born to Mrs. Mahaney, and her husband, a carpenter, a native of Newfoundland. Mrs. Mahaney was born and reared on a farm near Bridgewater, N.S. The Mahaneys moved to St. John about 15 years ago. The oldest child, a son, is married and a father. There is also a daughter, aged 24, and a boy of 17. Next to the quadruplets comes a daughter of 10.

All of the quadruplets are living and attending school. There are three girls and a boy. The girls are Edith May, Edna Louis, and Lyda Christine. The boy is John Douglas. All four are pupils in the Second Grade at Victoria School, located about 200 yards from the Mahaney home on Queen Street, in the south-end of St. John.

Thomas Mason Nears His 102nd Birthday

LINDSAY, Feb. 14.—Thomas Mason of Minden, the grand old man of Stanley Township, will celebrate the 102nd anniversary of his birth Tuesday, Feb. 17. Mr. Mason is in fair health and takes keen interest in horticulture. He was at one time a sailor on the high seas. He found his way into the northern part of Haliburton County half a century ago and took up farming. He is a great lover of flowers and for years has been an enthusiastic gardner, doing all his own garden work, although having passed the century mark.

MILLERS FALL BEFORE TWEED IN T. V. L. TILT

Hard Fight Between Two Evenly Matched Squads Ends in 2-1 Win For Homesters.

PLAY ON POOR ICE.

Campbellford Leads Play in Two Frames But Are Unable to Make the Count.

CAMPBELLFORD, Feb. 14. (By Examiner Staff Correspondent). Another Trent Valley Hockey League fixture that proved to be a battle royal was staged last evening at the Tweed Arena, when the Green and Whites clashed with the Campbellford Maroons and sent them home with a 2-1 licking.

The game was staged on some of the poorest ice seen this season. Soft to the point of being snow, the players were faster than the puck, that did its best to go where it was put but rarely succeeded. Although the game was more than hard work for the players, it was one of the best seen this season between these two teams. The score was indicative of the play. A hard fight between two evenly matched squads, only one count was made in the first period, two in the second, the last being scoreless.

Campbellford had the edge on the play in the first period but were unable to make a count. The second session was more even with a tally on both sides, the last session being again the visitors' as far as the balance of play was concerned, the Maroons playing four men on the forward line in the hope of evening up the count. If the ice had been keen the game would have been more than fast, but its cleanness was undisputable, with Ross Burt of Trenton handling the bell, only four penalties were handed out. Three of these were in Campbellford's favor.

Lead in Combination

Tweed played a fine game and starred in their combination play with some splendid forward rushes by Campbell and Cripps. The Millers were far better on team play than they have been for some while, this adding to their strength considerably. Eddie Busche, one of their junior players was seen on their line-up, and did yeoman work, playing a fast game and working in well with the subbing forward line. Both teams had some near goals, but the slow ice made it difficult to gauge shots and passes.

The Teams

Tweed—Goal, McGee; defence, M. Geraldi and Marchen; centre, Campbell; wings, Cripps and A. Geraldi; subs., F. Geraldi, G. Geraldi and Boyd.

Campbellford—Goal, Sanders; defence, Cowall and Ingram; centre, Whitton; wings, McKay and Flemming; subs., Smith, Blue and Busche.

Referee—Ross Burt, Trenton

British Malaya's road mileage is four times that of five years ago.

SCOTTISH YOUTH HERO OF WRECK

Uses Hand to Plug Hole in Lifeboat After Vessel Burns at Sea.

EIGHT ARE RESCUED.

ABERDEEN, Scotland, Feb. 14.—(A.P.)—A Scottish fisher youth, who like the Dutch boy of legend used his hand as a water plug, saved his own life and the lives of seven others in the wintry gale which has lashed British waters the last two days.

Captain Archibald Ritchie of the motor vessel Rose Hearty upon his arrival here to-day told the story of the bravery and pluck of one of his sons, John, who stopped a boat leak in the same manner that the Dutch youth plugged the damaged dyke.

The engine of the Rose Hearty caught fire at 6 p.m. Thursday, off Sleat Point, on the west coast of Scotland, he said. After vain efforts with bucket and hose to extinguish the flames the crew, consisting of Ritchie and his five sons, a brother and a 16 year old boy were forced to take to a small boat.

The plug in the bottom of the small boat was missing and John Ritchie jammerd his hand in the hole and kept it there for more than two hours while the others rowed and bailed as the gale tossed the small craft through the darkness.

A boat attracted by the blazing Rose Hearty finally rescued the imperiled fishermen. Before abandoning the ship Captain Ritchie had attempted to rescue the ship's dog from the engine room but had been driven back by the flames.

LONDON, Feb. 14 (C.P. Cable). — Hon. G. Howard Ferguson was received by His Majesty the King at Buckingham Palace to-day.

The new Canadian High Commissioner and his wife will be the guests of Right Hon. Ramsay MacDonald at the Prime Minister's country residence, Chequers, on Sunday.

PANAMA REVOLT TURNS OUT FALSE

Rumor Causes Orders For National Police to be Mobilized.

CHIRIQUI PROVINCE QUIET.

PANAMA CITY, Feb. 14.—(A.P.)—Apparently false reports of a counter-revolutionary movement in Chiriqui Province, Northern Panama led to orders for mobilization of the national police force during the night.

Later the Chief of Police here talking with the Police Chief in David, principal city in the province, was told that everything was quiet there and that there was no indication of any impending trouble.

The reports of trouble were received by the Accion Communal, organization which sponsored the recent revolution which deposed the Arosemena regime. The organization's information was that a steamer had landed arms at Pedregal, seaport for David.

Panama has no army and navy, a national police force of 60 officers and 630 men sufficing to keep the peace internally in normal times.

SCOTCH MEMBER BACKS DRY BILL

Measure Would Prohibit Manufacture and Sale of Alcoholic Drink.

UNLUCKY DAY.

LONDON, Feb. 13 (C.P.). — Edwin Scrymgeour, doughty Scotch prohibitionist member of the House of Commons from Dundee, again tried to push a prohibition bill through the House to-day, but before the vote was taken it was noted in the lobby that the number of the bill was 13 and this was Friday the thirteenth.

Scrymgeour, the only member of Parliament elected on the prohibition ticket, has spent years working for the suppression of the liquor trade. This measure would prohibit the manufacture and sale of alcoholic drink. In 1923 he sponsored a similar bill but the House vote against it was 236 to 14.

The House went into gales of laughter as Scrymgeous, moving the second reading of the bill, quoted Gilbert K. Chesterton as doubting the accuracy of statistics of drunkenness because they refer only to the poor, then added: "There is no sensible man who has reached the age of forty who has not been drunk at some time or other; when a man of good position is helplessly drunk he is put into a cab and sent home and does not become a statistic."

STOP WOMEN'S ACHES & PAINS

Thousands of women are getting quick relief from those distressing periodic aches and pains by taking ZUTOO TABLETS. Harmless but effective, they bring immediate relief. Women who thus suffer, are suffering needless pain, for one or two of these harmless little tablets will certainly stop the pain.

ZUTOO

CANADA'S TRADE WITHIN EMPIRE SHOWS BIG DROP

Total Purchases in 1929 of $257,098,000 Tumbles to $227,825,000 in 1930.

EXPORTS FALL $79,012,000.

Despite Depression Dominion Enjoys Favorable Balance of Trade For Year.

OTTAWA, Ont., Feb. 14. —(CP)— Canada's Empire trade, both imports and exports, was less in the calendar year, 1930 than in the previous 12 months, it was shown in a report issued by the Dominion Bureau of Statistics, containing complete trade tabulations for the period. Comparing the two years, Canada's total purchase of British Empire goods fell from $257,098,000 in 1929 to $227,825,000 in 1930 while her exports to other Empire countries dwindled from $395,388,000 in 1929 to $316,376,000 in 1930.

Many encouraging facts, from a trade sense, are contained in the trade tabulations. In 1930, Canada enjoyed a favorable balance of trade —surplus of exports over imports — with Great Britain, Bermuda, Australia, British Honduras, British South Africa, British West Indies, Hong Kong, Irish Free State, Newfoundland, New Zealand, Trinidad and Tobago.

Total Trade Away Down

In a year marked with economic depression, when Canada's total trade fell off $593,281,000 from the previous 12 months, trade with many sections of the Empire was remarkably sustained.

The following table shows the imports and exports to the Empire countries in 1930:

(Turn to Page 6 Please)

Lieut.-Col. D. J. Lawrie In Charge Of Armoury

Orders recently issued by Brigadier W. B. Anderson, C.M.G., D.S.O., D.O.C. Military District No. 3, contain notice of the promotion of Lieut. A. R. Macnab of 3rd Prince of Wales Canadian Dragoons to be Captain as from October 1st, 1930.

The appointment of Lieut. Lloyd Cecil Gliders, 4th Machine Gun Battalion, C.M.G.C., dating from September 5th, 1930, is also gazetted.

Lieut.-Colonel D. J. Lawrie, 4th Field Brigade C.A., is detailed to perform the duties of officer in charge Armoury, Peterborough, with effect from January 16th, 1931, vice Lieut.-Colonel W. G. Hall, V.D., Peterborough Rangers.

Second Lieut. G. R. Clegg of the Peterborough Rangers is promoted to the rank of Lieutenant dating from October 15th last, while the appointment of Norman Frederick Brooks as Second Lieutenant in the same regiment is also announced dating from October 25th, 1930.

Certificates of proficiency in signalling have been awarded to the following members of the Peterborough Rangers Regiment.—Grade 1st V/T, Private J. White, Sergt. O. Varty. Privates M. B. Parnell, J. McGovarin, A. Inch, J. M. Gray, H. J. Fowler, J. Dunkerley, Jr.; S. R. Adamson and Corporal W. E. Jamieson. A certificate 2nd V/T was also awarded to Pte. D. McIlwain.

More than 5,000,000 tons of potatoes were grown in Spain last year.

SPLIT DEVELOPS IN FREE TRADERS

Opposition Shown to Critchley After Withdrawal of Original Candidate.

POLLING ON FEB. 19.

LONDON, Feb. 13.—(C. P. Cable)—A split among the Empire Free Trade forces in the East Islington by-election was reported today. Some of the crusaders are opposed to the policy of nominating Brigadier-General A. C. Critchley, native of Calgary, as Empire Free Trade candidate after the withdrawal of the original Empire Free Trader, Paul Springman. This section has signified its intention of supporting Miss Thelma Cazalet, Conservative candidate.

Officials at Brig.-General Critchley's headquarters declared however there were important points of difference between the Conservative candidate's policy and that of the Empire Free Trade candidate, and asserted the "renegade" were a mere handful compared to the "immense number of voters who have signified their intention of supporting Brig.-General Critchley."

Polling takes place Feb. 19. Labor and Liberal candidates are also in the field.

Price To Investigate Boy Bandit's Sentence

TORONTO, Ont., Feb. 13 (C.P.)— Sentence of five years and [illegible] lashes imposed on a 16-year-old bank robber at Fort Frances yesterday will be investigated by the Attorney-General's Department, Hon. W. H. Price, Attorney-General, stated to-day.

The question of clemency, however, has to be determined by the Department of Justice at Ottawa, and any appeal for mitigation of sentence on that ground would have to be dealt with by the Federal authorities.

"On the face of it, it appears a pretty severe sentence," said Col Price. "I will have my department look into the matter and get all the facts."

Her Little Girl had Weak Kidneys

"My little girl had very weak kidneys," writes Mrs. M. J. Thompson, Scobie West, Ont. "I found Dodd's Kidney Pills a wonderful help to her and I highly recommend them to any one who is suffering as she was. I gave her three boxes in all and she is now in good health. Thanks to Dodd's Kidney Pills."

For more than a third of a century people have been telling each other of the benefits received from Dodd's Kidney Pills. They are no cure-all but purely and simply an effective kidney remedy. If your Kidneys trouble you, take Dodd's Kidney Pills. They are the remedy you need.

Never accept a substitute. Insist upon Dodd's

In Quest of Health

REST and sleep are positively necessary for the restoration of the exhausted nervous system.

The difficulty is that most people affected with nervous disorders cannot rest or sleep. They are restless, irritable, excited and worried and constantly expending more nervous energy than their systems can supply.

Whether you seek health at home or in the Sunny South it is positively necessary that you assist nature by supplying restorative treatment such as Dr. Chase's Nerve Food in order to feed the exhausted nerves back to health.

Then you will rest and sleep well, enjoy your meals and realize what it is to be well and happy.

DR. CHASE'S NERVE FOOD

Restores nerve force to the body

MUSINGS AT A MANSE WINDOW

SOME twenty years ago, or more, there was much talk in church circles about "The New Theology." Solomon had said that there was nothing new under the sun—but, of course, Solomon did not know everything despite the fact that he spent much of his time in the company of women!

About that time—well, to be exact, April 27th, 1907—I made a hurried trip to London, the metropolis of the world, where I got a very amusing little story from G. K. Chesterton. The story has to do with the thing called "The New Theology," and I propose to set it down in this column to-day.

For those who are "stuck" on titles, the title of this story is "The Orthodox Barber."

One can't always tell when Chesterton is serious or when he is poking fun. He is sometimes so funny when he is serious, and so serious when he is funny, that to me he is one of the most entertaining and inspiring personalities of our time.

If They Had It!

Those thinkers who cannot believe in any gods often assert that the love of humanity would be in itself sufficient for them; and so, perhaps, it would, if they had it.

There is a very real thing which may be called the love of humanity; in our time it exists almost entirely among what are called uneducated people; and it does not exist at all among the people who talk about it.

A positive pleasure in being in the presence of any other human being is chiefly remarkable, for instance, in the masses on Bank Holiday, in and around London; that is why they are so much nearer Heaven—despite appearances—than any other part of our population.

A Crowd of Girls.

I remember seeing a crowd of factory girls getting into an empty train at a wayside country station. There were about twenty of them; they all got into one carriage; and they left all the rest of the train entirely empty. That is the real love of humanity. That is the definite pleasure in the immediate proximity of one's own kind. Only this coarse, rank, real love of men seems to be entirely lacking in those who propose the love of humanity as a substitute for all other love; honourable, rationalistic idealists.

I can well remember the explosion of human joy which marked the sudden starting of that train; all the factory girls who could not find seats—and they must have been the majority—relieving their feelings by jumping up and down.

Now I have never seen any rationalistic idealists do this. I have never seen twenty modern philosophers crowd into one third-class carriage on any British railway train for the mere pleasure of being together.

Some people express a fear that vulgar trippers will over-run all beautiful places, such as Hampstead or Burnham Beaches. But their fear is unreasonable; because trippers always prefer to trip together; they pack as close as they can; they have a suffocating passion of philanthropy.

The Colloquial Barber.

Among the minor and milder aspects of the same principle I have no hesitation in placing the problem of the colloquial barber. Before any modern man talks with authority about loving men I insist—I insist with violence—that he shall always be very much pleased when his barber tries to talk to him.

His barber is humanity; let him love that. If he is not pleased at this I will not accept any substitute in the way of interest in the Congo or in the future of Japan. If a man cannot love his barber whom he has seen, how shall he love the Congoese or the Japanese whom he has not seen?

It is urged against the barber that he begins by talking about the weather; so do all dukes and diplomatists, only that they talk about it with ostentatious fatigue and indifference, whereas the barber talks about it with an astonishing, nay incredible, freshness of interest. It is objected to him that he tells people that they are going bald. That is to say, his very virtues are cast up against him; he is blamed because, being a specialist, he is a sincere specialist, and because, being a tradesman, he is not entirely a slave.

But the only proof of such things is by example; therefore I will prove the excellence of the conversation of barbers by a specific case. Lest anyone should accuse me of attempting to prove it by fictitious means, I beg to say quite seriously that though I forget the exact language employed, the following conversation between me and a human (I trust), living barber really took place a few days ago:

How is the Razor?

I had been invited to some "at home" to meet the Colonial Premiers, and lest I should be mistaken for some partly reformed bushranger out of the interior of Australia, I went into a shop on the Strand to get shaved. While I was undergoing the torture, the man said to me:

"There seems to be a lot in the papers about this new shaving, sir. It seems you can shave yourself with anything—with a stick or a stone, or a pole, or a poker" (here I began for the first time to detect a sarcastic intonation) "or a shovel, or a—"

Here he hesitated for a word, and I, although I knew nothing about the matter, helped him out with suggestions in the same rhetorical vein.

"Or a button-hook," I said, "or a blunderbuss, or a battering-ram, or a piston-rod—"

He resumed, refreshed with this assistance: "Or a curtain-rod, or a candlestick, or a—"

"Cow-catcher," I suggested eagerly and we continued in this ecstatic duet for some time. Then I asked him what it was all about, and he told me. He explained the thing eloquently and at length.

An Old Idea, After All!

"The funny part of it is," he said, "that the thing isn't new at all. It's been talked about ever since I was a boy, and long before. There was always a notion that the razor might be done without somehow. But none of these schemes ever came to anything; and I don't believe myself that this will."

"Why, as to that," I said, rising slowly from the chair and trying to put on my coat inside out, "I don't know how it may be in the case of you and your new shaving. Shaving, with all respect to you, is a trivial and materialistic thing, and in such things startling inventions are sometimes made. But what you say reminds me in some dark and dreamy fashion of something else. I recall it especially when you tell me out of your ripe experience, and with such evident sincerity, that the new shaving is not really new. My friend, the human race is always trying this dodge of making everything entirely easy; but the difficulty which it shifts off one thing it shifts on to another.

"If one man has not the toil of preparing a man's chin, I suppose that some other man has the toil of preparing something very curious to put on a man's chin. It would be nice if we could be shaved without troubling anybody. It would be nicer still if we could go unshaved without annoying anybody—

But, O wise friend, chief Barber of the Strand,

Brother, nor you nor I have made the world.

"Whoever made it, who is wiser and we hope better than we, made it under strange limitations, and with painful conditions of pleasure.

Losing One's Razor.

"In the first and darkest of its books it is fiercely written that a man shall not eat his cake and have it; and though all men toiled until the stars were old, it would still be true that a man who had shaved had lost his beard, and that a man who had lost his razor could not shave with it.

"But every now and then men jump up with the new something or other, and say that everything can be had without sacrifice, that bad is good if you are only enlightened, and that there is no real difference between being shaved and not being shaved. The difference, they say, is only a difference of degree; everything is evolutionary and relative.

'Shavedness' is immanent in man. Every ten-cent nail is a Potential Razor. The superstitious people of the past (they say) believed that a lot of black bristles standing out at right angles to one's face was a positive affair. But the higher criticism teaches us better. Bristles are merely negative. They are a Shadow where Shaving should be.

"Well, it all goes on, and I suppose it all means something. But a baby is the Kingdom of God, and if you try to kiss a baby he or, better still, she, will know whether you are shaved or not!

Is it Shaved or Saved?

"Perhaps I am mixing up being shaved and being saved; my democratic sympathies have always led me to drop my 'h's.' In another moment I may suggest that goats represent the lost because goats have long beards. This is growing altogether too allegorical.

"Nevertheless," I added, as I paid the bill, and tipped my hat to a lady who came in at the moment, "I have really been profoundly interested in what you told me about the New Shaving. Have you ever heard of a thing called the New Theology?"

He smiled and said that he had not.

"Well, the New Theology tries to make out that every man is a Potential Christ, and every sinner a Potential Saint. The New Theology does not need any spiritual birth; all that is necessary is just to fan into a flame the smouldering embers of divinity which are to be found in the heart of the most depraved! But like your New Shaving it is not new at all. Therefore, Solomon was right after all, when he said that there was nothing new under the sun. From the very first I was convinced that Solomon must have got the right end of the argument. A man who basked in the conversational sunshine of as many women as he knew could not but get the right story from some of them. They couldn't all have been mistaken!"

With kindest regards to barbers and preachers, **Allan Fairbairn.**

The Hour Of Prayer

O Lord of the garden, the cherubim and the flaming sword have always kept the way of the tree of life, and they who walk with Thee within fair Eden's walls behold the beauty and majesty of these protecting servants; but some have turned aside where thorns and thistles grow, and looking back see only avengers of broken law and harbingers of judgment to come. The Way, the Truth, the Life, the Light must ever be the rule and plumb that approve us or condemn; He who says, "Come unto me, ye blessed," alone may say, "Depart from me, ye cursed." Spare us, then, the judgment of Thy benedictions! Make us wise to flee the condemnation of Thy goodness! Teach us to shun the shame of those who know the truth and yet abide in bondage! This we ask in the name of Him who is our Saviour and Friend. Amen.

FAITH in the dynamic of the Gospel is the driving power behind all true evangelism. The former must be vigorous if the latter is to be victorious. It is a root grace which sets all the springs of our religious life in motion.

Russian Proverbs

The Proverbs of a nation are not only an epitome of its wisdom, but crystallise for us much of its national temperament and popular habits of thought

The kindness of the landlord is as fleeting as the dew.

* * *

Should a peasant become a landlord he will flay the peasants.

* * *

To shave destroys the image of God.

* * *

Trust not the landlord until he is in the coffin.

* * *

Our souls are God's, our bodies the Tsar's.

* * *

In the wood I met a bear, in my house the stepmother.

* * *

Every tribe has its fever, every mountain its wolf.

Balanced Lives

OUR most exalted feelings are not meant to be the common food of daily life. Contentment is more satisfying than exhilaration; and contentment means simply the sum of small and quiet pleasures We ought not to seek too high joys, We may be bright without transfiguration. The even flow of constant cheerfulness strengthens; while great excitements, driving us with fierce speed, both rack the ship and often in explosions. If we were just ready to break out of the body with delight, I know not but we should disdain many things important to be done Low measures of feeling are better than ecstasies, for ordinary life God sends His rains in gentle drops, else flowers would be beaten to pieces.

IT seems to me there is no maxim for a noble life like this: Count always your highest moments your truest moments. Believe that in the time when you were the greatest and most spiritual man, then you were your truest self.

AN EVANGELIST

WHILE the office of an evangelist may not be precisely defined within the pages of the Sacred Scriptures, it is evident, even to the casual reader, that it involves strenuous effort, exhausting labour, and considerable sacrifice. The Apostle Paul emphatically declared to Timothy that his ministry was inseparable from the cross. He called upon him "to stir up his gift," to endure hardness, to be instant in season and out of season, to bring his latent talent, slumbering attilities, and dormant faculties to play on the forces of sin by which he was surrounded.

THE DEADLY REVOLVER.

It is said that 90 per cent. of the murders committed in the United States are committed by the revolver. Was there ever any better argument for the complete elimination of that lethal weapon? asks the St. Catharines Standard.

The revolver has been the cause of more killings in recent years, both intentional and accidental, than any other means of taking life.

The readiness with which it can be obtained, the ease with which it can be concealed, and the deadliness with which it operates makes it the most dangerous weapon available for the use of criminals, and it is surprising, in view of the death rate from this cause, that civilized countries have not made an earnest effort to stamp out the menace.

There have been several attempts in the Canadian Parliament to introduce legislation that would put a curb on the carrying of revolvers in this country, but for some reason or another little headway was made, and the result is the handy little weapon goes on taking its toll of lives.

It would seem to be merely a matter of common sense that something should be done to make it less easy for those who want to use revolvers for criminal purposes to arm themselves for warfare upon society.

THE CONTROL BOARD.

One interesting sideline of the by-election campaign was the declaration by Mitchell Hepburn, Ontario Liberal leader, that he would "fire" Sir Henry Drayton and other members of the Liquor Control Board should he become Premier of Ontario.

That is a big question.

While the $20,000 salary that is paid the chairman of the Control Board is a lot of money, the position is a most important one, both from the moral as well as the business side.

In the first place, the board has a turnover of over $60,000,000 a year, which puts it in the forefront of big business enterprises; you can't turn the handling of such a business over to a cheap man and be sure of satisfactory results.

The business end of the Control Board's operations is after all the minor end; what the position really calls for is a man big enough and strong enough to iron out every possible weakness, a man who is anxious to stress the control of liquor rather than its sale.

Sir Henry Drayton has impressed himself upon the public as just such a man; even among the most ardent prohibitionists it is admitted that Ontario's liquor law is the best Government control system in Canada, and that a more sincere and successful attempt is being made in this Province to enforce the law than is the case elsewhere.

There would be no trouble in getting men to take the job at a smaller salary, but probably a great deal in getting some one who would do the work half so well.

PUNISHING A BOY BANDIT.

Public opinion will be strongly behind J. S. Woodsworth, leader of the Labor party in the Dominion Parliament, in the protest he has made against the penalty of 20 lashes imposed by the Fort Frances magistrate upon a sixteen-year-old boy who was convicted of bank robbery.

The Examiner believes in adequate punishment for those guilty of crimes of violence; there can be no pussyfooting when society has to be protected from armed crooks.

At the same time, however, it does seem that to sentence a sixteen-year-old boy to five years in the penitentiary and to give him twenty lashes in addition is going further than is necessary.

This was not a hardened criminal of mature age, but merely a "kid" who was silly enough to be influenced by crime story magazines and crook film plays and to imagine that there was something glorious in a life of crime.

He did not make any attempt to use his revolver, was captured inside of an hour, the stolen money was recovered, and by this time he has learned that there is nothing but shame and suffering in trying to make money at the end of a gun.

Mr. Woodsworth points out that a local magistrate should not be allowed power to degrade and perhaps thoroughly criminalize a mere boy, and that, The Examiner feels sure, will be the general opinion about such a case.

A VALUABLE REPORT.

Ontario fruit and vegetable growers have doubtless read with a great deal of interest the report of Commissioner W. B. Somerset, who for the past six months has been conducting an inquiry into the fruit and vegetable industry of the Province with a view to improving conditions.

The commissioner has divided his report into ten findings and fourteen recommendations, most of them of considerable importance.

In the first place, he finds that the greatest problem of the growers is the problem of distribution and marketing, and that a carefully thought out crop planting and marketing plan should be recommended to all growers.

To meet the situation Mr. Somerset suggests the formation of a fruit and vegetable growers' marketing council, the registration of all commercial fruit and vegetable growers, the licensing and bonding of all shippers, truckers and commission men, and the opening of sales promotion offices in Western Canada and in Quebec and the Maritimes.

In addition, he recommends a number of other important plans that would lead to more systematic marketing of Ontario's farm products.

His whole report is full of interesting suggestions that could be acted upon to the benefit of the whole Province.

Some people are born tired, and some seem to have been born for the purpose of making others tired.—Detroit News.

DEPORTING IMMIGRANTS.

It is a great pity that an influential paper like the Manchester Guardian should open its columns to a tirade against Canada over the deportation of British immigrants, without troubling to find out what the deportations are about. It is not difficult to get at the facts. All that is happening is that certain people who were brought here under contract to work on farms, and who broke their contracts and drifted into the cities, where they expected to be fed, are being sent back home.

Reading the Manchester Guardian, one might think that Canada was warring on these people simply because they were British, that this was just one more illustration of a chronic anti-British point of view. The truth is that Canada has been deporting undesirables for years, that deportation has been resorted to without the slightest discrimination, and that the right to deport is an inherent one which no country could possibly surrender.

The people deported are not being returned in chains. They are being sent back at Canada's expense, and most of them will be no worse off when they get home than they were before. In any event, what is it that the Manchester Guardian wants? Is it that people who were brought here to work on farms, but who won't work on farms, and some of whom won't work at anything or anywhere else, should be fed by other people in this country who do work? Is that it? Is that the Guardian's recipe for good feeling between Canada and Great Britain?

It would, we admit, be an excellent thing if these deportations could be avoided. It would be so excellent, indeed, that it might be a good idea in future to exercise a lot more restraint in bargaining with people to come to this country, whether to go on the land, or to do anything else. Just for the present, certainly, this country needs immigrants about as much as it needs more wheat, and it may be a long time before there will be wisdom in our resorting to the kind of talk used on immigration platforms and in immigration pamphlets throughout the British Isles in the years past. A little less of that sort of thing in days gone by might have landed fewer immigrants at our ports, but might have meant just as many, perhaps more, on our land; and it would have saved us a lot of bad advertising from the disillusioned and misled.—Ottawa Journal.

THE U.S. BANKING RACKET

Mr. Steuer is making it hot for a number of gentlemen who ran the Bank of United States—that is, ran it into the ditch.

What he is showing most, however, is how the racketeering spirit is ramifying and corrupting American business life.

Answers given by the bank officials to Mr. Steuer's questions show that some of them lacked any real conception of that sense of public trust which long has been associated with the name of banking.

The bank officers, taking the name of the nation for the institution, obtaining the right to do so through political influence, and buying up bank after bank as they would so many drug stores until they owned fifty-nine branches, seemingly looked upon the undertaking as a private speculative venture, as a sort of racket.

* * *

As the testimony is showing, the 400,000 depositors were principally material for the promotional enterprise. These 400,000, who assumed that the bank had its beginning and ending in itself, are now learning of a maze of allied corporations with interlocking director, which the bank created for its promotional purposes.

According to Steuer's charges the bank borrowed from itself and concealed the transaction by running it through a circuit of allied corporations. Dummy corporation were kept "laying around" for use in financial emergencies.

There were so many dummy corporations that Henry W. Pollock, counsel to the bank and executive vice-president, admitted that he could not name all in which he appeared as director.

On top of all this hocus pocus, a travesty upon orderly banking, directors disclaimed knowledge of vital transactions transpiring under their sworn trusteeship. Many of them borrowed huge sums from their bank and large sums were loaned politicians and others on inadequate security.

* * *

These bank officers could not have built the institution up until it toppled of its own reckless construction if the State government and the most august power of the banking profession had not blinked at and protected what was being done and if the legal profession had not lent its skill in bending insincere laws to devious ends.

The State government (and Owen D. Young declared before the Senate committee in Washington yesterday that five out of six banks that fail are State banks) has refused to strengthen the banking laws and failed to enforce those that exist.

* * *

And it was a commission made up largely of bankers, representing the greatest of the country's banks as well as the bank now ignominiously defunct, which advised against any remedial legislation following the City Trust failure, solemnly declaring that:

". . . The only institutions with which the public may safely deal are those whose business is conducted by men of character, integrity and ability. . . . On these factors the public may ultimately rely."

Now 400,000 luckless depositors know that this was false, that they and the public cannot rely on these factors, when the State, itself, gives its faith to bankers who do not measure up to standard and publicly entrusts State money to them.

As Mr. Steuer's inquiry proceeds the continuing guilt of the State can be read into the exposures of questionable conduct on the part of officers of the Bank of United States.—New York Telegram.

EDITORIAL NOTES AND COMMENT.

The Legislature will have a month's newspaper monopoly before the Federal Parliament steals the show.

Mayor Webb of Winnipeg has been threatened with death by a Toronto Red. Winnipeg's chief magistrate is not the type to be worried by that kind of a warning.

That Montreal man accused of climbing ten stories to commit burglary believes in beginning at the bottom and working up.

It's awfully difficult to find anything nice to say about spinach, except, perhaps, that there are no bones in it.—Chicago Daily News.

It is a matter for satisfaction that the Peterborough Poultry Association has found it possible to arrange a show this year. To have had a break in the chain running back to 1906 would have been a pity.

At 40 a man wishes he knew what he thought he knew at 20.—Chicago Daily News.

News of Our Own Village

Ford Strickland has migrated to Toronto, west of here, for the doings at the session that Geo. Henry, our new Premier, has called.

Geo. Gordon spent a day electioneering down in Grenville, east of here, this week, George's speech getting in the headlines the next day.

With the village fire pumper wrecked and Mose Yokom and his hot band playing at the relief dance of the Social Club of this here paper next Tues nite it looks like a real fire hazard.

Oyster suppers aint been plentiful in the neighborhood this winter, the high price of the bivalves interfering considerably with the same.

The village councillors is busy these days trimming their estimates and if they listen to the boys talking at the House of Wisdom and elsewhere they won't be afraid to cut good and deep, say we.

The Poultry Association held their annual meeting in the village Wed. nite and elected Geo. Poxman president of the same. Geo. certainly knows his birds.

Ottawa, to the east of us, is all het up owing to the announcement that the Earl of Bessboro from Great Britain, still further east, is going to be the new Governor-General.

Our well-known fellow citizen, Ham Burnham, is once more in our midst, having returned from a visit to Montreal, east of here. And the Voice of the People column in this paper will look up some.

The village Kinsmen's Club threw a party out at Chemong Thurs. nite and a good time was had by all.

Bill Green, the village tax collector, celebrated his 83rd birthday this week, but if you think he's slowing up any just try to dodge the next tax payment, say we.

—F. D. C.

A Thought

COURAGE!

Press on! Though mists obscure
The steep and rugged way,
And clouds of doubt beset,—
Soon dawns the brighter day.

Keep on! Though hours be long,
And days deep-fraught with woe,
Let patience have her perfect work
And vanquish every foe.

Hope on! Though all seems lost
And storms beat high,
Have faith! Be still and know
That God is nigh.

—Grenville Kleiser.

MARMORA.

Miss Elspeth Heath, daughter of Mr. and Mrs. W. H. Heath, of Harold, has graduated from the Wellesley Hospital, Toronto.

Mr. Bert Boyd visited Belleville Hospital, on Thursday for medical examination.

Mr. P. Foley was called to Peterborough on Thursday, owing to the illness of his brother.

The partnership of Messrs. J. A. Murray and M. Fitzgerald, general storekeepers at Springbrook, has been dissolved and the business in future will be carried on by Mr. Fitzgerald.

A euchre and bridge party was held at the Separate School on Wednesday evening with good patronage. Mrs. P. Brawley and Mr. George Kerr were successful at euchre, while Miss Madeline Bertrand and Mr. William Meehan carried off prizes at bridge.

STRATFORD BACKS RESOLUTION

STATFORD, Ont., Feb. 14.—City Council last night decided to support the resolution from the Belleville Council protesting the passing of Bill No. 186 respecting a superannuation and benefit fund for firemen. The latter has been before the Legislature but was laid over until this session.

The Red-Headed Goddess

By

ALICE ROSS COLVER

CHAPTER I
A CHALLENGE.

The big club room, decorated like a tropical garden, was gay with the color of flowers—orange, purple, scarlet—that bloomed riotously among the rich deep green of foliage. Around the shining floor, moving in harmonious grace to the crashing tune of the hidden orchestra, went laughing couples, exquisitely gowned girls with lovely faces and brilliant eyes, and young men, eager and good looking. They all bore the same stamp of nice breeding, of careless ease and—of empty headed hilarity.

Lorraine Kent and Dirk Leslie were onlookers for the moment. They had withdrawn from the crowded floor because her slipper had become unfastened and, after he had adjusted it and held out his arms in silent invitation, she shook her head, a little storm of impatience in her dark eyes.

"I've had enough, Dirk."

"All right."

They moved to a love-seat tucked away under a group of miniature orange trees. Dirk lit a cigarette, but Lorraine shook her head in refusal and continued her absorbed scowling stare at the scene before her.

"Anything in particular ailing?" he inquired between puffs.

"Just—boredom."

He cast her a quick look and nodded in instant sympathy.

"Yeah. Over and over again we do it."

"Tennis, swimming, driving, golf," the girl's tones were bitter, "dancing, drinking, the same old people, the same old places, the same old stunts and jokes—" She threw out her hands furiously. "Isn't there anything new and different under the sun?"

He looked at the passionate rebellion in her face and said nothing, whereat her anger struck him, too.

"You're a great help, aren't you! You can think of plenty of things to do—by yourself—that are thrilling and—and rich with excitement, like jumping through a loop of paper in your speedboat, or making test flights, or record runs, but——" She stopped suddenly. "Is that living, either? What is living?"

His answer was gathering in his eyes when she rushed on.

"The air in here is vile already. After awhile everybody will be a little tipsy. Somebody will do something on the edge of—or over the edge of—decency, and they'll all go home pronouncing the party a 'riot'!"

"Meaning 'success.'"

"Exactly." She sprang up. "I can't stand it! I can't stand it, I tell you! Come on!"

He followed her to a long French window opening onto the veranda, through which they stepped into the cool clear night. Seizing his hand she ran with him to the extreme end, where the noise from within came softly to their ears, an where they could look across open golf links to the dark rolling line of California hills. Here she dropped his hand and faced him, a small intense figure.

"What's the matter with us, Dirk?" she demanded.

"Nothing. We just don't belong with them."

"But—they're our crowd. We've grown up with them. One has to have somebody to play with! Where do we belong then?"

"To each other." He made a sharp movement toward her and she stifled a little gasp, but, without touching her, he went on quietly, saying the things that had been slowly gathering within him: "We always have. We always will. Nobody else in the world matters for us but each other. You wanted me to suggest something new and different. All right. Let's get married. Why do you hold me off?"

She was silent, her hands tightly clasped behind her back. A shaft of light from within struck upon her face and figure, illuminating her clearly, and to the man she had never been so desirable. Her brown eyes were wide and ablaze. Her copper-colored hair was parted in the middle, its short unruly curls caught demurely under a close net. Her dress of delicate turquoise blue accentuated the soft appeal of her femininity so that she seemed at the moment pliant, easy of capture. Yet he knew that her slight little person contained a tough resistance to his wooing and that her yieldingness was a matter of imagination only.

"If you would marry me," he went on, "we could start life, real life, together somewhere. If we had each other to play with," he swept a hand toward the house, "we wouldn't need them."

"But you see," her head was pressed back against the pillar and her eyes held a desperate light, she hoped he couldn't see how desperate—but he was so close, too close—"I don't need you either!"

This so took him aback that she went on building up her defenses in the little moment of his discomfiture.

"And I don't believe in marrying a man unless I need him so much I can't get along without him."

"I see." He folded his arms across his chest. It was a gesture that seemed to remove him several feet, and Lorraine drew a quiet breath of relief. "There's something in that, of course. Only—would you admit it if you found you needed me?"

"Why, certainly! I hope I'm a good enough sport for that, Dirk Leslie!"

There fell a silence during which she contemplated the tall figure of the man before her. In the shadow his face, always serious, seemed graver than usual, his direct blue eyes, with their Irish fringe of black, extraordinarily penetrating. Was he at last seeing through her flimsy defense, she wondered He had always been so blind! And she would never of her own accord lower it. He must wrest it from her, must seize her and bear her off in spite of her protests. That he possessed the necessary characteristics for accomplishing this she had no doubt, for in his man's world he rushed recklessly past all obstacles to his goal, and in the field of sport he cut a dashing, daring figure. Yet with her—she gave a tiny sigh. How could a man seem so certainly to be the man of her dreams without every quite being it?

"No," she said. "Not—marriage. That's not the answer yet. But——" her little hands clenched with the wildness of her wish; "Oh! Something—different —has got to happen soon! Something bigger than anything I've ever known! Something— terrible— and beautiful——"

"Yes." He was intense, too. "I wonder sometimes if you don't have to make it happen yourself. Life's rushing by us, and what are we doing with it? Lorraine!"

"Yes?"

"If you found you needed me, would you marry me?"

"Y—yes."

"If you found you needed me—at all? Any way?"

"Y—yes."

"Then I'm going to make you need me."

She started to laugh, but it somehow died in her throat, and she found herself instead staring with incredulous, startled gaze at the face above hers.

"Dirk! This from you! And you look positively grim!"

He made no reply.

"You you almost make my blood run cold!" Beneath her light mockery she was conscious of a little thrill of fright running through her, as she met his unfaltering regard. There was something in that look of his that was like hot steel thrust through her heart.

"Is—is this a threat, a wager or a challenge?"

"A challenge, if you choose to take it that way."

If she chose to take it that way! How many months—years—hadn't she spent attempting to stir him to just some such declaration as this, yet had never succeeded? Was it possible he was roused at last?

Theirs had been rather an extraordinary companionship. Since childhood they had been neighbors. For years they had quarreled and played together, and for years they had loved each other; yet she had never outwardly swerved from an attitude taken in those early days, when he had rushed to her defense against a group of boys who were taunting her about her hair.

'Don't be afraid, Lorraine! I'll take care of you!" he had cried with arrogant bravery. And to the boys, "You'd better look out! She's going to be my wife some day!"

She had told him then, with flashing eyes, and to the great amusement of the crowd of boys, but to his own bitter chagrin, that she would "rather die at the hands of those savages than marry him?"

She had felt, but had never been able to make it clear to him, that his love was inadequate. It held an antiquated courtesy and reverence, an aching kind of worship that set her on a pedestal and knelt at her feet, a tender protectiveness that enraged her. She didn't want to be reverenced and set on a pedestal. She wanted to be flung in the dust, to feel his heel on her neck. She didn't want to be protected. She wanted to fight all her own battles and his too, shoulder to shoulder with him, for everything, everywhere. She wanted a man whose spirit could overtop hers and whose gallantry and daring went hand in hand. But when Dirk came with his gallantry he left his daring behind. He was darling, but he was dumb.

Yet now——

"Let's talk it over," she suggested with a casualness that belied her deep inner excitement. "If it's a challenge, of course I'll take it! I love them. You know that. I never let one pass. Only—just what do you mean?"

"I mean what I say. If you won't marry me until you need me—some way or other— I'm going to make you need me. Only I'm going to make you need me every way a girl can ever need a man."

She caught her breath, but her light laugh came derisively.

"Dirk! I'd have to be in some sweet jam to need you—every way!"

"You'll be in some sweet jam! I promise you that."

Again she stared unbelievingly at him but his determination was not to be questioned, nor his gravity to be ignored.

"There ought to be a time limit to this," she suggested.

"I won't need more than a month."

"A month! Dirk, dear, your colossal confidence terrifies me! Why, in all your life you've never had a single bright or original idea! How can you possibly hope to acquire one in thirty days?"

Her sparkling banter succeeded in hiding her own turmoil, but it did not disturb him.

"You're shivering," he said briskly. "Go get your coat." Then he took a step nearer, his hot look burning into her. "Wait! Listen! Shall I tell you what life will be like when we're married? We'll break away from all that," he nodded toward the house, "and make for something clean and big. We'll travel. We'll see the world and make it ours. We'll vagabond!" Without warning he caught her in his arms and cupped her face in his hand. "We'll go from one glorious adventure to another!"

"We'll vagabond!" We'll go from one glorious adventure to another!" The words chanted wild music to the girl, and it was terribly difficult not to succumb to this new mastery of his, right then and there. For they were cut to an identical pattern. The same hot daring, the same cool courage and the same fierce love of the out-of-doors, of excitement, ran in the veins of both. From one glorious adventure to another! But there was a doubt.

"Dirk," she whispered, "give me a taste of it to-night, this glorious adventure! Let's clear out of here. Let's go up in your airplane! Let's fly over the city at night! I've never done it! I've never even gone up with you—and I've always wanted to. Take me to heaven! Dirk, please!"

There was a breathless silence, but at last Dirk's answer came slowly, heavily, as he released her.

"I'm sorry, I can't. I can't do that with you, Lorraine."

"Why not?" she flashed.

"It isn't safe. I don't dare take the chance."

"Safe! That's it! That's why I'll never marry you, Dirk Leslie! Safe! And you talk to me about life being a glorious adventure with you! Why, it wouldn't even be adventuresome, let alone glorious! You'd be forever making it 'safe' for me. You wouldn't take a chance.' You'd protect me and protect me and protect me until I'd go mad. Love you? Love you! Oh, my heavens and earth! Why, I hate you!"

She flung herself away from him and started toward the door, but he strode after her, caught her wrist and drew her back to the edge of the porch. There they faced each other, she, half sobbing, with anger blazing through the tears in her eyes, he with a white set face in which she met a look as fiery as her own.

"Listen to me, Lorraine, and understand. I get wild in the air. I can't explain it. It goes to my head. I feel perfectly safe, and utterly free and I dare anything. I take risks, and I have no right to expose you to them."

"I'm not afraid! Why should you be?"

She threw it at him fiercely and waited. Their whole future seemed to hang in the balance of that moment's decision. Suddenly he made a funny little noise in his throat.

"All right. Get your coat and come on. For a second then, she hesitated. If he did stunts, and anything went wrong, was it worth it? He bent toward her, his chin outthrust, his blue eyes steely.

"You asked for it. Up we go! Scared?"

"No!"

A few moments later they were speeding in his car toward the flying field, Lorraine's spirits rising to the adventure with every passing mile, her sporting blood boiling with the thrill and romance of the hour ahead. She was, in fact, so busy trying to control her own emotion that she did not notice Dirk's growing absorption until the little gray "Mosquito" was wheeled from the hangar onto the dark field. Then she became sharply aware that he was lost to her completely, that he had entirely forgotten her presence at the sight of his airplane.

At first it was a relief to her, for it gave her a chance to recapture her own poise that had been so badly shaken by Dirk's new manner toward her, but shortly she felt neglected and irritated. The excitement of the affair seemed to die. Dirk had become just a skilled mechanic, no longer a lover to be feared, and she watched him in rather a disgusted silence.

He pulled on his aviation suit without a glance in her direction, and then, starting his engine, he proceeded to make every possible test of its fitness. He listened to the throb of the machine as a musician listens to his violin, changing a screw or tightening a bolt or pouring in a little oil with meticulous care until the tune the big engine played suited his ear. Then, still obvious of Lorraine, he turned his attention to other parts of the machine. Every inch of the plane, inside and out, was minutely inspected by him with a powerful flashlight; the landing gear was examined with great care oil was given to the engine and the gas tank was filled to capacity. Not until then did he become aware of Lorraine's existence again.

"I guess we're set to go," he said to her, wiping his hands on a piece of waste, his face, which had been fixed in an expression of intense concentration, relaxing into a smile as he met her look.

"I should hope so," she retorted. "I began to think you were planning to take me to China! Are you always so particular?"

"I don't usually take passengers," he replied, helping her into an aviation suit.

By this time it was midnight, and a few workmen employed at the Flying Club, together with one or two loungers from a nearby lunch wagon, had gathered in idle curiosity to watch their departure.

"Goin' far?" one asked.

"Oh—up over the city a ways," Dirk answered. "Here, Lorraine! Put this on!"

He reached into the open cockpit and pulled out a parachute. She eyed it with dismay. The long wait on the windy field and his tiresome precautions had not only taken the edge off the adventure but had worn her patience threadbare.

"Oh, Dirk! I won't be bothered! We'll be back in an hour!"

But he held her firmly and proceeded to adjust the harness on her shoulders. "We'll take no chances that we don't need to," he replied. "See, Lorraine, if we get into trouble, jump, and then yank the iron ring in this pocket."

"I know," she answered irritably. "Playing safe again. All right! But for heaven's sake, let's go!"

"One thing more and I'll be with you. We missed most of the supper at the party and I'm hungry. I'll get a bite at the lunch wagon." Helping her into the cockpit he bent toward her smiling. "You may want something yourself before we get back! Don't wrinkle your nose like that!"

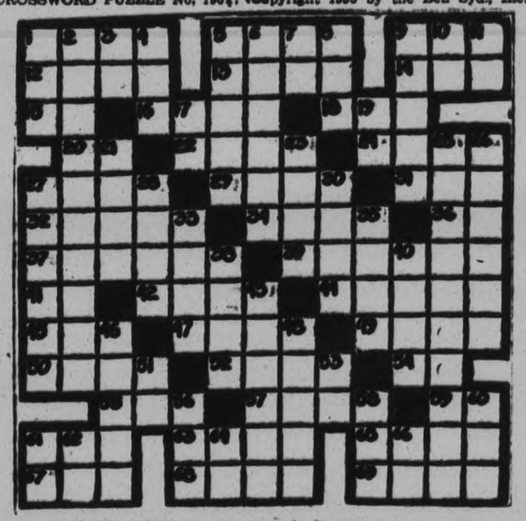
His exuberance was infectious, and she gave him a an injulling smile, but she would have her say.

"Food! The idea of this flight was originally romantic. A star-spangled night, a rush through space, and you talk of—food!"

"It'll be romantic in spite of the food. And you don't have to eat it unless you want to."

(To Be Continued)

CROSSWORD PUZZLE No. 1904. (Copyright 1930 by the Bell Syd., Inc.)



HORIZONTAL

1—Ache.
5—To give out.
9—To cut.
12—Gaelic.
13—To cast ballot.
14—Metalliferous rock.
15—By.
16—Fish trap.
18—Hard shelld fruit.
20—Supposing that.
22—To shut ungently.
24—To agitate.
27—Caledonian.
29—Narrow opening.
31—A number.
32—Garment.
34—Mark of wound.
36—Half dozen.
37—Trees.
39—Gotten up.
41—Symbol for tantalum.
42—Plunges.
44—Struck.
45—Possessive pronoun.
47—Brave.
49—Snow vehicle.
50—To line roof.
52—Civil injury.
54—Comparative suffix.
55—To cut.
57—Courts.
59—Part of "to be."
61—Chum.
63—To unlock.
65—Prefix: before.
67—Some.
68—To weary.
69—Rhymster.

VERTICAL

1—Small vegetable.
2—Segmented.
3—Exists.
4—Modern.
51—Ills.
6—Ethics.
7—Pronoun.
8—Decade.
9—Slogan.
10—Conjunction.
11—Pronoun.
17—Plural ending.
19—Pronoun.
21—Affectionate.
23—Isinglass.
25—Deep-rooted.
26—Checked.
27—Pertaining to electricity at rest.
28—Bound.
30—Sailors.
33—Baby's bed.
35—Margins.
38—Speck.
40—A fish.
43—Not so fast.
46—Imbecilic.
48—To hum.
51—Behold!
53—Part of infinitive.
56—Kitchen vessel.
58—Juice of trees.
60—Encountered.
61—Father.
62—Article.
64—Jumbled type.
66—A negative.

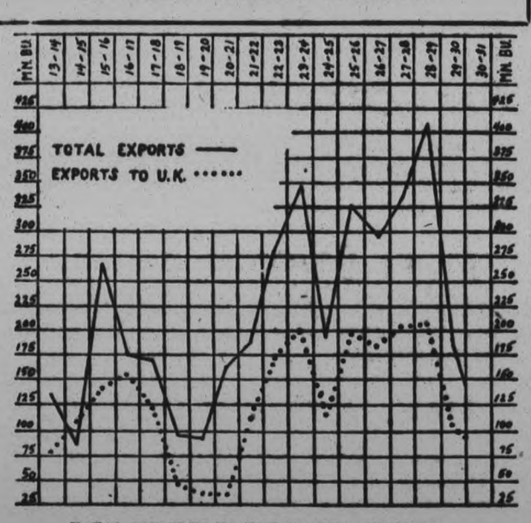
Paris dressmakers are reported to have taken a safe position in the long skirt-short skirt dispute by sponsoring two distinct modes, one for young and slender figures and another for plump ones.

CANADA'S WHEAT EXPORTS



TOTAL EXPORTS TO THE UNITED KINGDOM.
(By E. F. Brayham, Copyright, 1931.)

The two curves have varied consistently with each other while the proportion absorbed by the United Kingdom during the past seventeen years, has averaged 70 per cent of Canada's total exports.

During the crop years of 1929-30, however, exports to the motherland dropped sharply in its percentage, but in the current season, as may be readily observed from the above chart, importations to Great Britain were 90,000,000 bushels until the end of last December against out total shipments of 145,000,000 bushels in that period.

The United Kingdom has, in the past, definitely proven herself the most valued outlet for Canadian wheat. Therefore it is up to us to devise means whereby this field be retained if not further cultivated, for, hitherto, Canada has roughly supplied about 70 per cent of Britain's requirements. Within the past decade, average Canadian importations have been approximately 153,000,000 bushels against England's consumption of 270,000,000 bushels annually. Home production is roughly 50,000,000; therefore importations from outside sources have averaged but 70,000,000 bushels per annum.

Any scheme for wheat quotas within the Empire should bear in mind that normal and competitavely Canada has filled 70 per cent of Britain's needs.

Wheat farming has proven to be Canada's paramount wealth-creating and wealth distributing medium during the past twenty years. Since 1909 a sum of six billion dollars has been realized from abroad through the sale of wheat alone. This amount of money represents a permanent increase in the Dominion's wealth and has been the means of assisting no less than thirty industries supplying the farmers with their needs.

Since the war, Argentine and Australia have shared the advantages enjoyed by Canada in the English wheat market. During the past twelve months, Soviet Russia loomed as an exporter to this market. The course of events which followed the latter's tactics does not need reiteration but the fact remains that this source of supply has to be heeded mor in the future and therefore Canada's sowing and selling plans should be flexible enough so as to provide latitude for keen competition.

NICKEL SUFFERS 1-2 POINT DROP

TORONTO, Ont., February 14 (C. P.). — The market got nowhere in listless trading this morning. Sales for the short session amounted to approximately 10,000 shares.

Price changes were small and unimportant and did not affect the general tone, which remained fairly firm.

Nickel, Noranda, Bell Telephone, Consolidated Bakeries, Cockshutt Plow, Canadian Dredge, B. A. Oil, Standard Steel left off with losses of less than ½ point.

Brazilian and C.P.R. were firm and slightly higher.

Imperial sold up on end and International Petroleum held its recent gain. De Forest Crosley, down slightly at the end of the first hour, strengthened in the final sales and closed with a small gain at 16¾. Walkers was firmer at 8¼. Ford firmed on final sales, Massey-Harris showed a small gain at 8¾. Service Stations was unchanged at 33.

NIXON TO PLACE LIQUOR QUESTION BEFORE HOUSE

TORONTO, Ont., Feb. 14. (CP)—Two matters not on the order paper provided the chief interest at the first business session of the Ontario Legislature yesterday. The official business of the day was consideration of the speech from the throne. But from the two opposition parties, Liberals and Progressives, came announcements of more interest than the formal debate.

Hon. H. C. Nixon, Progressive Leader, gave notice of a motion which will place the liquor question before the house for debate before the session is over. The motion calls for endorsation of the principle of referendum and submission of the liquor question to the people in this way as soon as there is sufficient public demand to justify it.

At a caucus of the Liberal members the respective roles of the two party leaders, W. E. N. Sinclair, and Mitchell F. Hepburn, were defined. Mr. Sinclair is to be leader of the Opposition and Leader of the Liberal Party in the House with full charge of the policies and tactics of the elected members. Mr. Hepburn as leader of the Ontario party, with no seat in the House, will not attempt to lead the party from the outside and will offer no interference.

The address in reply to the speech from the throne was moved by C. E. Richardson (Cons. Perth South) and seconded by C. B. Harrison (Con. Nippising). The debate will continue Monday when Mr. Sinclair will be the first speaker. He will likely be followed by Hon. H. S. Nixon, Progressive Leader, after which Premier Henry will speak.

MAHATMA SEEKS

(Continued from Page One)

Consideration of Gandhi's conditions upon which the Congress Party will co-operate in the effort to establish an Indian constitution has been deferred until after that interview, but meanwhile the campaign of civil disobedience is to continue.

Gandhi, clad only in a breech cloth sat on the bare floor in the centre of the conference room surrounded by his "twelve apostles." With his scrawny legs and bare feet crossed under him, he turned his spinning wheel incessantly, listening with immutable patience to the views of his associates, only occasionally opening his toothless mouth to put in a word of criticism or suggestion.

Crowds Hail Leader

Outside, crowds of the Mahatma's disciples awaited for one glimpse of the man to whom they look for emancipation. Occasionally, to appease them, he would leave the conference, walk out on a balcony, raise his clasped hands, bow his head and give the multitude his blessing like some high church dignity pronouncing a benediction.

The ecstatic crowd would cry "Long live Mahatma Gandhi, our Saint, our King."

As he returned to the conference room, the delegates would rise and remain standing until he seated himself. Even they could not be sure what was in his mind because he withheld his judgment until all had spoken.

Eggs Are Plentiful On The Local Market

The biting wind this morning did not deter the stallholders in the local produce market, who came in as usual laden with choice products of the farm and dairy. Eggs were very plentiful, the prevailing prices being between 27-30 cents a dozen for selects, although pullet eggs were retailing at 24 cents a dozen. Dairy butter holds firm at 30-35 cents a pound.

For the first time since the New Year market, poultry was on sale in abundance, with geese 30 cents, ducks 30 cents and chickens and broiling fowl at 25 cents a pound.

McIntosh apples in convenient half peck baskets, despite their scarcity were selling at 30 cents, with other grades at 50 cents a basket. Potatoes on the open market and guarded against the ravages of frost, were finding small demand at $1.00 a bag.

OPERATING PROFITS DECLINE TWENTY PER CENT. IN CANADA

Of Ninety Canadian Corporations, Twenty-four Report Increase and Sixty-six Decreases—Six Show Deficits.

(By A. D. O'Halloran. Special to The Examiner. Copyright, 1931

TORONTO, Feb. 14.—Operating profits of Canadian corporation declined approximately 20 per cent in 1930 from the record year 1929 as the result of the slowing down of operations and business depression the world over. A compilation of the earnings reported by 90 Canadian industrial corporations, public utilities, railroads and banking institutions indicates a net drop in operating profit from $258,274,629 or 20.1 per cent. Of the total ninety, there were 24 to report increased earnings and 66 decrease, while 6 of the 66 reported in red. The tabulation is representative of all industries and the number of companies included sufficiently large to give a general idea that the Dominion's corporations were able to maintain profit within striking distance of the record established in the previous year.

In making the compilation no financial statement were included unless covering at least six months of 1930, with the majority for the entire twelve months and a few interim reports covering anywhere from six to eleven months.

A group of thirty-eight miscellaneous industrial concerns experienced a decline of $19,665,053, or 86.53 per cent from $53,821,093 to $34,156,040. Included in this group are those companies occupied in flour milling and others in the grain or allied trades, the former meeting with a reduction of 127, 40 per cent. and the latter 106.80 per cent. All ended their fiscal periods about mid-year and are understood to have met with improvement since. Eleven steel companies maintained their 1930 earnings within 7.55 per cent of 1929: eleven food and merchandising organizations within 16.85 per cent; four distillers and brewers within 20.99 per cent, and twenty-five miscellaneous corporations within 26.31 per cent.

Public utilities fared better than all others, a group of eight reporting an increase of less than one per cent and seven of the eight showing higher earnings in 1930 than in 1929. Brazilian Traction, Light and Power was the one exception and it is worthy of note that this company operates outside the Dominion and had to contend with internal troubles in Brazil and a lower exchange rate for the Brazilian milreis.

Canadian chartered banks, although operating under conditions hardly conductive to large profit with lower rates for money and less demand for funds, made an excellent showing with the ag ...regate profit of the nine down 5.21 per cent from $52,700,927 in 1930 to $52,209,137 in 1929. An interesting feature of the exhibits of the bankina institutions in the past year was the fact that all improved their liquid position over the excellent position of preceding years.99

Lower prices for base metals is reflected by a drop in the earnings of the metal group of 22.91 per cent. Consolidated Mining Company of Canada and International Nickel, reporting for six and nine months respectively, met with sufficient decrease to carry the group down despite increase on the part of five Ontario producing gold properties.

Four distillers and brewers earnings dropped by 20.99 per cent and threeo railroads, C.P.R., C.N.R. and Algoma Central, reported an aggregate decline of 25.92 per cent in net revenues.

Operating profits of companies making an official report for the fiscal period 1929-1930, calendar year of 1930 and interim statements for a portion of 1930, together with comparative figures for corresponding period of the previous year follow. Profits are operating in practically all cases but where companies report net earnings these are included on the same basis in both years. No figures are included unless covering at least six months of 1930:

GENERAL IMPROVEMENT SHOWN IN TORONTO EXCHANGE STOCKS

Market Leaders Capable of Standing Inevitable Profit-taking Over Week-end.

INVESTORS RE-ENTER CURB.

TORONTO, Feb. 14 (By The Canadian Press.)—Canadian stock markets shook off the pessimism engendered by nearly a year and a half of business depression and this week broke through into the sunlight of an impressive advance.

Price gains among such markets leaders as Brazilian Traction, International nickel, Walkers and the Gold Stockers, were not spectacular but it was for that reason the market was able to successfully face inevitable profit taking at the week-end.

The striking improvement in the market's morale was based partly on technical consideration, such as the retreat of the "bear" forces at New York early in the week, and partly on the growing demand for investment stocks.

With indications of improvement in general trade it was not surprising that investors should re-enter the market in an effort to secure stocks at prices which they regarded as "at the bottom."

Further evidence of the underlying strength of the Canadian list was presented on Thursday, when with New York trading suspended, domestic issues in most instances recorded further gains. On Friday these were partially reduced but the market had already demonstrated stability to a degree that reassured those who feared a swift downturn.

Wheat Comparisons Show Slight Advance

(By John P. Boughan, Associated Press Market Editor)

CHICAGO, Feb. 14.—Fresh incentives to buy or sell grains are just now being watched for with increasing eagerness about conditions that affect domestic winter wheat, trade attention centers largely upon tokens suggesting that on the one hand that almost unprecedented lack of snow protection may yet bring sudden crop havoc. Foremost unofficial authorities assert that there are few sections at present showing any radical impairment of united States winter wheat prospects.

Responsive to uncertainties of the outlook, however, wheat this morning compared to a week ago was exactly unchanged to 3 cents higher, with corn unchanged to 7-8 up, oats unchanged to 3-8 lower, and provisions unchanged to 35 cents advance.

Comprehensive trade advices indicate that abandoned domestic wheat acreage this spring as a result of winter-killing will be far less than the 11 per cent reported last year.

DOMINION LIFE HEAD.

FORD S. KUMPF.
President and Managing Director of the Dominion Life Assurance Company, Waterloo, Ontario, who presented the Forty-Second Report of the Company at its Annual Meeting held at Head Office on Friday, February 93th.

PROGRESS MADE DOMINION LIFE

Company Carried 6.66 Per Cent. on Invested Assets Annual Report Showed.

FAVORABLE YEAR.

TORONTO, Feb. 14.—The forty-second annual statement of Dominion Life Assurance Company of Waterloo, was presented at the annual meeting held today.

The statement showed insurance in force at December 31, 1930, of $146,538-137, which compares with $81,677,030 in 1925 and $45,348,869 in 1920.

Total income amounted to $6,568,765, which was nearly double the amount of $3,462,838 five years ago, and illustrates the progress made by the company during the period.

Payments to policyholders amounted to $2,472,252, leaving an excess of income over disbursements of $2,493,760. Total assets amounted to $25,237,678 and policy and annuity reserves to $18,983,312.

President F. S. Kumpf, who presented the annual report, stated the company had experienced a favorable year when due consideration was given to prevailing condition. The company had earned 6.66 per cent. on its invested assets, he stated.

NEW YORK SHOWS GAIN DURING WEEK

Wall Street Finding Opinions of Investors Divided on Advance.

By John L. Cooley, Associated Press Financial Writer.

NEW YORK, Feb. 14.—For better or for worse, the stock market took a decided stand this week and swept away what remained of the November-December decline. Wall Street, bewildered by the rally, finds opinion of the advance divided. On the one side is the group that regards the move as primarily techincal—a disordered retreat of a large and partly amateurism short interest which was frightened by its own size On the other is the faction that believes pessimism at this stage of the depression is no longer logical, that the market is entitled to catch up with whatever improvement there has been in business and to discount gains the spring may have in store.

In some conservative quarters the rally is mistrusted because of its rapid and professional aspects. Turnovers of nearly 5,000,000 shares a day coming so soon after sub-normal activity, it is argued, represent too violent a change, a shift in speculative sentiment unsupported by the tone of business. These observers do not contend that lower prices would necessarily be justifiable; rather, they question the advisability of too much bullishness at this time, particularly if, as happened a year ago, the trade revival should fail to meet expectations.

The bulls, doubtless surprised by the success of their operations, kept the pot boiling from the opening on Monday. Quick to take advantage of the extremely unfavorable position held by the shorts, operators for the advance bid up one group after the other, finally falling back on the oils, but always finding the thinly traded specialties good for generous gains. However, much the rise may have owed its origin to professional tactics, it nevertheless attracted the most substantial public following seen in months and brokerage houses found filled many of the long-vacant chairs in their customers' rooms.

CANADIAN REINDEER HERD

Apropos of the journey of the herd of reindeer which is being brought by the Dominion Department of the Interior from Alaska to enhance the living conditions of the natives of Northern Canada, there are very few predatory animals to be found on the coast near the line of route from the Aslaska-Yukon boundary eastward to cape Bathurst. Wolves are trouble to the reindeer are the Barren Ground grizzly and the Polar bear.

ODD SLANTS AT INDUSTRY

by HAROLD R. SUTHERLAND

Whether or not amber is the teardrops of a band of very sorrowful young ladies, weeping over the loss of their hero brother, as mythology has it or simply a fossil resin, as the less romantic, but more accurate scientist claims it is the fact remains that this product, which has been known to man before man was known to history, may become the nucleus of a new industry in Canada. It has been discovered in the region around Cedar Lake, Manitoba, about thirty miles from the Hudson Bay Railway in sufficient quantity and quality to compete on an economic basis with the present sources of the world. The most important use for amber is in the manufacture of pipe stems, cigar and cigarette holders and ornamental objects. Mohammedan mosques, we are told, use quantities of the substance for incense, which may or may not make Mecca a market for this new Canadian product.

In olden times pieces of amber found in the desert were thought to be very precious because they were supposed to be gifts from the gods. The truth, of course, is that they had fallen from some caravan. All of which has nothing to do with a unique type of structure, which has just recently been completed in Peterborough, Ontario, except that gifts from the gods in the form of advanced scientific knowledge still play a part in our civilization. This new structure has been a ghost building, it is said, rising rapidly without the noise of hammers or any of the usual annoying accompaniment of steel construction. The whole frame, some nine hundred and sixty tons of steel, was electrically welded, which means that there was no rivetting and no headaches for those working in the vicinity. It is the first building of any size thus constructed.

With the increased application of welding, as a production method, attention has been focused on the importance of testing. The method used by the village blacksmith in determining a defect in a piece of metal was to hammer it cold on the anvil and listen to its ring. Science has gone a step farther, but instead of devising some new apparatus for this purpose it has simply borrowed the ordinary stethoscope used by the family doctor when he taps us on the chest Each welded structure has a characteristic sound when struck with a small hammer. After this is determined irregularities along the weld are discernible with the stethoscope. It is also interesting to note that the X-ray, another swipe from the medical profession, is being used to test the actual strength of a weld.

Up in the north country where men are men, dinosaurs are also dinosaurs. In the Peace River canyon in British Columbia, evidence of these prehistoric animals having roamed that region has been secured in the form of a series of footprints on sandstone slabs. Over four hundred tracks have been observed, which represent the "farthest north" of dinosaurs in the Western Hemisphere. The sandstone slabs, which have been moved to Ottawa, shortly to be placed on exhibition, preserve not only the tracks of the animals, but the plants, as well, on which some of them fed. Hundreds of the stems of these long extinct plants are preserved in some of the slabs, which, according to a writer in the Canadian Mining Journal, help one to visualise, as he peers backward in time some thirty thousand years, the huge bulk of an ungainly dinosaur browsing on the green reeds along the margin of a cretaceous lake.

Among the new devices for industry, which has been arousing more than usual attention lately, is the invention of a nut that "stays put," regardless of vibration. It is claimed for this nut, which in appearance, is not very different from the common every-day variety that it will stay in place without the use of cotter pins, washers or holes. Such a device, simple as it is, will have far-reaching effects. Besides preventing junior's wag on from falling apart and the old car from rattling, it will also solve the problem of railway crossings, which have always caused concern to maintenance department heads, who, for safety sake, have their track walkers constantly checking-up on bolts and loose nuts. In fact, as Iron and Steel of Canada says, interest has been almost world-wide and the firms, corporations and parties co-operating in tests are in the main those with national and even international reputations.

Speaking of nuts, a leather goods manufacturer in the province of Quebec, recently had a hard one to crack, only o a different variety. It was in the form of a letter from a gentleman, who gives his address as simply S. Nigeria, the author apparently, being like the old-time nut, which refuses to stay in any one place. After paying postage of six cents, no stamps being attached to the letter, the Quebec manufacturer read the following happy message:

"Dear Sir,

"As you were recommended to me by Export and Import review that you are a good manufacturer of Ladies' Hand Bags, therefore I take this liberty to apply for your free samples and price list, because I want to deal with you as I am dealing with other firms. As the export trace you for me that your articles are good and your firm is Satisfaction. Hope you will send them to me as my request. Awaiting your news this coming mail."

Salt is such a common condiment that little thought is given to it by most people, except when the shaker is empty. However the industrial uses of common salt in various manufacturing processes have increased so rapidly that a check-up has been made to determine what the country's salt shaker contains. While considerable deposits have been found in the Maritimes, none, so far, have been found in Quebec, Ontario, on the other hand has over three thousand square miles of salt beds, while Manitoba has none, but it has many salt springs. One thin bed of hasit has been encountered in Saskatchewan, where there are also some salt springs. Alberta has some important beds of salt, while British Columbia has none. The latter province, however, has some beds of salt mud, near Prince Rupert, that hold some promise of commercial value.

COBOURG HOLDS THAT ONTARIO IS RESPONSIBLE

Up to Government to Look After Hospital Fire Protection.

REPORT SUBMITTED.

COBOURG, February 14. — The Fire, Water, and Light Committee, after considerable deliberation, has submitted a report to the Corporation of Cobourg, in which it is held that the Ontario Government is responsible for fire protection at the Ontario Hospital here. The report to the Town Council is accompanied by the request that copies of it be sent to F. J. McArthur, M.P.P., and to the Provincial Fire Marshal. It is as follows: "Whereas, on January 12, 1931, Mr. F. J. McArthur, M.P.P., addressed the Council of the Town of Cobourg at the request of the Provincial Secretary and asked that the said town would provide sufficient fire protection at the Ontario Hospital for the Insane at Cobourg; therefore, the Council notifies the Provincial Secretary that we consider the fire protection at the Ontario Hospital as entirely inadequate for an institution where so many patients are confined, and that this information has been known to his department for some years through information furnished by the Fire Marshal of the Province and in other ways; that the Ontario Hospital is owned and operated by the Provincial Government, and that the waterworks in Cobourg is owned and operated by the Provincial Hydro Commission and that the town has no control over either of these properties; and further, that the fire equipment of the Town of Cobourg will be found to be at the service of the Government at any time should there be a fire at the hospital."

This report was submitted by Deputy-Reeve Corbett, chairman of the committee.

TOURISTS ENJOY PLAY HAY FEVER

Crowds Are Now Enjoying Noel Coward's Famous Play at Palm Beach.

COMING TO PETERBOROUGH

Palm Beech follows suit for at present Noel Coward's play, Hay Fever, is playing to large audiences of the tourists both American and Canadian. "Never in years," says the New York Tmes, "had a play taken such a hold on the tourists and never has any play been so well attended," for every night the amateur theatre is crowded. The Peterborough Kinsmen are planning to give the theatre going people of this city and district just as good a presentation of the play. A splendid cast has been chosen and up to date it has made splendid headway, so much so that Adrian Macdonald, one of the best conductors in the city has assured the Kinsmen that the play will be the best amateur production so far in the history of Peterborough. The play is something new to the Peterborough theatre goers and it is promised that it will make a big hit with the audience that night. Tickets are to be secured from the members of the club or at any of the E. F. Mason groceterias. The proceeds will be used for relief and service club work and the seat plan will open in Riley and Hickey's store on the morning of February 20. So let every citizen in Peterborough who enjoys a good play reserve Wednesday night, February 25.

CRYING BABIES ARE SICKLY BABIES

The well child does not cry. He is laughing and happy all the time. Baby's cry of distress is the only means he has of telling the mother or nurse he is ill. Mothers, you can keep your little ones well and happy by giving them Baby's Own Tablets—the safe and efficient remedy for all childhood ailments.

Baby's Own Tablets are a mild but thorough laxative. They sweeten the stomach; regulate the bowels and thus banish constipation and indigestion; break up colds and simple fevers and allay the irritation accompanying the cutting of teeth. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

CALEDONIA LANDMARK BURNS.

CALEDONIA, Ont., Feb. 13 (C.P.).—The Campbell House, an old landmark in this town, was destroyed by fire at an early hour this morning. The property was owned by F. W. Forster estate, and occupied by Forster's grocery and a barber shop.

The flames did not spread to adjoining structures, although cars on the C.N.R. line nearby were in danger for a time.

MILLERS FALL

(Continued from Page One)

SUMMARY
First Period
Tweed—Campbell, 2 minutes.
Penalties—Tweed, Boyd.
Second Period
Tweed—Campbell, 15 minutes.
Penalties—Tweed, M. Geraldi; Campbellford—Ingram, 7 minutes.
Third Period
Penalties—Tweed, M. Geraldi.
Millers Lead Play

From the face off of the puck in the first period, Campbellford took the aggressive, Whitton carrying the rubber into the entertainers' house.

Here it stayed, with several attempts on the part of Tweed to get away, for two minutes, until Campbell got through on the pivot position and clearing the defence netted the first count. This seemed to surprise the Millers, who immediately returned to the attack and staged some very pretty and dangerous play in the Tweed area. Marchen, on the defence, broke several times, but was unable to get very far with the puck, partly on account of the bad ice and partly because of the fine defence that Cowall and Ingram put up for the visitors. Both these defence men made fine forward rushes, working in co-operation with Whitton and Flemming and coming very near to making a count on several occasions. McKay played a splendid game, passing up the right wing and keeping A. Geraldi busy checking him. Cripps and Campbell for Tweed were also up to form and did some excellent stick handling, driving the visitors forward several times but being unable to make a count. Smith and Blue on the subbing line also played well, carrying the game in the Tweed area and having some near goals. These two were very ably supported when Busche was sent on the ice, he playing a very fast game and keeping in the play with advantage to the Millers.

After eleven minutes of play Boyd was fenced for tripping; Smith for the visitors following up this advantage with a forward rush which, however, proved without result. The game from then on was give-and-take with very little advantage on either side.

See-Saw Affair

The second period opened with a rush forward by Flemming which was checked and returned by Campbellford. This sort of thing featured the whole of this session. Both defence men on either squads made forward rushes, but despite the heavy play were unable to tally. In one of these rushes M. Geraldi was fenced for tripping. Ingram made the one and only count for the visitors when he drove forward from the blue line, carrying the rubber clean through the Tweed defence and netting it in a spectacular manner. Following this play became heavy, with Campbellford coming near to making counts on several occasions, and Campbell for the entertainers starring in some fine forward rushes. After fifteen minutes of play Campbell was successful, making the second count for the Green and Whites. Eighteen minutes of play, and Ingram was penalized for tripping; the play ending in the Tweed area.

Visitors Take Attack

The third period was one of attack by the visitors, the Millers throwing four men into the forward line in an effort to make a count. This was unsuccessful, but it kept most of the play in the Tweed area and caused the game to warm up. The entertainers did all they could to break this play, resorting to long shots to clear the puck, but despite some dangerous breaks by Cripps and Campbell, no count was made. M. Geraldi had a near shave to making a count when he broke through and carried the rubber through the Campbellford line and shot, but Sanders was on to his job, and his work was in vain. After seventeen minutes of play M. Geraldi was fenced for body checking, being given five minutes for answering back the referee. The game ended in a 2 to 1 win for Tweed.

A large, modern electric bakery has been opened in Acca, West Africa, famous for its primitive open air beehive ovens.

CANADIAN DEPARTMENT STORES LIMITED

PETERBOROUGH CANOE COMPANY BUILDS LARGER WATER CRUISERS

Makers of Boats Not Complaining of Tough Winter—Competing With U. S.

READY-MADE CRAFT

(Special to The Examiner. Copyright 1931)

TORONTO, Feb. 14.—(For the first time in the history of Canadian boat building you can go window shopping and buy yourself a completely-equipped motor-boat cruiser, or runabout.

Yessiree. Peek in the window, see a boat you like, go inside and buy it—in fact, do anything but have it wrapped up and taken out under you arm.

As a matter of fact if you were in a real hurry you could probably arrange to have a truck backed up and take it away the very same day your purchased it.

I'm not talking about those leaping, tearing, little bucking lake broncbos familiarly known as Sea Fleas, that a husky man could tote out, power plant and all on his back.

I'm talking about real boats that can go anywhere in any weather.

For many years Canadian boat builders have only built for the custom trade-built boats as they were ordered. Now they have entered into the production class so long and so successfully exploited by U. S. builders, and are turning out real boats for the ever-growing Canadian trade.

The custom-built business still exsits—and always will, but that is for the millionaire, or the man of independent wealth, the chap who can afford to have plans specially drawn for him and the boat built to his own particular desire.

The ready-built boat is for the man of small or moderate means, the man who buys his cars in the lower price and his pyjamas in the departmental store. Mass production enabes him to buy a competely equipped boat all ready for the water. Just like a man stepping in to buy a ready-made suit he sees just exactly what he is getting for his money.

And he can step right in and buy just what he wants, just when he wants it—and he does not have to look to U. S. boat builders as he has had to do not so far in the immediate past.

Taking to the Water

Canada in general has become water conscious. In other words Canadians who can afford to spend a little money for a little real recreation have tired of the traffic jams on the week-ends and holidays and are taking to the water.

If they want the thrill of speed they can get it in Canadian built and Canadian engined runabouts which will stand comparison in looks and speed with anything in their price class which may be purchased across the line. In fact, they can buy Canadian boats of equal class and speed for less, because of a protective duty.

And if the customer is looking for cruising comfort for a boat which will take him anywhere in almost anything and keep him dry, and be an aquatic house and lot to him and his family and friends, he can get it under the same advantageous conditions right here in Canada at a lower price than he can buy the same article across the line and save himself a duty of 30 per cent.

With one or two exceptions every high-class boat builder in Ontario reports business booming but nowhere in the Province is this boom more robust than right in the City of Toronto.

Report Brisk Season

The Peterborough Canoe Company of Peterborough, which has been building fast racing sea fleas and outboard runabouts for several years has gone into the larger classes and in turning out a real grist of stock cruisers and runabouts, some of which are on exhibition in Toronto.

The Peterborough plant has turned out cruisers for H. A. Miller of Pittsburg for use on Georgian Bay; H. B. Richardson of Midland, for use on the same waters, and for Charles Sidley of Toronto, for service down the Bay of Quinte, where Mr. Sidley has a summer home. William McClelland of Montreal; A. McManigal of Columbus, Ohio; Col. Gracefield of Quebec, and J. G. M. Hiltion of Saugeries, N.Y., have selected fast runabout for service in the Muskoka and Georgian Bay districts. In addition their plant has turned out—or is turning out for the spring trade a dozen more 24-foot cabin cruisers and runabouts from 18 to 30 feet overall and capable of anything from 20 to 35 miles per hour. Manager W. A. Richardson reports a brisk season, considering the slump.

Gidley's of Penetang are specializing on a V-bottom mahogany 26-footer, which will stand up against anything of its price range built on the continent.

"Inquiries since the first of the year exceed those of the previous year by a fair margin especially in the $5,000 and under classes," writes G. M. Warnock, manager at Gidley's.

Minett-Shields at Bracebridge are possibly not quite so busy just now as some of the other builders, but their fall output which has already been absorbed was very encouraging.

Expect to Double Output

Fetthall of Gravenhurst is turning out standardized runabouts at the rate of one a week and expect to double up the output before Spring.

The famous firm of Dutchburns, Ltd., at Gravenhurst, which has for years built Harry Greenings championship speedboats—the famous Rainbow strings which have cleaned up from Florida to Detroit and back again has turned out twelve custom built jobs ranging from 45-footers up to 65-footers, with a price range of from $15,000 or more. In addition, they have close to fifty standardized fast mahogany runabouts and speed boats of the better class built or under way.

It might have been a tough winter, but the boat-builders are not worrying about the soup lines!

Wooler

Rev. A. Poulter and Mr. F. A. Dorand, attended the Prebytery at Cobourg, on Tuesday.

Miss Annie Horne, of Toronto, accompanied by her mother from Scotland, spent a few days with Mr. and Mrs. Malcolm Waite.

Miss Wooten, of Belleville, was the recent guest of her sister, Mrs. A. Poulter.

Mr. and Mrs. Maynard Sharpe entertained a number of their friends to a dinner party at their home on Tuesday.

Mr. and Mrs. Esli Terrill were guests recently of Mrs. Ludia Nelson.

Mr. and Mrs. S. L. Terrill spent Sunday evening with Mr and Mrs. W. W. McColl.

The infant son of Mr. and Mrs. Murray Hanna is very ill.

Messrs. William Montgomery and Percy Gooding took Thomas Wren to Cobourg Hospital on Saturday and on Sunday his death occurred.

Mrs. Alden Arthur is confined to her home through illness.

The roads are being kept open for automobile traffic in this district.

Mr. and Mrs. Sam Palmer spent Tuesday with Mr and Mrs. Esli Terrill.

The young people of the Literary Society of the High School held a sleighing party to Trenton recently, teams being provided by J. J. Way and Bruce Nichol. At Trenton the young people held a theatre party followed by lunch before returing to their respective homes.

Mr. and Mrs. Esli Terrill were recent visitors with Mr. and Mrs. John Dinner, of Codrington.

Dr. and Mrs. McQuade, of Trenton and Mr. and Mrs. C. R. Terrill, were recent guests of Mr and Mrs. Terrill, Floral Hill Farm.

Harold Rome is confined to his home suffering with bronchitis.

Mrs. J. J. McColl and her mother, Mrs E. Fox, spent Tuesday with Mrs. W. E. Scott.

Mr. and Mrs. S. L. Terrill entertained at a dinner party on Thursday, those present being, Mr and Mrs. Lester Richards, Wesley Richards, Mr. and Mrs. A. Sharpe, Mr. and Mrs. J. J. McColl and Mrs. E. Fox.

Miss Ethel Cunningham, of Bloomfield, is the guest of Mrs. D. S. Austin.

Miss Eva Masters is visiting friends in Smithfield.

BIG GAS PLANT FOR COBOURG

Interesting Letter From J. H. Yates of the Royal Empire Society.

COVER WIDE AREA

COBOURG, Feb. 14. —In view of the suggestion offered some time ago by Mr. G. H. Yates that Cobourg become a distribution centre for gas to be supplied as far west as Oshawa, north to Peterborough and east to Belleville, and the assurance that English capital may be secured to finance such an undertaking, the following letter received by Mr. A. W. Young from Mr. Yates will no doubt be read with interest:

Royal Empire Society,
Northumberland Avenue,
London, W. C. 2 England.
January 26th, 1931.

A. W. Young, Esq.,
Town Clerk,
Cobourg, Ontario,
Canada.

Dear Mr. Young—You will be surprised to see that, after so long an interval of silence, I am taking the liberty to write you.

The reason for this attempted resumption of correspondence with you is my recovery from a serious illness (due to a chill) and which made me hors de combat for nearly twelve months.

I am now gradually making arrangements for my return to Canada, and am anxious to learn whether whilst I am still on this side of the water, I can be of service to my friends.

I have very pleasing memories of my association with you, and with many Cobourg gentlemen, and they recall the questions relating to your Public Utilities, and especially to the establishment of a Ga and Coking Pant at Cobourg.

The financial situation here is abnormally favourable for capital investments in Canadian industries, and especially those connected with Public Utilities. Ir these circumstances, and as I do not know how matters stand at Cobourg, I shall be very glad to have a cable from you (if your local situation will justify that expense) stating whether that situation is as it was when I last saw you, or whether your deal with the Hydro Commission has been consumated.

If your cable indicates your local circumstances such as will warrant that course being adopted I am prepared forthwith to start for Canada.

With best wishes,
Yours faithfully,
J. Handley Yates.

INDIAN RIVER

Mrs. Herbert McKay is visiting relatives at Norwood for this past week.

Master Allen Borland is confined to his home through illness.

Miss Daisy Wright is visiting with Mr. and Mrs. Bruce Parker, Peterborough.

The many friends of Mr. Samuel Armstrong will be very sorry to hear of his serious illness.

Mr. Jimmie Develin is ill with pneumonia on both lungs.

DISTRICT NOTES

By Examiner Correspondents

BETHANY

Miss Hazel Jackson is the guest of Miss Marjory Werry, of Fleetwood, for a few days.

The members of the Y.P.S. of the United Church presented their play, "No Account David" at Ebenezer Church on Tuesday evening.

Mr. and Mrs. Angue, of Manvers Station, visited their son Cecil, on Wednesday.

Among those who entertained friends on Monday evening were Mr. and Mrs. D. Cairns, Mr. and Mrs. R. W. Price, Mr. and Mrs. Byers and Mr. and Mrs. W. L. Rowan.

Bethany village has been greatly improved by the addition of street lights.

TRENT RIVER

School was closed Friday owing to the illness of the teacher, Mr. R. W. Umphrey.

The valentine concert for Friday afternoon at the school was postponed owing to the illness of the teacher. The pupils were sorely disappointed as they anticipated a happy afternoon. A large box decorated with fancy colors was prepared to receive the valentines and previous to the day of the event the box was nearly filled to the brim with valentine greetings from the pupils and teacher. The many friends of Mr. Murphy wish him a speedy recovery.

The Women's Institute of West Seymour will meet at the home of Mrs. Charles Macoun on Thursday afternoon, February 19.

Mr. and Mrs. James Doupe and daughter, Margaret, have gone to Rylstone to reside. Mr. Doupe is engaged on the farm of Herbert Spencer.

The dance held by Mr and Mrs. John Garneau at "Cedar Isle" Wednesday night was largely attended and a most enjoyable time was spent. Fife's Orchestra from Norwood was in attendance and supplied splendid music for the numbers.

HALL'S BRIDGE

Mrs. Elijah Windover is seriously ill at the home of her daughter, Mrs. Melville Hall.

Mr. Elijah Windover was taken with an appoplectic attack at his home and was conveyed at once to St. Joseph's Hospital, where he is now.

Miss Margaret Wilson has returned from St. Joseph's Hospital to her home. She has been ordered complete rest for some weeks.

Mrs. Edward E. Wilson has returned from the Nicholls Hospital to her home, where she is convalescing.

The Lakehurst Ladies' Aid met at Mrs. Wallace Shearer's for their monthly gathering.

Mr. and Mrs. W. H. Pearson were visitors to the city yesterday.

NEW INDUSTRY AT PORT HOPE

PORT HOPE, Feb. 14.—With car loads of raw material arriving almost daily, and with large quantities on order to be delivered in the near future, Port Hope's new industry, a branch of the American Agricultural Chemical Company, is expected to be producing chemical fertilizer within the next couple of weeks.

PORT HOPE FACTORY HAS THE CONTRACT

For Erection of Automatic Bottle Conveyor System in Toronto Plant.

PORT HOPE, Feb. 14.—The Matthews Conveyor Company, Port Hope has secured the contract for the erection of a new automatic bottle conveyor system at the Dominion Brewery Co., Ltd., Toronto.

ARTICLES OF INTEREST TO THE FARMER

DOURO TOWNSHIP FARMER WINS CHAMPIONSHIP FOR DISTRICT NO. 2 IN 1930 BACON LITTER CONTEST

Charles S. Brown's Entry of 12 Hogs Weigh 2,530 Pounds in 181 Days' Feeding.

EIGHT GRADE SELECTS

Millbrook, Warkworth and Indian River Lots Placed in Prize Money.

Charles S. Brown, of Douro Township brings an outstanding honor to Peterborough County by winning the championship of District No. 2 in the 1930 Ontario Bacon Litter Competition. Mr. Brown captured first prize for the district which included the counties from Hastings west to Peel County with 12 hogs weighing 2,530 pounds in 181 days of feeding and grading eight selects and four bacons.

Mr. Brown earned a score of 175.42 and won a prize of $25. Second in the district was R. J. Ash, of Newmarket, with a score of 171.85 points. Other winners in District No. 2 who reside close to Peterborough were: A. W. Brown, Millbrook, who gained 8th place with 136.80 and wins $15; Oscar Laver, of Warkworth, 9th with 132.10 points and winner of $15, and William Mildenhall, of Indian River, 10th, with 120.78 points and winner of another $15.

Provincial Record

Joyce Bros., of Milton, set the Provincial record for the 1930 competition. They gained the major award with 3,960 pounds of pork, only 50 pounds less than two ton, for a litter grading 14 selects and only 159 days old. This passes the 1929 competition record of 3,570 pounds with 14 selects in 186 days made by J. R. Rennie, of New Hamburg, although Mr. Rennie again proved himself a real hog raiser by making third and fourth places in his district in the 1930 competition.

The total entries for 1930 were slightly short of 1929, probably due to decreased production. Also the high standard set in 1929 may have discouraged some who might have contemplated making a name for themselves as pig feeders. Not only were the entries less, but the average weight per hog was lower, with a slight increase in the feeding period or average age.

Peterborough Outstanding

District No. 2, which comprises the Peterborough district was outstanding in its achievement as compared with other districts. While only 10 competed in the competition, the average number of pigs farrowed reached 13.5, which was only exceeded by District 3 with 13.7. In the average number of pigs this district was third with 10.8. The average weight of the pigs in District 2 was 208.8 which exceeded the average weight of all other districts. The number of selects averaged 61.1 which was exceeded by only two other districts.

District winners were:

District 1 (counties from Hastings east)—Earl Manson, of Almonte.

District 2 (Hastings west to Peel County)—Charles S. Brown, of Peterborough County.

District 3 (included the counties of Simcoe, Halton, Wentworth, Norfolk, Haldimand, Wellington and Waterloo)—Joyce Bros., of Milton.

District 4 (included counties of Middlesex, Oxford, Lambton, Kent and Elgin)—Andrew Marr, of Dorchester.

District 5 (included counties of Bruce, Grey, Huron and Perth)—R. F. Bolton, Dublin.

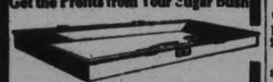
The object of the competition was the establishment of a standard of excellence for grade brood sows kept by farmers. It is recognized that those sows which are prolific and rear large litters of select bacon hogs, that are good feeders making good gains at a low cost, are valuable as improvers of commercial hogs. The competition aims at giving prominence to such sows as breeders in their respective districts in the hope that their female progency will be selected as foundation brood sows for the district.

The competition was open to all bona fide farmers in Ontario farrowing litters between March and May 15, 1930.

Last Short Course Was 11 Years Ago

COBOURG, Feb. 14.—The Short Course which is being held at Coldsprings in Agricultural and Home Economics, is proving very popular with the young people of Hamilton Township It is now eleven years since such a course was held at Coldsprings. Walter H. Smith, agricultural representatives for this county, is in charge.

Get the Profits from Your Sugar Bush



WELDED STEEL SAP PAN.

This is the Pan for maple syrup making on a small scale. The welding makes it practically a one-piece pan—no solder to melt or leak if allowed to boil dry Finished around top with heavy angle steel. A pair of handles each side for lifting off fire. Durable, efficient, economical Many in use, giving great satisfaction. Write for further particulars.

W. GORDON STEEL WORKS Limited
169 Jarvis Street - Tweed, Ont.

Wild Dove, Quail Prove Themselves Farmers' Friends

KINGSVILLE, Ont., Feb. 14—(C.P.)—An interesting demonstration of the havoc that the mourning dove and quail can wreak on weeds and insect pests was found in the crops of two of these birds whose bodies were found by Jack Miner, naturalist, recently. The crop of the mourning dove contained 8,533 seeds of the three-seeded mercury, and the same count was checked by the Ontario Agricultural College. The same experts described the contents of the quail's stomach as: 1 small spider, 1 harvest spider, 1 leaf hoper, 1 plant bug, 1 small beetle, 2 ants, 9 insect eggs, 30 small gravels, 288 seeds of black nightshade, 28 seeds Old Witch grass, 45 seeds or three-seeded mercury and 30 small gravels. It was suggested the birds had been having a diner to celebrate something.

GRIST MILLING BEING REVIVED

Many District Flour Plants in Saskatchewan Are Weeks Behind With Orders.

PIONEER INDUSTRY

REGINA, Sask., Feb. 14 (By The Canadian Press)—From all sections of Saskatchewan have come reports of the revival of local custom gristing of wheat, recalling activities of pioneer farmers of fifty years ago.

In the autmun of 1930 wheat was cheap and flour was high in price and farmers turned to custom grinding of wheat grown on the home farm. While farmers of to-day in most cases do not travel the long distances traversed by the pioneers, some of them find that a long road has to be negotiated to the nearest grist mill. Nevertheless, they are profiting by piloting their wagons to the mills.

Saving to be made by returning to the old method is indicated by the "tolls" in vogue to-day, which are based on value of wheat, bran and shorts in the market.

Here is what the farmer has to pay to get his wheat ground:

Thirty-five cents a bushel. In return he gets 40 pounds of flour, 18 pounds of bran and shorts, two pounds being taken off for wastage.

Thirty cents a bushel: In return, 35 pounds of flour, and 23 pounds bran and shorts.

On the basis of 100 bushels, taking flour in return, and not paying any cash for grinding, 20 bags of flour, or approximately one ton of flour.

He may further have a sliding scale of cash payment, the miller then working out returns of flour and bran and shorts on the basis of the present market values of these commodities.

Local mills in the province are running at capacity. Some of them report being three weeks behind in their schedule of gristing, and still farmers are bringing in their wheat. Much of the flour ground now is to be used next fall.

In the province at present there are sixty mills, most of them running day and night, and an enormous amount of flour is being made and stored away in farm homes. The old family flour bin has returned to vogue and promises to remain, for wheat growers are said to be well satisfied with the system.

The largest flour mill in the province is at Factoria, with an eight thousand barrel daily capacity. One of the smallest is at Kindersley which turns out 25 barrels daily. Moose Jaw has a 3,000-barrel-a-day mill.

The mill operated by the Christian Community of Universal Brotherhood, at Veregin, turns out 100 barrels daily, and not only does custom grinding for the community but also grinds for the other people of the district.

Good British Market For Canadian Cattle

CALGARY, Alta., Feb. 14.—(By the Canadian Press).—There is a future for western cattlemen on the British market, according to a concensus of opinion among the ranchers and cattlemen who contributed to the test shipment of cattle to the British Isles last fall. The shipment was made under the auspices of the federal department of agriculture.

Some of the ranchers feel that the cattle did not bring the returns expected but the majority express satisfaction with the financial returns.

Rod McLeahy, of High River, Alta., a heavy contributor stated that a good deal had been learned from the test shipment. "We should be able, with the co-operation of the railways, effect economies that will ensure a reasonable profit and the establishment of a regular traffic," he said.

Joe Wylie, cattle rancher of Maple Creek, declared his cattle returned him "as much as they would have on the home market." He was well satisfied with the trial and added that ranchers of his district hold similar opinions.

First Picture of World's Grain Exhibition and Conference Building at Regina

This reproduction of an architect's drawing represents the magnificent building now being specially erected on the fair grounds at Regina for the purpose of housing the educational, competitive and commercial exhibits of the World's Grain Exhibition and Conference to be held in that city from July 25th to August 6th, 1932. It will cost approximately $200,000 and as soon as completed will be placed in charge of the National Committee of the World's Grain Show, who, under the direction of J. O. Turcotte, Dominion Exhibition Commissioner, will immediately commence and carry out the work of interior decoration appropriate for the big event of that year. The building is beautifully situated south of the automobile building. The main portion is 640 feet long and 120 feet wide. Each of the wings are also 120 feet wide and extend 300 feet from either side of the main unit, all providing a floor space of approximately 150,000 square feet. It is a substantially built permanent structure with stucco finish, allowing for ceiling space of 18 and 22 feet. Mr. Turcotte is well known in many countries, where he has had charge of similar work for the Dominion Government, and Canadians and others may feel assured that the work when completed will be not only suitable and appropriate for the occasion, but well worthy of the objects to be attained by this great undertaking.

FARM CONDITIONS SEEN AS MENACE TO WHOLE NATION

Present Depression is Reducing Farmers to Depths of Poverty.

BEAR BRUNT OF TROUBLES

Canadian Council of Agriculture Urges Six Suggestions as Remedy.

The conditions now prevailing among the agricultural population of the Dominion menace the whole social and economic fabric of the country. Exhortations to optimism and statements denying the widespread suffering and impoverishment of our rural people, even when made by prominent men, do not change the facts. Farmers are being reduced to poverty; their families are being inadequately fed, clothed and educated; they are unable to meet their obligations, to pay taxes, to redeem mortgages, to maintain payments of interest, to settle their debts for machinery, gas and oil, and other necessary purchases. Many lack seed for spring sowing and will be compelled to go deeper into debt in order to provide it. Even the minority who have hitherto occupied a position of financial independence have "gone behind" and are in danger of being submerged.

For many years the Canadian Council of Agriculture speaking for the farmers' provincial organizations, has protested against the handicaps imposed on the farming industry by tariff exactions, high transportation costs, inadequate and expensive credit facilities and inequitabe taxation, to name only the more outstanding of their grievances. Such protests have been unavailing and the advent of the world-wide depression, resulting from the cost and ravages of the war, aggravated by the national jealousies and economic rivalries which have succeeded it, had found the Canadian farmers totally unable to cope with its difficulties and to make the sacrifices entailed by it.

The continuance of the existing conditions throughout another crop year must inevitably involve in the most serious degree the financial and industrial institutions of the Dominion. Banks, trust companies, mortgage corporations, and other lending institutions will find themselves in possession of the lands and chattels which form the security for their loans, but lacking purchasers to take them off their hands. Their security will have depreciated to an extent of necessitating the writing off of very heavy losses. The manufacturing concerns, together with the great army of distributing agencies, will face stagnation owing to the inability to find purchasers for the products they produce or handle. The farmers will be either dispossessed or compelled to spend long years in carrying on an uphill struggle to liquidate the debts of principal and interest pyramided upon them. Large numbers will become tenant farmers, or farm laborers, living at a standard much below that, even, which they have been able to attain in the past.

Farm Prices Fall First

The present depression, like that which has invariably followed other great wars is characterized by a great inequality in prices. As has happened before, farm prices have fallen first and farthest. The farmers are being thrust, as they have previously been, into the position of bearing the brunt of the trouble consequently upon the economic dislocation resulting from the war, and from the industrial and commercial struggles following it. Unless measures are immediately taken to remove the restrictions and handicaps upon the national and international exchanges and to increase the incomes of those engaged in the primary industries relatively to those other classes the outlook will be dark indeed.

Evidences, statistical and descriptive, of the disasters which have overtaken the primary producers could be multiplied. The records of the Dominion Bureau of Statistics and of other governmental and private agencies are available to any who wish to study them at first hand. Only those wilfully blind to the facts so disclosed will attempt to deny the essential accuracy of the conclusions above stated. More necessary than the quotation of figures which are or can be familiar to everyone concerned with the welfare of the Canadian people is the formulation of measures designed to relieve as rapidly as possible and to remove eventually the grave disorders now apparent.

The Remedy

The Canadian Council of Agriculture now proposes therefore to set forth the policies which, in its opinion, will most quickly and effectively rectify them.

1—International action to reduce and, as far as possible, to cancel external war debts and reparations.

In the attainment of this object, Canada as a member of the League of Nations, and of the British Commonwealth of Nations, could exert considerable influence. A courageous and reasoned stand in favor of a liberal international treatment of the problems presented by war indebtedness and the payment of reparations by the conquered peoples would, in the Council's opinion, meet with instant response.

2—International action to remove the existing restrictions upon commerce between all nations. Genuine endeavors to bring about the free exchange of commodities, which would do more than any other measure to relieve the present depression, must begin at home. Proposals for the relaxation of the tariff and other supposed "safeguards" adopted by other countries should be accompanied by practical evidence of the sincerity and bona fides of the proposer.

Canada can as easily take the lead in this as any other country and the all-round reduction of the Canadian tariff must have immediately beneficial effects upon the conditions confronting the farmers, in particular, besides rendering easier the export of surpluses of farm products at present existing and shortly to be realised. The existing surplus of wheat and the coming surpluses of dairy products and livestock must find a market abroad. By accepting such imports as Canadians can profitably purchase the disposal of these surpluses must be greatly facilitated.

3—Resort to the income tax in greater degree than at present prevails. The raising of national revenues by taxation in proportion to ability to pay instead of by means of taxes on consumption and other indirect taxes must relieve the burden now falling upon those who can least afford to pay taxes.

4—An immediate an dappreciable reduction in the costs of transportation of all commodities. It is significant that, while the net incomes of farmers have shrunk to zero and unemployment is widespread, the dividends of shareholders in the largest Canadian transportation system continue to be paid with regularity and at a rate equivalent to the repayment of the face value of the stock once in every ten years. Reduction of freight rates would increase the returns of agriculture and must ultimately benefit the transporting agencies by aiding productive development and increasing the consumption of all commodities.

5—The modernizing of the Canadian banking and credit system.

(a) By the establishment of a central bank of issue, and rediscount, accompanied by suitable modifications in the liability of bank shareholders.

(b) By the passage of legislation making possible the development of co-operative credit institutions designed to finance agricultural operations.

6—The adoption by banks, trusts and loan mortgage companies and other lending institutions of a policy scaling down the principal amounts so that the debts now owing would conform, in terms of commodities, to the purchasing power actually lent in years past. Such a measure would result also in reducing the burden of interest payments while leaving the lenders just as well off, in terms of actual wealth, as before its adoption.

CATTLE, GRAIN, PRODUCE

TORONTO PRODUCE

TORONTO, Feb. 14.—There was little trading on the local butter market this week, but prices held steady with those of previous weeks at 31½c to 32c for No. 1 creamery solids, and 30½c to 31c for No. 2 Buyers were not interested in large sized lots, but sellers did not weaken the quotations. About the end of the week there was a fair inquiry for No. 2, and quite a lot changed hands at 30½c. Brokers were under the impression that the first of next week would see a better demand, as supplies purchased some three weeks ago cannot last much longer.

Cheese

The cheese market showed great strength during the week, prices going higher each day. At yesterday's close new cheese was quoted at 15¼c to 15½c for large, 15½c to 15¾c for twins, and 15;c to 16c for triplets. Retailers were asked to pay more money this week, the wholesale prices being raised ½c. They were offered new large at 16c, new twins at 16¼c, and new triplets at 16½c. Supplies of new makes—fodder—have been very low, and receipts have continued to fall off, which indicates still higher prices in the coming week.

Country shippers were quoted 26c to 27c for extras, 23c to 24c for firsts, and 16c to 18c for seconds, ungraded, delivered, cases returned. Brokers offered fresh extras at 29c to 30c; firsts, 26c to 27c; pullet extras, 23c to 24c; and seconds, 21c, graded and in free cases, and candled out of storage eggs at 18c for extras and 16c for firsts. Retailers were quoted extras in cartons at 34c; extras, loose, 32c; firsts, loose, 29c; pullet extras, loose, 25c; and seconds, loose, 22c; and storage extras at 22c and firsts at 20c.

MONTREAL PRODUCE.

MONTREAL, Feb. 14.—Prices were unchanged on the produce and dairy market here yesterday.

Pasteurized No. 1 butter was quoted at 32 to 32¼ cents a pound being mainly Eastern Townships with some Western butter. To retailers solids were 34 cents and prints 35 cents a pound. Receipts were 544 boxes.

Carlot prices of fresh eggs were 30 cents for extras 26 cents for firsts and pullet extras, and 20 to 21 cents a dozen for seconds. Storage extras, recandled, were quoted 19 cents a dozen and firsts at 17 cents and seconds at 15 cents a dozen. Quotations to retailers were unchanged. Receipts were 529 cases.

Winter white cheese was 12 cents a pound and colored 14½ to 14¾ cents, while summer cheese was 15½ to 16 cents a pound. Receipts were 52 boxes.

WINNIPEG GRAIN.

WINNIPEG, February 14. — Nervous and erratic, wheat values yesterday were subject to several changes during the trading session of the Winnipeg Grain Exchange.

Stop-loss selling caused an early break, but scattered buying soon rallied values more than 2c from the low marks, reacted later, and closed unchanged to ¼c a bushel higher.

Export business overnight and during the session was extremely small and shippers would not place a figure on the total sales. Large shipments from Argentina, Australia and Russia had a bearish effect on the importers' sentiment.

Except for the continued demand from terminals for various grades of wheat, interest generally was very indifferent in the cash markets.

Trade in coarse grains was confined to small lots and demand was meagre throughout the day.

Futures:

	Open	High	Low	Close	Close
Wheat—					
May	.61	.63¼	.61	.62¼	.62¼
July	.63¼	.65⅞	.62⅝	.63¼	.63⅝
Oct.	.65¼	.67	.64½	.65⅝	.65⅝
Oats—					
May	.29¼	.30⅞	.29¼	.30¼	.29⅝
July	.28⅝	.29⅞	.28⅝	.29¼	.29
Oct.	.30½	.31	.30½	.30⅞	.30½

CHICAGO GRAIN.

CHICAGO, Feb. 14.—Wheat suffered a maximum fall of 2½ cents a bushel to-day and dragged all other grains down. Southern Hemisphere countries and Russia appeared to be in a race to push exports. United States wheat piled up from unexpected quarters, and heavy rains in domestic winter crop territory dispelled, for at least the time being, any likelihood of a drought scare.

Wheat closed unsettled 1-8 to 1 5-8 cents lower, corn 1 1-4 to 1 3-4, oats at 1-2 to 1 decline and provisions varying from 10 cents setback to 5 advance.

COUNCIL REJECTS LIGHTING OFFER

Not Satisfied With Hydro Communication Regarding Street Lighting in Janetville.

BETHANY MEETING

BETHANY, Feb. 14. (Examiner Correspondence).—The members of the Municipal Council met on Saturday when communications were read from the Ontario Township Roads Association, re membership; J. A. Ellis, secretary of Unemployment Relief Fund; Hydro Electric Power Commission re street lighting in Janetville; W. R. Robinson, of Omemee, re telephone extension in Manvers; Clerk of Millbrook, re share of expenses of Division Court.

On motion, the clerk was instructed to write the Hydro Power Commission and state that the offer to light streets in Janetville is not accepted to the Council and that the Commission be asked to give them an agreement on terms similar to Pontypool and Bethany.

The Reeve and Clerk were empowered to sign an agreement transferring polls, lead lines, etc. of the Omemee Telephone Company, situated in this Township to the Emily Municipal Telephone System.

Councillor Beer and the Clerk will be a committee to purchase wood for the Town Hall. On motion it was decided that the Township sever its membership in the Ontario Good Roads' Association.

George Walwin, Edward Bradburn, Mrs. Albert Heaslip, Mrs. Joseph Capstick and Mrs. Charles Deyell were appointed directors of the Board of Janetville Community Park, for two years and Deputy-Reeve Charles McNeil and Councillor Cummiskey will represent the Council on the Board for one year.

The Reeve and Deputy Reeve were appointed a committee to investigate the treasurer's bonds and report at the next meeting of the Council.

On motion it was decided that the council entered into an agreement with the Lieutenant Governor in Council of the Province of Ontario to provide certain funds for unemployment relief and that the Reeve and Clerk be empowered to sign the same.

The auditors, R. H. Hudson and John Payne presented their reports for 1930, these being accepted and the Clerk was requested to have the usual number printed.

By-law Number 1063, to borrow certain monies from the Bank of Toronto to meet current expenses was read three times, signed, sealed and passed.

The following accounts were ordered paid: A. Johnson S.S. 3, $200; W. L. Hannah, S.S N. 3, $450; Percy Richardson, S.S. 9, $300; W. J. Boggs, S.S. 14, $200; Fred Barnstaple, S.S. 16, $300; Manvers Municipal Telephone System, $400; Hydro Electric Power Commission, lighting Town Hall, $12.41; Corporation of Millbrook, Manvers' share of Div. Court, $18; W. A. Jakeman, Sick Children's Hospital, $5; Toronto Stamp and Stencil works, dog tags, $12.47; Ryley & Son, supplies, $5; F. C. Dawe, supplies, $5; R. W. Price, supplies, $10; C. Ferguson, supplies, $32.69; W. A. Jakeman, delivery of extra ballots, $9; Richards & Richards, six copies of Municipal World, $6; T. E. Cain, sheep valuer $4.70; Harry Fischer sheep worried by dogs, $38; Harry Fischer, killing dog worrying sheep, $5; R. H. Hudson, auditor, $6; John Payne, auditor, $6; J. J. Clark, salary as collector, $100; Tom Ward wood for Town Hall, $5; W. H. McNeil, road superintendent's voucher, 2, $116.07.

USE WIRE FLOOR FOR GOOD RESULT WITH BABY CHICKS

Poultrymen Find They Have Better Luck Than With Sand or Straw Litter.

FOR FIRST 3 WEEKS

Wire Prevents Chicks Eating Litter and Makes for Better Growth.

A wire floor for the first three weeks in the brooder-house has become quite popular among poultry raisers. They have had much better luck in raising the chicks than they ever had on sand or straw as litter.

The simplest way of putting a wire floor in the brooder-house is to build it in sections so that it may be readily removed when the chicks are three weeks old. Build good, strong frames, using 1 by 4 inches lumber so that the wire floor will be 4 inches off the regular brooder-house floor. To take care of the chicks and of the brooder stove it means walking on the wire floor; so each section must be strengthened by cross pieces. The wire should be a hardware cloth with one-half inch mesh so there is no chance of the chicks getting their feet caught, and yet allowing the droppings to fall through.

As a floor covering in under the screen you may use clean sand. It will tend to fill up the cracks in the floor, preventing drafts through the floor, and also tend to absorb some of the ammonia from the droppings. This not only means that you will be able to raise a larger per cent of the chicks, but they will as a whole make better growth. You will find that it will pay for the cost of installing the wire floor in a single season. Aside from that there is real satisfaction in having a really good bunch of chicks minus a bunch of culls or stunted chicks.

After the chicks are three weeks old, the wire floor should be removed and most anything may be used as litter, provided it is clean and will absorb moisture. Clean sand probably will be the ceapest as well as the most saving in labor.

LABOR SITUATION REQUIRES STUDY FOR SATISFACTION ON DAIRY FARM

Present Conditions Durham, Hastings

Most flocks in Durham are laying between 45 and 50% at the present time and we are glad to report that eggs have increased in price about 1 cent per dozen this last week. Two or three growers have considerable quantity of excellent quality certified potatoes for sale. At the Shorthorn Sale at Bowmanville on February 5th, prices were down somewhat, but considering conditions most of the breeders were satisfied with prices received. The high price bull which was one year old went for $200 and a yearling heifer brought $112.50.

There have been a few changes with farm help in Hastings County and some farmers are enquiring for farm help. All openings have been filled locally.

YOUR WOODLOT —REPLANT IT

Growing of Trees in Poorer Fields Improves Value of Property.

3,000 SUPPLIED FREE

Each year in increasing numbers Peterborough County farmers are taking advantage of the Forestry Department's offer to supply free trees for woodlot and wind-break planting. The value of the trees may be seen in many plantations over the county, and especially the one near Norwood on Highway No. 7.

As wood and timber become scarcer and more expensive, the thoughtful man is looking to the time when they will be gone altogether and is therefore beginning to take more care of his woodlot. He is allowing the natural growth to develop and is also planting out trees in his poorer fields. The fallacy of attempting to farm poor land is becoming very evident, and methods of putting it to better use are also developing. The best use is, of course, the growing of trees.

Trees Given Free

The movement to use this poor land also to provide for future wood and timber supplies has been materially assisted in recent years by the policy of the Department to supply free trees for such planting. Any land owner may secure up to three thousand seedling trees each year for planting in wood lots or plantations. These trees may be chosen from the following list: pine, spruce, cedar, poplar, willow, walnut, elm ash, maple, oak. The only cost involved is the express charge from the nursery to the home station.

Besides the trees for wood lot planting, trees are available on the same basis for wind-breaks. Persons desiring to have a wind-break around their buildings may secure up to five hundred spruce or cedar each year for this purpose.

The distribution of trees to farmers has a number of decided values. The new trees thicken up existing wood lots. They make new plantations on poor fields. They cover up "eye sores," such as hills, old gravel pits, etc.

Applications for trees must be made before the end of February. Persons desiring further information or application forms may secure the same from the Forestry Branch, Toronto, or the local office of the Department of Agriculture.

Increase Production Through Better Feeding Methods and Better Bred Cows.

ALWAYS MARKET FOR MILK

Every few years the country experiences a crash of one kind or another. It may be farm lands, oil, Wall Street stocks or any one of a dozen or more fields of financial adventure. A man has a right to ask: "Is any business safe?" I know of no business that is 100% proof against risks. If there were such a business there would be very little profit in it.

It is perfectly natural for a farmer to want to analyze the dairy business before he enters it, either on a large or small scale. I have attempted to show in this series of articles that fundamentally dairying is sound. Milk is an important food. The consumption of milk is increasing at a greater rate our population. That means we must do one of two things; increase the number of dairy cattle; or increase their production, or both. In the last ten years the average yearly milk yield per milch cow in this country has increased nearly 120 gallons. It is entirely possible, at that rate of increase, for us to supply milk for a population of two hundred million people without adding another cow to our herds.

There is no question about the market for milk. Refrigeration makes it possible to ship milk one mile or one thousand miles. The many products that are made from milk is in itself a stabilizing influence. I have shown that the dairy herd is not only an economical plant for production of food, but it pays dividends in helping to maintain the fertility of farm lands.

There are two or three problems in the dairy business which the farmer should consider seriously. One of these is the labor situation. A hired hand is needed most during the few months of the grain crop season. With a dairy herd it is possible to keep this man all the year 'round. Except for the actual milking, dairy cattle are far less care in the summertime than in winter, especially in the North. Therefore, dairying duties become heaviest when farm work is lightest.

The Hired Man

Right here I would caution farmers about giving due consideration to hired hands in the matter of chores. One reason so many men object to working on a dairy farm is the long hours, and the deadly regularity of the duties. There is no reason why arrangements cannot be made so that milkers can have practically the same hours as field laborers. Also, plan to give hired men regular time off.

Many men do not like to work on a farm where milch cows are kept because of the conditions under which they have to work. It is not alone for the sake of the help that every farmer should have clean, well-lighted, well-ventilated stables. That goes without saying on any farm where cows are milked. But, the fact remains that no matter how small the herd may be, the farmer who sees to the comfort of his cattle and employees will greatly reduce his labor worries.

The investment angle is the first consideration, naturally. The farmer who begins with a few cows and builds gradually, can master that problem with a limited amount of money. Some farmers are complaining that the milk business, once profitable, is now a loss because feed and labor are higher while the price of milk has not advanced proportionately. Those men are going to have to study their records carefully and do everything possible to increase production through better methods of feeding and care and better bred cows.

A Basket Full of Eggs is a Bag Full of "Nickels"

An egg is worth five cents—an average winter price. A hen that lays eggs lays "nickels"—just like the machine in the mint at Ottawa. If your hens are not egg-machines, laying the equivalent of a five cent piece every day or two, you are not getting your money's worth out of them. Chop their heads off and eat them, or else put them on a daily ration of Pratts Poultry Regulator—the greatest guaranteed egg-producer ever discovered.

Celtic And Everton Are Winners In Cup Tie Games

ENGINEERS HEAR WILLIAM GORE IN FINE ADDRESS

Municipal Water Supply and Sewage Treatment is Subject of Address.

SLIDES ARE SHOWN.

"Some Municipal Works of Water Supply and Sewage Treatment" was the subject of an interesting illustrated address delivered by William Gore, of Gore, Naamith & Storie, consulting engineers of Toronto, before the local branch of the Engineering Institute of Canada last evening.

Mr. Gore, who has a rich background of world-wide engineering experience covering a period of forty years, and who is widely known as a consulting engineer on municipal undertakings, spoke of some of the Municipal Water Works which he has under construction at present. He was introduced to the gathering by Ross L. Dobbin. City Engineer R. H. Parsons and Alderman Walter Stocker were present and followed with keen interest the detailed technical explanations of various types of sewage disposal plants and equipment.

The speaker, who has addressed the local engineers on several other occasions and who has conferred with the civic authorities of this city regarding the sewage disposal plant here, opened his discussion on this subject, knowing that it held greater interest for his audience than that of water supply. The lecturer explained, however, that the process of treating water and sewage had many similarities, the only difference being the density of the impurity treated. During the past forty years, he observed, there have been many changes, but in some directions there have been no changes at all.

His first lantern slide showed work executed by him at Toronto for disposing of the sewage from North Toronto and village of Forest Hill. The undertaking was commenced three years ago, designed to serve a population of 80,000 The population of this section has now advanced to 55,000, and the plant has to be duplicated. An uncommon feature of this plant is the storm sewage treatment.

Mr. Gore pointed out that although a sewage plant looks a very complicated affair, it is not so in reality. The simpler the various processes the better the results that are obtained.

Other slides showed Kitchener sewage plant.

Dealing with municipal water supply, the lecturer gave a clear cut idea of the large undertaking on the Calgary dam, and also spoke of some of the difficulties which are experienced in that part of the Dominion by anchor ice At one time, he stated, all the mains in Calgary were filled with ice.

Coming a little nearer home, he spoke of the Belleville 4-million-gallon plant, adding that Belleville will have reason to be as proud of its water works as Peterborough is of its present system.

Air views of Ottawa and work which is under way on the filtration plant there were also the objects of great interest. The plant will have a capacity of 34 million gallons of water per day.

Coming to the Toronto undertaking, the lecturer dealt at some length with the gigantic task of bufiding the great tunnel there, which he said runs under the Exhibition Grounds, right under the grand stand, to be correct.

Dealing with the project from a geological standpoint, he told of how they had found two beds of old rivers in the shale below the surface of the lake. He also described the methods of sinking shafts on this project, stating that the method used had never before been attempted. In places the tunnel has a diameter of 10 feet and in other sections narrows down to 6 feet . Ponies are used underground for hauling the trains of waste to the pit head from which it is drawn to the surface.

Pictures were also thrown on the screen showing the massive reinforced concrete reservoirs.

At the conclusion of the lecture Mr. Gore was besieged with questions, a fact which provided evidence of the interest he had aroused.

The next meeting of the branch to be held on Thursday, February 26, is to be addressed by C. P. Edwards of the Department of Marine (Radio Service). Mr. Edwards' address should be of more than usual interest as he was in charge of radio communication when the R-100 visited the Dominion last summer. He will speak concerning that occasion, and will also talk on radio communication in general, it was announced.

Cow Runs Amuck; Owner Bites Her

KINGSTON, N.C., Feb. 13 —If, as reported, it is news when a man bites a dog, what is it when a man bites a cow?

"Thomas Williams doesn't know and din't stop to think about it. He just went ahead and did it, declaring afterward the "hussy deserved it, and I should have broken her neck."

Williams acquired the cow a few days ago. She broke out of the pasture , blocked traffic in the road, kicked everything in sight including a farm hand, and then persisted in turning around and around while Williams was trying to milk. Adding injury to insult, she then proceeded to kick him in the stomach. That made him mad.

No cudgels being handy, he grabbed her by the leg and bit it until she bellowed in pain.

KIWANIS LADIES GUESTS OF CLUB ATTEND BIG SHOW

Plenty of Fun Characterizes Ladies' Night at Local Service Club.

LOCAL SPEAKERS.

Plenty of fun characterized the Ladies' Night of the Kiwanis Club, held last night at the Empress Hotel. A note of serious exhortation, was sounded in the brief addresses given by Dr. J. J. Craig and the Rev. J. D. Patterson, but the prevailing atmosphere of the entire evening was one of jollity and mirth. The dance which followed the dinner was one of the most hilarious of a long series of successful Ladies' Night dances, with various novelties. The members went over later to the Capitol Theatre for the Midnite benefit performance.

The ladies in the receiving line last night were Mrs. John Allen, wife of the president, Mrs. Chas. Cook, Mrs. Al Sharpe, Mrs. C. Browne, Mrs. H. Campbell, Mrs. H. Boyle, Mrs. W. P. Blackmore. Among the guests were a quintette of men from Oshawa; A. Cox, E. Kay, W. Bowden, H. Jones and R. Virtue.

President Allen handed the gavel to the chairman of the Education Committee, Dr F. C. Neal, who welcomed the guests. E. V Morphet and H. J. McCannon acted as song leaders, with W. H. Freel at the piano. A notable item in the community singing was a vocal combat between the men and women, the former singing "Solomon Levi," the latter "The Spanish Cavalier."

Boosters were A. Barton, boosting for H. Campbell, H. Campbell boosting for W. H. Freel, and W. H. Freel, boosting for A. Barton.

As Jack McKone aptly remarked, when Mr. Freel introduced Mr. Barton, as a tenor; Well, you're a fifteen center, so you're one better.'

During the dinner hour, brief addresses were given by Dr. J. J. Craig, who spoke very eloquently and interestingly about the six objects of Kiwanis: to give primacy to the spiritual, rather than th aterial values of life; to encourage daily living of the Golden Rule; to promote higher standards enduring friendships, altruistic service and better community ideals, and to co-operate in avenues promoting idealism, justice and patriotism.

Dr. J. J. Craig finished with an exhortation to all the officers, to regard their duties as paramount.

"He's my Brother."

"I am not my brother's keeper? I am my brother's brother," was the keynote of the short talk given by the Rev. J. D. Paterson, occupying the chair for a time in the absence of Dr. Neal. The speaker related the little story of the social service worker who kept expressing pity for the little girl who was lugging around a heavy child. Finally, the child remarked scornfully; "Lidy, he ain't heavy. He's my brother!" Drawing a parallel in daily life from the anecdote, Rev. Mr. Paterson emphasized the necessity of seeing a brother in those who require assistance.

"The Kiwanis Club, like every other institution, needs and uses money, but our basis is that spiritual movement which speaks to us of brotherhood. We must appreciate and understand the many problems of the underprivileged. They have been noted by the Bishop of London, England, a worker of many years, as the need of the unwanted child, of the chronically sick, of those with bad heredity, of those over-crowded in slums, of those with bad environment, and of those with little education.

"Those in need around us are speaking to us with the voice of God. People who arrogantly ask: "Am I my brother's keeper?" should remember the true answer: "No, I am not my brother's keeper. I am my brother's brother." And it is because of this attitude of the Kiwanis Club that I am a Kiwanian."

President Allen congratulated both speakers on the potency and timeliness of their addresses.

After dinner several hours of dancing were enjoyed to the good music provided by Jack Marshall and his orchestra. The program was a very merry one. Dr. Craig superintendended the Paul Jones which set the ball rolling and there were, among other variations, a Rye waltz and a Highland Schottische, in which Mrs. Harry Campbell and P. Blackmore provided the solo performance, much to the interest of the onlookers.

The prize for a stunt dance supervised by W. H. Freel, went to Mrs. Frank Stinson and the prize for the birthday dance to Mrs. Carl Browne. The dinner prize went to T. Mark.

For the Rye waltz, a voluntary addition to the orchestra's music was the kazoo quartette played by Herb. McCannan, C. Cumming, Gray Copping and Al Sharpe.

At the Capitol Theatre, for the Midnite benefit sponsored by the Kiwanis Club, an enjoyable program included the comedy picture, the "Kibitzer," centering around the adventures of a Yiddish smart aleck; a short Laurel and comedy entitled "In Angora Love;" an illustrated screen song and additional musical numbers in orchestral selections by Jack Marshall and his men, and by the Peterborough Cheerio Entertainers, with H. McCannan directing and Jack Smith at the piano.

Maj.-Gen. C. Edwards Succumbs In Boston

BOSTON, Mass. Feb. 14.— Major-General Clarence R. Edwards, wartime commander of the 26th (Yankee) Division, died at 6.06 a.m. at the Phillips House, where he had been a patient since Jan. 15. He was 71 years old.

The General had been in a state of coma through the night. An intestinal operation, the second since he became a patient at the hospital was performed yesterday. He failed to rally from the shock.

Two blood transfusions built up his fast-ebbing strength enough to warrant the operation, which, it was hoped, might cure the General.

Veterans Incensed Over V.C.'s Treatment

LEGION TO WAGE WAR ON GOVERNMENT OVER CIVILIAN PREFERENCE.

When Lieut. Charles S. Rutherford, V.C., M.C., M.M., now a Cobourg, Ontario, farmer, and father of four children, was refused the $500 Haldimand Township clerk post, which went to a civilian instead, the action fanned into flame war veterans' grievance of the country's treatment of Victoria Cross men. At a massed meeting at Cobourg, war was declared against Provincial and Federal Governments until such men, who have won highest honor their country can bestow, are given jobs worthy of their valor. ABOVE (1) Reuben Jackson, president of the Cobourg war veterans. (2) Lieut. Charles S. Rutherford, V.C., and (3) Rev. E. Ralph Adye, rector of All Saints', Whitby and the Canadian Legion zone representative, who denounced the Government's attitude at the Cobourg meeting.

MISS GRETA CLARK REVIEWS WORK OF PAST YEAR IN CHINESE MISSION

Session Occasionally Interrupted by the Bombing of Rebel Airplanes.

SPLENDID RESPONSE.

Interesting sidelights on the everyday life of a missionary in China, are contained in a letter recently received by Mr. and Mrs. William J. Clark of 195 Reid street, from their daughter Greta M. Clark at Kaifeng, Honan.

Miss Clark who received her training at St. Mary's School, Toronto, first went to China as a missionary about nine years ago, and returned for a furlough of one year after having done five years' duty in China. She is due home again in the year 1933.

She was formerly a school teacher in Monaghan township, where her father was born 73 years ago. He is now living in retirement after having farmed for the greater part of his life in Ennismore, which is incidentally his daughter's, Greta, birthplace.

"It is with a heart full of praise and thanksgiving that I think over the year that has just gone, and commence my annual letter," states Miss Clark. "Our school work at the south suburb, where I have been in charge during 1930 has gone on without interruption throughout both the spring and autumn terms. We have had no interference from the Government, and although it was rather disorganizing to make several excursions to the basement practically every morning during the bombing by airplanes, yet we continued our sessions and completed the curriculum in the required time. Not a child in any of our schools was hurt, for which we praise God. When the St. Andrew's and Orphanage buildings were taken over by the military our boys' school in the south suburb was moved over to the women's school residence, and we were obliged to dismiss one class for lack of a class room. The three young men with whom I started work in October, 1929, are still there. They are fine, earnest young men, and there is a happy spirit in their department."

Girls Wanted to Continue Study

"At midsummer the girls graduating from lower primary begged us to start upper primary in the autumn that they might return. Many of these girls are well on in their teens, and they have become keenly interested in Christianity and wish to continue their Bible study. In August, schools reopened with first year upper primary and there were twelve girls in the senior class. Over one hundred had enrolled in the girls' school alone. Although we are not registered yet, we follow the Government curriculum for primary schools and keep the same vacations, etc. We continue to have morning prayer at 8.30. The Sunday before Christmas five girls and four boys from these schools were baptized, and during the autumn term several others entered the catechumenate. Many of the younger children are interested, too, but only those over twelve years of age are allowed to give in their names. Our Sunday services are attended most regularly. The teachers are most willing and help faithfully in Sunday School. St. Mary's is most suitable for our meetings; we use the assembly hall for the service, and then the congregation breaks up into groups for study of the lesson. This term we have had a prayer room, where any who wish may find a place for retreat, and one of the younger teachers during the last few weeks of school has had a morning prayer meeting there, and the girls themselves are learning to take part."

"Early in the year I had it in mind to have the different grades invite their mothers to the school for social afternoons, but conditions have been so unsettled that we have not been ablet to do so except once this Fall, when the girls of the two senior grades invited their mothers. All except two came. We used a sunny classroom, and chairs and tables were arranged as for a party. The teachers arranged the handwork, writing, drawing, etc., of these two rooms and the mothers were delighted to see and compare the work of the students. The girls sang several songs, and we invited one of the Bible women from the cathedral to give them a Christian message, while the teacher of the senior grade gave an address on education. The girls then served tea and cake, and we all sat and talked together till it was quite late."

New Changed Girl

"The women seemed very pleased about the doctrine. One mother came to me one noon hour to express her gratitude for what our school had done for her daughter. Before she came to us, she would not stay at home and was most disobedient, but, said the mother, she is now a changed girl. She loves her Bible and is such a happy, unselfish girl."

"Christmas has been a very happy one for us. We closed schools on the twentieth of December. The Canadian W. A. bales arrived in time and many, many hearts were made glad by the lovely things they contained. We had mark reading and Christmas tree the morning of the twenty-second, and our entertainment, when the hall was full of guests on the afternoon of the twenty-third."

"I continue to have some work at the cathedral, having had the supervision of the choir this year, and the girls' branch of the Service League. These girls are the daughters of our Christians. They all attend government schools, but come to the missionary meetings very faithfully on Saturday afternoons. This work is not easy as one must arrange handwork, stories, etc., sufficiently interesting that the girls will like to come rather than go elsewhere. Some retain the earnestness they had before going to the Government schools, but one longs to see them more consecrated to the Lord."

"I praise God for continued health and the privilege of service," asserts Miss Clark in closing. "In Him is strength and power and only as we dwell in Him can we win souls for Him."

Moore and Johnson Are Winners in Beef Trust

DETROIT, February 14 (C.P.). — Texas Moore, 180, Chicago, and Emil Johnson, 190, Whiting Ill., to-day were co-champions from the welter of battle which Olympia Stadium's second "beer trust" carnival brought forth last night.

Twenty-four battlers, all heavyweight with "not too much experience," assembled from at least six states, fought twenty-four three-round bouts for the two $500 purses offered by the management. Ten of the bouts ended in knock-outs, technical or ten-count.

Moore won the championship of the "A" Division by taking decisions over Duane Duncan, 180, Kalamazoo, Mich., Kayo Kitts, 199, Cleveland, and Jimmy Matthews, 165½, Detroit.

Johnson's record was Morry. He took a decision over Bill Cummings, 192, Pontiac, Mich., then knocked out Sergeant Jack Bartowiak, 230, Dearborn, and Billy Rhodes, 187, of Indianapolis , each in the first round.

SIXTEEN CUP TIE GAMES PLAYED IN ENGLISH AND SCOTCH LEAGUES; EXETER DEFEATS LEEDS UNITED

Southport Third Division Club Defeats the Bradford Outfit.

THIRD LANARK WINS.

Portsmouth is Eliminated By West Bromwich Albion of Second Division.

LONDON, Eng., Feb. 14. (C. P. Cable.)—Eight winners turned up in the English Cup Competition matches matches to-day, while seven teams won games in the Scottish cup ties. Eight games were played in both England and Scotland. Winners in England were: Birmingham Chelsea, Wolverhampton Wanderers, West Bromwich, Albion, Everton, Exeter City, Southport and Sunderland. In Scotland those who triumphed were: Cowdenbeath, Bo'ness, Third Lanark, St. Marren, Kilmarnock, Motherwell, and Celtic. Dundee and Aberdeen must settle their differences in a replay.. The feature of the English games was the remarkable success of second and third division clubs. Exeter City, of the third division, who have a proud record in the series so far, added Leeds United to their list of victims, which includes Derby County and Bury. Southport, another third division club beat Bradford, a second division outfit. West Bromwich Albion, a second division club, eliminated Portsmouth, a first division team, while Everton, picked as the ultimate winner of the cup, a second division club, put out Grimsby Town who belong to the senior division.

In England, the match at Stamford Bridge between Chelsea and Blackburn Rovers attracted the largest crowd. It was estimated over 60,000 were present when the game began, among them being thousands wearing the familiar cloth cap of Lancashire. Both clubs fielded their strongest sides. Chelsea blanked the Rovers by three goals. Chelsea played the first half with the breeze behind them and kept the Rovers' defence busy from the start.

Everton, on their home pitch, played and won a free scoring game from Grimsby Town. The result was five goals to three in favor of Everton. Sixty thousand saw the tussle. The homesters took charge at the start amid wildly enthusiastic scenes. Red put up a grand exhibition in the Grimsby goal. Then Grimsby caused consternation when Coleman gave them a lead in the fifteenth minute of play. However, Everton came right back and equalized through Stein two minutes later. Five minutes after this Stein sent his club ahead with a brilliant drive after the ball had rebounded from the post from Johnson's shot. Dean scored a third for Everton in the thirty-eighth minute, but Bestall and Marshall snapped up goals before the interval for Grimsby to knot the count. Everton re-started on the offensive and the Grimsby halves put up a fine defence. Johnson sent Everton into another lead in the thirty-second minute of the half from Thompson's pass, adding a fifth three minutes later from a penalty for a foul on Dean, Everton star centre.

CUP-TIE RESULTS.

Fifth Round English Cup.

Birmingham 3, Watford 0.
Chelsea 3, Blackburn Rovers 0.
Barnsley 1, Wolverhampton Wan. 3.
Portsmouth 0, West Bromwich A. 1.
Everton 5, Grimsby Town 3.
Exeter City 3, Leeds United 1.
Southport 1, Bradford 0.
Sunderland 2, Sheffield United 1.

3rd Round Scottish Cup.

Cowdenbeath 3, St. Bernard's 0.
Bo'ness 1, Ayr United 0.
Third Lanark 4, Arbroath 2.
St. Mirren 2, Falkirk 0.
Montrose 0, Kilmarnock 3.
Dundee 1, Aberdeen 1.
Hibernians 0, Motherwell 3.
Morton 1, Celtic 4.

Results of League football matches played in the British Isles to-day were:

ENGLISH LEAGUE.

First Division.

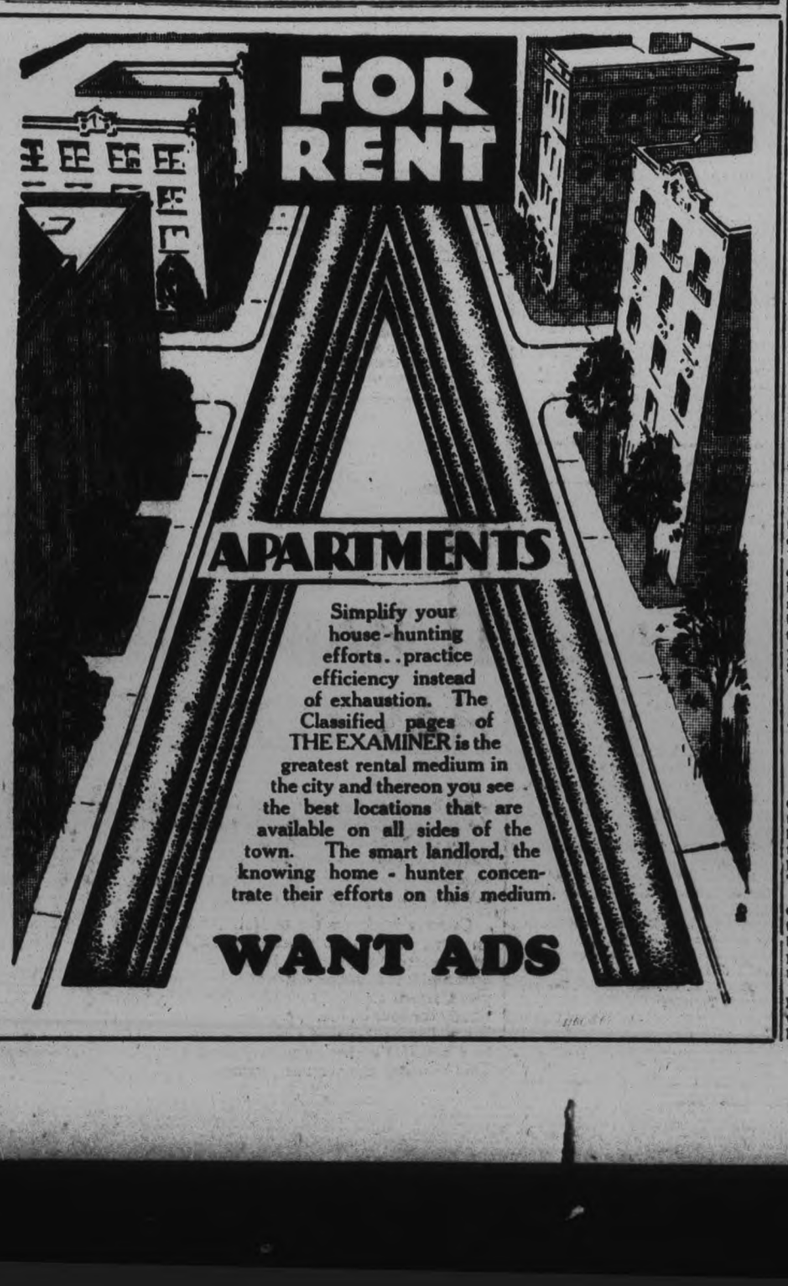
PLAY IS PRESENTED AT MURRAY STREET

"No Account David" is Presented By Dramatic Club of Mark Street.

Mark Street Dramatic Club presented its enjoyable and well-acted play, "No Account David," in Murray Street Sunday School last evening. The play, sponsored by the Mission Band of Murray Street Church, of which Mrs. George Post is superintendent, was enjoyed by a full house. Between acts readings were given by Dorothy and Sylvia Boorman and Ruth Ellis and a quartette composed of Misses Lillian Simmons, Genevieve Foster, Messrs. Fred Ward and Irwin Luther gave a pleasing number. Arthus Collison was accompanist for the evening. The cast was entertained by the members of the Band following the presentation of the play.

If you buy out of town, and I buy out of town, and all our neighbors buy out of town, what in thunder will become of our town? Ever think about it?



WOMEN'S INSTITUTE WEEKLY COLUMN

A goodly thing it is to meet
In Friendship's circle bright,
Where nothing stains the pleasure sweet
Or dims the radiant light.
No unkind word our lips shall pass.
No envy sour the mind,
But each shall seek the common weal,
The good of all mankind.

YOUNGS POINT

At the monthly meeting of the Youngs Point Woman's Institute, the following paper was given: "How to be a friend." by Mrs. Milford Bullock.

"My idea of being a friend is first of all to be friendly, and just one of those kind who, when they meet you, have always a pleasant smile, and a glad, "How do you do,' and perhaps a real hearty hand-shake.

"That helps a lot and many a weary heart has been gladened by just such a greeting.

"But I like to think of the New Year's resolution one of our members answered the roll-call with, at our last meeting, part of which was 'not to be self- centered, an unselfish thought, and I'm sure you will say with me, many live up to her roll-call, and actions speak louder than words.

Now you'll remember Mrs. Wilson's paper on Mrs. Laura Rose Stephens' visit. Well, I have taken part of Mrs. Stephens' address given in the report of 1928.

"Mr. Putman sent me up into the north country; it was the hardest trip I ever had in my life.

"On arriving at a place called Charlton, I was met by the secretary, by whom I was to be entertained. Well, she and her husband had been invited to attend a birthday party, which she felt they should attend. After telling me to make myself at home, they left for the party. The daughter showed me to my room, and I retired early. I heard my hostess come in during the night between three and four o'clock.

I said to myself, "My goodness, she must be some sport."

The next morning when I went down stairs, the girls had gone to school, and there was nobody around. But breakfast was placed on the table. I went to the kitchen, got the teapot, sat down and ate my breakfast.

"I hadn't seen my hostess, though I was sure I had heard her earlier in the morning. But, between nine and ten o'clock she came in and said, "Well Mrs. Stephens, you must think I am a queer woman, but we went to the party, and while I was there, they came for me to go to a neighbor some little distance and a nice big boy came—that was why I came in between three and four o'clock in the morning." "Bur," I said, "where were you after that; you were not home when I got up?"

"Well," she said, "you know there was another baby came last week, down the road two miles, and so I went down with the man that brings the milk, at seven o'clock, to wash the baby, and was back again between nine and ten O'clock after attending to the mother and washing the baby."

Looking after two babies and doing her own work.

Did it for nothing. Glad to help. That is how they are helping each other; now, I call that being a friend.

MRS. KIDD

A paper given by Mrs. Max Kidd, "What I Expect of My Friend."

I expect my friend to give me her love, the kind of love which gives affection without demonstration, but which endures and shines on dark days. The love which endures if trouble, sorrow, or even the shadow of dishonour fall on me.

I expect my friend to be loyal to me and to one friendship, if she hears me speak unkindly or rude. I want her to be the one to administer the needy rebuke. I want her to remember me in her prayers, and whether absent of present, to be absolutely true.

I expect the confidence of my friend. I tell her little things which are strictly private and I have her confidence. Likewise, a friend in need is a friend indeed. I expect my friend to be a companion. I like her to share my pleasures and my troubles, large and small.

I expect understanding of my friend, when trouble-makers try to make trouble between us. I want her to be true, and come to me with the whole affair and let us talk it over, and by our friendship, show the mischief-maker that friendship is a beautiful thing full of mutual understanding.

"Here's to the friend who has a smile for every joy; a tear for every sorrow; a consolation for every grief; an excuse for every fault; a prayer for every misfortune; an encouragement for every hope."

Friendship is one of the most sacred of earthly bonds, and what is more beautiful than the tie which binds friend to friend. "Blest be the tie that binds." God loves the friends that are ready to be of service to others, as shown by the example of the Greatest of all Friends.

CAVAN

Almost every county in Ontario has a household science judging competition for girls each year.

One junior girl, who stood high in one of these contests, asks and answers the question: "Why should we have judging competitions for girls? If they did only one thing bring rural girls from all over the country together for the day, to get acquainted and make friends, which they certainly do, they would be worthwhile, for opportunities are limted for girls on the farm to meet young people outside of their own church and community. But this is just one advantage; they do much more.

The farm girl, who probably has been several years from school, must do some studying if she hopes to win one of the coveted prizes offered at the competitions. She must train herself to think quickly and to condense scattered thoughts into definite reasons, as only two minutes are allowed in the oral examinations in each section.

The girls attending these competitions are gaining a knowledge in nutrition, housefurnishings and clothing, which will show its effect both on the present and next generations. All girls of today are not thinking only of frivolity and amusement.

The winning of prizes is only a small item in the benefits derived from these courses. They will carry with them, to homes of their own, a useful knowledge of household science.

Having learned the requisites of balanced meals and school lunches, which are equally important, they are going to feed the family properly.

Besides balancing the meals, the girls are taught to use, as far as possible, foods produced on the farm. Why use imported foods when home grown fruits and vegetables of equal value are obtainable. Especially is this important at this time, when every effort is being put forth to induce our people to use everything grown or manufactured in Canada, thus helping to give employment to our own countrymen and drive away business depression.

The girls are taught to serve the meals in an attractive manner, and to arrange the home in an efficient and comfortable way. The kitchen is planned to make it possible to carry on the kitchen work with the least amount of walking. Likewise the living room must be pleasing and restful, with its colours and furnishtings in harmony, having comfortable, attractive and durable furniture, in keeping with country life.

The girls of to-day, who have had the advantages of these short courses and judging competitions, are better fitted to fill the position of "homemaker" than were many of the girls of the past generation.

MILLBROOK

"How may we eat for health?" was a suoject of prime importance studied recently at an institute gathering the visiting secretary, who introduced the topic, seeming to have a peculiar knack of inducing the members to enter freely into the discussion following her remarks on this live suggestion.

Through the question and answer method some facts were elicited, such as the food needed to keep the teeth in condition, foods containing calcium in abundance, milk, for instance; and oranges either eaten frequently or squeezed and the juice taken as a drink at least once each day; liver also, and if necessary cod liver oil, though this latter was naturally not looked upon as a popular adjunct to the diet.

However the saving of dentist's bills in any household is regarded as a blessing, and "what shall we say of the woman who wisely wishes to delay the graying of her hair as late in life as possible? Does the right kind of diet have any effect here?

Giving intelligent thought to what we eat certain will help in both these particulars, the members decided, and will likewise keep the skin fair and unwrinkled for many years, produce a fine, healthy color, and have in endless ways the finest of results.

Plenty of exercise in the sunshine each day were advocated, if it only means running to the door as often as possible, during the morning, leaving the work a while, and breathing deeply of the fresh out-of-doors' air. Then with the lungs filled with a fresh supply of oxygen, blues are banished, many trying problems are cleared up, life becomes more rosy, and with new enthusiasm the tasks of the day are accomplished in shorter time, and with more courage and cheerfulness.

Headaches and irritable nerves were mentioned during the discussion, and as a remedy the speaker urged a twelve months' diet of lettuce or some green vegetable eaten raw each day, fruits and vegetables in all varieties possible to obtain, whole wheat bread and muffins, plenty of milk, eschewing tea or coffee almost entirely, meat not more than once a day, and in not too large quantity, with eggs prominent in the day's menu. "And unless there is something really serious wrong with you, I predict at the year's end you will be delighted with how you feel, and how you look. Only don't forget the fresh air and sunshine daily."

Sweets, rich pastries, and cakes were mentioned as not conducive to a fresh complexion; while the matter of the all to prevalent high blood pressure was brought up, it was pointed out that body acids, induced through the eating of meats, eggs, and cereals, must be neutralized by such foods as milk, fruits, and vegetables—the alkaline-producing diet accessories.

WARSAW.

In Norway, the Norwegian country women's organization has been a slow development. The first attempt at an organization of the women was in 1917, in connection with the already existing Norwegian Peasants' Association. Prior to this, there was a Housewive's Association of Norway, started in 1889. These associations each one of which is absolutely independent, self-governing, self-supporting, non-political, were federated in 1915. The annual fee is about 26 cents, but they seem to make their funds stretch. The federation has a twenty-four page periodical published twice a month. About seventy-five per cent of the 160 Associations are rural.

The federation arranges demonstration courses, and lectures on "house-wife days" for local associations. A special propaganda has been made to induce Norwegians to use more milk, fish, and Norwegian produce.

In 1919 the Norwegian Federation joined the Federation of the North, which included Unions of Norway, Finland, Sweden, Denmark. This Northern Federation was represented at rural congresses held at Brussels in 1925, at Lansing in Michigan in 1927, and at Rome in 1928.

The commission on domestic work was set up in 1928, by the oldest agricultural society, the Royal Society for the Welfare of Norway, founded so far back as 1810. This commission works in co-operation with agricultural societies and housewives' associations.

The Norwegian Peasants' Association seems to be in no way connected. Although the attempt was on a very small scale and the work limited it was the first time that the idea that country women should take part in the economic and cultural work of the county, started by the peasants' organization. Not until 1921, after untiring work by a few, was the county women's organization formally founded.

The men's organization was very anxious to have the women's organization formed from the time the idea started in 1917. Their official organ pushed the question of forming women's groups in connection with the men's. Later it was agreed that it might be better to leave the matter in the hands of the women, and a committee was formed for the promotion of the organization of women's groups. Fru Hanna Holt was founder and president of the first women's group. The idea was launched and Fru Olga Bonner, daughter of a peasant farmer, a school teacher, who had herself been a school teacher and married a peasant farmer, was much interested and soon took active part, wrote to the newspapres, and did everything she could to interest the country women and it was through her interest that the first country women's society was formed. Since then more societies have been formed, but there has been a struggle against difficulties and contradictions. In 1924 she addressed her first meeting of country women, and since then has spoken at over five hundred meetings.

The aim of the country women's association is to work side by side with the men, and at the same time to undertake those special tasks which are women's essentially. It helps to find a remedy for unemployment by stimulating homecrafts of all kinds, also by encouraging young people to break up new land in the large areas as yet uncultivated districts of Norway. This is an attempt to teach them to find satisfaction in labor on their own land, in their own country. It aims to strengthen the economic independence of Norway by encouraging the peasants as much as possible to live on the products of their own soil. It does its best to interest young people in the life of the village, and thus try to stop the increasing sendency to leave the country for factory life in the cities.

The Country Women's Association works for the promotion of the moral and spiritual welfare of the home, and for a better understanding between the different classes in the community and between town and country.

It is hard for us in Canada to grasp the difficulties that class makes in most European countries. We admit all men and women are equal, but it is terribly hard for most Europeans to even admit all should have a chance. Of the countries we have so far studied Norway's barriers seem to have been largest stumbling blocks than in any other.

In England, a woman addressing a meeting for women on women's needs, privileges and rights, surprised me by saying: "Of course that does not apply to our servants."

What To-day Means To You

"AQUARIUS"

If February 14th is your birthday, the best hours for you on this date are from 11 a.m. to 12:30 p.m., from 4 p.m. to 6 p.m. and from 11 p.m. to midnight. The danger periods are from 7:30 a.m. to 9 a.m. and from 2 p.m. to 3:30 p.m.

Disturbing astrological influences are predicted for this date, with accompanying unrest and tension. Concentration will be difficult and time and money will be wasted in "pottering." If diffusion of thought and effort can be avoided, other conditions favor advancement and success.

The child born on this February 14th will be obedient, thoughtful, unselfish, dependable, and of little worry to his parents. It will be a methodical worker at school and otherwise, and will take a pride in its work. It will have enough spunk to do its own fighting, although it will prefer peace.

You are introspective, egocentric, and self-centred, and your mind and activities are always focused on yourself and your own particular interests. You catalogue the importance of people and things, according to the amount they benefit you personally. An impersonal attitude is difficult for you to assume, and you are incapable of comprehending the beauties of those things which only exist in the spiritual planes of thought. You are a slow moving, conservative, and ruthlessly ambitious type. Woe be it to him who dares to interfere with the fulfillment of any of your cherished dreams! You know how to be spiteful, and resentment often distorts your judgment and kinder senses. You delight in what you believe is "getting even."

Your great saving grace is an amazing sense of duty. You never let any one down, when duty is pestering your conscience, although you do not always fill its demands with good grace, or a smile. You resent even implied criticisms of your conduct, no matter how guilty you may be. You are you own judge and jury. You snap your fingers at custom and tradition, and it can be truthfully said that you have little sentiment.

For the sake of harmony, you must be "boss" within the home, be you a man or woman. Although you will aim to be fair, it will be difficult for your husband or wife, as the case may be, to talk things over with you, without a display of impatience or temper on your part.

(Copyright, 1931, The Bell Syn., Inc.)

"AQUARIUS"

If February 15th is your birthday, the best hours for you on this date are from 8 a.m. to 10:30 a.m. and from 5 p.m. to 8 p.m. The danger periods are from noon to 2 p.m. and from 10 p.m. to 11:30 p.m.

There will be progress on this date (February 15th) for those of spiritual, artistic or musical temperaments, but more practical types will encounter complications. An undercurrent of enmity will be sensed, coming from a rival. Anything in which the number three or four plays a part will turn out well.

The child born on this February 15th will have a brain very susceptible to education, and a specialized training will not be lost on it. It will be persistent, energetic, ambitious and a go-getter. It will have a friendly nature, and warm affections. It will have a slight tendency to worry.

Your nature radiates both hope and happiness, for your faith in self and your fellow men is strong, and you have learned to be content. You are divinely human, and you are not suffering from "sleepy sickness" of the soul. You, too, have religious faith which to you is a great sustaining comfort. You practice your religion, not preach it. You may not "have the faith that moves mountains," but you have the faith to move upward on any earthly road, when you know you are in the right.

You do not have fixed opinions, but move with the times, and in this respect you are elastic-minded. You are capable of hard work mentally, and you are not easily distracted when engaged in serious study, reading, or work, the rest of the world passes by unnoticed. At work, you are a serious efficient being; at play you are a relaxed, what-does-it-matter being. Religion, science and literature will always be favorite studies of yours. You would make a good instructor, for you have patience, and you can explain things in a clear and simple manner. You would make an excellent school-teacher. You are very competent to work with young people, as you know how to win their respect and confidence.

If you be a woman, you have a real woman's heart inside you, and a real happy home is the best thing in life for you. You will make an intelligent mother, as well as a fond one.

(Copyright, 1931, The Bell Syn., Inc.)

YOU NEED A TONIC

The purpose of a tonic is to tone up the system. A tonic is a medicine for the whole body, not just part of it. A real tonic must work through the blood for the blood reaches everywhere and an improvement in its quality is quickly followed by an improvement in the whole organism.

Dr. Williams' Pink Pills rebuild the blood. Begin their treatment, then look in your mirror and see the result — increased color in your cheeks and lips and added brightness in the eyes. Notice, too, the new spring to your step. These things record an improved tone in the body and if the tonic treatment with these pills is persisted in for a reasonable time the condition of ill-health will be banished.

At this season of the year most people need a tonic. Why not take the best. Begin your tonic treatment to-day with Dr. Williams' Pink Pills. They are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Appointments Made By Douro Council

DOURO, Feb. 14. (Examiner Correspondence.)—A number of appointments were made at the February meeting of the municiapl council of Douro held on Monday. Albert Moher was appointed assessor at the same salary of $80, and postage; James Leahy, caretaker of the hall at a salary of $10.

The council is receiving applications until February 16 for the position of township clerk. Howard Quinn was appointed temporary clerk.

The wage rate for 1931 was set at $4 per ten hour day, for a man and team and $2 per ten hour day for a man.

The following accounts were ordered paid: Dan. Maloney, $27; Municipal World, $11.72; F. D. Leahy, $8.50; G. G. Connell, $2; P. G. Fathing, $13.73; Charles Boulton, $29; M. Condon and Oliver Douglas, auditors, $12.50 each. Sundries, $2.36.

The clerk was authorized to have fifty copies of the auditor's report printed for distribution.

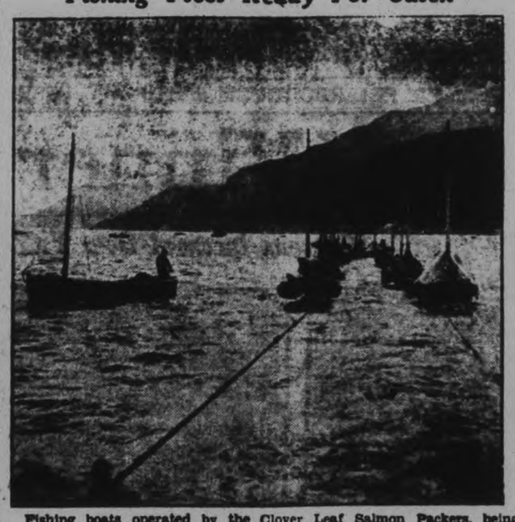
CHEST SORENESS YIELDS... to a "counter-irritant." Though called for treatment with one application, Musterole is most effective when applied once an hour for 3 hours.

MUSTEROLE

Cook's Regulating Compound

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, $1; No. 2, $3; No. 3, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Pamphlet. Address: THE COOK MEDICINE CO. TORONTO, ONT. (Formerly Windsor)

Fishing Fleet Ready For Catch



Fishing boats operated by the Clover Leaf Salmon Packers, being towed to the fishing grounds on the Skeena River, B.C. When the catch is made it is rushed in bargees to the nearest cannery thus insuring freshness.

OBITUARY

ROBERT MCLAUGHLIN.

STIRLING, Feb. 14. (Examiner correspondence.)—The death occurred in Belleville on Sunday morning of Robert McLaughlin, aged 54 years.

The late Mr. McLaughlin, who was the champion cheesemaker of Ontario attended to his duties last week, but was taken suddenly ill and he went to Belleville General Hospital where he had a blood transfusion, but he failed to regain in health. He succeeded in winning the silver cup for cheesemaking three years in succession, emblematic o the championship.

The late Mr. McLaughlin was born in the north of Ireland and was a member of the United Church and a Free Mason.

There are left to mourn his loss, his wife and one daughter, Mrs. W. Otto, of Colbourne.

SAMUEL ARMSTRONG

The death occurred Friday afternoon of Samuel Armstrong at his home, near Indian River, Otonabee Township, after an illness of 13 weeks. The deceased was 70 years of age, and lived in Otonabee all his life. For over thirty years he was interested in the opening of the "block road" and had the satisfaction last year of seeing the Department of Highways adopt that route as a provincial highway, east of Peterborough. Mr. Armstrong was also deeply interested in the affairs of Peterborough and Otonabee Counties. He was a supporter of his church, and was for many years superintendant of Bethel United Church Sunday School.

The late Mr. Armstrong is survived by his wife, one son, P. P. Armstrong, one daughter, Helen, all of Otonabee, two sisters, Mrs. Wm. Knox of Peterborough and Edith of Victoria, B.C., and three brothers. Fred of Peterborough, Bert of Toronto and John of Victoria.

The funeral will take place from the family residence at 2.00 p.m. on Monday. Interment will be made in Little Lake Cemetery.

DANIEL McGEE.

STIRLING, February 14 (Examiner Correspondence). — Stirling lost one of its grandest old citizens on Friday morning last when Daniel McGee passed away. Although 94 years of age, he had been in splendid health until two weeks previous, when he developed a cold and contracted pneumonia. Mr. McGee was born in the Emerald Isle, in the County of Antrim, near Bush Mills, in December, 1837, coming to Canada when 20 years of age. He settled near Stirling on a farm for some time, then worked on the railway section for twenty years. He possessed all his faculties with the exception of hearing, which was slightly impaired.

He walked down town every day for his mail and was always up to the minute in current events, and prepared for a keen argument. Mr. McGee has watched Stirling grow from a hamlet 70 years ago to what it is to-day. He remembers when it was nearly all woods with a few scattered cabins. He rarely missed an Orange celebration, and was a devout Presbyterian and a staunch Conservative. He is survived by two daughters and four sons, Mrs. Levi Rupert, Brewerton, N.Y., Mrs. Tom Spry, Stirling, Tom McGee, Belleville, Sam McGee, Tweed, and John and Archie of Stirling. His wife predeceased him on August 5, 1922, and four children have passed away besides.

The funeral service was largely attended, with Rev. A. N. Reid, M.A., in charge. The pall-bearers were six nephews, Archie, Thomas, John D., Andrew, John E., and George McGee.

WILLIAM G. BASSETT.

MADOC, Feb. 14.—Examiner Correspondence.)— The funeral of the late William George Bassett, who died on Monday, Feb. 9, suddenly, following a stroke, at the age of nearly seventy-two years, took place from his late residence on Durham street, on Wednesday afternoon, at half-past two o'clock.

Rev. G. W. Rivers, of Trinity United Church, had charge of the service after which interment was made in Lakeview cemetery.

Besides his widow, he leaves three sons, Edward of Trenton, Gladstone of Port Hope, and George of Madoc; and three daughters, Annie, (Mrs. Wm. McBain) and Laura, (Mrs. Geo. Stringer), of Madoc, and Muriel, (Mrs. Roy Carleton) of Ottawa, and several grandchildren. Another son, Lorne, was killed in the Great War.

Twin lambs were born recently to a ewe at Auchabrick, Scotland.

Society Hears Talk On French Explorer

St. Andrew's Guild at Stirling Holds Regular Literary Meeting.

STIRLING, Feb. 14. (Examiner correspondence.)—Mrs. Roger Meiklejohn acted as leader at the literary meeting of St. Andrew's Guild held on Monday evening, when Lorne Anderson read the scriptural lesson and after a duet by Mrs R. Eggleton and Miss Smith, E. Spinks, Honorary President, gave a most interesting talk on "Champlain."

"Samuel De Champlain was born in 1570 and was married in 1610, dying in 1635. Before he was twenty, he had obtained a competent knowledge of Navigation, astronomy, geography and map drawing. He made twenty trips across the Atlantic, requiring from 3 to 6 weeks for each voyage. The chief reasons for his work in Canada were four in number—He wanted to extend the Kingdom of France; he wished to find a route to India through America; he wanted to establish free trade in furs, timber and minerals; he wished to extend the religion of France.

The Indians among whom he worked were fond of war, barbarous and treacherous. Champlain married Helene Boulte who was only 21 years of age at the time and she remained with her parents for two years, however, while Champlain carried on his schemes of colonization.

The taking of Quebec was a heavy blow to Champlain. His explorations organization and the holding of numerous savage tribes in friendly relations were the foundations upon which was built the fine Dominion which stands to-day.

Champlain was admired for his determination and constancy in following up enterprises; his firmness in danger and courage in face of disappointment and for his ardent and unselfish patriotism. He was without contradiction a man of merit and may well be termed, "The Father of New France."

Marmora Institute Plans Sewing Course

Mrs. D. E. Bell is Pleasing Hostess at February Meeting.

MARMORA, Feb. 13. (Examiner Correspondence.)—Mrs. D. E. Bell, vice-president of the Women's Institute entertained the members for the February meeting held at her home on Wednesday evening, when the attendance was one of the best of the season.

The roll call was 'My Favorite Gem,' and the responses were good. During the business session it was decided to apply for the sewing course to be held at the beginning of March.

The program which was in charge of Mrs. Thomas G. Kerr, and Mrs. F. Johnston opened with a duet, "Kathleen Mavourneen," by Mrs. W. A. Sanderson and Miss M. Brown and Miss Margaret Johnston afollowed with a reading "The Freckle-faced Little Girl," Mrs. W. H. Litt and Miss H. Taft played a pianoforte duet "Laughing Water," and Miss Hilda Thomson gave a reading, "The Telegram," and Mrs. F. N. Marett discoursed on current events. A contest "In the Zoo," was won by Mrs. W. E. Gould.

Lunch was served following the program. The next meeting when the men will be entertained, will be at the home of Mrs. W. J. Pack and the program will be in charge of Messrs. E. C. Prentice, D. E. Bell, H. W. Sabine and W. A. Sanderson.

Mr. Edwin Scott has returned from Peterborough where he has been for several weeks.

HAVELOCK.

The members of Our Lady of Mount Carmel entertained at a progressive euchre party at the home of Mr and Mrs. Frank Voyer, on Thursday evening, when nine tables were played. Mrs. B. B. Veale was awarded first prize for ladies' high score and received a lovely set of embroidered bath towels. Mr. B. Veale won gentlemen's prize for high score.

The consolation trophies were carried off by Mrs. L. Breen and L. Chiles. A sumptuous lunch was served by the ladies of the parish at the conclusion of the games.

HOME TOWNERS

Tidbits, Interesting and Humorous CAMPBELLFORD

CAMPBELLFORD, Feb. 14. (By Examiner Staff Correspondent). The Campbellford Cloth Company has been running to capacity this week and it seems good to see the wheels of industry turning more quickly in town. It is understood that a large order of automobile upholstery is causing the increased activities.

Mr. and Mrs. Arthur Graham have as their guests Mr. Finley and baby daughter Jean, of Brockville.

Mr. and Mrs. T. J. Craighead were visitors to Belleville on Thursday.

Mr. and Mrs. Harold Spencer have had as their guest for the past week Mrs. Herbert Spencer of Rylstone.

After spending a week with her daughter, Mrs. J. S. Whitehead Stirling Mrs. A. Hay has returned to her home here.

A very pleasing function was held on Wednesday afternoon, when Mrs. H. T. Scott, assisted by Mrs. Ernest Craighead, was host to a number of friends and neighbors in honor of Mrs. J. P. Innes of Arcadia Valley, Alberta. Mrs. Innes, who is a former resident of this district, has been wintering in the east, and was happy to meet old friends and acquaintances.

Miss Verna Roberts Reads Meeting Topic

CLARINA, Feb. 14.— The regular meeting of the Carmel Women's Association, of Clarina, was held recently at the home of Mrs. David Drain, the president, Mrs. Walter Crowe being in charge of the devotional period.

The secretary, Miss Nellie Bullock, called the roll and following a short business session, Miss Verna Roberts read a very inspiring topic, "Living the Full Life."

Miss Emily Drain will give the topic at the next meeting.

At the close of the meeting, a jolly period of music and singing was indulged in while the hostesses, Mrs. D. Drain, Miss Emily Drain and Mrs. Alvin Drain prepared lunch.

District Notes.

Miss Christina Roberts, of the Lakefield High School, spent the week-end with her mother, Mrs. Grant.

Mrs. Robert Lloyd has returned home after spending a few days with her father, Mr. Barr, of Cottesloe.

The many friends of Mrs. John Drain will be pleased to learn that she is improving in health.

Mr. Walter Crowe shot a wolf recently.

Miss Emily Drain is spending a few days in Warsaw the guest of her brother.

WARKWORTH

Mr. William Martin of Havelock is spending a few days with his father, John Martin, who is ill.

Mrs. George Cockburn is spending two weeks with relatives in Toronto.

CHRIST CHURCH Y.P. ELECTS OFFICERS

H. Cubitt President — Seven Cent Social to be Staged on Tuesday.

CAMPBELLFORD, Feb. 14. (By Examiner Staff Correspondent) The weekly meeting of the Young Peoples' Club of Christ Church, held on Wednesday in the Parish Hall, Campbellford was featured by the election of officers for the year 1931.

This resulted in the following slate being named: President, H. Cubitt; vice-president, Miss Viola Fraser; secretary-treasurer, E. H. Lewis; convenors of committees, entertainment, Mrs. A. Hollings; sick and visiting, Miss Florence Nightingale; refreshments, Mrs. M. H. Sergeant, Sr. The president was authorized on motion to choose the convenors of his own committees.

The matter of erecting a monument over the grave of the late Clifford Drew was discussed but no action taken, it being left to the new officers to decide upon.

Arrangements were made for a Seven Cent Social to be staged on Tuesday, February 17, the same to be held in the Parish Hall. This will be the last social function before Lent.

It was the wish of the meeting that a challenge shield be purchased for the Boy Scouts. This was discussed and agreed upon.

EUCHRE PARTY IS HELD AT BETHANY

Successful Social Events Held Under Auspices of Women's Institute.

BETHANY, Feb. 14. — (Examiner Correspondence).—The last euchre party of the season sponsored by the Women's Institute was held on Wednesday evening when thirteen tables of euchre were played when the following won prizes: Lucky number, 1st, ladies, Mrs. W. Hanna; 1st gents, Dr. Clark; consolation awards, lady, Miss M. Strong; gent, Gordon Strong. Lady, 1st prize for greatest number of points during season, $1, Miss M. Magill; gents, 1st prize greatest number of points for season, Lou's Magill.

Lunch was served and dancing was enjoyed, music being furnished by the Eighth Line Orchestra. The proceeds of the entertainment amounted to $17.75.

CARNIVAL DRAWS MANY CONTESTANTS

Warkworth Arena is Gay With Varied Costumes For Annual Event.

WARKWORTH, February 14 (Examiner Correspondence). — Despite the cold weather the ice carnival was held in the Arena on Wednesday night and all the events were run off and prizes awarded. Messrs. W. A. Kelly, G. A. Dawe, and Dr. H. S. Allen had charge of all arrangements. The judges were Mrs. J. W. Mowat and Mrs. W. B. Baker.

W. Gordon; Girls' race, under fourteen, Jean Gordon; Boys' race, under fourteen, Allen Buchanan, Elmer McKee; Partners' race, Alice Allen and Percy Campbell. The prizes for the above event were donated.

If BABY HAS COLIC

COLIC comes suddenly. Your first intimation that something is wrong may be a warning cry in the night. If you have a bottle of Castoria handy you needn't worry, for a little of this pure vegetable remedy will soon have baby his happy self again; let him go back to sleep.

Castoria is always the sensible thing to give an ailing child. When a child is restless, fretful, with coated tongue, bad breath and lack of appetite, it is a mother's standby. Most mothers give Castoria an important place in their homes. Ready for sour stomach, constipation, or upset. When buying Fletcher's Castoria always look for Chas. H. Fletcher's signature on the wrapper. This identifies the genuine product.

Kiwanians and their guests who were present at the Ladies' Night held last evening in the Empress Hotel included President and Mrs. John Allen, Mr. and Mrs H. Huffman, Mr. and Mrs. Chas. Cook, Mr. and Mrs. C. F. Cumming, Mr. and Mrs. Ivan Lillico, Mr. and Mrs. Carl S. Browne, Mr. and Mrs. H. J. Boyle, Mr. and Mrs. Al Sharpe, Mr. and Mrs. Harry Campbell, Mr. and Mrs. Thos. Mark, Mr. and Mrs. W. P. Blackmore and Mrs. Stout, Mr. and Mrs. H. McCannan, Mr. and Mrs. L. J. Pettit and Miss Shirley Pettit, Dr. and Mrs. G. Ray Scott, Mr. and Mrs. Fred Brown, Mr. and Mrs. E. V. Morphet, Mr. and Mrs. W. H. Freel, Mr. and Mrs. M. Bredin, Mr. and Mrs. Gray Copping, Mr. and Mrs. Ev Taylor, Dr. and Mrs. J. J. Craig, Mr. and Mrs. F. Stinson, Mr. and Mrs. J. A. McKone, Mr. and Mrs. J. J Turner, Dr. and Mrs. F. C. Neal, Miss Bertha Hill, Miss Cathleen McCarthy, District Governor I. McNabb, Jack Hall, H. Cranford, J. W. Fraser, Laurie Mitchell, J. W. Meyers, A. Barton, J. Skinner, the Rev. J. D. Paterson. The guests who motored from Oshawa to join their brother Kiwanians included Messrs. Ab Cox, Ernie Kay, Bill Bowden, Bill Jones and Roland Virtue.

• • •

Mrs. W. Gatfield, Reid Street, loaned her home for a very successful and enjoyable Valentine Tea on Thursday afternoon, under the auspices of the Volunteer Bible Class of Knox United Church Sunday School. The guests were received by Mrs. Gatfield, assisted by Mrs. Watson, teacher of the class. The rooms were prettily decorated in appropriate colors, with bowls and vases of spring flowers. The tea table was lovely with a lace cloth and central silver basket of daffodils draped with tulle. Silver bud vases held spring flowers. Mrs. J. Morrison poured tea, and tea-room assistants were Miss Mary Wallace, president of the class; Miss Pearl Finnie and Mrs. T. Wallace. A pleasing program consisted of instrumental piano solos by Misses Margaret and Marjorie Sproates and Miss Muriel Wilson.

• • •

The Peterborough U.F.O. held a very enjoyable dance in the Conservatory of Music Hall on Thursday evening, attended by about two hundred people. The hall was attractively decorated in Valentine colors, with pretty programs of hearts and cupids. Jack Marshall's Orchestradians furnished excellent music for dancing. Delicious refreshments were served. The novelty prize dance was won by Miss Jean Gillespie.

• • •

The Social Club of the Canadian Department Stores held a Lucky Friday Valentine dance last night in the Banquet hall of Austin's Tea Rooms. About seventy-five people were in attendance for a jolly evening, with excellent music furnished by Mose Yokom and his orchestra. Decoration were carried out in red and white and a number of novelty dances were included in the program. Prizes were won by Miss Marion Carroll and Mr. Cyril Carroll. Arrangements were in charge of a committee headed by Mr. H. Turvey and Mr. George Hildebrandt. Among those present were the Misses L. Carroll, I. Hogan, M. Carroll, E. Hemphill, B. Fowler, A. Murphy, N. Smith, E. Trotter, H. Houghton, B. Payne, A. Grierson, B. Grierson, J. Clagcy, G. Doyle, A. Crary, D. Marshall, M. O'Brien, P. Magee, H. Blade, D. Patterson, Messrs J. Weyer, C. Carroll, J. Collins, E. Fowler, B. French, J. C. Hall, Hetherington, Butcher, Wemsley, Hodgson, Bruce, Yeates, McGrath, Harrigan, O. Murphy, J. Nasmok, W. Allen, B. Austin, Lundy, G. Roycroft, F. Douglas, H. Masterson, F. Stanley, H. King, J. F. Kirkcaldy, A. Gamble, W. Crary, Pick, F. Fowler, S. Crawford.

• • •

Members of the Causerie Francaise were hostesses yesterday afternoon in the studios at the Conservatory of Music for the program of the Lyceum Women's Art Association. In the absence of the president, Mrs. W. Blackwell, who is suffering from a severe cold, the chair was taken by Mrs. F. C. Neal, and Madam Goulet gave a very interesting paper, which will be amplified further on Monday, impressions of "Artistic Books of France." Tea was poured by Mrs. Homer Meyers and Miss Linden Hall, assisted by Mrs. G. E. Porter, Mrs. L. A. Potvin, Miss S. A. Tomkins, Miss Annie Wood and Miss Mamie McCarthy. Mrs. H. E. Connelly was in charge of refreshments. The table was covered with an exquisite large cloth of pure white linen, embroidered in a floral design and inset with filet lace. There was a low bowl of green glass in the center, filled with red tulips and tall paper white narcissus, and red lighted tapers were in holders of green glass.

• • •

Over four hundred people attended the annual At Home last evening of the Normal School, when the president, officers and members of the Peterborough Normal School Literary Society entertained the students and their friends. The decorations were very attractively carried out with streamers of red and white, the pendant hearts and figures in quaint costumes of long ago carrying out the traditional ideas of the Valentine season. The guests were received by the principal, Dr. J. A. Bannister, and Mrs. Bannister, the dean, Miss MacVannel, and the officers of the Literary Society, Miss E. Cronk, the president, Miss C. Helson, the secretary, Mr. W. Found, the vice president, Mr. C. Stephens and Mr. L. Wiseman. Then a short program was presented in the Assembly Hall, when Miss Eleanor Cronk, the president of the society, in a bright address that won the hearts of her audience, welcomed the guests and expressed the appreciation of the students for many kindnesses received from the citizens of Peterborough and in particular for the efforts made by the churches in making them feel at home here. She also thanked the Critic Teachers for their sympathetic criticisms and helpful advice. Then followed a very pretty old English dance done by eight of the girls and a piano duett, the overture, "Poet and Peasant," was given by Miss May Pollock and Mr. Tom Allen. After a short address by the principal, Dr. Bannister, expressing a welcome to the guests from the staff, a burlesque pantomime, "Lochinvar", was ably presented and received with generous applause. Refreshments were then served in the library and the remainder of the evening was spent in games and dancing.

• • •

Mrs. W. Blackwell, president of the Women's Art Association, is confined to her home on Benson avenue with a severe cold.

• • •

Mr. Alex Runnett celebrates a birthday anniversary today.

• • •

Mr. and Mrs. Simon Perdue of 695 Stewart street celebrated quietly yesterday the fifty-fourth anniversary of their wedding.

• • •

The second Relief dance of The Examiner Social Club will be held on Tuesday evening next in the hall of the Canadian Legion. A notable program in honor of Mardi Gras will be presented. Mose Yokom's orchestra will furnish the music.

• • •

A very successful Valentine social was held in Park Street Baptist Sunday School hall last evening. The hall was beautifully decorated in Valentine colors and novelties and a very enjoyable social evening was spent in games and contests. A splendid program arraigned by Mrs. W. Townsend and Mrs. J. Lether consisted of vocal solos by Mr. E. Humpage Mr. H. Hodson, Mr. Trotter and Mr. W. Parr, readings by Miss Isobel Young and M. Goodwin, piano solos by Miss Geraldine Campbell and Mr. Hotson, harmonica selections by Stewart Young and whistling solos by Mr. Hotson. Mr. C. Lapp acted as accompanist for the evening. Delicious refreshments were served by six young girls of the congregation, dressed in Valentine costumes: the Misses Martha Sambs, Ruth Reader, Dorothy Pearse, Jean Rutherford, May Bodly and Marjorie Lether, with Mrs. George Glass as general convenor. Mrs. S. Sanders was in charge of the decorating. A very pretty candy booth where toothsome sweets might be purchased at reasonable prices was in charge of Mrs. J. Pilling and Mrs. A. Scott.

The annual dance of the Friday Night Supper Club of the Young Men's Christian Association, held last evening in the hall at the Conservatory of Music, was a very successful event of Friday the 13th. There was a large attendance for the jolly dance splendid music for which was supplied by Mowry-Steer and their Silver Collegians. An energetic committee, headed by the president of the club, Mr. L. Killaly had charge of arrangements. Patrons and patronesses were Mr. and Mrs. C. A. Salmonsen, Mr and Mrs. W. A. Richardson and Mr. and Mrs. G. H. Roper. Mr. Salmonsen briefly, welcoming the guests. The prize for the spot dance went to Miss Irene Mark and Mr. Arnold Reynolds. Among those present were Mr. and Mrs. C. A. Salmonsen, Mr. and Mrs. W. A. Richardson, Mr. and Mrs. G. H. Roper, Mr. and Mrs. A. Hill, Mr. and Mrs. J. M. McKenny, Mr. and Mrs. J. B. McCarthy. the Misses Mildred Mcffner, Patricia McClellan, Betty Hopwood, Lilliam McClellan, Anne Heideman, Gwen Dobbin, Agnes Fife, Audrey Williamson. Irene Mark. Roper, M. Ruiter, G. Robertson, Jerry Duffus, F. C. Stannard, L. Killaly, J. E. Parson, J. D. Howson, Terry Hall, Dr. Ralph Honey, G. Breckenridge, D. McFadden, Alan Heideman, J. Dobbin, Richard Williams, Carl Banks, R. Beal, Ken Weldon, Cecil Wainman, Bob Darcy, M. Comstock, K. McElroy, B. McKone, M. Robinson, G. Barnes, A. Goheen, Don White, Ted Borbridge, Jim Turner, J. Richardson, J. Dunkerley, L. Sorby, M. Chenhall, Albion Lord, Neil Gemmell, Pete Gordon.

FASHION SERVICE

A good looking dress of printed flat crepe silk that assures such entire satisfaction for all-day wear.

The cross-over lines of the bodice and the sleeve frills lend a complete softness to it. The contrast introduced in the neckline bands, give it a smart individuality.

Style No. 2945 is designed for sizes 16, 18 years, 36, 38, 40 and 42 inches bust. Size 36 requires 3½ yards of 39-inch material with 3-8 yard of 35-inch contrasting.

Plain crepe silk is equally attractive for this model with self-material trim.

Patterned and plain crepy woolen and wool lace would be lovely for its development.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

Maybe some of you received pieces of rare or your favorite china for Christmas—I know many of you did—maybe it was just a plate or a cup and saucer, but nevertheless it gave you much enjoyment to receive an addition to your collection.

• • • • • • •

This choice of tableware whether it is genuine china, semi porcelain or crockery is a matter to be given careful consideration. The style and color scheme once set must be adhered to in replacing pieces and in adding accessories to go with a set.

• • • • • • •

In many homes there are several sets and variety is insured. This may not mean extravagance for almost every household has some set that is an heirloom and such a set should always be supplemented by another one of your personal choice.

• • • • • • •

If one wishes to be able to have one set do for all color schemes there are two kinds of sets that lend themselves to such plans. One is the plain white set and the other the gold and white. Both of these make an attractive glistening table.

• • • • • • •

Of course it should be needless to say the plain sets should be of fine ware for in them the tone of white is of great importance.

• • • • • • •

Shapes of dishes are also significant since it is by these two features, color and shape, that beauty is found.

• • • • • • •

Table service may be costly or cheap. Some of the hand painted china is enormously costly—prices for a single piece amounting to high figures—but in thees articles the ware is of the highest grade as well as the decoration, both combining to lend beauty and the color gives keynote for table decoration.

• • • • • • •

Decorations that have more than one hue are adptable to color schemes. Green and white accord with various scheme, the hue indicates an immediate note of color, but it is one that harmonizes with all others. Pink too, is a favorite color and on that dainy to accent in table decoration. The lovely bridal wreath pattern has long been loved by all.

• • • • • • •

However, it is wise to see that some other color is included in the decoration for it is monotonous to always have to encounter the same color.

• • • • • • •

I think it is a lovely custom to remember Christmas and anniversaries with pieces of lovely china—I know of several women who have complete sets contributed from time to time by their various friends.

• • • • • • •

If a memo is kept it isn't hard to remember what piece you gave last time and so are guided about the present giving.

WONDER of wonders, though, is that the Fanning Laundry actually saves you money in the long run. And is actually easier on your clothes. More and more housewives are making this glad discovery.

TYPHUS SLAYS THOUSANDS IN SOVIET CAMPS

Escaped Convict Says Men Sent to Arctic Without Trial, Live Like Rats.

FEELING BRITAIN.

(By Henry Somerville, Special to The Examiner, Copyright, 1931)

LONDON, Feb. 13.—The question of alleged slavery in Soviet lumber camps is arousing growing feeling in Britain. The feeling is not all on one side.

The Manchester Guardian, which is traditionally champion of humane causes, is opposed to any invidious action against Russia and it denounces those Conservatives who are now making capital against the Soviet, though they have never raised their voice against slavery in Abyssinia and Liberia. The Guardian does not deny that forced labor is employed in Soviet lumber camps, but it does not admit that forced laborers are as numerous as alleged by opponents or that they are treated so atrociously.

Harry Sachet, writing in The Guardian, says that the Russians would regard the foreign boycott of Soviet lumber as an attempt to wreck their experiment in Socialism. Sacher used to be a member of The Guardian staff prior to taking up Zionist work in Palestine. He visited Russia last summer and his version of affairs is that the bulk of lumber workers are free and enjoy relatively good conditions.

Those who take another view of the question liken their protests to Wilberforce's campaign against slavery.

Reverend Prebendary Gough says: "Our fathers had no political motives when they worked for the liberation of West Indian slaves and a like feeling should move us if we are to be worthy of their inheritance."

Produces Affidavits

Commander Bellairs, M.P., has just produced nine affidavits from escaped prisoners. They speak of men sentenced without trial to labor in the arctic zone. They live in shacks hastily built by themselves. The floors are bare earth and are virtually blocks of ice; there are no proper roofs and there is no heating except the prisoners' own breath. The prisoners sleep on planks and the quantity of lice is terrifying. Typhus slays tens of thousands.

It is a daily occurrence, affidavits say, for human beings to be frozen at forest work. Working hours are from five in the morning until eight in the evening in winter. Those who fail to complete their allotted tasks are thrashed and get reduced food rations.

The slaves include lads of fifteen. There are 29,000 slaves in the Solovetsk Islands, continues the statement, adding that 10,000 died there last year from typhus.

The public is unable to test the truth of these allegations, but the Anti-Slavery and Aborigines Protection Society, associated with the Howard League of Penal Reform, is undertaking an enquiry. Work will be done by Sir Alan Pim, who has held high governmental position in India, and Edward Bateson, who was Judge in Egypt. They will be assisted by Lieutenant-Commander Fletcher, who has a good knowledge of Russian language and people. That the Soviet will provide facilities for enquiry is very unlikely.

That Body of Yours

By James W. Barton, M.D.

SOME FOODS CAUSE TROUBLE IN THE SYSTEM

I often think that readers must grow tired of reading and hearing so much about foods.

One health writer will advise that meat be omitted from the diet if one wishes to be healthy and strong. He advocates a strict vegetable diet. In opposing this idea another writer shows that polar explorers and the Eskimos live entirely on meat.

Other writers will point out the mistake of not having plenty of rough or raw foods every day, whilst still others will show that these rough foods are not only completely digested by the body, but can be a source fo irritation to the whole intestinal tract.

Now what about food. Is it possible that what is good for one individual may be a source of trouble or distress to another?

Yes. There is no question but that different individuals handle the same foods differently, and that some foods can be the cause of intestinal disturbances, skin irritation and other conditions in the body.

Drs. R. F. E. Stier and G. Hollister, Spokane, Washington, after a close investigation "are convinced that food is responsible for many of the common complaints of patients. Many new conditions are continually being shown as due to'sensitization' or irritation by different food stuffs. Foods were responsible for the production fo symptoms in about 70 per cent of the cases studied. Based on sound reasoning the logical thing to do is to test out cases by means of skin tests, a glycerine-salt extract of the particualr food that is suspected of causing, the trouble."

As you know, good everyday foods such as tomatoes, potatoes, and raw fruits, can cause an intestinal disturbance and skin irritation, in many people.

The majority of people can eat practically everything without trouble, but there are many people who suffer with hives, eczema, cankers in the mouth pain in the stomach and intestine, the cause of which could be directly traced to some food or foods they are eating.

So if you have a skin that becomes itchy or irritated after eating, or you have abdominal distress of any kind, try and figure out just what particular food may be the cause thereof.

Our Mail

Conducted by ANNE WILCOX

Dear Anne:

Have we all been so busy with the aftermath of Christmas and New Year's Day we have no thought of you?

I wonder how you think up interesting subjects every day. I save my Christmas cards and letters for one year and then discard the letters, use the cards for Christmas cheer decorations, and send the remainder where at the time I think they will be needed. I save the linings of the envelopes and send them where children or sometimes grown ups can use them. Generally before the next year is up we hear of cases of need where cards and pretty pieces of paper and some old magazines would likely add a little cheer to the necessities. Just keep our eyes open and it is astonishing how often we can find some one who can make good use of these little things.

Anne lately I have been thinking very much about the great depression and the cause and cure. My husband and I have wondered for some time where the mode of living would end, and how long the country could stand it. People must keep up with the Jones, must have expensive cars and use them constantly even to morigaging their homes, the candy stores are numerous tobacconists have a big trade, movies are well attended, and these things all demand ready cash.

Wages have been big and hours shorter. Reasons supposed to be that people could better themselves but Satan finds mischief for idle hands and there has been a thoughtless expenditure with no thought to save. Expenses have climbed because they were extravagances. An easy job with lots of money and little work one hears on every side. Work badly done, the clock watched for the moment to stop, 'In the sweat of thy face shalt thou eat bread' is not true, there is no motion of sweating or even perspiring a little With it all there has been relatively little giving. The crash came!

Perhaps I am wrong all through but it does seem that we are cursed with a curse as Malachi said of Israel. A dear old English lady who often honors me by writing says our land seems cursed, pray God the people may turn to Him, and He will remove the curse.' She is a great student of politics and she seems right.

The wild rush for something amusing, something exciting takes too much out of people. Honest work, reasonable amusements and recreation with a realization that it is not get all we can but give all we can, not to the least we can but the best we can, not live for recreation but use recreation that we may better live.

Remember we are only stewards and a just accounting of all our gifts will be made. If we have nothing else each one of us has all the time there is. Let us make the best use of it we can.

Please do not think I object to fun. No one likes good wholesome fun, amusements, dancing, skating anything in the recreation line better than I, but not enough of it to pall, for it is only the tired toiler in body or mind who can rest.

Sincerely yours,

QUID EST.

I am sure, Quid Est, all of our readers will enjoy your letter just as much as I have. This depression does seem appalling and just now there seems to be a blank wall facing us, but we are very thankful our city is not suffering like some.

• • •

Dear Anne:

Thank you for the kind invitation to write you again. The minute I finished reading your interesting article including the generous invitation to each to write you I laid down the paper and started this letter. Many of us might well have written to express our enjoyment of your very worthwhile articles on such interesting and varied subjects.

You ask 'In what light do you consider work?' You seem to answer according to my idea in another paragraph. 'Work is wholesome privilege something no normal person can exist without and not deteriorate both physically and mentally.'

Consulting the dictionary for the exact meaning of the word we read 'work, effort directed to an end; the result of work; that on which one works; anything made or done, etc.'

Needless to say there is endless variety of occupations included. Much enjoyment will be found if we looked at our daily work in the right light in fact one has only to be ill—laid aside for a time unable to do anything to find that one would ask for no greater pleasure than to perform some little homely task. And what real pleasure can be found in making things, it may be a pretty dress, a piece of embroidery, a lovely picture, a loaf of bread, a delicious cake! And to make a success of whatever we undertake to do gives us much satisfaction.

In times of stress or trouble it is true it seems about impossible to get to work but when we go to work, get the mind on something else and immediately the load of trouble becomes lighter—work is our salvation. We find that after all we can live and work and soon find enjoyment in life.

Relaxation, rest, change and a certain amount of entertainment we must have to avoid the strain and disastrous results of overwork but the greatest pleasure of all will be found in work. An old person who has led an active life and in later years is not allowed to do any useful work really suffers as a consequence.

Everyday Anne we look to see if there are any letters. I wish Reed Pearls, Ruralite, and others would write a letter on handicrafts in which some might be interested. We do not always accomplish all we plan.

I sincerely hope you will be fairly 'snowed under' with letters. Again thanking you and with wishes for a busy and therefore happy New Year.

Yours truly,

C. C.

Thank you, C.C., it is quite a long time since we enjoyed reading a letter from you. Strange Reed and Quid Est happened to write somewhat along the same lines. As you say, no matter how much we grumble sometimes about what we have to do, we certainly welcome work after being laid off or away from it for a time. Do come again soon with your letter on handicrafts.

Anne Wilcox

PHILIP L. ALLSON DIES AT HIS HOME

Deceased Has Had a Very Wide and Distinguished Career as Mechanical Engineer.

27 YEARS IN CITY.

After a brief illness Prilip L. Allison, who has been a prominent and much-respected citizen of Peterborough for twenty-seven years, passed quietly away at his home on Weller Street early this morning. The news of his death will come as a great shock to his many friends in the city.

Mr. Allison was born in Bergen, N. J. His father was a member of the well-known publishing house of William L. Allison Company of New York, of which his grandfather was the founder. He himself was a graduate of Stevens Institue of Technology and a member of the Theta Xi fraternity. He belonged to the American Institute of Electrical Engineers until the formation of the Canadian Engineering Institute when he became a charter member of that body. In 1923-24 he was chairman of the Peterborough Branch. He was also a member of the local Fortnightly Club.

He had a very wide and distinguished career as a mechanical engineer Upon graduation he entered the test course of the General Electrical Company at Schenectady, but left after a short time to join the Wellman-Seaver Engineering Co. of Cleveland. His advancement in his profession was rapid. He served successfully with such well-known organizations as the General Electrict Company's West Lynn works, the DeLaval Steam Turbine Company at Trenton, N.J., the Southern California Edison Company at Los Angeles, finally coming to Peterborough to join the engineering staff of the Canadian General Electric Company in March, 1904. For twenty-one years he was in charge of the Department of Industrial Control. During that period the design of control apparatus for use with electrical power equipment has gone through revolutionary changes, and Mr. Allison has played a conspicuous part in keeping his department and the Canadian General Electric organization abreast of the times.

He is survived by his widow and two children, Jack and Margaret, both attending the Collegiate Institute. A brother, who lived in New York City, died only six months ago, and there are four sisters surviving: Mrs. W. Jennings of Dayton, Ohio, Mrs. S. Clapp of East Orange, N.J., Mrs. Emmons of Dallas, Texas, and Mrs. F. Hudnutt of Boston.

Mr. Allison was a much-esteemed member of St. Andrew's United Church and he will be greatly missed there and by his many friends throughout the city. He devoted his life to his profession and his home, and through his sterling qualities of character and his quiet cultured manner, made a very real place for himself in the community.

The funeral will take place at 2.00 p.m. on Monday from his late residence, with Rev. C. V. McLean of St. Andrew's United Church, officiating. Interment will be made in Little Lake Cemetery.

Girl Dislikes Job As Small Town Boss

GILSUM, N. H., Feb. 14.—Being the "provisional head" of this little town of 506 souls is not ot the liking of Miss Florence E. Wright, 22-year old Town Clerk, who suddenly found herself in charge of Gilsum's affairs when the three selectmen tendered their resignations to her.

The selectmen resigned when tax-payers of the town protested against the purchase of a tractor-snow-plow and the selectmen did not see their way clear to either break a contract they had entered or return the plow. William H. Adams, Chairman of the Board, has been selectman for 21 years, Charles H. Blake for seven years, and Lewis A. Snow, four years.

Miss Wright said she would follow the advice of counsel and carry on as well as she could. It was intimated that a special town meeting might be called in the near future and three selectmen elected to fill the vacancies. The New Hampshire law provides that a Justice of the Peace, on application of 10 voters, may issue a warrant calling for a special meeting of town voters in case all three offices of selectmen are vacant. The annual town meeting will be held March 10, but officers are needed in the interim.

Radio apparatus evported from the United States in a recent month was valued at $3,896,571, an increase of $856,206 over the corresponding month of the previous year.

THERONOID

WE BELIEVE IT IS CERTAINLY WORTH WHILE BEING IN THE BEST OF HEALTH. HEALTH IS OUR MOST PRECIOUS POSSESSION, AND MOST OF US WILL DO ANYTHING TO GET BACK OUR HEALTH WHEN WE ARE SICK. THERONOID HAS BEEN SUCCESSFUL IN RESTORING HEALTH IN SOME OF THE MOST STUBBORN CASES ON RECORD.

We are giving you a list of ailments in which many wonderful recoveries have been reported by THERONOID USERS, HERE IN PETERBOROUGH:—

ASTHMA	INSOMNIA
Anemia	Lumbago
ARTHRITIS	NERVOUS DISORDER
Bronchitis	Neuritis
CATARRH	PARALYSIS (following Apoplexy)
Constipation	Poor Circulation
ECZEMA	RHEUMATISM
Fistula	Sciatica
GALL-BLADDER	STOMACH TROUBLE
Goitre	Tumors
HEMORRHOIDS	ULCERS
High Blood Pressure	Varicose Veins
HEART TROUBLE	ETC., ETC., ETC.

LISTEN TO OUR RADIO BROADCASTS OVER STATION C.F.R.B. EVERY MONDAY, WEDNESDAY AND FRIDAY AT 1.30 P.M. TO 2 P.M. OLD TIME MUSIC AND HEALTH TALKS BY F. J. CHAMPNEY, M.D.

EMINENT SCIENTISTS REVEAL "INDISSOLUBLE ASSOCIATION" OF LIFE AND ELECTRICITY. Dr. George Crile of the Cleveland Clinic, reading a paper before the American Philosophical Society in Philadelphia, April 19th, 1929, stated, "The driving energy of life, both animal and vegetable, is of an electrical nature and death results when the electrical voltage of the body becomes zero." Dr. Crile's statement was based on experimental evidence secured by himself and which proved beyond a shadow of doubt that electricity is essential to life and health.

Another noted authority, Dean Matthews, states: "Life and electricity are indissolubly associated." Modern scientific opinion concedes the truth of these statements and in the light of this knowledge it certainly behooves every sick person to investigate the most scientific method of maintaining their supply of bodily electricity. Unquestionably, in our opinion, the most effective way to accomplish this end is by means of the electro-magnetic induction coil or solenoid. THERONOID is such an apparatus in safe, simple, effective form designed for home use.

THERONOID INCORPORATED ARE THE LARGEST MANUFACTURERS AND DISTRIBUTORS OF ELECTRO - MAGNETIC HEALTH APPLIANCES IN THE WORLD. THERE IS ONLY ONE THERONOID AND WE HAVE IT. THERONOID IS A SCIENTIFICALLY PREPARED APPLIANCE IN EVERY SENSE OF THE WORD. IT IS APPROVED AS A SAFETY DEVICE BY THE HYDRO-POWER COMMISSION OF ONTARIO, AND BEARS A FIVE-YEAR GUARANTEE OF REPLACEMENT TO PURCHASERS, IF ANYTHING SHOULD GO WRONG WITH IT MECHANICALLY.

St. John's Capture O. H. A. Junior Group Title

SAINTS DEFEAT LINDSAY CREW IN THIRD GAME

Locals Always in Front of Opponents and Cop Off 4-2 Victory.

GOAL GUARDIANS GOOD.

Howe and Ellis Play Clever Game on Defence While Calladine Leads Attackers.

(By F. D. C.)

TORONTO, Ont., Feb. 14.—The St. John's team captured group honors from the Lindsay Midgets here last night, when they defeated the blue and white crew 4 goals to 2 in a sudden death game at the Arena Gardens.

The Saints were always in front and should on the play have won by a much bigger margin. A pair of goals in the first period by Norman Calladine gave them a lead that was never seriously threatened thereafter. The second period was scoreless and although Lindsay got a lucky goal early in the final twenty minutes the winners came back in quick style with another pair that settled the argument completely.

St. John's broke faster than their rivals all through the engagement, carried the puck more smartly and had the superior team work but once more Stephens in the Lindsay nets saved his team from absorbing a bad beating. The red sweatered attackers' swept through and around the Lindsay defence without a great deal of trouble but beating Stephens was something else again. At least a score of times the little goaler tossed himself into the way of shots when a goal seemed certain and he undoubtedly saved the score from mounting into double figures.

St. John's showed few effects of of their gruelling battle of the night before. They skated at top speed and did the bulk of the attacking from gong to gong, although the Midgets who were all in at the end of the game in Peterborough must be given credit for a game stand. They kept on trying until the final bell last night and although St. John's sold themselves to the neutral fans as decidedly the better team Midgets earned admiration for their determination when they must have realized that the round that had seemed safe after their 6 to 3 win in Lindsay Tuesday night was slipping away from them.

It was not nearly so strenuous a battle for the Saints as was the Peterborough fixture and they came through in good style and without injuries so they ought to be fit and ready for their battle with Oshawa on Monday night.

Every Player Stars

Every one of the squad contributed towards last night's victory. Miller although he had not as much to do as Stephens blocked and cleared cleverly. The defence pair Ellis and Howe handled the Lindsay attacks in good style and both made a hit with their rushing, their dashes down the ice being a constant threat. Up in front Calladine with his two useful goal and a beautiful stick handler for his credit played well and Cuthbertson and Gardner checked very effectively and were always dangerous on the attack. The second line gave its usual good account of itself. Merritt and Milliken combined for one of the prettiest goals of the night and Wilshaw was responsible for a series of smart plays.

For Lindsay, Stephens in the nets and Mills the hard working center man were by long odds the best although Spratt and Charlie Gerster flashed at time and were more effective than in the game at Peterborough. Lindsay's weakness was in its defence. Begley stepped into a terrific body check from Howe, the first time he invaded Peterborough territory and it slowed him up for the rest of the game, while Bergmenaw who took Pogue's place on defence was easily tricked out of position.

Line-up—Lindsay—Goal, Stephens; defence, Begley, Bergmenaw; center, Mills; wings, Spratt and Gerster; subs, Cecil Gerster, Parsons, Campbell.

St. John's—Goal, Miller, defence, Howe and Ellis; center, Calladine; wings, Gardner and Cutherbertson; subs, Merritt, Milliken, Wilshaw.

Referee—Billy Bell, Toronto.

The Play.

St. John's went off with a great start and Stephens was called upon to stop shots from Calladine and Gardener inside the first few moments. He beat off the attacks for a while, but four minutes after the start Ellis broke down mid-ice, went round the defence, and blazed at Stephens, who deflected the shot. Calladine, however, sailed in and pocketed the rebound for a smart goal. The Saints continued to press, with the second line playing some effective combination, but the plays fell down in front of Stephens. The Midgets were rarely dangerous at this stage, having difficulty in crashing through the Saints' defence. The Red team's first line came back into action, and Calladine stick-handled around the corner and slid a slow one past Stephens for St. John's second goal. It was the last score until the final period. Lindsay rallied at this stage and did some position attacking that got them nothing in the line of goals.

There was no scoring in the second period, although not because of lack of opportunities. The Saints beat the Lindsay defence cold half a dozen times in the first ten minutes of this period, but could not convert these chances into goals. Half-way through the period the Midgets put on the pressure, and for a while were on the aggressive without results.

Some of the fastest hockey of the night was crowded into the last period. It started tamely enough, with St. John's on the aggressive and missing goals on chances, but when Lindsay finally broke into the score column the game speeded up immediately. Mills got the counter. He went down alone, and was skated into the corner. When he attempted to bang the rubber out in front, the puck hit Miller and was deflected into the net. The Midgets tried hard to come back with the tieing goal, but the Saints had plenty left and showed it by standing back hard. Howe broke away and passed to Cuthbertson inside the Lindsay blue line. The left wing player closed in fast, skated back of the Lindsay net and slipped a pass out to Howe, who scored at close range. It was the smartest effort of the night. The Saints sent their second line out following that goal, and from the face-off Merrett went down and passed to Milliken, who ripped a hot one into the corner of the net. That made it 4 to 1 and cinched the game for the Saints, although Lindsay kept on trying, and were finally rewarded when Charlie Gerster took a pass from Mills and registered.

Summary.

First Period—
1—St. John's, Calladine (Ellis), 4 mins.
2—St. John's, Calladine, 8 mins.
Penalty—Mills.
Second Period—
No score.
Penalties—Mills, Calladine, Ellis.
Third Period—
3—Lindsay, Mills, 5 mins.
4—St. John's, Howe (Cuthbertson), 4 mins.
5—St. John's, Milliken (Merrett), 10 secs.
6—Lindsay, Gerster (Mills), 2 mins.
Penalties — Cuthbertson, Spratt, Ellis, Mills.

COGS DROP 3-1 DECISION TO LAKEFIELD

NORWOOD BEATS C. G. E. SEXTET BY 5-0 COUNT

Marks Third Consecutive Victory of Combines in East Peterborough League.

HEAVY CHECKING.

Toolmakers Lack Finished Teamwork and Scoring Punch to Cop Victory.

Norwood's Combines continued their winning rampage in the East Peterborough Hockey League last night at the Norwood Arena when they checked the C.G.E. Toodmakers to a standstill to register an impressive 5—0 victory. This win is the third consecutive verdict which the Combines have taken and is conclusive evidence that from now on they will be the most dangerous outfit in the loop. The Toolmakers, who a few weeks ago were within one point of the league leadership, now find themselves in the cellar position.

Despite the lop-sided score the Mechanics put up a splendid battle but lacked the finished teamwork and scoring punch which served up the game for the winners. The Toolmakers also wasted most of their opportunities by poor gunning and over-anxiousness when almost on top of the Norwood goalie. The Combines' defence, by their heavy checking tactics forced most of the opposing attackers to shoot from well out, and these drives were carefully blocked by Beavis, the winners' net guardian.

Play Fast Hockey

The ice was very good in view of the mild weather conditions and with the exception of causing the puck to jump considerable, did not produce slow hockey. Both teams maintained a torrid pace during the four 16 minute periods which sparkled for the most part with clean and clever playing.

The teamwork of the locals in centre ice left nothing to be desired but the havoc wrought by Shannon and McLaughlin on defence, coupled up with a demoralizing back-checking style by the Combine forwards, robbed the attacks of most of their effectiveness, while Ware, Wright and Brennan, on the winners' attacking line, seemed to encounter little difficulty in piercing the Tool Room defence and scored every one of their goals from close in.

Harold Epps, Creighton and Hatton were the pick of the Mechanics, these with Meagher worked hard to capitalize on their combination plays but the passes in many cases lacked finish.

Well Timed Attacks

On the general play it would be difficult to pick the stars on the winning team who performed like a well-organized unit, and with well-timed, three-men attacks carried the fight to the very mouth of the Diemakers' net. McLaughlin and Shannon were dangerous on individual rushes, while Hill was the best on the second string line.

The teams:

Norwood.—Goal, Beavis; defence, Shannon and McLaughlin; centre, Wright; wings, Ware and Brennan. Alternates, Hill, King, Jack and Stevenson.

Tool Room.—Goal, Hollingsworth; defence, Hatton and Lackey; centre, H. Epps; wings, Creighton and Meagher; alternate, Williams, Magee, Swanger and R. Epps.

Referee—O. Kenneally.

Inside Sportin' Dope—By A. Wise Cracker

Mister Sporting Editor:

Well, Mac, them St. John's kids may not bring any championships down this way, but anyway they got to be give credit for waking this old berg outa its hockey doldrums. The colorful red shirts has been responsible for most of the spice that this here season has dished out—1st, with their serious with Hockey Club juniors, and this week in their battles against the Lindsay Midgets. The battle here Thurs. nite pulled the biggest crowd of customers this year, and before the fun was over the crowd was a wild-eyed, horse voiced gang of hockey maniacs who cheered themselves into exhaustion as the Saints fought to even up the round, and when they finally done that very same thing the roar that went up coulda been heard in Lakefield. That gruelling tussle on the soft ice will go down into hockey history as 1 of the toughest fights for many a moon. The way the lads waded into each other with jarring body checks was a treat to them that, like the heavy checking style and the never-stopping attacks of the Saints in that last period, made the argument about the most thrilling in years. These lines is being writ Friday, and to-nite the Midgets and St. John's settle the thing with a sudden-death game on the Toronto arena that should be another classick. On Thurs. nite's showing the Saints should take the doughty Lindsay lads and go into the next round, where they will find themselves stacked up against the formidable Oshawa outfit.

If the Saints come through—and, of course the customers will know all about that long before this gets into cold print—the Oshawa team will be here Mon. nite, with the return game in Oshawa Wed. And if everything goes right at Toronto to-nite, there ain't no argument about the fact that they won't be room in the Brock st. ice-box Mon. for all them that will wanta see the battle. Nobody what was there Thurs. nite would think of missing the next, and they will be a lot of others anxious to see the red shirts in action.

Well, Mac, outside of the Saints and the E. P. loop they ain't much left. Both Peterborough Hockey Club outfits went out of action last Sat. nite. However, Charlie Curtis' 4-ringed circus is going to supply plenty of action before it's over with this Havelock-Norwood outfit coming along to set a wild pace for the rest of the battlers. It's anybody's war right now.

Nothing more to-day, old-timer.

Sportfully yours,
A. WISE CRACKER.

UNPOPULAR DECISION IS GIVEN DUNDEE OVER BRITISH BATTLER

Fans Boo-hoo Lustily When Bout Referee Votes Against Len Harvey.

WINS BY BIG MARGIN.

NEW YORK, Feb. 14. (CP)—They gave Vince Dundee the decision in Madison Square Garden last night but Len Harvey, pale Briton, got their cheers.

While one of the best crowds of a lean indoor season jeered and boo-ed Dundee was given his second straight verdict over the British middleweight champion after a twelve round battle which Harvey seemed to have won by a comfortable margin.

Harvey, making all the fight, stabbed Dundee with lefts and pounded him with rights over a major portion of the distance and at the end had earned seven rounds in the Associated Press score card. Dundee had four and one was even.

Whatever the justice of the decision, it must be said that Dundee fought a courageous and game battle. Spilled on the floor twice in his first meeting with Harvey a few weeks ago, Dundee took everything the Britisher had to offer last night, ploughed in to close quarters and outroughed Harvey at close range.

Although Dundee never went down there were several occasions when it looked as though he might be forced to examine the flooring of the ring at first hand. In the third Harvey nailed him with a deadly right hand that had the Baltimore Italian in distress and again in the fifth, it took all of Dundees' ring experience to survive a storm of leather that seemed to come from all directions at once.

Dundee rallied in the seven, eighth and ninth rounds but in the 11th he ran into another crackling right that did him no good.

A crowd of 11,500 saw the battle, spectacular at times and scarcely ever dull. Dundee weighed 159 pounds; Harvey 155.

VANCOUVER WINS FIRST

VANCOUVER, B.C., Feb. 14 (C.P.)—Vancouver Amateur Hockey Club made short work of Electrics last night in the first of the three-game series for the senior championship of the Vancouver Senior Hockey League, winning 10 to 2. Second game of the series will be played next Friday night.

LOUIS SABATINO SCORES 2 GOALS FOR HOMESTERS

Teams Battle Through Fifty-two Minutes of Fast Hockey on Even Footing.

STELLAR GOAL TENDING.

Foley, Maudsley, Dallin and Wilson Team Up Well on the Forward Line.

Backed up by Tommy Foley's great work in goal at Lakefield last night, the Cognawagas held the East Peterborough League leaders on even terms all the way through the first two periods and for twelve minutes in the third until Louie Sabatino put the home team in front, and five minutes later added another goal that left the final score at 3—1.

The game was packed with surprises. In the first place, Friday's ascension of the thermometer took the edge off the ice, and the probabilities suggested a sluggish, slugging affair in the slush. Neither of these expectations was realized. The sheet did grow heavy through the second period, but Ira Lennox opened the windows and let in the returning frost, with the agreeable result that the ice surface held up fairly well to the end. And the game itself was one of the cleanest of the season, with only a few minor penalties and a pleasing display of good feeling by both teams. It was well handled by Max Board, who showed fine discretion in his decisions and kept the play moving fast.

Goalies Star

The Lakefield fans are accustomed to the smart goal guarding of their own boy Junkin, but Foley treated them to a display away above the average, especially during the second period when he stopped perhaps a score, many of them at close range.

The Peterborough boy was finally beaten by a shot from Stabler on a pass from behind the net by Louie Sabatino. Stabler stopped the puck with his skate, and got it away quickly almost from the blue line, scoring through a group of players. On his performance up to that turn of the play, Foley would probably have picked it off easily if the front had been open. Certainly, that shot had none of the appearance of the menace that marked half a dozen others that had just preceded it in Lakefield's concentrated attack. The goal was overdue, for while Foley was on his toes all through the hectic session, Junkin at the other end was threatened by only a couple of hard shots.

The concidence of Friday and the thirteenth day of the month had no malign effect on Louie Sabatino's fortune, for he got not only an assist in that second period but two lone goals in the third, one of them from a face off near the Cogs net and the last one on a rather long shot that sifted through the defense.

Regulars Absent

Foley had to be in top form last night for the Cogs had only one substitute, and several of the players went the whole route without a rest. The team was depleted by the absence of several of the men who had gone to Toronto. And the night's job for the regulars became all the harder as the ice softened, and the going grew heavier, interfering with the passing game of both teams. The Cogs' defensive work was especially outstanding, and the back-checking was a big help to Foley. Maudsley, Dallin and Wilson must have been leg-weary when they untied their skates. They teamed up well, and Ted LeBarr and Williams contributed a lot of rushes. Jack White was the lone substitute, and was mightily helpful.

Lakefield showed that they had recovered from their slump at Brock Street against the Cogs Wednesday night, and as it turned out the chief honors went to Louie Sabatino who hit the score sheet with a double smash Blewett, Stabler, Wood and Johnny Sabatino deserved at least a goal apiece, but Foley blocked their repeated thrusts. Stuffy Mahood and his staccato stick handling went scoreless, although he tried as industriously as ever. Wingett got another chance last night, and again looked fit for a regular berth. White did the defense relief, but the soft ice bothered him, and cut down his speed.

The teams were as follows:

Lakefield: Goal, Junkin; defense, J. Sabatino and T. Wood; center, L. Sabatino; left wing, Stabler; right wing, Blewett; subs, White, Mahood, Wingett and Wannamaker.

Cogs: Goal, Foley; defense, LeBarr and Williams; center, Maudsley; right wing, Wilson; left wing, Dallon; sub, White.

Referee—Max Board.

First Period
Cogs, Dallin (Maudsley).....17 min.
Second Period
Lakfield, Stabler (L. Sabatino, 20 mins. 35 secs.
Third Period
Lakefield, L. Sabatino.....12 mins.
Lakefield, L. Sabatino..5 min. 20 secs.

Summary of the Play

The game opened with a slow tempo that gradually accelerated, but it drifted along seventeen minuts before Dallin got Cogs only goal. Maudsley and Dallin went down together along the left boards, and as Maudsley lost the puck in the snow that had been scraped up, Dallin gathered it in, and skated into the open for a shot that breezed past Junkin.

Dallin and Maudsley almost got another on the next play; and Wilson combined with Maudsley and again with Dallin on two neat rushes that ended with close shots on Junkin. Prior to that however, Stabler and Blewett broke through the Cogs defense to within shooting distance. Stabler, Wingett and J. Sabatino also tried out Foley.

Louie Sabatino skated around the Cogs defense at the opening of the second period, and Foley again saved. LeBarr rushed the whole length of the rink, and lifted a shot at Junkin that was neatly blocked. Mahood and Louie Sabatino heaved two in a row at Foley, and Lakefield hummed around the Cogs net until LeBarr heaved the rubber to safety down the ice. Foley blocked another pair from John Sabatino and Stabler, and Blewett fired at point blank range from about ten feet out. After all that brilliant defensive work, Foley finally yielded his first goal on Stabler's shot from a pass by L. Sabatino.

The Cogs started the last period with a sustained effort to get the lead back. Maudsley drove two at Junkin that were dead on, and LeBarr followed with another. Stabler and Wood were prominent in the Lakefield attack, and after twelve minutes of top-speed action L. Sabatino banged in Lakefield's second goal from a face off out in front of the net. Blewett and Wood boomed two off Foley's pads, and, with about three minutes to go, L. Sabatino tossed one from the boards around the blue line which was perhaps obscured by his defense until it flashed past Foley into his net.

Wilson and LeBarr combined in the Cogs last effort, and Wannamaker wound up the struggle with a close shot on Foley that was a bright finale to his night's record.

To-night's Schedule.

MADOC BLANKS FRANKFORD 2—0

Moon and Watson Are Successful Marksmen For Winners.

PLAY STEADY HOCKEY.

In a rather clean game last evening the Madoc team scored a 2—0 victory over Frankford, in a Trent Valley Hockey League fixture.

The ice was not as hard as could be desired, owing to recent thaws. The playing was, therefore, heavy going. However, all of the plays on both sides were neat, and no penalties were incurred at any part of the game.

The only scoring in the game was in the first period. Moon was able to score a goal for Madoc after a fast skate up the ice, and good combination with his centre and defense men. The left winger, Watson, through tricky playing and good stick-handling was able to make another goal. During the remaining two periods, both sides held their own, and fought unceasingly until the end of the game.

Madoc.—Hulin, goal; Andrews; r. defence; McGuire, l. defence; L'Heureux, centre; Johnston, r. wing; Watson, l. wing; Henderson and Moon, subs.

Frankford.—Provost, goal; Borland, r. defense; O'Nally, l. defense; Pellon, centre; Bowen, r. wing; McLean, l. wing; Munn, Snider and Shaw, subs.

Referee—Bill Green of Belleville.

Senators Will Likely Transfer To Chicago

CHICAGO, Ills., Feb. 14.—(By the Canadian Press).—The Chicago Daily News commenting in its sport column yesterday on the situation facing the Ottawa Club of the National Hockey League state: "That the club may be brought to Chicago is plausible and perhaps probable."

The Daily News says:

"The Ottawa Senators will soon be transferred to some other city, possibly Chicago because of the financial burden they impose on the National Hockey League. This announcement has not been made but the history of the sports business in recent years is sufficient proof that the transfer will take place.

THE RING.

New York—Vince Dundee, Baltimore, outpointed Len Harvey, British middleweight champion (12); Tony Herrera, El Paso, Tex., outpointed Solly Schwartz, England, (10; Vincent Sirect, New York knocked out Madison Dix, San Francisco (6).

Bridgeport, Conn.—Midget Wolgast, Philadelphia, stopped Al Beauregard, Hartford, Conn., (8).

Pittsburgh—Billy Rose, Cincinnati, outpointed Billy Holt, Pittsburgh (10).

Erie, Pa.—Joe Trippe, Rochester, outpointed Jackie Horner, St. Louis, (8).

Chicago—Eddie Anderson, Wyoming and Danny Delmont, Chicago, drew, 10).

ESKIMOS IN LEAD

SEATTLE, WASH., Feb. 14 (C.P.)—Defeating Portland 1 to 0 here last night, Seattle Eskimos stepped ahead of Vancouver for first place in the Pacific Coast Hockey League race. Old Jack Walker scored the lone tally in the third period.

O.R.F.U. DISCUSSES NEW RULE TO-DAY

Likely Forward Pass For Senior Club Will Be Approved By Delegates.

TORONTO, Ont., Feb. 14. (CP)—Delegates from many parts of the province assembled here to-day for the annual meeting of Canada's oldest football organization—the Ontario Rugby Football Union.

tine matters to be disposed of such tinem atters to be disposed of such as presentation of championship medals to the winning teams in the various series conducted by the union, reading of the financial report, which isu nderstood to be favorable, and the consideration of other minor reports.

It is expected the highlight of the meeting will be the proposal to have the forward pass tried out by the senior clubs next season. The union has experimented with the pass among the minor affiliations for several years and in some sections the play has become exceptionally popular.

Then too the action of other major football organisations in adopting the forward pass may swing the O.R.F.U. mogels in its favor.

The general opinion among the delegates arriving early was that the forward pass should be given a real test in senior company, although there was a feeling that the interference zone should be increased to five yards.

It was learned on good authority, however that the O.R.F.U. executive does not desire to revise the prevailing code at present. Presumably preferring to wait the decision of the parent body — the Canadian Rugby Union—which assembles in annual conclave here on Feb. 28.

5 Teams Crowd Lead In American League

ST. LOUIS, Mo., Feb. 14. (CP)—Five teams are to-day crowded into the first division of the seven-team American hockey league. Buffalo Majors, erstwhile tailenders, elbowed into the upper section last night by a 4-to-2 win over the last-place St. Louis Fliers, second in two nights.

Four points back of the second-position Kansas City Pla-Mors, three squads are tied—Chicago Shamrocks, Duluth Hornets and Buffalo. Tulsa Oilers range well in the lead, half-a-dozen points up on the Pla-Mors.

The Queen's Own Cameron Highlanders from Scotland will play at the British Empire Exhibition at Buenos Aires, Argentina, and their repertoire will include the national airs of all South American countries.

Continue Finals To-day for Honors

LAKE PLACID, N.Y., Feb. 14. (C.P.)—Weather permitting, the North American speed skating championships were to be completed to-day. Soft ice prevented running off of the final events yesterday and they were to be abandoned altogether if conditions did not improve to-day.

Ross Robinson, of Toronto, leads the field for the senior title with 100 points, with Ray Murray of New York as his only serious rival. Murray trailed by twenty points.

SAINTS MEET OSHAWA CREW IN 1ST GAME

Toronto Sports Writers Loud in Praise of Locals Following Last Night's Game.

SAINTS AT FULL STRENGTH.

Motor City Sextet Led By Lortie, Practically Same as That of Last Year.

St. John's will continue their search for Junior O.H.A. honors at the Brock Street Arena on Monday night when they engage the smart Oshawa team in the first round of the play-downs.

The Redshirts gave Toronto fans a surprise last night with the great speed and form they displayed in disposing of the pesky Lindsay Midgets in the third game for the group championship. Toronto sport writers picked them as a strong junior team and were loud in their praise of the work of Calladine, Ellis and the dashing play of the whole squad.

In clashing with the Oshawa team they meet the champions of the Lakeshore group and conquerors of the fast Belleville team. The Motor City squad is practically intact from the same team that made such a gallant bid for Provincial honors last year. Again they are led by Lortie, defence star of many seasons, and it will give fans an added dash of excitement to watch this husky youth and Ellis lead the attacks of the two teams.

St. John's will be at full strength for the game, for although it was a hard series with Lindsay they suffered no casualties and after the week-end rest will be full of ginger for the big battle with the Oshawa Greenshirts.

Bert Hedges of Toronto will handle the bell.

At the last home game of St. John's the biggest crowd since Peterborough's senior team was making Hockey history turned out to view the battle. An even bigger crowd of eager fans will be out to cheer St. John's on in the clash with Oshawa.

AMERICANS MAY BREAK PLACE TIE

Amerks Meet Quakers While Maroons Tangle With Bruins Over Week-end.

DETROIT AT TORONTO.

TORONTO, Ont., Feb. 14. (By Geo. Maguire, C. P. Sports Writer). Three International and two all-American fixtures are scheduled in the National Hockey League this week-end. This quintette of tussles represents one of the most important programmes of the season to date.

A feature development which may occur involves the New York Americans and Montreal Maroons. The teams are at present tied for third position in the Canadian group but the Americans have a splendid chance to secure a stranglehold on this coveted perch for to-night they play the tail-end Philadelphia Quakers and then return home to entertain Montreal Canadiens, leaders of the Northern section.

While improbable a double, victory, coupled with a defeat for Maroons by Boston, will place the Amazing Amerks well in the van of their Montreal rivals. Should Toronto Maple Leafs also go down before Detroit Falcons at Arena Gardens the A's can tie them for second place.

Boston, leaders of the American group by a handsome margin, have broken even with the Maroons in the two matches contested so far. Playing at home the Bruins won 2 to 1. At the Forum however it was a different story for the Maroons rallied brilliantly to overcome a two goal deficit and win, 5 to 3.

With their backs to the wall the Maroons may hand the Bostonians another surprise although their performances since Jan. 27 have not been exceptionally impressive.

A victory for the Maple Leafs over the Falcons will be a body blow to the Detroit squad's play-off hopes. The Motor magnates are trailing the Rangers by one point for third place in the junior group.

The Falcons have met the second place Smythemen on three previous occasions and haven't come off second best. They were beaten on Toronto ice, 4 to 2, but smothered the Leafs, 10 to 1, in the return tilt at Detroit. In this game the Torontonians were far below form, while on their second visit to Detroit when they lost 2 to 0 they were concluding a strenuous 13 days' grind.

EASY VICTORY FOR "Y" TEAM OVER WOHELO

Winning Squads Are Victors By High Scores in Ladies' Basketball.

BLUE PETES FALL 19-2.

Both Games Are Fairly Fast Despite One-sided Results.

In two City League fixtures staged on the Y.W.C.A. floor last evening the "Y" Elementary had little trouble defeating the Wohello team 17-2 and the Westclox took the Blue Petes into camp by a 19-2 count. Both games were fast and exciting despite the high scoring of the winning squads and drew a large gallery of fans.

In the opening tussle, the Wohelo were no match for the Elementary and led by S. Ecobichon and M. Simpson who accounted for their team's total, played nice basketball to take the decision for the "Y" team.

The outstanding player for the losers was Olive More, who, though not getting a great many opportunities to score, played bang-up basketball all the way through and scored Wohelo's only marker on a nice shot from outside the defence.

For the winners S. Ecobichon and M. Simpson stood out for their scoring ability and were ably assisted by G. Crawford and D. Patterson.

The teams:

Wohelo		Elementary
S. Ecobichon	forwards	I. Vivash
M. Simpson		O. More
L. Ellis	centre	G. Crawford
D. Patterson	guards	M. Jaguith
L. McGee		M. Young
C. Millard		
E. Lynch.		

MUCH SUPERIOR TEAM

In the second contest Hec. McLeod's Clockmakers were in fine fettle and showed a marked superiority over the Blue Petes. They played nice combination to carry the ball close in and had the Petes badly worried for the entire time.

Mil. Mortimer was the high scorer for the winners with 7 points to her credit and was followed closely by L. Kingdon and E. Bradley with 6 each.

Dot. Webb and S. Keown worked well together on the defence and gave the opposition few chances to shoot for markers.

Jean Howson at centre for the Petes scored their only marker, although the entire squad worked hard to break through for tallies. B. Scott and B. Rogers played nice ball but had a hard time matching speed with the Westclox quintet.

From the start the Westclox team carried the attack and it was evident that the Petes were in for a busy evening. Mr. Mortimer, L. Kingdon and E. Bradley scored in quick succession to put their team off to a good start from where they were never threatened.

The teams:

Westclox		Blue Petes
L. Kingdon	forwards	B. Rogers
E. Bradley		B. Scott
I. Thirnbeck		
M. Mortimer	centre	J. Howson
D. Webb	guards	A. Langley
S. Keown		L. Lundy
C. Mason		K. Caddy
H. Joyes		

Referee—Joe Cooper.

R.M.C. Scores Victory Over Belleville 8-3

KINGSTON, Feb. 14.—R.M.C. secured a five-goal lead over Belleville in the first of the play-offs for the O. H. A. intermediate group title, winning here last night 8 to 3. The return game is in Belleville to-night.

Both teams opened the first session at a fast pace. At the four-minute mark Lane opened the scoring for R.M.C. when a dirfter from his stick stellar soldier defenseman, scored on stellar soldier defenseman, scored on a solo effort at the half-way mark. With less than two minutes to go, H. Canning scored for Belleville. A minute later the same player repeated, carrying himself, puck and goaler into the cage for the equalizer.

Jim Carr, Cadet defense, broke the tie after three minutes of the second frame had elapsed, only to have Ethier deadlock the count again at the six minute mark. The soldiers continued to dominate the play, and Jim Carr again put them one up. The same player made it three in a row to end the scoring in the second period.

AFTER CAMPBELL RECORD.

LONDON, February 14 (C.P.). — Kaye Don, British land and water speedster, who will try to set a new speedboat record at Buenos Aires shortly, will attempt next year to take the automobile speed record from Captain Malcolm Campbell.

He announced to-day that his "Silver Bullet," in which he made an unsuccessful assault on the record last year, was being reconditioned for trials at Daytona or in New Zealand early in 1932.

DANCES ARE DEVILISH

TUAM, Galway, Irish Free State, Feb. 14 (C.P.)—Dances recently have tended away from grace and innocence and toward sensuality in disguished form, Archbishop Gilmartin said to-day in his Lenten pastoral.

"I call those kind of dances," he said, "devilish traffic in the health and virtue of our unsophisticated girls.

LOOP SCORERS LEAD BULLDOGS TO 8-3 VICTORY

Inclusion of Frederickson on Olympic Line-up Fails to Hold Windsor.

AN EASY WIN.

Five International League Games Are Carded For Over Week-end.

TORONTO, Ont., February 14 (By George Maguire, Canadian Press Sports Writer). — Despite the inclusion of Frank Frederickson, former major league star, in their line-up, Detroit Olympics failed to furnish the speedy Windsor Bulldogs with very keen opposition in the only International League game played last night. The final score of 8 to 3 indicates the superiority the Border City's classy outfit had over the cross-river rivals who have fallen far from the ranks of a championship contender.

With Earl Robinson, league leading point scorer, Paul Haynes and Lorne Duguid and Andy Bellemer, shooting with unusual accuray, the floundering Detroiters never had a chance after the opening frame.

Herberts Gets Opener.

Jimmy Herberts gave the losers an encouraging start by scoring the opening marker in 14 minutes, but Haynes got the equaliser in less than two minutes and Bellemer put the Bulldogs in front five minutes later.

Robinson got his first counter halfway through the middle frame, and then McAdam combined with Frederickson for the Olympics' second goal to make the result doubtful. Less than three minutes later the Bulldogs had shattered the Detroit hopes of victory for Haynes and Duguid scored, the latter twice.

Bellemer and Robinson added to the Bulldogs' margin in the last chapter, while Herberts notched the Olympic third tally.

Five contests are carded over the week-end, with London and Cleveland being called on to play on successive nights. The Tecumsehs with a three-point margin over the Indians for third place, clash with Pittsburgh and Syracuse in the American teams' rinks.

The Indians are at home to the Stars to-night, but journey to Detroit for their Sunday night game, but should be able to down the skidding Olympics, who are down near the cellar with Syracuse.

In the other tilt Buffalo Bisons, leading the Bulldogs by three games, entertain their closest rivals in what should prove the best game of the program.

OSHAWA ELIMINATED BY MARKHAM TEAM

Motor City Intermediates Are Handed Surprise By Visiting Sextet.

OSHAWA, Feb. 14.—The Oshawa intermediates were eliminated from the O.H.A. play-offs by Markham in the return game of the series between these teams, played at the Oshawa Arena last night. The game was attended by a large crowd. The score on the game was 3-2 in favor of Markham, the latter winning the round by 8-6.

Although the locals got the first goal, thereby tying up the round, Markham soon got it back and from that time on were at least one goal ahead of Oshawa on the round. The game was exceptionally clean, only five penalties being issued, three to Markham players. None of these offences were deliberate.

Markham—Goal, Lauma; defense, Reesor and Clendenning; centre, H. Crosby; wings, Rennie and Hagerman; subs., Bayes, Prentice and E. Crosby.

Oshawa — Goal, Burr; defense, Johnson and Elliott; centre, Bond; wings, Rowden and Black; subs., Houck, Robinson and Conlin.

Referee—Bert Hedges, Toronto.

ENGLAND SETS 442 MARK

JOHANNESBURG, South Africa, Feb. 14. (C. P. Cable).—England set a mark of 442 runs in their first innings, of the test cricket match for South Africa to shoot at to-day. The English innings, left at 338 for six wickets yesterday, was over before lunch.

were: England 442; South Africa 166 for two wickets. England, whose overnight score was 338 for six wickets, resumed their first innings this morning in fine weather and before a crowd of 8,000 people.

LOST NEW YORK HEIRESS FOUND

Florence Parker, 22, Missing for Over Two Weeks, Has Room in Hotel.

WRITING SHORT STORIES

NEW YORK, Feb. 14.—The "little rascal," as her step-father called her—otherwise Florence Parker, twenty-two-year-old heiress — was found Wednesday in a Times Square Hotel. Tuesday night she was back with her family, who had spent the last two weeks in anxious search for her.

Florence had been living her own life in the Piccadilly Hotel, since January 26, when she left her home.

She had insisted she left—and her mother corroborated her—because her stepfather, James Macdonough, vice-president of the Manufacturers' Trust Company, had told her she was a "financial burden." This Macdonough denied, saying:

"As long as there is a roof over my head there will always be a heart-felt welcome for Flossie."

Studied Drama, Too

Living her own life, it developed, consisted chiefly of remaining in her room, occasionally scribbling on the skeletons of a couple of short stories. She also attended classes at the American Academy of Dramatic Arts, but had left after her disappearance had become known to newspapers.

ENGLISH CRICKETERS LEAD

JOHANNESBURG, South Africa, Feb. 14.—(C P Cable)—England and South Africa continued their test cricket match here today. Scores at the end of the second day's play

CUPID'S BOW TWANGS AGAIN AS ST. VALENTINE HOLDS FORT

Missives of Love and Sarcasm Sent to Thousands of Unsuspecting Victims.

PROBABLE ORIGIN

It seems a shame to spoil the lovely traditional spirit which has been woven about the Fourteenth Day of February by lovers of many centuries past. But really, there is no evidence in history which definitely states that there was a Saint Valentine, or if there was, he was not a "lover" of any particular merit.

True, there lived in Rome during the time of Emperor Claudius, a Bishop by the name of Valentinus, who historians describe as a man of admirable character, famous for his love and charity. But the records do not show that he was the man who started the custom of drawing names from a box and selecting a "valentine." He must have done something that dear old Claudius didn't like, for that estimable gentleman demanded the head of Valentinus, and since there was no governor to appeal to, he lost it in the year A.D. 270. Perhaps Claudie used it as a Valentine to send to someone he didn't like very well.

Probable Origin.

Where the celebration of St. Valentine's Day probably originated, was from the Roman custom of celebrating the Lupercalia, with feasts and much merry-making in honor of the gods Pan and Juno. And in case you don't remember, Pan was the god of the hunters, and Juno the "Great Queen of the Nuptial rites."

At this festival, it was the custom amongst the young swain, and fair damsels, to place their names in a box, and then to have the box passed around to all and sundry. In this manner, the company was divided off into couples and the party started. Incidentally, Roman Patricians had a nice habit of drawing a young lady's name from a box, and then dragging her off by the hair as a slave.

The celebration was short lived, however, since the bishops of the time got together and decided that this heathen practise must be stopped, so instead of putting in the box the names of girls, they substituted their own instead. The young and chivalrous gallants didn't like the idea at all, and soon the whole idea fell by the wayside, to be revived again years later in its original form.

Another popular belief regarding the origin of St. Valentines Day is that it is the day in which the birds do their mating for the ensuing year.

And so down through the ages, different countries and different ways of celebrating the day. Soon the idea of sending love letters was originated by someone who never expected that they might end in a breach of promise suit. This custom was followed by the rather expensive one of having your local famous artist paint your portrait and sending it to the object (or subject) of your affections. That wouldn't do either in these days—too many of the fair sex take too keen a delight in consigning such ribbis to the W.P.B. Thus St. Valentine's Day deteriorates.

Now, instead of fine phrases and lavender and lace, if you don't get an insulting missile, which by some stretch of imagination is supposed to represent a Valentine, you may consider yourself either highly flattered or completely left out of the picture, as you will.

While it is impossible to reproduce the so-called art work of many modern valentines on this page, we can nevertheless reprint a few of the verses which they carry. Here are some valentines which may be received by some notable Canadians in the mails to-day:

(Starting at the top with Mr. Bennett)

O Richard Bennett,
Just a minute,
Where are you wandering now?
Why do you roam?
Why not come home?
And open the next pow-wow?
(Sgd.) "Billy" King.

To Mr. Duranleau.

Your radio views
May not be mine,
But won't you be my valentine?
(Sgd.) Taschereau.

To The Toronto Police Commission

Free Speech! Free Speech!
And let the cops get sore:
We shout and screech for the right of speech,
And the soap-box orator.
(Sgd.)68 University of Toronto Professors

To Sir Henry Thornton.

Your railroad system's pretty good,
Though not as good as mine,
But still I want you, Henry dear,
To be my valentine.
(Sgd.) "Eddie" Beatty.

To whom it may concern:

O chair of finance, 'tis you I woo,
I'd love to sit in your ample lap,
And carefully make a budget new,
(And lead the Party, soon, mayhap).
(Sgd.) "Artie" Meighen

To a Liberal.

St. Valentine's day is one of love,
When fair young sweethearts sigh,
But we will celebrate, by Jove,
Next twenty-eighth July.
From a Conservative.

A BEDTIME STORY

By Howard R. Garis

UNCLE WIGGILY'S VALENTINES

Uncle Wiggily was sitting on his ice-boat, which he had made from a flat board, with a stick for a mast and his big neck scarf for a sail. The rabbit gentleman made his ice-boat when he went back to the frozen duck pond to get his scarf with which he had pulled Baby Bunty out of a hole, as I told you before.

"Here I go!" cried the rabbit gentleman as the wind blew on the neck scarf sail and his boat began to slide over the ice. "Here I go! What a fine ride I am having!"

Around and around the duck pond Uncle Wiggily rode on his ice-boat. He steered by thrusting one paw out at the back as you steer your sled when you coast down a hill.

"What jolly fun I am having!" chuckled the rabbit gentleman. "I wish my wife and Nurse Jane were here to ice-boat with me." But as he looked up at his sail, made from his neck scarf, Uncle Wiggily shook his pink nose and said: "No it wouldn't

"See these beautiful Valentines

do to have Nurse Jane here. She would see me without my neck scarf and she would make a fuss I'll just ride she myself."

So Uncle Wiggily did, with the wind blowing harder and harder all the while until, all of a sudden, the wind blew so hard that it lifted the ice-boat right up from the frozen duck pond and began sailing it over the tops of the trees as if it were an airplane.

"Oh, now I'm an aviator! I'm a pilot!" cried Uncle Wiggily in delight. "Oh, I'm going to pretend this is a mail plane and that I am carrying letters and I'll sail over my bungalow and drop some letters for my wife and Nurse Jane." Then, all of a sudden, Uncle Wiggily happened to remember what day it was.

"My goodness me sakes alive and some popcorn hash!" cried Uncle Wiggily as he rode along in his ice-boat turned into an airplane. "This is the 14th of February—Valentine Day—and as long as I am pretending to be a mail pilot I had better drop some valentines down to my bungalow for my wife and Nurse Jane. If I send Nurse Jane a nice valentine she won't scold me so hard for not wearing my neck scarf."

Uncle Wiggily looked in his pockets while sitting aboard his ice-boat airplane steering with one foot, but not a valentine could he find. Then he said:

"I had better go down to the ground and buy some valentines for my wife and Nurse Jane. If I go home without valentines Miss Fuzzy Wuzzy is sure to say something about my neck scarf."

So Uncle Wiggily steered his airplane ice-boat down to the ground, landing in a field not far from a valentine store. He did not want to land right in front of the store because he thought such a big crowd would gather to see his funny ice-boat airplane that he would have trouble buying valentines.

Having landed in the field, lowering the neck scarf sail so his ship would not blow away while he was gone, Uncle Wiggily bought two lovely valentines, all lace paper; gold, silver and purple colors, with flowers in the middle and little red hearts scattered here and there to show how much he loved his wife and Nurse Jane.

Holding his valentines carefully, Uncle Wiggily went back to where he had left his ice-boat airship. He sat on the broad board, hoisted his neck scarf sail and, as the wind was still blowing hard, up into the air he went like a kite.

"Now if I can only steer this over my bungalow and drop the valentines for my wife and Nurse Jane, everything will be lovely," said Mr. Longears.

It was getting dark when Uncle Wiggily flew over his bungalow. Once, twice, three times he flew around in a ring, and then, being in just the right place, he dropped the two valentines. They fell on the porch and, hearing the noise, Nurse Jane ran to open the door, for, though she had never married, she was still romantic on Valentine Day. She saw the lovely tokens, all gold and silver lace, flowers and hearts, and called to Mrs. Longears:

"Oh, some one still loves us. See these beautiful valentines!"

Up in the air circling around on his airplane ice-boat Uncle Wiggily sneezed. There was still light enough for Nurse Jane to look up and see him. And when she saw Uncle Wiggily with his scarf made into a sail for his boat instead of being on his neck, she shook the lovely valentine at him and cried:

"Come right down this minute, you bad bunny gentleman, and put on your scarf!" So Uncle Wiggily came down and his wife kissed him for the valentine he had dropped for her and Nurse Jane kissed him for the valentine he had given her and she didn't scold him any more for not wearing his neck scarf. So everybody was happy.

When Your Cough Hangs On, Mix This at Home

The best cough remedy that money could buy, can easily be mixed at home. It saves money and gives you the most reliable, quick-acting medicine you ever used. The way it takes hold of stubborn coughs and chest colds, giving immediate relief, is astonishing.

Any druggist can supply you with 2½ ounces of Pinex. Pour this into a 16-oz. bottle, and fill up with plain granulated sugar syrup or strained honey. It's no trouble at all to mix, and when you once use it, you will never be without it. Keeps perfectly and tastes good—children really like it.

It is surprising how quickly this loosens the germ-laden phlegm, and soothes and heals the inflamed membranes. At the same time, part of the medicine is absorbed into the blood, where it acts directly on the bronchial tubes, and helps the system throw off the whole trouble. Even those severe coughs which follow cold epidemics, are promptly ended.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

Queensboro

QUEENSBORO, Feb. 14 (Examiner Correspondence). — The February meeting of the W.M.S. was held at the home of Mrs. Bruce Leslie on Wednesday afternoon with a good attendance.

The president, Mrs. J. F. Everson occupied the chair. "From Every Story Wind that Blows," was sung after which prayer was offered by Mrs. John Alexander. Mrs. Everson read the scripture lesson from St. Matt. 18, 19-20 and 1st John, 1, 3-7. Mrs. C. B. Hamm gave a reading on Temperance entitled, "A Wet Press" in which was was pointed out that frequently reports against prohibition appearing in newspapers was due to the fact that liquor interests had full or partial control of such papers and that purely false statements were being made in such papers regarding the benefit of prohibition and the opinions of prominent persons were being misquoted against the cause of temperance.

Mrs. John O'Rorke gave a paper entitled, "Exciting times in China." This wgs a resume of difficulty being encountered as a result of the communistic work in that country.

Problems in Japan.

Mrs. Bruce Leslie gave a paper on "Industrial and Rural Problems in Japan." In this it was stated that Japan is rapidly becoming an undistrial nation. Her population is increasing at the rate of 750,000 a year. Japan has an abundant water power and is manufacturing for western markets. Hundreds of thousands of girls and women between the ages of sixteen and twenty-five are employed and come mostly from the country. Most of the girls live in dormatories owned and operated by the factory owners. Twice a week there is a rest day but no rest on Sunday. Young people under sixteen are not allowed to work more than eleven hours a day. The farmers are profiting from the Tenants' and Farmers' Unions. The people are industrious, thrifty and intelligent with sons and daughters seeking better things.

Miss Marion Love gave a report of the Presbyterial convention held at Picton on January 21 and 22. The 76 auxiliaries of the Presbytery sent out bales of clothing to needy fields to the amount of $1924.21. An interesting feature of the report was an address given by Miss Jamieson, General Secretary of the Dominion Board of the Woman's Missionary Society who last May attended the Angola Jubilee in Africa and while on her way had attended Easter Sunday service and communion in Westminster Abbey, England. Miss Jamieson had stood by the graves of the unknown soldier and of David Livingstone. Her account of the mission work and of the 14,000 native Christians was most illuminating. There were 1,500 teen age girls and 2,000 boys present at the jubilee. On the Sunday African ministers served communion to 6,000 church members.

The meeting closed with singing, "We have heard the Joyful Sound." The world's day of prayer will be observed, the meeting to convene at the home of Mrs. John Alexander, Sr.

For 41 years RHEUMATISM made her life a torture

From the time she was 15 Mrs. Henry Poole, Bleaker, Sask., had this painful disease. Twice she had rheumatic fever. A year ago she couldn't walk. Then she sent for a box of T-R-C's. "By the time I had taken 4 boxes the Rheumatism had gone out of my hand and feet," she writes. "I have never taken anything which has given me such great relief."

Pain and Stiffness vanish when you use T-R-C's. There are no harmful drugs in them. T-R-C's give you quick and safe relief by actually entering your blood stream and helping drive out poisons located there. Wonderful for Sciatica (stabbing hip pain), Neuralgia, Neuritis, Lumbago (Lame Back). 50c and $1 at your dealer's.

QUEENSBORO L.O.B.A. STAGE "AT HOME"

Young People Crowd Orange Hall—Splendid Program Given.

QUEENSBORO, Feb. 13. (Examiner Correspondence.)—A large crowd mostly young people was present at the at home held in the Orange Hall, on Wednesday evening, under the auspices of Queensboro, L.O.B.A. No. 465.

The people began to gather about eight o'clock and for an hour or more engaged in playing games, after which the following program was given with Mrs. Fred Sager, W.M., presiding. Instrumental trio on the guitar, violin and piano, by Mrs. George Love, Allan Love and William Glover. Reading, by Charles West, entitled, "The Old Orange Flute." Solo, Bruce Leslie; Instrumental duet, Mrs. George Love and Mr. John Gunn. Address, Rev. J. F. Everson, on "The Heritage of Protestantism," Reading, Mrs. Harry DeClair. Solo, Bruce Leslie, "A dollar or two." Reading, Miss G. M. Carey, "I've Changed my Mind." Instrumental trio by Mrs. George Love, Allan Love and William Glover.

A vote of thanks to the talent who rendered the program was moved by Mrs. John Gunn and seconded by Miss Mary Phillips. Lunch was served and a social hour enjoyed.

Troubled with her Kidneys 11 years

Mrs. J. Beaulieu, Chatham, N.B., writes: "I was unable to do my work. Spent a lot of money for medicines. Tried many doctors. A box of Gin Pills gave me much relief. I am thanking you and am telling my neighbors how they did me good."

Give your hard-working kidneys the soothing help of Gin Pills. 50c a box at your druggist's.

Mr. Mark Lawrence who has worked with farmers in this vicinity for some time has left for Australia.

Miss L. Simpson, R.N., of Peterborough, spent a few days recently with friends in the village.

Mr. and Mrs. Gabriel were guests on Sunday of Mr. and Mrs. Bert Godfrey.

Mr. and Mrs. John Nevins, visited Mrs. Robert Nevins, on Tuesday.

Mr and Mrs. M. A. Scott, of Smith, spent Sunday with the latter's mother, Mrs. Robert Nevins.

Mr. Harry Ingram, of Young's Point, is the guest of friends in the village.

Mrs. T. Cardwell is visiting friends at Colborne.

BELLEVILLE, Feb. 13.—After an inspection of Waupoos Island, in the Bay of Quinte, Prince Edward County, concerning the report that pheasants placed on this island were starving, Walter Turner, superintendent of the Hastings sanctuary of the Jack Miner League, believes the reports to be exaggerated. The birds are in need of food, and Mr. Turner, with a few friends, has purchased grain and will take it to the island.

Heart and Nerves So Bad Was Unable To Sleep For Hours

MILBURN'S HEART NERVE PILLS

Price 50c a box

Miss Theresa M. Ravary, Gallingertown, Ont., writes:—"I was troubled, for almost a year, with my heart and nerves, especially on retiring at night when I would be unable to sleep for hours. I was easily fatigued, and became very excitable and irritable. A friend recommended Milburn's Heart and Nerve Pills and after taking them for a few weeks I could enjoy a good night's rest, and rapidly regained my former state of health."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

FRANCE TOPS WORLD IN USE OF NARCOTICS

Huge Increase Between 1925 and 1929 Shown in League of Nations Survey.

JAPAN RANKS SECOND

France Consumes More "Dope" Than Whole of North America.

GENEVA, February 14. — France uses more narcotic drugs annually than any other world Power. This is revealed to-day in figures compiled by the League of Nations' opium section.

Not only does France use more drugs at the present time, according to the report, but its inrease in consumption between 1926 and 1928 was far greater than any of the big Powers.

Based on a per capita figure, Japan is also a heavy user of narcotics.

France, with a population of one-third that of the United States, consumes more morphine, heroin, and cocaine annually than America.

Legitimate Consumption.

Total legitimate consumption in France during 1929, the latest year tabulated, was 8,406 pounds, compared to 7,768 pounds reported as used for medical purposes in the United States.

In 1925, 1,591 pounds of morphine were used, and this figure jumped to 5,799 pounds in 1929.

An even greater increase is noted in heroin consumption in France, the total number for 1925 being given as 176 pounds, and for 1929 as 7,651 pounds.

Heroin, described as the most dangerous of all narcotics, appears to be that used greatest in Japan. The Eastern Empire used 3,044 pounds in 1929, as against only 37 pounds used for medicinal purposes in the United States, where heroin manufacture is prohibited.

Illicit Traffic.

Total consumption of heroin, morphine, and cocaine in 1929 in the United States, France, Japan, Great Britain, Germany, and Italy was given as 30,324 pounds.

The League emphasizes that this total constitutes legal consumption only. The illicit drug traffic is variously estimated as from ten to one hundred times larger than legal consumption.

THEATRE NEWS

N.B.C. REVENUE BIG MADE NO PROFIT

Gross Was $20,088,000 Last Year—Columbia $6,730,000.

CHICAGO, Feb. 14.—Figures for radio business in 1930 just made available show that National Broadcasting Company did a gross of $20,088,000. Columbia Broadcasting System did $6,730,000, for the same period.

NBC's gross is short by several millions, what was anticipated on the basis of business up to September. Columbia shows a substantial gain in gross revenue and in terms of percentage improvement. NBC is $3,000,000 or more better than in 1929.

As usual, NBC reports no profit despite its large gross. All moneys are declared to be reinvested in expansion or charged off to research. It is figured around $82,000,000 has been poured into the new NBC Chicago plant alone in the last year. Equipment and studios for the Merchandise Mart stood $900,000 to install and prepare for practical use.

VOICE WINS IN FILMS

Producers Say Chaplin's Non-Dialogue Comedy Will Not Influence Production.

The talking picture has aroused much discussion since it came into vogue, and now that Chaplin's non-dialogue film, 'City Lights,' is in New York, further controversy as to the respective merits of audible and silent films probably will be heard.

Leading producers were asked last week whether the success of the Chaplin voiceless picture would mean the production of a proportion of silent films and a consequent reduction in the output of talking pictures.

The burden of the remarks was that only a man of Chaplin's genius could make a talkless picture and get away with it. The men responsible for practically the entire home product of films united in a tribute to the genius of the little tramp comedian, but they were just as unanimous in pointing out that they could not afford to follow his lead.

Adolph Zukor, president of Paramount Publix said:

"Regardless of the success of 'City Lights' there will be no change in the production policy of our company as regards the making of talking picture. Talking pictures are here to stay and it is unthinkable that any definite movement will be made toward the return of silent pictures. Talking pictures not only gave the screen greater scope by giving it a voice, but they have proved that they are much more popular with the public than silent pictures."

Winfield Sheehan, general production manager of the Fox studios, who in March, 1929, made the then startling announcement that his company would drop all making of mute films, has lost none of his enthusiasm. Mr. Sheehan said:

"Talking pictures have won a vast new audience for the screen. They have resulted in the employment of more intelligent players and in the making of a far higher type of entertainment than that furnished by the old silent films. Then too, great strides have been made in the recording and reproduction of sound. Only a few pictures, as a matter of fact, have so far been presented with the latest sound methods. The presentation of Mr. Chaplin's film, great though it is, will not affect the proportion of talking pictures to be made by the Fox Film Corporation. Talking pictures are firmly implanted, and so far as silent films are concerned there will be only occasional exceptions, such as those made by the world's finest pantomimist, Chaplin. But remember, there is at present only one Chaplin."

Samuel Goldwyn of United Artists was one of the silent die-hards when sound took Hollywood by storm, but he has now enlisted in favor of dialogue films.

Mr. Goldwyn's reply was:

"The success of Chaplin's non-dialogue picture will not influence the production of talking films. There may be occasional silent pictures made by those suited to the pantomimic art, but these will not cause any diminution in the production of audible pictures. Chaplin is a great artist, but because his picture is a huge success—and I believe it will gross more than any other picture—there is no reason to think that a person who is not a Chaplin can accomplish the same thing. An actress whose name occurs to me at the moment who could undoubtedly succeed with the proper support in a voiceless picture is Greta Garbo. I might say, so far as Chaplin is concerned, that I would give Charlie a million dollars to appear in a dialogue film."

As a ruthless tabloid editor whose creed is to print all the news, no matter who may be hurt, George Bancroft is the dominating figure in "Scandal Sheet." Kay Francis appears as the editor's wife, and Clive Brook acts as a wealthy banker who is carrying on an affair with Miss Francis. Regis Toomey portrays a reporter, Lucien Littlefield is the city editor and Gilbert Emery figures as the publisher.

THE WELL KNOWN "BREAK"

One of those unusual breaks, an inexperienced newcomer bucking the ranks of 17,000 extras in Hollywood during the toughest time of the year, landed a studio contract within three months.

Douglas Duder, son of an English clergyman, and until last October working in a tea and coffee store in Toronto, has just been given a six months' contract by Fox with the usual options. Duder is 21 good looking, and talks very English.

Like thousands of others, he wanted to get into pictures, quit his Canadian job and took a chance on Hollywood. He registered with the Central Casting Bureau November 22, when extra placements were at a year's low. His first call was to the Fox studio, he went into "East Lynne" and the contract was the result.

The other side of the Hollywood thing is demonstrated by an old-time Biograph star. She worked last week in a $7.50 mob.

BLANCHE SWEET AND RINTY BOOKED FOR RKO TOURS

HOLLYWOOD, Feb. 14.—Rin-Tin-Tin and Blanche Sweet are set for RKO vaude tours, through Harry Webe here. Miss Sweet opens with a singing specialty, Feb. 21, in Elizabeth, N.J.

Rin-Tin-Tin, who has been toured extensively, is doing his first stage work in a year, starting out March 14 in Indianapolis at $1,250. Miss Sweet's showing salary is $1,750 and she is asking $2,500.

Weber also set Lina Basquette for the Embassy Club, Miami, at $750.

DIETRICH'S DAUGHTER

HOLLYWOOD, Feb. 14.—"Cobra" will not be made by Par, with Marlene Dietrich in the lead.

Von Sternberg is on an original story for the German star and will direct it when she returns from Europe April 15.

Miss Dietrich is bringing her daughter back with her.

BRIGHT OPPOSITE GAYNOR

HOLLYWOOD, Feb. 14.—Hardy Bright, recent Fox stage import, is rehearsing Charles Farrell's role in "Merely Mary Ann." He will most likely have the lead opposite Janet Gaynor.

SCREEN AND STAGE NOTES

According to Edna Ferber, who wrote it, 'Cimmarron' is pronounced 'Simmer-roon.'

Over 4,000 drummers in the musicians' union of N.Y. City, and jobs for only 300 of them.

Music Corporation of Canada book main ballroom of Chauteau Laurier, Ottawa, for Mardi Gras dance with three orchestra and expect 3,500 admissions.

Folks in London still arguing whether the Marx Brothers are funny.

Cyril Maude tripping to Ceylon. Devonshire farm too cold.

Irish sweepstakes are taking all the stray gambling money in London.

John Bird, covering bread lines for the "Montreal Star" has lost 10 pounds since starting assignment.

Quebec censors still getting in dutch with public by extreme severity in cutting pictures. "Blue Angel" slashed and hardly a film not mauled before being passed. Talk of exhibits and exchangemen deputation to ask Premier Taschereau for relief.

Bookings on Clara Bow's "No Limit" are held up in Ontario and Quebec until court scandal dies down. The picture has been passed in Manitoba and had a first run at the R-K-O Capitol, Winnipeg, with big result.

Alexander Gray unexpectedly boarded the Europa last week (30), making up his mind about 36 hours before sailing time. Marilyn Miller on same boat. Just coincident.

Jean Harlow has been granted a divorce from Charles F. McGrew 3d, of Chicago. She testified before a Los Angeles judge that her husband pushed her into a mantlepiece and refused to buy her furs.

Jack Dempsey and Estelle Taylor declare their ardor hasn't cooled in spite of the fact that they met for but a few hours in New Orleans last week and then took trains in opposite directions. Simply a matter of being independent, though married, they stated.

Mother of Mary Miles Minter, received concussion of the brain and other injuries in auto smash.

Chic Sale's "Specialist" sold more than a million copies and is still in demand. His second pre-pinching age epic, "I'll Tell You Why," is a fast mover on bookstands.

Paul Whiteman denied he has affected an amicable separation with his wife, Vanda Hoff, by settling an allowance of $35,000 a year on her and his six-year-old son, Paul Jr. Reports of a divorce suit were printed, following a separation six months ago.

Jewels and cash belonging to Daisy De Voe, former secretary of Clara Bow, recently convicted for grand theft, in a suit brought by her former employer were seized under a writ of attachment based on a civil suit brought by the Beverly Hills National Bank, naming both Miss De Voe and Bow.

The marital affairs of Lieut Leslie P. Arnold, U.S. Army round-the-world flier, remain tangled because of his marriage in Agua Caliente, Mexico, to Priscilla Dean and the ruling of an Arizona judge that he did not have sufficient grounds for divorce from Mrs. Mildred Avey Arnold, whom he married while still in the air service. Arnold's marriage to the picture actress followed a divorce which a court later set aside at Mrs. Arnold's request. Miss Dean and Arnold separated when the original divorce action was nullified.

Eddie Kline will direct "In Conference" and it will star Andy Clyde and Harry Gribbon. The story is based on a Jew and Scotch producer. How come they don't bring in the Irish? These two ride the waves of success in the silent days with a leading man who is the idol of the American public. Then come the talkies and wowie! Their million dollar contract player dies on his feet. George P. Wilson, Patsy O'Leary and Marion Sayers are also in the cast.

Joseph March has been assigned to write an original story of Hollywood for Howard Hughes, to fit the title of "Hollywood Star." Picture will be Billy Dove's first, with Hughes talking to every available director for the megging job.

Albert Griffith Grey announces his resignation as vice president and director of D. W. Griffith, Incorporated to enter the field of production and distribution in an independent capacity. Mr. Grey is a brother of D. W. Griffith and has been associated with him in the making and distribution of his pictures since "Birth of a Nation." He also had charge of the Road Show Department of Paramount-Publix for the two years of its existence.

FARRELL'S REST TRIP

HOLLYWOOD, Feb. 14.—Charles Farrell sailed from New York February 10 for Europe.

He will be away three months.

Fox has been working Farrell rather hard lately and figured he could be spared this spring for that length of time.

IN THE MATTER OF THE ESTATE OF ROBERT HULL.

ALL PERSONS having CLAIMS against the Estate of ROBERT HULL, late of the City of Peterborough, in the County of Peterborough, Deceased, who died on or about the 23rd Day of December, 1930, are hereby notified to send in to the undersigned, Solicitors for James Walker, Executor, on or before the Fourth Day of March, 1931 full particulars of their Claims. Immediately after the last mentioned date the Assets of the said Estate will be distributed amongst the parties entitled thereto, having regard only to Claims of which the Executor shall then have notice.

THE BEASTS OF TARZAN No. 72 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

It was Kai Shang, a huge Celestial, who himself had murdered the captain of the pearl schooner as he lay asleep in his berth. Then, decked out in the officer's apparel which bore badges and insignia of authority, the wily Chinaman and his motley band—the scum of the south seaports, had attempted to round the South Atlantic and find a port where they might market their ill-gotten wealth—and no questions asked.

The day before they sighted Jungle Island and discovered the little land-locked harbor upon the bosom of which the schooner now rode quietly at anchor, the watch beheld the outline of a warship upon the distant horizon. The chance of being spoken and investigated by a man-of-war appealed not at all to any of them and so they had put into hiding until all danger was past, some miles north of Tarzan and his castaways.

During this time of waiting, the mutineers amused themselves by hunting, fishing and exploring the beautiful island. It was upon one of these expeditions far from camp that Kai Shang was surprised by the sound of voices ahead of them in the jungle. Motioning his companions to follow his example, Kai Shang crawled through the jungle in the direction of the unseen speaker. Soon they saw two men sitting on a log, earnestly conOne was the mate of the Kincaid, the other the most depraved looking of her sailors. "I think we can do it," the mate was saying. "Three of us can paddle the boat to the mainland in a day. Let the Englishman look out for himself." "But," he continued, "we'll take the woman. She's too good a looker to leave behind." He winked knowingly, and added: "She ought to pay us well to get her back to civilization."

EXHIBITION COMMITTEE NAMED AND MIDWAY SHOW IS ENGAGED

Several New Livestock Classes Will Be Added For 1931 Show.

RECOMMENDATIONS MADE.

Plans for Peterborough's 1931 Industrial Exhibition, which is intended to equal or eclipse that of last year were discussed at a meeting of the Board last evening, with T. Brown in the chair.

It was reported by the amusement committee that Sheesley's Midway has been engaged and that arrangements are underway for the engagement of the grandstand attractions.

William Knox, managing director of the Exhibition put forward several recommendations which were adopted by the Board and included the suggestions that the class for Guernseys appearing in the prize list, be left out this year; also that a judge be provided in each of the classes for Jerseys. Holsteins and Ayreshires. His recommendations also provide for medium wool sheep, while the judge for swine will also take the long wool sheep classes. "As far as possible Government judges should be employed" he recommends.

In stressing the need for provision for washing stock, Mr. Knox thought that a cement base about 10 feet by 16 ft. should be provided, centrally situated, to provide room for two animals. The approximate cost of such an installation be placed at approximately $15.00. It would do away with mud puddles around the buildings, he remarked.

To relieve congestion, especially at the time of loading out for home, he also suggested a stationary twin chute for the handling of stock, on a site conveniently situated to the stock barns. The approximate cost would be $40.00.

The recommendation that an additional chute be provided at the Brinton Carpet Company's siding for loading and unloading show stock and a further recommendation that race horses and horses for amusement purposes should not occupy the same buildings, and that accommodation be provided in the way of box stalls for 15 horses so that they may be separated, was referred back to the committees concerned for further consideration.

The appointments of the following committees was confirmed:

Executive committee—The officers and chairmen of all comittees. Thos. Brown, chairman.

Heavy Horse Committee — Thos. Graham, chairman; and Messrs. G. B. Nichols, W. Roseborough, R. T. Lillico, C. Hanbridge, Thos. Brown and G. Hooten.

Light Horse Committee —C. G. Graham, chairman; and Messrs. Thos. Brown, Thos. Cruickshank, Smith, Milburn, J. O. Ball, Thos. McIndoo, Walter Brown and Hall.

Race Horse Committee—Stan Lowe chairman; Messrs. Gus White, Thos. Brown, Wm. Knox, Thos. Cruickshank, Art Blade.

Beef Cattle Committee — Chas. Westlake, chairman; Messrs. H. Webber, W. Bowles, H. McFarlane, W. Steinkrauss, M. Smithson, J. T. O'Connell, B. D. Faulkner.

Dairy Cattle Committee—C. E. Moore, chairman; Messrs. W. R. Shields, T. Cavanagh, C. W. Seymour, W. Breyfogle, S. S. Staples, J. T. O'Connell W. Steinkrauss, H. McFarlane, W. Bowles, G. Hancock and C. Westlake.

Sheep and Swine Committee—Thos McIndoo, chairman; Messrs. P. Savigny, B. Matchet, G. B. Nichols, W. Pallis, Alex Huston, Walter Brown.

Poultry Committee—Geo. Paxman, chairman; Messrs. F. Holmes, W. Stewart, H. Bertram and R. Robson.

Agricultural Committee — Frank Kitney, chairman; Messrs. V. Milburn, J. Penrose, G. Hancock, J. A. Middleton, J. B. Nelson, J. A. Arnott, W. J. Oke, Alex Huston.

Junior Competitions Committee—W. R. Shields, chairman; Messrs. V. Milburn, Carman Seymour, Wm. Knox, J. B. Nelson.

Field Crop Competition Committee —J. B. Nelson, chairman; Messrs. C. E. Moore, R. C. Hanbridge, Alex Huston, R. T. Lillico.

William Knox was also appointed to take charge of the advertising in the prize list for 1931.

BIBLE CANVASS STARTS TUESDAY

Bible Has Already Been Printed 866 Different Languages.

12 ADDED EVERY YEAR.

February 15th is Bible Sunday in Peterborough but no offering is being taken in the churches for this work. Next Tuesday, however, about one hundred ladies, at considerable sacrifice to themselves, will begin canvassing the city in order to give everyone an opportunity of contributing to the work being carried on by the Bible Society.

Is the work worthy of your support? The answer to that question is not difficult to find. The Bible (or parts of it) has already been printed in 886 different languages and of these the British and Foreign Bible Society (of which Peterborough is a branch) has credit for having printed 639; and this Society has recently been adding from ten to twelve new languages to its list each year.

Can you imagine the thrill that must come to the members of a tribe in Africa as they read for the first time that story of love and sacrifice as contained in the Gospel of John? Can you imagine the transformation that must take place in the habits and lives of those people as they drink in the living truth from that Book? Is that work worth while? Would you like a share in it? If so, you will have an opportunity when the canvasser calls at your door during the next two weeks. Every canvasser will have a canvasser's book on which is printed "Upper Canada Bible Society." Those contributing $2.00 and over will receive for one year the monthly magazine entitled, "The Bible in the World," which tells of the work being done by the British and Foreign Bible Society.

Let us again remind the members of the local branch of the Bible Society of the annual meeting in the Y.M.C.A. on Sunday, at 4.30 p.m.

Approximately one hundred ladies have sent word that they will be at the luncheon in George Street United Church at 6.15 Monday evening, to receive information regarding the canvass. We are exceedingly fortunate in being able to have Rev. J. B. M. Armour of Toronto, General Secretary of the Canadian Branch of the British and Foreign Bible Society, to address this meeting.

BAND CONCERT

The following is the program of the Rangers Band and the boy soloists of St. John's Church to be given on Monday evening, February 16, in the Legion Hall:

Chairman — Mrs. W. R. Morris, chairman of the Board of Education.

MOSE YOKOM AND HIS BAND

will furnish music for the big event—and if you haven't heard them yet—there's a treat in store for you.

LET'S GO! TICKETS ARE 50c.

KING EDWARD SCHOOL TEAM IN THE FINALS

Will Meet King George For Public School League Championship.

LOPSIDED SCORES TO-DAY.

Queen Alexandra Shut Out 8-0, Prince of Wales Waltzes Off 10-1 Decision.

Lopsided scores marked the two Public School League games run off this morning at All Saints' rink Rough ice and a cold sweeping wind kept the play ragged for the most part. The third game was not played, Central defaulting to King George. Today's play winds up the schedule, King Edward and King George playing off for the championship next week at the Brock in home and home games.

Queen Alexandra were shut out 8-0 by King Edward in the first game in a fairly fast but one-sided contest. The winners were speedier and went through almost at will, despite the hard checking of the Q. A.'s. The game was practically free from penalties. In the first period, King Edward kept the play up the ice most of the time, shooting from all angles. They netted the rubber five times while holding their opponents scoreless. After the first session, the losers got going better, and play was somewhat closer. The winners, however, still had the edge, and ran in three more in the last stanza. They were travelling fast in this frame, and only close checking kept their lead down.

The teams:

Queen Alexandra: Goal Ellis; right defense, McQuarrie; left defense, Aah; center, Galley; right wing, Heard; left wing, Sharpe; alternates, none.

King Edward: Goal, Dunkley; right defence, Jobe; left defense, Boyler; center, Watson; right wing, Mowry; left wing, Heal; alternates, Todd.

Referee, D. Crawford.

TAKE 10-1 DECISION

Prince of Wales waltzed off with a 10-1 decision over Queen Mary in the final game. It was a clean contest and featured by nice stick-handling on the part of the winners. They were bigger and faster than the other outfit, and had not much trouble throughout. The opening canto was tight enough. The Wales boys got two while their opponents bagged one. The disc was chased up and down all through this period. But coming out for the middle chapter, the winners had everything their own way, notching six goals and checking the Queen Mary boys off their feet. The last frame saw Harding in the losers' net stopping a flock of hard ones, only two getting by him. Prince of Wales were much superior, but the Queensters managed to hold down the count, and were still working hard at the final bell.

Queen Mary: Goal, Harding; right defense, R. White; left defense, Hamley; center, Mortimer; right wing, G. Clark; left wing, A. Clark; alternates, Neiman, Leith and D. White.

Prince of Wales: Goal, Jay; right defense, Hope; left defense, Anderson; center, Kingdon; right wing, Rusaw; left wing, Platt; no alternates.

Referee, D. Crawford.

FIRST REPORT FOR MONDAY

Response to Call For Funds For Relief Association is Good.

The first report will be given in Monday's Examiner of the response to the call for funds for the Peterborough Relief Association. The campaign is being well received all over the city. The citizens realize the need, and are voluntarily subscribing as they are in a position to do so. With every spell of cold weather the demand for relief is greater. New families temporarily in difficulty are being assisted from time to time.

Even with the work that is going on here, it is admitted that Peterborough has not the problems of many other places, but those who are engaged in relief know of the necessity for the fund so that needy families may be cared for in the necessities of life, medicines, etc. There is to be no canvassing of workers, but everyone is invited to do what is possible to help out.

OBITUARY

MRS. WILFRED JONES.

The funeral of the late Mrs. Wilfred Jones took place from her home on 2 Gordon Avenue this afternoon at 1.30 to St. George's Anglican Church at 2 o'clock. The services were taken by Rev. J. L. Hughes, the rector, and interment was made in Little Lake cemeterly.

The deceased passed away early Thursday morning in St. Joseph's Hospital after a lingering illness. She leaves to mourn her loss her husband, three sons, Eric, Richard and Wilfred, two daughters, Hazel and Elsie, all at home, four sisters, Mrs. T. Monk and Mrs. A. Pooley of this city, Mrs. T. Wilkinson of Walkerville and Mrs. S. Farmer of Toronto, three brothers, Alfred Hawthorne of this city, James of Freehold, N.J., and William of Detroit, and one grandchild, baby Gary.

BABE O'BRIEN, SUNNY JIM LASS ON TRIAL

Provincial Officer Lloyd Dismissed

CONDUCT JUDGED AS UNBECOMING BY GEN. WILLIAMS

Member of Headquarters Staff Follows Hearing Very Closely.

ON FORCE YEAR.

Evidence Shows Constable Had Ill-treated His Wife.

TORONTO, Ont., February 16 (C.P.).—Provincial Constable Harold Lloyd, whose wife was recently acquitted on a charge of attempted murder upon him, was to-day dismissed from the Provincial Police Force by Major-General Victor Williams, Commissioner.

"Lloyd was dismissed for conduct unbecoming a constable," said General Williams.

During the trial, General Williams had a member of his staff following the evidence, which showed that Lloyd had ill-treated his wife.

Lloyd has been a member of the force since February last year.

JAMES CONNAL DIES SUDDENLY

Prominent Citizen and Merchant Passes Away at His Home.

VETERAN CURLER.

James Connal, one of Peterborough's leading citizens and for years a prominent George street merchant, passed away at his home, 270 Brock street, on Sunday evening. The late Mr. Connal had not been in the best of health for some time past, but the end came quite unexpectedly and as a great shock to his wife and two daughters, Margaret and Jeanette and to his large number of friends.

The deceased was a prominent member of St. Pauls Presbyterian church, being the oldest member of the board of management, and having served for a long period as chairman of the pew committee.

He was the eldest son of the late Mr. and Mrs. Peter Connal, his father being one of the pioneer merchants of this city, having established the grocery business, which he carried on in his father's stead until his retirement eight years ago.

He was greatly interested in all activities for the betterment of the city, and apart from his business interests, he took a keen and active participation in sports. The allied games of curling and lawn bowling holding preference. For 42 years he has held membership in the local curling club being along with Dixon Davidson and George Morrow, one of the original members. In the years 1911-12 he was president of the club, and he also had many trophies which he had won in local and district bonspiels. He had not taken any part in the activities of the club this season on account of his ill health, but curled all through last season.

Funeral arrangements, which are not yet complete, will be announced later.

TRAPPED IN AUTO TWO LADS DROWN

Car Breaks Through Thin Ice on Lake Jordan Into 30 Feet of Water.

TOOK WRONG ROUTE.

LAKE ODESSA, Michigan., Feb. 16.—The two sons of Albert C Hoffman, Superintendent of Schools here, were drowned in Lake Jordan as their automobile broke through thin ice and dropped into 30 feet of water last night.

Officers who discovered the boys' fate at 3 a.m., to-day, were told that a third person may have perished with them, but they lacked reports of anyone being missing in this section.

The boys, Robert Hoffman, 16 and James, 10, were believed to have mistaken their route across the lake and were not aware that they were in the vicinity of thin ice, which was caused by the cutting of ice nearby

Rotary Speaker

CONTROLLER JAMES SIMPSON of Toronto, who was the guest speaker at to-day's luncheon of the Rotary Club.

SIX VACANCIES LEFT IN HOUSE

Hugh Morrison, Wiltshire Salisbury Member, Retires With Ill-health.

THREE IN FIELD.

LONDON, Feb. 16.—(C. P. Cable).—No fewer than six vacancies in the House of Commons was the total to-day when Hugh Morrison, Conservative member for Wiltshire Salisbury, announced his retirement on account of ill health.

Prospective candidates in the latest by-election are Major De Spencer Robertson, Conservative; F. R. Hancock, Labor, and Mrs. Lucy Robertson, Liberal, widow of the late Charles Masterman, one time prominent Liberal politician.

In the 1929 general elections Morrison was elected with a majority of 2,650 over Mrs. Masterman, as she then was; with Hancock at the bottom of the poll 8,000 votes below Mrs. Masterman.

The other by-elections in order are East Islington; Fareham; Uontypridd, Sunderland, and Westminster-St. Georges.

SLOW PROGRESS IN CRICKET MATCH.

JOHANNESBURG, South Africa Feb. 16.—(C.P.)—Slow progress was made to-day in the test cricket match between England and South Africa. Replying to England's innnings score of 422, South Africa had put on 243 for five wickets at lunch time to-day.

Employment in the Irish Free State's protected industries is more than twice the number in 1922.

400 MEN FLOCK INTO GOLD AREA SEEKING FORTUNE

Prospectors Travel Light in Hurry to Stake Claims in Alberta Valley.

SLEEP IN TENTS.

Police Take Hand Fearing Cold Wave May Bring Privation, Death.

CALGARY, Alta., Feb. 16. — (CP) — Four hundred treasure-seekers struggled to-day to stake claims in a new gold-strike area of Alberta's foothills. Meanwhile Provincial Police feared a cold-wave might bring privation and death. On the slopes of Livingston Valley, about 100 miles south-west of Calgary, the prospectors mulled in an area where nuggets of value were said to have been found.

"We do not want to be carrying out frozen men" said Inspector J. O. Scott, commanding officer of the Lethbridge division of Provincial Police. He issued a warning that no men should leave for the gold-diggings unless equipped for a week and mentioned that most of the claim stakers in the valley, travelling light, had planned to mark their claims and get back to the railway in a day—a virtual impossibility.

Carry Meagre Kits

Lightly-clothed, and carrying meagre kits the prospectors are forced to camp outdoors or at the best in tents. Erection of buildings is banned by forestry regulations. But scores of men continue to move down the rail line south from Calgary, striking out across the mountain-slopes from Nanton and Stavely and more are in demand.

As a protective measure, it is planned to station a detatchment of Provincial Police in the Porcupine Hills, centre of the Livingstone Valley rush-area, if approval is granted.

YOUTH RESCUED

WELLAND, Ont., Feb. 16.—Roger Vasey, aged 8, son of Mr. and Mrs. William Vasey, Shotwell, was rescued from drowning in the Welland River late Saturday by two of his youthful companions, Freddy Hodgson, aged 8, and John Dohn, aged 11.

Young Vasey was skating home when the ice cracked and he was immersed in the river. His two companions hastened to the rescue and, crawling on their stomachs, caught his hands and pulled him to safety.

SPECIAL DOOR PRIZES

The Examiner Social Club will have a door prize and novelties for their big dance to-morrow night at the Legion Hall. Tickets for the door prize will be given each person present, and a draw will be made during the evening.

U.S. GOVT. CALLED UPON TO SETTLE REINDEER RANGE WAR IN ALASKA

Natives and White Owners Each Protest Other Poachers on Herds.

BUSINESS STARTED IN 1890.

WASHINGTON, D.C., Feb. 16. — (C.P.).—The solution of a problem reminiscent of the cattle wars of the Western ranges will be sought here to-morrow by a Government committee, which is studying an acute situation in Alaska, caused by millions of reindeer grazing on common lands.

A few thousand reindeer were brought to Alaska by the Government about 1890 to aid the native develop a source of meat and possibly a lucrative business of export to the states. They multiplied enormously.

Presently white men got hold of a few herds and now the industry is dominated by the Lomen Reindeer Company. It is controlled by five brothers and their father, Federal Judge Lomen of Nome. The Indians and Eskimos charge the Lomens set up range rules which they observe only when to their benefit, and take the unbranded stock of the natives. The Lomens in turn charge the Indians have poached on their herds.

Ernest W. Sawyer of the Interior Department was appointed by the investigating committee to survey the industry. His recommendations are to be considered at the session called for to-morrow.

Jailed as Drunk; Is Seriously Ill

HAMILTON, Ont., Feb. 16 (C.P.)—Police to-day refused to make any comment upon the case of Gordon Goodale, 38, who was arrested on a charge of drunkenness, and confined to jail for two days before it was discovered that he was suffering from a serious illness and was not intoxicated.

Goodale is in the General Hospital where his condition is reported as fair.

Hamilton District Officers On Carpet

TORONTO, Ont., Feb. 16. — Major General Victor Williams, Commissioner of Provincial Police, today commenced an investigation under oath into charges recently made concerning alleged irregularities of conduct of a constable in the Hamilton district.

All officers in the Hamilton district including Inspectors Jordan, and Oliver and Constables Smith, Maguire, Peters, Darrah, Langton and Armstrong were called before the commissioner and questioned regarding the charge. The charge claimed that one constable had been visiting an alleged bootlegging place.

The investigation is continuing today and a finding will likely be announced to-morrow.

Pays Respects to Hoover

MINISTER OF JUSTICE VISITS WHITE HOUSE

Hon. Hugh Guthrie (left), Minister of Justice of Canada, with Hume Wrong, charge d'affaires at the Canadian legation at Washington, D.C., upon the former's visit recently to White House to pay his respects to President Hoover and his attendance at the eleventh annual banquet of the Federal Bar Association.

HOLDUP VICTIM'S REFUSAL OF CASH COSTS HIM LIFE

Detroit Grocer Resists After Being Robbed Seven Times Before.

GRAPPLES WITH BANDIT.

Desperado Wounded By Dying Victim's Shot is Captured and Confesses.

DETROIT, Mich., Feb. 16.—Resistance to the eighth holdup man to enter his store in two years cost the life of Ferris Williams, grocer, last night, but he brought about the capture of the robber by shooting him in the leg.

Williams had told police after the seventh hold-up three weeks ago, he was tired of handing over his money weekly and intended to resist the next time.

The hold-up man wounded last night was identified as Chester Majewski. Police said he admitted 15 robberies in the last four months.

Michael Stephen of Lansing, who was in the store when the hold-up occurred, told police that after taking change from his pocket and that of Williams, the robber demanded more and Williams refused. The robber, he said, struck Williams over the head with his revolver, which was discharged. Williams jumped behind the counter and Stephen grappled with the robber, who fired again, this time hitting the grocer.

"Williams staggered, but went on and got his gun," said Stephen. "He fired one shot and fell."

Fear Kingston Man Lost Crossing River

WATERTOWN, N.Y., Feb. 16 (CP) Fear that Parker P. Stevens of Kingston, Ont., may have lost his life in attempting to motor across the frozen St. Lawrence River to Ontario was expressed here to-day by county officers, after more than two days of trying to locate the man failed.

Stevens, a salesman, first planned to cross the ice into Ontario from Cape Vincent, but, Sheriff Frank Walrath, who was informed, decided against this because of the condition of the ice. A report that he had started for Ogdensburgh, with intention of crossing there, was being investigated to-day. First inquiries failed to establish that he had arrived there. Now the officers believe he may have attempted to cross before reaching Ogdensburg.

Stevens was at Cape Vincent a week ago Saturday.

Coal shipped from Soviet Russia to other countries last year totalled nearly 17,000,000 tons.

81-Year Wellander Takes Annual Trip Of 15-Mile Skate

WELLAND, Ont., February 16 (C.P.). — Wilson Chambers, of Riverbend, 81-year-old veteran skater, who each winter since a boy skated down the Welland River to the city, a trip of fifteen miles, made the annual hike this morning. Mr. Wilson uses a pair of Dutch skates over a hundred years old. They turn up in front and have been used by him through all the years.

HAMILTON MAN GETS FOUR YEARS

Found Guilty of Perjury, Conspiracy and Five False Pretense Counts.

U. S. DETECTIVE TESTIFIES.

HAMILTON, Feb. 16 (C.P.).—Jacob Miller, who had previously been convicted on six charges in connection with his apron swindle, was also found guilty this morning in police court of perjury.

"You have now seven convictions against you," Magistrate Burbidge said. "Five are of false pretences, one of perjury and one of conspiracy. The false pretence charges, to my mind, are particularly brutal, as they were affected against women of limited means. As the sum is under $10 in each case, I can only sentence you to six months on each charge, and I may say that I think this entirely inadequate. On the perjury charge I sentence you to four years in the penitentiary and on the conspiracy charge I sentence you to four years in the penitentiary. The last two sentences will run concurrently, and will also be concurrent with the five previous consecutive charges."

This morning Edward L. Harins, Detective Lieutenant of Pittsburgh, Pa., swore that he had arrested Miller in that city in 1931 on a larceny charge. Local court record showed that Miller had perjured himself in swearing that he had never been in trouble.

160 PERSONS DROWNED

CANTON, China, Feb. 16 (A.P.) — One hundred persons drowned in the Pearl River, south of here, to-day when a steamer with 500 aboard struck a rock and sank. Those aboard had been celebrating the Chinese New Year.

SAIL ON MARCH 27

LONDON, Feb. 16 (C.P. Cable). — The Earl of Besborough, newly-appointed Governor-General of Canada, will sail for Canada on the Canadian Pacific steamship Duchess of Bedford on March 27, it was officially announced to-day.

GOOD WORK OF INTERNATIONAL LABOR OFFICE

Controller James Simpson Tells What is Being Accomlished at Geneva.

ADDRESSES ROTARY.

Well Known Visitor Says That Canada is Making Notable Contribution.

An illuminated glimpse of the work of the International Labor office at Geneva was afforded members of the Peterborough Rotary Club at their weekly luncheon today when Controller James Simpson of Toronto, seven times delegate to the annual Labor conference told of the aims of the organization and the progress it has made.

Introduced by Rotarian J. H. Seels, Controller Simpson explained that the International Labor office had been created as subsidiary to the League of Nations because of a realization on the part of leading statesmen of the necessity of a factor in establishing international peace of standardizing the industrial and social conditions of the various counties of the world. The organization consisting of a staff of 400 men and women chosen for their training and experience and representing thirty-six different countries had amassed a vast amount of information from all parts of the world in regard to industrial and labor conditions and this information was available when these problems were being considered in their world aspect.

Claiming that the League of Nations and the International Labor office were a demonstration of the fact that a higher type of civilization was being developed and that an international mind was being created. Controller Simpson said that the International Labor Organization was representative, not only of the employees but also of the employers, and the governments of the world and its conventions and recommendations had a great influence.

Some 29 conventions had been promulgated by the organization and up to the present time 400 ratifications by various countries had been reported, indicating that the decisions arrived at were making their impression upon the different nations.

Canada he declared was making a fine contribution to the work of the Lobor Office. This country standing sixth among the industrial countries of the world, was a young country with a fresh and distinct idealism and not handicapped by ancient con-

NOTORIOUS PAIR ARE SURROUNDED BY DETACHMENT OF DETECTIVES ON APPEARANCE IN TORONTO COURT

Face Two Charges of Armed Robbery Before Mr. Justice Jeffrey and Jury.

ARRESTED IN NEW YORK.

Fought Extraditition But Lost Case—O'Brien Foiled in Break For Liberty.

TORONTO, Ont., February 16 (C.P.). — Heavily guarded by a detachment of plain-clothesmen and detectives, "Two Gun" "Babe" O'Brien and "Sunny" Jim Lass, were brought in the Assize Court to-day to face trial before Mr. Justice Jeffrey and jury on two charges of arme d robbery. The pair are said to be the gunmen who held up and robbed Albert Hatton, of the Durable Waterproof Company, of the firm's payroll last September.

Both prisoners were arrested in New York a few months ago just as they were making preparations to leave for Europe. They fought extradition, but lost their case and were brought to Toronto under unusually heavy escort. During their extradition trial in New York the two men were being moved from one court room to the other when O'Brien made a dash for liberty. He was caught by police in an office building about a block away from the court house.

The case is proceeding.

Date is Set for Heavyweight Bout

CHICAGO, Ill., Feb. 16 (C.P.). —The Daily News to-day said it had learned from a "reliable source" that the world's heavyweight boxing match between Max Schmeling and "Young" Stribling would be held at Soldier Field, Chicago, June 19.

Credence was lent to the newspaper's information by the presence in Chicago to-day of William F. Carey, president and general manager of the Madison Square Garden Corporation of New York, which holds the contract of the two fighters to meet in a championship match some time in June.

SEVERE STORMS CREATE BIG LOSS IN CAPE BRETON

Torrential Downpour of Rain Lasts Saturday and Sunday.

DAMAGE $250,000.

Previous Silver Thaw Breaks Down Miles of Telephone Lines.

SYDNEY, N. S., February 16 — Cape Breton to-day was slowly working to clear up damage estimated in the vicinity of a quarter of a million dollars caused by the most severe series of storms experienced in a decade.

A torrential downpour of rain over Saturday night and Sunday completely removed every vestige of the recent silver thaw that disrupted all methods of communication with the mainland. The heavy rains interfered to some extent with the work of restoring communication and also added to the number of telephones out of order, but made the work of stringing new wires much lighter in view of the disappearance of the ice. Over 1200 telephones in Sydney were out of order.

Brazil has decreed a government central purchasing and standard bureau.

WAYS AND MEANS COMMITTEE DISCUSSES CITY'S RELIEF PROBLEM

Campaign For Relief Funds Starts To-day and Continues For Ten Days.

MONEY URGENTLY NEEDED.

A very important meeting of the Ways and Means Committee of the Peterborough Relief Association was held on Saturday evening and the need for funds for carrying on the work of the Association was emphasized by the reports of relief that are being taken care of by the association.

All last week Manager Norman E. Crowe was placing in the hands of manufacturing plants, merchants, business houses, law offices, doctors; in fact to citizens of every walk of life, cards that are to be used for the purpose of systematically taking care of contributions to the fund.

A suggestion was made that all residents in the city on full time work would contribute the equal of a day's pay for the months of February and March. However, every contributor is asked to use his or her own judgment as to what their donation to the fund will be.

A large number of factories and up-town business have already been organized but many of them are still in a very unorganized state and it is hoped that heads of each concern, large and small, will give their employees the opportunity to subscribe to the fund that it is felt that they are very anxious to do. There is no use living in a fool's paradise and saying that there is no relief necessary in Peterborough. The funds of all the organizations now comprising the Peterborough Relief Association, amounting to some thousands of dollars have been used for relief purposes up to the present time, but are now exhausted.

There is work for the Peterborough Relief Association, for notwithstanding the excellent city relief plan put forward and in operation by the City Council and the aid given by the Central Charity Board, there is still a large number in this city and nearby townships who would suffer from the lack of food, fuel, clothing, medicines, etc.

The Ways and Means Committee desires to impress on our citizens the absolute necessity of a fund being raised and hopes that from to-day the actual commencement of the campaign, and for the next ten days everyone in a position to do so will voluntarily contribute some sum of money for this excellent work.

Cheques made payable to R. T. E. Hicks-Lyne at the Dominion Bank, who is treasurer of the fund, will be thankfully received and acknowledged.

Members of the committee present were G. A. Gillespie, chairman; J. Wells Fraser, Andrew Brown, C. A Salmonsen, J. J. Duffus, F. D. Kerr K.C.; J. E. Sullivan, E. F. Mason, R. T. E. Hicks-Lyne, Dr J. E. O'Brien, W. R. Morris and James Dutton

Organizations reporting progress including the Bank of Nova Scotia, Stocks Bread, Trebilcock Bros., Silverwoods Dairy, Canadian Alladdin Co., Card and Paper Works, Maple Leaf Milling, McColl Bros., Chamber of Commerce, Canadian General Electric Co. Limited, Canadian Johnson Motor Co., Quaker Oats Co., A Wander Co., J. J. Turner and Sons, Ltd., and Canadian Nashua Paper Co. It is expected that before to-morrow other business places will have completed their organization, and a report may be issued in full. Any papers wishing to subscribe may obtain cards from their place of business or by calling at Chamber of Commerce Rooms, or by telephoning N. E. Crowe, at 3433. It is hoped that every citizen who is in a position to make even a small contribution will get behind this movement with financial assistance.

CRAZY MAN USES HATCHET ON WIFE

Wounds Spouse When She Attempts to Aid Son Scalded By Boiling Water.

JUMPS OUT WINDOW.

LAWRENCE, Mass., Feb. 16. — A crazed man early to-day inflicted nine hatchet wounds on his wife when she went to the aid of their 10 year old son who had been scalded by boiling water hurled by his parent. He was captured only after he had plunged through a second story window and was tripped on an icy pavement.

The man was Joseph Stolorz, 45, an allegedly demented weaver. He was under arrest at the Municipal Hospital charged with attempted murder. His wife, Helen, 39, is in critical condition at the General Hospital with two fractures of the skull.

In addition, Mrs. Stolorz suffered from severe burns caused, police said, by hot stove lids which they believed her husband had pressed against her flesh. Stolorz, himself suffered a fractured left elbow and a possible fracture of the hip, sustained in his leap.

Byng May Resume His Duties In April

LONDON, Feb. 16 (C.P. Cable) —It is understood here that Viscount Byng of Vimy, after a long holiday in the south of France, as considerably improved in health and that he will return to his duties as Chief Commissioner of Metropolitan Police, and head of Scotland Yard, early in April.

Viscount Byng, who commanded the Canadian Corps in France for a period during the Great War, and from 1921 to 1926, was Governor-General of Canada, has been forced to spend many months away from London on account of ill-health, since he became head of Scotland Yard.

The Weather

This morning the temperature stood at 32 degrees; Sunday morning at the zero mark. This winter has been remarkable for its frequent and sudden changes, although as yet there have not been any particularly low readings. A year ago this morning we had it 16 degrees below zero, while at Apsley (40 miles north) it was 38 degrees below. The total precipitation last February was 3.16 inches. The total this month so far is only .12 of an inch. Last year there was an unusually mild period from the 19th to the 28th, which took off most of the snow, and left the sidewalks generally bare. The creek running through the town was in flood on Feb. 24th—earlier than usual.—W. P.

Guerra Chosen to Form Spanish Gov't.

ALFONSO'S INVITATION ACCEPTED; FORMER PREMIER STARTS AT ONCE TO REPLACE BERENGUER CABINET

Latest Move on the King's Part Constitutes Great Concession.

MADRID QUIET.

Report on Success of Guerra's Efforts Be Made Known To-night.

MADRID, Feb. 16.—(A.P.) — King Alfonso today asked Jose Antonio Sanchez Guerra, former Premier and Liberal Republican Leader to form a cabinet to replace that of Premier General Damaso Berenguer, which resigned Saturday.

Sanchez Guerra accepted the King's invitation and started to work immediately to get together a Government.

The King's action constituted a great concession, Sanchez Guerra, who was imprisoned for rebellion during the Primo de Rivera regime, having refused to participate in a cabinet which was not based upon the convocation of a constituent convention to write a new Spanish constitution.

Calls At Palace

Sanchez Guerra, who has made himself leader of a party known as the "Constitutionalistas" was the first of the political leaders to call at the palace this morning, arriving at about 10 a.m., and immediately closeting himself with the King.

Madrid was quiet, with the streets crowded with the prelenten holiday throngs. No more police than usual were visible.

At noon after a two hour conference the Liberal leader left the palace, telling newspapermen outside that he had been asked to form a a Government and had consented. He said that he would confer with other political leaders and would return to the palace at 6 p.m. (1 p.m. E.S.T.) to communicate with King Alfonso as to the success of his efforts.

Block Is Threatened By Fire In Cobourg

COBOURG, Feb. 16.—Aroused by clouds of smoke, residents of apartments in the Cochrane Block at King and Division streets, Cobourg's chief business intersection, summoned the fire department and prepared to escape from the building just as church bells were summoning worshippers to morning services. The two firemen, under Chief Turpin, saved the $50,000 group of buildings housing the Bank of Nova Scotia and various ground-floor retail establishments. Papers in a basement ash box are blamed for the blaze. The damage, not yet fully estimated, may total $5,000.

UNEMPLOYMENT LESSONS

ROME, Feb. 16.—(AP)—Unemployment is on the increase in Italy.

Official reports today said that February 1 there were 721,976 unemployed in Italy as compared with 642,169 the previous month.

Of those unemployed now 556,963 are men and 165,013 are women. Unemployment insurance has been granted to 180,494.

The increase in unemployment is chiefly among agricultural workers, due to seasonal lack of work. The unemployed in this class number 208,612.

1,200 Applications For Wilkins' Trip

BLOOMFIELD, N. J., Feb. 16.—(CP)—More than 1,200 applications have come to Sir Hubert Wilkins from persons who want to go with him on his trip this summer under Aretic ice in a submarine.

Sir Hubert, who came here to examine specially constructed lights which will be the "eyes" of the submarine, said "We have to eliminate those seeking to go only for adventure."

Wilkins said the submarine would begin its voyage from Spitsbergen about July 1 and would cross to the Bering Sea, passing the North Pole in its under-ice trip.

A crew of about twenty will be taken in the submarine, Sir Hubert said.

BOY'S SENTENCE BEING CRITICIZED

Petition For Presentation to Minister of Justice is Circulated in Fort Francis.

EX-MAYOR HEADS LIST.

FORT FRANCES, February 16. — Criticism of the severe sentence—five years in the penitentiary and 20 lashes—meted out to the 16-year-old bank bandit, Robert Kitowoski, is manifest by the citizens of Fort Frances who to-day were signing a petition for presentation to the Department of Justice, Ottawa.

The petition, which already bears many signatures and is being circulated by a committee headed by ex-Mayro A Morrison, urges that the punishment of the lash be revoked

Born December 14, 1914, Kitowoski was 16 years and two months old Saturday, and many citizens, in criticism of the judgment, expressed the belief that the boy should have been tried in Juvenile Court and not before Magistrate H. L. Cruso of the town court.

The youthful bandit was sentenced Thursday, less than 24 hours after he had robbed the Dominion Bank branch here of $540. He was captured a few minutes after the robbery.

Three Women Are Brutally Murdered

NEW YORK, Feb. 16 (C.P.)—The bodies of three negro women, all bearing marks of violence, and an eleven-months-old baby on the verge of death from starvation, were found last night in an apartment on West 138th street.

Mrs. Rosa Scott, 38, and her sister, about 40, whose name is not known by the police, were found strangled to death and tied to beds in separate rooms. Mrs. Scott's daughter, Thelma, 16, was found in a bathtub with her throat cut.

The police believe the women had been dead for three days.

FORMER SENATOR DIES IN QUEBEC

Hon. Louis Lavergne Served For Twenty Years in Canadian Upper House.

ONCE LIBERAL M.P.

QUEBEC, Feb. 16 (C.P.).—Hon. Louis A. Lavergne, former Senator, died yesterday at his home in Arthabaska, Que., at the age of 85. Mr. Lavergne was well known in both Federal and Provincial political circles. He sat in the House of Commons as Liberal member for Drummond-Arthabaska from 1897 to 1910, when he was appointed to the Senate. He resigned his Senatorshop last year, and was replaced by Hon. George. Parent, former member for Quebec West.

Mr. Lavergne was born at St. Pierre de Montmagny, son of David Lavergne and Marie Genevieve Delagrave. He was educated at St. Anne de la Poncatiere College, and became a notary public in 1871. He replaced his brother, Joseph, as Liberal member of the House of Commons for Drummond-Arthabaska in 1897, and occupied that post until 1910, when he was appointed to the Senate. For some time, while in the House of Commons, Mr. Lavergne was chief Liberal Whip for the Province of Quebec.

The former Senator was twice married; his first wife was Eugenie Landry, and his second, Alida Pacaud, widow of William Duval, Arthabaska. Mme Lavergne has been dead 13 years. He leaves a son, Renault Lavergne, lawyer, of Arthabaska, and a daughter, Marie Louise, wife of Hon. Albert Malouin, retired Judge of the Supreme Court.

The funeral will be held here Tuesday morning.

DREYFUS AFFAIR REVIVED IN PARIS

Dramatist Presenting Play on Case Denies Woman Used Horsewhip on Him.

1894 SCANDAL.

PARIS, Feb. 16 (C.P.). — Mlle. Esterhazy, the daughter of one of the principals in the world famous Dreyfus affair, came to the aid of her father's reputation to-day and allegedly struck a blow with a horsewhip in its behalf.

Her victim was the dramatist, Jacques Richepin, adaptater of a German play dealing with the Dreyfus case now playing at a boulevard theatre.

The dramatist denied that she struck him, but said that she called him "miserable," and added that he had dishonored her father. He said he replied that Esterhazy had dishonored himself.

She answered, "You must have been paid for it." His reply was "No, in any case it was not in German marks." He ejected her from his home, and the police arrested but later released her.

The reference was to charge, partly substantiated, that Major Esterhazy was guilty of selling French secrets to the German Military Attache in Paris in 1894, an offence for which another French soldier, Alfred Dreyfus, was convicted and sentenced to life imprisonment.

After world-wide agitation the case was reviewed and Dreyfus was released, serving gallantly in the last war.

Farm Lad Is Killed By Cousin's Bullet

ORILLIA, Feb. 16.—Charles Symington, 17 year old farm boy of Atherly, was fatally injured when his companion's gun was accidentally discharged a bullet entering his abdomen. He died shortly afterward. Symington and George Jackson, his companion, were target shooting near their home. They were first cousins.

According to Provincial Constable Robert Purvis, who investigated, the boy ran into the house, cried out to his mother, "I'm shot," and collapsed. Constable Purvis said that an inquest is unlikely. Charles was the only son of Mr. and Mrs. John Symington.

Herren Georg Ollert and Hans Rottmayer, German architects, have drawn plans for a ship elevator which will raise the largest liners 200 feet.

Women have assumed control of the local native retail business at several Goal Coast cities in Africa.

BILL UNDER WAY TO OUST ALIENS

Measure Provides For Admittance of a Few Immigrants to U. S.

WANT 245 EXTRA POLICE.

WASHINGTON D.C., Feb. 16 (CP) Undesirable aliens will be deported from the United States and a few immigrants will be admitted for two years if pending legislation is enacted at this session.

President Hoover received a bill to deport aliens convicted of smuggling narcotics, which passed congress last week. His approval is expected.

Favorable action on the Chief Executive's request for $500,000 to employ 245 patrolmen to accelerate deportation of undesirables has been indicated by the House Appropriations Committee.

The Johnson-Hayden bill, in line with Hoover's recommendation is to be considered by the House Immigration Committee to-day. It would authorise the Secretary of Labor to institute deportation proceedings, particularly against aliens convicted of charges involving a penalty of one year imprisonment or more.

Proceedings also could be instituted in districts where the aliens made unlawful entry instead of through the labor department.

The burden of proof of legal entry would be placed on the alien, and any person having knowledge of illegal entry also could be prosecuted. The last provision is aimed at smugglers.

A vote is also scheduled by the House Immigration Committee on the Jenkins bill to restrict imigration for two years as an employment aid.

PRINCES TO VISIT OLD INDIAN RUINS

Brothers Fly Over Fuming Volcano Mt. Misil on Way to Areguipa.

GIVEN WARM WELCOME.

AREGUIPA, Peru, Feb. 16 (C.P.).—The Prince of Walets and his brother, Prince George, planned to spend today amid the ruins of the old Indian capital, Cuzco. A special train bearing them and their party which left here at 9 p.m. last night, took them to Cuzco and will bring them back here later, preparatory for their trip inland to La Paz, Bolivia.

The two Princes and their party came in airplanes yesterday from Lima, where they had been entertained for several days. Just before landing, their planes circled over the fuming volcano, Mt. Misil, and then came down at Pocnoncche Field at its foot. Both looked admiringly at the beautiful cone, one of the most famous of the Andes.

Prince Tests Spanish.

At the field the Prince of Wales had another opportunity to test his Spanish. An official delegation met the party there and he replied to their greeting in Spanish, much to the party's delight. Among those greeting him were the Prefect of the Department of Arequipa, the Mayor of the city, the British Consul and about 2,000 residents of Arequipa.

The Prince then asked for the Peruvian army aviators who had escorted him to Arequipa and thanked both them and Harold Harris, vice-president of the Pan-American Grace Airlines and general manager of the Peruvian Airways, which furnished the plane for the trip.

The trip to Arequipa was made in automobiles, and took about an hour. The Princes received the greetings of the British colony at the home of Louis Blaisdell, general manager of the Peruvian Railway.

WARS WON IN AIR SEEN BY BISHOP

Famous Canadian Ace Claims Army, Navy Necessary Till Peace Ratified.

SPEAKS TO ARTILLERYMEN.

OTTAWA, Ont., Feb. 16. (CP)—Aircraft will constitute the "striking arm" of the future war believes Col. W. A. Bishop, V.C., famous Canadian ace who addressed a Canadian Artillery Association annual dinner here. Forces on the ground would be the holding service and the navy would provide the sea transport.

"Given an adequate and thoroughly equipped air force, obviously there is no way of fighting any country which it is defending, except by air" he said. "Provided that the air force is supported by an adequate army on the ground, then the bases of the air force cannot be attacked on the ground, and so troops on the ground become a holding force, and given adequate air strength, no navy can approach within 100 miles of the coast of the country possessing that air strength.

"And so the function of the navy can only be the transport of troops and supplies along the sea lanes protected by that air force. I believe the air forces of the future may win the wars, but the army and navy are necessary until peace is ratified."

More American cigarettes were smoked in British Malaya last year than in any previous twelvemonth.

Jugoslavia Queen Ill With Measles

BUCHAREST, Rumania, Feb. 16.—(AP)—Queen Marie of Jugoslavia, sister of King Carol and second daughter of Dowager Queen Marie, has the measles.

Ill for several days, the Jugoslavian queen Saturday was put to bed after developing an inflammation of the trachea. Physicians were called and found bronchitis and a rose rash with temperature, which they later diagnosed as measles.

Queen Marie telegraphed King Alexander, of Jugoslavia that his wife was ill and it was believed he might come here to be at her side.

Queen Helen, estranged wife of King Carol, who late Saturday was thought to be developing pneumonia, was much improved today. Her illness if of much less consequence than was at first supposed.

Papal Radio Station Resume Tests To-Day

VATICAN CITY, Feb. 16 (A.P.) — The Papal radio station will resume its broadcast tests this afternoon, sending translations of the Pope's message of last Thursday to distant stations in Australia, South Africa, Spanish America and perhaps New York.

The trials will run from 3.30 p.m. to 4 p.m. (9.30 a.m. to 10 a.m. E.ST.) on a 19.84 wave length, and from 4.40 p.m. to 5 p.m. (10.30 a.m. to 11 a.m., E.S.T.) on a 50.26 wave length.

These will be in the nature of repetitions of tests of last Friday, and will be continued intermittently for several weeks. There has been no decision as yet regarding regular religious programs.

COTTON WORKERS RETURN TO JOBS

Expect Only 50 or 60 Per Cent. Will Find Work Due to Depression.

BEEN IDLE MONTH.

MANCHESTER, Eng., Feb. 16.—(AP)—Between 250 000 and 300,000 cotton mill workers returned to the factories hereabout to-day ending a lockout and strike over nearly a month's duration which seriously disrupted the Lancashire textile industry.

The return followed an agreement Friday between the workers and employers on the employes' demand to institute a more looms per weaver system. Although the system gave the workers somewhat better pay they attacked it as throwing other men out of work.

Because of the depressed state of the industry it was not expected that more than 50 to 60 per cent. of the workers would find jobs to-day but current reports of revival of trade in India gave considerable hope of increase in work.

AIMEE LANDS AT SHANGHAI.

SHANGHAI, Feb. 16 (C.P.).—Aimee Semple McPherson, Los Angeles evangelist, and her daughter Roberta, arrived here by steamer to-day. The daughter said the evangelist was on a voyage around the world for her health. Mrs. McPherson remained in a hotel room and declined to receive callers.

The evangelist was said to be desirous of conducting a meeting in a mission she founded here in 1927.

IF YOUR EARS RING WITH HEAD NOISES

If you have catarrhal deafness or head noises, go to your druggist and get 1 ounce of Parmint (double strength), and add to it ¼ pint of hot water and a little sugar. Take a tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucous stop dropping into the throat. It is easy to prepare, costs little, and is pleasant to take. Anyone who has catarrhal deafness or head noises should give this prescription a trial.

BRITISH DRIVERS ARE RESENTFUL

Dr. A. Salter States Ministry May Issue Warning Against Drinking While Driving.

DENIAL ISSUED.

LONDON, Feb. 16 (C.P.). — The furor which Nancy Lady Astor stirred up in the world of sport with her declaration that Australian cricketers had beaten England because the Colonials did not drink had spread today to motorists as a result of a speech by Dr. Alfred Salter, M.P.

He said the Ministry of Transport was considering issuing cards to all drivers, warning against drinking and that the cards probably would be similar to those issued by the police of Berlin and Vienna, warning against consumption of alcoholic beverages before or during periods of driving.

Motorists have envisioned the day when British drivers will be forbidden not only to drink, but also to smoke, as is the case in Norway, but the transport ministry has said that Mr. Salter must have been under a misapprehension, for no such warning is being considered.

The speech was widely read, however, and thousands of motorists remained under the impression that the Ministry was to inaugurate what the drivers considered a curtailment of personal liberty.

GANDHI HEADED FOR CONFERENCE WITH LORD IRWIN

Mahatma Expected in New Delhi Tuesday After Observing Day of Silence.

FIRST DECISIVE ADVANCE.

Expect Agreement Will Permit Nationalists to Take Part in Coming Negotiations.

NEW DELHI, India, February 16.—(C. P. Cable.) — The Viceroy of India, Lord Irwin, and Mahatma Gandhi, Hindu Nationalist leader for the first time, will meet personally to confer on the Indian situation. The development arouses hopes that the Viceroy and the "holy one" will reach an agreement enabling the stoppage of the Nationalist Congress Party's campaign of non-violent civil disobedience, inaugurated just over a year ago.

The Viceroy to-day acceded to Gandhi's request for a conference, and telegraphed to Gandhi at Allahabad an invitation to come to New Delhi. The Mahatma was to-day observing his weekly day of silence but he boarded the train at Allahabad this evening, and will be here to-morrow.

The conference, the first decisive step in the deadlock which has reigned between the authorities and the Nationalist Congress, was brought about through the intervention of two outstanding delegates to the London round table conference, Sir Tej Bahadur Sapru, moderate Liberate leader, and M. R. Jayakar, Hindu Mahasabha delegate.

The two, shortly after their return from London, got in touch with Gandhi, and had several conversations with the Mahatma and members of the Congress party working committee, as a result of which the Mahatma sent the letter to the Viceroy seeking a conference

The Real Estate Brokers Act, 1930

will come into force
19th FEBRUARY, 1931

All must be registered by
28th FEBRUARY, 1931

EXPLANATION OF THE ACT AND REGULATIONS

WHO MUST REGISTER

Every person who wishes to trade in real estate will apply for registration unless he comes within the exemptions.

REAL ESTATE BROKERS doing a general real estate business will apply for registration Form A; a real estate broker doing business by himself may apply as an individual, but partnerships or companies may apply for registration as such. If the Provincial Secretary approves of the partnership or company the partners or officers need not register separately. Branch Managers should always apply separately for individual registration. The fee for all Form A applications is $10.00 for balance of the fiscal year.

SALESMEN, including every person employed, appointed or authorized by any real estate broker to trade in real estate whether directly or through sub-agents, will apply for Registration Form B. All salesmen must be registered individually before trading in real estate. The fee for salesmen is $2.00 for balance of the fiscal year.

OTHER EMPLOYEES not usually trading in real estate may be temporarily exempted from registration either as a class or individually on application to Registrar. Thus, accountants, clerks, telephone operators, typists and the like need not be registered unless the Registrar requires, even though they may make an occasional trade or otherwise do some act in furtherance of a transaction. Applicant brokers will state what classes of employees they desire to have exempted, or may name individuals, describing their duties.

EXEMPTIONS

The following are exempted by the Act:

Assignees, custodians, liquidators, etc., under The Bankruptcy Act, etc.; persons or companies not usually trading in real estate where such trade is not made in the course of continued and successive transactions; banks, loan and trust and insurance companies; persons in respect of any mine or mining property within the meaning of The Mining Act; persons carrying on real estate business in municipalities other than cities, unless within five miles from the boundaries of a city having a population of 100,000; and solicitors trading on a client's account;

(See the Act and Regulations for exact wording of the exemptions).

Applicants will receive a copy of the Act and Regulations with the Forms.

GENERALLY ALL WHO WISH TO CONTINUE TRADING IN REAL ESTATE SHOULD APPLY FOR REGISTRATION TO W. W. DENISON, K.C., THE REGISTRAR, PARLIAMENT BUILDINGS, TORONTO.

LEOPOLD MACAULAY,
Provincial Secretary.

February 16th, 1931.
Parliament Buildings, Toronto.

Miss Helen Blade entertained a number of her friends in honor of her birthday. The evening was spent in playing cards and concluded with a midnight supper. The table was tastefully decorated in Valentine colors of red and white. Prizes for cards were won by Miss M. Grierson and M. J. Lane. Those present were the Misses Carroll, Payne, Grierson, Messrs. B. Austin, G. Wensley, R. Killingbeck, J. Lane and E. Prisell.

• • •

Under the auspices of two groups of the Church Women's Association of St. John's Church, a very successful Community Bridge party was held on Saturday afternoon at the homes of several of the members, followed by tea served at the home of the president, Mrs. J. Comstock, Rubidge street, and Mrs. Webber F. Turner, Gilmour street. Hostesses who entertained for bridge games were Mrs. J. McIntyre, Mrs. F. L. Roy, Mrs. T. W. H. Young, Mrs. W. T. Holloway, Mrs. H. W. Darcy, Mrs. W. Blackwell, Junior, Mrs. A. E. Oaddy, Mrs. W. Ackerman, Mrs. H. W. Morphet, Mrs. C. L. Brewer, Mrs. W. F. Turner and Mrs. J. Comstock. Prizes were given for the two groups, and were won by Mrs. E. S. Martin and Mrs. West (high contract); Mrs. Fred Percy and Miss S. A. Tomkins, (high auction); Mrs. R. Gavine and Mrs. A. Denmark (lucky number). Mrs. Comstock was assisted in receiving by Mrs. H. W. Darcy, leader of one of the groups, while tea was poured by the second group leader, Mrs. T. W. H. Young, and Mrs. W. J. Hopwood. Miss H. Hugel ushered the ladies to the tea room and Miss S. A. Tomkins acted as treasurer and general convenor. Assistants were Mrs. Herbert Young, Mrs. Roy Hutchinson, Mrs. W. Ackerman, Mrs. A. Gibson, Mrs. W. T. Holloway and Miss Leone Comstock. The arrangement of the table was unique and very effective. On a cloth of filet lace was spread a circle of elongated rose petals that formed a crimson base for a red basket with a bow of tulle, holding crimson paper roses with little rosebuds entwining its double heart-shaped handle. From the basket stretched narrow crimson ribbons ending in red hearts placed on the cloth and there were silver candlesticks holding red candles that were backed with red wire hearts in a double design. The same Valentine note was carried out in the buffet adornments of red candles and mixed bouquet of red tulips, white narcissus and white lilies. Daffodils and ferns were used in the other rooms. The treasurer's plate was a large red flower with crimson paper pests and the tally cards were miniature Valentines. At Mrs. Turner's home, tea was poured by Mrs. E. Turner, assisted by Mrs. H. C. Southeran, Mrs. A. L. Amys, Mrs. C. Brewer and Miss Margaret English. Miss English had charge of the arrangement of the very pretty table which was covered with lace and centered by a red basket of flower petals from which white tulle cupids threw red hearts over the cloth. There were red candles in silver holders and spring flowers; red tulips, daffodils and narcissus, decorated the rooms, where cut out red hearts commemorated the season. Among those playing cards were: Mesdames R. Cottrell, R. Hutchinson, R. E. Clarke, W. Comstock, L. Yeates, S. Newhall, G. Poole, W. H. Gibbs, E. McAvoy, J. S. Fanning, F. Brooks, J. Roach, L. Brooks, T. G. Loudon, H. E. Stenson, W. O. English, C. E. Clements, D. W. Clark, White, Lillico, W. M. Lang, H. W. Morphet, J. H. Seels, N. H. Sutton, P. Blackmore, Robinson, J. McDonald, Robinson, W. Lytle, W. Sangster, H. H. P. Johnston, B. Jagger, L. Leclair, M. Comstock, G. F. Elms, Hay, W. J. Preston, A. Weddell, W. Garrow, Cassan, J. J. Turner, J. Patterson, W. L. Ferguson, J. Bell, L. Spriggs, L. Browne, A. Denmark, F. Percy, W. J. Kent, C. H. Crowe, Dishart, T. P. McCullough, F. M. DelaFosse, A. Spence, A. L. Amys, W. Ackerman, J. D. Collins, N. J. Wootten, Ruiter, Leeming, Young, E. Hatton, R. Denne, R. C. Blagrave, B. Ottewell, P. Hooper, W. Ross, R. Hinton, E. Turner, T. McWilliams, B. L. Burns, M. E. Turner, Martin, Wert, W. T. Holloway, R. Gavine, D. Drummond, Harris, and the Misses A. M. Price, E. Bolton, M. Rogers, Wyatt, Denne, H. V. Bell, Anne Cracknell, Anne Heideman, Halliday Clementi, Linden Hall, S. A. Tomkins, Lane, A. Gillespie.

A very successful silver tea and sale of home-made cooking was held on Friday afternoon in Reid Street Hall under the auspices of the January and February birthday units of Trinity Women's Association. The hall was very attractively decorated and softly shaded floor lamps were placed throughout the room. The platform was lovely with cosy furniture and rugs with a profusion of Spring flowers in silver holders on the piano and tables, and a large silver candelabrum on the piano solding six pink candles. The guests were received by Mrs. R. J. Kidd, president of the Women's Association, and Mrs. D. Wren. The committee in charge of arrangements were: Mrs. Duncan Walker, Mrs. A. Parker, Mrs. Robert Mills and Mrs. Morley Lyle. The three long tables were lovely with a silver tea service, silver bowls, baskets and vases of tulips, narcissus, daffodils, and trailing ferns, with sandwich plates, cake baskets and bon-bon dishes, all in silver. Mrs. Ray Brown and Mrs. H. Tanney had charge of the tables where tea was poured by Mrs. J. A. Bannister and Mrs. J. H. Smith. Assistants were Mrs. F. Jobbitt, Mrs. A. Cunningham, and Miss Helen Bannister. At a second table, in charge of Mrs. M. Lytle and Mrs. Robert Neill, Mrs. M. A. Morrison and Mrs. M. Lyle poured tea, their assistants being Mrs. D. Bissell, Mrs. J. H. Miller and Mrs. C. Huffman. At another table in charge of Mrs. Theodore McWilliams and Mrs. Robert Hicks, tea was poured by Mrs. R. F. Downey and Mrs. R. Hicks with Mrs. J. J. McBain, Mrs. G. Elms and Mrs. N. Hamley assisting. Mrs. A. Fife made a genial and efficient treasurer. A splendid variety of home-made cooking was in charge of Mrs. T. Brown, Mrs. W. P. Blackmore, Mrs. T. Sargent, Mrs. Ashby and Mrs. W. G. Graham, the latter acting as treasurer. Soft music was played during the afternoon by Mrs. T. Cruickshanks and Miss Jean Ray.

Marion Salmonsen entertained a number of her girl friends on Saturday at a jolly Valentine party which also took the form of a pyjama parade, the guests appearing in the latest ideas in night wear. Songs, dancing and games were the order of the entertainment with a dainty supper, decorations for which were in red and white, with red carations. Prizes were won by Marguerite Lillico, Shirley Bond and Hilda Thompson. The other guests present were Viola Bell, Dora Beatty, Marguerite Glaspell and Jean Meyers.

• • •

Mrs. Doherty of Toronto is the guest of Mr. and Mrs. E. Murphy, 21 Aylmer street.

• • •

Junior and baby gymnasium members held a jolly Valentine party at the Y.W.C.A. on Saturday morning. The big gymnasium presented a pretty sight as the hundred children, all in pretty fancy costumes, enjoyed a program of drills, dances and games. Prizes for the best costume in the grand msreh were presented to: Babies, Harry Lambert (King of Hearts), Alma Hill (Queen of Hearts), Peggy Fenton (Pirate), Barbara Blackwell (Valentine), Corine Coones (Valentine Pirouette), Phyllis Schiarizza (Valentine Sweetheart), Donald Pearse (Pierot)), Honorable mention was accorded to Gladys Holland (Valentine), Joyce Gallagher (Irish Colleen), Dorothy Ross (Old Fashioned Girl), Elsie Chambers (Fairy), Alice Gallagher (Valentine), Joan Welsh (Valentine), Jean McLeod (Indian Girl). Juniors' prizes went to: Evelyn Ranger (Robin Hood), Beatrice Greer (Cowboy), Jean Jackson (Scotch Lassie), Annette Lefevbre (Valentine). Honorable Mention: Grace Lundy (Old Lady), Marjorie Joyce (Rabbit), Mary McPherson (Irish Colleen)), Marjorie Creighton (Japanese), Lily Long (Valentine), Cecelia Delorme (Valentine),) Florence Trebilcock (Hobo). An event of special interest was the presentation by Mrs. E. E. Harvey, president of the "Y" to junior swimmers of the Royal Life Saving Society certificates, the following having passed the examinations: Lily Long, Dora Doukas and Beverley Cowell. Refreshments of ice cream and cookies brought the happy party to a close.

• • •

A very successful Valentine dance was held by the Peterborough U.F.O. Club No. 519 in the Conservatory Hall on Thursday evening when about two hundred and twenty-five people enjoyed dancing with music supplied by Jack Marshall's Orchestradians. The Hall was prettily decorated with Valentine colors. Miss Jean Gillespie, of Otonabee, was the winner of the lucky number dance. The patronesses were Mrs. W. W. Dawson, Mrs. W. R. Shields, Mrs. Howard Quinn, Mrs. James Thompson, Mrs. Albert Middleton, Mrs. Alex Huston, Mrs. McIvor, Mrs. Cliff Hancock Mrs. S. Redmond. The dance was under the direction of a committee composed of J. Tully, K. Petrie, W. D. Hutchison, D. Stewart, C. Seymour and E. A. Scott.

• • •

To-morrow is the big night for The Examiner Social Club, who are sponsoring their second Relief Dance at the hall of the Canadian Legion. All proceeds will be used for relief work. Music will be furnished by Mose Yokem and his orchestra.

• • •

The many friends of little Ruth Erwin of 301 King street will regret to learn that she had an operation for appendicitis in St. Joseph's Hoepital on Saturday.

• • •

A charming Valentine tea was held at the home of Mrs. F. J. Elliot, Bolivar street on Thursday afternoon under the auspices of the Prince of Wales Home and School Association. The rooms were attractively decorated in red and white with valentine novelties of hearts and cupids and a profusion of spring flowers. The guests were received by the hostess, assisted by Mrs. G. A. Spicer, president of the Home and School Association and the guests were ushered to the tea-room by Mrs. F. Gillespie. The tea table was lovely with a Cluny lace cloth and central silver basket of red carnations. Mrs. G. S. Mattice and Mrs. D. Munroe poured tea and assistants were Mrs. J. Allen, Mrs. G. Wells, Mrs. G. Worboy, Mrs. D. Hughes, Mrs. G. Davis, Mrs. E. W. Fisher, Mrs. F. Pearson. The program arranged by Mrs. N. Todd consisted of readings by Mrs. H. E. Connelly and the Misses Isobel Young, Irene Jones, Helen Scott and Barry Jack. These were interspersed with radio music.

• • •

The A.M.O.S. held a very successful dance in the Canadian Legion Hall Friday evening which was attractively decorated for the occasion in Valentine colors and the mystic signs of the order. Rick Roberts' orchestra furnished excellent music for dancing. At midnight refreshments were served in the hall upstairs. The general committee in charge of arrangements included Messrs. John McIntyre, Fred Mowry, Gordon Wyatt, F. Batten, and the ladies in charge of refreshments were Mrs. F. Mowry, Mrs. C. Hotston, Mrs. T. Doughty, Mrs. Robert Murduff and Miss Rita Head.

• • •

Mr. Eric Vincent of 252 London street, celebrated a birthday anniversary on Saturday.

• • •

Mrs. A. Bentley and Miss Evelyn Bentley, Homewood avenue, are absent on a trip to California.

• • •

Mrs. C. D. Hewett, Park street left yesterday for Toronto, en route for Boston, Mass., where she will sail with her mother, Mrs. Sharp of Toronto, and her sisters, Mrs. Beers and Mrs. Armit, also of Toronto, on the R.M.S. (C.N.R.) "Lady Nelson" for the West Indies and Demerara.

• • •

Mrs. Jane Whitfield of 170 Albertus street with her grandchild, Eleanor Whitfield, left this morning for New York city, to visit Mrs. Whitfield's daughter, Mrs. W. T. Standing.

• • •

Mr. Victor Hamilton of Robinson street celebrated a birthday anniversary on Saturday.

• • •

Miss Elienne Cooper of Windsor, Ontario, is a guest at the home of Mr. and Mrs. D. S. Clarke, 201 Stewart street.

• • •

Mr. Blake Haig of Toronto spent the week-end with friends in the city.

FASHION SERVICE

2881

Dashing youth will enjoy this sportsy model of crepe printed silk.

It's sleeveless too, for the flattering shoulder capelet provides sufficient covering for the arms. However, it also may be made with long sleeves. The cape may be discarded too—and the neck finished with applied band and bow in simple smart manner shown in miniature view.

The circular skirt has an inverted plait at the center-front.

Carried out in plain coloured crepe silk in the new lighter shades, crepy woolen, wool jersey, tweed mixtures and novelty cottons, it is also most attractive.

Style No. 2881 may be had in sizes 8, 10, 12, 14, 16, 18 and 20 years.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

Peterborough housewives have been busily engaged in sewing during the past few weeks, perhaps, in an endeavor to get this task completed before the Spring housecleaning should start.

• • • • • • •

Then again many are doing much embroidery work and knitting and crocheting. It is about crocheting that we will talk today.

• • • • • • •

How many of you readers do crocheting in two colors? It is very easy, I am told; in fact, anyone who can crochet at all can crochet in two colors.

• • • • • • •

There are an endless variety of interesting patterns that can be developed. Cross stitch designs can be faithfully carried out in this stitchery and filet crochet designs also.

• • • • • • •

In two color crochet work, the background is worked in one color and the design is another. One color is hidden when not in use by crocheting over it. When filet patterns are developed in two colors, work spaces in one color and blacks in another; using plain crochet stitches.

• • • • • • •

The one thing to remember is to change color on the final loop of the stitch just being finished. You will keep the precision of the stitches exact by so doing and this precision is necessary to the beauty of the design.

• • • • • • •

If you have never done this type of cochet work before, try making a checkerboard design in blocks of alternating solid color. Make a chain of thirteen stitches, begin the first row with a stitch in the second one from the needle.

• • • • • • •

Crochet four stitches, change color, crochet four stitches and change color. These three blocks will complete the line.

• • • • • • •

Crochet four rows in this manner which will complete the three squares. Alternate the color scheme in the next four rows to form the checkerboard pattern.

• • • • • • •

By using heavy yarn or rags and crocheting three rows of blocks, you will have a handy holder or teapot stand to repay you for the practice of learning the work.

That Body of Yours

By James W. Barton, M.D.

NO KNOWN CAUSE OF APPENDICITIS

It is certainly discouraging to study the statistics or figures on appendicitis. During the past thirty or forty years and that is about the length of time appendicitis has really been familiar to the medical profession, not only has the number of cases increased, but the number of deaths also. In the past twenty years the number of deaths has increased three-fold.

Now, when you remember that appendicitis is a familiar word to everybody, and the region of the appendix and the typical pain is likewise familiar, why is it that so many more people die than when so little was known about it?

I sometimes think it is because no one has been able to show the exact cause of appendicitis; that is, no one, definite cause. Years ago a young physician ventured the opinion that it was the formation of gas in the intertine that caused appendicitis. The gas blew up the little tube or appendix, just as a youngster blows up a toy ballon. This opened the mouth or entrance of the appendix so wide, that various things—seeds, rough food, and so forth—got into the appendix and so irritated its walls that the wall became inflamed thus causing appendicitis.

Lately, another physician gives it as his opinion that, during digestion, an increased amount of fluid finds its way into the appendix, which fluid becomes alkaline with some digestive power, and if it remains there long enough, actually breaks down or digests a part of the wall of intestine, thus setting up appendicitis.

Anything that will prevent the appendix from emptying this fluid into intestine is really causing the trouble, that is, small stones made up of waste matter, any pressure from constipation, any misplacement of the intestine, and so forth.

Now, neither the air or this fluid is as yet recognized by the profession as the cause of appendicitis, but two suggestions to avoid appendicitis are admitted, that is, avoiding overfeeding and overeating, and securing regular intestinal movements.

Remember that if appendicitis is recognized and appendix removed within the first 48 hours, there is not likely to be much danger due to pus formation.

THIS DOCTOR NOT AFRAID OF THE FLU

Dr. Robt. G. Jackson says positively colds, 'flu, pneumonia will not attack him. He says: "For everyone protection is only a matter of properly developing their natural defenses," as he directs in his book, "How to Be Always Well." Formerly, he had colds winter and summer, but he had his last cold in 1913 and declares he will never have another. He escapes by keeping his blood alkaline through eating alkali-forming foods, proper care of the skin, proper breathing, exercising, clothing, etc., but the chief thing is alkaline food. His chief protective food in alkali-forming Roman Meal (the only alkali-forming food made from grains), helped out by other alkaline foods listed in "How to Be Always Well." Eat Roman Meal and write for his free booklet, "HOW TO KEEP WELL," and other literature, also sample of Roman Meal and Kofy-Sub, the new alkaline beverage, to ROBT. G. JACKSON, M.D., 502 Vine Ave., Toronto 9, Ont.

5 DAY WEEK FOR BERLIN WORKERS.

BERLIN, Feb. 16.—(A.P.)—A quarter of a million workers in the Berlin metal industry hereafter will have a five day working week with a corresponding reduction in pay.

An agreement with employers made effective as of to-day stipulates that the men shall not come to work on Saturday as well as on Sunday. Clerical staffs will work one and one-half hour less each day.

The workers hope by means of the agreement to prevent further laying off of men and open the way possibly to put some of the unemployed back at work.

A Bedtime Story

by Howard R. Garis

UNCLE WIGGILY'S ROSE BEADS

"Where are you going, Uncle Wiggily?" asked the rabbit gentleman's wife one morning on the second day of February, as she saw him open the front door of his hollow stump bungalow.

"I am going to see Mr. Stubtail, the bear gentleman," answered Mr. Longears. "After that I may call on Mr. Chuck, the groundhog."

"My! You certainly are going to be busy!" exclaimed Mrs. Longears. "Are you going to call on the bear and groundhog and get them to go adventuring with you?"

"Not exactly," said Uncle Wiggily. "Those two gentlemen animal friends of mine are going to have some adventures of their own today."

"What sort of adventures?" asked the rabbit lady.

"Well, as you know," went on her husband, "this is Candlemas Day, or, as some call it Groundhog Day. Though, for the matter of that, it could be called Bear Day."

"Oh, yes, now I know!" exclaimed Mrs. Longears. "This is the middle of winter. We may have six weeks more of cold, snowy weather or we may not. It all depends on the shadows of the bear or groundhog, doesn't it?"

"That's it," Uncle Wiggily answered. "It is a very old saying that if, on Candlemas Day, the bear comes out of his den and the sun shines enough so he can see his shadow, he becomes frightened and hurries back into his den, where he stays for six weeks."

"But if the sun doesn't shine," went on Mrs. Longears, "and if the bear, or groundhog, doesn't see any shadow they will not be afraid and they will stay

What jolly beads these make!

out of their dens, or perhaps not go very far in. And then spring will come in four weeks instead of six."

"Yes," agreed Uncle Wiggily, "that is the old story. How true it is I don't know. But many of my friends believe if the sun shines enough today so that a bear or groundhog can see a shadow there will be still six weeks more of winter. But if it is cloudy then we shall have but four weeks."

"Then I hope the sun doesn't shine," spoke Mrs. Longears, "though I love a bright day better than a cloudy one. But why are you going to call on Mr. Stubtail and Mr. Chuck?"

"I want to ask them to stay in their dens until the sun goes under a little cloud, that is if the sun shines atall', said the rabbit. "then, when I see that they can't notice their shadows on the ground, I'll tell them to come out and, seeing nothing of which to be afraid, they will stay out for the four weeks more we have of winter. You see they must come out of their dens on Candlemas Day anyhow. But itis better if they come out when the sun doesn't shine."

"Yes, I suppose so," agreed the rabbit lady. "Well, hop along and visit your friends. And I hope you have luck making them stay in their dens until there is no chance of seeing any shadow."

"I hope so myself," said Uncle Wiggily.

Away he hopped over the fields and through the woods until he was near the den of Mr. Stubtail, the bear gentleman. The den was under a hill, a cozy, warm den lined with leaves. Animals like bears and groundhogs, or woodchucks, always take a long sleep, or hibernate, during the winter. Food is hard to get for these animals in winter so they think if they take a long sleep of several months they will not feel hungry. You know you can't eat when you sleep.

"But this is the day for Stubby to come out," Uncle Wiggily thought as he neared the bear's sleeping den. "I only hope the sun will stay under the clouds," and he looked anxiously up. The sun was shining brightly then, but when Mr. Stubtail and Mr. Chuck came out it might be hidden from sight.

All of a sudden Uncle Wiggily saw something gleaming bright red in the bushes ahead of him. At first he thought it might be the red tongue of the bear gentleman sticking out. But another look showed Uncle Wiggily that what he was looking at were many bright, red beads on a rose bush.

Of couse the rose bush wasn't in blossom, now, it was winter. But when the blossoms had fallen off at the end of summer in their places, on the stickery, bramble branches, were left these red pods of seeds.

"Oh, what jolly beads these red rose pods will make," said Uncle Wiggily. So he gathered a pocket full of the red rose beads, taking care not to prick himself. Then he was ready to hop on to see Mr. Stubtail and Mr. Chuck to ask them not to look at their shadows for that would make winter six weeks longer instead of four. But, all of a sudden, something happened as Uncle Wiggily picked the red rose beads.

Compensation Bill Comes Up In Quebec

QUEBEC, Que., Feb. 16.—(C.P.)—The Workmen's Compensation Bill, sponsored by Hon. J. N. Francoeur, Minister of Works, will be the big item before the Quebec Legislative Assembly this week. According to Government statements the Act follows the line of the Ontario Act.

The Act embraces all branches of manufacturing, with certain exceptions, however, which come under another schedule. These exceptions such as the Government of the Province, municipal, school and church corporations, will also pay indemnities to their workmen without the obligation of the ordinary assessment which the individual employer must pay.

NOTED ACTRESS GOING ON ROAD

Ethel Barrymore With Her Two Children to Visit Small American Towns.

OLD TROUPERS' TRAIL.

CHICAGO, Ills., Feb 14.—Ethel Barrymore is going back to the small towns of America, retracting the trouper's trail to the days of one-night stands.

With her will be her two children—Jack Colt and Ethel Barrymore Colt—winning their first taste of the road as it was when their mother played "bits" herself under the tutelage of an earlier generation of Barrymores and Drews.

She is closing to-night "Scarlet Sister Mary," the much-discussed drama of the Gullah negroes in which she has played for 22 weeks. Then a half week—"no more"—of rest and the final approval of a crowded itinerary, much of it off the 1931 beaten path for theatrical stars.

There will be one-night stands and three-night stands. "Sleeper jumps" and a renewed thrill for her in greeting unfamiliar audiences.

MADOC

Mrs. H. McGuire arrived in Madoc on Wednesday evening. She was met in Belleville by Mr. McGuire, and they expect to stay with Mrs. A. Kincaid for the rest of the hockey season.

Mr. Frank Andrews, Captain of the hockey team, suffered an injury to his face, very close to his eye, due to a skate cut, during practice on Thursday morning. The injury was dressed by Dr. Eagleson, and though painful, will not be likely to interfere with his hockey playing on Friday evening.

Mrs. M. J. Barkey of Tilsonburg, arrived on Tuesday to attend her husband, who was seriously injured in the Madoc-Tweed scrap last week. Mr. Barkey is reported to be improving slowly.

The Madoc Women's institute held a very successful dance in the Orange Hall on Thursday evening. The evening was rather warmer, and a capacity frowd attended. Delightful music was furnished by the Byrne Orchestra of Belleville. Refreshments were served by the ladies, and dancing continued until a late hour. Total proceeds a little over sixty dollars.

Air mail can now be sent from London to Jamaica, by way of Miami to Kingston, in 11 to 12 days.

DIDN'T WANT HIS FOOD

Queer Case of Indigestion

KRUSCHEN AGAIN TO THE RESCUE

A more pitiable condition of indigestion would be difficult to find. Life was almost unbearable for this poor man. The treatment that he used would surely put your digestion right. Read what he says:—

"Two years ago I suffered very much from indigestion, loss of appetite, and a most severe pain in my back. Food soured in my stomach. I felt most miserable after meals, and had no desire or appetite for them. A friend advised me to try Kruschen Salts. I did so, and I am most happy to testify that after a short time I felt the greatest relief. I continued taking it till I felt myself quite better and a new man. I felt as light-hearted as I did twenty years ago."—W. B.

You know how badly an engine runs when it gets clogged up. It's the same with your body when your gastric—or digestive—juices fail to flow. Your food, instead of being assimilated by your system, simply collects and stagnates inside you, producing harmful acid poisons. What you need is a tonic—Nature's own tonic—Nature's six mineral salts.

You get all these six salts in Kruschen and each one of them has an action of its own. Together, they stimulate and tune up the bodily functions from a number of different angles. The first effect of these salts is to promote the flow of the saliva and so awaken the appetite. The next action occurs in the stomach, where the digestive juices are encouraged to pour out and act upon the food. Again, in the intestinal tract certain of these salts promote a further flow of these vital juices which deal with partly digested food and prepare it finally for absorption into the system.

So you see there is no mystery about Kruschen. It works on purely scientific and well-known principles. Prove it for yourself.

Kruschen Salts is obtainable at all Drug Stores at 45c. and 75c. per bottle.

FREE TRIAL OFFER OF KRUSCHEN

Try Kruschen now at our expense. We have distributed a great many "GIANT" packages which make it easy for you to prove our claims for yourself. Ask your druggist for the new "GIANT" 75c package. This consists of our regular 75c bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and then if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorized to return your 75c immediately and without question. You have tried Kruschen free at our expense. What could be fairer?

Manufactured by E. Griffiths Hughes Ltd., Manchester, England. Established 1760.)

Here's What the Chef Would Tell You

"I MAKE *more coconut desserts* than any other because they are so popular with our men customers." Isn't that something every housewife should know?

THE VETERANS' PROTEST.

As a result of the failure of Haldimand Township Council to engage one of Canada's Victoria Cross men as township clerk war veterans in the Cobourg district have embarked upon a campaign to see that justice is done Canadian holders of the highest award the British Empire can give for valor.

The sad part about such action is that it should be considered necessary.

When the promises made everywhere in Canada during the recruiting days are contrasted with the fact that thirteen years after the end of the war the country's returned soldiers feel it imperative to demand from municipal, Provincial and Federal Governments justice for Canadian V.C.'s, the situation should bring the blush of shame to the cheeks of those who made the promises back in the war years.

A fair deal not only for the men who won the award of valor but for every soldier who fought for Canada, was the least that could be expected in view of the pledges so explicitly stated from every recruiting platform.

And yet not even those who by possession of the coveted cross are the symbol of the bravery of the whole army of which they were members can be sure, according to the Cobourg protest, that the country for which they fought will accord them fair treatment.

NOTHING TO WORRY ABOUT.

The legal committee of the City Council has gone on record as favoring a continuance of the present system of private broadcasting and as opposed to the Government ownership and operation of broadcasting stations.

That action fairly represents the local sentiment in regard to this matter, which seems to be generally against the recommendations of the Aird Commission proposing the scrapping of private stations in favor of Government broadcasting facilities.

However, there does not seem to be any reason to get worried over the question.

In the first place, the Government, with so many other more pressing problems on its hands and with a deficit running into many millions of dollars a certainty, is not likely to be in a hurry about plunging into a new field of activity that will eat deeper into the shrinking revenues.

And in the second place, if the Ottawa administration were prepared to go ahead with a Government radio policy the action of the Quebec Government in claiming that under the British North America Act the Provinces and not the Dominion have the right to control radio broadcasting would effectually stop federal action for some time, certainly until the Privy Council has decided whether or not Ottawa has any jurisdiction in the matter.

There is not likely to be any great change in the radio situation for the present.

THE LIQUOR QUESTION AGAIN.

Like Banquo's ghost, the liquor question will not down.

Although prohibition was read out of the platform of the party at the last Liberal convention and Leader Mitchell F. Hepburn takes the position that it is a social and not a political question the thing is bobbing up again to embarrass more than one Liberal member of the Legislature.

Hon. H. C. Nixon, the Progressive leader, is responsible for the re-appearance of the issue in the political arena.

He has given notice of a motion that would call upon the House to endorse the principle of referendum, and to vote on the submission of the liquor question to the people as soon as there is enough public demand to justify it.

Many of the Opposition members were elected on just such a platform, and it will be difficult for them, having regard to the views of the people they represent, to do anything else than support the Nixon motion, despite the fact that their party has officially scrapped the prohibition plank, referendum and all.

The proposal of the Progressive leader will, of course, be voted down by the Government members.

The attitude of Mr. Ferguson in regard to the matter was that there would be no referendum on the liquor question while his party remained in power, and it is unlikely that there will be any departure from that policy on the part of the new Premier.

The Nixon motion should, however, produce one of the most interesting debates of the present session.

NO MORE NOVELS.

It takes an experienced practitioner of a trade to tell what is wrong with it. Mr. J. D. Beresford qualifies. He knows how to write novels and now, according to an article by him in an English magazine, Author, Playwright and Composer, he is convinced that "the novel in its popular form could hardly survive another generation." We have known for some time that opera is doomed. A sporadic burst of enthusiasm for a new composer now and again means nothing. Opera is done, finished, dead. No one knows it so well as the people most closely concerned with its production. In the same way the playwrights who have given their best to the theatre tell us that it, too, has come to an end. The more strongly all such prophets feel their once great power waning, the surer they are that the art they practice cannot be carried on by others in the existing form.

Mr. Beresford insists that the novel pattern so popular ever since the '90's must go. The familiar well-constructed story, no matter how variously embroidered, may have exhausted its public. Mr. Beresford thinks that possible variations of such plots have been exhausted. Perhaps they are, but it seems more likely that he and some of his brother novelists may be in a sad state of exhaustion. He acknowledges that mystery stories are constantly increasing in numbers, but does not count them as novels. Their popularity is, to him, one proof more that the novel will vanish.

Any number of modern writers are experimenting with new forms. Staccato conversation peppered with exclamation points and commas, and long-winded conversations with no punctuation at all represent two extremes, both of which have a following. But none of the freakish writing commands the wide attention given to the novel written in the traditional manner. People do not complain of a long novel in the old-fashioned manner, when it is a good one. The established leaders in any of the arts may be disconcerted by the comic efforts of newcomers to attain originality, but the public, knowing less of struggles going on behind the scenes, is not annoyed. It hopefully takes substitutes for first-class work when it can get nothing better, and waits with patient confidence for one or two of the youngsters to turn out genuine novelists.—New York Times.

SERVING NOTICE!

There is nothing wishy-washy about the statement issued by the Hon. Raymond Morand yesterday. The member for East Windsor is tired of the procrastination and delay that have marked Ottawa's handling of the automobile protection situation, and is determined to secure action, even at the expense of annoying some members of his own political party.

* * * *

Dr. Morand was elected in East Essex in 1925 and again in 1930, on a protectionist platform. His appeal to the electors last year was particularly distinct, so far as this question is concerned. There were thousands of men out of work in this vicinity and the Conservative candidate asked for their votes on a platform which called for greater tariff support for the automobile industry, in order to provide work for automobile mechanics.

The Bennett Government has been in office for some seven months. In that time an emergency session of Parliament has been held. The tariff has been subjected to drastic changes. Other parts of the country have been helped. Nothing, so far, has been done for the automobile industry and, therefore, for the Border Cities. Is it any wonder that Dr. Morand is disappointed and chagrined?

* * * *

"The docility and patience of the people of this section under the present terrible conditions," Dr. Morand says in his public statement, "are to be commended. Seeing day by day hundreds of autos crossing from the United States, taking from them their employment, that a repetition of the Boston Tea Party at the ferry landing has not taken place can only be laid to the Canadianism and common sense of their men and leaders. Had the Maritime Righters and Western secessionists the same reason for complaint, they would have been heard from ocean to ocean."

The member for East Essex then emphasizes the national responsibility in a situation of this kind. People are losing their homes and finding their children at starvation point, in many instances. Only public charity on a wide scale has sufficed to keep the wolf from the doors of many auto workers during the last few months. The meagre savings of years of work have been swept away. And on top of it all, the United States has raised the bars, so far as commuters are concerned, to a height that makes it practically impossible for a Canadian to land a job in Detroit. "We have here," Dr. Morand's statement says, "a condition of discouragement and misery that is not exceeded and I doubt equalled in any part of Canada."

* * * *

Who can deny the truth of the M.P.'s picture of conditions in the Border Cities. And who can find fault, also, with his frank demand for action at Ottawa that should be helpful in changing the situation? Dr. Morand is a Conservative and a supporter of the new Government. To him, however, it is much more important that his constituency should be protected and his own election promises made good, than that any administration's feelings should be spared. He has been working on this problem for months, vainly trying to secure suitable action from the Government. He intends to bring the matter up in the House of Commons at the earliest opportunity. He feels that the future of the community is at stake, and in such circumstances mere considerations of party do not weigh with him. He believes that the Canadian automotive industry will be helped and much more employment for Canadians provided, if the Government will do exactly what the industry has been seeking for some time, namely change the discount rate granted on the retail list prices of imported cars.—Border Cities Star.

WHY HELP IS NEEDED.

The appeal on behalf of the Peterborough Relief Association is issued for one reason only, and that is because there is a real need that must be met.

Economic conditions have resulted in scores of families being left without income and with no means of buying the necessaries of life.

For most of them the experience is new, alarming and distressing.

They have been used to a steady income, and this unexpected twist of fate that has left them short of food and fuel, that has wiped out their savings and rendered them helpless in the fact of conditions, that are strange and perplexing, has given the more fortunate people of the community a problem with which to deal.

The regular agencies by which relief is extended to those in need cannot take care of all these cases; there are regulations that interfere in many instances with assistance being provided, and to handle the unusual situation it has been necessary to devise new machinery by which a helping hand can be extended.

No such work can be carried on, of course, without funds, and the generosity of those whose income has not been impaired by the depression is being depended upon to supply the necessary money.

It is felt that people who are in a position to help will not be willing to hold themselves aloof from an effort that means the relief of many sad cases of suffering and want.

EDITORIAL NOTES AND COMMENT.

Earl Carroll's revue has been raided by Chicago's police. Evidently it is more serious to show legs in Chicago than to carry arms.

More motor car licenses were issued in Canada last year than ever before. 1930 was not a bad year after all, except for pedestrians.

It is said that the matter of the Attorney-General's handling of the stock brokers' case which played such a prominent part in the by-elections is not going to be introduced into the House by the Opposition. Surely the Legislature is the place to discuss affairs of that kind.

Mr. Meighen may not be coming back into politics, but he is getting an amount of publicity that doubtless makes some politicians envious.

The Ontario Cabinet is soon to be increased by a new portfolio. What really seems to be needed, however, is a minister of by-elections.

The Red-Headed Goddess

By

ALICE ROSS COLVER

(Continued from Saturday)

At last they were off, bumping over the ground and then suddenly rising lightly, easily into the air. She sat back then, in the little seat behind Dirk, caught up, in spite of her irritation, into the wonder of the night and the experience. Up they went, high, higher, heading straight for the lights of the city and circling it slowly. Leaning out to look, Lorraine thought it resembled a sparkling toy-town; then, as they went higher, it became a mere cluster of jewels; and finally as they shot off into blackness, it faded like a dream from the mind.

Giving herself up to the enchantment of the hour, she snuggled down in her seat, tingling with feelings that were compounded of joy and terror. They were alone—she and Dirk—alone in the universe, owning it. They owned the stars, the black night, the whole whirling world. They were powerful—god and goddess. The cold air rushed upon her hot cheeks, the white stars came down.

"I'd like to pick a star, Dirk!" she called to the dark figure before her. "Take me far enough to pick a star!"

"All right! I'll take you far enough!"

Something in the words or his way of saying them startled the girl from her ecstasy, and she peered over the edge of the plane. Where were they? What was Dirk doing? How far was he taking her? She sat tense, expectant, thinking fast, and at last bent over close to him.

"It's been great fun! I've loved it! But I'm cold and it's late. Take me back now."

"You haven't got your star!"

"Never mind. I don't want it. Take me back Dirk—please."

His laugh rang out above the noise of the engine.

"Not on your life! Not on your life will I take you back! I'm going to take you to Utah!"

"To Utah! But Dick, what for?"

"So we can be married before breakfast! How's this for a sweet jam, Lorraine?"

She pressed back in her seat, smothering an outcry. So soon had he succeeded! So early had he caught her off guard! Ultimate defeat at his hands was what she had anticipated; it had, indeed, been a sweet thought to toy with; but an immediate disaster was merely humiliating. And to be rushed into marriage this way—!"

"How's this for a jam, Lorraine?" he shouted again exultantly. "You can't get out of this without needing me! Needing my help! Can You? Can you! Do you want to ask for it? Do you? I you do, I win! I win either way! And I don't care whether we get married in California or Utah. What do you say? Are you asking me to take you home?"

But behind him Lorraine doubled her hands into hard little fists and made no answer.

"Fighting mad!" he chuckled. "She won't speak! All right! On we go!"

Chapter II.
The Unexpected Happens.

The cold air of the night sweeping over her did not cool Lorraine's anger, nor was it lessened because it could only be directed against herself. Dirk, she had to admit honestly, was merely behaving as he had threatened, as she had long wanted him to behave, yet, with feminine unreasonableness, she wanted to revenge herself on him for her mental discomfiture. She had been simply stupid not to have suspected a thing! Not to have realized that Dirk's strange manner and lengthy preparations meant more than his usual precautionary care of her.

Viewing the situation as calmly as she could, she saw no help for herself. Whether she asked Dirk to take her home, or whether she maintained the frosty and dignified silence, she would have to marry him in the morning. Then suddenly she was visited by an inspiration. Of course! How foolish of her to have been alarmed! Bending forward, she shouted her defiance at Dirk's back.

"All right! Take me to Utah! I'll wire Dad, collect, for some money. And we won't be married before breakfast!"

"It took you a long time to think of that, didn't it?" he called back with a laugh; and then there fell a silence. She settled back highly satified with herself. That was where Dirk had slipped up. He had forgotten the convenient way! modern invention linked city with city. No girl, with her wits about her, need be caught in trouble nowadays. She would simply wire home, and in a few hours she would have all the money she needed for a return, independent of Dirk.

Her thoughts went from him back to her father. It was fortunate, she mused, that he had returned from Washington yesterday. If he were not there now, if there were only the servants—But then, she could have wired him in the capital, only it might have taken an embarrassingly long time to receive a reply.

Dear old Dad! He would be awfully disturbed, and the case she had tried to plead for Dirk before she went out with him to-night would not be strenghthened in the least. In fact—she felt disturbed to admit it—this escapade would only seem to justify her father's judgment of her lover. With nothing to do but think she found herself reviewing the recent interview she had had with Senator Kent.

She had come in after an afternoon of tennis with Dirk, expecting to hurry through her dressing and be ready to go with him when he called to take her to Edith Phillips' announcement party. But upon her entrance into the big white mansion where she and her fatherdwelt alone together, she had been informed by Hawkins of his unexpected early return, and she had rushed to the quiet, book lined study, where she knew she would find him, and had flung herself upon him joyfully.

"Dad!"

"Lorraine! What an avalanche you are!"

"Oh, Dad! I'm so glad to see you! The house has been so big since you've been gone!"

"Hm! Maybe so. But I suspect you of flattery. How, if you aren't ever here, do you know its size?"

They had laughed over that. And then they had talked, or rather, he had, while she perched on the arm of his chair and tried to listen. It had been difficult—she wasn't interested in Indians—and her thoughts strayed from Dirk back to her father, whom she loved so greatly.

He seemed, she reflected, to have found the secret of perpetual youth, because for years he had looked to her as he looked now. A small, compact, shapely figure, as agile as a boy's, thick, wavy brown hair with a tinge of auburn in it, as though it might once have been as red as her own, and bright, kind, brown eyes in a grave face that readily broke into a kind smile. Kindness was the keynote of his character. He was kind, thoughtful and just; and on those qualities he had built his life. Thinking those things she had spoken suddenly.

"Of course they'd make you Chairman of the Committee to investigate this trouble among the Navajos. Who else would be bothered about them in his vacation but you?"

"Well, my dear, it's a serious matter," he answered, casting off her compliment before the graver aspect of her words.

"Is it? Tell me."

So he had gone on at great length, and she had put her cheek against his hair and given him again a wandering attention, thinking not of his words, but of him. Would he be kind and fair to the man she might choose to marry? Would he be able to let her go, to share her with another, to—take second place? A little fear that he might be too severe in his judgment, because of his enveloping love for his motherless girl, impelled her to introduce Dirk's name with startling abruptness. She must find out.

"I was going out with Dirk father."

"Where, dear? And when?"

"To-night. To the Club. It's a dinner and dance. Edith Phillips is announcing her engagement."

"Edith Phillips! I don't like her, Lorraine."

"I know. She's fast. The whole crowd's fast—and silly. It's a fast life we lead. But I'm safe. I know how to take care of myself. Besides, I'm going with Dirk."

"Hm—well——"

"You've no objections to him, have you?"

"No. No objections," he had said slowly, "but no recommendations, either."

Her heart had contracted at that. Dad was going to be difficult. Yet Dirk was the best of them all! Oh, by far. She must make him know——

"Just what do you think of him, Dad?

"If he weren't the son of my best friend, I'd think nothing of him at all. As it is——"

She waited.

"As it is, his father has spoiled him completely, by dying prematurely and leaving him a fortune."

"He's not spoiled, Dad. And he wants me to marry him."

At that her father had risen and moved to the window where he stood with his back to her for a long moment. She could not see his face, but she could feel the kindness in him freeze. Even his figure, too, seemed to stiffen, against her.

"Of course," he said, turning back at last. "I suppose they all do, for that matter. Do you want to marry him?"

"I haven't decided."

"Dirk's a nice boy," he began, speaking with a care that revealed to them both what dangerous ground he felt himself to be on. "I like him for a neighbor. I like him for an escort for you. He's a gentleman, but——"

"—for a husband," she suggested, driven to the need for a clear understanding.

"Lorraine, you make this difficult. If I thought you were serious—were really considering—— Of course no man will ever be worthy, my dear——" how hard he had tried to hold to hisessential habit of kindness and justice!"——but I wonder. Has Dirk any sense of responsibility? Has he any interests beyond sports? He seems just a—just a—daredevil, my dear. Immature in every way. A dashing figure, I've no doubt, to your young eyes. Handsome, careless, but how much of a man is he? Stripped of his wealth, his social position, his roadster and motor boat and airplane; what kind of man would be left? What can he do?"

"It would be interesting to know, of course," she had said, proud of her flat indifferent voice.

"There's one thing I can commend." It had seemed to the girl as if he groped to find it, and she felt suddenly remote from her father. He would never see Dirk as she did. There was an age between them. "He seems determined to involve no one in the risks he takes on sea and in the air."

"He doesn't really take risks, Dad. It looks that way, but he's always awfully sure of his machine."

"Just don't go up with him, please."

"I'm crazy to, but he won't take me."

"That's one more thing in his favor," he smiled.

"Oh, Dad, I'd be perfectly safe!"

"Maybe. But I don't believe it. He's utterly reckless. He and young Stephen Moore are a pair of fools. They vie with each other, try anything for excitement—oh, I know! They run ridiculous risks just to be the first to do some stunt. All right, if he wants to chance his life, he can. But he can't risk yours."

"But he wouldn't! That just shows you don't know him at all! He's horribly careful of me. If he took me up he wouldn't do any stunts——" She broke off, acutely aware that her vehement defence was not helping Dirk's case any and with a little breath that was half a laugh and half a sigh, she rose.

"We'll have to drop it." And then she told him quite without planning that she wasn't going out after all. It was his first night at home and she would stay with him.

"Lorraine, come here."

She had gone; and she could remember, now, her surprise, as she stood close to him, to find herself a little taller than he was, and her irritated amusement at even noticing a thing like that with something so really important trembling between them. He had looked at her for a moment without saying a word, then his coldness melted and he was himself again, with his kindness hurting her in its gravity, its depth.

"No, child. Thank you. You must go with Dirk."

"Dad——" She had put out a hand and touched the lock that swept back from his right temple. In that moment life seemed too short. She and Dirk were young, but Dad—"I'd rather stay. I can see Dirk any old time. You're home so little, and Edith won't care—or miss me, even."

(To be continued)

OVERSEAS MAIL

Closing of mails for Great Britain and European Countries:

Full mail for Great Britain and countries via Great Britain to connect with the steamer Montrose sailing from St. John on Feb. 20, mail will close at the local post office at 11 p.m. Feb. 18.

Full mail for Great Britain and countries via Great Britain to connect with the steamer Ausonia sailing from Halifax on Feb 23, mail will close at the local post office at midnight Feb. 21.

Mail for the New York route to connect with the steamer Europa sailing from New York on Feb. 17, mail will close at the local post office at 11 p.m. Feb. 15.

Mail for the New York route to connect with steamer President Harding, sailing from New York on Feb. 18, mail will close at the local post office at 11 p.m. Feb. 13

Mail for the New York route to connect with steamer Paris sailing from New York on Feb. 20, mail will close at the local post office at 11 p.m. Feb. 18.

Mail for the New York route to connect with steamer Scythia sailing from New York on Feb. 21, mail will close at the local post office at 11 p.m. Feb. 19.

Lord Ullswater, former Speaker of the British House of Commons, said in a speech recently at Carlisle, England, that he sometimes had a nightmare that he was back in the House.

Nanking and Peiping, China are to be connected by an air mail and passenger service.

VALENTINE SOCIAL HELD AT BURNBRAE

Ladies' Aid of St. Andrew's Presbyterian Church Stage Interesting Function Friday.

CAMPBELLFORD, Feb. 16 (By Examiner Staff Correspondent)—A very successful, entertaining and profitable Valentine Social was held on Friday evening in the church hall by the Ladies' Aid of St. Andrew's Presbyterian Church, Burnbrae, when a large crowd turned out to enjoy a very jolly evening. The minister, Rev. Donald A. McKenzie occupied the chair.

The program was well presented and very interesting. A musical costume sketch was much appreciated, this being staged by members of the Ladies' Aid. Two readings were given, these drawing a hearty response from the audience. These were by Mrs. F. M. Little and Miss C. Parry.

A piano and violin duet was attractively rendered by Ferne Weatherill and Dorothy Watson, and little Miss Williams delighted her listeners with a vocal number.

Malcolm Hutcheon, champion boy orator, gave his winning address, "Canadianization—What it means and how best to achieve it." This number was a feature in itself and received a hearty ovation from the audience. Two vocal duets were rendered, one by little Howard Hutchison and Grace Ingram and the other by Helen Oddie and Malcolm Hutcheon. The accompanist for these numbers was Miss Jean Craighead.

At the conclusion of the program a dainty lunch was served. The proceeds amounted to $31.35.

CATTLE, GRAIN, PRODUCE

MONTREAL PRODUCE.

MONTREAL, Feb. 16. — Egg and cheese prices were slightly higher and potatoes were lower, while butter was unchanged on the produce and dairy market here last week. Saturday's prices were unchanged.

On the butter market, No. 1 pasteurized was quoted to 32c to 32½c a lb., being mainly Eastern Townships and some Western butter. To retailers solids were 34c and prints 35c a lb. Receipts last week were 3,480 boxes.

Fresh eggs, in cartons, were 30c for extras, 26c for firsts and mullet extras, and 23c to 21c a dozen for seconds. Re-candled storage extras were 19c; firsts, 17c., and seconds, 15c a dozen. Last week's receipts were 3,811 cases.

On the cheese market winter white was quoted at 12c and colored at 14 1-2 to 14 3-4c, while summeer cheese was 15½ to 16c a pound. Receipts for the week were 154 boxes.

New Brunswick Green Mountain potatoes in carlots, were quoted at 75c per 90 lbs. bulk, and to retailers 80c to 85c per 80-lb. bag.

CHICAGO GRAIN.

CHICAGO, Feb. 16—Responsive to drought complaints from Nebraska, wheat displayed a notable upward trend late Saturday, and partly rallied other grains. In connection with Western moisture shortage, reports said the watershed of America was bare of snow and that natural reservoirs were empty, a situation unparalleled in 60 year. Earlier, all gains had declined owing to forecasts construed as indicating a general break-up of dry weather next week, especially over eastern sections of domestic winter crop territory.

Wheat closed irregular 1-8 off to 7-8 up; corn at 1-2c decline to 1-8c advance; oats, showing 1-8c setback to 1-8c to 1-4c gain, and provisions unchanged to 5c down.

CHICAGO GRAIN.

WINNIPEG, Feb. 16 — Demand from outside sources aided in the upward movement of grain values here Saturday, wheat scoring a good advance to close 1 to 1 1-8 cents a bushel higher.

After an erratic initial half hour, buyers with seaboard connections entered the pit, and with offerings light values soon ascended. Commission houses were in the market along with the seaboard traders.

Traders held the view that the reaction of the past few days had placed the market in a healthier condition. Trade volume was appreciable.

A moderate demand existed for cash wheat and a small trade was reported in oats and barley while rye and flax remained featureless.

A Thought

DANGER OF CURIOSITY

There is boundless danger in all inquiry which is merely curious. When a man brings a clear and practised intellect to try questions by the answer to which he does not mean to rule his conduct, let him not marvel if he feels, as life goes on, a sense of desolation, existence a burden, and all uncertain. It is the law of this human nature which binds him; for truth is for the heart rather than the intellect.—Dr. Newman.

What To-day Means To You

"AQUARIUS"

If February 16th is your birthday, the best hours for you on this date are from 7 a.m. to 9 a.m., from 1 p.m. to 2:30 p.m. and from 5 p.m. to 7:15 p.m. The danger periods are from 10 a.m. to 11:30 a.m. and from 8 p.m. to 9:45 p.m.

The planetary aspects of February 16th indicate a condition of restlessness, prudence counsels sticking to routine, until more settled influences prevail. Avoid, if possible, all litigation and be careful not to bite off more than you can chew.

Children born on this February 16th will emerge from a youthful period of indolence into an adulthood of industry. They will, as men and women, have strong, self-reliant characters, and become leaders of those circles in which they move and have their being.

If your birthday is February 16th, you are fired with an ardent and unquenchable ambition to "get there." You also possess the unflagging spirit of industry which, given equality of other conditions, will make your dreams come true. The one drawback to their realization is poor judgment. You either wate your energies in a field of endeavor no longer profitable, or try something for which you are entirely unfitted. Your failures do not, however, discourage you, and the Fates decree that, sooner or later, you will "hit the nail on the head," and capture success.

You are extremely self-confident, and disregard all advice. It must be said, though, that when your plans "gang agee," you never "pass the puck" but accept responsibility and uncomplainingly bear the consequences. You are intelligent, but have a one-track mind, and until your mental train is derailed, you pursue the same route, regardless of the condition of the roadbed.

You are very companionable and a good mixer. Your friends are legion. Your disposition is pleasing, your sympathies are wide and generous. Destiny has in store for you many ups and downs, but, ultimeately, you will achieve some, if not all, of your early ambitions.

BULL BATTLE AT NEW YORK

Auburn Auto Advances Nearly 20 Points to Level Close to Double Its January Minimum.

CASE UP 8 POINTS.

By Claude A. Jagger
(Associated Press Financial Editor).

NEW YORK, Feb. 16. — The bull campaign in stocks was aggressively resumed to-day.

Bull leaders felt that the quiet reaction late last week had been sufficient to consolidate the swift advance which preceded the swift adbirthday holiday, and while operations for the advance were somewhat more restrained than a week ago, they were vigorously enough to push several issues farther into the new high grounds for 1931.

Fresh fireworks were let loose in Auburn, which shot up nearly 20 points to level close to double its January minimum. Case and International Business Machines surged up 8 points, and issues gaining 3 or more to record new highs for the movement, included Westinghouse Electric, Caterpillar Tractor, New York Central, Loews, North American Safeway Stores and American Water Works. Such issues as U.S. Steel, General Electric, American Telephone, American Tobacco "B," American and Foreign Power, American Can., and International Telephone sold up 1½.

The market still maintained its highly professional flavor, with activity largely concentrated in issues which respond easily to bullish stimulation. Nevertheless, public participation has developed in sufficient volume to encourage pool managers.

BROCKENSHIRE IS TOO ILL TO MOVE

Will Appear With Harry Clarkson on Murder Charge at Spring Assizes.

EXAMINATION MADE.

TORONTO, Ont., February 16 (C. P.). — The trial of Jack Brockenshire and Harry Clakson, of Windsor, charged with the murder of Police Constable Roy McQuillen early in December, has been postponed to the Spring Assizes, Mr. Justice Jeffries announced to-day after hearing the explanation of Dr. M. M. Crawford, who examined Brockenshire over the week-end.

Brockenshire has been confined to St. Joseph's Hospital since the day after the shooting, and is suffering from bullet wounds inflicted when he tried to evade capture, while his companion has been in the local jail since that time.

The trial of the two youths was scheduled for the present Assizes, but owing to the fact Brockenshire is still a bed patient at the hospital it will be impossible for him to make an appearance in court before the Spring Assizes.

During Dr. Crawford's explanation in the witness stand to-day he said it would be impossible to remove Brockenshire from the hospital for some time as he is now 30 pounds lighter than the day he was admitted to the institution.

BLOCK IS RAZED IN NEW DUNDEE

Store, Barber Shop, Post Office and Bell Telephone Exchange Wiped Out.

GALT, Ont., Feb. 16 (C.P.). — The Buck store block in the village of New Dundee, 11 miles west of here, was destroyed early Sunday morning with a loss of $30,000. The block contained John Buck's general store, the Bell Telephone Exchange, the Post Office, Jack Schmidt's barber shop and an apartment occupied by Mr. and Mrs. Lorne Zinken. It was late last night before telephone communication with the village was restored. Early Sunday morning Mr. Zinken was aroused by smoke fumes and gave the alarm. Some important papers and the mail bags were saved but practically everything else was destroyed. The firemen were called, and with a new pumper fought valiantly, but the flames had too big a start. The origin of the fire is a mystery.

FORD OF CANADA ADVANCES TO 27

Issue Features Second Hour Trading on Toronto Exchange Breaks Through Previous High.

STANDARD STEEL EASES.

TORONTO, Feb. 16.—Inter-listed issues were strong on Toronto Stock Exchange this morning, though the volume did not increase materially.

Ford of Canada featured in the second hour and trading became quite lively as the stock broke through its previous high of 25 and finally sold up to 27, a new high for the year and longer.

International Nickel was stronger at 16½ or better, Brazilian made fractional headway while C.P.R. was up½ at 44 and Bell Telephone firm to strong.

Standard Steel eased nearly 1 point. The annual meeting is being held to-day and it is expected that earnings will show a considerable reduction, possibly amounting to 90 cents a share.

Twin City shot up spectacularly to approximately 16½, a new high for the year.

Oils were slow and heavy, unchanged to a small fraction lower.

MINING BRIEFS.

TORONTO, Ont., Feb. 16. (Special to Examiner.)—According to advices from Johannesburg, South Africa, profits made by the six groups which control the Witwatersrand gold mines reached an aggregate in 1930 of $67,318,715 an increase of $2,992,900 over the aggregate of 1929. Five of the six groups show for December 1930, an increased profit compared with the shorter working month of November, the aggregate of the six groups for September being $5,752,140, compared with $5,680,820 for November and $6,021,725 for October, which month established a new record in production from the field.

Chemical Research Corporation, whose stock has seen improved demand of late on the mining market, is reported to have prepared a financial statement which will be forwarded to shareholders in about ten days. The Toledo oil refinery erected by Pure Oil Co., is stated to be in operation with the section incorporating the Gyro process of chemical research working at the rate of about 135,000 barrels per month.

Renew Operations.

Winnipeg reports that a crew of 30 men has gone into the San Antonio property at Rice Lake, Central Manitoba district to resume operations at the mine. Wood supply will occupy the new first, after which the contemplated development program will be carried out. At a recent meeting of the Board, the resignation of Leo Erenhous as a director is said to have been accepted and D. J. Kennedy mine manager was elected in his place. R. J. Jowsey, Toronto, is president with James Carruthers, Winnipeg, vice-president.

Tests made late last week at the Norfolk county well of Acme Gas and oil established an initial flow of 525,000 cubic feet per day. The well is located only 600 feet from the pipe line of Dominion Natural Gas Company which will purchase gas at 30 cents per thousand and will have the well connected to the line by Wednesday. Acme has 2,600 acres in this particular block and already has spotted the next well 700 feet from No. 1.

One financial service is of the opinion the strong buying in International Nickel last week probably was due in part to the announcement that the naval pact between France and Italy had expired and that both countries would engage in a program of ship building. As nickel steel is used in practically every part of such ships, the company would stand to benefit by any large program that might be instituted. Such a development also would be of advantage to Falconbridge, whose refinery is located in Norway in good position to make prompt delivery at low transportation cost.

Montreal List Firms In The Later Trading

MONTREAL, Que., Feb. 16. (CP)—After an unsettled opening, the Montreal stock market gained confidence, and by noon a wide range showed a firm upward trend, though gains were largely fractional.

An exception was Abitibi, which was off a point at 10. Smelters led the rising movement up three points to 152. British Columbia Power "A" was up ¼ at 38½, Canadian Pacific Railway gained ¾ at 44, Dominion Bridge moved up ¼ at 51½, and Brazilian sold up 3-8 at 16 5-8, and Montreal Power was up a like amount at 57¾. Cement and National Breweries each gained ½.

MOVEMENTS ARE SLIGHTLY LOWER

Nickel and Noranda Firm Quarter, Reflecting Strength on Larger Boards.

LINDSLEYS STRONG.

TORONTO, Ont., Feb. 16. (CP) Price movements were irregular to lower on the mining market in the forenoon to-day, with interlisted issues making the best showing prior to midday.

Both International Nickel and Noranda firmed a quarter, reflecting strength on larger boards, and Lindsleys were strong. Falconbridge selling up 5 to $1.55 and Sherritt Gordon and Sudbury Basin a cent or so apiece. Hudson Bay dropped 15 to $5.15 and Pend Oreille sold off 24 from Saturday's close at $1.06.

In the golds Lake Shore eased 15 to $26.35 and Teck Hughes displayed softer tendency. Eldorado weakened for the first time in several sessions, prices declining 8 to 60. Medium-priced golds were practically unchanged. Dominion Explorers and St. Anthony, up a cent apiece, were active in the penny group.

Oils were dull, Ajax Oil showing the only change with a loss of a cent at $1.57.

TRADING SLOW ON CATTLE MART

Early Sales Steady To-day at Last Week's Decline.

HEAVYWEIGHTS $6 TO $6.25.

TORONTO, Ont., Feb. 16. (By the Canadian Press)—Toronto livestock receipts and quotations as reported by the Dominion livestock branch to the Canadian press, follow:— Cattle receipts 1269—cattle trade was slow on a small run. Early sales were steady at last week's decline. The best handyweight butcher cattle sold from $6 to $6.25 and some choice heavies sold up to $6. Choice fed calvés brought $8 to $8.50 with medium at $7 to $7.75. The best butcher cows brought from $4 to $5.50.

Quotations.

Steers up to 1,050 lbs. good and choice, $6 to $6.50; medium $5.50 to $6; common $4.50 to $5.50; steers over 1,050 lbs. good and choice $6.25 to $6.75; medium, $6 to $6.25; common $5.50 to $6; heifers good and choice, $6 to $6.25; medium, $5.50 to $6; common, $4.50 to $5.50; fed calves, good and choice $8 to $8.50; medium $7 to $7.75; cows,good $4 to $5.50; medium; $3.50 to $4; common$3 to $3.50; canners and cutters, $1.50 to $2.50. bulls, good $4 to $4.50; common, $3 to $3.75; stocker and feeder steers, good $5.25 to $5.50; common,$4.50 to $5. Stock cows and heifers good. Milkers and springers', $55.00 to $90.00.

Calf receipts 117.—Calf trade opened weak with most tops at $9. Common stock sold downward to $6.

Quotations—good and choice veal, $8.50 to $9.50; common and mediums $6 to $8; grassers $3.50 to $4.50.

Hog receipts 484.—Hog prices were un settled with the bids 25c lower at $7.75 F.O.B. for bacon or $8.75 off car.

Sheep receipts 118.—Lambs were stronger at $8.50 to $9 for the best ewes and wethers. Good light sheep sold from $5 to $5.50 with culls at $1 to $3.

Quotations—Good ewe and wether lambs, $8.50 to $9; medium $7.50 to $8.25; bucks, $6.50 to $7; culls, $6.50 to $7; good light sheep, $5 to $5.50; heavies, $4 to $4.50; culls, $1 to $3.

OFFICER WAITING FOR I. SOLLOWAY

Broker to be Arrested on Release Saturday From Lethbridge Jail.

BE BROUGHT TO TORONTO.

TORONTO, Ont., Feb. 16 (C.P.). — Inspector Charles Gurnett, of the Criminal Investigation Department, Provincial Police, left the city Saturday night for Lethbridge, Alberta, where he will arrest I. W. C. Solloway, of the defunct stock brokerage firm of Solloway Mills Company.

Solloway is scheduled to be released from Lethbridge Jail on February 21, where he has been serving his sentence of four months imposed by the Alberta court when he was convicted on charges of conspiracy in connection with the operation of his stock brokerage business.

Inspector Gurnett carries warrants from the Attorney-General's Department, charging fraud in connection with the Solloway-Mills dealings here. Inspector Gurnett is expected to arrive in Lethbridge to-morrow.

It is not yet known whether Solloway is also sought by British Columbia authorities as was his partner, Harvey Mills, who, when released from Lethbridge, was taken to British Columbia, where he appeared and was later brought to Toronto. It is stated that if British Columbia is also seeking Solloway, the same procedure as in the Mills case will be followed and Ontario will permit his appearance in the West before being brought here.

ROY KERBY, INDUSTRIAL LEADER, DEMANDS EMPLOYEES' LOYALTY

Has Made His Industry Intensely Canadian Enterprise, With No Stock Bonus.

A BRILLIANT CAREER

By J. H. Turnpenny

Roy D. Kerby, Petrolia born boy, is another of Canada's younger sons rapidly coming to the front as one of the country's outstanding industrialists and though but yet in his forty-third year he is placed in that coterie of men which is directing a young nation to a ranking position among the leading nations of the world.

It has been said that in all the length and breadth of this land there are not better examples of institutions intensely Canadian and which have the unreserved loyalty of employees and associates than the Canadian National Railways and Durant Motors of Canada. Roy Kerby is president and general manager of Durant Motors of Canada, and it is the personality of Roy Kerby that has fired the Durant organization with glowing life and made of it an organization with a soul in contrast to a mere monster of the machine age engulfing men at dawn, spewing them out at twilight—automatons whose only respect for the monster is the pay cheque, whose only fear its steady diet may be changed.

Kipling has written of the romance of the machine age; Kerby in a prosiac

ONE OF CANADA'S INDUSTRIAL LEADERS.

manner is imparting a personal regard to an impersonal subject. Employees feel that they have contributed something to each Durant product and take a pride in their work, remindful of the days of craftmanship and hand labor. Success of that intangible body—the company is evidence of the thorough contribution of each individual. Yet Durant has no stock bonus plan for employees. Pride in one's own work becomes pride in the company, which of course, is dependent upon loyalty of the entire organization.

And the company, in turn, recognizes its employees as human beings rather than units. The welfare of the individual is the welfare of Durant. When help is needed, help is forthcoming.

At Christmas time a personal survey was made of each employee. A few instances of actual distress came to light. Immediately steps were taken to alleviate conditions to improve circumstances until such time as employment is resumed.

Materials used in the manufacture of Durant cars in Canada are procured in Canada if possible; the company has encouraged the establishing of concerns for the purpose of manufacturing in Canada, articles employed, directly and indirectly, in the building of automobiles.

Durant is now Canadian owned. Its founders had as their object a wholly owned and fully contained Canadian company but its growth attracted the attention of American interests and subsequently control passed to the Delaware company. This condition existed until a short time ago, when several Canadians formed an investment group and purchased this stock from Durant of Delaware, and the youthful president, Roy Kerby, announced, not without pride, that Durant of Canada once again is owned, controlled and operated by Canadians and in this respect stands unique among automobile companys in the Dominion.

With Durant Since 1925.

Roy Kerby has been associated with Durant Motors since July 2, 1925, when he joined the company as general sales manager. His successful administration is evident by the quick promotion two months later to the post of assistant general manager in full charge of operations. In January, 1926, he was appointed general manager, and in January, 1929, he was elected president.

President in less than four years after joining Durant—a wonderful record of achievement, and due, in his own estimation to hard work and personal interest in that work. Work and Roy Kerby are long associates. He began with the Petrolia Packing Co., and at the age of fifteen years was a travelling representative. The automotive industry was then in its infancy, but Roy Kerby saw in it great possibilities and in the spring of 1913 he entered that field as a retail salesman for the McLaughlin Carriage Co. As a boy on the farm near Petrolia he had driven McLaughlin carriages, thought they were the best made and now he wanted to work for a company which turned out a produce of which he could be proud.

"I had a rare experience when I joined the staff. Mr. Kirby told me as I sat chatting with him in his office at the Leaside plant the otherday.

"I made my connection through the Toronto representative of the company, whom I had known on the road. He told me I would have to interview R. S. McLaughlin at Oshawa. I went to the factory at Oshawa. Mr. McLaughlin was out in the plant. I asked the girl at the desk to point him out to me when he returned. She did and I saw the man striding along with his head down looking like a bear. I stopped him and told him I wanted to join the sales staff and had been told by the Toronto office to see him.

"He just took one look at me," said Mr. Kirby, smiling at the recollection of that interview. "Tell him I saw you," said Mr. McLaughlin, and strode on. And to this day I don't know whether the Toronto representative was pulling my leg when he sent me down to Oshawa.

However, Mr. Kirby got the job. By 1918 he was assistant sales manager at Oshawa. The following July, when it was decided to manufacture the Oldsmobile in Canada he became sales manager of the division. Three years later he was offered a similar position with the Oakland. Then when a change was made in the sales organization of the Cadillac Motor Car Company of Canada, he was elected sales manager from which position he resigned to join Durant Motors.

Recently it has been my privilege to interview three men in their early forties who are outstanding in Canadian industry. Each has an enthusiasm almost approaching the emotional which seems to give way to an intellectual complacency with men in their fifties. Each has certain characteristics which can best be described as "boyish." It was when Mr. Kirby was referring to his association with the McLaughlin Company this "boyishness" became apparent.

"I was then 24 when I was with the—Gosh—the expletive just popped out—it doesn't seem that long ago."

When he talks it is with an animation which causes his whole countenance to light up. There is something about his personality of inspiration—an enthusiasm not merely ebullient but with a deeper resonance strikes a responsive chord.

He is a good dresser and has a penchant for matching different shades of brown. He wears a bowler, drives his own car—a Durant—and drives it well. He belongs to the Mississauga and Royal York Golf Clubs and has turned in an honest score of 81. Last summer he lost a bet that he would break 80 because he took two fives on par three holes.

He married Miss Edna Colgan of Noth Bay, and has a great pride in his home in Forest Hill village. His son, Harold, aged 13, attends Upper Canada College.

JEANNE GORDON VERY ILL

CHATHAM, Ont., Feb. 16—(CP)—Jeanne Gordon, Metropolitan Grand Opera star is still very ill and has been removed from her hotel to the Presbyterian Hospital in New York.

Winnipeg Review

Special Service to The Examiner through the courtesy of R. J. Bawlf Company, Grain and Stock Brokers of Toronto

With the exception of a setback around mid-session when wheat prices sank to a half cent under the close Friday night, the market was higher reaching to levels in the last hour, when prices scarded to 1 3-8 above the previous close. Offerings were light throughout the day and the class of trading rather featureless with sufficient buying by locals and by Chicago interests on spreads to absorb the early offerings, practically all the support in the late trade came from shorts who were covering up over the week-end and they ran the market up on themselves. There was practically no expert business worked overnight, sales being confined to a few thousand bushels and no new business was received during the session but it was reported that there were some good sized orders in the market but under current levels. Interest in cash market was fair in various grades with spreads unchanged and offerings very light. Domestic flour trade continues moderate but there is practically nothing doing in export channels, just a few odd sales. Temperatures were rather low in some districts of the winter wheat belt last night, but no damage to the crop was anticipated and higher temperatures were forecasted for to-night. Chicago wheat was inclined to be draggy during the first part of the day but the strength was shown at Winnipeg pulled Chicago up and they closed about 3-4 higher, while corn closed fractionally easier. Winnipeg market closed very firm with prices 1 1-8 to 1 cent higher.

Coarse Grains—These markets were all firmer with oats leading the upturn. Trade volume continues extremly light but there was some fair buying of oats that was credited to the Quaker Oats Company. Cash coarse grains were generally quiet with the odd cars of oats and barley being worked for domestic purposes. Oats closed 5-8 to 1 higher. Barley 3-8 to 1-2 higher and rye 5-8 to 3-8 higher. Flax firmer in sympathy with the general upturn, but there was nothing of feature going on.

Liverpool due 1 1-8 to 1-2 higher based on Winnipeg.

GOOD WORK OF LABOR OFFICE

(Continued from Page One)

tributions and the Labor organization was interested in Canada's experience with social legislation and in improving industrial and social conditions.

Controller Simpson, referring to the difference in language which it had been feared would be a barrier to the establishment of better relationships among the peoples of the world, explained the way in which the ingenuity of man had triumphed over this difficulty. Behind the chair of the presiding officer Sat some of the finest linguists in the world who translated the speeches of the various delegates and conveyed them through the medium of a telephone system to the listeners in the latters own language. A dial with numbers representing various languages was available to each delegate who had only to turn the pointer to the number representing his own language to be furnished with an almost simultaneous translation of the speech being made.

Rotarian S. R. Armstrong expressed the thanks of the club to Controller Simpson and congratulated the speaker upon the contribution he personally had made to the work of the International Labor Office.

Rotarian Geo. A. Gillespie and W. R. Morris urged the assistance of the Rotarians especially of the employers of labor, in the campaign for funds for the Peterborough Relief Association, pointing out that the need was great and that while a special response was already being made leadership was required.

Controller Simpson prefaced his address by commenting on this appeal by explaining that relief work in Toronto had been greatly helped by contributions from municipal employees. The fire men had given $5,000 and the teachers contributed two per cent of their salaries.

Adrian Macdonald addressed the club briefly on behalf of the Kinsmen to urge co-operation and friendly interest for the effort that organization was making in staging a play. It was the first time in years that such an undenominational organization with a cast representative of the whole community had embarked upon such an enterprise and he promised a fine performance on the part of the cast.

On motion of Rotarian John Juby a letter of condolence will be sent to the relatives of James Connal, well known citizen whose death was announced to the club by the mover of the resolution.

FOREIGN EXCHANGE.

NEW YORK, Feb. 16. (CP)—Prime mercantile paper 2½-2¾ per cent.

Foreign exchange steady; demand rates (Great Britain in dollars, others in cents): Great Britain 4.85 5-8; France 3.91 7-8; Italy 5.23 1-8; Germany 23.75; Canadian dollar at 1-32 of one per cent discount.

This was the word received here today by her brother, Rowley. The message also said that the singer's mother and another brother who have been with here, are returning to the city to-night. The fact that the mother and brother are returning, is taken here as an indication that there is some improvement in the singer's condition.

GAS ADVANCES 6.8 CENTS IN BORDER CITIES

Effective in East Windsor, Riverside and Sandwich According to Contract.

OTHER CITIES PROTEST.

Hearing Opens Before George Henderson, Ontario Gas Referee, To-day.

WINDSOR, Ont., Feb. 16. (CP)—East Windsor, Riverside and Sandwich East township have entered into an agreement with the Windsor Gas Company which gives an increase in price of gas. The former average price was 64 cents and the new price is 70.8 cents per thousand cubic feet.

The new rates are effective on all meter readings beginning to-day and the agreement is to stand for two years. There is one provision however in the East Windsor contract and that is that if any lower rates are made effective in the border area then the lower rates are to apply in East Windsor.

To-day there opened before George Henderson, K.C., Ontario gas referee a hearing of an application by the Windsor Gas Company for increased rates in the border area. The hearing was adjourned until March 11 and an interim rate is to apply. This rate being calculated to-day and it is expected will be the equivalent of the rates accepted by the three municipalities.

Windsor is definitely opposing the application for an increase rate. Sandwich and Walkerville are watching the fight but Walkerville is asking an application through its industrial committee, opposing the proposed increase. Tecumseh is considering the proposal which has been adopted by three municipalities, and with Sandwich West township, may sign the agreement.

The gas rate battle has been developing for more than a year. It was an election plank with some Windsor aldermen. When it became evident that a definite application was to made for a reduction in rates then the gas company made an application for an increase.

Experts examined the books and physical assets of the gas company finally suggestion was made to the councils of the municipalities that an increased rate be accepted without appeal to the referee. The rates are those just accepted by three municipalities.

The changed rates increase the amount paid by users of less than 35,000 cubic feet of gas per month, practically the same rate for the usage and an increase in cost for larger consumption. In addition there is a "readiness to service charge" of 75 cents per month, which was not previously charged.

LANG'S SCHEME DEFINITELY OUT

Would Fight East Sydney Election on Commonwealth Labor Platform.

MANY STEPS PLANNED.

SYDNEY, Australia Feb 16.(C P Cable via Reuter's)—Declaring that repudiation of debts had no place in the commonwealth Labor Party's policy, the party executive to-day passed a resolution that the by-election in East Sydney should be fought on the Commonwealth Labor Platform, not on the drastic proposals of the State Premier, Hon. J. T. Lang.

Delegates spoke strongly against any state being given the right to make Premier Lang's policy an issue in a federal election.

The party also decided to instruct the government to submit certain demands to the Commonwealth Bank, enabling easier carrying out of the operations of the three year financial plan evolved by Hon. E. G. Theodore, Commonwealth Treasurer, and approved by the conference of Premiers at Canberra last week.

This calls for a reduction in salaries of public servants and a tax on interest payments on loans held in Australia.

If the banks will not co-operate in these demands then the party executives urges the plan for nationalization of the banks be put into effect.

The executive also approved the re-entry of Mr. Theodore into the Cabinet, and censured members who criticized his re-instatement.

Wheat Averages Lower To-day on Chicago Mart

CHICAGO, Ill., Feb. 16 (CP)—Influenced by reports of moisture southwest and by much enlarged supplies of wheat afloat for Europe, grains averaged lower early to-day. A decrease of almost 33,000,000 bushels in the Argentine official wheat crop forecast, however, tended to check price declines. Opening 3-8 cents off to ¼ up, wheat afterward showed additional setbacks. Corn started unchanged to ¼ lower and subsequently underwent a further sag.

GRADED SEED IS NECESSARY FOR PROFITABLE FARM CROPS

Many Farmers Breaking Seed Laws by Sale of Ungraded Product.

SOME OF ACT REGULATIONS

Every year large numbers of farmers are breaking the seed laws of Canada by selling seed which has not previously been graded, and are thereby making themselves liable to a fine. Despite the fact that the Seeds Act has been in force in more or less its present form since 1923, many people are still not familiar with its regulations, and are not taking advantage of its protection.

The Seeds Act defines minimum standards of purity and quality for all seeds and prohibits the sale of them below that standard. People employing seed which is not graded are not protecting themselves with the means provided by the Act.

Some of the provisions of the Act, and the regulations under it, should be familiar to all seed users.

1. All seeds offered for sale or sold for seeding must be sold according to grade.

2. No seed grading poorer than number three may be sold for seeding.

3. Purchasers of seed who doubt the grade of the seed bought may submit a sample for testing which must tally with the original sample.

4. Any person may obtain a grading certificate on three samples of seed each year free of charge

5. The only exception to the above is where seed is sold to be recleaned or where grain (but not small seed) is sold from one farmer to another and called for by the buyer.

The Seeds Act was framed primarily to protect the users of seed and these users should see that they get that protection. They should become familiar with the Seeds Act and its regulations, particularly those referring to purity in the different grades. They should secure grades on home grown seed used, and never buy seed (especially clover seed) unless it is officially graded.

The farmer does not usually have the equipment or the knowledge of weeds to determine the weed content of the seed. The Seeds Act provides for a seed analysis service. The good farmer takes advantage of this service—he buys only graded seed and has a grade assigned to his home grown seeds. Copies of the Seeds Act may be secured from the local Department of Agriculture, and its application is sincerely recommended to all farmers wishing to improve his crops.

IMPORTANT FACTS OF SEED SAMPLES

Will Be Analyzed and Graded Free of Charge Under New Plan.

Farmers generally are beginning to take advantage of the opportunity to have their seed analysed for weed content free of charge, so that they may know what they are sowing.

In sending seed samples the following points should be observed:

Three samples are analysed and graded for any farmer each year free of charge.

Before taking the sample, the seed should be thoroughly cleaned ready for sowing.

Two pounds of course grains or two ounces of clover or grass seed should be sent in the sample.

Name and address should be placed inside the parcel as well as on the outside.

The parcels are to be addressed to "Seed Analyst, Department of Agriculture, Ottawa."

Samples should be sent early.

District Markets

AT MARMORA

MARMORA, Feb. 16.—Following are the week-end retail market prices:

Beef, sirloin, 30c; round, 25c; roast, 16 to 23c; stew, 12c; pork, 23 to 28c; lamb, 15 to 30c; breakfast bacon, 40c; butter, creamery, 38c; dairy, 30c; eggs, fresh 25c; chickens, 28c stewing fowl, 25c; potatoes, 25c a peck; $1.00 a bag.

SUFFERED AGONY FROM INDIGESTION

Until She Tried Good, Old TANLAC

Now, Mrs. Louis Calouette, 926 Marie Anne St., Montreal, says, "I eat and sleep and feel better than I have for ten years.

"TANLAC alone did this. TANLAC changed sickness and suffering into robust health and happiness after all other treatments had failed.

Mrs. Calouette goes on to say, "Sometimes the cramps would last two or three hours, while headaches and dizziness made my life miserable. From 147 pounds and weakness, to 167 pounds and health, is what TANLAC did for me." Over 100,000 people have endorsed this tried and proven tonic which cleans and heals the stomach—insures sound digestion—stops gas bloating, palpitation—does away with headaches, dizzy spells, nervousness—and builds up weight and strength.

Get a bottle at your druggist's today—money back if it doesn't help you.

Over 55 million bottles sold.

GIRL GUIDES ACTIVE.

Marmora Group Busy Studying Signalling and Bandaging.

MARMORA, Feb. 16. (Examiner Correspondent.) Marmora Girl Guides met on Friday night. After prayer, roll call and collection of fees, inspection was found to be excellent. During patrol corners, two more girls were successful in their Tenderfoot tests. A game of "Snatch the Hat" was played, followed by another bean bag game, the winner of which was the Snowdrop patrol.

Next the girls were divided into two groups. One under the direction of Assistant Lieutenant D. Haacke learned signalling while the other group under Lieutenant E. Rice, learned further work in bandaging. After fifteen or twenty minutes the groups were changed, the signalling squad to learn bandaging and vice versa. This work was followed by singing and discussion, it was decided to hold the stunt night on April 9. The money accruing therefrom will be used to buy hats and belts which will be loaned to the girls while they belong to the company.

BIRTHDAY PARTY.

Marmora Friends of Mr. and Mrs. W. Gray Spend Evening at Dancing and Euchre.

MARMORA, Feb. 16, (Examiner Correspondent.)—A birthday party was tendered Mr. and Mrs. William Gray at their home on Thursday evening by a number of their friends. Ten tables of euchre were played, the successful ladies being Miss Hilda Phillips, first prize Mrs. Robert Phillips, second prize. Before the party dispersed several sets of square dancing and a splendid lunch were enjoyed.

Lord Hardinge of Penshurst, former Viceroy of India, recently bagged his fortieth tiger at Mysore.

Business Section Of Hornepayne Destroyed

Portion of Hornpayne, Ontario, business section which was razed in $50,000 blaze of undetermined origin. Five business places were destroyed carrying, so it is reported, very little insurance.

JUNIOR FARMERS MEET IN HAVELOCK

Business Session is Followed by Progressive Euchre With Junior Institute Girls.

HAVELOCK, Feb. 16, (Examiner Correspondent.) The February meeting of the Junior Agricultural Society was held in the Orange Hall Friday evening, with a splendid turnout of the membership. The Junior Institute met in the upper part of the hall while the boys met in the basement.

The minutes of the last regular meeting were read and adapted as read on motion of Donald Mathison and Wm. Longmuir. Under reports of committees, Isaac Anderson and D. Mathison reported, that the moving of scenery from Mr. Platt's residence had been impossible, because there was no one home when they called to move it. This will be looked after at a later date. The relief committee composed of Grant Seeney and Austin Wilde gave an account of their work since the last meeting. They bought a quantity of groceries for two needy families in the village.

The bills in connection with the card party were ordered paid on motion of D. Mathison and Mr. Keene. The committee to look after the euchre party, reported everything as being arranged

At the last meeting someone suggested asking Mr. Nelson, the district Agricultural representative, to attend a meeting and give an instructive talk on some important subject, but at that time Mr. Nelson was busy with the short courses being held in Warsaw. On motion of Wm. Longmuir and Hugh Buchanan it was decided to have Mr. Nelson attend the next meeting, on the 4th of March.

The business having all been dealt with the meeting was adjourned until the first Wednesday in March.

After the meeting was over the boys joined the girls, upstairs in the hall, when twelve tables of progressive euchre were played. The honor prizes going to Miss Mildred Wilde and Bert Hagerman, while the consolation trophies were carried off by Miss Irene Anderson and J. R. Bedford. The girls prepared a sumptuous bean supper and this was the conclusion to a very enjoyable evening.

EVANGELIST OPENS CAMPAIGN IN CITY

Large Crowd Attends Services in Bethany Tabernacle on Sunday.

Much interest was manifest in the Bosworth Evangelistic Campaign which opened yesterday in Bethany Tabernacle, George street, under the auspices of the Christian and Missionary Alliance. A large and appreciative audience which practically filled the Tabernacle last night, heard Evangelist Bosworth's sermon, "God's Gracious Attitude Toward All Human Need."

Using for his next text the words found in ii Chronicles 16:9, "For the eyes of the Lord run two and from throughout the whole earth, to show Himself strong in the behalf of them whose heart is perfect toward him," He said, in part: "All the love and compassion and eagerness to bless mankind displayed by Christ as He died upon the cross, is but a revelation of His love, mercy and eagerness to bless men and women at this very hour."

The services opened with a spirited song service in which the audience, a chorus choir, and orchestra participated. An offertory trombone solo, "Raise Me Jesus to Thy Bosom," was rendered by the evangelist, with his daughter, Miss Lenore Bosworth at the piano.

The services will continue nightly at 7.45. To-night, the evangelist will speak on "The Most Important Pursuit."

Soaks Right In And Limbers Up

STIFF JOINTS

New Discovery Limbers 'Em Up and Even the Creaking Ceases

Just rub on Joint-Ease if you want to know what real joint comfort is. It's for stiff, swollen, creaky or pain-tortured joints whether caused by rheumatism or not.

A few seconds' rubbing and it soaks right in through skin and flesh right down to ligament and bone—right where all the trouble starts. It oils up and limbers up the joints, subdues the inflammation, stops the pain, and reduces the swelling. Joint-Ease is the one great remedy for all joint troubles and live druggists are dispensing it daily. Made in Canada—a tube for 60 cents.

And remember when Joint-Ease gets in joint agony gets out—Quick!

OBITUARY

DAVID LAWRIE

The death occurred Sunday of David Lawrie at the home of his niece, Mrs. Ernest Mahood of Smith Township. The deceased was born in Scotland, and is a former resident of Otonabee.

The funeral will take place from Comstock's Funeral Home, Peterborough, at 2:00 p.m. on Tuesday. Rev. J. O. Totton of Bridgenorth will officiate, and interment will be made in Westwood Cemetery.

MRS. HARRY BOWLS

FENELLA, Feb. 16 (Examiner Correspondence).—The death occurred early Sunday morning of Mrs. Harry Bowls of Burnley following a short illness. She is survived by her husband and three young sons.

The funeral service will be held on Tuesday afternoon from the family residence with interment in Bethany (Macklin's) cemetery.

10 APPLICATIONS MADE FOR BONUS

Granted to Cattle Owners Whose First Registered Bull Has Passed Government Inspection.

OTHERS CONSIDERED

Ten applications for the Government bonus, were on Saturday passed by the executive of the Livestock Improvement Association of this County at a meeting held at the Agricultural offices here, while several other applications were also considered.

The Government bonus is granted to cattle owners whose first registered bull has passed the inspection as to growth, quality, conformation and type, on the basis of 20 per cent of the original purchase price. Inspection of the cattle is undertaken by Wm. Knox, Livestock Field man for the county. He was present at the meeting on Saturday afternoon, and along with W. A. Anderson, president of the Association, Max Humphries vice-president and J. B. Nelson, secretary-treasurer gave very careful consideration to each aplication. The bounty is paid by the Provincial Government Livestock Branch on the recommendations of these men and on the production of certificates of pedigree of each of the animals for which application is made.

"Nothing Like It" Say Lovely Women

No wonder beautiful women love this new face powder made by exclusive French process. MELLO-GLO stays on longer. Prevents large pores. So smooth and fine, it blends naturally with any complexion and gives fresh, youthful bloom. No irritation. No flaky or pasty look. Never leaves the skin dry. It's wonderful! Sold through all druggists and at toilet goods counters.

MARMORA.

At the home of her daughter, Mrs. F. R. Wells, a pleasing euchre party was held on Friday night in honor of Mrs. C. Reynolds. Mrs. T. Warren won the prize and Mrs. C. Nichol received the consolation prize.

Mr. Gordon Gray of Queen's, spent the week-end with friends in town.

Commencing Ash Wednesday, evening services will be held at St. Paul's church, on Wednesday evenings during Lent.

Miss Margaret Vesterfelt is visiting her parents near Cordova, for a few days.

Miss Alice Cross of Deloro, underwent an operation for appendicitis at Belleville General Hospital, on Friday morning.

Mr. A. S. Brown left on Friday for Timmins where he has obtained a position.

OYSTER SUPPER AT SPRINGVILLE

Successful Social Function Carried Out Under Auspices af W.M.S.

SPRINGVILLE, Feb. 16 (Examiner Correspondence)—An oyster supper was held at Springville United Church on Wednesday evening, January 11 under the auspices of the W.M.S.

The tables were prettily decorated with red hearts in honor of St. Valentine while beautiful potted red geraniums shed a cozy atmosphere over the room. Liberal helpings of oysters were served and dishes were replenished until all were satisfied. Jam, hot beans, salads and jellies were enjoyed by those who did not care for oysters.

The program was good, constituted of local talent assisted by Messrs. G. Gillespie of Peterborough, Thomas Petrie and Kenneth Petrie of Otonabee, Mrs. Carman Seymour of Cavan and Mr. Heber Preston, of Bethany. Mr. Preston, although seventy-five years of age gave two splendid songs of his boyhood days that met with hearty applause from the audience. Rev. S. H. Moir, was chairman for the evening.

The program was as follows: hymn, 1 verse of "Onward Christian Soldiers"; prayer; solo, Mr. Thomas Petrie; reading, Mr. S. Fairbairn; instrumental, Clairmount Morgan; solo, Mr. Heber Preston; address, Mr. Geo. Gillespie; solo, Bruce Herron; instrumental duet, Mrs. Seymour (guitar) and Mr. Kenneth Petrie (violin); solo, Miss Southam; reading, Miss Helen Staples; solo, Mr. B. Preston.

Encores were graciously responded to by each member on the program. Mrs. I. Robinson, Clairmount Morgan, Mrs. G. McIntosh and Mrs. (Rev.) Moyer were accompanists for the evening.

LARGE ATTENDANCE AT MADOC MEETING

Presbyterial Delegates Appointed by St. Peter's Church W.M.S.

MADOC, Feb. 16 (Examiner Correspondence) — St. Peter's Church Women's Missionary Society held their February meeting with an attendance of 24. Mrs. McCaffrey, the president, presided, and after the singing of "I love to tell the story," each member took part of the scripture lesson by reading a verse, and Mrs. Marshall led in prayer. Two delegates were appointed to attend the Presbyterial in Belleville on Tuesday, and Mrs. William Miller and Miss Mackintosh were appointed and other members also expected to attend. Mrs. William Miller and Mrs. James Whytock gave a very interesting account of life in British Guiana, and the life of girlhood there. Prayer was offered by Mrs. Jenkins for the Missionary work and the meeting closed by prayer by Mrs. McCaffrey.

Annual Lodge Meeting

Hastings County Loyal Orange Lodge met in Madoc village on Tuesday, February 3, for the annual meeting. The following officers were Master, W. J. Tanner; deputy County Master, E. Sarles; chaplain, Rev. M. Lovelace; recording secretary, S. J. Kilpatrick; financial secretary, A. Wilson; treasurer, W. Martin; lecturerers, C. Tanner and O. Devolin; marshal, J. Morrison.

The officers were installed by Past County Master James Nickle assisted by Bro. Alex Martin as Director of Ceremonies.

FAMOUS PRIMA DONNA WORSE.

SYDNEY, N.S.W., February 16. — Dame Nellie Melba, the famous Prima Donna, suffered a relapse on Sunday evening and was stated to-day to be in a grave condition.

She has been ill for several weeks here and was thought to have improved. Succeeding set-backs, however, have left her unprepared for a serious relapse.

When you wish to send money away—

—to pay an out-of-town account,

—to a relative or friend,

—to pay for goods from an outside point,

—for any purpose.

call at any Branch of this Bank and secure a Draft for the amount. Sold "over the counter," with no delay or formality. Bank of Nova Scotia drafts offer a safe and convenient method of sending money away.

J. A. McLEOD, General Manager, Toronto

Clothing Provided For Cavan W.A. Bale

CAVAN, Feb. 16.—(Examiner Correspondence). — The W. A. of St. John's Church, Ida, met at the home of Miss Bertha Touchbourne on Wednesday afternoon. There were seventeen members present.

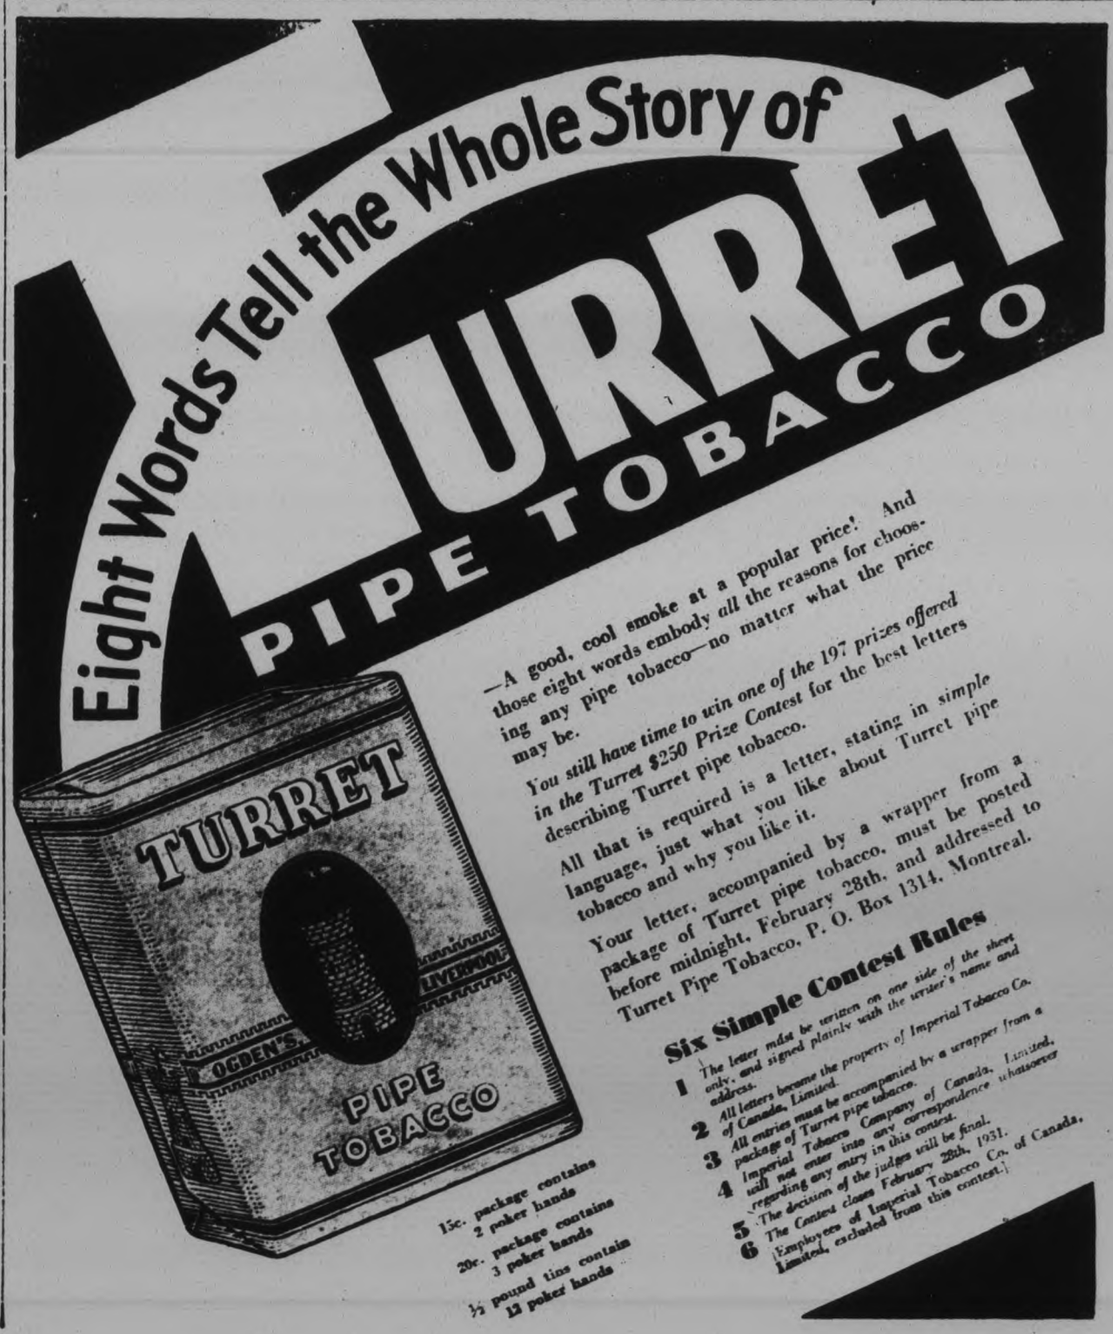
The president, Miss A. Sisson, presided. Mrs. S. Martin read the Scripture lesson.

During the business session material was distributed among the members for making garments for the annual bale. These garments will make up a complete wardrobe for a child.

Hostesses were Mrs. R. M. Howden and Miss V. Lough. The serving of lunch and a social half hour brought the gathering to a close.

Miss Addie Jackson, Bracebridge, and Miss Annie Sisson, Bethany, were visitors at the meeting.

The March meeting will be held at Mrs. Herb. Seeney's home.



—A good, cool smoke at a popular price! And those eight words embody all the reasons for choosing any pipe tobacco—no matter what the price may be.

You still have time to win one of the 197 prizes offered in the Turret $250 Prize Contest for the best letters describing Turret pipe tobacco.

All that is required is a letter, stating in simple language, just what you like about Turret pipe tobacco and why you like it.

Your letter, accompanied by a wrapper from a package of Turret pipe tobacco, must be posted before midnight, February 28th, and addressed to Turret Pipe Tobacco, P. O. Box 1314, Montreal.

Six Simple Contest Rules

1 The letter must be written on one side of the sheet only, and signed plainly with the writer's name and address.
2 All letters become the property of Imperial Tobacco Co. of Canada, Limited.
3 All entries must be accompanied by a wrapper from a package of Turret pipe tobacco.
4 Imperial Tobacco Company of Canada, Limited, will not enter into any correspondence whatsoever regarding any entry in this contest.
5 The decision of the judges will be final.
6 The Contest closes February 28th, 1931. Employees of Imperial Tobacco Co. of Canada, Limited, excluded from this contest.

PREDICT GREATER TOURIST TRADE

1931 Will Be Far Ahead of Last Year in Regard to Trade in This District.

RESULT OF EXHIBITION

An official statement of the success of the New York Motor Boat Show in the fostering of tourist traffic, accruing from the joint exhibit of the Trent Waterway-Iroquois Trail Association and the Ontario Department of Public Highways, is contained in a letter received this morning from Secretary K. A. Cockburn by the local Chamber of Commerce.

"In view of the marked success which attended our joint efforts at the New York Motor Boat Show, it would appear that 1931 is going to be far ahead of last year in regard to the tourist business to be done in Ontario.

"As you are aware, this Department is exhibiting next week in Philadelphia, where we have fifty feet of space. Not having yet heard from you definitely as to your co-operation at this show, I would be glad if you could advise me at the earliest possible date as to whether you will be present or whether it will be necessary to send a substitute, but I sincerely trust that you will be able to come yourself.

"I may say that, although you persuaded us against our will to co-operate with you at the New York Show, the results obtained were very gratifying. We are doubly glad that you so persuaded us, as the verbal agreement at the time that you would co-operate with us in Philadelphia and one other show made it very much easier for us to staff our space with efficient attendants."

NEW U. S. PLANE HEAVILY GUARDED

Fighting Craft With 300 m.p.h. Speed May Be Schneider Cup Entry.

HAS 29,000 FOOT ALTITUDE.

ROOSEVELT FIELD, N.Y., February (C.P.). — A naval fighting plane which observers claim attains a speed of 300 miles an hour and an altitude of 29,000 feet, was secreted under armed guard to-day.

Completed yesterday by the Curtiss-Wright Corporation, the ship was tested by William Crosswell, the company pilot, at Mitchell Field. Crosswell took it off the ground in less than 400 feet, dived it at 250 miles an hour, and pointed it toward the sun until it was two miles in the air.

The secrecy surrounding the tests led to the belief the ship might become the United States entry in the approaching Schneider Cup competition.

JAPANESE PRIVY COUNCILLOR DIES.

TOKYO, Feb. 16. (AP)—Itasumuro member of the Privy Council, died this afternoon at the age of 79. He had been talking to a friend after a meeting of the Privy Council when he collapsed, dying within a few minutes.

No Change This Year In Buick Car Models

OSHAWA, Ont., Februa., 16.—Although it has been customary for the McLaughlin-Buick to make announcements in connection with new models on the first of August each year, the plan will not be followed in 1931 according to W. C. Herring, Assistant General Manager in charge of sales, General Motors of Canada, Limited. Mr. Herring said to-day that the present line of McLaughlin-Buicks would not be replaced by new models this summer. The 1931 line of Straight Eights, equipped with Syncro Mesh transmission, has met with such definite approval from the motoring public that it has been decided to continue the present models beyond the usual announcement date.

In planningg the 1931 series of the McLaughlin-Buick, this new arrangement was very definitely in mind, according to Mr. Herring. "It appears to meet with favor on the part of our dealers and the public as well," he added, "particularly in view of the recent change in the Eight-Fifty models, which unifies the whole line and puts it in shape to meet demand that seems likely to continue for some time"

The change referred to by Mr. Herring took place when Syncro-Mesh transmission and torque tube drive were incorporated in the Eight-Fifty series, which is the lowest-priced of the McLaughlin - Buick Straight Eights. This development brought into the lowest division of the medium price field a remarkable transmission and drive that together have heretofore been offered exclusively in a much higher price field.

ARREST OF BULL GREAT MISTAKE

U. S. Agents Release W. Perkins Bull, K.C. and Heiress.

ON NARCOTIC CHARGE.

CHICAGO, Feb. 16 (C.P.).—Raids by a Government narcotic detail from Washington on the "Gold Coast" apartments of a Canadian millionaire barrister and a United States heiress brough the statement yesterday from counsel for the principals that the whole affair was "a blunder."

It was admitted that Federal agents co-operating with authorities of Canada in tracing the ramifications of a dope-smuggling ring, had invaded the apartments of W. Perkins Bull, K.C., of Toronto and London, Ont., and Mrs. Mabelle Horlick Sidley, heiress to the fortune of William H. Horlick, U.S. malted milk manufacturer.

They were questioned for six hours at the Federal District Attorney's office by the agents, who had been at work more than a month on the case. J. J. Harrison, head of a private detective agency, and his wife were summoned to the inquiry.

Officials Deny Knowledge.

The narcotic detail was believed to have returned to Washington. Local officials of the Government said they knew nothing of the raids and the impounding of private papers belonging to Bull and Mrs. Sidley. It was understood that an Assistant Attorney-General of the United States had come here to direct the investigation.

John E. Kehoe, described by Mr. Bull as his counsel, said he was informed the Government had "mistakenly" thought a secret code in use between Bull and Mrs. Sidley was somehow connected with the inquiry into smuggling. This code, he said, really was to convey private messages involving the pending suit for divorce of Mrs. Sidley against Dr. John Streeter Sidley of Racine, Wis., her husband. Bull, he said, was handling the suit for Mrs. Sidley.

"ACE-HI" CAMP

The regular monthly meeting of the "Ace-Hi" Trail Ranger Camp was held in the basement of Knox Church under the leadership of their Mentor, J. L. Browne, ex-member of the Boys' Parliament.

The meeting opened with Chief Ranger Jack Archibald in the chair. The boys enjoyed a few songs, led by Mr. D. Charlton. The minutes were read by the Tally, Keith Hughes. The roll was called and fees collected. The report from the paper collection committee showed a balance of $5.78.

A challenge from the Mark Street "Viking" Trail Rangers to a hockey game was accepted by the club.

The group decided to get pins, Trail Ranger ties and badge books out of the proceeds of their paper collection. The program committee will meet Sunday before Sunday School.

John Hunter, member Boys' Parliament for Peterborough, gave a report of the recent session and spoke a few words about boys' interests and explained the sale of bonds. He looked forward to one of the best years in history of local campaigns.

Three very interesting moving picture films were shown depicting the use and disuse of the telephone, through the courtesy of the Bell Telephone Company. Much was learned by those present. An idea of the intricate mechanism of the system and its evolution was interpreted.

The meeting closed in an impressive way, the boys repeated the Omaha Tribal Prayer.

HERBERT CLAYTON IS DEAD.

LONDON, February 16. — Herbert Clayton, theatrical producer, died today in a London hospital of pneumonia, developing from an influenza attack.

Toronto Leafs and Falcons Battle to 1-all Draw

RANGERS BEAT CHICAGO HAWKS AFTER 4 LOSSES

Quakers Throw Surprise of Week By Holding Amerks to One-all Tie.

BRUINS BEAT MAROONS.

Low Scores Are Feature of N. H.L. Games, 15 Tallies in All Being Countered.

TORONTO, Ont., Feb. 16 (By George Maguire, Canadian Press Sports Writer).—Low scoring marked the five games played in the National Hockey League over the week-end.

Fifteen tallies were the sum total of sniping efforts by leading marksmen on the various teams and their cohorts, Boston Bruins, in their 4 to 2 victory over Montreal Maroons, registered the highest count.

Montreal Canadiens, flying leaders of the Northern Division, hung up the only shutout triumph by blanking Americans in New York, 2 to 0. Toronto Maple Leafs and Detroit Falcons fought and skated to a one-all stalemate in the Queen City while the Philadelphia Quakers caused a mild surprise by holding the Amerks to a one-all tie in the Pennsylvanian city.

New York's classy playing Rangers finally smashed the Blackhawk jinx when they outscored the Chicagoans, 2 to 1, in the Windy City, after suffering four straight defeats at the hands of the American group second place holders.

Boston's victory coupled with Chicago's defeat gave the Bruins an eight-point lead in the United States section derby.. The Maroons never seriously threatened the thoroughly trained hockeyists from the Hub who took the lead in the first frame and held it to the finish despite an enthusiastic rally by the Munromen in the final 20 minutes. The defeat slid the Montrealers to fourth place in the Canadian section, one point behind the Americans.

The tilt at Toronto was a tame affair. The Leafs appeared off-color following a week's lay-off, while the Falcons contented themselves with a defensive exhibition.

After two frames of mediocre hockey the fans were given their first thrill when Hal Cotton, Leaf left winger, and Larry Aurie, aggressive Falcon right winger, met in the corner and exchanged a flurry of blows. Nearly every player on the ice joined in the fray with the fiery thaich of Reginald Horner, Toronto rearguard, especially prominent in the thick of the hammering fists. Cotton and Aurie, who received major penalties, were the only ones punished, however.

Score in Final

All the scoring occurred in the last 20 minutes. Georgie Hay, Detroit veteran centre, made the Toronto defence pair appear slow when he rounded the pair easily for a beautiful goal after eight minutes had elapsed. "Chuck" Conacher, following a triple passing bout with Clancy, Jackson and Primeau, knotted the count five minutes later and thereafter the match was devoid of feature.

After a scoreless opening frame at Chicago, each team notched a goal in the second session and overtime loomed when Bill Cook snared the rubber at his own goal-mouth after the start of the final chapter, ambled down the boards and then lifted a long shot at Gardiner. The latter handled the easy-looking shot carelessly and the disc slipped through his glove and dropped just over the goal-line to give Rangers victory and a firm hold on the third rung.

Gagnon Gets Goal

Two goals by Johnny Gagnon, keen-eyed winger of the Habinitants proved sufficient to down the Amerks in Madison Square Garden and enable the Flying Frenchmen to increase their lead over Toronto to three full games.

The Quaker-American tilt proved a close-checking struggle. The New Yorkers, who had beaten the tail-enders on three previous occasions found them anything but doormats in the fourth clash. Billy Burch notched the American counter half way through the opening period, while Hib Milks got the equalized halfway through the second frame.

ODD ANGLES OLD COUNTRY SPORT

Monday, February 16, will see the draw for the sixth round of the Football Association cup competition and the competitors will have been reduced to eight. Into the "Hat" which happens to be a large green bag will be placed eight balls, numbered one to eight. Each club that qualifies will have a number. If there are any drawn games, the pair of clubs that have to replay will share a number.

The secretary of the Football Association, Sir Frederick Wall, hands the bag to Sir Charles Clegg, who gives it the president's shake. Sir Charles hands the bag to William Pickford of Bournemouth and the latter in turn gives the bag the senior vice-president's shake.

Then the secretary gets to the typewriter and the president draws a number and the secretary consults his list to see which club has that number and it mean that the club is drawn at home. The vice president then draws a number and the club with the second number meets the club of the first number on the latter's ground, this system is followed until the four pairings are complete.

Frederick Ferrari used to be a centre half back with Leyton and from the time he embraced professionalism he has signed and played for: Northampton, October, 1925; Sheffield, Wednesday, June 1926; Flint Town, August 1927; Norwich City, December 1927; Barrow, August 1928; Nelson, June 1929; Chesterfield, February 1930; Burton Town, March 1920; Mansfield Town, November 1930; Queens Park Rangers, January 1931. Thus this player has rolled along to elven different clubs in a little more than five years.

Whatever Southport does in the sixth round, this team, known as the $500 aggregation has certainly beaten a little bit of everything so far in the competition. This cup fighting eleven, defeated Darlington of the third dividion in the first round; Gainsborough of the Midland League in the second round; Millwall of the second division in the fourth round and Blackpool of the first division in the fifth round. All the ties, except the one with Gainsborough were played at Southport.

Directors of Aston Villa are pleased with the form of R. Miles, an amateur, who looks like providing the solution to the club's quest for a goalkeeper. A stockbroker by profession, Miles has been out with the Villa reserves a few times. He is reported to have all the attributes of a class net minder.

Manchester City are among the clubs which have felt the pinch of hard times and a scheme to improve the ground has had to be modified. The directors feel they have to be very economical for a while.

A spectator in the recent cup ties between Everton and Crystal Palace became so excited that he walked on to the field and stood beside the Everton goalie. He had to be removed by the police. It was at the other end he was needed most because Crystal Palace lost 6 to 0.

Bristol Rovers had a trainload of supporters for their tie at Blackburn. The Bristol newspaper organized a party, which arrived in Blackburn at 6 a.m. on the day of the game. Restaurants were opened in a hurry and everybody had a good feed. One of the pictures show also, opened its doors and gave an early morning show to while away the time.

In the tie at Stamford Bridge between Chelsea and The Arsenal the police took the responsibility for closing the grounds a half hour before the start, while officials say there was room for others. Thousands were shut out.

Most Goals.—Bill Cook, Rangers, 25.
Most Assists.—Boucher, Rangers, 19.
Most Shutouts.—Chicago, 9.
Most Penalties.—Rockburn, Detroit, 106.

BETHEL TIES GLEN ROSS 1-1

Hoards Draw Even With Leaders By Taking 1-0 Decision From River Valley.

PLAY BRILLIANT HOCKEY.

BURNBRAE, Feb. 16 (Examiner Correspondence).—The lowly Bethel aggregation threw a full-sized scare into the Glen Ross hockey camp on Thursday evening, the league leaders being lucky to get an even break at 3 to 3. By winning from River Valley, 1 goal to 0, Hoards stepped into a tie with Glen Ross for the top of the heap. Hoards had much the better of the play to win their third straight following their opening tie game with Menie.

Glen Ross failed to show the flashing form which they displayed against Menie last week, and the Bethel crew virtually bodychecked them to a standstill in the hectic third frame. Only Bethel's failure to play a purely defensive game when leading three to two, saved the Glen Ross aggregation from defeat, as they wormed in the tying goal to save themselves from falling to second place.

This Week's Games

Next Thursday's games promise real hockey. Hoards and Glenn Ross meet in the headliner to decide first place, each team having won three and tied one game. In this encounter, speed and combination will be the forte of each squad, and some fast work should be seen. Glen Ross have a slight edge on the defense pair, although to date the Hoards rearguard has been very successful in steering the sharpshooters away, only two goals being scored against them in four games.

Menie and Springbrook meet in the other encounter, and Menie should win. In fact, Menie must win this game and the next one with River Valley to get into a tie for second place with the losers of the Hoards-Glen Ross game.

SMOOTH FORWARD LINE PLAYING COUPLED WITH TIGHT DEFENSIVE ACCOUNTS FOR GARNET VICTORY

Motor City Quintet Lose in First Game for Central Ontario Championship.

HOMESTERS LACK FINISH

Howie Macdonald Leads Local Aggregation in Clever Basketball Display.

Playing a smart passing game with the forwards showing exceptional smoothness when working in close at the opposition basket and backed by an air-tight defence that brought practically every enemy attack to an abrupt halt, the Peterborough Collegiate basketball quintet defeated the Oshawa Collegiate squad on their own floor 25-20, in the first play-off fixture for the Central Ontario Championship in the Lakeshore town Saturday afternoon.

As a result of their victory the Petes will carry a 5 point lead into the second game which will be staged next Saturday afternoon on the Collegiate floor and which should attract a capacity crowd in as much as another win for the Garnet and Grey team will give them the right to continue in the O.A.B.A. play-offs.

A bumper crowd was on hand to cheer the Oshawa team to victory but the "Petes", playing one of the nicest games seen on the local floor this season, put a severe cramp in their chances. The Lift Lock entry floored a smart, well-balanced aggregation and led by Howie Macdonald who carried the brunt of the visitors' scoring attack, showed the local fans some clever basketball.

Homesters Lack Finish

The Oshawa boys were by no means outclassed by the fine performance put on by the visitors but lacked finish when they were near the baskets. Shelenkoff and Andison scored several beautiful shots from near centre floor but the entire team found the Petes' defence impregnable and appeared helpless when they did get close in shots.

Both teams travelled at top speed for practically the entire forty minutes although the Petes took plenty of time starting their combination plays and toward he end of the game appeared satisfied to hold the ball and protect their margin.

Shelenkoff One of Stars

For the homesters, Shelenkoff showed nice form and led the way with 7 points, two of which were beautiful markers from quite a distance out. Andison followed with 4 points and Young and Henley accounted for 3 each. The Peterborough attack bothered the boys not a little and Hicks and Henley had their hands full watching the opposition forwards.

For the "Petes" the individual honours went to Howie Macdonald who baffled the Oshawa defense time after time and showed exceptional fine form to bag 10 points for his team and lead the scorers for the day.

Vern Armstrong teamed up well with Macdonald and Art Ward and tallied 5 points as his contribution to the cause.

Stanger and Reynolds on the rearguard gave a fine performance, checking everything that came their way and together with Kelly, who relieved Reynolds in the second half, were largely responsible for the victory in the manner they stepped into the opposition attacks.

"Wib" Ward, Wolstenholme, Chesler and Swartz all fitted in nicely to the combination play of the team and at no time did the squad appear to be weakened when the regular front line was off.

Play Opens Fast

Play opened at a fast clip and from the start the Petes began working in for close shots at the basket. However the homesters were the first to score when Shelenkoff tallied a single on Reynold's foul. P.C.I. came right back and Howie Macdonald took a nice pass from Art Ward to score for the visitors. A minute later Macdonald scored again when Hicks fouled. Andison, Young and Shelenkoff played nice combination and Hicks and Shelenkoff scored in succession on long shots from centre floor.

Oshawa made a determined stand at this time but appeared over anxious and Hicks and Henley fouled to let both Armstrong and Macdonald score singles and even up the count.

Play raged up and down the floor for several minutes till Shelenkoff scored on Macdonald's foul and a minute later Andison tallied to bring his team's total to 11.

The Petes were rallied by several points at this juncture but Macdonald took a long pass from Stanger to start the scoring again and Armstrong followed with another to keep his team in the running.

Oshawa's final marker of the half was made by Hicks on a foul by Art Ward but P.C.I. got it back in a hurry when Macdonald took a pass from Armstrong and scored on a nice long shot and Wolstenholme followed with a close in sinker to give P.C.I. the lead at half time, 13-12.

Play Better Game

The final session provided much better basketball and with both teams going at a fast pace, Oshawa scored twice in a row on long shots by Shelenkoff and Young.

The Petes made a determined stand and by nice combination efforts Art Ward and "Wib" Ward both scored, to give the Peterborough team a one point lead again.

The crowd was in a bedlam when Chesler fouled and Young scored a single and Henley added another point on a foul by Stanger.

However, Macdonald took a smart pass from Chesler to add another basket to his string but was forced out of the game shortly afterwards with a leg injury. Stanger then took up the scoring duties and within 3 minutes, scored two of the nicest baskets of the day.

Play was zig-zagging up and down the floor with no team getting within close scoring range although the homesters lost many fine chances when they missed the twine on several easy close in attempts.

Henley scored the last Oshawa marker of the day on another long attempt but the Petes added to their 1 point lead and Armstrong scored a nice try and "Wib" Ward worked in close for the final tally, giving the P.C.I. team the game 25-20 and a slim lead for the return contest in Peterborough Saturday.

THE TEAMS

Oshawa		Peterborough
Andison	forwards	A Ward
Shelenkoff		V. Armstrong
Young	centre	Macdonald
Hicks	defence	Stanger
Henley		Reynolds
Engel	alternates	W. Ward
Kashul		Wolstenholme
McIntosh		Kelly
		Chesler
		Swarts

SUMMARY

First Half

Peterborough—Field goals: Macdonald 3, Armstrong, Wolstenholme; foul goals: Macdonald 2, Armstrong; personal fouls: A. Ward, Macdonald, Reynolds.

Oshawa—Field goals: Andison 2, Shelenkoff 2, Hicks; foul goals: Shelenkoff, Hicks; personal fouls: Hicks 2, Henley.

Half time score: Peterborough 13, Oshawa 12.

Second Half

Peterborough—Field goals: Stanger 2, Armstrong, Macdonald, W. Ward, A. Ward; personal fouls: Chesler 2, Kelly, Armstrong, Stanger, Swartz.

Oshawa—Field goals: Shelenkoff, Young, Henley; foul goals: Young, Henley; personal fouls: Hicks, Henley.

Final score: Peterborough 25, Oshawa 20.

Referee—A. Armstrong, Oshawa.

Hockey Fans Follow Up Baseball Tactics

Chicago, February 16. — (C. C.) — The day of crying "Kill the umpire," isn't past. Only in this case it was hockey, not baseball.

After last night's national League hockey match between the New York Rangers and the Chicago Black Hawks, a delegation of the citizenry waited on Referee Mickey Ion, in front of the stadium Their intentions were to Ion's best interests, for he had declared illegal a goal in the final 30 seconds by Tommy Cook, which would have given the Hawks a 2-2 tie, instead of a 2 to 1 defeat.

Ion, however, made his departure from a side door, and the police dispersed the crowd

Under Teams Defeat Ontario Loop Leaders

TORONTO, Ont., Feb. 16.—(By the Canadian Press.)—The four top division teams clashed in the two Ontario Hockey League games played at the week-end. In moth cases the underdogs turned the tables on their rivals of higher status.

Galt Terriers, League leaders, fell before the fourth place Kitchener Silvers, 2 to 1, in a keenly contested tussle, while the second place Niagara Falls Cataracts suffered like ignominity at the hands of the Guelph Maple Leafs, the final count favoring the Leafs, 4 to 3.

The Oshawa at Stratford match was postponed, but to-night the Nationals go to Oshawa, the Cataracts meet the Terriers on Galt ice and the Silverwoods entertain the Leafs.

LONDON CLUB LOSES 2 GAMES OVER WEEK-END

And Cleveland Indians Creep Up to Within One Point of Third Place.

BULLDOGS ALSO OUT.

Tecumsehs Lose to Pittsburg on Saturday and Stars the Day After.

TORONTO, Ont., Feb. 16 (C.P.)—Five games were played in the International Hockey League at the week-end, but all the Canadian entrants have to show for their efforts are three losses. London Tecumsehs suffered successive reverses losing on Saturday to Pittsburgh by a 2 to 1 count and to the lowly Syracuse Stars, 4 to 1, on Sunday.

The Tecumsehs' failure to pick up a single point enabled Cleveland Indians to creep nearer third place. The Indians, too, were called on to play on successive nights, but they managed to finish on the long end of a 5 to 3 count with the Stars, although they lost last night to Detroit Olympics, 4 to 3.

In the fifth scheduled fixture the leading Bisons defeated the second-place holders, Windsor Bulldogs, 3 to 1, in a rousing struggle, played before the second largest crowd of the season at Fort Erie.

The Bisons won by unleashing a whirlwind attack in the first two frames, which netted them their three markers and at the same time closely checking the leading Bulldog Snipers, particularly Earl Robinson, highest point scorer in the King loop.

Ironstone Makes Debut

Joe Ironstone, goalkeeping graduate from Guelph's Ontario Hockey League squad was mainly responsible for the victory of the Stars over London. Making his debut at Syracuse, Ironstone gave an almost perfect exhibition, to hold the clever London sharpshooters to a single marker. It was the Stars' ninth victory in 36 matches.

Jimmy "Sailor" Herberts was the big noise in the Olympic victory over Cleveland. The former Collingwood mariner notched the first tally of the game nine minutes after the start of the second period and then gained further laurels by driving in the winning marker late in the final session.

The Indians are one point behind third place Tecumsehs and the defeat in Detroit prevented them from ousting the Londoners from this much disputed berth.

The Yellow Jackets victory over the Tecumsehs kept them on the heels of the fourth place Indians, who are two points in the van.

The Tecumsehs fought stubbornly to gain the much needed two points and the Smoky City hockeyists were forced into overtime before a double barrelled trust resulted in the winning tally from the stick of Proudlock.

The standing to date follows:

	P	W	L	T	F	A	Pts.
Buffalo	36	23	10	3	82	51	49
Windsor	37	19	13	5	107	86	43
London	36	17	15	4	72	62	38
Cleveland	36	16	15	5	90	83	37
Pittsburgh	35	14	14	7	77	85	35
Detroit	36	14	21	1	68	92	29
Syracuse	36	9	24	3	84	121	21

No Agreement Made For Ottawa Purchase

OTTAWA, Ont., Feb. 16 (C.P.)—Despite countless rumors which have sold the Ottawa Senators' hockey team individually and in bulk during the past few days, no deal has yet been made for the club or any of the players, Director Redmond Quain stated on his arrival here from Montreal. It was believed Mr. Quain talked over the possible sale of some of the Senators with Montreal Maroons' directors, but he stated nothing definite had been done.

Frank Ahearn, M.P., chief shareholder, returned to Ottawa from a long stay in California and declared he would do everything possible to keep a National Hockey League club operating in the Capital.

INDIANS LEADING BY 5 FULL GAMES

No Changes in Standings and Head Scorers in Can.-Amer. League.

BOSTON, Feb. 16. (CP). — The Springfield Indians widened their Canadian-American hockey league lead over the Providence Reds to five full games during the past week. There were no other changes as the Bruins' Cubs, formerly the Boston Tigers, retained their one point advantage on the Philadelphia Arrows and the New Haven club finished another week at the bottom of the list.

The official standing including games of Feb. 14, follows:

	L	T	GF	GA	Pts.	
Springfield	23	4	1	118	47	47
Providence	16	5	5	85	51	37
Boston	10	17	2	60	83	22
Philadelphia	9	11	3	58	76	21
New Haven	6	20	3	44	99	15

There were no changes among the leaders in the race for individual scoring honors. Heilmer of Springfield finished another week far ahead of the pack. His total of 40 points is 14 better than the record of Eddie Burke, Cub centre. Hart of Providence continued third with 26, Leo Gaudreault, his teammate, trailed him with 25 and "Yank" Boyd, Boston, was fifth with 24 points.

Eddie Convey of New Haven, ended another week as the league's highest penalty carrier, he has been penalized 83 minutes in 29 games and Bud Cook, Providence "bad man" has spent 87 minutes in the box during 27 games. Boucher of New Haven with 41 minor penalties for 82 minutes, was again third on this list.

TO-NIGHT'S HOCKEY SCHEDULE

Pacific Coast League
Portland at Vancouver.
Ontario League
Stratford at Oshawa.
Guelph at Kitchener.
Niagara Falls at Galt.
O. H. A. (Senior A)
University of Toronto at Marlboros, Arena Gardens.

FANS WILL SEE HOCKEY CLASSIC THIS EVENING

St. John's and Oshawa Will Meet in First Game of O.H.A. Play-downs.

PREDICT TOUGH BATTLE

Visitors Will Ice Smart Forward Line Against Local Aggregation.

Tonight's Junior O.H.A. battle at Brock street rink between Oshawa and St. John's promises to be the hockey classic of the year and judging by the demand for tickets will attract the biggest crowd since the old senior days.

The Saints have won the hearts of Peterborough fandom by their speed and willingness and they will have plenty of backing in their clash with the smart Oshawa outfit tonight.

"This Peterborough team is going to be a tough morsel for any but the very best of the junior teams," said the Toronto Star in referring to Friday night's game and while the Oshawa crew are full of confidence Ken Randall's youngsters may find a real battle on their hands in the series with the Saints, who are determined to make the invaders path of victory anything but an easy task. The Oshawa team is headed by the ever-green "Rainey" Lortie, whose 20th birthday resembles the prosperity when they talk about it—that it is always just round the corner. Lortie is not the only star, however, for the visitors have a smart forward line in Drinkle Gunn and Peterson and a clever second string with Graboski as the star.

With good ice assured and both teams rarin' to go the game should provide fireworks galore. Ben Hedges of Toronto has been given the refereeing assignment.

EAST PETERBORO LEAGUE CLOSE FOUR TEAMS STILL HAVE CHANCE

Norwood's Spurt Has Put Them Within Striking Distance.

LAKEFIELD LEADING.

The East Peterborough Hockey League has developed into an interestingly close race with practically every one of the four teams still having a chance to get into the play-offs.

The present standing, according to President Curtis' record is as follows:

	Won	Tied	Pts.
Lakefield	4	3	11
Cegs	3	2	8
Norwood	3	1	7
C.G.E.	2	2	6

Norwood has won three games in a row, moving out of the cellar position with a rush that may possibly carry them to the top. Two of their remaining games are with Lakefield, and on their recent progress it looks like a safe bet that they will not lose both these fixtures as they did in the first half of the schedule. At any rate they are all set to give the northern team a battle in both engagements.

Alex Kempt had to draw on his reserve of patience while his team was dropping games, two of them being to Lakefield, and both these games counted in the intermediate O.H.A. group. Back in January he predicted that Norwood would start to show their real stuff as soon as his full line-up was available, and now with Shannon of Marmora who played with the Combines' junior O.H.A. team, with Ware up on the forward line and Lynn Hill of Hastings in shape, the East Peterborough outfit seems to be all set for its final drive. The Kempt outfit is handicapped by the fact that it draws its players from Marmora, Havelock, and Hastings, besides its local men. This has prevented the practices which the other teams in the League should be able to hold quite handily. However, there they are knocking on the door for second position, and the performance of their team here last week made an impression on local fans that should bring out a real crowd when the Kempt entry plays here again.

C.G.E. have a real job on their hands to pick up enough points to bring them into the play-offs. It looks possible on paper. Cegs are still in the running, and their supporters need not be discouraged by the defeat in Lakefield Friday night. The two local teams are booked to meet here a couple of times before the schedule is over, and these games may have a decided effect on the final standing of the League.

The play-offs will be between the first and second teams.

It is reported that Oshawa has protested the Markham games on the ground that the Markham goalie's pads were wider than the O.H.A. prescribes. Lakefield was wise to this condition, and help up the game in Markham while the goal pads were measured and compared with Junkins' pads. It was stated that night that the pads worn by Lunau, in the Markham goal, were about fourteen inches wide. The Lakefield players, however, did not enter a protest, but they called the attention of Tracy Shaw, the referee, to the disparity.

Latest news and views of the Golfing World

RALPH H. REVILLE

(By Ralph H. Reville. Special to The Examiner. Copyright, 1931.)

Bearing out the assertion previously made that "Hard Times" does not affect golf, several more annual reports received this month from important clubs indicate that 1930 was a particularly satisfactory year both from the standpoint of membership and revenues. Two concrete cases. The Royal Montreal Golf Club, the oldest club in Canada had a very successful year, much better than in 1929. Then at the annual meeting of the Toronto Golf Club, the oldest club in Ontario, held last week, reports showed that in 1930 the club had the most successful year in its history of over half a century. All clubs, too, are preparing for another record year in 1931, and in a large number of cases are budgeting for increased expenditures on courses and club houses. There is no pessimism, at any rate among golf executives. "Old Man Gloom" doesn't give with the golfing spirit and will not be seen on the courses of Canada the coming season.

Professional Golf Association of the States has announced in addition to Walt. Hagen (capt.), Leo Diegel, Jno. Farrell, Gene Sarazen and Horton Smith chosen last month at Al. Espirosa has been given a place on the U. S. Ryder Cup team. This leaves only two places and those of alternates to be decided at a qualification round to be played at the Scioto Club, Columbus, Ohio, on the day preceding the International matches next June. The following players have been invited to play-off for the coveted vacancies. Al Watrous, Ed. Dudley, John Golden, Billy Burke, Densmore Shute, Olin Dutra, Charles Hilgendorf, Henry Ciuci, Joe Turnesa, Willie Klien, Craig Wood, Wiffy Cox and Frank Walsh. Tommy Armour, of Detroit, 1930 professional champion, was not invited because of the rule barring all players of foreign birth, and this ruling also obtains in the case of MacDonald Smith and Bobby Cruickshanks, all three Scots and formerly well-known amateurs in the "Land o' the Heather."

Albert R. Gates, business administrator of the P. G. A., announces that the United States Golf Association had contributed $1,000 to assist in defraying the expenses of the American team, which generous appropriation is greatly appreciated by the Association marking as it does the interest taken by the governing body of golf in the States in the Ryder Cup matches.

The Grand River Country Club of Kitchener, Ontario, puts into play this season its splendid new 18-hole course. The very handsome club house has already been officially opened with a most successful dance this winter as a result of the new course and club house, the old 9-hole course and club house is for sale at the bargain price of $30,000. It is understood that the land alone is worth that. It is just possible that the four important insurance companies located in Waterloo and Kitchener may purchase the property for the use of their several hundred employees. The companies would make no mistake about doing so, alike in their own interests and that of their staffs. The old course and club house are in first-class shape and most conveniently situated. That such a club could be run without any cost to the insurance companies hardly admits of any question. In fact, it should be a money-maker in the long run. A fully equipped and excellent golfing property for sale in Canada is something never heard of before. It shouldn't wait long for a purchaser at such a price and in such a progressive centre as Waterloo and Kitchener.

The British Ladies' Golf Union has accepted the challenge from the women's section of the United States Golf Association for an international match and the first of the series will be played in England next year. This completes the circle of such matches between Great Britain and the States, the amateurs of the two countries playing for the Walker Cup and the professionals for the Ryder Cup. Canada has never been asked to participate in the latter two fixtures, but it is understood will be invited to enter the ladies' international contests with South A rica and France. This will be a splendid thing for women's golf in this and the other countries mentioned. These international contests not only provoke great interest but are of great educational value.

ROBINSON CROWNED SPEED-SKATING KING

Orel Duffy of Toronto, Makes Four World's Records at Meet.

LAKE PLACID, N.Y., Feb. 16.—Ross Robinson, Toronto skating star, present holder of the Canadian national championship, and Western United States champion, added to his list by winning the North American championship at Lake Placid Saturday, defeating the best skaters of Canada and the United States.

This title was formerly held by Jack Shea of Lake Placid for the past two years, who was unable to defend his title this year, being unable to leave Dartmouth College, where he is a student.

Robinson went into the last day with 100 points, and by placing second in the half-mile clinched the meet with 130 points.

Orel Duffy of Toronto, 14-year-old star, retained his title by winning all four races. He won the half-mile race Saturday, establishing a new world's record in the class, the time being 1 minute 33 4-5 seconds, against the old time of 1.38.

Duffy made four records in as many days.

Tulsa Oilers Retain American Loop Lead

CHICAGO, Ills., Feb. 16 (C.P.)—Tulsa Oilers to-day ranked far in the lead of the American Hockey League, showing the result of two week-end strides out into the open, while Kansas City Pla-Mors, their nearest rivals went down to defeat.

Minneapolis Millers, far down in sixth place, bowed twice in two days to the Oilers, 5 to 2 on Saturday night and 4 to 1 Sunday afternoon.

Chicago downed Kansas City 4 to 2. It was the first defeat in eight starts for the Pla-Mors and the win placed Chicago right in the running for the second position.

More than $140,000 was raised in Scotland last year for lifeboat services, the sum being $61,500 more than in 1929.

GREENSHIRTS LOSE OUT TO OFFICE NO. 1 TEAM 3—2 IN SEMI-FINAL GAME

Will Meet Switchgear Bruins in Three-game Series For Works' Championship.

TITANIS STRUGGLE.

Both Teams Set Fast Pace From Start—Display Flashy Combination.

The Drafting Room Greenshirts met their Waterloo on Saturday afternoon at the Brock St. Arena when they were eliminated from the race for the C. G. E. Shop Hockey League honors by the Office No. 1 team, 3-2 in a sudden death semi-final game which went into overtime.

These two teams were tied for first place in Group 1 of the Shop League and the winner of this game being group champions will meet the Switchgear Dept. "Bruins" in a three game series for the Works' championship. The latter team took the leadership of group 2 and eliminated the Punch Press, Group 3 champions in a sudden-death game while on top of this they have disposed of the Office team in an exhibition game. Although since the beginning of the league no team in either group two or three who fought their way into the finals have been conceded much of a chance against their senior rivals, this year may see a precedent established.

Saturday's battle had all the earmarks of a championship struggle and fairly bristled with fiery plays from gong to gong. Both teams set a fast pace but the Pen Pushers had the edge in the first session when they made flashy combination plays to work in close on Kearns in the Drafting goal. The latter however rose to brilliant heights to meet the occasion and held the attackers scoreless. Eddie Williams on defence for the Office was the star of this period while Dors Davis who took Howe's place on defence for the Draftsmen played a heady and effective game.

Take Lead in Second

The Draftsmen took the lead in the second frame when Freddy Meagher took the puck on a face-off pass, pierced the Office defence and scored from close-in. The Draftsmen bored in rapidly after this and for the first half of the period kept Copping in the Office net very busy. Copping was subbing for Miller who like Howe was not permitted to play by the St. John's Club. The score was evened in the middle of the period when Williams carried the puck the length of the rink, making the pass to O'Toole who scored from a few feet in front of the net.

Lack of finish around the nets wasted several perfect opportunities for both teams. Time and again the Draftsmen's wings passed the puck from behind the Office net only to have an opposing player snare the rubber and whisk it to safety. Allen, Meagher and Palmer were the pick of the Drawing Maker's attacking lines.

Play Brilliant Hockey

The third stanza was the fastest of any with play about even. After a scramble near the Office citadel Palmer slapped the rubber home on a pass by Meagher from behind the net. This one goal lead was short-lived however as Williams worked his way down centre on a lone sally, sending in a low fast shot from outside the defence which Kearns blocked but the attacker went in fast to net his own rebound. Playford, Tuck and Payne were much in evidence in this session, the latter being a constant source of worry to the Draftsmen due to his persistent back-checking. Copping came very close to disaster several times when he was slow in clearing the puck, but covering up by his team mates saved the situation.

The first overtime stanza gave the victory to the Office as Tuck on a lone rush, carried the puck along the boards and shot from the wing, the puck glancing in off the goalie's skate. The close checking of the Draftsmen held the Office at bay for the remainder of period, but they lacked the scoring punch to tie the count. Dorsey Davis was injured in a collision with a team-mate and forced to withdraw from the game in this period.

The teams:

Drafting Room: Goal, Kearns; defence, Shields and Meagher; center, Palmer; wings, Allen and Rooke; alternates, Shields, Masterson and Price.

Office No. 1—Goal, Jack Copping; defence, Williams and Beavis; center, Tuck; wings, O'Toole and Playford; alternates, Payne, Miller and Gray.

Referee—O. Kenneally.

Penalties—Beavis (2), Rooke, Williams, Allen, Price.

Summary:

MINERS TOP LEAGUE.

CALGARY, Alta., Feb. 16 (C.P.)—Drumheller Miners stood at the top of the Southern Alberta Senior Amateur Hockey League, when the schedule finished Saturday night. Calgary Bronks defeating Calgary Maroons, 4 to 0. Higher River Fliers rank second and Turner Valley Okotoks Imperials are tied with two Calgary squads in third position. All five teams enter the play-off.

Quaker Goal-Tender Secures His Release

OTTAWA, Ont., Feb. 16.—(By the Canadian Press.)—Joe Miller, erstwhile goaler of the Philadelphia Quakers in the National Hockey League, announces he has secured his unconditional release from Benny Leonard's Club, and plans to remain at his home here for the rest of the season. Miller has been here on sick leave for the past three weeks and does not intend playing again this season. The release was at his own request, terminating the one year contract under which he was bound to the Philadelphia Club.

O.R.F.U. FAVORS FORWARD PASS

Will Recommend United States Plan Be Adopted in Its Entirety.

OTHER RESOLUTIONS.

TORONTO, Feb. 16.—Falling in line with other major football organizations throughout the land, the Ontario Union, at its annual conclave here on Saturday, passed a resolution, to be forwarded to the Canadian Union, recommending the adoption of the forward pass in Canadian football.

The resolution and its adoption created no surprise. For some years Canada's oldest football organization has been experimenting with the play in the junior and interscholastic series, and last year went further than any other Eastern Canada football organization by urging consideration of the pass by the Rules Commission of the C.R.U.

Favors U.S. Rule

Rev. Father J. McGahey of St. Michael's College, Toronto, expressed the opinion that the delegates were confusing the two subjects under consideration. Interference and the forward pass were two distinctly separate features, and he did not believe it necessary for the interference zone to be extended to make the forward pass a successful scoring threat.

It was Father McGahey who moved the motion calling for adoption of the pass in its United States form as this, he believed, would avoid the necessity of considerable rule juggling to make it fit into the Canadian game.

Other Resolutions

Another resolution of import passed at Saturday's meeting was that urging abolishment of the safety-touch. A half-back running the ball out from behind his own goal-line, and who gets it out only to be hurled back, will only be rouged if the C.R.U. endorses this recommendation. In addition, it will work to the advantage of a team in possession of the ball on their own goal-line.

Other matters decided on were that, in the juvenile and junior series, every Ontario born player must produce a birth certificate or an affidavit signed by a parent, guardian or other responsible party; twenty players in all series can be dressed and used for every group game hereafter, instead of dressing 20 and using 18; Western Ontario Secondary Schools Association can enter the play-offs by competing in the semi-finals instead of the finals, as in previous years, and thereby gave weeks of inactivity for their representatives; two points for a win and one for a tie, with no overtime, in group games, will regulate the standing of teams in all series in future; every senior team must deposit $500 prior to the start of the season to ensure their finishing out of the schedule.

After a brief discussion, a proposal to eliminate the scoring of a point for kicks to the deadline was dropped when B. S. Harper, Hamilton pointed out that on gridirons lacking regulation space behind the dead-ball line a game might continue forever on the defending team's 15 or 20 yard line if the kicking halfback was unable to drop the ball inside the line.

Quinte Intermediates Lose Round to Cadets

BELLEVILLE, Feb. 16.—Belleville intermediates were eliminated from the O.H.A. race on Saturday night when R.M.C. of Kingston defeated them 6-3, taking the round, 14 to 8. The game was rough, nineteen penalties in all being handed out, three of them majors. Murney Green, defense man for Belleville, received two long stretches and "Pop" Irvine the other.

Belleville opened the scoring, but missed many chances in the first period to overcome the five-goal lead. Irvine got the counter back before the period ended, and R.M.C. went into the lead when Buck scored a goal for the visitors, the rubber hitting him and bouncing in the twine. Lane scored before the period ended, and again early in the third frame.

Runions and Buck added counters, but Armstrong and Kennedy came through with counters to keep the game safe. Irvine, Kennedy and Lane were the best for the Cadets and Runions, H. Canning and Sherry looked best for the homesters.

THEATRES

AT THE CAPITOL.

"TOM SAWYER"

The old swimming-hole—a couple of lads with bare feet and old straw hats, cutting up didoes and going off to play pirate on a desert island—Aunt Polly with her side curls and her warm heart and her quick temper—Huckleberry Finn, without a home or parents and companioned by his old pipe—Tom Sawyer freckle-faced, blunt-nosed, mischievous—his sissy cousin, Sidney, the tattle-tale, running to Aunt Polly with every story—in effect, the old-time favorite ale of Mark Twain and boyhood—"Tom Sawyer" come to life with Jackie Coogan in the title role.

The old story is as fresh and youthful as ever. It is said that it is almost letter perfect with the book and the setting of old-time ways and manners; daguerrotypes, prim little girls with ringlets and pantalettes, fussy households where whitewashed fences cluster about quiet yards—adds a final charm to the famous tale.

There are two notable characterizations n the picture; that of the real, old-time schoolmaster, fussy and proper, and of the old-time clergyman. Tom and his two companions, who have run away to escape from senior authority and stayed long enough to persuade their distracted relatives that they have been drowned, have the unique pleasure of listening to their own funeral oration, hidden above the preacher in the village church. They hear with amasement a recital of their post-mortem virtues and then descend to real life once more and the ups and downs of everyday existence. They get lost in the stalactite cave, they hide in the graveyard and witness a real murder, they unearth the murderer later and they find a buried treasure. What more could boys wish for?

There is a dainty little girl in the picture the love of Tom Sawyer, and her whimsical acting is just as good as that of the others. It is a wholesome and very entertaining picture of youth and fun and adventure. Mark Twain's characteristic touch has been well preserved.

—Jeanette.

Coming To Regent

BALACLAVA.

One of the most tragic and heroic pages of British history live again in the screen play 'Balaclava," which opens Wednesday at the Regent Theatre and is sponsored by the Peter Robinson Chapter of the I.O.D.E. Made in England, with the assistance of the British War Office, directed by Maurice Elvey and Wilton Rosmer, "Balaclava" is as accurate in detail and treatment as historical archives and the personal supervision of Captain J. Locke Jones could make it.

In closing a plot as a basis for a great British photoplay, no more touching episode could be found than "Balaclava" a record of a gallant sacrifice, written against the colorful background of the Crimea.

The actual charge of the light brigade, coming as it does as a great climax and finale to the picture, is not the only thing which commends the production to theatre audiences. It must not be overlooked that woven into the story is a tale of romance and adventure that would serve to interest even hardy playgoers without the historical and heroic cavalry charge.

The scene opens in the officers' mess, in the Crimea near Balaclava—a quarrel over a private soldier results in a duel between a cavalry captan and a young lieutenant in the 93rd Highlanders. Her Majesty, Queen Victoria, had just issued orders forbidding dueling in her armies and the result of this affair had wide spreading effects, ending with the death of the captain, and a last minute confession by a trooper fatally wounded at Balaclava.

There is a charming love affair, that assists rather than retards the action of the story; but in spite of fine acting by the principals, keen interest in the story, the finest part of "Balaclava" is the picture presented of England's famous heroes, Colin Campbell, Lord Cardigan, Lord Raglan and Lucan.

Scotch, Irish and British regiments, Turks, Russians, Cossacks and above all dashing English cavalrymen—they perform riding feats and military tactics that have rarely ever been equalled on the screen.

Cyril McLagen, brother of Victor McLagen, has been on the English stage and in pictures for several years; he has a splendid role as John Kennedy, afterwards Trooper Kent; beautiful Benita Hume last seen here in "Symphony in Two Flats" with Ivor Novello, Miles Mander, Betty Bolton and Alf Goddard are only a few of the excellent actors in the cast.

Three Basketball Games Are Scheduled This Week

Three City Basketball League games are scheduled for this week at the "Y." On Wednesday night, at 7.30, Chevrolet Motors will meet Canadian Departmental Stores, with H. McLeod and N. Stanger refereeing. Graftons and Westclox follow immediately after, and J. Greenlaw and C. Routley will be the referees.

The other game will be played on Saturday at 7.30. This tilt will see DeLaval and C.G.E. in action, H. McLeod and Doug Loomis will referee this contest.

SHEA RETURNS AFTER 6 YEARS

Popular Chicago Italian to Meet Kid Francis in Madison Square Garden.

Outstanding Featherweight.

NEW YORK, February 16 (C.P.).—Six years ago Eddie Shea of Chicago came to New York to fight Charley (Phil) Rosenberg for the bantamweight championship of the world. This week, for the first time since then, Shea will be seen in a New York ring, not as a 118-pounder but as one of the outstanding featherweights of his time.

The popular Chicago Italian has been matched against Kid Francis, durable Italian, in Madison Square Garden's feature bout on Friday night, and hopes to make a better showing than he did when he last appeared here. Rosenberg knocked him out in four rounds at the old New York velodrome.

Francis, who has passed up the bantamweights although he still can make the class limit, has won five straight bouts since he returned to this country for his third American campaign.

CHEVROLET MOTORS WIN CLOSE FIXTURE

Defeat C. G. E. Test Quintet 23-20 in Basketball Tangle.

In a fast game of basketball Saturday evening, Chevrolet became victors over the C.G.E. (Test) team with the score 23-20. It seemed for the first few moments of the game that the Electrics were the better team owing to their speed and good passing. But as soon as the Motor Men warmed up, they developed an equal speed and proved themselves to be excellent at making interceptions.

Dundas was up to his game, and turned out to be the major scorer for Chevrolet, making 10 points in all. He was followed closely with Laing's 9 points. C.G.E.'s star player for the evening was Emery, who scored 15 points of his team's 20.

Chevrolet.—Magee and Laing, forwards; Dundas, centre; Mitchell and Reynolds, guards; Ashmore and Broadley, subs.

C.G.E. (Test).—Emery and McKeagan, forwards; Holgate, centre; Mahood and Tracy, guards; Lawrence, sub.

Referee.—C. McLeish.

SCHOOL PLAY-OFFS START WEDNESDAY

King George and King Edward Sextets Will Meet For City Championships.

With the double-header played last Saturday morning, the Public School Hockey League finished its schedule for the season. The play-offs will begin Wednesday, from five to six, at the Brock. The two leading teams, King George and King Edward, will fight it out in home-and-home games, goals to count, for the cup emblematic of the championship. King George has held this cup for the last two years, but last year had a battle royal with King Edward before they were declared winners. These teams have played even hockey throughout the schedule, and the play-offs are likely to be exciting. This is how the six teams finished:

	W.	L.	T.	Pts.
King George	4	0	1	9
King Edward ...	4	0	1	9
Prince of Wales.	3	2	0	6
Queen Alexandra	1	3	1	3
Queen Mary	1	3	1	3
Central	0	5	0	0

SATISFACTORY REPORTS READ AT HAVELOCK ANNUAL MEETING

Report of Current Revenue of General Fund Shows Balance of $66.97.

FOR UNITED CHURCH

HAVELOCK, Feb. 16 (Examiner Correspondence) — At the annual congregational meeting of the Havelock United Church held on Wednesday evening, Edward Fennell gave a report of the recent action of the board of the Havelock and Trent River charge in extending an invitation to the Rev. S. A. Kemp of Regent Street Church, Lakefield to this charge and that the Rev. W. R. Archer had received an invitation and accepted to Lakefield and that in each case the matter was unanimously carried.

The report of the current revenue of General Fund given by C. H. Roberts showed receipts of $2,564.40, disbursements $2,497.43 leaving a balance of $66.97.

The Women's Missionary Society reported 45 members and a total amount raised of $336.87. This report was read by Mrs. R. Campney. Mrs. Laing reporting for the Ladies' Aid told of receipts of $352.57 and expenditures of $334.90 with a balance of $17.67.

The report of the Efficiency League was read by its president, Miss Edythe Roberts showing receipts for Missions to be $75, with a total amount of $87.50 raised. Miss Roberts also reported for the Missionary and Maintenance fund showing receipts of $540.67.

Miss E. Haig, treasurer of the Sunday School reported $248 receipts and $224.36 expenditures. There is an attendance at the school of 96.

The Mission Band report was read by Miss Winnifred Chiles showing 24 members and $40.60 raised during the year.

Motions of appreciation were extended to C. H. Roberts for his splendid services as treasurer of the church; to Mrs. Bonney as president of the Women's Missionary Society for the splendid work done and to Mrs. Roberts and her co-workers of the Ladies' Aid.

Refreshments were served by the ladies and a social hour enjoyed at the close of the meeting.

BAPTISTS HOLD FINE SOCIAL

Valentine Entertainment Staged by Women's Association of Campbellford Church Very Successful.

THREE PLAYS PRESENTED

CAMPBELLFORD, Feb. 16 (By Examiner Staff Correspondent)—With the Sunday School room filled to capacity, the Valentine Social staged by the Women's Association of the Campbellford Baptist Church on Friday evening proved to be a very successful event. The chairman for the evening was Donald Mason.

The program was a feature in itself including, as it did three small plays. These were under the auspices of the Ladies Orange Lodge and were directed by Mrs. William Ayrhart.

The program opened with the National Anthem and a few remarks from the chairman. Following this came two piano solos by the Rev. L. M. Smith, "Bohemian Dance" and first of the three plays entitled, "The Painted Chair." This was a humorous production and was heartily enjoyed by the audience. Those taking part were Mrs. F. Clark, Miss Gladys Nicholas, Miss Josie Redden and Miss Mary Phillips.

By request Donald Lloyd, the champion boy orator gave his address "Going to Market" which drew a splendid response. Two vocal solos were also much appreciated, Albert Gifford singing, "Anchored" and R. Weston, "The Lost Chord."

Another play, "Grandmother's Rose Jar," was included on the program, this production being well acted and very entertaining. The personnel of this feature was: Mrs. William Ayrhart, Mrs. F. Clark, Mrs. John Wilks, Mrs. W. Reynolds and the Misses Josie Redden, Mary Phillips and Ola Nicholas.

Mrs. L. M. Smith sang a very pretty song, "You, Just You," this being followed by a humorous reading by Miss Myrtle Hall.

Concluding the program the third of the plays was presented, "Grandma's Valentine Party" this being well staged and creating a great deal of interest and applause. Those taking part were: Mrs. William Ayrhart, Mrs. R. Ennis, Miss Gladys Innes, Mrs. J. Booth, Miss Ida Ovens, Mrs. John Stillman, Mrs. D. W. Ploughman, Mrs. J. Hamilton and Mrs. H. Campbell.

A hearty vote of thanks was moved to Mrs. William Ayrhart who directed the plays, and to the ladies of the Orange Lodge and all those who assisted on the program, by Miss Annie Dunk, president of the Women's Association, this motion being seconded by Miss Helen Dunn. The evening closed with the singing of "Auld Lang Syne." Accompanists for the evening were Miss Myrtle Hall, Miss J. Weston and the Rev. L. M. Smith. Refreshments were served by the Women's Association to all those taking part on the program.

CAVAN BAZAAR IS CALLED OFF

Women's Institute Members Decide to Raise Money by Other Means.

LETTERS RECEIVED

CAVAN, Feb. 16.—(Examiner Correspondence). — Cavan Women's Institute met at the home of Mrs. J. E. Whithame on Thursday afternoon with a good attendance of the members. Mrs. Ray Syer presided.

Mrs. J. Armstrong reported the material which she purchased for the bale which was sent to the north. Mrs. Kennedy received a letter of thanks and appreciation, for the bale received, from the lady in New Liskeard to whom it had been consigned.

The meeting decided to cancel the bazaar which was being planned for May; instead the groups will either separately or together plan some ways of making money.

Mrs. Snider read two articles on temperance, "Henry Ford's Outlook" and "A Word of Encouragement." Mrs. Edgar Fallis then took charge of the program. Miss L. Syer read a paper on "Depression." Mrs. J. G. Matchett read "Wit's End Corner." Mrs. Fallis conducted a bean guessing contest. Mrs. J. C. Swain won first prize, guessing the number of beans in a jar. Miss Sutton received the consolation prize.

It was decided to invite Millbrook Institute to join with Cavan for the summer meeting.

A letter was received from Mount Pleasant accepting an invitation to join with Cavan when a speaker from the department would be present.

It was announced that Mrs. Fallis' group would entertain the Institute in March and Mrs. Lloyd Sutton's group provide the program.

After the meeting was formally closed refreshments were served and a social time enjoyed.

PLAY IS PRESENTED IN ENNISMORE HALL

"I'll Explain Everything" Draws Large Audience—Well Received.

ENNISMORE, February 16 (Examiner Correspondence).—On Thursday evening a play, "I'll Explain Everything," was presented in the hall by the dramatic society of Immaculate Conception Parish, Peterborough. There was a large crowd in attendance and the play was much enjoyed by all present, each one playing their part exceptionally well.

Cast of Characters

Henry Becker, Cashier of Farmers' State Bank, Jack Madden; Valentine Scott, Henry's friend and adviser, William Collins; Montgomery Walsh, president of Federal Trust Co., Chicago, George Lynch; Walter Dow, an advertising man from Los Angeles, in love with Ada, Don McKinnon; James Darby, an Englishman, "don't you know," husband of Henry's sister, Jean, William O'Toole; Gertrude Becker, Henry Becker's wife, Louise Flynn; Ada Becker, Henry Becker's cousin, Mrs. T. Kelly; Jean Darby, Henry Becker's sister, who has married James Darby, Stella Brady; Dr. Blair, a doctor, so to speak, Mrs. R. Bacon; Caryl Carroll, a girl from Chicago, Peggy Roche.

The music for the dance that followed was all that could be desired; in the orchestra were Patrick O'Toole, Michael Smith, Harry McDonnell, Alexis McCormack, Bernice Flynn, Madeline Flynn.

Messrs. Thomas Cavanagh and David Scollard made a business trip to Harvey on Thursday.

Among those who attended the play here on Thursday evening from Downeyville were Mr. and Mrs. Pat Perdue, Mrs. Angus Twomey, Mrs. Peter Perdue, Messrs. Gerald O'Neill and Ormand Morrisey.

Lakevale Presbyterian Mission Band Meeting

EAST EMILY, Feb. 16 (Examiner Correspondence)—The Mission Band of Lakevale Presbyterian Church held their regular meeting at the home of Mr. and Mrs. Melville Moncrief on Friday evening with about twenty members present, with Mrs. Joseph Hunter leader, in the chair. Miss Jean Tully, president; Miss Kathleen Tully, secretary, and Miss Mona Fife, treasurer.

The meeting opened with hymn and prayer, conducted by the president. A very appropriate program was given such as recitation, Helen Howden; reading, Agnes Hubble; piano duet, Misses Olive and Vina Fife; reading, Jean Spencely; recitation, Thelma Bailey; vocal duet, Misses Agnes Hubble and Stella Moore and a recitation, Stella Moore.

A valenting post office caused high delight among the young folk.

The meeting was brought to a close with prayer and hymn.

The remainder of the evening was spent in games and contests.

Mrs. Moncrief served refreshments and the evening was brought to a close with a hearty vote of thanks tendered Mr. and Mrs. Moncrief for their kind hospitality in entertaining the Mission Band in such a kindly manner.

Getting Up Nights

If Getting Up Nights, Backache, frequent day calls, Leg Pains, Nervousness, Rheumatism, Acidity, Burning, Smarting, Bladder Irritation, or Kidney Weakness makes you feel tired, depressed and discouraged, try the Cystex Test. DISTRICT NOTES

By Examiner Correspondents

BRIDGENORTH

The Young People of Gilmour Memorial Church held a jolly tobogganing and skiing party on Thursday evening and afterwards were entertained at the home of Mrs. T. R. Mann where an enjoyable hour was spent.

The Wide Awake class of Bridgenorth United Church held a successful pot luck tea at the home of Miss Wilma Telford. Following the supper an enjoyable evening was spent in games, contests and music.

Mrs. Keith Hardill, formerly Miss Helen Jopling was the recipient recently of a shower held in her honor in the Hall. Among the gifts were an electric lamp and pair of candle holders from the Sunday School classes which Mrs. Hardill attended one of which she taught. Following the serving of refreshments dancing was enjoyed.

Miss Gladys Blewett spent a few days recently with her cousin, Miss Ada Sanderson, of Lakefield.

Mr. and Mrs. J. Preston and daughter of Peterborough spent Sunday with Mr. and Mrs. L. Fowler.

Mr. Earl Roeborough has returned from Kemptville College where he took a two weeks' course.

Mrs. Frank Fowler, of Best's Station is the guest of Mrs. Percy Udy.

COTTESLOE

The annual meeting of Cottesloe United Church was held recently when all departments of the church and Sunday school were found to be in an excellent condition. The Rev. Mr. Stillman presided for the meeting and lunch was served by the ladies at the close.

Mrs. Ernie McDonald was hostess to the members of the W.M.S. for the regular meeting on Wednesday. Plans were made for the World Day of Prayer.

About fifty people enjoyed a sleighriding party held at South Dummer on Tuesday evening.

Master Ronald McDonald has received a book from thhe Provincial W.C.T.U. as a prize in the scientific temperance contest in the Sunday Schools last fall.

The U.F.O. and U.F.W.O. held the February meeting at the home of Mr. E. Jenkin, South Dummer. The program was provided by the ladies and in the absence of the president, Mrs. R. McMillen, vice-president took charge of the meeting.

Miss Burgess spent the week-end with friends in Peterborough and Lakefield.

ROSENEATH

C. W. Varcoe attended the funeral of the late Kingsley Young at Harwood on Thursday afternoon. Mr. Young was well-known by many in this comumnity.

Mrs. W. West of Hastings has been visiting her parents, Mr. and Mrs. Robert Mouncey.

The little daughter of Mr. and Mrs. Robert Linton, who was badly burned last Sunday morning, is doing favorably under the care of Dr. Ryan.

Mr. and Mrs. John Dalnard of Hastings spent Tuesday with her mother, Mrs. Margaret Johnston.

The L.O.B.A. are holding a euchre and dance on Friday evening. Prizes will be awarded the winners.

Mr. and Mrs. Ezra Sherwin entertained a few of their friends on Wednesday evening by giving a dance.

CAVAN

Mr. Richard Matchett attended the Shorthorn sale in Peterborough on Wednesday.

Mrs. George Sisson, of Peterborough has been visiting Cavan friends.

Mr. and Mrs. Herb Neal, of Manvers were guests of Mr. and Mrs. F. M. Staples on Tuesday.

Miss Annie Sisson, of Bethany is the guest of Mrs. T. Harkness and other friends in Cavan.

EAST EMILY

Mr. and Mrs. D. McAdam attended the basket social at Uassau on Friday night.

Mr. and Mrs. Joseph Hunter spent Saturday visiting with Mr. and Mrs. Clarence Coyte of Port Hope.

Mr. Karl Campbell of Peterborough made a business trip through this district this week.

Mrs. D. McAdam and son Robert visited with relatives in Peterborough on Saturday.

Mr. Melville Moncrief made a business trip to Toronto on Monday.

The many friends of Miss Helen Storey are pleased to learn she is able to return to Toronto to resume her position.

Mr. Bob McAdam was a visitor to Port Hope last week.

Mr. and Mrs. Lou Irwin spent last Sunday the guests of Mr. and Mrs. O. Murray of Springville.

Messrs. Pierie Lowes, George Lowes and Vernon Lowes attended Lodge in Lindsay last Friday night.

To encourage the hotel industry Yugoslavia plans to reduce all taxes in connection with hostelries.

Backache Troubled Him For Years

Dodd's Kidney Pills Brought Him Relief

"I suffered with a pain across my back for years," writes Mr. John E. Everett, Aroostook Junction, N.B. "After using twelve boxes of Dodd's Kidney Pills the pain left me and I have had no symptoms of it since. I recommend Dodd's Kidney Pills to any sufferer of Kidney trouble or pain in the back. I would not be without them in the house."

Thousands of grateful people have publicly testified to Dodd's Kidney Pills; why not benefit by their experience? Dodd's Kidney Pills do not affect the liver or stomach, they are just a special kidney medicine, solely affecting the kidneys. They do one thing only, but they do that one thing well.

Annual Meeting Held Ivanhoe Library Board

Ivanhoe, Feb. 16 (Examiner Correspondence).—The annual meeting of the Ivanhoe Library Board was held at the home of Mrs. John Clements on Tuesday evening, Feb. 3. C. A. Mitz, chairman of the Board, presided. The treasurer's report was given by Mrs. Clements. Seventy-five books were added to the Library this year, thirty-four of which were children's books. A paper entitled "Canadian Writers and Their Message," written by Donald G. French, president Canadian Literature Club of Toronto, was read by members of the board.

Officers for coming year: President, Annie Fleming; Secretary, Mr. A. Wood; Treasurer and Librarian, Mrs. J. Clements.

Board of Directors: Mrs. Lovelace, Mrs. Geary, Mrs. J. Haggerty, Mrs. H. Henderson, Harold Ashley, E. Sarles, A. Hagerman, J. Flett, S. Prest.

The Library can report a very good year, with a patronage of 1,190.

Books have been used by the different organizations of the community as well as several schools, for readings, recitations, supplementary readings and reference. A number of children's books by the standard authors such as "Master Skylark," and Heidi have been added this year. The Library has taken long strides in becoming a real community centre and a place of cultural influence with a collection of books that are an asset to the people.

BURDOCK BLOOD BITTERS

Indigestion So Bad Was Afraid To Eat

Mrs. A. T. Bowman, 157 Rebecca St., Hamilton, Ont., writes:—"I had been troubled, for years, with indigestion and suffered so badly I was afraid to eat. I am on my third bottle of Burdock Blood Bitters, and can now eat anything I like without distress after, and can enjoy my sleep every night without fear of suffering. I cannot praise B.B.B. too highly for what it has done for me."

For sale at all drug and general stores; manufactured, for the past 51 years, only by The T. Milburn Co., Ltd., Toronto, Ont.

TREES IN FEBRUARY

By Molly Bevan

The Blue Bell Poetess

Loveliness never forsakes a tree
No matter what the season be:
Verdant summer, autumn gold,
Springtime's rapture manifold;
Even winter's fingers trace
Lines of silhouetted grace.

Buds are the promise of leaves to be,
Bursting their sheaths in ecstasy;
Leaf-laden boughs are harps to play
For winds that are sad, winds that are gay
Down-falling foliage spreads a pall
For earth whom winter holds in thrall:
But trunk and branch and swaying boug
Are naked, weird and elusive now.

Comes the snow on a listening night,
Soft, persistent and sequin-bright,
Clothes each twig with a frosty flower,
Light as a feather—gone in an hour;
Warms the heart with remembering
April petals that drift and cling.

"WOBBLE" METER LIKELY TO KILL WHOOPEE MAKING

Device Tells How Much Energy Can Be Obtained From Employees.

Reveals Silence is Tiring.

May Be Used by Car Manufacturers to Test Fatiguing Effect of Joy Ride Jolts.

AKRON, Ohio, Feb. 16.—Better be careful how much whoopee you make the night before, because your boss can find you out by testing your "morning-after" wobbles.

You can't pretend you have had enough rest, for the "wobble" meter is certain to give you away.

So it was announced to-day by R. W. Brown, who developed the meter principally for industry to test its man-power and automobile manufacturers to test the fatiguing effect of joy ride jolts. It was developed at the suggestion of Dr. F. A. Moss, George Washington University psychologist, who is also using it in other fatigue tests.

"We intend using the meter to measure the amount of energy we can get out of employees and adjust their jobs accordingly," Brown said. "Automobile manufacturers can use it to make out the vibrations from automobiles that tire you and leave those that are restful.

Silence is Tiring

"It can be used to determine the comparative fatiguing or relaxation values of jazz and classical music. One of the things it has already uncovered for us is that absolute silence is tiring.

"It has reevaled the effect of age on fatigue. It has found we tire the least at the ages of 10 and 11, when the muscles are fairly well developed and the mind has done but little worrying. It has also discovered that women have more poise than men."

The "wobble" meter consists of a low platform which teeter-totters in two directions—sidewise and from front to back. When you stand on it, you continually shift your weight from one leg to the other, swaying the body. The more tired you are the more rapidly you sway.

The sways, or "wobbles," are added up by two little meters on the platform, and the amount is in direct proportion to your fatigue.

60 Criminal Suits Started In Moscow

MOSCOW, Feb. 16. — Criminal suits are to be filed, the Commissariat of Labor announced to-day, against more than 60 government organizations whose directors failed to obey an order to discharge from their departments all former railway employees so that the latter might be re-engaged for transportation service.

Efforts to get former railroad men back on transport jobs appear to be meeting with only partial success because there is an equally great demand for labor in every other line.

Both workers and department directors convicted of disregarding the railway order are liable to fines or imprisonment.

To safeguard their crops farmers of Carnarvon, Wales, are campaigning against wood pigeons.

Regina Races Remain In Saskatchewan Race

REGINA, Sask., Feb. 16 (C.P.) — Fighting with their backs to the wall, Regina Acestaeysd 1 12345 2345 3 33 Regina Aces stayed in the running for a berth in the Senior Saskatchewan Big Six playoffs by handing Yorkton Terriers a 2—0 trimming here Saturday. The winners played smart hockey throughout and collected tallies through Gilhooley and Holt.

The schedule does not end until next Friday and four clubs are still very much in the running, for the three-cornered play-off — Weyburn Beavers, Regina Vics., Regina Aces and Yorkton Terriers.

Irwin Ready To Act If Gandhi Will Agree

NEW DELHI, India, Feb. 16 (C.P. Cable). — Viceroy Lord Irwin announced this afternoon that he was prepared to grant a general amnesty of political prisoners in India, and to consider the withdrawal of the present restrictions on Congress party activities, if Mahatma Gandhi will call off his civil disobedience campaign and give evidence of a "change in heart" towards the Government.

The Viceroy gave this information to Sir Tej Bahadur Sapru, M. R. Jayakar and Rt. Hon. Srinavasa Sastri, Round-Table Conference delegates, with whom he had a long talk this afternoon, preliminary to an interview with Gandhi either to-morrow or Wednesday.

ARTISTIC BOOK OF FRANCE IS SUBJECT OF FINE ADDRESS

Madam Goulet Addresses French Class of the Women's Art Association.

THE GOLDEN CENTURY.

Madam Sifroy Goulet provided an afternoon with a distinctively French touch for the members of the Lyceum Women's Art Association, on Friday, when she spoke on impressions of 'Artistic Books of France." Members of the Causerie Francaise, the French conversation class of the society, were hostesses, and there was a bright display of copies of old French books and their bindings.

The brilliant atmosphere, the charm and delightful gaiety of La Belle France were in the crisp paragraphs of Madam Goulet's talk, which was characterized by Mrs. F. C. Neal, who presided in the absence of Mrs. Blackwell, as one of the gems of the season's programs, and by Miss S. A. Tomkins, moving the vote of thanks, as a charming paper given in inimitable style.

French National Gallery.

Madam Goulet took her hearers on an imaginary journey to La Bibliotheque Nationale, the French National Gallery in Paris, one of the most extensive libraries in the world with an origin in the fourteenth century and a development due especially to the enlightened efforts of Colbert, the minister of the Grand Monarque.

"We go then to this library and we have the special privilege to be admitted to the Reserve. We can see there, sleeping in their showcases, masterpieces of rare beauty —marvellous bindings covering books which have been read long, long ago, which have passed from hand to hand before coming to rest here in a museum—some of them with colors so fresh and gold so bright that the centuries do not seem to have touched them at all."

The four great periods of artistic binding in France, said Madam Goulet, are characterized as follows: From Charlemagne to the Revolution, first, the Middle Ages, with their double fashion of dressing the books. The most valuable are the Sacred Books with their rich ornamentations of ivories, jewels, enamels and their wonderful illuminations. In the exhibit of such books which illustrated her talk, Madam Goulet pointed to one example of this type; a Gospel Book of the Saint Chapelle, its cover a gold plate with an embossed frame, and the figures, in relief, of Christ on the Cross, the Virgin and St. John. This was a fourteenth century binding designed to cover a Gospel written in letters of gold and offered to the Holy Chapel by Charles Fifth in 1379.

The Golden Century.

Other manuscripts were covered with stiff leather worked in conventional designs with no gold in the device. These came in the second part of the fourteenth century when the typography which was a recent discovery laid the emphasis on the book itself, rather than its binding.

In the sixteenth century the glories of really artistic bindings were revealed. An impulse given by an amateur, Jean Grolier, bringing from Italy a taste for artistic books, was developed by a group of renowned artists and book-lovers who were fond of innovations.

There were bindings in polychrome mosaic, with gold threads and blue and black ribbons interlacing a floral and leaf design achieved by Jean Grolier. A beautiful example, also on view, was the cover with the coat of arms of Marie de Barbacon, on red morocco with an all-over design in gold. Another fine example of this gold fireworks" fashion was a mosaic combination in black and silver on a ground spangled with triple dots. Another piece of this popular "dotting" idea, in which the dots were of the letter M intermingled with fleur de lis, was the cover embossed with the coat of arms of Marie de Medicis.

Then came the eighteenth century with its fondness for gold lace, giving the books resplendent embroidered dresses of this fine material. This style, however, became vulgarized by cheap use for commercial purposes. Beautiful examples of the early artistic efforts in this line were the book cover with the coat of arms of Marie Josephe de Saxe and a magnificent specimen in the coat of arms of Marie Antoinette.

Madam Goulet told some interesting little stories of the lengths to which book lovers will go in possessing cherished volumes. The Marquis de Taccomi de Naples, the great treasurer of the Crown, with an income of 100,000 £, forged and was later condemned to the galleys because of his desire for books which he never read.

In the books of modern type, attention is paid to the typography as well as to the bindings, and a notable example of this beautiful work in printing was afforded by copies also an exhibit, of the magnificent productions of L'Illustration Niel, of Paris, France.

Madam Goulet added a further note of charm to the talk by singing in French two dainty numbers, with accompaniment by Mrs. Agnes Logan Green. The first song was "Par le Petit Doigt,' 'a lovely little folk song that told the tale of he little finger that entwined the hands of the schoolboy, the maiden and her lover, and the old folks walking down the hill of life. In her dainty, sweet voice, the singer interpreted the charm of this pretty song, and its companion, "Tu Ne Samas Jamais!" (You'll Never Know), the chanson of the maiden who teases her lover about her own affection for him.

In her announcements at the close of the program, which finished with the service of afternoon tea, Mrs. Neal spoke of the forthcoming visit here, on March 6, of the C.P.R.'s chief publicity agent, J. Murray Gibbon, who will speak on "Folk Songs" to members of the Women's Music Club.

M. Fontan, of Toulon, France, the first surgeon to put stitches in the heart, died recently.

Mrs. Esther Humphries died recently at West Bromwich, England, at the age of 104.

CHURCH ELDERS ARE INDUCTED

Following Regular Sunday Evening Service in St. James' Church.

SPECIAL MEN'S CHOIR.

"There is no better test of our lives as Christians than the amount of time spent in prayer life," said Rev. Mr. Moorhouse speaking last night to his large congregation in St. James' United Church on the subject "Men ought always to pray." The service was largely a men's meeting, with a mass choir of forty male voices with special numbers including solos, duets, and quartettes of unusually fine rendering. Scripture lessons on the theme of prayer were chosen by the pastor from Ezra 8, 21, Nehemiah 4,4, Psalms 34,4, and Luke 11, 5.

Lack of time for prayer can not be given as an excuse for we have time for social life, pleasures, and amusements. The measure of our usefulness in the world may be taken by the time we have spent in fellowship with God. Jesus made this very clear. There is no greater danger in our discipleship than our tendency to neglect the prayer life. If we lose our zeal in this we are apt to wonder whether God really answers prayer. In the parable we are told that the friend gives bread to another in need because of his importunity, what then will be God's response to our cry if it be earnest enough? God's willing hand and the sufficiency of His storehouse should be reason enough for our prayer. Abraham prayed to God 'that if there be ten righteous men in the city" it might be spared and God heard his prayer. Have we not reason in these days to cry to the Source from which help comes? The Christian church was born in prayer. For ten days these early disciples were unceasing in their supplication and we may read for ourselves the answer in Pentecost. Jesus tells us of the unrighteous judge and the woman who by her persistent pleas won her case. This teaches us never to lose heart or to get discouraged but to "pray and faint not." If the unrighteous judge will grant justice through unceasing petitions, will not God, our loving Father, hear our plea? If a few men of our generation will enter the holy place of prayer, the whole history of our church will change.

In closing, Mr. Moorhouse appealed to the men and women and young people of his church to pray for "prayer changes things." Immediately following the sermon the induction of elders of St. James', J. A. Fry, Wesley Rose, W. D. Sargent and A. R. Church, took place with an impressive service conducted by Rev. Mr. Moorhouse. Throughout the entire evening's service the organist, Frank Stevens, with his splendid men's choir provided an excellent musical program. Opening with a service of song consisting of old familiar hymns, the choi numbers were as follows:

Chorus, "Master the tempest is raging," by the Male Choir. Male quartette, "Sweet hour of prayer," "Dear Spirit, lead me," Messrs. Lee, Turner, Worrall, and Baldry. Solo, "The Voice in the Wilderness," by Walter Farr. Duet, "Give Me Thine Heart," George and Gerald Cuffe.

CABLE OFFICE SHUT IN AMOY

Action of Nationalist Gov't May Force Many Firms Into Bankruptcy.

BRITISH BRANCH CLOSED.

AMOY, China Feb. 16.—(A.P.) — Popular discontent against the Nationalist Government's action in closing the Danish Great Northern Telegraph Company cable office here last Friday was gaining impetus today.

Many long-delayed commercial messages were awaiting transmission. Chinese telegraph and wireless services not being adequate to handle the traffic. Civic organizations, comprising both Chinese and foreigners, charged they suffered financial losses because of the tie-up.

Bankruptcies among Chinese firms were feared because of their inability to transmit funds quickly.

The United Chambers of Commerce of Amoy filed protests against the closing of the cable office with the Government Saturday.

The Danish Great Northern Telegraph office at Amoy was closed simultaneously with the office of the Far eastern extension cable office at Foochow. The two companies are seeking to complete negotiations with the Government supplanting agreements which expired Dec. 31. Reports were heard that a accord had arisen between the Government and the company officials which might endanger the preliminary agreements entered into last month.

THE BEASTS OF TARZAN No. 73 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

"I tell you what I'll do," explained the mate. "I'll just wack up with the two men what helps me. And the sooner I quits here, the better I likes it. Are you with me?" Now Kai Shang had sailed on a number of English ships, so he understood fairly well all that had passed between the two plotters since he had stumbled upon them. A woman—and gold! Into his knavish soul flashed an idea. Here was a chance to increase his booty!

Kai Shang rose to his feet and stepped into the clearing. The mate and his companion started up as though a ghost had risen before them and both reached for their revolvers. But the burly Chinaman raised his right hand, palm forward, as a sign of his pacific intention. "I am a friend," he said. "I heard you But do not fear I will betray you. I can help you and you can help me. We have a ship."

"We need men to help us navigate her. Come with us and ask no questions. Bring the woman of whom you speak and we will ask no questions. Is it a bargain?" The fellows from the Kincaid followed Kai Shang to his camp and after a parley in which plans were agreed upon, departed well pleased at the stroke of good fortune that had come to them. They were to leave the island in a sea-worthy craft!

Kai Shang promised his assistance in capturing the woman, or rather women, for when he learned there was also a Mosula woman in the other camp he insisted she be brought along with the white woman. The day following was set for the doing of the deed, and the Kincaid's mate now began to plan how he was to clear the camp so that Lady Greystoke would be left alone and at the mercy of the cunning Kai Shang.

CURIOUS BARRED IN POLICE COURT

Reforms Designated By Magistrate to Alleviate Prestige of Hamilton Court.

ATTRACTS INTEREST.

HAMILTON, Feb. 16.—Police court reforms, designed to elevate the prestige of the court and respect for the law, which have been introduced by Magistrate Henry A. Burbridge since his appointment in 1929 already are attracting widespread interest in Ontario.

Shortly after his appointment, he announced his intention to inaugurate a series of changes covering juvenile domestic relations and ordinary court cases which he hoped would react favorably towards law administration.

He has succeeded. Every habitue of the city court knows now that it is conducted in the name of His Majesty the King. No advocate or prosecutor takes undue privileges. Accused persons are treated as innocent until found guilty but they know by what power they are called to court. No longer may professional back benchers ensconce themselves in a ringside seat for a mornings entertainment.

Receives Considera ion.

One of Magistrate Burbidge's first acts was to announce he would not countenance any person attempting in to discuss with him a case pending in pleas for warrants or summonses. He also grants bail, where it is indicated, when arrests are made after court is adjourned. Thus the magistrate hears a "modern history" of a case when it is brought to him for trial.

Full realization of the reforms came when the new police court quarters were recently opened. Prisoners are brought in singly, arraigned and then allowed to sit on an inconspicuous bench where they are not subjected to scrutiny by the curious. Nor is the prisoner made conscious of a guard. The nearest officer usually stands about six feet away.

Attorneys Unhampered.

Interested persons alone are allowed to attend court. One is not subjected to cross examination but is merely asked by an officer what case he is interested in and why. An ante-room is provided for witnesses in cases which are at the bottom of the list. As a result of this system, back benchers whose faces were familiar in court for years have sought other forms of "pleasure."

Prosecuting and defence attorneys, upon whose conduct a case hinges are not hampered as they formerly were by "good fellows" who took advantage of acquaintanceship to sit at the barristers' table. This is not set apart by a railed enclosure.

The most recent innovation, said to be original in Ontario, is a buzzer which quietly announced the approach of the magistrate and that court is about to begin. There is no shuffling of feet or scurring after he takes his place on the bench. Court officials police and spectators are always standing respectfully.

Evidence of the success which has attended these reforms is evinced by reports which show that out of more than 600 persons allowed suspended sentence by Magistrate Burbidge, only a negligible number have violated their recognizance.

Haliburton Resident Is Held On Liquor Charge

LINDSAY, Feb. 16. (Special to The Examiner).—Ned Biagi, an Italian resident of Haliburton County, who had convictions registered against him during the days of the O.T.A. was brought to Lindsay during the week-end by Excise Officer T. R. James, of this town, and Excise Officer Jennings of Peterborough. He is charged with having illicit liquor illegally, and was remanded on bail until February 23.

The officers following reports of bootlegging, visited the northland during the week. In searching Biagi's premises, it is said they came across a false bottom in the cellar of his home, which contained a quantity of liquor.

Annual Skating Party Of Peterborough Rangers

The annual skating party of the Peterborough Rangers will be held tomorrow night at the Brock Street Rink. The public is invited as participants or spectators. Members of the Rangers are admitted free. Popular music for the skaters will be supplied by the Rangers' Band.

Following an inter-company hockey game which will be played from 7.30 to 8.30, the ice will be turned over to the skaters until 10.30.

These skating parties are put on every winter by the officers and men of the Rangers as a sort of enjoyable get-together. They have always been successful, and this year it is expected to be better than ever.

Nearly one-third of the workers in Hungary now earn less than $400 a year.

TO GIVE LECTURE ON OLD SCOTLAND

Rev. Wm. Allan Will Deliver Illustrated Travelogue Tuesday Evening.

ROMANCE OF CALEDONIA.

What makes a nation? Is it walls? Is it loyalty to a line of princes? Is it religion? Is it name? Answers to these questions will be given by Rev. Wm. Allan at St. Paul's Presbyterian Church on Tuesday evening, when he is giving a travelogue entitled "Scotland—Land of Ancient Romance, Superstition and Song—with Characteristic Musical Background."

Assurance is given by Mr. Allan that this is an entirely new travelogue, and that it will be illustrated by beautiful slides which have never been shown before. All of the slides have been specially made for this occasion. Those who heard the last lecture on Scotland are looking forward to Tuesday evening in anticipation of an evening of rare enjoyment.

At this time an opportunity will be given to see Scotland in a "homely, gracious mood with a smile on her lips, a welcome in her eyes, a cake on her griddle, a kettle on the hob." There is promised the thrill of entering "Caledonia stern and wild" by the conquering way to see it through Scottish eyes as a visit is made to the Land of the borders—the Empress of the North—the Gate to the Highlands—the town of Strife—the Silver City by the Sea.

The lecture will provide an opportunity of brushing up on Scottish history. It will be a chance to feel afresh the thrill of Scottish romance while listening to its poetry and ballads, as one of its sons who has travelled in many parts of the world rebuilds the country again.

The Hon. G. N. Gordon will act as chairman; Mrs. Wm. Allan will be at the piano; and H. Dodds will operate the lantern.

OBITUARY

MRS. FRED KILLORAN

The death occurred on Sunday at her late residence, 207 Withrow avenue, Toronto, of Mrs. Fred Killoran, formerly of Peterborough.

She leaves to mourn her loss her husband and four children of Toronto; her parents, Mr. and Mrs. M. Kylie; also three sisters, Mrs. G. Tobin, Mrs. F. Guerin and Mrs. D. Hayes and three brothers. Cecil Emmet and Joseph.

MARGARET MALANE

The funeral of the late Margaret Malane took place this morning from the residence of her brother, John, 448 Rogers street. The deceased was one of the oldest residents of the city. Her whole life was spent in Ashburnham, where she was born. The quiet, gray morning was synonymous with the life she lived.

Left to mourn her loss are her brother and his family, and a nephew in Ottawa.

Soccer Draw

RELIEF DANCE

Don't forget the big Relief Dance on Tuesday night in the hall of the Canadian Legion, when The Examiner Social Club will be charge and all proceeds go towards relief in the city. Mose Yokom's orchestra, a new one this season, will provide the music.

GEORGE SALTER IS WANTED

Peterborough City Police are anxious to receive information as to the present location of George Salter, born in this city in the year 1891 or thereabouts. He is thought to have served overseas in the war with the cavalry, and his whereabouts is sought in regard to the settlement of an estate.

TRIED TO STEAL CAR

Forcing the lock of a garage on the Exhibition Grounds, sometime during the hours of eleven o'clock last night and early this morning, someone made a determined attempt to steal an automobile belonging to Provincial Police Constable David Sylvester. The left window of the coach door was smashed, and the pocket on the right side had been turned out, apparently in an unsuccessful attempt to locate a spare switch key.

THREE CHIMNEY FIRES

Sunday afternoon proved to be a busy time for the Fire department. At 5.33 a call was received from 413 Bethune Street for a fire caused by overheated pipes. A chimney fire at 527 George street required the services of the firemen 55 minutes later. The Public Library sent in an alarm, on Saturday for a chimney fire, at 6.47 p.m. In all three cases there were no damage reported.

FRANK CAYLEY IS AWARDED JUDGMENT

Ops Farmer Receives Sum of $97.65 in Action Against C. N. Railway.

LINDSAY, Feb. 16. (Special to The Examiner).—Frank Cayley, a young farmer of Ops Township, has secured judgment for the sum of $97.65 in an action for damages which was instituted against the C.N.R. following an accident when the complainant ran his car against a freight train. His Honor Judge Ruddy of Whitby, gave judgment in this interesting case. Lt. Col. R. I. Moore of Lindsay, acted for Cayley, while the C.N.R. was represented by A. D. McDonald, of Toronto.

This accident occurrred on the night of October 10 at a railway crossing on the western boundary of the town. The night was dark and foggy in low places and particularly so at this point. There was no fog, however, along the highway, except in low places and swamp. The C.N.R. according to the evidence was operating a freight train of forty-eight box cars and caboose, which had stopped and remained at the crossing for a period of about twenty-five minutes. Cayley was proceeding along the highway in a car. When within about thirty feet of the tracks, Cayley released the clutch of the car when the train loomed in view through the fog. The brake was applied, but the auto skidded into the train and was damaged.

His Honor in his judgment found that the train obstructed the highway for more than five minutes before the accident occurred, contrary to the provisions of the Railway Act. It was also standing still, without a sound or light of any kind, and obscured by fog.

Opportunity To Give To Relief Association

As the campaign for funds for the Peterborough Relief Association actually starts to-day the committee in charge hopes that the cards in the hands of the heads of every business, financial, educational and other institutions in this city will be distributed at once to the full time employed clerical staff and executives, so that an opportunity may be given those so inclined to contribute to the much-needed fund for relief.

No one of us in a position to give can shut our eyes to the fact that a fund is required in Peterborough the same as in other cities and the plan adopted here would appear to be very fair and adequate enough if we are to do our share.

PILOTS HAVE NO SINECURE

Hardy Group of Boston Bay Guides Ships In and Out of Harbor.

REGARDLESS OF GALES

BOSTON, Mass., Feb. 16.—The average landsman has only a vague idea of the working existence led by the hardy group of 24 men who, serving as pilots for Boston Bay, keep shipping moving in and out of the harbor day after day, year in and year out, if the weather is stormy, cold, foggy or otherwise.

Two pilot boats, either the Liberty or Pilot, work alternate weeks, and as steamers ending a voyage from Europe, South America, the Orient, far away Australia and other parts of the world approach Boston Lightship, standing sentinel-like in outer Boston harbor, the sight of a pilot boat joggling about in the vicinity of the lightship is the first to greet the incoming mariner, who always welcomes a view of the blue and white flag flying at the pilot boat's main masthead by day, and the red and white masthead lights shown at night.

When the steamer's lookout spots the pilot boat, he relays word back to the bridge. If the ship is a regular visitor she merely waits for a pilot to come aboard, but in the case of a stranger to the port a pilot jack is raised as a signal that a pilot is wanted.

The pilot boat is then manoevered to within a quarter of a mile of the ship, a small boat is put overboard and two oarsmen row the pilot to his temporary command. In the case of an outbound steamer, the pilot is picked up by a small boat and conveyed back to the waiting pilot boat.

The pilot, above all, is a seaman, with proven courage, resourcefulness and ability to navigate. After returning from the harbor he goes home for his respite and then, under the rotation system reports back to the shore quarters, where he again waits his turn to go out, killing time by reading, talking, playing cards, listening to radio broadcasts etc.

A pilot's berth would not appear to be particularly attractive, but usually there is a long waiting list for the positions despite hardships included in the life of a pilot, especially in winter months. Most of the appointees serve for years, until death or compulsory retirement at the age of 68 separates them from the service.

Captains Fred W. Ahlquist and Fames H. Reed have been guiding ships in and out of Boston harbor for 35 years.

Every foreign ship is required to use a pilot, and the owners pay a fee based on the tonnage of the boat handled. The pilot service is maintained by this fund.

Old Country Soccer Results

LONDON, Feb. 16.—(C. P. Cable)—Football games played in England today resulted as follows:

Soccer

The English League, Third Division Southern Section

Thames 3, Watford 2.

Northern Section

Halifax 3, Rochdale 2.

Rugby

Leeds 23, Broughton 7.
Oldham 6, Hunslet 3.

SOUTH AFRICA FAR BEHIND.

JOHANNESBURG, South Africa, Feb. 16 (C.P. Cable).—South Africa wound up their first innings in the Test cricket match to-day well in arrears of the English total. England scored 442 and South Africa 296.

23 FISHERMEN IN ATTENDANCE

This Year's School for Fishermen Has Full Quota of Students.

LEARNING LATEST METHODS

HALIFAX, N. S., Feb. 16.—Twenty-three fishermen from various parts of the Maratime provinces and the Magdalen Islands are now in Halifax learning the modern methods of their craft at the Fisheries Experimental Station here. The six weeks course is being given for the fourth consecutive year, under the direction of Dr. A. H. Leim, with experienced men in charge of instruction in the handling and curing of fish, the running of gasoline engines, and navigation. Professor A. Stanley Walker, of King's University, is in charge of a general course in natural resources.

Three men from Newfoundland preparing for posts as fisheries officers are attending. Robert Gray, of the fisheries department, has charge of the instruction in pickling fish, with G. R. Earl explaining and demonstrating the better methods of preparing dried and boneless cod. It is recognized that the freezing, canning and smoking of fish require expensive equipment, therefore special attention is given to methods most likely to be of use to the individual fisherman, who is enabled to put up a good grade of salt fish with comparatively little expense. Practical work is done in handling pickled fish, herring and mackerel, including the Scotch cure of herring. Twelve hours a week is actually spent by each man in putting up fish under direction.

Another course deals with the simple chemistry of salt, water, fish, gasoline and so on. Captain H. M. O'Hara is instructing the men in navigation.

The Halifax station is the second of the two main stations of the Biological Board of Canada. The first Canadian marine biological station was established at St. Andrews, New Brunswick, in 1899, when a small moveable laboratory was erected. This was later moved for successive periods to Canso, N. S., Malpeque, P. E. I., Gaspe, and Seven Islands, Que. In 1907 it was decided that the extent of the local fishery of the Passamaquoddy region, the great expanse of sheltered water and varying depths, and the rich feeding ground, made St. Andrews an ideal place for solving problems associated with the fishing industry. Permanent buildings were erected in that year. This station serves as headquarters for general investigations of Atlantic Coast fishing matters.

In 1925 the Halifax station was founded, for the purpose of assisting the fishing industry in its problems in the handling of fish and other marine products as food. Temporary field stations have been established from time to time as found necessary for particular problems

DIED

CONNAL.—At his home, 270 Brock street, on Sunday, Feb. 15, 1931, James H. Connal. Funeral announcements later.

DAWSON.—The death occurred on February 15, of Julia Pearl Fisher, beloved wife of Edmund Dawson, at her late residence, Lot 5, Con. 2, South Monaghan. Funeral on Tuesday, Feb. 17, from above address. Interment in Dawson's Cemetery.

IN MEMORIAM.

ADAMSON.—In loving memory of our dear mother, Mrs. H. T. Adamson, who died Feb. 16th, 1924, and our father, W. T. Adamson, who died Feb. 18th, 1929:

Happy were the years we spent together,
Lonely are our hearts to-day
For the ones we loved so dearly
Have forever passed away.

Only gone awhile before us,
We shall meet them bye and bye,
If we are prepared to enter,
The bright mansions in the sky.

Mr. Rat Is No More a Pest In Western Canada

No longer is Johnny Muskrat a rodent to be shot at will as a pest. The Little Marsh animal has at last taken a place in the sun. Not that it will do Mr. Rat much good, but it will make living more peaceable for him—while he lives. Furriers, realizing the scarcity of good imitation fur for seal and othe rcoats for milady, have come to the conclusion that an imitation must be found for the imitation. The muskrat was the victim, and now hundreds of thousands of dollars have been invested in muskrat farms in the west. In the above layout, (1) is, of course, a typical Canadian muskrat. (2) Shows Mr. Muskrats home in the marsh and (3) is a small section of a badger ranch near Kisbey, Sask., showing the pens in which these little animals are kept.

Old Peterboro Boy Sends $20 For Relief

The slogan, "Be Glad That You Can Give," is used by a relief association in a city across the border hundreds of miles from here where a former resident of Peterborough lives and who has contributed to the funds of the Peterborough Relief Association the sum of $20.00.

A full set of forms used in the American City has been endorsed in the letter and the plan is almost identical with that in operation in Peterborough—only 1 day's pay per month for four months is the period of collection.

The statement is made that ninety-five per cent of the citizens contributed in some manner. Just so the work of the local Relief Association will not be hampered won't everyone who can, arrange to make their contribution this week through the cards now in the hands of every employer?

The Examiner Social Club
is putting on another big party to raise money for the City Relief Funds, and invites the whole community to come out and

BANDITS CAPTURED IN COBOURG HOLD UP

Girl Is Killed When Car Is Ditched

HIGH SCHOOL GIRL KILLED IN CRASH NEAR PORT PERRY

Four High School Students Were Out Driving When Car Skids.

INQUEST TO BE HELD.

Victim Thrown Out Through Window and Car Toppled Over on Her.

OSHAWA, Ont., February 17 (C.P.).—Dorothy Miller, 16-year-old daughter of Mr. and Mrs. Joel Miller, Sixth Concession of Reach Township, and a student at the Port Perry High School, was almost instantly killed last night when the car which she was driving upset in the ditch on the Whitby-Lindsay Highway about two miles south of Manchester.

The young girl, in company with three student friends, Miss Irva Reynolds, Campbell McMaster, and Wendell H. Tatten, all of Port Perry, had been motoring south on the highway. The car is thought to have skidded on the icy pavement and made toward the ditch on the east side of the highway.

Miss Miller was thrown out through the window and the car toppled upon her, crushing her chest. She died a few minutes later. None of the other young people in the car with Miss Miller were injured. An inquest will be held.

OFFICIALS DIFFER WITH POPE PIUS

Newspapers Scored as Immoral Are Regarded as Cleanest In Europe.

TAKE CRITICISM CALMLY.

ROME, Feb. 17. — Official circles, while taking yesterday's criticism by Pope Pius calmly, to-day contradicted some of the points in which the Pontiff said the government was failing to maintain the moral and religious atmosphere in Rome stipulated under the terms of the Lateran treaty.

The newspapers, which the Pope criticized as "immoral" are regarded by official Rome as among the cleanest in Europe; the movies, which the Pope also criticized, are mostly American, with some German and French, all closely censored, and there is close supervision over the vaudeville stage.

As for disregard of the Sabbath, it was observed that the head of the church naturally would expect a more rigid observance than is generally to be expected from the people.

The Italian Government, it was said, observes the spirit and letter of the Lateran Treaty, but while protecting the interests of the Church of Rome, it must also assure religious freedom of other sects. This was by way of answer to the Pope's assertion that too great freedom was permitted Protestant sects in Italy.

D. E. BOYD NEW CROWLAND CHIEF.

WELLAND, Ont., February 17 (C.P.). — Daniel E. Boyd, former police chief at Galt, was appointed police chief of Crowland by the Crowland Township Council at a special meeting last night.

Robert Offer, present constable was re-appointed to that position. Police Chief Boyd follows Police Chief Harry Jones, who, in resigning recently charged political interference. Chief Jones held the job for ten years.

Clothes Take Fire Woman May Die

WINDSOR, Ont., Feb. 17. — (C.P.)—Mrs. William Cromarty, 38, of Sandwich West Township, is in a serious condition in Grace Hospital here as a result of burns.

According to information available, the woman was using gasoline in cleaning some clothes, and in some way it took fire. She ran into the yard and rolled in some water puddles, but her clothing was almost entirely burned from her body. Some time later she was found in her home and was rushed to hospital. Physicians fear that the burns may prove fatal.

Remains Of R-101 Will Fly Again In New Dirigible

FRIEDRICHSHAFEN, Germany, Feb. 17.—(A.P.)—Great Britain's tragic dirigible R-101 is to fly again, in spirit, through the wreckage of her great skeleton is a twisted pile on a hillside near Beauvais, France.

The Zeppelin works here has bought the metal remains of the ship and will melt them down to be fashioned into parts for the new German dirigible LZ-129. The metal will be brought to the plant here within the next week or so.

Meanwhile the veteran Graf Zeppelin, which has been hibernating in its shed since December soon will be ready for the 1931 program. Short flights will start late next month and, toward the end of April the ship will leave on a long cruise to Egypt and the Holy Land.

AIMEE IS SEEKING SITE FOR TEMPLE

Would Start Branch in Shanghai She Announces at Revival Meeting.

TAKES CHINESE FANCY.

SHANGHAI, Feb. 17.—(AP)—Aimee Semple McPherson, Los Angeles announced while leading a spirited revival meeting here today she was seeking a permanent property in Shanghai upon which to erect a miniature Angelus Temple.

The little foursquare gospel mission in the Chinese quarter was packed with enthusiastic natives as Mrs. McPherson, who yesterday was reported ill in a local hotel, appeared in her pulpit. Only a fraction of the listeners understood English.

Shouting "hallelujah" and singing her "foursquare battle song," the evangelist captured the fancy of the throng through an interpreter. She asserted it was one of her proudest moments to be able to stand before her Chinese converts and call them "brothers and sisters." She was rewarded with enthusiastic shouting and singing in Chinese.

A movie camera recorded the service. The mission is a small unheated stone building equipped with wooden benches and a small portable organ. Occasionally Mrs. McPherson took a Chinese baby in her arms as it toddled before the pulpit.

The evangelist said she would sail tomorrow to resume her round the world voyage.

SOLLOWAY TRIAL AT NEXT ASSIZES

Former Broker Expected to Appear in Ontario Before Going to British Columbia.

OFFICER AWAITS RELEASE.

TORONTO, Ont., February 17 (C.P.). — I. W. C. Solloway, former stock broker, now serving a sentence in Alberta, will likely be tried on further charges in Ontario at the Spring Assizes, it was learned at the Attorney-General's Department to-day.

Charges are pending against Solloway both in Ontario and British Columbia, but as the Ontario charges were laid first and as there are a number of similar cases to be disposed of at the coming assizes, it is not anticipated the British Columbia authorities will oppose his trial in Ontario first.

An officer of the Ontario Provincial Police is now on his way to Lethbridge, Alberta, to arrest Solloway when he completes his sentence there next Saturday.

Sinclair And Nixon Speak In House Today

TORONTO, Ont. Feb. 17. (C.P.)—Debate on the address in reply to the speech from the throne will get under way in the Legislature to-day when W. E. N. Sinclair, Liberal leader, makes the first speech of the session from the opposition side. Hon. H. C. Nixon, Progressive leader, will likely follow Mr. Sinclair, after which Premier Henry will speak for the Government.

Liberal members are holding a caucus to-day to decide whether they will move an amendment to the address. Yesterday in a short session the House disposed of a small amount of routine business.

TENEMENT FIRE CLAIMS 3 LIVES IN NEW YORK CITY

Two Women and Unknown Man Victims in Early Morning Blaze.

BODIES RECOVERED.

Firemen Rescue Remaining Tenants Clad Only in Night Clothes.

NEW YORK, Feb. 17.—Two women and a man were burned to death early today when flames swirled through a six storey brick tenement on the lower East Side.

After the fire had subsided the women's bodies were found in a fifth floor flat and the man was sprawled over the stairway leading to the top floor as though he had attempted to flee to the roof. The women tentatively were identified as a Mrs. Mass, 60, and Rachel Rosen, 88. The man's name could not immediately be learned.

The remaining tenants, clad only in night dress and badly frightened, were helped down fire escape and aerial ladders by police, firemen and neighbors. Eight of them were attended for smoke poisoning and several spectators received first aid after fainting. The neighborhood, highly congested, seethed in near-panic.

U.S. FIRM CLOSES HUGE FUR DEAL

Contract Provides For $10,000,000 Worth of Russian Furs Each Year For Five Years.

LARGEST EVER MADE.

LONDON, Feb. 17 (C.P.).—The Eltingon Shild Gompany, international fur traders with headquarters in New York, announced today that with the approval of the Government at Washington they had signed a contract with the Poushno Syndicate of Moscow for the purchase of $50,000,000 worth of furs for Northern America and Europe.

The contract, said to be the largest of its kind ever negotiated, was signed in London with Argos, the Soviet trading organization, acting as the representative of the Poushno Syndicate.

The deal provides that $10,000,000 worth of Russian furs will be delivered each year for five years. They will be imported raw and the dressing and dyeing will be done in Europe and the United States.

British Dole Fund Boosted $100,000,000

LONDON, Eng., Feb. 17. (A.P.)—The sum of $100,000,000 was added to-day to Great Britain's dole fund by the House of Commons which last night accepted recommendations of Rt. Hon. Margaret Bondfield, Minister of Labor, for new unemployment loans.

The labor loan authorization motion was accepted without a division, but previously a Conservative motion to cut the amount of the loan by half had been beaten by a majority of only 31, the vote being 251 to 220.

The new grant pushed the total of the British unemployment fund from $350,000,000 to $450 000,000. The fund is already about $335,000,000 in debt.

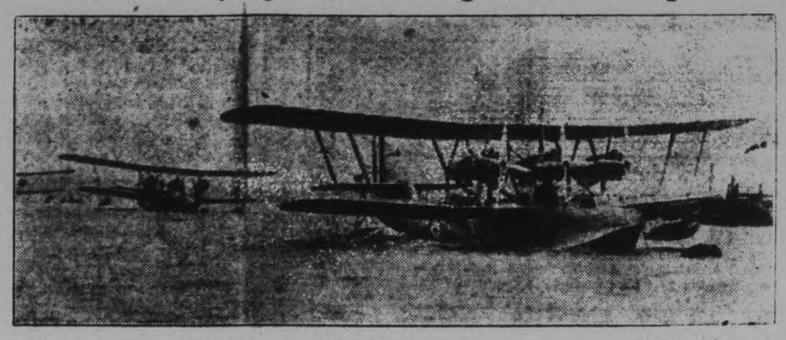
Miss Bondfield cited recent unemployment figures showing 2,642,000 without jobs in the British Isles and she said that there was no assurance that the peak had been reached. She explained that borrowing had increased to about £1,000,000 weekly.

Rumor Of Uprising Alarms Barcelona

BARCELONA, Spain, Feb. 17. (AP) False reports that a military uprising had taken place at the Jetafe military base at Madrid caused for a time a near panic in business circles here. Wide fluctuations in values on the stock exchange and such tumult in the curb market that the session was suspended for a time.

The Stock Exchange remained open, however, and shares regained some of the lost ground when an official denial of the reported uprising was published.

British Flying Boats Starting 5,000-Mile Trip



The above picture shows part of the squadron of "Rangoon" British Royal Air Force flying boats, which left Felixstowe this month on a 5,500-mile flight to Basra, where they will replace the Supermarine "Southampton" group. Group Captain W. L. Welsh, who is in command of the flight, will take over command of the F. B. Squadron on arrival at Basra.

Parliamentary Circles Interpret Speech By Snowden As Threat Of Resignation

LONDON, February 17 (C.P.). — In parliamentary circles tonight it was reported that Right Hon. Philip Snowden, Chancellor of the Exchequer, had threatened to resign at a meeting this afternoon of the Labor Parliamentary Party.

The official report of the meeting showed that Snowden had said:

"I have a difficult job. The full blast of the economic blizzard has come on my head; if every step one makes is to be treated with suspicion or if one is charged with perfidy, one's position becomes intolerable."

Referring to his speech in the House of Commons last Wednesday, in which he warned of "drastic and disagreeable measures" which must be taken in these times of economic stress, Mr. Snowden said his reference to temporary sacrifices implied no cut in wages, and what he meant was that workers would have to undergo temporary suspension of plans for social development.

Chinaman At Play Rouses Chicagoans Police Squads Out

CHICAGO, Feb. 17. (C.P.)—The telephone on the police sergeant's desk rang long, loudly and often last night. Each time he answered he got the same message:

"There's another machine gunning going on in Howard street."

Several police squads were directed to the spot, and when they got there they found Sam Chow, Chinese laundryman placidly standing in front of his laundry, about ready to toss out another package of firecrackers.

"Just celebrating the Chinese New Year," he said.

GANDHI-IRWIN PARLEY STARTS

Press Reports State 5,000 Men Held in Virtual Slavery in Alaska.

WORK IN MINES.

NEW DELHI India, Feb. 17. (C. P. Cable)—The highly important negotiations between the Viceroy of India, Lord Irwin, and Mahatma Gandhi, Hindu Nationalist Congress leader, commenced this afternoon in the magnificent new capital inaugurated formally a few days ago.

The conversations could have been started in the morning but were delayed for a few hours to enable the aged and bent Mahatma to finish his daily stint of spinning, a rite which he has maintained to symbolize the Nationalist policy of boycotting foreign cloth.

On the outcome of the negotiations depends peace in India; whether or not the Nationalists are to cooperate with other parties in the forthcoming negotiations on the working out of details of the new scheme of modified self-government which Premier Ramsay MacDonald offered at the close of the London Round-Table Conference.

Chicagoan Is Named On Macnider's Staff

OTTAWA, Ont., Feb. 17.—(CP)—Christian Goss, native of Chicago and member of the United States Diplomatic Service since 1923, has been named second secretary of the U.S. Legation here. It is expected he will take up his duties under Col. Hanford Macnider, Minister to Canada for the U.S., in the very near future. The new appointment brings the Secretary of the Legation in Canada up to its maximum.

FIRST REPORTS ENTHUSIASTIC

Staff of Peterborough Branch of Sun Life Has Contributed 100 Per Cent.

OTHERS ARE WELL UP.

Interest in the Peterborough Relife Association Campaign for funds was very much in evidence yesterday and again to-day when reports of activities in the different stores, factories and other institutions in the city started to make their reports. In some cases the contributions are complete, in orthers all the cards have not been returned as yet, but will be in a day or so. Of the complete returns, mention might be made of the Peterborough Branch of the Sun Life. The office staff to the number of 21 have contributed 100 per cent. and the sum of $125 has been reported to R. T. E. Hicks-Lyne, the treasurer of the fund.

The staff of the Bank of Nova Scotia has contributed 100 per cent as well as the Card and Paper Works and the Alladin Company. McColl Bros. Oil Company staff has contributed to the present time 96% and they expect when cards are all in it will be 100%.

Returns are being received from departments of the Canadian General Electric Company where a sympathetic and practical interest in the campaign is being shown. The Inspection Department reports $42; Production Department $156; General Test, $158.80; Engineering and Drafting $744 38; as other departments are cofplete they will be reported.

If any firm or individual has not received cards or wish more, telephone N. E. Crowe, manager of the campaign, and they will be sent out immediately.

Hamilton Workman Is Killed In Fall

HAMILTON, Ont., February 17 (C.P.). — Plunging down thirty feet to the bottom of a scrap pit, George Gurney, Connaught Avenue, aged 35, was instantly killed at the plant of the Dominion Foundries and Steel Company this morning.

Gurney was employed as a hooker-on and had fastened chains from an overhead crane to a huge bucket of scrap. He had already fastened three buckets and was standing on the fourth. He took a step forward and overbalanced the car. The bucket, with Gurney inside it, crashed to the bottom of the pit. The man was dead when fellow-workmen reached him.

Creation of a semi-government entity to take over the administration and control of all communications in the Philippines has been proposed.

ED. M. ELLIOTT GIVEN TO COUNTY 27 YEARS SERVICE

Veteran Clerk and Treasurer Is Celebrating To-day His 66th Birthday.

WORKS 15 HOURS DAILY

Born in Smith Township, Mr. Elliott for Years Served His Municipality.

Twenty-seven years clerk and treasurer of the County of Peterborough and municipal mentor of the succeeding Councils during that time Edward M. Elliott is to-day celebrating the 66th anniversary of his birth.

"I feel as fit as I did 25 years ago," he told The Examiner as he looked up from a book of County records over which he had been poring but a minute before, and his subsequent remark that he regularly works fifteen hours a day gave proof of the remarkable vitality he possesses and which might well be the envy of younger men. "Yes," he sagely remarked, "there is nothing like work to keep one fit and in condition."

In point of years Mr. Elliott is not the senior man in the service of the County, but judged in years of unbroken service he holds second place with his 27 service, as against Gaoler R. Rae's 48 years service at the County Buildings.

Honored by Council in 1929

In December, 1929, Mr. Elliott was the recipient of an illuminated address and a gold watch from the members of the County Council during the Wardenship of J. F. Breckenridge. The gift was a personal one from the members of the Council, "to express our appreciation of your assistance in the duties of our office, your kindness, goodwill and fidelity, not only to us but to preceding Councils during your twenty-five years as Clerk of the County of Peterborough." This incident is recalled to show something of the cordial relations which have always existed be-

(Turn to Page Two, Please)

EIGHT RINKS IN TROPHY RUNNING

Preliminary and First Rounds of R. L. Dobbin Run Off Last Night.

TO-NIGHT'S DRAW.

The preliminary and first rounds for the R. L. Dobbin Trophy were played off at the local curling rink last evening on a somewhat soft ice. Out of the seventeen leads and seconds rinks entered in the competition, this now leaves eight rinks, who will resume the battle to-night, weather permitting.

Preliminary Round.

Bowes 13 vs. Fletcher 1.

1st Round.

Glover defaulted to Bowes.
Taylor 8 vs. Lowe 6.
Harvey 14 vs. McDonnell 1.
Blewett 16 vs. Turner 4.
English defaulted to Harper.
Comstock 8 vs. Adams 9.
Stocker 7 vs. Pratten 9.
Gates defaulted to Wood.

The draw for to-night is as follows:
Bowes vs. Wood.
Taylor vs. Harvey
Blewett vs. Harper.
Bowes vs. Pratten
The winners will play off at nine o'clock p.m.

Berlin, Germany, is to have a new radio station with power strong enough to counteract disturbances caused by Russia's new transmitters.

Within 20 Minutes After the Hold Up Men Under Arrest

Two Clerks of the Dominion Bank in Cobourg Were Supposedly Locked in Vault and Three Young Bandits Escaped With Approximately $3,000 in Cash.

CLERKS ESCAPE AND CHASE BANDITS TO PUBLIC SCHOOL WHERE WITH HELP OF TWO CITIZENS CAPTURE MADE

No Auto Was Used and Two of Young Thugs Put Up a Battle in the Public School Before They Were Captured and Turned Over to the Police.

COBOURG, Ont., February 17 (Special to The Examiner).—Forcing their way free from the vault into which they had been herded at gun point, two clerks of the Dominion Bank here gave pursuit to three armed men shortly after noon to-day, and captured the men and recovered approximately $3,000 of the bank's money.

Events happened quickly in the bank after one youth, aged about 20 years, entered with levelled pistol and held up the staff. C. A. Smith, accountant, F. Bowman, teller, and James Forbes, also a teller, were on duty. They were forced into the vault and supposedly locked in. The gunman vaulted the counters and scooped out the contents of the cash drawers, estimated at $3,100. Two men with drawn pistols stood in the vestibule to guard against interruption.

Push Themselves Free.

The way appeared clear for a clean getaway. The three men rushed up Division Street. In the matter of seconds Forbes and Smith pushed open the door of the vault and while Bowman called the police, gave chase.

All the hold-up men were on foot. One man was captured outside the bank and the other two dashed into the basement of the Cobourg Public School. His suspicions aroused, Wilfred Throop, a veteran of the 21st Battalion, followed the pair and was putting up a terrific struggle when he was joined by G. A. Rorabach, James street. The gunmen fought desperately, but were held at bay until Forbes and Smith arrived with guns they had snatched hastily in the bank office. One shot was fired by the bank clerk before the bandits submitted. A blow aimed by one of the clerks with his pistol struck Rorabach on the head and temporarily stunned him.

Still feeling the effects of the rough handling Mr. Rorabach told of how he had noticed the confusion outside the bank and saw the two bandits hide in the school basement where the other man was held. He went after the one who was armed with a rifle and found him hiding in a closet. He dragged him out and the man "made some passes at him". A blow from Mr. Rorabach however knocked the bandit to the floor and

EXPECT MOVE TO PUT FRAUDS ACT IN HANDS OF SPECIAL COMMISSION

Price's Department Feels Task Too Burdensome—Control Should Be Non-Political.

WILL INTRODUCE BILL.

TORONTO, Ont., Feb. 17 (C.P.)—Legislation will be introduced at the present session of the Legislature to place the administration of the Security Frauds Prevention Act in the hands of a commission it was confirmed to-day. The administration of the act since it came into force has been carried on by the Attorney-General's Department.

For some time it has been felt that the regulation and control of brokerage and stock-selling business in the provinces was too great a burden on the Department. It was felt it should be in the hands of a non-political body where action taken under the act could not be made at the subject of political controversy.

Price Drew Up Bill Last Year

Last year Hon. W. H. Price, Attorney-General, drew up a bill to transfer the handling of the act from his department to a commission. This bill has since received the careful scrutiny of the cabinet and it is expected Col. Price will place it before the Legislature at an early date.

The proposed commission will be established by amendments to the Security Frauds Prevention Act and will operate within the terms on the act in a manner similar to the Hydro Commission and the Liquor Control Board.

The net result of the move will be the highly contentious questions which arise will come before a body [illegible] to those CULATION [illegible] minister [illegible] to

Cupid Given Boost By Turkish Gov't.

ISTANBUL, Turkey, Feb. 17.—(A.P.) — Turkey has eliminated the first cost of marriage, leaving newly-weds to struggle with the upkeep.

Taking cognizance of economic difficulties which have clipped even Cupid's wings, the Government has announced that marriage certificates, usually priced at $2.50, will be issued gratis to couples certified to be short of cash.

Sea Floor Is Raised 70 Feet During 'Quake

WELLINGTON, N. Z., Feb. 17.—A.P.)—The director of the geological survey reported today that a great landslide south of Mohaka had lifted the floor of the sea of the recent earthquake.

Between Taumatu Island and the miniand near Gisborne the quake raised the bottom to ten feet for two miles, and on a reef which appeared out of the water is a great pool from which at low tide innumerable small geysers jet inflammable gas.

The whole area is covered with seaweed and mud which appears literally to have been squeesed up from the ocean bed, and at low water the stumps of a submerged forest are visible.

Hawaii's 1930 pineapple crop filled 288,000 000 cans.

Beatty Reveals Farm Diversity Fund Proposals

PLAN OF CREDIT FOR WESTERNERS IS ABLY OUTLINED

E. W. Beatty, K.C., President of C.P.R., Forecasts 6 Per Cent. Money for Prairies.

EXPLAINS LOAN FUND.

Handling Charges Must Not Impede Wheat Grower's Recovery.

WINNIPEG, February 17. — Proposals in connection with the organization and operation of the Dominion Government's $5,000,000 revolving loan fund to aid Western Canada farmers were outlined here last night by E. W. Beatty, W. C., President of the Canadian Pacific Railway. Mr. Beatty was first proponent of the idea definitely announced by Premier R. B. Bennett at Regina, on December 30.

The railway head offered two major suggestions for officials named to handle the fund, which has been placed in the hands of the newly chartered Dominion Agricultural Credit Corporation. No burden of handling charges should be imposed on the farmer, he thought, and the safety of the investment must be assured.

"The policy must be operated in such a way," he said, "so as not to impose a burden on the farmar in the matter of handling charges, interest, etc., but rather to provide him with a greater stability in earning power at the very minimum of cost. It must also ensure the safety of the investment so that the capital of the loan corporation is not impaired."

To Improve Conditions.

He reiterated his belief, first declared at London, Ont., last October, that the plan would "improve conditions under which farm operations are carried on in those districts where its credits can be properly used."

In some particulars, Mr. Beatty thought the credit body should function similarly to administrators of the "Minnesota plan." He thought it "might be advisable" to adopt the United States minimum and maximum loan clause. This would set loans at $200 and $1000. "However," he added, "I would not favor the granting of the maximum amount except under special circumstances."

Length of time for which the loans are made also might be adopted from the "Minnesota plan," the C.P.R. President said. Under this three-year repayment plan, the farmer would pay back 30 per cent. of his loan after the first year, 30 per cent after the second, and the balance after the third year.

Mr. Beatty asserted the loan plan here would be operated under vastly different conditions than when it met with "amazing success" in Minnesota. "It will be well to remember," he said, "that their record in the matter of repayment of loans has been achieved in the period when prices and other conditions were comparatively good; that they have a great advantage over this country in the matter of population and, therefore, of consumers, and that great difficulty may be experienced under more adverse conditions.

Conservative Operation.

"This," he added, "suggests the advisability of some conservatism in the extension of credit, at the outset, at least." Greater safety in the operation of the loan scheme would be achieved through numerous relatively small loans, and though he said it was not yet possible to estimate cost of managing the credit corporation, "it should be urged that all possible avenues be explored with a view to establishing credit facilities at a rate of interest not to exceed 6 per cent." He stressed that the plan is not expected to "work miracles" for the farmers.'

Mr. Beatty spoke at a banquet of the Winnipeg Board of Trade on the occasion of the fiftieth anniversary of the issuance of the charter of the Canadian Pacific Railway.

February 16th, 1931, is a very significant date in the history of this Dominion in that fifty years ago, the charter of the Canadian Pacific Railway Company received formal approval. That there is another anniversary which we will celebrate on the 2nd of May, an anniversary of even greater significance in that on that day in the year 1881 the first sod in the construction of the railway was turned and its physical creation commenced. Therefore at about that time it will I hope be my privilege to make a brief address for the information and I hope for the inspiration of our present officers and men and the people of this Dominion whose interests and those of the company are inextricably linked together and whom it has been our pleasure to serve. On this occasion I would like to make some

Pope Speaks To World From Vatican City

PONTIFF'S ADDRESS INAUGURATED NEW PAPAL BROADCASTING STATION.

Reproduced here is a telephotograph, retouched by artists, showing a remarkable scene in the broadcasting room of the Vatican City radio station, HVJ, with His Holiness Pope Pius XI., RIGHT, seated before the "mike" just before he spoke to the world recently in his address inaugurating the new station. Marconi, inventor of the wireless and man responsible for erection of Vatican station is shown at LEFT introducing the Pontiff to radio listeners The broadcast was the first ever made by a leader of Roman Catholic Church.

HOOVER BATTLES WITH CONGRESS OVER MEASURE

Opposes Bill Allowing War Vets to Borow on Bonus Certificates.

$1,750,000,000 INVOLVED.

Proponents of Plan Claim Use of Money Would Stimulate Business.

WASHINGTON, D.C., Feb. 17 (By Ken Clark, C.P. Staff Correspondent) —The question of paying the soldiers and sailors of the United States for their services during the Great War furnishes the major issue as the third session of the 72nd Congress draws to its close on March 4, 1931. The battle is between President Hoover and Secretary of the Treasury Andrew Mellon on the one side and the House of Representatives and the Senate on the other.

Borrow Up To 50 Per Cent.

Congress wants a law which will permit the 3,000,000 veterans who received bonus certificates payable in 1945 to borrow on those certificates up to 50 per cent. of their value from the Government. The administration fearing an upset in the treasury's program by reason of what Secretary Mellon estimates as a potential liability of $1,750,000,000, opposes the stand of Congress. If Congress cannot pass the permissive bill before Feb. 20, the President can put it in his pocket until adjournment March 4. If on the other hand, Congress passes the bill before Friday, the President will be forced under the regulation which allows him to keep a bill unsigned for only ten days, to return it to Congress in time for passage over his veto.

A not dissimilar situation was observed in 1924 when Congress passed the first bonus bill over the veto of President Coolidge. The bonus bill which was properly called the adjusted compensation bill, provided for the issuance to war veterans of certificates payable in full in 1945 and based in value upon length of service.

These certificates were like life insurance policies. After two years veterans were enabled to borrow upon their current face value. Subsequent legislation permitted borrowing up to an amount of 22 per cent. of their final value. The average value of the certificates filed upon a basis of one dollar a day for home service and a dollar and a quarter a day for overseas service was $962

First Plan Full Payment.

The present agitation for payment of cash to the veterans found its origin in the economic depression and the agricultural depression consequent upon the widespread drought in the United States during the past year. It was at first proposed that full payment of the certificates should be made at once. The American Legion offered some opposition to the project but eventually swung around to back the demand.

Any legislation benefiting veterans occupies a preferred position in Washington because of its political value resting upon the national feeling of gratitude toward soldiers and sailors. Further, the men who were in service during the Great War are not badly organized as a political force.

When the proposal to take out of

(Turn to Page 6, Please).

Blame Machine Age For Social Evils

MEXICO CITY, Feb. 17.—(A.P.)—The newspaper Universal Grafico today published a protest against alleged conditions of "virtual slavery" in which it says 5,000 Mexicans are held in Alaska.

The paper printed reports from Mexican residents of California charging that Mexicans of the laboring class are contracted for work in the mines and forests of the northern territory and there are obliged to live under inhumane conditions.

Contractors find an easy means of labor supply in the thousands of Mexicans stranded in California without work and entice them to Alaska with promises that are not fulfilled, Grafico declared.

Battles Demon Drug

At the end of a journey which has been shadowed by prison bars and aching hearts, Mrs. Anne Rusling (above), mother of Kathryn Crawford, stage and screen star, in the county jail at Los Angeles, told her story of a valiant fight against morphine addiction.

ED. M. ELLIOTT

(Continued from Page 1)

tween the members of the Council and the veteran clerk, who is a veritable encyclopedia on municipal affairs and municipal law.

Mr. Elliott was born in Smith township on February 17, 1865 and followed agricultural pursuits until his entry into the service of the County in June 1904. He had always taken a keen and active interest in municipal affairs prior to this time and had held practically every office which it was possible to hold in his native township, having served on the council and having held the office of Reeve from 1903 for a period of seventeen months. Among the other numerous offices he held were those of President of two cheese factories; vice-president of the Cheese Board; President of the Farmers' Institute and President of Lakefield Agricultural Society.

During his term as County clerk he very strenuously opposed the entry of this County into good roads program of the Province, his chief reason for objection being that the portion of money which the local municipalities would require to assume was too great.

That his early interests were not wholly confined to Smith Townsnip, is evidenced by the fact that from 1901-04 he was superintendent of Peterborough Exhibition Board.

Outside of his business pursuits Mr. Elliott used to take a delight in raising horses, and he gave freely of his time as a judge at local horse shows throughout the district.

Mr. Elliott was married in the year 1887 and is still enjoying the companionship of his wife. He also has three sons E. H. P. Elliott of Detroit and Charles H. and Alexander L. of this city.

Surveyor Is Forced To Take Many Trips

HALIFAX, N.S., Feb. 17 (C.P.).—Weary of enforced travelling between Boston and Halifax, Joseph Chandler, 32, is here wondering what his next step will be. Deported from Boston for the second time, he was the only passenger on the Steamer Prince Robert, arriving here yesterday. Chandler is a Canadian surveyor, with a wife and two children at Brantford, Ont., and local immigration officials have no connection with the case. Chandler was turned over to Boston immigration authorities after stowing away on a steamer at Vancouver in hope of reaching South America and finding work there. Shipped back to Halifax, he sought employment here, and failing, stowed away in the Lady Somers, bound to the West Indies. The steamer touched at Boston, however, and the second deportation ensued.

FURTHER STORMS BEING PREDICTED UNLESS DR. McLAREN WITHDRAWS DECISION OF DRASTIC REDUCTIONS

Minister of Soldiers' Welfare Makes No Explanation of Action.

ALLOWANCE EXHAUSTED.

Believed Move Taken Without Other Cabinet Ministers Being Consulted.

OTTAWA, February 17. — Reducing relief payments to unemployed pensioners has brought strong protests and even stronger will be forthcoming if the Government does not have Hon. Dr. McLaren, Minister of Soldiers' Welfare and National Health, withdraw the order for reduced relief. He would make no comment or explanation yesterday, and the Prime Minister, through his secretary, was told of the situation, but probably awaits a larger attendance of the Ministers before taking action to repudiate or confirm Dr. McLaren's order.

It has been customary for several years to place in the estimatess a substantial sum for the relief of unemployed pensioners during the winter. This relief is withdrawn in April. The amount for this purpose at the disposal of the department was $250,000, but owing to abnormal conditions, this was exhausted some weeks ago. The cheques for current payments are ready, but there is no cash and the financial controller will not forward them until a Governor-General's warrant is secured for more money for this purpose.

Probably Alarmed.

Hon. Dr. McLaren, probably alarmed at the excessive expenditure, decided to reduce the amount paid per person in each class. It is believed he did this without consulting the other Cabinet Ministers. Five years ago an attempt was made to abolish this expenditure, but owing to the strong protests this was abandoned.

Under the new regulation, which came into effect yesterday, the amount of relief an unemployed single pensioner may receive is set at $17.50 a month. The figure formerly was $30. For instance, if a man receives a pension of $10 a month, he is entitled to $7.50 relief, making a total of $17.50. Similarly, the maximum for married men without children has been reduced from $45 to $35; a married man with one dependent child, from $57 to $47; and a married man with two or more dependent children from $67 to $57.

GOLD STANDARD SHOULD BE CUT SAYS MEIGHEN

Former Canadian Premier Urges Wider Use of Silver.

SPEAKS IN BUFFALO.

Scheme as International Policy Be Big Aid in Bringing Economic Stability.

BUFFALO, N. Y., Feb. 17.—A decrease of 33 1-3 per cent in the value of gold now used as the base of currency generally throughout the world and the greater use of silver as a medium of exchange were advocated last night by Rt. Hon. Arthur Meighen, former Premier of Canada, speaking at a Chamber of Commerce banquet. Mr. Meighen thought the change would be the means of providing greater economic stability.

The responsibility of taking the initiative in a general movement to reduce the gold ratio rests on the United States, Mr. Meighen said because, it is the leading industrial nation of the world today.

All Act Together

"One nation could not take such action alone," the speaker pointed out. "All of them must act together. And unless we obtain more gold we must reduce the ratio in order to prevent a shortage of currency. Letting the value of silver deteriorate, as we have, has harmed the buying power of the Orient, that of 600,000,000 people, and that in turn has harmed us. Rational steps also must be taken to obtain a reasonable ratio of silver to gold.

"Today is the time for internationalism. We are beyond the time when one country can advance without the others. A nation's debts only are good when its debtor nations are able to pay. The United States is a great creditor nation today."

Mr. Meighen explained that although there now is a period of depression, it also is a period of superabundance. Things exist in too large quantities—too much wheat in Canada, oil in the United States, sugar in Cuba, coffee in Brazil, copper in South America. He pointed out that if community surpluses could be exchanged, the standard of living would be raised the world over.

The BEST Gray Hair Remedy is Home Made

To half pint of water add one ounce bay rum, a small box of Orlex Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Orlex will not color the scalp, is not sticky or greasy and does not rub off.

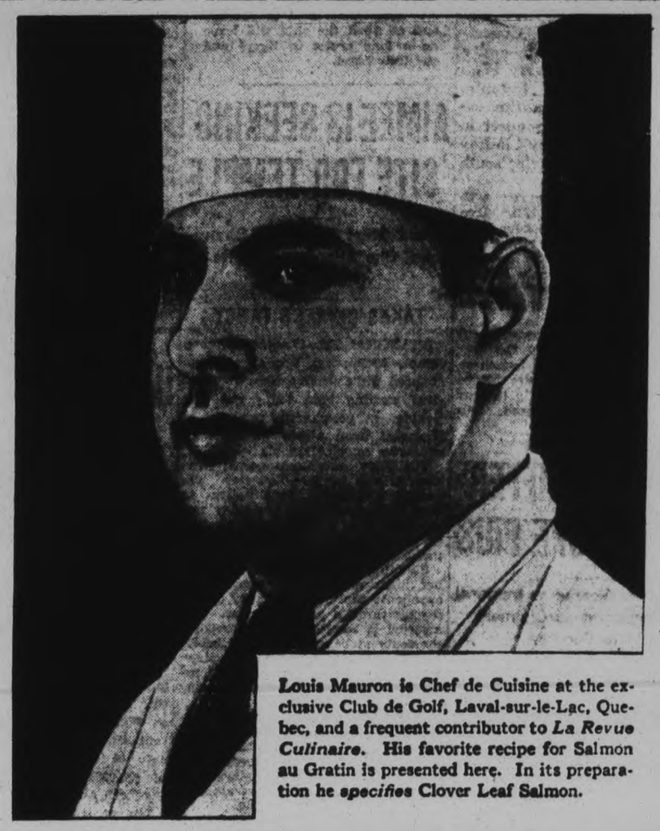
"GOOD LOOSERS," CRITICIZED.

LONDON, Feb. 17.—(A.P.)—London critics to-day favorably reviewed "Good Loosers," new play by Walter Hackett and Michael Arlen presented in London last evening. They were not enthusiastic, however.

"I use and recommend CLOVER LEAF Salmon" says L. MAURON

Chef of Famous Golf Club

"I use and recommend Clover Leaf Salmon for its firmness, freshness and excellent flavor," says M. Mauron, chef of the Club de Golf, Laval-sur-le-Lac, Quebec. "Every tin shows such uniformly fine quality."



Louis Mauron is Chef de Cuisine at the exclusive Club de Golf, Laval-sur-le-Lac, Quebec, and a frequent contributor to *La Revue Culinaire*. His favorite recipe for Salmon au Gratin is presented here. In its preparation he *specifies* Clover Leaf Salmon.

Chefs like M. Mauron commend the choice of thousands of Canadian women who *insist* on Clover Leaf brand when buying salmon.

We asked 1500 of these women recently why they preferred Clover Leaf Salmon. Here are some characteristic replies: "I like the deep red colour of Clover Leaf" . . . "It has such a subtle, delicate flavor—just like the freshest fish when cooked" . . . *"Considering its food value, I can serve Clover Leaf Salmon cheaper than many other foods,* and in so many different ways."

Here is M. Mauron's favorite recipe for
CLOVER LEAF SALMON* AU GRATIN
and a menu to accompany it

Prepare a pint of cream sauce. Arrange a border with puree of potatoes around a dish. Pour a little cream sauce to garnish the bottom of the dish. Then arrange Clover Leaf Salmon, with bones removed, on dish and cover with balance of sauce to which has been added two egg yolks. Sprinkle with cheese and bake in a very hot oven until browned. This makes a splendid hot dinner dish when served with tomato bouillon, buttered beets, sweet pickles, lettuce salad with Roquefort dressing, individual mince tarts, and coffee.

*Clover Leaf Pink Salmon preferred

● Clover Leaf Packers maintain over 300 fishing vessels and 45 canneries on British Columbia's coast to assure the finest, freshest-packed salmon under Clover Leaf brand.

Delightful New Salmon Dishes for Lenten Menus

● "Tang o' the Sea Salmon Recipes" booklet—containing 8 favorite salmon recipes by famous Canadian chefs and dietitians. Get it . . . Free at your grocer's. Serve one of these hot salmon dishes for a supper surprise tomorrow

Out on British Columbia's coast there are 45 modern Clover Leaf canneries and always one within an hour's sail from the best fishing grounds. The complete process of catching and canning takes but a few hours.

Thus Clover Leaf Packers are able to *guarantee* you the finest, firmest quality of tasty, tangy, fresh-caught salmon. Try L. Mauron's favorite recipe tonight.

GUARANTEE
CLOVER LEAF SALMON

Clover Leaf Salmon is packed in three different varieties—Red, Medium Red and Pink—each guaranteed.

Three Varieties of Clover Leaf Salmon for Distinctive Uses . . . Try them!

CLOVER LEAF SALMON—RED . . .
The very finest quality of Sockeye or Red Salmon. High in vitamin and iodine content. Firm and red in color. Packed and cooked . . . ready to serve. Highly recommended for salads, for sandwiches, bridge luncheons and entertaining.

CLOVER LEAF SALMON—MEDIUM RED . .
A rare medium-red salmon. High in protein and food value. Suitable for both hot and cold dishes. Flakier in texture, lighter in color—rich and delicate in flavor.

CLOVER LEAF SALMON—PINK . . .
An economical cooking and cold serving salmon. Rich in proteins and iodine. A high quality in firm, pink fish, packed with the same care and high quality standards.

DEFICIT PROBLEM CAN ONLY BE MET BY NEW TAXATION

Plenty of Material to Provide Stormy Session of Parliament.

REVISION OF TARIFF

By Wilfrid Eggleston
(Special to the Examiner
Copyright, 1931.)

OTTAWA, Feb 17.—Unemployment, the economic crisis in the west, new taxation, the completion of the tariff revision begun last September, the imperial trade policy of the government to be adopted at the adjourned imperial economic conference—these promise to provide raw material for stormy parliamentary session which may not finally prorogue until some of the autumn leaves are beginning to pale.

The number of bills to be introduced will be materially smaller than a year ago, when parliament completed its activities in slightly over three months, but the issues involved are more controversial and the current situation much more critical than was the case then. Some of the pent-up indignation of the low tariff members of the west which the necessity of permitting Mr. Bennett to go to the imperial conference restrained last September will boil over now, with plenty of new outbursts to follow.

The budget will be awaited with unusually keen interest, because the minister of finance faces the problem of a deficit of $60,000,000 at a time when a still further decline of revenue appears certain and increased expenditures are now inevitable. This spells ultimately only one thing: new taxation. Falling as that will on a country suffering from stagnation of trade will be a delicate matter to adjust the new load so as to arouse as little criticism and resentment as possible. Report has it that Mr. Bennett will revise the taxation system thoroughly and lean heavily on a "turnover" tax.

A few weeks ago it seemed fairly certain that the legislators would be called upon first in committee and then in the House to determine whether Canada would nationalize her radio system. Now the action of Premier Taschereau in placing the whole issue of federal and provincial rights before the courts threatens to make any action impossible for a year at least, since the privy council is the only place a federal provincial controversy of such importance is likely to stop.

Economy in government administration is to be the rule, and there will be much wailing and gnashing of teeth. The cutting off of the automobiles of ministers and deputy ministers has been suggested as one step in that direction, and the proposal is still under consideration. Departmental estimates have been treated drastically, and, even so have been sent back in two or three cases at least, for further lopping.

The department of national defence, the department of immigration and the department of the interior will suffer most under the knife.

Immigration offices in Europe and the United States are being subjected to economies; in the latter country a number of them are being closed altogether.

The returning of the natural resources to the three prairie provinces has lightened by much the expense of the Interior Department. Many of the civil servants whose services will no longer be required by the Dominion are being taken over by the province.

Other departments will cost more, a bill $8,000,000 to $10,000,000 greater than it had a year or two ago. Expenditure on public works and railways have been pushed to help unemployment.

The $20,000,000 vote for the relief of unemployment last September will have all been appropriated by the end of the fiscal year, and before members disperse again to their homes they will be asked to vote another sum for that purpose. For the 12 months ending March 31, 1932, at least another $10,000,000 will be required, and there are some indications of a much greater need. Credit facilities for western farmers, seed grain, feed, coal and groceries will require governmental action before the spring is over. Provincial government are carrying out relief schemes but look to Ottawa for supplementation of their efforts.

EFFICIENCY LEAGUE.

Debate at Rush Point on "The World is and Has Been Growing Better" Proves Interesting.

HAVELOCK, Ont., Feb. 17. (Examiner Correspondent.)—The Efficiency League of Rush Point United Church held their regular meeting in the church on Thursday evening, when a large number of the members turned out in spite of the unfavorable weather.

Rev. Mr. Archer of Havelock, acted as usual, the part of a very capable chairman and opened the meeting by having them all sing hymn number 463, "What a Fellowship, What a Joy Divine," and hymn number 379" Conquering now and still to Conquer." Mrs. R. Bonnie led the Devotional Exercises. The minutes of the last meeting were read and adapted as read. Miss Jean Pollock read the Scripture lesson on the 24th Psalm. This was followed by Mr. Archer giving a short, but very interesting talk on the subject.

Miss Janet Tait, second vice-president, then took charge of the meeting. A topic "Four Pillars of Abundant Life" was read by Miss B. Beavis.

A debate, on that much debated subject, resolved that "The World is and Has Been Growing Better" by the Whites and Khakis was greatly enjoyed by all.

The affirmative side was composed of Miss Janet Tait, Mrs. Cora McArthur, while the negative side was made up of Mr. Herbert and Archie McMillan. The affirmative side won by four points on the decision of the following judges, Mrs Geo. Newton, Mrs. R. Bonnie, Mr. Gordon Denike.

A vocal selection "When It's Spring-time in the Rockies," given by Messrs. Murnie Barton and Harold Seeney, was enjoyed a great deal and the boys were encored. Miss Luella Keating favored the gathering with a solo "As Far as the East from the West". This beautiful selection was the end to a very interesting program. The collection was taken and the meeting closed.

Prizes Awarded In Popularity Contest

HASTINGS, Feb. 17 (Examiner Correspondence.)—Walter King and Co., who have been playing at Lynch's Hall the past week, brought their show to a close on Saturday night, before a packed hall. The contest for the popular lady of the village was hotly contested. The contest ran all week with the standing of each lady and number of votes received being on the wall. Miss Olive Kingan got first prize a set of silverware. Miss Alitha Burnnell got second prize; a china tea set. Miss Irene Sargent was third. In the popular baby contest little Dorothy Scriver, daughter of Mr. and Mrs. William E. Scriver, won the diamond ring.

Mr. King and Company put on some real snappy hits of the season each night and drew large crowds.

AMATEUR PLAY WELL RECEIVED

"Miss Fearless and Co." Presented By Group From St. John's Church, Campbellford.

AT PETHERICK'S CORNERS.

PETHERICKS CORNERS Feb. 17 (Examiner Correspondence.) — That women cannot endure life without the male element was amply demonstrated at Sentinel Hall on Wednesday evening when the play"Miss Fearless and Co. was presented by a group from St. John's Church, Campbellford. Despite resolutions, written or otherwise, the party of four girls who decided to camp by themselves on Ghost Island as a slam on the boy friends, found that the appeal for the men just across the lake was too strong to be resisted and the final scene shows them expressing unbounded delight as the boys cross the water at their gsinal of distress.

Mrs. Kingston, as the old maid chaperone, was the star of the group. The four girls were Mrs. Roberts, Mrs. Morgan, Misses Helen Thomas and Janet Nelson. Mrs. Malcolm is a friend who accompanies them and Miss Blanche Wright, the Irish cook. Miss Ruth Palliser was splendid as the little waif who is made to impersonate the Ghost on the island. Miss Georgie Davidson and Gladys Stephens gave a delightful impersonation of the "Silent Sisters," supposed to be, in reality, two of the boys from the other camp.

Mrs. Williams, Mrs. Stephens and Mervyn Malcolm assisted in the staging.

The play was presented under the auspices of the local league. Proceeds were nearly thirty-two dollars.

HASTINGS

Miss Mary Summers, of Toronto, is the guest of friends in town.

Mr. Charles P. Doughty left on Friday night for Ottawa, where he has secured a good position.

Rev. Father P. J. Kelley was a visitor to friends in Campbellford on Friday.

Miss Leona Lynch, of Peterborough, is a guest at the home of her uncle, Mr. Dan Noonan.

Miss Mary Barry spent a few day the guest of friends in Peterborough, last week.

Miss Helen Smith, of Oshawa, was a recent guest at the home of her parents, Mr. and Mrs. A. B. Smith

Mrs. Fred Scriver is a guest at the home of her parents, Mr. and Mrs. Iden Bonds.

Mr and Mrs. A. J. McKinty were the guests of friends in Peterborough during the past week.

Miss Madeline Bonds has returned home after a pleasant visit with friends and relatives in Buffalo, and Rittman, Ohio.

Mr. Fred Richardson of Peterborough, spent the week-end at the home of his parents, Mr. and Mrs. Thomas Richardson.

Ontario's Whittling King

Ontario's whittling king, Levy Wesley, full-blooded Ojibway Indian Harriston, Ont., is shown above with some of his handiwork. One of his trickiest tricks is to carve things like ships and bears and gorillas and ladders and then put them into bottles the way some people put their appendix into alcohol. The image on display is about the same size as the bottle and the big puzzle comes when you try to figure how it was put in.

MUSIC RECITAL MUCH ENJOYED

Presented in St. Alphonsus Lyceum by Pupils of St. Mary's Convent.

VARIED PROGRAM

One of the very interesting recitals which are given from time to time by the pupils of St. Mary's Convent, was presented on Friday evening at St Alphonsus Lyceum before a large and very appreciative audience. The varied program of vocal, piano and orchestral numbers was well rendered, displaying much talent in every instance and reflecting credit on the teachers. Generous applause was accorded by the audience of parents and friends of those taking part.

Little Adele McMurray deserves special mention with her captivating recitation: "Papa's Letter," also Rosamund and Mulhern Collins, with their entertaining presentation of "Sunbonnet Salley and Overalls Jim."

The Pageant of Flowers by Junior Music Pupils, added pleasing variety. It was an operetta in which a number of little girls enthroned their small companion, Genevieve, convalescent after a lengthy illness. The nature of the reception is due to her fondness for flowers and the closing scene simulated a pretty picture, when about forty little girls, representing lilies, roses, violets, daisies and rain clouds, were grouped about the flower-bedecked throne to which tiny sunbeams had conducted Genevieve—typifying the final words of the operetta: "A trinity lovely to gladden life's hours; Laughter of children, and music, and flowers."

Those taking part in this dainty presentation, to which the lovely frocks added the final flower-like note, were Genevieve (Alma Duffy); her little friends, Teresa Perdue, Helen Hickey, Rita Kelbrick, Doris Strickland, Rita Grady and Rosamond Collins; the Lilies, Bernadette Goulah, Patricia Scollard, Mildred Cullen, Margaret Young, Maxine Wells and Dorothy Rose; the Daisies, Joan Scollard, Agnes Grady, Margaret Foley and Bernice Pearson; the Rain Clouds, Lemoyne Cooke, Gloria Lush, Mary Stewart and Rita Duffus; the Sunbeams, Rita Condon and Adele McMurray; the Roses, Audrey Flynn, Rita Young, Marion Kane, Barbara Cavalier, Jean de Maio, Julia Schell and Vivian Sullivan, and the Violets: Ella Meagher, Nora Corkery, Agnes Mayock, Rowena Hudson, Margaret Sheehy, Betty Richardson and Barbara Hickey.

Musical Numbers.

The program opened with the playing of Airs from "Pinafore," by the Senior Orchestra, with a personnel: 1st violins Joseph Nolan, Clarence Collins, John Burks, Edward Hiland; 2nd violins, the Misses Madelne Flynn, Gladys Perdue, Marion Best.

The Junior Orchestra, which played Engelmann's "Prince Charming," is composed of the following members: 1st violins, Francis Strano, Jack Lynch, Francis McMurray, Michael Pepe, Michael Gahagan; 2nd violins, Marion Kane and Cyril Fontaine.

Other numbers on the program were as follows: Mallard's "La Marche," played by the Misses Mary and Patricia Scollard; Rathbun's "Festival March," by the Misses D. Young, J. Collins and E. Guiry; Glover's "The Music of the Birds sung by a number of young girls; First sopranos, the Misses M. Connelly, V. Scollard, H. Archambault; second sopranos, the Misses D. Young, J. Collins and E. Guiry; altos, the Misses G. Perdue and B. Flynn; Spindler's "Messenger of Spring," by Miss Ella Meagher; Poldini's "Tempo Pluvieux," by Miss Marion Best; Blon's "Sizilietta," by the Misses Helen and Barbara Hickey; Leschitizky's "Les Deux Alouettes," by Miss Margaret Patoine; Beethoven's "Minuet in G," by Jack Sullivan; Ringuet's "Le Carillon," by the Misses P. McGrath, P. Perdue and M. Hurtubise; a Pageant, presented by the Misses R. Young, A. Duffy and T. Perdue; Wilson's "Morceau de Salon," by the Misses B. Flynn, K. Ford and N. Moher; Mendelssohn's "Concerto in G Minor," by Miss Veronica Scollard, A.T.C.M., playing first piano, and Miss Agnes Grant, playing second piano; Elgar's "Pomp and Circumstance," by the Senior Orchestra, and Rosewig's "Ave Maris Stella." Accompanists were the Misses Agnes Grant, Veronica Scollard, Berenice Flynn, Dorothy Young and Marion Best.

"Hank" Rosevear is on "the green" in Folrida. We all look forward for news of a great success for "Hank's" Hope Guide.

Good-Will Ambassadors At Panama

An official greeting was given to the Prince of Wales and his brother, Prince George, when they arrived at Panama en route to Peru. Major-General Preston Brown, United States Commander of the Panama Canal Department, is shown extending the hand of welcome to the Prince of Wales.

VALENTINE SOCIAL IS PLEASING EVENT

Splendid Program Put on in Havelock by Knox Church Christian Endeavor.

HAVELOCK, Feb. 77. (Examiner Correspondent.)—The third annual Valentine Social, under the auspices of Knox Church Christian Endeavour, was held in the Sunday School auditorium, Monday evening, and was declared by those present to be a huge success, socially and financially.

The Rev. Dr. Lennox was chairman for the occasion. The room was prettily decorated with red hearts, and the Post Office in one corner, draped with raw silk, trimmed with colorful hearts and Valentines, gave an added touch of beauty to the scene

The Program.

The program was as follows:

Hymn, "Onward Christian Soldiers," vocal quartette, "Be in Time," Mrs. C. Jamieson, Miss M. Sexsmith, A. E. Wilson and Dr. Lennox.

Vocal solo, "Lay my Head Beneath Rose," Mrs. C. Jamieson, accompanied by piano and guitar played by Miss K. Anderson and A. E. Wilson.

Recitation, Miss Lois Scott; Bag pipes selection, Donald Plunkett; piano duett, Misses Helen Spencer and Patricia Scott; vocal selection, by Miss Betty Mathison, attired in Gypsy costume; vocal trio, "My Heart is Heavy Laden," Mrs. C. Jamieson, Miss M. Sexsmith, and A. E. Wilson; recitation, Mrs. Chas Dewey; Bag pipes selection, Donald Plunkett; vocal solo, "It's not the House That Makes the Home"; recitation, Miss Jean Scott; vocal quartette, "When Peace Like a River," Mrs. C. Jamieson, Miss M. Sexsmith, A. E. Wilson and Dr. Lennox; distribution of mail, by Miss Dorothy Watson and Melville Wright. observation contest, first prize, Miss Dorothy Watson, second, Mrs. P. Johnston; consolation, C. Jamieson; spelling match, First prize, Frank McLaughlin, second, Helen Spencer.

Special mention should be made of the performance of little Betty Mathison, as a Gypsy girl, in a fortune telling song and dance, and Mr. Donald Plunkett, as a Scottish Piper, attired in the regulation Highland costume, contributed two numbers of Scottish airs.

MISER IS BEATEN IN Y.P. DEBATE

Found to be Greater Hindrance to Society Than a Spendthrift.

VERDICT WAS CLOSE.

BAILIEBORO Feb. 17 (Examiner Correspondence.)—A debate,"Resolved that the Miser is a Greater Hindrance to Society than is the Spendthrift," was the principal number on the program, at the fortnightly meeting of the Cenreville Literary Society, held in the Sunday School hall, on Thursday evening.

The vice-president, Arnold Brown who, in the absence of the president, Geo. Berry, presided over the meting in a capable manner.

The affirmative in the debate was ably upheld by Archie Deyell and Miss Grace Johnston, while the negative was taken by Messrs. Donald Rutherford and Fred Barnard. The judges were Miss Janie Anderson and Messrs. J. C. Campbell and Alymer Dawson, and gave the decision one point in favor of the affirmative.

The debaters chosen for the next meeting are, Miss Agnes Brown and Jack Ackison, against Miss Reesor and M. Bradshaw. The topic of the debate will be: resolved, "That Country Life is Preferable to City Life in the Formation of Character.

An old fashioned spelling match brought an enjoyable meeting to a close.

FAIRMOUNT

Mr. and Mrs. Harold Ball entertained a number of their friends on Tuesday evening.

Miss Holmes, of Peterborough spent the week-end with Mrs. Carman Seymour.

Mr. and Mrs. Carman Seymour entertained the young people of the community at a Valentine party on Friday evening.

Mr. James Petrie, of Otonabee was a recent guest of his sister, Mrs. C. J. Seymour.

Mrs. J. W. Grandy, of Springville was a guest on Monday of Mrs. A. McBain.

Mr. Harry Seaton, of Oxbow, Sask., was the guest of Mrs. A. McBain on Monday.

Miss A. Gilliland spent the week-end with friends in Peterborough.

APSLEY AUDIENCE DELIGHTED BY PLAY

"An Old-Fashioned Mother" is Presented in Parish Hall, Apsley.

APSLEY, Feb. 17 (Examiner Correspondence.)—A three-act play, entitled, "An old-fashioned Mother," was presented by local talent in the Parish Hall on Friday evening, and received well-merited approval from a good-sized audience.

The play is a dramatic parable of a mother's love, and appeals to the finest instincts of human nature and contains good moral lessons throughout. It is a combination of pathos and humour, and the characters were well portrayed byth actors who devoted only three weeks to its production. The cast was as follows: Deborah Underhill, a mother in Israel, Miss A. Nemo; Widder Bill Pindle, leader of the choir, Miss Cicely Spence, Miss Lowizy Loving Custard, plain sewing and gossip, Mrs. G. Kilborn, Isabel Simpscott, the village belle, Miss Gladys Tanner, Gloriana Perkins, as good as gold, Miss Edythe Tanner; Sukey Pindle, the widder's mite, Dora Lean; John Underhill, the prodigal son, Herbert James; Charley Underhill, the elder brother, Robert James; Brother Jonah Quackenbush, a whited sepulchre, George Tanner; Jeremiah Gosling, a merry heart, Tanner; Enoch Rone, an outcast and a wanderer, C. Spence; Quintus Todd, the county sheriff, Harry James.

OLD TYME DANCE SETS UP RECORD

Event Staged By Marmora Agricultural Society Draws Over 480.

PRIZES GIVEN.

MARMORA, Feb. 17 (Examiner Correspondence.)—All previous dances at Marmora were undoubtedly put in the shade by the Old Tyme Dance, held in the town hall, on Monday evening, under auspices of Marmora Agricultural Society.

The record number of over 480, who paid for admission, on the floor of the hall, presented a most animated scene, as uninitiated surged with the initiated, in the desire to hold a place in the various sets of square dances. Collisions so inevitable, were all borne good-naturedly and Charles Jones, floor manager, will ever look back on the night as his greatest triumph over handicaps.

The musicians were of the first order and rose to the occasion. Barn dances and waltzes also featured on the program and in the motley crowd were many who have been noted dancers for over half a century.

Occasion was taken to present prizes for the best old-time waltzing and step-dancing. Judging was most difficult, but the prizes were finally awarded as follows: Waltzing—Mr. D. E. Bell and Mrs. C. Dunlay; step-dancing (Gents), Seymour Henry, Frank McKinnon; (Ladies), Mrs. W. Foster.

The great success justified the statement hitherto unlistened to, that old-time dancing still appeals to the hundreds in a district such as Marmora.

BETHANY

Messrs. Thorndyke were visitors to Toronto on Saturday afternoon.

Mr. William McCartney, of Cornwall spent the week-end with his parents, Mr. and Mrs. William McCartney.

The dance sponsored by the L.O.L. 1022 was a splendid success on Friday evening.

The Misses Richardson will be hostesses to the members of the W. M.S. of the United Church under the leadership of the president, Mrs. T. G. Jackson for the meeting on Friday. The program will be the World Day of Prayer.

Mrs. Parker and son were guests of Mr. and Mrs. Cecil Argue on Friday evening.

Mrs. Harvey Grey, of Toronto spent the week-end with her sister, Mrs. George Page.

Mr. and Mrs. George Page, Seventh Line, Manvers celebrated their twenty-fifth wedding anniversary on Monday evening.

Miss Winnie Nesbitt, of the Bell Telephone Exchange, Toronto is spending a few days with her father, Mr. John Nesbitt.

Mr. and Mrs. William Lee entertained a number of their friends on Thursday evening.

The members of the Play Club of the United Church presented the play "No Account David," at Fleetwood Church on Friday evening it being the occasion of the basket social. Mr. Alex Monk was the auctioneer.

INDIAN WOMAN ON SECOND TRIAL

Action Necessary Through Collapse of Lilya Jimerson at First Hearing.

FACES MURDER CHARGE.

BUFFALO, N.Y., Feb. 17.—(CP).—Lila Jimerson, Indian woman, who became the center of a nation's interest last year during her trial on a charge of murder, first degree was placed on trial a second time today on the same charge.

Lila's indictment for murder grew out of the slaying of Mrs. Clotilde Marchand, first wife of Henri Marchand, an artist employed by the Buffalo museum of Natural Sciences. Mrs. Marchand was beaten to death with a hammer in her home here March 6, 1930.

Lila and an aged Indian woman, Nancy Bowen, were both indicted for the murder of Mrs. Marchand. Nancy Bowen never has been brought to trial.

Lila Jimerson was tried but collapsed in court near the close of the trial and was removed to city hospital where she was treated for tuberculosis.

Evidence was submitted at the first trial that the artist had been intimate with Lila Jimerson.

Omemee

The home of Mrs. W. G. Stephenson looked quite gay with hearts and cupid decorations on the occasion of the Valentine Tea under the auspices of the Guild of Christ Church on Friday. Tea was poured by Mrs. W. R. Robinson and Miss Stephenson and the young girls of the Guild dressed in white with red heart shaped aprons served. The small tables too were in Valentine array making the tea room very attractive. In the evening the gentlemen are invited and the festivities were carried on till a late hour making the occasion one of great success.

Mr. and Mrs. Fred Parker gave a farewell party in honor of Miss Emily Mitchell on the eve of her departure for her new home in the United States.

Mrs. Mulligan and Miss McCrea, of Lindsay were in town on Wednesday.

Miss Curry and Mrs. Walker were visitors to Lindsay during the week.

Mr. and Mrs. A. Fehr, of Peterborough were in town on Thursday.

Mr. and Mrs. L. A. Mahood were recent guests of Mr. and Mrs. H Lamb.

Mrs. J. Marlowe, of Blackstock, is the guest of her sister, Mrs. R. W. Williamson.

The Rev. J. T. E. Blanchard attended the Presbyterial in Lindsay on Wednesday.

Mrs. George Newman is visiting friends in Toronto.

Mr. and Mrs. Wilbert Fee and Mrs. George Newman attended the funeral of the late Mr. L. Blackwell in Lindsay on Wednesday.

Mr. and Mrs. Moon attended the Normal School At Home in Peterborough on Friday evening.

Mr. A. Lang, and Mr. Vernon attended the Shorthorn sale in Peterborough on Thursday.

Mr. Stephenson, Jr., and Mr. Roy Faulkner attended the Normal School At Home in Peterborough on Friday.

Mr. John Douglas, of Peterborough was a business visitor in town on Thursday.

Mr. and Mrs. R. Soles, of Reaboro visited friends here during the week.

Miss Marian Rea was a business visitor to Lindsay on Saturday.

Mr. Allan Adams is in Toronto this week.

Mr. J. Magee was a business visitor to Lindsay on Friday evening.

Messrs. D. Rea and H. Overhold were in Lindsay on Friday.

Mr. T. Parsons was in Toronto on Friday evening playing sub for the Lindsay Midgets.

Mr. Campbell Mackey spent the week-end with his parents, Mr. and Mrs. S. J. Mackey.

The Scud, weighing 105 pounds and said to be the smallest glider in the world, made its first flight recently at Dunstable, England.

FALSE TEETH ARE A GREAT INVENTION but KEEP YOUR OWN AS LONG AS YOU CAN

FALSE TEETH are worn in thousands of mouths today because these simple rules of health were almost unknown a few years ago

Science blames one disease FOR HALF THE TEETH EXTRACTIONS

HALF the adult teeth lost are pulled because of pyorrhea. This startling fact was published in a famous medical journal. Pyorrhea is a sly disease—it attacks so slowly that you may have it for ten years before outward signs appear.

Do not wait for gums to become spongy and tender—do not delay till infection creeps down the roots of the teeth. Most pyorrhea can be prevented if you start treatment in time—do your share, by seeing your dentist at least twice a year, and try keeping your teeth clean and your gums firm and healthy.

Twice a day brush your teeth, massage your gums with Forhan's, the dentists' dentifrice. It was originated by R. J. Forhan, D. D. S., a specialist in pyorrhea. This safe, protective dentifrice removes discolorations and deposits on the teeth, which may cause gum infections—it does all the finest toothpaste can do to keep the teeth beautifully sparkling and clean.

And in addition, it tones up the gums. Applied with massage (full instructions with every tube) Forhan's helps to arouse vigorous circulation, firms up the gums, and helps to keep them tingling with the coral glow of health.

You cannot start this care too soon—the whole family needs Forhan's protection. This dentifrice comes in two sizes, 35¢ and 60¢—just a few cents per tube more than the ordinary toothpaste and exceedingly well worth it. Forhan's Ltd., Montreal.

FORHAN'S FOR THE GUMS

Any mouth may have pyorrhea and at 40 the odds are 4 out of 5

Crusaders Demanding Beaverbrook Resign

LONDON, Feb. 17.—(By Thos. Champion, C.P. Staff Correspondent)—A crusade within a crusade has developed in the East Islington by-election campaign. About 50 of the Empire Free Trade crusaders are demanding the resignation of Lord Beaverbrook, "Chief Crusader," alleging that his conduct of the campaign has degenerated into a personal vendetta against Rt. Hon. Stanley Baldwin, Conservative leader.

Polling takes place on Thursday and no one is bold enough to prophesy the outcome. Brig.-Gen. A. C. Critchley, a native of Calgary, Alta., is the Empire Free Trade candidate; Mrs. Leah Manning Labor; Miss Thelma Cazalet, Conservative; and Major H. E. Crawford, Liberal. The seat was held by the late Ethel Bentham, Labor, elected in 1929 with a majority of 1558.

GUY C. SMITH
Manager of Advertising and Research,
Libby, McNeill & Libby

"Any advertising manager who wants to learn the value of the Audit Bureau of Circulations need only start buying newspaper space in foreign countries. The impossibility of knowing accurately without special and costly research, the amount and breakdown of circulation of publications abroad, is a sharp contrast to the information which has become available to advertisers in the United States and Canada by reason of the work of the A. B. C. But the Bureau needs the support of every user of publication space. In my opinion it has not begun to reach any limit of its usefulness. I consider it one of the most fundamental advertising expenditures our company makes."

Guy C. Smith

C. F. GOLDTHWAITE
Assistant Director of Publicity
(Advertising Services)
Canadian National Railways

"It simply is not possible to intelligently select media without the aid of the A. B. C. All advertisers are buying the ability of the reader to purchase what is to be sold, and the A. B. C. in a large measure tells us the efficiency of audited circulation in that direction. For this reason the A. B. C. is as important to the small publisher as to the one who runs to six figures in his "net paid" column. I would urge upon Canadian publishers the fact that this is a question of as great moment to them as it is to the great national publications and dailies of the United States."

C F Goldthwaite

● Twenty years ago there was chaos in advertising. Nobody knew what his dollars bought—whether a thousand readers or ten thousand. Nobody, except by infinite pains and shrewdness, could find out.

Could advertising, on that basis, ever have grown to its present importance? Would business ever have rested its trust in a sales weapon of metal so doubtful in assay?

Hardly, think men who today direct advertising expenditures that total millions. Through such leaders as these the Audit Bureau of Circulations came to be organized. And largely through the activities of the Bureau, there is order today in the buying of advertising space.

Once every year now, into almost every important publication office, go the auditors of the A. B. C. Every circulation record is open to them.

To no publisher, no agency are they responsible. They work for the A. B. C., and on the directorate of this institution a majority must be advertisers.

The Bureau's Audit Reports thus give the detailed findings of experts controlled by advertisers. They bring to light the complete circulation facts.

Can any budget yield full returns without use of this only recognized method of appraising advertising space?

Can any advertiser in Canada or the United States, afford to be unrepresented upon the membership roster of the Audit Bureau of Circulations?

TUESDAY, FEBRUARY 17, 1931

A COMMUNITY LOSS.

In the passing of James Connal another gap in the rapidly shrinking circle of old-time residents of this community has been created.

As a churchman, a businessman and a sportsman, Mr. Connal had held a most enviable reputation among the citizens of Peterborough and indeed throughout the Province.

Notably in curling circles was his name one to conjure with.

A member of the Peterborough Curling Club since its organization 42 years ago, its president for a number of years, and a skilful and enthusiastic skip who had the honor of representing his club in many a hard-fought match of major importance, Mr. Connal was known far and wide among the curlers of Ontario, and the news of his death will be received with deep regret by many devotees of the game, who will remember Mr. Connal not only as a clever opponent but as a genial, friendly rival whose attitude toward the competition he was engaged in was always the acme of good sportsmanship.

The passing of such citizens represents a community loss that is especially felt by those who by the operations of the grim reaper lose life-long friends.

AN IMMIGRATION HOLIDAY.

The announcement from Ottawa that a two-year immigration holiday has been decided upon by the Federal Government will be received, it is imagined, with general approval.

The Ottawa authorities declare that there are at present available in the country sufficient farm workers, unskilled laborers, household workers, etc., to supply all demands without bringing in any more until 1933, and that would seem to be an accurate summary of the conditions at the present time.

Obviously, in view of the existing situation, it would be folly to go ahead with a system of assisted passages; with thousands of Canadians unable to find steady employment, there would be no justification for continuing to flood this country with more workers, who would either find a place in the breadlines themselves or, by ousting people at present employed out of their jobs, leave the latter dependent upon relief activities.

It is hoped that before long it may be possible to extend a welcome to all who are willing to come to the Dominion and help develop its resources, but for the present the welcome on the mat will have to be removed.

Those who are willing to take a chance, who are able to pay their own fares and have sufficient capital to prevent them from becoming public charges, will, of course, be allowed to enter, but the line must necessarily be drawn there.

TRADING WITH RUSSIA.

A Toronto divine in a forceful sermon advocated the deportation of Communist agitators and a refusal on the part of Canada to trade with Soviet Russia.

The advice is of considerable interest in view of the reported Russian offer to buy large quantities of Canadian agricultural implements if payment were accepted in Russian coal.

To the unemployed workers in Brantford this offer undoubtedly looks like good business—that is at first sight.

A more minute examination of the proposition and a little study of the possible consequences might, however, reveal it in a different and more sinister light.

Is it good business to trade with Soviet Russia on these or on any terms?

There would be some temporary benefit to Canadians employed in the manufacture of agricultural implements, but that would be offset by injury to the Canadian coal industry by the importation of the Russian article.

And in the long run the transaction would react to the positive injury of those it at first helped.

Canadian agricultural machinery would be used in the production of more extensive crops of Russian wheat to be dumped into the world market to the detriment of the Canadian wheat-growers, who are the best customers of the Dominion's manufacturers of farm implements.

That is something that should be thought over before there is a rush to enter into any arrangement with Soviet agents.

KEEP THEM AT HOME.

Dr. H. M. Tory, president of the National Research Council, declares that the retention in Canada of the top ten per cent. of university graduates is of the first importance to this country.

"If they are allowed to leave the Dominion it will make the difference of Canada being a first-class or a second-class nation," Dr. Tory maintains, which is a striking way of stating a truism that has long been obvious to those who have given any thought to the matter.

For years some of the keenest minds developed in our universities have been lost to Canada because in other lands there were opportunities for success that had an irresistible appeal.

Especially in our public services there has been a failure to recognize the desirability of retaining these foremost students; our Governments have not seen to it that the technically trained experts so necessary in various departments of our Government activities should receive a financial recompense anywhere equal to that offered in private business or in other lands, with the result that clever young Canadians educated at the expense of this country whose brains and training should have been devoted to the development of their native land have played a big part in the building up of foreign enterprises.

Dr Tory is right; the problem of keeping such men at home is important enough to merit much more consideration being given it than has been the case.

FROM THE SUBLIME TO THE RIDICULOUS.

The brazenness of radio advertising was never more glaringly in evidence than at the conclusion of the period set aside on Thursday for the broadcasting of the ceremony of dedicating station HVJ at Vatican City by His Holiness Pope Pius X.I. The occasion was one of great impressiveness and solemnity, heightened by almost perfect mechanical reception and the knowledge on the part of the individual listener that millions of people throughout the civilized world were among the auditors.

Nearly three hours were required to record the history-making occurrence. The first formal announcements were followed by periods of silences as the progress of the Pontiff to the new broadcasting station in the Vatican grounds was recorded; the heralding of his arrival by the trumpeters; other periods of silence and waiting as the announcers told of the Pope's minute inspection of the new plant; then Senator Marconi's address in presenting the broadcasting station to His Holiness; and the most solemn period of all when Pius, in quiet, well-modulated tones, although in a language few of us could understand, dedicated the station and gave to his people and the rest of the world a message of good-will and peace.

The other scenes and words which followed were scarcely less impressive. The ceremony of honoring Senator Marconi at the Pontificial Academy, the Pope's address and Senator Marconi's reply, the translation of the Pope's addresses, the two-way conversations carried on over thousands of miles of air between the broadcasting officials and other dignitaries in New York and the Vatican—all were awe-inspiring. Even the last act of the New York broadcasters—the rendition of a great hymn singing the praises of the Master by Walter Damrosch's orchestra and a choir did not detract from the fine effect produced. It had indeed been to all a period fraught with realization of world-achievement; a period, (especially to those of the Roman Catholic faith), of great religious fervor and a period of which listeners could retain memories for a lifetime—a thoroughly impressive and solemn occasion.

Then, as the last strains of the hymn died away and without as much as a moment's silence a voice, seemingly as from another world, rasped out:

> "This is Station WJR, Detroit. Are you aware that wonderful bargains in permanent hairwaving are being given this week at the Vanity Beauty Shop," and so on.

Such a sudden departure from the sublime to the ridiculous almost justified a listener in hurling the nearest piece of household furniture or bric-a-brac into the face of the inoffensive radio machine.—St. Thomas Times-Journal.

THE U. S. PRESS, BRITAIN AND INDIA.

Traditional prejudices against Great Britain in the popular press of United States were scored by Sir Philip Gibbs, famed British journalist and novelist, in an address on Thursday evening in London before the English Speaking Union. Sir Philip said that they wanted to be fair and friendly, "but they cannot resist the temptation of twisting the lion's tail now and then—weary and enfeebled lion, as they think."

He added that "before the recent Indian Conference—which changed their views slightly, but not deeply—the American press as a whole believed that England rules India for what it can get out of it."

Perhaps it would not be well to take too seriously the opinions expressed by Sir Philip Gibbs, nor those he criticizes as being held by the "popular press of United States."

In fairness to the latter, it might be recalled, however, that Lord Brentford, better known formerly as Sir William Joynson Hicks, or more popularly still as "Jix," and who has since figured as a member of the last Cabinet of Stanley Baldwin, once set the horns in the Woodland blowing with the following public declaration:

> "We did not conquer India for the benefit of the Indians. I know it is said at missionary meetings that we conquered India to raise the level of the Indians That is cant. We conquered India as the outlet for the goods of Great Britain. We conquered India by the sword, and by the sword we should hold it."

There were cries of "Shame" from his audience of Lancashire, people whom "Jix" was addressing, which caused him to retort: "Call shame if you like. I am stating facts. I am interested in missionary work in India, and have done much work of that kind, but I am not such a hypocrite as to say we hold India for the Indians. We hold it as the finest outlet for British goods in general, and for Lancashire cotton goods in particular."

Perhaps it is unnecessary to explain that "Jix" was addressing an election meeting in the interests of "Tariff Reform" when he made this outburst.

But it is not surprising if some of these things stick in the memories of newspapermen in the United States, especially as "Jix" is so well-known as an ardent Churchman. And they help to color public opinion both in United States and the rest of the world. People in England knew, of course, how much value to attach to them at the time, in view of the then reputation of the speaker and the circumstances under which such remarks were made.

The fact is, of course, that tremendous changes have taken place in recent years in Britain with regard to India, though even Winston Churchill has expressed characteristic and emphatic doubts of the wisdom of them. But few of his own party have dared to publicly support him in his views, and ex-Premier Baldwin has openly repudiated them.

Credit for much of the changed attitude of Britishers to Indians goes to King George himself. On his return from his Indian tour as Prince of Wales in 1906 he publicly stated, in his address at the Guildhall in London:

> "I cannot help thinking, from all I have heard and seen, that the task of governing India will be made all the easier if, on our part, we infuse into it a wider element of sympathy. I predict that to such sympathy there will be an ever-abundant and genuine response."

According to A. G. Gardiner, a distinguished member of the Viceroy's Council told him that as a result of that speech a marked and happy change was made in the attitude of the Anglo-Indian towards the Indian.

Growth of public opinion in India and in the Old Country has occasioned further changes, the latest of which is the offer of Home Rule as the next stage in the development of democratic government in that Empire.—Ottawa Journal.

EDITORIAL NOTES AND COMMENT.

The Relief Fund campaign is now definitely under way. Remember the need is great as assistance will be needed for many families for several months at least.

The Red-Headed Goddess

By

ALICE ROSS COLVER

(Continued from yesterday.)

Quickly, easily, after that generous gesture, their comradeship had announced itself again, and they smiled at each other.

"Well, as it happens, I have planned a meeting here to-night. We've got to get busy on that Indian matter right away."

"You wretch! And I've been enduring agonies of remorse for your loneliness!"

"Well, then, we're even. You've been putting me through some agonies of doubt too! Run along now and dress your prettiest for Dirk.'

She had dressed her prettiest for Dirk, and had been rewarded for her effort, when she came downstairs, at the look in h face when he saw her. He had been standing, posed with his usual unconscious grace, talking to her father, but at sight of her he had stopped abruptly, all his love rushing to his blue eyes as he came forward to hold her coat.

"You look positively frightened! Am I such a ghost?"

"You're—you're beautiful. He seemed to have forgotten her father. "In that sky blue dress, with your hair like a sun, you might be heaven come to earth.".

Had he seen the little pulse in her neck as she flung back her head and laughed at him? She thought not, but her father had. He had stood there, looking as though he had been struck, his face extraordinarily grave and the kindness in his eyes shot through with pain. She had ached to reassure him, to let him know in some way that though she might love Dirk she would never stop loving him, too; but she had only managed a gay, distant wave, because the moment was so charged with everybody's emotion, and—strangely enough—careless prophetic words:

"When Dirk gets poetic, I know he's hungry. Good night, Dad."

"Good night. When do you think you'll be back, Lorraine?"

"Oh, don't worry! I never get home until morning!"

The memory of those light words of hers hurt her terribly now, and then everything was forgotten as the plane ran into bumpy air and was shaken as though it were in the grip of some unseen monster hand. Lorraine was frankly terrified, and clung to her seat as Dirk nosed down and then tried to climb out of it.

But their difficulties were only beginning, for in the next two hours they ran onto strong head winds, fog and rain, and in their battle against the elements there was time to think of nothing but their own danger. But even in their most hazardous and thrilling moments Lorraine could not help but notice the cool courage, and capability of his piloting.

By the time they were riding easily again, Lorraine was so cold and so tired that her early confidence in her ability to handle the situation, and her bravery, induced by her shout of defiance to Dirk, had almost dwindled away. It was a temptation to admit her defeat and humbly beg him to take her back home, but some stubborn streak in her nature, coupled with her sportsmanship, would not let her give way. She shrank into herself, instead, shivering and wretched, and watched the tattered remnants of fog drifting away below them. Supposing Dirk landed her ten or twenty miles from a town! It was perfectly possible! In fact his laugh must have meant something, for he was not so dull as not to have planned somehow for just such a move on her part as she had contemplated.

At last the blackness about them began to thin. An obscure world became dingy. The stars paled—she hadn't picked one!and the gray sky ahead was warming to a faint crimson. It was slightly cheering, she thought, to see the sun. If only she weren't so cold, and so hungry——

"Dirk! Where's that food you bought?"

He reached down a long arm and plucked a box from the floor, thrusting it behind him into her lap. In it were sandwiches and a thermos of coffee.

"Save a bite for me, will you?'

"It's not fit to eat!" she replied, devouring a ham sandwich with bitter greed. Then she poked a packet at him and poured out some wreched coffee, which she was childishly glad to see spill down the back of his neck as she handed it over to him.

"My! You're nervous!" he told her, grinning.

She made no answer, but when the food was gone she settled back in a silence that was meant to be chilling and dignified, but which seemed somehow merely forlorn. From beneath her cap, one red curl escaped and whipped aiagnst her cheek viciously. Impatient ly she tucked it back with numb fingers.

"I'm cold!" she called.

"I'll take you in my arms in a couple of hours!" he shouted reassuringly.

Lorraine set her teeth. A red sun swam suddenly out of a white mist ahead of them, and in its brilliance Dirk was blinded.

"Look over the edge and tell me what you see'" he ordered. "I think the storm last night blew us off our course a little."

"Look yourself! You're running this show!"

She sunk herself determinedly in her seat, her eyes flashed with a mingling of enjoyment and anger as she watched the man ahead of her. He bent to give a quick glance below; then, to her astonishment, he sent the plane shooting upward. For a moment it wavered, then sank a little, and finally settled to a slow slant toward earth. Dirk's tenseness and his abrupt anxiety communicated itself to her, so that she peered over the edge of the plane herself.

Below them as far as eye could reach stretched the desert. There it lay, a land uptossed by the angry hands of the gods, and left desolate. Her glimpse of mountains and tortuous canyons and immense reaches of barren wildness was not reassuring to the girl, and her heart sank inexplicably and suddenly.

"What are we doing here?" she demanded. Bur Dirk made no reply for he was staring at his instruments perplexedly. It was then that the girl felt their descent more sharply. "What are you landing for?" she cried out. "Is this Utah? But Dirk! Look at it down there! What are you doing? Are you crazy? Look out! There's a canyon below! Look out!"

"I am looking!" he shouted back. "I think the cold air currents are pulling us down. See that your parachute is all right."

With fingers trembling with excitement, Lorraine obeyed, feeling of the rip-cord that hung over her shoulder, following it down her breast where it terminated in a large metal ring hidden in a front pocket of her harness.

"All right, Dirk!" she called bravely. "Only—can't you pull up?"

But a low groan burst from the man and, as she leaned over his shoulder, he pointed silently to the gas gauge. It registered nearly empty. In a second's space a joke had become serious; a comedy had taken on the aspect of a terrible tragedy.

"She's sprung a leak—and a bad one—since we started. I had enough to take us to Chicago. Besides that, we're way off our course—the storm last night—" He looked up, his young face white. "This wasn't in the planning, you know, Lorraine."

The girl's eyes narrowed as she stared down into his face, but they were steady, and a little smile trembled at one corner of her mouth. She nodded and laid a hand for a moment on Dirk's shoulder. "Sure! I know! Nobody's fault. All in the game and it's all right. What do we do now?"

Dirk glanced down again. To try a landing or a jump with that dark canyon below them was sheer su cide. He spun the wheel.

"If I can cross it—" he said to her. She nodded again, silent, and sat with her eyes riveted on the up-rushing world. Would they make it? Would the gas hold out? Would the cold air currents pull them down to a horrible death? Their descent grew sharper and swifter. Her fingers clutched the edge of the plane, her gaze fascinated by the ghastly black gash below. She could see into it clearly now. Trees—trees—rocks—terrible rocks—slanting crazily——

Suddenly Dirk was beside her, his voice in her ears, imperative and fierce.

"We must jump. You go first. Wait a second till you are clear of the plane, then pull the ring. Do you understand? Have you got it?"

Clutching the metal ring, the girl nodded, white lipped. He helped her to the edge of the plane, where she crouched suddenly terrified, clinging to him. Her eyes were blind. She could no longer see the canyon; she could see nothing.

"Oh, I can't! I can't!" she moaned.

He looked at her, then, gritting his teeth, he shook her hard.

"Scared! Scared!" he taunted hoarsely.

She flung up her head, her eyes, black now, met his and flashed an answer to his words. She had gotten herself into this mess and now she had to get out alone—alone—no good needing Dirk—no good. All right.

With a gasp she launched herself through space, and earth and sky merged into a gray, dizzily whirling mass as she hurtled head over heels through the air. Fast, faster, her ears deafened by her own rush downward, her mind troubled by questions that shot through it like flashes of lightning in a black space. Was she losing consciousness? But aviators said you didn't, and she could think, could remember Dirk's hand snapping her string of amber beads as she had crouched on the edge of the plane. They had fallen first. She was sorry to los them. They were her mother's. Oh, what did that matter? Dirk had reached for her as she jumped, had caught her shoulder and hung on for a moment and then let her go with a groan. Why had he tried to stop her? Hadn't they been clear of the canyon? Was she far enough now from the plane to pull the ring? Would the parachute work? How soon would Dirk follow? Those awful rocks—her father— How would he ever find out if she was killed in this desert waste? How could she—? Had she fallen far enough? Her father—Her thoughts were like flashing stars.

In a confusion of mind and senses she jerked frantically at the rip-cord.

CHAPTER III.

Eyes of the Desert.

Far out on the desert, fifty miles northeast of the nearest civilized post, lived a white man. No one knew exactly why "Red Jim" had chosen such exclusive quarters for his home nor had anyone ever ventured to question him. The fact remains however, that he had lived there so long that he had become an honored tradition—whatever his dishonorable past—and the visitor of the Painted Desert who did not make an attempt to see him, prompted by curiosity and led by a friendly guide to make the necessary introduction that would dispel suspicion, was no real visitor.

What persons did reach his out-of-the-way retreat were rewarded for their hardihood by a hospitality which made up in warmth and interest what it lacked in comforts and cleanliness. For Red Jim as a host was a rare treat, his great hulk of a body and his resonant voice possessing a peculiar, undeniable magnetism. Vitality seemed to flow from him, at the same time that he appeared possessed by a huge, lazy enjoyment of a world out of which he had drifted, but which was still clear to him in all its frenzied whirl of motion. Life, he indicated by his attitude, was something to be enjoyed if you were sufficiently withdrawn from its center. Activity, in all its forms was an amusing spectacle. And people, he intimated, including his guests with a kind of gentle shrewdness, were the biggest joke of all.

For entertainment he offered various tales out of his own experience, whether real or not was never to be questioned; but for fantastic quality they were not to be equalled. These he presented dramatically in that immense, musical voice of his, until you could forget the oddity of your surroundings and certain uncomfortable vivid impressions—such as the strangely colored pink biscuits you had eaten for supper, and the sight of vultures flying in circles in the air, patiently observing the slow dying of one of the saddened cows in the treacherous mud o the only spring on the place.

(To be continued)

A Thought

IT ISN'T THE WORLD—IT'S YOU

You say the world's gloomy,
The skies are grimy and grey,
The night has lost its quiet,
You fear the coming day.

The world is what you make it.
The sky is grey or blue,
Just as your soul may paint it,—
It isn't the world it's you.

Clear up the clouded vision,
Clear up the foggy mind,
The clouds are always passing,
And each is silver lined.

The world is what you make it;
Then make it bright and true,
And when you say it's gloomy—
It isn't the world—it's you.

—Gertrude Stewart.

What To-day Means To You

"AQUARIUS."

If February 17th is your birthday, the best hours for you on this date are from noon to 3 p.m., and from 8 p.m. to 10 p.m.. The danger periods are from 9 a.m. to 10:30 a.m., from 5 p.m. to 6:45 p.m. and from 10:30 p.m. to 11:15 p.m.

Nothing very startling will happen on February 17th, although the astrological signs denote a sense of security and a spirit of optimism. New ideas can be exploited, and reforms can safely be initiated. After sunset, the indications point to a conflict, between emotion and judgment.

Children born on this February 17th will charm, and try to get their own way, by winsomeness and protestations of affection. If they succeed in doing so in infancy, this engendered spirit will continue through life, and they will always expect much from the world, without giving a "aquid pro quo."

If your birthday falls on a February 17th, you are, whether man or woman, gifted with a keen insight into the motive that animate the actions of others, and one and all find it quite difficult to "put one over on you." If your sympathies were as much under control as your innermost judgment, Success, with all its glories and trappings, could not fail to reach you. You are, however, very human, and your heart tramples down all obstacles of discretion and yields to impulse. You are generous to a fault. You close your eyes to evil, and always give the subject of your consideration the benefit of the doubt, although your keen mind often tells you there is no doubt.

You are both a reafler and a thinker. Your reading is heavy. Your thinking is deep and clear. In any gathering, your personality magnetizes those around you, and you would be a born leader, if your human sympathies did not play so much havoc with your intellect. You are a worker, and no matter whether your sphere be a humble, or a proud one, you always leave the stamp of character on any task you execute. Your convictions are strong. Your executive, ability—and as an executive, you never spare yourself—are very marked. You are fated for great success. Only your quixotic emotions may, whilst affording happiness, defeat the purposes of Destiny.

ARRESTED FOR MURDER

NASHUA, N.H., Feb. 16.—Abelard Rousseau, 38, formerly of Quebec left for New York City last night in the custody of Detective John S. Oberhouse of the New York Police. Rousseau was arrested in Lawrence, Mass., Saturday, on a charge of killing his negro wife in New York last June.

GRUMBS FROM THE BREAD REPORT

"So far as the situation throughout the Dominion is concerned, the investigation of the alleged combine in the bread baking industry has not disclosed a combination which has operated or is likely to operate to the detriment or against the interest of the public....At the same time the predominant position of these flour milling companies in the baking industry, and the possibilities of monopoly and price enhancement which are theirs, are such as to warrant continued governmental interest in the situation, and, should the need arise, further governmental action on behalf of the consuming public."

"It seems likely also that the development of the newer forms of price competition will continue to be effective in preventing undue advantage being taken of the public. That there is such price competition is evidenced by the substantial reductions in price which have occurred within recent months. Chain store competition, even though much of it has been below cost, supplemented by the competition of smaller low-cost bakeries all over the country, has made itself felt."

"Small advances in price in a period of prosperity seldom arouse public concern. When it is represented that they are accompanied by additional services and improvements in quality, they are readily accepted and even welcomed. It is when hard times come that interest in prices becomes keen and protests are made; and then the whole period is brought under review and comparison made with the lower levels of other years."

"The fact that something other than flour is responsible for most of the increase, is shown clearly by a statement of the spread between the wholesale cost of the flour used in making a pound of bread and the retail price of bread: in 1913 the spread was 2.3 cents; in 1930 it was 5.1 cents. In other words, even if the baker had got his flour for nothing in 1930 he would still have charged 5.1 cents a pound for his bread; in 1913 he would have charged only 2.3 cents."

"Within the past two years some of the larger Canadian bakeries,heeding the demand for a loaf more after the type of the English loaf and similarly inexpensive, have put out in a few cities a special bread in which they have used lower grade flour than in the first grade bread and reduced quantities of unessential ingredients. One of them estimated the difference between the cost of the ingredients in the two grades as just less than two-thirds of a cent per pound."

"The outstanding development in the cost end of the bread-baking industry in recent years has been the rise in selling expenses."

"One explanation of the exceptionally high distribution costs of the larger bakeries appears to lie in their use of high-pressure sales methods."

"Sales effort to secure volume has has its economic justification when increased volume makes possible lower costs and lower prices. In the bread-baking industry, however,while volume has been secured by a few large baking companies, the selling expenses involved in gaining this volume have been exceedingly heavy, and apparently have more than offset whatever may have been effected in the way of economies from large scale production. Certainly there is no evidence here that increased volume means lower prices; the records show that it is the large bakeries that are the high-price bakeries."

"It is not a high weekly wage that raises the distribution cost per pound of bread; it is the excessive duplication of bakery routes and the requirement that the man who delivers the bread shall spend a large portion of his time selling other things that are more difficult to sell and canvassing for new customers for his firm."

"The big bakery cannot, of course, be held solely responsible for the system. There is little doubt that the demand of the public, or of some portions of the public, for something new to eat, is one of the reasons back of the development of such sales methods."

"Since for the most part the milling company gains what its baking subsidiary loses through high prices of flour, the buyers for the mill-controlled bakery is not under the usual pressure to keep his flour costs down. He is in the employ of the mills and is not free to turn to other mills for his flour supplies. On the other hand the sales manager of the milling company is anxious to make a good showing for his department, and will hardly be expected to favor the bakery as against his own selling company; he can quote what prices he likes, since he has no competitor."

"On the one hand we have the flour mills reaching forward into bread manufacture and distribution; on the other we have the chain store, primarily a retail distributing organization, reaching back into manufacture—the two meeting on the common competitive ground of the bread-baking industry."

"Such a practice (selling below cost) particularly on the part of a chain which carries many lines of goods and can afford to cut on one for advertising purposes, undoubtedly works an injury to the baking trade whose only or chief product is affected.....On the other hand, where costs of the larger bakeries appear to become unduly high, and where little evidence of price competition is apparent, an extreme form of price-cutting may serve a highly useful public purpose in forcing reductions in costs."

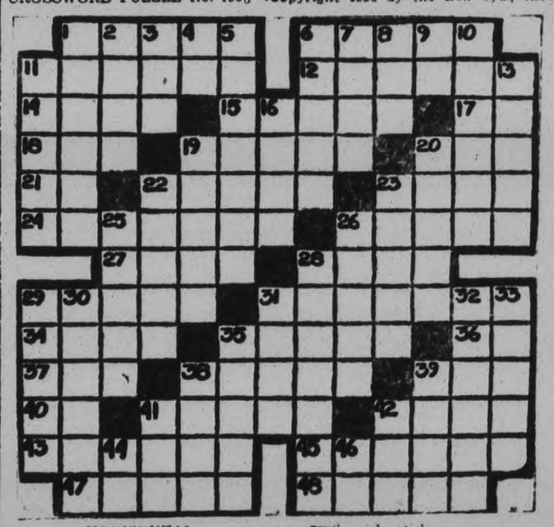
"Of the seventeen samples analyzed, nine weighed less than twenty-four ounces; as it happens the seven-cent loaf was the highest in weight, while one of the twelve-cent loaves was the lowest."

"As for nutritive value measured in calories, the lowest price loaf exceeded that of some of the highest price loaves; both ten and twelve-cent loaves are found at the head as well as the foot of the list. Using the percentage of fat as a criterion, the seven-cent loaf is just below the the middle; one twelve-cent loaf is second from the top, and one is fourth from the bottom. These facts throw into relief the comment of the analyst that the samples did not show a great deal of difference in their nutritive value. It is evident that high price is not a guarantee of either high nutritive value or of high percentage of fats in the loaf."

CONTINUE INDIAN CONFERENCE

LONDON, Feb. 16 (C.P.)—Premier Ramsay MacDonald and his Cabinet colleagues are considering a proposal to send a British delegation to India but they have not yet reached a decision, it was said to-day.

CROSSWORD PUZZLE No. 1906 (Copyright 1930 by the Bell Syd., Inc.)



HORIZONTAL

1—Large group of people.
6—Wandered.
11—Earlier.
12—Stringed instrument.
14—Musical instrument.
15—Fat
17—Mother.
18—To employ.
19—Cognizant.
20—To tear.
21—Musical note.
22—Fish-like.
23—To be fond.
24—Growled.
26—Waiters.
27—Tough grass.
28—Enemies.
29—Stuck in mud.
31—Corrosive.
34—Greek cupid.
35—Abides.
36—A negative.
37—Flazen.
38—Markets.
39—Undeveloped flower.
40—Half an em.
41—Fish net.
42—Ripped.
43—To annul.
45—Puts away safely.
47—Food regimes.
48—Sounds.

VERTICAL

1—A relative.
2—Repetition.
3—A number.
4—Pronoun.
5—Suffocated.
6—Each.
7—To ascend.
8—Deer.
9—Spanish article.
10—A cotton goods.
11—Squalid section.
13—Backs of necks.
16—Musical organization.
19—Was ill.
20—To cook.
22—Liberates.
23—Gown.
25—Dart.
26—Recommends for bet.
28—Most beautiful.
29—Length unit.
30—Smoothed.
31—Son of Adam.
32—Hardens.
33—Sets of laws.
35—Mourns loudly.
38—Deed.
39—To tire.
41—To note.
42—Weight.
44—Jumbled type.
46—Toward.

NEW YORK TREND TURNS DOWN IN LATER TRADING

So-called Pivotal Shares Sell Rapidly After Advance in Forenoon.

SEVERAL ISSUES DECLINE.

(By Claude A. Jagger.)
(Associated Press Financial Editor)

NEW YORK, Feb. 17.—Despite a smoke screen of bullish activity in the fast-moving issues, the stock market encountered substantial liquidation today, and after midday the trend turned unmistakably downward.

The market fluctuated widely during the morning, and several issues were pushed up 4 to 7 points, but the so called pivotal shares were heavily sold a point or two above yesterday's final levels, and by midday slid off to show losses of a point or two.

Issues selling a point or two under the preceding day's closing levels included American Can, American Telephone, International Telephone, General Electric, General Motors, Westinghouse Electric, Electric Power and Light, North American, Loews and Dupont. Early advances of 3 to 7 points in Allied Chemical, Byers, Case, Johns Manville, Worthington and Vanadium were lost, wholly or in part.

Boarding House Probe Ordered In Sudbury

SUDBURY, Ont., Feb. 17. — A recommendation that alleged immoral living conditions prevailing in foreign boarding houses in Sudbury, be investigated, was appended by the jury yesterday to its verdict finding Ignat Klusck not guilty of a serious offence against a 17 year old girl.

Condemnation of immoral conditions which he contended prevailed in foreign boarding houses, was voiced by Mr. Justice Logie in his address to the jury in suggesting stricter supervision of boarding and rooming houses.

Bracken's New Bill Is Heavily Attacked

WINNIPEG, Man., Feb. 16.—(C.P.)—Opponents of the government last night attacked Premier John Bracken's new election act from all sides in the Legislature. John T. Haig, Winnipeg Conservative member, climaxing the assault when he termed the bill "wicked." The danger under the new act, would be in the small, inadequately-organized constituencies, he said, and in these the government could be able to use it "with disastrous effect to its political opponents.

No progress was made on the debate on the reply to the throne speech, which will be finished this week to allow Premier Bracken to bring down his budget.

FOREIGN EXCHANGE.

NEW YORK, Feb. 17. (CP)—Prime mercantile paper 2½-2¾ per cent.

Foreign exchange steady; demand rates (Great Britain in dollars; others in cents): Great Britain 4.85 9-16; France 3.91 7-8; Italy 5.23; Germany 23.75; Canadian dollars at 1-32 of one per cent discount.

PRICE CHANGES ARE CONFINED ON STANDARD

Cheaper Golds Account for the Bulk of Trading—Nickel Sells Higher.

HOLLINGER OFF.

Teck Hughes and Siscoe Firm a Few Cents While White Lake Sells Up 3.

TORONTO, Ont., Feb. 17. (CP)—Prices changes were confined and irregular on the mining market in the forenoon to-day, with cheaper golds still accounting for the bulk of turnover.

International Nickel sold higher on the opening; but eased slightly towards noon, price standing up 65 at $17.15 when taken. Noranda was unchanged in quiet turnover. In the lower-priced base metals White Lake sold up 3 to 25 while Base Metals and Sherritt Gordon dropped 4 each to $1.01 and 95, respectively.

Teck Hughes and Siscoe firmed a few cents, but Hollinger was off 5 to $8.35, Wright-Hargreaves 3 to $2.21, and Howey a point to 30. Ritchie was active and fractionally higher in thepenny stocks; and Murphy, Dominion Explorers made small advances. Federal and Algonquin were somewhat easier.

Home Oil dropped 4 to $1.51, but balance of the oils were firm. Imperial gained 15 to $17.25, Chemical Research 10 to $3.25; Ajax Oil 5 to $1.60 and Acme a fraction to 20.

CATTLE PRICES REMAIN STEADY

Good Light Butcher Sells Mostly at $5.50 to $6 With a Few Choice Up to $6.50.

STORE TRADE DULL.

TORONTO, Ont., Feb. 17. (Canadian Press)—Toronto livestock receipts and quotations as reported by the Dominion live stock branch of the Canadian Press, follows:

Cattle receipts, 967, trade was active with the prices steady on all grades of cattle. Good light butcher sold mostly at $5.50 to $6. with a few choice up to $6.50. Heavy steers sold at $6.75, fed calves ranged from $7 to $8.50. Good fat cows brought $4 to $4.50. Store trade was dull.

Quotations:—

Steers up to 1,050 lbs. good and choice, $5 to $6.50; medium $5.50 to $6, common $4.50 to $5.50; steers over 1,050 lbs., good and choice, $6.25 to $6.75; medium $6 to $6.25; common, $5.50 to $6; heifers, good and choice, $6 to $6.50, medium $5.50 to $6, common $4.50 to $5.50, fed calves, good and choice, $8 to $8.50, medium $7 to $7.75, cows, good, $4 to $5, medium, $3.50 to $4, common $3 to $3.50, canners and cutters, $1.50 to $2.50, bulls, good, $4 to $4.50, common, $3 to $3.75, stocker and feeder steers, good, $5.25, common, $4.50 to $5, stock cows and heifers, good milkers and springers, $60.00 to $90.00.

Calf receipts 292—calves were active with the prices steady. Good to choice vealers brought $9 to $9.50, with a few selling at a top of $10.

Good and choice veal, $9 to $10, common and medium $6 to $8.50, grassers, $3.50 to $4.50.

Hog receipts, 917, hogs were unsettled with the packers bidding $7.80F.O.B. for bacon or $8.50 off car. Salesmen are holding for 25c more.

Quotations—off car basis, select bacon $8 to $9.25, bacon $8.50 to $8.75, butchers, $8.10 to $8.35, heavies, $6 to $7.25, lights and feeders, $8 to $8.50, sows, $4.50 to $5.75. Sheep receipts, 226—lambs were steady at $9.for the best ewes and wethers. Sheep were steady at $1 to $5.50, according to quality.

Quotations—good ewe and wether bucks, $7, culls, $7 to $7.50, good light sheep, $5 to $5.50; heavies, $4 to $5; culls, $1 to $3.

WITHIN 20 MINUTES THUGS ARRESTED

(Continued from Page One)

Mr. Rorabach jumped on him and held him down. Mr. Rorabach suffered the blow to the head when a bank clerk wielding a revolver aimed a blow at the bandit and hit his captor instead.

An angry crowd immediately gathered and Rorabach who was struggling with one of the bandits, was set upon and received rough treatment until his identity became established.

"The whole thing happened so quickly that even though I am next door to the bank I did not know anything about the hold-up until I was told about it" said A. Carter, whose butcher shop is near the bank building.

The bandits gave their names as: Harold Blanchard 18, 1257 McKay street, Montreal; Leonard Forest, 20, no home, but believed from Windsor, and Walter Clifford, 21, Ottawa and Cape Breton.

Home telephones are being installed in England at the rate of 6,000 a month.

Toronto Agency Manager

The Dominion of Canada General Insurance Company announces the appointment of J. S. P. Armstrong as Agency Manager for Toronto.

Mr. Armstrong is well known in insurance circles. He has had many years experience in field organization work and head office underwriting and brings to his new duties a fund of sound knowledge of Insurance matters.

The position of Agency Manager has been created with a view to extending the assistance to agents in the field and to afford them a closer contact with the Company, in its writing of multiple lines, Auto-Fire-Life and different forms of Casualty Insurance.

The Dominion of Canada General Insurance Company is one of the few purely Canadian Insurance Companies that is not controlled by outside capital. It is the strongest all Canadian Company writing all classes of Insurance.

MINING BRIEFS

A Special Service to The Examiner

TORONTO, Feb. 17. (Special to Examiner.)—Cheaper gold stocks again accounted for the bulk of trading on the mining market, higher priced members of the gold group showing firmness in quiet turnover. Gossip centred around the former group, Ritchie being mentioned as expecting a substantial payment from financial backers to-day and Murphy in connection with a director's meeting to decide on plans for a resumption of operations in the near future.

Brownlee Gold Mines Ltd., whose stock has been active of late has forwarded notice to shareholders of a special general meeting to be held in Toronto on Feb. 26, to consider a by-law providing for the sale of the company's assets to a five million share company having the name of Brownlee Consolidated Mines, Limited, for 2,000,000 fully paid shares of the stock of the later company. The present company has an authorized capital of 3,000,000,- shares.

When base metal prices dropped Brownlee began looking for gold ore bodies, J. A. Brownlee, President, states in a report accompanying notice of meeting. Drill cores and pits were examined two being found promising.

One of these showings is in a big east-west shear zone which upon investigation is getting some of their big gold bodies. Satisfactory results were secured in trenching and the short pilot drill hole, but funds got low. The above plan has been worked out, for further financing.

Underneath the proposed change present Brownlee shareholders will receive three shares in the new company for every five held in the old, leaving 3,000,000 shares in the treasury of Brownlee Consolidated Mines, Limited, for future financing. The company's property consists of 400 acres in Rouyn township adjacent to Noranda.

Copper Buying Steady.

Copper buying in New York is quiet as well to be expected after the good buying last week on both foreign and domestic account. Specifications are coming in at a somewhat better rate on old contracts to brass makers and a fair amount of new wire and brass business has been booked recently. As a result there is a slightly better feeling in the trade. However, there has been no radical change in the situation and it undoubtedly will be several weeks before it will be possible to guage conditions accurately.

In view of results at Siscoe directors of Sullivan gold mines in the same section are understood to be considering resumption of work on their property. Timmins interests are mentioned in connection with the enterprise and may supply funds for development. Fourteen veins were located on the surface and the main vein, uncovered for a width of 27 feet, showed coarse free gold in quartz. A shaft was put down to 275 feet. According to Hollinger's assistant general manager, who examined the property, actual values underground are at least one third higher than the official estimates.

KINGSTON COMPANY FULLY ORGANIZED

Proceed at Once to Equip Canadian Factory of Everlastik Inc.

KINGSTON, Ont., Feb. 16—(Special to The Examiner).—On Saturday, Dominion Webbing Company, a subsidiary plant of the Everlastik Inc. of Chelsea, Mass., was organized to operate a plant to care for Canadian business. Officers chosen are: President, B. T. Martin; vice-president and treasurer, John E. Page; secretary and assistant treasurer, W. L. Martin. All belong to the United States company. H. G. Winton, general plant manager, will at once proceed to equip the Canadian factory.

TORONTO CURB LIST ADVANCES LIGHT TRADING

International Nickel Sells Above 17 Mark For Second Time This Year.

NORANDA UNCHANGED.

Brazilian Traction Advances Above 26 While C.P.R. Holds Firm at 44.

TORONTO, Ont., Feb. 17. (CP)—Share prices still were advancing on Toronto Stock Exchange as the market resumed operations to-day. The trading volume was light in comparison with sessions of last week and the list narrow, but this is no wise affected the tone.

Nickel for the second time this year sold above 17. Noranda was very slow, but unchanged. Brazilian Traction went higher, above 26, C.P.R., was quite firm at 44 or better, Ford of Canada at 27 was right up near its recent top and Dominion Stores sold at 19, the highest the stock has been this year.

Oils were enlivened by a renewal of activity in McColl-Frontenac which after slumbering for several weeks, came out in good volume of mounting prices which rose to above 20 before liquidation halted the advance. Other oils were firm but practically unchanged.

Toronto again was following New York on the upswing. Interlisted issues were the chief actors, local stocks most dormant.

Chicago Wheat Fails To Follow Liverpool Lead

CHICAGO, Feb. 17. (CP)—Despite upturns in Liverpool quotations, grains here averaged lower early to-day; additional moisture in domestic winter wheat territory tended further to dispel drought fears; and acted as more than a counterbalance for reports of decreasing European wheat stocks and reduction of estimates of the Argentine exportable surplus. Openings 3-8 cents off to 1-8-¼ up; wheat later scored light general gains, but soon sagged. Corn started at 1-8 decline to ¼ advance, and afterward rose all around but then receded.

Slight List Advance On Montreal Market

MONTREAL, Que., Feb. 17. (CP)—A slight advance was scored again this morning by most of the principal issues on the Montreal Stock Exchange. The price changes were unimportant, however.

Abitibi and Gypsum up one each at 11 and 29 respectively, were showing the best gains while Brazilian Traction, Shawinigan and McColl Frontenac were almost a point better. Smaller advances were shown in Canada Cement, Power Corporation and a few others.

Dominion Bridge, Montreal Power and General Steel Wares turned off slightly.

HARDSHIPS LOOM FOR GOLD MINERS

Lightly Clad Prospectors Shiver as Snow Sweeps Into Livingstone Valley.

SAMPLES ON WAY OUT.

CALGARY, Alta., Feb. 17.—(C.P.)—Swirling eddies of snow from the white peaks of the Rockies had brought shivering fear of hardships to-day to the gold rush camps of Livingstone Valley. Tenderfoot prospectors on the rugged Porcupine Hills area of Southern Alberta's foothills watched grey skies, apprehensive lest last night's threatening blizzard resume.

Provisions for only a day or two, most of the 400 gold seekers hurried their claim-staking and planned to head back pronto to Nanton and Stavely, railway points some 50 miles distant. A temporary detachment of police stood guard against possible disorder or starvation resultant from food shortage or exposure. Until last night's snow, sunny weather had prevailed since the "strike" was made six days ago.

Definite assays on samples obtained on the banks of the Livingstone River have not yet been received, though quartz has been rushed to Vancouver and Denver, Colo. Some of the more eager prospectors have started panning in Savannah Creek, up-river, but their dishes are reported to have shown no trace of color.

Doings In Commons.

TORONTO, Ont., Feb. 17. (CP)—To-day in the Legislature:

Debate on the address in reply to the speed from the throne will continue, with party leaders speaking.

Yesterday in the Legislature:

First reading given a bill to amend the Municipal Act.

First reading given bill to amend the Assessment Act.

Second reading given bill to make uniform the law respecting assignment of book debts.

Winnipeg Review

Special Service to The Examiner through the courtesy of E. J. Bawlf Company, Grain and Stock Brokers, of Toronto

Wheat prices yesterday had a range of about two cents, being 5-8 to 7-8 higher at the start, and after holding quite firm during the first hour, finally gave way, breaking two to two and one eighth cents from the early highs. The opening upturn was due to local buying that was based on the firm cables, Liverpool fully following the Winnipeg up turn on Saturday but the Chicago market was draggy, and the spread between the two markets narrowing, brought some selling here against purchases in Chicago, and with no real support in the market, prices declined until they were into the daily bids which brought in a little support by way of short covering, causing a partial re-action. Export business over the week-end was about 140,000 bushels, mostly worked by the Pool, but a further 50,000 bushels durums was worked yesterday on the break. Actually there was very little trade volume and it was rather featureless with the local trade mixed in their opinions, with the majority awaiting further crop developments, both on this side and abroad. World shipments were fairly large last week, being 17,383,000 bushels, but there was a pronounced increase in floating stocks of 9,192,000 bushels. The Argentine crop was officially reduced about thirty million bushels and if this is correct their surplus will be around 150,000,000, that will be available for export. The precipitation in the South West was a little heavier and more general than early reports indicated. The Canadian Visible supply showed a fair decrease of 4,021,000 bushels while the U. S. Visible increased 2,078,000 bushels.

Coarse Grains.— These markets continued dull with nothing of feature going on. Selling pressure is very light but the demand is very small, and only reflects the small business going on in the cash markets where the demand is only for the odd car of Oats and Barley for domestic purposes.

Liverpool Cables due 7-8 to 1 lower based on Winnipeg.

TAKING WHEAT IN LIEU OF CASH

Plan Sponsored By Wrigley's May Be Adopted By Others.

HELD THEIR BUSINESS.

Many concerns interested in business from the prairie provinces are considering the adoption of the Wrigley plan, states Allan Ross, president of Wrigley's.

His statement that Wrigley's have been successful in holding and increasing their business by taking the amount of current sales in wheat has not only shown a good will and friendly interest to the west but has encouraged manufacturers and bankers to a more liberal view of the credit strength of the distributors (jobbers and retailers) and consumers in the prairies provinces.

Mr. Ross regards wheat as a staple whose depressed value is not likely to long continue and which offers good security in exchange for the merchandise of the east.

Many of the eastern manufacturers who have made inquiries verbally and by letter are very compilmentary toward the plan and three of them seem likely to announce their adoption of it within the next few weeks as a means of helping the revival of business in the west.

Scarlet Fever Mild States Dr. Young

"There is a mild form of scarlet fever in this city, and while it is very mild it is infectious," stated Dr. T. W. H. Young, City Medical Officer of Health, at a meeting of the local Board of Health this morning. At present he reported there are two cases of scarlet fever and three cases of chicken pox in the city, one scarlet fever patient and one chicken pox patie nt being confined to hospital.

With J. J. Turner in the chair, the members of the Board dealt with several small matters of routine business and authorized the renewal of the annual subscriptions for the Sanitary Inspectors' Association bulletin.

It was also agreed that the usual bonus of $100 be paid to C. Clarke, caretaker at Queen Mary Isolation Hospital, in two sums of $50 each at June and December, 1931.

MOORE IS EASY WINNER

SASKATOON, Sask., Feb. 17. (CP) Ted Moore, English middleweight, outpointed Al Conquest, Kansas heavyweight, in a ten-round bout last night. Moore had a wide margin on points in nine of the rounds. He floored Conquest twice.

In the last six years 256,000 houses were built in Greater London.

Legion Is Unaware of Cut In Relief Pay

James Abraham, president of the local branch of the Canadian Legion, when spoken to by The Examiner in connection with the report that veterans' distress relief payments for partial pensions had been reduced stated he had heard nothing regarding the matter. He would communicate with the Legion authorities in Toronto, he said, adding that any attempt to cut allowances would be regarded locally with great indignation.

MILITIA TRAIN GUNS UPON MADRID IN MOVE TO SET UP DICTATORSHIP

Martial Law is Set Up and Heavy Censorship Imposed on All Cables.

ALVAREZ FAILS ON CABINET.

PARIS, Feb. 17 (C.P. Cable via Havas)—It was rumored here late this afternoon that martial law had been established throughout Spain and that a new Dictatorship would be proclaimed this evening.

MADRID, Feb. 17 (C.P.).—A military movement, apparently intended to attempt the establishment of a military Dictatorship, began late this afternoon.

Two artillery units near Madrid mounted long range guns and trained them upon the capital. Civil guards were being mobilized throughout the city this afternoon.

Machine Guns Set.

Machine guns were placed at all strategic points and troops were held in their barracks in readiness for action should it become necessary.

A group of high army officers, reported to be disgusted because the King seemed to be yielding to the Left, were reported preparing to seize power and repeat the coup by which Primo de Rivera seized the Dictatorship.

ALVAREZ FAILS.

Melquiades Alvarez, chief of the Reformist Party and one of the leaders in the demand for a new constitution in Spain to-day, declined King Alfonzo's offer of the Premiership.

CENSORSHIP ESTABLISHED.

BORDEAUX, France, Feb. 17. — Severe censorship of both telegrams and telephone calls were re-established throughout Spain this evening.

It was announced that all communications destined for foreign countries must be submitted to the Ministry of the Interior.

Boy Battles Shark Comes Off Victor

BRISBANE, Australia, Feb. 17. Stanley Roser, an 18 year old boy, beat off a shark which attacked him while he was swimming to-day. A man-eater bowled him over in the water with a furious rush, but in the struggle to escape Roger jammed a thumb in the shark's eye and it beat a retreat. Roser walked to a hospital where doctors treated his wounds.

HOOEY IS GIVEN MINIMUM FINE

Magistrate Finds Man Guilty of Negligent Driving.

LANG WAS INJURED.

The minimum penalty of a fine of $10.00 and costs was imposed by Police Magistrate O. A. Langley, who delivered his reserve judgment this morning in which he found Frank Hooey formerly this city, guilty of negligent driving.

The proceedings against defendant arose out of a motor accident on November 18th, last, in which James Lang, of Dublin Street, this city, sustained such severe injuries as to necessitate his confinement to hospital for a lengthy period. The accident occured at the intersection of Sherbrooke and Park Streets, on one of those misty evenings last fall, and Hooey's trial was repeatedly adjourned from that date until February 3rd, when, for the first time since the accident, Lang was able to appear in court to testify. On that occasion His Worship reserved judgment.

Defendant Hooey was not present this morning, but was represented by his solicitor, B. H. Park. Crown attorney V. J. McElderry, K.C., was also present.

His Worship carefully reviewed all the evidence, and said that the case involved very mature consideration not only of section 24, of the Highway Traffic Act, under which the accused is charged, but also of section 35 of that act.

The evidence shows, he said, that there was a stop sign at one side of the intersection, and that the night was a drizzly, rainy one. His Worship continued to elaborate on the law, concerning the right of way.

He was satisfied, he stated, that Lang's car was carrying lights, while defendant had made a damaging admission, stating in evidence that he was travelling at from 20 to 25 m.p.h., in the vicinity and that he slowed down for the intersection. "I am forced to the conclusion that he was going at a rate at which a prudent and careful driver would not have gone on such a night. On Hooey's own admission he could not say whether or not he had looked to the left. Had he looked he would have seen Lang's car and there is some degree of negligence that he did not do so."

He had come to the conclusion, His Worship said, that had defendant been going at a lawful rate of speed, Lang would have had time to get across the intersection. Lang was, in fact, almost across. The actual impact having taken place, according to the evidence, ten feet from the west side of Park Street.

His Worship argued that it is not gross negligence a man has to commit for an offence under this section of the act, and I feel bound to find that his speed, while not terribly excessive was above the lawful speed.

Taking into consideration the fact that Hooey is facing the prospects of a Civil action, and, "that if that court finds him guilty of negligence as I do he will be liable for damages," His Worship imposed the minimum penalty as stated

MRS. J. MILLS IS BEHIND CAMPAIGN

Need is Very Great Declares Mrs. Mills But is Sure Citizens Will Aid.

MUST BE CARED FOR.

Mrs. Joseph Mills, president of the Ladies' Auxiliary to the Canadian Legion, endorses the efforts which are now being made by a group of disinterested citizens to gather funds to help in the present situation, when so many people in Peterborough, as well as in other cities and town and villages of the Dominion, find themselves unable to cope with existing difficulties.

Mrs. Mills is the president of the ladies' society, which, year in and year out, goes into the homes of ex-soldiers and helps them and their dependents to get along as comfortably as possible. They know, better than most, what life means to many of the men who fought for their country, and to the women who waited for them, and now see them sit in idleness or neglect, while the world rolls on, safe for democracy.

"The need is very great," says Mrs. Mills, "but people have been generous in their donations, and I feel that if they continue to help us, there will be little suffering, such as is experienced in other places where charity is not so prevalent.

"There are many young, unmarried men who need attention. They are not regarded as highly, when it comes to giving relief, as the married man with children, and yet their need is almost as great, and in many cases landladies are carrying them along, with no hope of payment for a long time, if ever. They must be cared for and not allowed to want."

Lord Bledisloe Asks Reduction In Salary

WELLINGTON, New Zealand, Feb. 17. — Lord Bledisloe, Governor General of New Zealand, to-day requested that his official salary be reduced ten per cent. for the public interest. Premier Forbes gratefully accepted his offer.

The Governor-General's salary is $25,000 a year, with $12,500 allowances, a total of about $37,500.

LIBERALS LAY SESSION PLANS.

OTTAWA, Feb. 17. (C.P.) — General plans to be followed by the Liberal Opposition in the House of Commons in the coming session, will be drafted here to-day at a meeting of prominent members of the party. Rt. Hon. W. L. M. King, Opposition leader, will preside at a meeting to be held this afternoon, attended by former Cabinet ministers, party whips and various private members.

LAURIER DIED 12 YEARS AGO.

OTTAWA, Ont., Feb. 17.—(C.P.)—Twelve years ago to-day Sir Wilfrid Laurier, Liberal leader of Canada, died. In accordance with yearly custom, it is likely that Rt. Hon. W. L. MacKenzie King, former Prime Minister who succeeded Sir Wilfrid as Liberal leader and present occupant of Laurier House to whom it was bequeathed by Sir Wilfrid, will deposit a wreath on the monument erected to the Liberal chieftain in Notre Dame cemetery.

CONVICT SHIP CARRIES 679 EXILES.

LA ROCHELLE, France, Feb. 17.—(A.P.)—The convict ship La Martiniere, damaged by fire last December, sailed for Devil's Island to-day with 679 exiles. She was seventeen days behind schedule.

12,000,000 FOR FIRE RELIEF.

PARIS, Feb. 17. —(A.P.) — The Chamber of Deputies to-day voted a $12,000,000 credit for storm and flood relief.

Armstrong Family Settled in Otonabee in 1831

SAMUEL ARMSTRONG LAID TO REST THUS BRINGING TO CLOSE A CHAPTER LEADERSHIP AND GOOD CITIZENSHIP

Acres Deceased's Grandfather Cleared Are Now Tilled By Great Grandson.

FAMILY HISTORY.

This Year is the Centenary of the Arrival in Otonabee Township of Armstrongs.

From the family homestead on the fourth concession of Otonabee, to which his grandfather came as a pioneer one hundred years ago, the remains of the late Samuel Armstrong, who died last Friday, were borne to the family burial plot in the Little Lake cemetery Monday afternoon.

His funeral signified in its sombre ceremony of mourning the inevitable severance of another of the human links in the extending chain of generations that bind the present and all its youthful vitality and promise, its inheritance of accomplishment and its own potential advancements, with the fading memories of the past that reach back the full round of a century and are cherished in hearts that do not forget.

The doubly pathetic sentiment was uppermost in the minds of those who realized that the death and burial of Samuel Armstrong not only marked the passing of a good citizen whose life of seventy years had been an edification to his fellow men, but also typified the end of a generation in a country that is still young and its sires but few. Contemporaries of his day survive him, but their ranks are thinning, and their years are mounting as his had, when he died a few days ago at seventy. And as the acres of his fathers cleared descended to him, so in turn they have passed on to his son, and perhaps will be handed on to a grandchild, for the Armstrong homestead has remained in the family since it was first claimed and established one hundred years ago.

From Ireland in 1831.

This year is the centenary of the arrival in Otonabee township of James Armstrong with his wife and family from the county of Sligo, Ireland. Their ocean voyage in a sailing ship had dragged through six weary weeks, but finally they reached Cobourg, and, then journeying across Northumberland county to Rice Lake they at last came in Otonabee where other family groups were already settled. James Armstrong immediately became a land owner, although his title was not to be confirmed until he had earned it by the pioneer toil the virgin country and the Crown demanded. He obtained possesion of lots 24 and 25 on the fourth concession, close to the present Norwood Road and near the Indian River which winds through part of the property.

At that time William Armstrong, the father of Samuel, was only nine years old. The first Armstrong home was just a rough shanty, and the first few years of struggle and work under conditions which are unknown except along our farthest frontiers today may be imagined by those who have read any of the stories that have come down from our own Peterborough county historians in their memoirs of the hardships of 'roughing it in the bush.'

Son Walked To Toronto.

In 1836 James Armstrong Jr. walked to Toronto to obtain the precious document of ownership of four hundred acres which comprised lots four and five in the fourth concession of Otonabee. This was the Crown's recognition and reward of the four years' work which James Armstrong and his young family had performed in their home-building. On his return from Toronto, the young man, James, who had been entrusted by his father with the responsible mission and quest to the representative of the Crown, came as he had gone, through the hamlet of Bowmanville. It was early summer, and the cherry trees around the residence of the Governor were red with their ripening fruit.

James, and probably his family called him Jim, stopped and gazed at the cherries hanging over the fence. He noticed, too, that there were many young trees growing outside the fence and along the roadside. The fruit looked luscious, and suggested a natural luxury of which the stern Otonabee woods were unaware. With the hope that he might be able to transplant a tree or two on his father's farm, James carefully pulled up some of the young trees growing outside the Governor's fence. He carried them in his hand the rest of the long trudge home, and today, after ninety-six years, this same strain of cherries blossom and bear fruit every summer on the Armstrong homestead. They have been cultivated and improved, but the original essence of them remains.

Margaret's Marriage.

James Armstrong, the pioneer, had four children, James, David, William and Margaret. It is recalled that James died in early manhood. Margaret married John English, and thereby hangs a reminiscence that kindles local interest. For, their son William built up the canoe making business which flourished for years on Charlotte Street in the premises that are being cleared of their scorched timbers between the Loblaw building and the Charlbond Apartments.

John English was a blacksmith. He built his shop over the creek on the north side of Charlotte street, and he lived in the roughcast, colonial house that stood east of the canoe factory until a few years ago, and on almost the same grounds on which the Loblaw store has been erected. William, the son of John English and Margaret Armstrong, began to make canoes in his father's shop. Gradually his enterprise grew, requiring larger accommodation. And so, the blacksmith shop was extended from time to time, until eventually it became the canoe factory which used to hum with its saws and industry of comparatively recent memory.

David Armstrong another of the sons of the pioneer father, married Sarah Miller of Dummer township. They and their family are all dead except David Armstrong of Keene and Mrs. John Kerr of Mark street, East City. David remained on the west end of the homestead until

Wm. Armstrong's Family.

William Armstrong married Eliza Elliott of Smith township in 1851, and through this branch the Armstrong patrimony passed to Samuel and now to his son Preston. William Armstrong and his wife remained on the original homestead all their lives. He died in 1913 at the age 93.

Their children were George Armstrong who died fifteen years ago in Smith township on the Elliott homestead which he had bought; Frederick D. Armstrong, who lives at 173 Prince street, Peterborough; Samuel, who was born on the homestead and died there last Friday after residing in the old farm for seventy years; Edith A. and John of Victoria, B.C.; Robert of Toronto; and Mrs. William Knox, who lives in this city at 116 McDonnell street.

Samuel Armstrong is survived by his widow and two children, one son Preston Armstrong, who inherited the homstead and its more than two hundred acres, and one daughter, Helen.

Preston Armstrong has four children, the oldest of whom is eight years. They represent the fifth generation of the family of James Armstrong who selected the paternal acres exactly one hundred years ago, and there laid the foundation of the homestead and farm which passed by inheritance first to his son William, then to his grandson Samuel, and now to his great-grandson Preston.

The Original Stump.

Even in those arduous days in 1831 when James Armstrong began the clearing of his land of its untouched forest there was a thread of the sentiment which has come down to the present; for, the stump of the first tree that was felled was left rooted in the middle of the field that broadened out around it until it was the very centre. It remained there for more than sixty years, and was always referred to as "the stump."

Southeast of the Armstrong farm was and still is the Fife settlement, two families that have been neighbours for one hundred years. Naturally, then, Edwin Fife who lives on the original David Fife homestead, was one of the pall-bearers Monday afternoon. The Armstrong traditions parallel and frequently touch those of the Fifes, and the story of the introduction of Red Fife wheat is told in both families. When David Fife had collected his first forty bushels of the new wheat which he gave to Canada without the slightest recompense or recognition, William Armstrong, son of the pioneer James, was one of the first purchasers. In order that the invaluable grain might be widely distributed in that section of Otonabee, and all the farmers receive a share, each buyer was allotted but one bushel, and the price was only one dollar.

Samuel Armstrong.

Samuel Armstrong was born in 1860 on the homestead. The environment of his home developed in him the moral character with which he was endowed, and in 1883 at the age of 23, he was appointed superintendent of Bethel Sunday School of the Keene circuit of the Methodist church, a position which he held until his death. The work of the church and the welfare of the community naturally attracted him and brought out all the energy and devotion of which he was capable. And as a further medium of good work he became superintendent of the Union Sunday school which was held for years in the sixth line public school. The meetings of the Union Sunday School were held on Sunday afternoons during nine months of the year. The rest of his Sunday religious endeavours found him at Bethel Church. The sixth line Sunday School had been carried on for three or four years more or less successfully until Mr. Armstrong assumed charge, and from that time onward until about five years ago this enterprise of his was exceptionally fruitful. It was an influence in that community whose results cannot be estimated.

Temperance Advocate.

From the time Mr. Armstrong became superintendent of the Bethel Sunday School he entered into all the activities of the church, and did not spare himself in any cause. He was always a whole-hearted advocate of temperance. He did not confine his interest to local endeavour but joined in the provincial temperance movement, and attended many conventions in Toronto. His zeal and loyalty were generally recognized, and for a time he was president of the Peterborough county Temperance Union. In 1885 he was an active supporter of the Scott Act, and so deep were his temperance convictions that he came to Peterborough to draw votes lending his aid to the leadership which was then given in Peterborough by J. W. Flavelle, now Sir Joseph Flavelle.

Mr. Armstrong was on the Quarterly Board of Bethel church for a long time, and was a representative at annual Conference of the Methodist church. In this phase of his life to which he was always faithful, Mr. Armstrong was actuated only by a desire to do his full share as a layman in promoting Christian ideals. And these ideals became reality in his association with his fellowmen. He practiced that which he preached, earnestly and sincerely, and without cant. He enjoyed the goodwill of all his neighbours, for his relations with them were based on charity. At the close it was said of him that he had no enemy, and at his funeral men of other creeds than his were there to pay their respect even as they had expressed it while he lived.

In politics he was an ardent Liberal, and when the United Farmers' movement came into being with the Progressive third party in the federal field he aligned himself with the agrarian interest, and was a loyal follower of the Hon. E. C. Drury. At the same time the farmers' co-operative company won his faith and also his hope, and he applied himself to the success of the farmers' co-operative business that has centred at Keene.

A Final Satisfaction.

Samuel Armstrong was for years connected with Shearer's cheese factory and was also president of it. He displayed a keen interest in municipal affairs, but he never sought election to any office in municipal administration. One of the satisfactions of his latter days was the adoption by the Ontario Department of Highways of the "block road" as a section of the provincial highway between Peterborough and Norwood. This official decision vindicated one of his ideas to the effect that this was a natural and easy route into the city from Shearer's corner.

It was no fault of Samuel Armstrong's that he did not live to see the erection of some memorial to the David Fife. Thirty years ago he wrote letters to the Toronto Globe and The Examiner urging that the great contribution which David Fife made to this country in the introduction of the Red Fife wheat befittingly acknowledged. So far nothing has been accomplished in that direction, and the memory of one of the greatest of Otonabee's pioneers has been deplorably neglected.

Samuel Armstrong was an intelligent and progressive farmer, always seeking new and better methods. His interests were broad and he always tried to keep abreast of the times by keeping himself well informed.

If he was firm in his ideas, it was because of a deep conviction that they were right and true, and especially that they were practicable. His loyalties were all directed to causes which he believed were for the good of his community and of mankind, and his faith and loyalty were reinforced by personal effort. In short, his life was well spent, and those who knew him will always remember him as a good citizen, a sincere and conscientious man who was true to his principles, and a churchman who in his own sphere as a layman was an enthusiastic and self-sacrificing laborer for the extension of Christ's kingdom on earth.

Funeral Service.

The funeral from the homestead Monday afternoon was very largely attended. The religious services were conducted by Rev. Mr. McNeely of Keene United Church who was assisted in the home service by Rev. J. E. Millyard of George Street Methodist church. The pall-bearers were Harry Reid, Garnett Fife, Fred Fife, Stanley Wood, Edwin Fife and Percy Donaldson.

The mourners included, in addition to his immediate family, his sister, Mrs. Knox, of Peterborough, and his brother, Robert Armstrong of Toronto. His brother Frederick of Peterborough was prevented by illness from attending. The Armstong burial plot in the Little Lake cemetery was one of the first allotted when the cemetery came into use. There with the others lie his father, William Armstrong, and his grandfather, James Armstrong, the pioneer settler of 1831, on the slope of the high ground east of the chapel.

Dodd's OINTMENT

It's far like the finest face creams. Price 50c

CATTLE, GRAIN, PRODUCE

TORONTO PRODUCE

TORONTO, Feb. 17. — The local butter market was quiet yesterday, with brokers finding a slightly better demand for No. 2 creamery solids, though small lots of No. 1 also found sales. Prices were steady with previous quotations at 31½c to 32c for No. 1, and 30½c to 31c for No. 2. An occasional carlot of Western found a buyer, but at the same price as asked for Ontario finest, 32c, and the Western offerings included fresh makes and regraded lots.

Higher Production

It now appears that Canada will not have to worry about importing butter to satisfy consumptive demand. Information obtained yesterday brought out that the Western Provinces increased their production 1,000,000 pounds in one month, and Ontario and Eastern creameries have not been idle since the new tariff went into effect. In February last year 8,000 000 pounds of butter were imported, mainly from New Zealand and any might ask where such an amount is coming from this year. But the Federal Government report shows 16,639,483 pounds in storage on Feb. 1 this year, a decrease during the month of January of some 5,000,000 pounds, and this supply is considered ample for some time, as production is gradually growing larger. One broker pointed out that the importation of 8,000 000 pounds last February was not required, later storage holdings reports showing most of it on hand.

Cream

Cream prices were steady yesterday at 31c to 32c for special; 30c to 31c for No. 1, and 27c to 28c for No. 2, f.o.b. country points.

Cheese Lower

Cheese prices were lower to the country shipper, brokers offering 15c for new large 15¼c for twins, and 15½c for triplets, paraffined, colored. Government graded. Retailers were offered new makers at last week's increases, which were: large 16c, twins 16½c, and triplets, 16½c.

Eggs Steady

Prices were steady on the egg market, and trade was good for fresh supplies, while storage eggs were nearly all cleared. Wholesalers offered candled lot of storage eggs at 22c for extras and 20c for firsts, and fresh supplies at 34c for extras in cartons, 32c for extras loose, 29c for firsts loose, 25c for pullet extras loose, and 22c for seconds loose. Brokers quoted fresh eggs, graded and in free cases, at 29c to 30c for extras, 26c to 27c for firsts, 22c to 23c for pullet extras, and 20c to 21c for seconds. Few Prairie eggs have arrived in this city, but British Columbia supplies have been offered steadily at prices level with those asked for Ontario supplies, though the freight from British Columbia is from 6c to 6½c per dozen. Country shippers were quoted 26c to 27c for extras, 23c to 24c for firsts and 16c to 18c for seconds, ungraded, delivered, cases returned.

CHICAGO GRAIN

CHICAGO, Feb. 17.—Grains suffered material price breaks yesterday owing largely to piling up of United States stocks of wheat and to widespread moistures alleviating drought. Forecasts pointed to more rainfalls tonight over domestic winter wheat territory, including Nebraska. A decrease of almost 33,000,000 bushels in official estimates of the Argentine wheat harvest failed to act as a counterbalance.

Wheat closed nervous unchanged to 1¾ cents lower, corn 1 to 1¾ off, oats ¼ to ⅝ down, and provisions varying from 5 cents setback to a shade advance.

MONTREAL PRODUCE.

MONTREAL, Feb. 17. — Egg and cheese prices were higher, while butter and potatoes were unchanged on the produce and dairy market here yesterday.

Fresh eggs in carlots were one cent higher, extras quoted at 30 to 31 cents, and firsts and pullet extras at 26 to 27 cents, while seconds were unchanged at 20 to 21 cents a dozen. Storage extras, recandled, were quoted unchanged at 19 cents, firsts at 17 cents and seconds at 15 cents a dozen. Quotations to retailers were unchanged. Receipts were 707 cases.

Winter colored cheese was one-quarter of a cent higher at 14¾ to 15 cents a pound. Winter white was unchanged at 12 cents, as was summer cheese at 15½ to 16 cents a pound. Receipts were only 9 boxes.

No. 1 pasteurized buttre, in carlots, was quoted at 32 to 32¼ cents a pound, with an easier tone in evidence. To retailers solids were 34 cents, and prints 35 cents a pound. Receipts were 818 boxes.

New Brunswick Green Mountain potatoes, in carlots, were 75 cents per 90 pounds bulk, and to retailers 80 to 85 cents per 80-pound bag.

WINNIPEG GRAIN.

WINNIPEG, February 17. — Total absence of foreign demand in the Winnipeg wheat pit here yesterday and liquidation on the part of the traders who bought freely last week tended to weaken values on the Grain Exchange here yesterday. Prices at the close were 1⅛c to 1¼c under Saturday's final figures.

The price trend was erratic and the volume of trading was small. Values were down about 1¼c at the low points, but a small rally occurred near the close. Estimate of the Canadian wheat visible, which showed a decrease of more than 4,000,000 bushels for the week was a factor in the firmness near the close.

Export business over the week-end was a disappointing factor.

Cash wheat and coarse grains were neglected. Prices showed no material change from Saturday's close.

PLAN OF CREDIT

(Continued from Page One)

further observations on the subject of conditions in Western Canada and as particularly related to the proposal recently made to improve them. In December of last year I took occasion when speaking in London, Ontario to make certain suggestions as a private citizens for the amelioration of conditions on the prairies as we then understood them to be, and I indicated in the course of that address the propriety of the creation of an agricultural credit corporation to assist in extending mixed farming throughout the west where physical conditions premitted. I frankly confess that the reason for these suggestions was far removed from one of desire to infringe upon the prerogatives of any governmental or other authority or to hold myself out as an expert on rural economics or farming operations. I felt that I could make such suggestions though a resident of the east and not be misunderstood or my motives misinterpreted because it happens that the company with which I am associated and have been for the past thirty years was the company which made Confederation possible and linked the east with the west and from that day its fortune have been inextricably bound up with the prosperity of Western Canada. I felt too that in these times when depression provokes discouragement and discouragement grievances both imaginary and real, a practical measure of good will on the part of the east and of interest in the problems of the west under these unusual conditions would be accepted as proper and as neighborly and wise. There was no desire to extend charity as was stated in the unhappily phrased comment of the Prime Minister of this province, but there was every desire to assist and assist in a way that was readily open to eastern interests, namely, by the provision of the capital requirements of a corporation created to extend credit on fair terms to those in the west who were willing and able and so situated as to have reasonable prospects of success and who desired to diversify their farming operations.

At the outset it should be made clear that the formation of an agricultural credit company is not for the purpose of attempting to meet or correct the unusual and somewhat severe conditions of the present day. It is a policy which can be made effective over a period of years and one which in the view of many of our most outstanding agricultural experts should go a long way towards promoting a greater degree of stability in the agriculture of the west. The idea itself is sound but in as much as it is being advanced at a time when world price conditions have caused considerable inconvenience in the economic life of the country. It would appear advisable that the real purpose of the proposal should be widely understood so that it will not be regarded as a movement in the nature of a measure of emergent relief, a portion of the press has already chosen to place a rather extensive interpretation on the suggestions which I have indicated have been made and made with a view to assisting the farmers to develop as supplementary to their present activities those safeguards in the business of farming which have already been achieved by some through a certain measure of livestock production having been included in their program. Let me repeat, therefore, that because consideration is being given to these proposals during a time of depression when various relief plans of a temporary nature are being discussed this is not a temporary expedient for the purpose of relief, but rather a permanent piece of machinery being introduced to the industry of agriculture with a view to developing and maintaining additional sources of sustenance and of revenue from our farms. The permanency of this development should be recognized. It is obvious that the business of farming does not lend itself to sudden changes in policy, insofar as livestock production is concerned with any profit to the producer. If some supplementary activity in the field of live stock production should prove of assistance then that activity must be organized on a permanent basis. As such it will continue to take care of maximum living requirement and leave a larger proportion of return from the money crop for other purposes.

Two features stand out as being of major importance in developing a sound plan for the extention of agricultural credit.

First—The policy must be operated in such a way so as not to impose a burden on the farmer in the matter of handling charges, interest, etc., but rather to provide him with a greater stability in earning power at the very minimum of cost.

Second—The policy must insure the safety of the investment so that the capital of the loan corporation is not impaired.

Inasmuch as the requirement of safety as stated in the second of the two factors set out above, involves considerations which have a direct bearing on the first, we will consider them now.

The greatest degree of safety is to be achieved through numerous relatively small loans. Under the plan followed in the United States, a minimum and maximum loan was established. These were set at two hundred and one thousand dollars respectively. It might be advisable to follow their experience in this regard. However, I would not favor the granting of the maximum amount except under special circumstances. With the provision of credit within the ranges of these amounts, the corporation may be besieged with individual applications for loans scattered over a very wide territory. It should be apparent that to investigate, supervise and collect loans established under such conditions would probably prove too costly to warrant the success of the policy. In this regard there is a lesson to be learned from the development of agricultural extension work through the medium of various federal and provincial policies.

It is natural that sufficient elasticity must exist to take care of the conditions which exist in different parts of the west, as, for example, sheep might prove satisfactory one place and not another. The reason might be fences or the lack of them. The central idea of the plan, however should be to seek to develop in favorable communities on the basis of some diversity in livestock which under different conditions might include from two to five cows, one or two sows, twenty-five to one hundred hens, and, wherever possible twenty to fifty ewes per individual farm.

In the above an attempt has been made to briefly indicate the general principles which provide for the greatest degree of safety at the lowest cost and at the same time insures a studied and interested introduction of livestock. To be more specific in regard to the factor of costs, it is realized that, although this is a matter which will have to be determined in relation to the problem of securing the necessary capital and providing for its successful management, it should be urged that all possible avenues be explored with a view to establishing credit facilities at a rate of interest not to exceed 6 per cent. In regard to handling charges, the charge should be on the lowest possible basis consistent with revenue needs.

Will you permit me to make this one concluding observation. We have passed through, and are still passing through, a dificult period following upon an era of prosperity made artificial in some places by feverish speculation and by unwarranted and extreme exaggeration of prices, an era in which we establish stock market values based, we thought, on future and potential prospects, in the fixing of which earning power, had little or no place. The sudden recession in these values resulted in actual monetary losses in some cases and in lessened wealth in others. Accompanying them came a shrinkage in trade (the buying power of the world has suffered from war obligations and the diversion to their [illegible] of the surpluses of many nations) lessened consumption and, therefore, less production of manufactured articles, lower prices of grain and other basic products and real hardship in the form of unemployment.

In these extreme conditions we made mistakes— in the former we were over-confident and extravagant indeed most reckless; in the latter we again lost for a time our sense of proportion but gradually sanity and courage have returned. We have gone to work and we have thought constructively of our problems and their remedies. Our cool consideration has led us to see things in their true perspective and we realized that we had made steady progress in spite of present conditions and that we are living in a country in which setbacks cannot be of long duration; that if we stood fast prosperity would again return and, in this well endowed country, more quickly than in others. Periodically I am foolish enough to think I have plumbed the depths of the rescurcefulness and the tolerance of the people of this country. In years of comparative prosperity, both were obvious—in years of depression each became more conspicuous. I am convinced we have not much longer to wait for substantial improvement; in the meantime, we would be an unwise and unresilient people if we did not profit by the experience of recent years, if we did not put our house in order, increase our efficiency and redouble our efforts to prove once again Canada's right to be considered one of the really great nations of the world and its pepole sane, confident and resourceful— proper trustees of the heritage they are permitted to mutually share as citizens of this Dominion.

MENTHAIR QUICKLY RELIEVES

Colds in Head, Catarrh, Asthma, Flu, Etc.

SPECIALLY RECOMMENDED FOR HAY FEVER

This marvelous new discovery not only relieves these distressing conditions, but is also wonderfully effective in preventing flu and colds. Use a few drops in the nose 3 or 4 times a day from the patented self-dropper bottle. Easy and pleasant to use. Readily carried in pocket. Drunkenness Decision Reserved By Court

OTTAWA, Ont., Feb. 17.—(By the Canadian Press.)— The definition a judge should put on drunkenness to enable a jury to decide whether a verdict of murder or manslaughter should be given in connection wtih a homicide is the question for decision in the case of the King versus Macaskell on which judgment was reserved to-day in the Supreme Court of Canada.

SEVERAL COMMUNICATIONS READ AT MEETING OF CAVAN COUNCIL

Omemee Telephone Ask Transfer of Poles to Emily Municipal System.

APPROVE ACCOUNTS

(Examiner Correspondence)

CAVAN, Feb. 17.—Cavan Council met on Thursday in regular session, at 1:30 p.m. Reeve G. H. Hootan presiding, and members all present.

Communications:

From the Ontario Townships Roads Association, giving notice of the dates of meeting for their annual convention:

From Robert C. Muir, Chief Engineer of Highways, acknowledging receipts of the completed forms covering work done on the township roads in 1930.

From the Deputy Provincial Secretary regarding the admittance of William K. Elmer to the Ontario Hospital.

From the secretary of the Omemee Telephone Company asking Council to pass a resolution agreeing to the transfer of the poles, etc., of Omemee Line to the Emily Municipal System.

The auditor's report was read, and on motion of Deputy-Reeve J. H. McGill and Councillor McCamus, was received and the clerk instructed to have 100 copies printed.

McCamus-Ball: That the Road Superintendent be instructed to attend the Road Superintendents' Convention, and to present to Council a report of proceedings at its next meeting. Carried.

McCamus-Ball: That this is to certify that the Municipal Council of the Township of Cavan agrees to the transfer of the pole leads lines, equipment, etc., of the Omemee Telephone Company, situated within said Township to the control of the Emily Township Municipal Telephone System. Carried.

Messrs. R. O. Larmer and N. Belch waited on Council asking for the usual grant for the Winter Horse Show. On motion of Councillors McCamus and Wood the usual grant of $30.00 was donated.

B. L. Richards, of the Mirror-Reporter addressed Council and accepted the contract for the year's printing for the sum of $200.

Accounts Passed

McGill-Wood: That the Reeve sign cheques for the following orders. Carried:

Millbrook Telephone Co. acct...	$ 3.12
C. Thorndyke, af'davts. rd. acts,	1.00
F. Gibson, D.R.O. Div. No. 1...	13.20

GRENADIER GUARDS BAND ON TOUR

CAPE TOWN, South Africa, Feb. 17.—(C.P. Cable via Reuters).—The band of the Grenadier Guards, London, under the conductorship of Captain Miller, director of music, received an enthusiastic welcome by enormous crowds on arrival here today

The pipers of the band played a Lament while Captain Miller placed a wreath on the war memorial after which the band received an official welcome at the Town Hall.

HOOVER BATTLES WITH CONGRESS

(Continued from Page 1)

the Federal Treasury some $3,449,000,000 was broached, however, there was a storm of protest.

Congress was caught between the upper millstone of politics and neither of business and economics.

Proponents of the plan made this point; distribution of this sum throughout the United States would not only benefit the recipients but by the increasing of their buying power would stimulate business.

Depress Bond Market

Opponents made the following argument:

First, that an issue of bonds would be necessary and that this would depress the bond market.

Second, that the money disbursed while it might result in an apparent trade revival for a few weeks would almost immediately disappear leaving the situation as it was.

In short, that the net result would be the upset of the Government's financial programme, the flattening of the bond market at a time when reviving business might need money there, and an artificial stimulation of local trade of extremely doubtful value.

The upshot was the drawing up of a bill by Isaac Bacharach of New Jersey providing essentially that veterans might borrow from the Government up to 50 percent of the value of their certificates.

Must Help Thin Weak Children Or Money Back

Builds Body, Bones, Teeth of Ailing Youngsters.

You can give your children, mother nature's own vitalizing weight building tonic for 28 days—and if at the end of that time you are not extremely thankful for the benefit received get your money back.

That's a fair offer you should not let pass—ask McDermid & Jury. McDermid's Bond's, Lynch, and Payne's or any druggist for McCoy's Cod Liver Extract Tablets—they are small—sugar coated and rich in the body building substance extracted from Codfish Livers.

Complete directions come with each box—60 tablets 60 cents—a blessing to frail children.

St. Andrew's Club, in London, has voted to use only peat brought all the way from Stornoway, in the Outer Hebrides, for its fires.

Take Inventory

IN this, CANADA'S YEAR, a searching inventory is taking place. Stringent times call for an honest review of our equipment, our resources and a firm resolve to replace obsolete methods by those in line with the year and its need.

The year is Canada's opportunity.

The need is apparent — to encourage Canadian endeavours and patronise Canadian Industries of which insurance is a most important division.

Take inventory of your Insurance policies and see what portion of *your* Insurance can be transferred to an All Canadian Company.

BREAD CONDITIONS IN PETERBORO INVESTIGATION SHOWS NO COMBINE REVIEWED IN REGISTRAR'S REPORT,-

Price War Was Staged Not Waged in City Last November Report Says.

COSTLY COMPETITION.

Many of Large Bakeries Controlled By Flour Milling Companies.

OTTAWA, Feb. 17 (C.P.)—"So far as the situation throughout the Dominion is concerned," states the report of an investigation into an alleged combine in the bread-baking industry in Canada, just issued by Hon. G. D. Robertson, Minister of Labor, "it has not disclosed a combination which has operated or is likely to operate to the detriment or against the interest of the public. Particular attention has been given in the inquiry to the vertical combination effected through the entry of certain flour milling companies into the bread-baking industry. No conclusive evidence has been adduced to show that this combination constitutes a combine within the meaning of the Combine Investigation Act. At the same time, the predominant position of these flour milling companies in the baking business, and the possibilities of monopoly and price enhancement which are theirs, are such as to warrant continued governmental interest in the situation, and, should the need arise, further governmental action on behalf of the consuming public."

The report was made by F. A. McGregor, Registrar under the Combines Investigation Act, as a result of complaints received from Vancouver, Winnipeg, Halifax and a number of other cities in the Dominion. From Winnipeg came a formal application which charged the existence of a local combine, while the Vancouver complaint asked for an inquiry into other wheat products as well as bread. Because of the time required for an inquiry into the trade in all wheat products, it was decided to limit the present report to the bread-baking industry. "In dealing with these complaints," the report adds, "it has been recognized that the scope of the Combines Investigation Act does not extend to the investigation of prices unless combination or monopoly operating against the public interest is alleged or believed to exist. Even where such charges are made it is obvious that, in a preliminary inquiry such as this, detailed examination of possible arrangements among local bakers in each community is not practicable."

Conditions in Peterborough

Within the report, which is available for circulation in French as well as in English, there is a reference to the local situation in Peterborough, where it is stated that a price war was "staged not waged, in November last." "In September, 1930," the report describes this incident, "when the larger Peterborough bakeries were selling bread wholesale at 10 cents, and later at 9 cents, some of the smaller independent bakers cut the price as low as 6 cents, thereby enabling the retail grocers to meet the chain store price of 7 cents. This price proved damaging not only to the larger bakeries, but to the small bakeries themselves, since it meant selling below their cost. In the hope of extricating themselves they appealed to the larger bakeries, and an arrangement was made early in November whereby the larger bakeries would come down to the low price of 6 cents, with the definite intention of remaining at that price for a short time only, when all the bakers would advance together. It was not decided in advance apparently how long the low prices would continue, or what prices would prevail subsequently. By the end of November all the local bakers had suffered such losses as to create a general desire for an increase. It was decided then to raise the price to 8 cents wholesale and 9 cents retail. The head of one of the two mill-controlled bakeries was reported to be in favor of the smaller bakers making only a one-cent advance (their business was largely wholesale), but the other large bakeries held out for the same increase on the part of all, otherwise they would continue at the 6 cent level. The increase was put into effect on December 1st, but shortly afterwards one of the smaller bakers dropped to the 7 cent price, thus enabling the retail stores to sell at 7 cents in order to meet chain store competition."

"Within the bread-baking industry examples of both kinds of competition are clearly seen: competition in quality service and salesmanship more plainly in recent years, competition in price very markedly in recent months. The latter type seems to have come in part as a reaction from the other.

Costly Form of Competition

"What the present inquiry has disclosed is that higher prices have been due not so much to combination as to this costly form of competition in quality, service and salesmanship. The additional costs have quickly become absorbed into normal costs, ultimately appearing to be as necessary as any other items of expense. Such increased costs are all but certain to lead to higher prices, and the baker's explanation of these higher prices is that they do little more than reimburse him for his actual outlays. This is the situation which has developed in the bakery trade during a period in which the public was less concerned about price than it is at present. The bakers have become engrossed in a competition which has led them into adding more and more of the expensive ingredients in order to attract business into more elaborate delivery and other services, into selling campaigns which have for their chief object persuading potential customers to 'change bakers,' a service for which consumers of bread in the end have to pay.

"Nor have the flour costs of these mill-controlled bakeries been reduced as a result of the new relationship. One would expect that a chain bakery using several thousand barrels a month would buy flour from its parent milling company at prices far below those of small competitors using less than a carload a month. The returns received, however, show that in many instances the small baker (purchasing now from one milling company, now from another, frequently from the smaller mills) has been outbuying his large-scale competitor, whose purchases are naturally confined to one large flour milling company.

Price Agreements

"If it were not for other price competition beyond its control, a combination of this type and size might affect prices to the disadvantage of the public. The chief possibilities of such disadvantage lie in the direction of price agreements among the mill-controlled groups, or continued costly sales competition, and of the dictation of the prices charged by independent bakeries. The power of the mill bakeries over independents is greatly augumented by their ability to suffer heavy losses in one community where it might be considered desirable to eliminate competition by means of a price war. These, however, are only possibilities. It may be that 'the sight of means to do ill deeds' will not make ill deeds done; it may be that the possibilities for good outweigh those for ill. It seems likely also that the development of the newer forms of price competition will continue to be effective in preventing undue advantage being taken of the reductions in price which have occurred within recent months. Chain store competition, even though much of it has been below cost, supplemented by the competition of smaller low-cost bakeries all over the country, has made itself felt. The small capital required to operate small bakeries and the short time within which they can be brought into operation is a public safeguard of some importance. . . . There is also the additional possibility of bread being baked at home in the event of bakers' prices going beyond what are considered reasonable limits. Modern living conditions, however, have lessened the importance of this as a competitive factor.

"Apparently the situation has been taking care of itself, and can continue to take care of itself so long as these factors, actual and potential, remain in existence. If they continue to be as effective as they have been (and there seems to be no reason to believe that they will not) the public as well as the industry will be the better off, having such problems solved without the necessity of governmental intervention."

Controlled by Flour Mills

Under the heading of "Combination in the Bread-baking Industry" the report discusses the operations of the bakeries controlled by flour milling companies and the competition between them and the chain stores. It lists the flour milling companies which control bakeries as: Lake of the Woods Milling Company, Limited; Maple Leaf Milling Company, Limited; Ogilvie Flour Mills Company Company, Limited; and Western Canada Flour Mills Company, Limited. The Lake of the Woods Company, it is stated, controls Inter City Baking Company, Limited, which operates in central Canada, and Inter City Western Bakeries, Limited, with branches west of the Great Lakes. The Maple Leaf Company controls Canada Bread, Canadian Bakeries, Limited, (operating in western Canada), Dominion Bakeries, Limited, and Eastern Bakeries, Limited, and Purity Bread Company, Peterborough. The Ogilvie Flour Mills Company controls Consolidated Bakeries, Limited, and a new western chain known as McGavin Bakeries, Limited, also Stock's Bread Company, Peterborough. The bakeries of the Western Canada Flour Mills are controlled through the Purity Bakery Company, Limited, Toronto. The report estimates that 76 mill-controlled bakeries produced 38 per cent of the bread sold in Canada in 1929 and 93½ per cent of the bread sold in the cities and towns in which their plants were situated.

Canada's Naval Hero

Captain R. N. Stuart, V.C., D.S.O., R.N.R., Commander of the Duchess of York, is Canada's only naval V.C. hero, and has already built up for himself an enviable reputation as an Atlantic passenger liner commander. With the utmost ease he has guided his ship to several new speed records since taking over the command of this vessel, not only between Liverpool and Saint John, but between Liverpool, Glasgow, Quebec and Montreal.

OMEMEE ADDRESS MUCH APPRECIATED

Adrian MacDonald is Guest Speaker at Regular Meeting of A.Y.P.A.

OMEMEE, Feb. 17 (Examiner Correspondence)—Adrian MacDonald, of the staff of the Peterborough Normal School was the guest speaker at the regular A.Y.P.A. meeting of Christ Church, and gave a very interesting and entertaining address on the theme "To see ourselves as others see us."

The Rev. Mr. James, of Peterborough a former rector of Christ Church introduced the speaker in a few appropriate words.

The meeting was presided over by H. Hill.

HOME TOWNERS

Tidbits, Interesting and Humorous
CAMPBELLFORD

Spring seems to be on the way if the signs of the times are to be relied upon. One local resident reports having seen a goldfinch in his garden last Friday. We are hoping that the little fellow has come to stay and brings his mates with him.

Mr. and Mrs. A. L. Riendeau, Miss Helen Riendeau and Mr. Charles Calvert were week-end visitors to Toronto on Sunday.

We are sorry to hear that N. Stone was taken to hospital at Peterborough on Saturday. It is hoped that his condition is not serious.

Owing to the illness of the Rev. R. D. Clair of the Norham United Church circuit E. H. Lewis conducted services at Myersburg, Codrington and Norham on Sunday.

Mrs. Stanley, who has been the guest of her daughter, Mrs. C. J. and Mr. Windrim for the past few weeks, returned to her home at Port Hope on Sunday.

Mrs. C. H. Davidson was a visitor to Peterborough on Sunday to see her husband, C. H. Davidson, who is a patient in the Nicholls Hospital. He is reported to be on the mend.

J. A. Loucks was a business visitor to Belleville on Monday.

Dr. and Mrs. H. B. Longmore were visitors to Belleville on Monday.

OBITUARY

EDWARD YOUNG

FENELLA, Feb. 17 (Examiner Correspondence)—The funeral service of the late Edward Kingsley (King) Young, who died on Tuesday morning, after a short illness, was held on Thursday afternoon at the home of his parents, Mr. and Mrs. Alexander Young, Harwood. Mr. Young was twenty-six years of age, and was a highly esteemed young man. He took a prominent part in baseball, being pitcher of the Harwood team. Six of his comrades in baseball bore his casket to the grave, Max Melville, Otto Harvey, John Minifie, Frank Wade and Roderiow McClean, while representatives of the Roseneath and Alderville baseball teams were present at his funeral. Rev. James Leach conducted the service at the house and cemetery. Besides his sorrowing parents, he is survived by four sisters, Mrs. William Lea, and the Misses Sarah, Cora and Vera. Two brothers predeceased him, one brother who paid the supreme sacrifice during the late war, and another brother suffered accidental death a few years ago. Interment was in Bethesda Cemetery.

Crowland Council To Name Two Officers

WELLAND, Ont., Feb. 17.—(CP)—Crowland Township Council will meet Monday night to make appointments from forty-two applications for the position of police chief and constable for Crowland. Those in the running for police chief are Daniel Boyd, former police chief of Galt; J. D. oGodail, Chief of the International Nickel Company Force at Port Colborne and Robert Offer, now constable in Crowland. Those selected to be interviewed for the post of constable are, Alex. Munro of Welland, E Stauth of Fonthill, Robert Offer of Crowland, and W. Dickson, of Welland.

TWO HUNDRED GUESTS ATTEND REGENT STREET CHURCH BANQUET

Reports of Various Organizations Read and Officers Elected at Meeting.

ANNUAL GATHERING

LAKEFIELD, Feb. 17 (Examiner Correspondence)—Nearly two hundred sat down to a delightful banquet provided by the ladies of the Regent Stree: United Church on Tuesday evening, the occasion being the annual congregational meeting which has been marked by a banquet for the past few years.

The Rev. S. A. Kemp presided for the business meeting which followed the supper and welcomed everyone in his pleasant manner and prefaced by community singing led by the orchestra composed of Mrs. H. E. Moore, pianist; W. Madill, leader; Clayton Bullock, Ronald Kemp and Jack Hendren, the meeting proceeded to business.

The election of stewards and members of the session resulted in the following: Walter Madill, J. Reid, and W. J. Northey were elected to the session for five years; C. J. Harrison for one year and Stanley Darling elected to the Board of Stewards for five years.

The reports of the various church organizations followed. The report of the Mission Band was given by Miss Isabel Brown showing a membership of 35 with fourteen meetings being held during the year and one life membership reported. Twelve of the children memcrized the passages of scripture recommended by the Presbyterial secretary; a bale valued at $8 was sent to headquarters and a scrap book of Bible pictures to Dr Margaret Forster, North China and the Study Book to Miss Coon, West China. During the year $63.70 was raised. Mrs. C. L. Harrison is superintendent.

Helen Miles gave the report of the C.G.I.T which has a membership of 38 with twenty-five meetings being held, ten of which were of a missionary nature. The balance on hand after a generous donation was made to the Christmas Cheer to the sick and shut ins and to the inmates of the House of Refuge is $5.43. Mrs. S. A. Kemp is the leader of the group.

The report of the Trail Rangers was given by the Rev. S. A. Kemp which showed a healthy condition. The orchestra report was given by the leader, W. Madill who reported progress and bespoke the co-operation of the congregation in their undertaking.

The spectacular report was that of the Ladies' Aid read by Mrs. S. S. Spence. The Aid has a membership of 89, nine new members being added during the year, and two were called by death, Mrs. Ingram and Mrs. Madill. There was $1,269 raised during 1930 which was $81.02 more than the previous year. This in spite of talk of business depression and shortage of money constitutes an enviable record. Mrs. S. S. Spence, who has been treasurer for many years expressed the thanks of the officers for the co-operation received.

The report of the Young People's Society which is the youngest of the organizations showed the sum of $12.32 raised. The report of the W.M.S. given by Mrs. William Purdy showed receipts amounting to $233.92.

The Rev. S. A. Kemp read the report of the Sunday School showing the total receipts as $315.59. Missionary and Maintenance Fund showed receipts of $664.69 as reported by Roy Bullock, who also gave the report of the General Fund. Total receipts were $2,851.69 included envelope contributions, donation of $426.27 from the Ladies' Aid, loose collection and from Young's Point.

Stanley Darling reported a balance on hand in the choir of $32.92.

Pastors to Change

The Rev. S. A. Kemp addressed the meeting regarding the coming change of pastors, and expressed his appreciation shown him during his stay in Lakefield. Mr. Kemp's address touched the hearts of the people who recalled his unselfish and sincere devotion to duty his sympathy and manifold kindness in sickness and trouble and few homes in the congregation had not been directly or indirectly touched during his ministry and the fact that the happy relations were about to be severed brought tears to many eyes.

A. B. Burrows, secretary of the Pastoral Relations Committee, which had been formed to assist in getting in touch with ministers who might consider assuming the pastorate of Regent Street Church, spoke of the Rev. W. R. Archer of Havelock who is assuming the position next summer.

The invitation of the official Board of the Regent Street United Church was then given the unanimous endorsation of the congregation on motion of Messrs. A. E. Higgins and Nathan Payne.

A vote of thanks was extended to the orchestra for the assistance in the program.

New Antarctic Land Found By Norwegians

OSLO, Norway, Feb. 17.—(AP).—New land has been discovered in the Antarctic by the Norwegian Whaler Torlyn, which has been operating in connection with a Norwegian Antarctic epedition, the whaler reported in a wireless message yesterday.

The new land, the message said, is a continuation of McRobertson Land which Sir Douglas Mawson discovered last year, and lies between latitude 68 degrees 50 minutes south, longitude 71 degrees east, and latitude 68 degrees 10 minutes south and longtiude 65 degrees east.

To End RESTLESS, TOSSING SLEEPLESS NIGHTS

FRAYED and jangled nerves . . . nights of restless tossing and miserable wakefulness . . . fitful dozing crowded with anxious thoughts . . . awake at or before dawn and no more sleep till rising hour . . . mornings of listless weariness, forcing yourself to the daily tasks—no mere sedative can correct these conditions. You need Ovaltine, a tonic food beverage for nerves, body and brain.

Ovaltine—"The World's Best Night Cap"

Ovaltine corrects the causes of sleeplessness—feeds the worn-out nerves and fatigued body-cells. Many thousands of sufferers have ended the health-breaking strain of sleeplessness through the use of Ovaltine. One cup, just before retiring, immediately allays any digestive unrest that may be keeping you restless and awake, soothes and feeds the nerves, and allows the overly-alert brain to relax. Deep restful sleep follows quickly and naturally.

"Ovaltine" is a highly concentrated extraction of ripe barley malt, rich creamy milk and fresh eggs from our own and specially selected farms. There is no food beverage so rich in nerve restoring nourishment as delicious "Ovaltine"—none which contains so abundantly the food elements necessary to replace lost energy and vitality. For ensuring sound natural sleep and maintaining vigorous health "Ovaltine" stands supreme in every country in the World.

Do not mistake ordinary malt and cocoa flavored beverages for Ovaltine, or expect them to have the same beneficial effect upon your system. Ovaltine is the original and supreme Tonic Food Beverage. There is no satisfactory substitute for it.

Ovaltine is widely used in hospitals and nursing homes, not only for sleeplessness but for building up the health and strength of convalescents, for expectant and nursing mothers, and for aged folk who need extra nourishment. It is also widely used as a family beverage where there are growing children—at meals, between meals and at bedtime.

OVALTINE RUSKS
For firm teeth and healthy gums eat Ovaltine Rusks. They combine Canadian wheat flour and Ovaltine granules, and offer a much higher food value than ordinary rusks or biscuits.

Ovaltine is sold at all good stores, in 50c, 75c, $1.75 and special $4.50 family size tins; also served at soda fountains.

OVALTINE
TONIC FOOD BEVERAGE
Ensures Sound, Natural Sleep

WARKWORTH COUPLE WILL BE WED FIFTY YEARS ON FEBRUARY 19TH

Mr. and Mrs. Peter D. Cockburn Have Resided in Village for 39 Years.

BOTH IN GOOD HEALTH.

WARKWORTH, Feb. 17 (Examiner Correspondence)—Mr. and Mrs. Peter D. Cockburn who are among the oldest and most respected residents of this village will on Thursday be married fifty years.

Mrs. Cockburn whose maiden name was Jane Insley and who is seventy years of age was a daughter of the late Mr. and Mrs. John T. Insley of Hastings.

Mr. Cockburn who is seventy-one years of age, was a son of the late Mr. and Mrs. George Cockburn of Colborne.

The marriage took place at the Manse, Warkworth, February 19, 1881, Rev. Donald Sutherland officiating.

The first eleven years after their marriage they resided in Colborne after which they moved to this village where they have spent thirty-nine years. They have one son George of this village and one grandchild.

Mr. and Mrs. Cockburn are both enjoying good health.

PLAY PRESENTED MILLBROOK HALL

Dramatic Club of Presbyterian Sunday School Pleases Large Audience.

WITH "PEG O' MY HEART"

MILLBROOK, Feb. 17 (Examiner Correspondence)—A very attractive stage setting was arranged for the fascinating royalty play, "Peg o' My Heart," presented before a large audience in the Town Hall, Millbrook, on Friday, February 13, what is usually considered an unlucky combination of day and date apparently bringing only good fortune to the Dramatic Club of the Presbyterian Sunday School, Centreville, who won a high degree of popularity with their capable acting in the several roles of the caste.

The play was presented under the personal direction of Mrs. W. McKee Bingham, Miss Grace Johnston presiding at the piano throughout the evening, and accompanying her brother, Mr. Wilfrid Johnston, with his well-rendered violin solos between the acts.

The story centres round the coming of Peg (Dorothy Hall), whose real name is Margaret O'Connell, to the home of her aunt, Mrs. Chichester (Alice Berry), the latter, with her son Alaric (Charlie Anderson), and her daughter, Ethel (Iva Campbell), only consenting to the arrangement because they need the money paid for the training the cultured aunt was supposed to give her niece, Gifford's Bank in which the English lady had placed all her money, having closed its doors.

Peg arrived from New York, carrying her pet dog, Michael, under her arm, her other belongings in a bag and a bundle, and looking a very attractive Irish lassie (she was born in Ireland and had lived but two months in the American city), with her short serge dress, trimmed with bright plaid, and her round hat tied beneath her chin with an emerald green ribbon. Her uncle's solicitor, Montgomery Hawks (Lemuel Pamment) accompanied Peg, and explained to Mrs. Chichester, who looked her part to perfection and carried it through with dignity and clever portrayal throughout, the wishes of her deceased brother, Nathaniel Kingsworth, in regard to his, and her niece, promising one thousand pounds a year for her proper care and training.

Lovely clothes, and a lovely home, meant anything but happiness to Peg, who was misunderstood and wrongly treated by her relatives, and homesick for her father with whom she had been the greatest of chums ever since her mother's death when she was quite young. Had it not been for the friendship of Jerry, (Archie Deyell) who really was Sir Gerald Adair, whom she meets when a very realistic thunderstorm is in progress, and who proposes to her and is accepted in the last act of the play when again the thunder is rolling and the lightning coming in frequent and vivid flashes, she would not have remained in her aristocratic aunt's home.

Even Jarvis, the butler (Harry Larmer) and Bennet, the maid, (Margaret Larmer), were amused with Peg's clothes and antics, her cousin Alaric, made fun of her, and Ethel hated her. Yet of the high lights of the play is Peg's saving her cousin Ethel from eloping with a married man, Christian Brent (Donald Rutherford), as she was stealing down the staircase to meet him at midnight. After that Ethel was her firm friend. The proposal of Alaric to Peg, in order to keep her money in the family, was another ridiculous situation, especially as immediately after her saucy refusal, the solicitor, Mr. Hawkes, also offers his hand in marriage as a way out of the difficulty in which the heroine finds herself, Peg's emphatic intimation that she is not a 'solution' being particularly funny.

In the end all the tangles are straightened out, and the truth of the couplet is demonstrated, as Peg aptly says: "There's nothing half so sweet in life as love's young dream."

The lighting effects were especially well arranged on Friday evening, not only for the sunlight on the water when the scene opens on a sunny morning in June; but also for the moonlight, particularly on the night when Peg steals out to a dance wth Jerry, against her aunt's orders, and comes home to find Ethel on the way to wrecking her life by running off with Brent, the latter's sudden appearance at midnight ready for a journey giving Peg her clue to what was afoot. The scene with the aunt immediately following, when Peg takes all the blame and diverts suspicion from her cousin, kept the audience breathless, and led up to the final climax of the intriguing story.

BETTER ROADS FOR TOURIST RESORTS

Katchacoma Lake and Gooderham Districts Provide Trading Area for City.

The residents of the Katchacoma Lake and Gooderham village districts have been petitioning the Peterborough Chamber of Commerce for better roads leading from this city for the past four or five years. These communities are popular summer resorts with many of the business men of Peterborough, and provide a good trading area for the city.

In a communication from the Deputy Minister of Northern Development it was learned that in 1929 the sum of $816.85, and in the following year $1,001.15 had been expended on the improvement of these "colonization roads." It is therefore expected that T. P. Lancaster, M.L.A., will soon announce a further grant for this purpose for the year 1931.

Japan expects business to greatly improve this year.

—Main Floor, Hsfg. Bldg.

Hand Embroidered Bridge Shades
New tailored style shades, neatly finished with decorative hand embroidering. Shades of sand, rose and green. Each 6.50
—Main Floor, Hsfg. Bldg.

CANADIAN DEPARTMENT STORES LIMITED

MILDRED McCOLL READS ADDRESS

Mrs. George Anderson Hostess to Members of Wooler Women's Institute.

AT VALENTINE MEETING.

WOOLER, Feb. 17 (Examiner Correspondence.)—Mrs. George Anderson was hostess to the members of the Women's Institute for the regular meeting in honor of St. Valentine's Day, when Mildred McCall gave a splendid address on "St. Valentine's Day."

The house was prettily decorated with red hearts, festooned in the archways and hall.

The president, Mrs. Maynard Sharpe, presided for the meeting and a full report was given by the secretary-treasurer, Mrs. J. J. Way. The library committee discussed ways and means of raising money to buy new books and to increase the membership. Mrs. W. A. McColl, convenor of the program committee, passed around old photographs, many of which the identity was guesses while others afforded much amusement.

St. Valentine's Day

Mildred McColl, in giving the talk for the afternoon, said, "Valentine's Day was abbreviated in England, Scotland and in different parts of the continent by a very peculiar and amusing custom. On the eve of St. Valentine, a number of young maidens and batchelors of their acquaintances threw the names in receptacles and the person drawn became one's valentine. The imaginary engagements as may readily be supposed, often led to real ones because one necessary consequence of them was that for a whole year a bachelor remained bound to the service of his valentine.

"The connection of the custom of sending valentines as today is purely accidental. In the legends of the different saints of that name records show no trace of the practice.

Another authority says that Valentine was a poor monk who lived ina monastery with a number of other monks but could not do great things such as his brothers were doing. One day he heard a voice saying, 'Do the little things, Valentine; do the little things, for therein lies true greatness.' And so it happened that Valentine, who was always doing little deeds for the love to help others, decided to do more than ever. When he died everyone mourned because they felt they had lost a very dear friend and helper, so a day was set apart in his honor. Some say it was the date of his birth, while others say it was the date of his death.

"Valentine's Day is a poor time to send those so-called joke valentines usually ugly and insulting things full of slams on our peculiarities, which hurt. Let us take care to retain the best part of this spirit of friendship and brotherly love of St. Valentine's Day."

An exciting contest of buttonhole-making was held for ten minutes with the prize going to Mrs. Percy Gooding, judges being Mrs. H. Richards and Mrs. Roy Putman. Lunch was served by the social committee following the meeting.

FILMDOM AND SOCIETY DISPLAY LATEST FASHIONS

A smart frock exemplifying unique cuff formation i sworn in (1) by Miss Doretta Sayers, young Larchmount society girl, who has just recently been selected from hundreds of applicants for movie contracts although having had no previous screen or stage experience. (2) Several sketches by Marie Marot showing the diversity of hat styles now available: the first suitable for wear with dark red velvet and black Persian lamb, the second of white embroidered velvet with a black velvet band; third, a black toque with turned-up brim caught with black grosgrain ribbon. (3) Shows Claudette Colbert's choice for evening; a gown of white satin trimmed with wide band of fur at the bottom.

NEALE IS GUEST OF ROTARY CLUB

Motoring in England is Theme of Interesting Address.

ROAD SURFACE GOOD.

CAMPBELLFORD, Feb. 17. (By Examiner Staff Correspondent). — Featuring the weekly luncheon of the Campbellford Rotary Club, held on Monday in the St. Lawrence Hotel, here S. H. Neale was the speaker for the occasion, giving an interesting address on "Motoring in England," a sequel to the talk he gave to the Rotary Club some weeks ago on his trip to the Old Land last summer. The president, H. N. Carr occupied the chair.

Mr. Neale in his opening remarks stated that in England all makes of cars are to be seen on the roads, many of which are not seen in this country. Some are larger than Canadian cars while on the other hand there are many that are smaller.

Many Transportation Busses

The speaker went on to state that the English roads are filled with large transportation buses which travel at a high speed and are perfectly equipped. These run out of London in all directions This complete bus service has brought to its own the old coaching inns which were nearly forced out of business through the advent of the railways, the buses making scheduled stops at these hotels for meals.

One of the best types of small cars on the English roads, the speaker claimed was the Singer, this being a very neat and perfectly controlled machine. Speaking or the popularity of the small car in England Mr. Neale stated that this was due to the fact that the tax is regulated by horse power.

The English roads in the speaker's opinion were very good, being all surfaced and in good condition. The road engineering was not so good however, grading being bad and the banking of curves poor. One feature of the road system that was very accepted was the by-pass road this being a road joining the main highway at the outskirts of the cities enabling the motorists to proceed on their journey without going through the cities themselves.

Every motorist is a member of the R.A.C. or the A.A.U., these associations being a material benefit to the travellers. Although the fees are high, they cover insurance, lawyers' fee in case of any civil action and the service of a complete squad of road scouts who are at the command of the motorist. These scouts, who are ex-service men and uniformed, patrol the roads and regulate traffic and are at the service of the motorist in case of road break downs and repairs. Mr. Neale also stated that there is a greater co-operation between the motorist and the pedestrian in England than in this country.

FRUIT SUPPLY FOR CANADA

NASSAU, Bahamas, Feb. 16 (C.P.) —That the Bahama Islands can be to Canada what the Canary Islands are to Northern Europe—a source of supply for winter fruits and vegetables—was stressed here to-day at the opening of a five-day agricultural conference, the first to be held in this British West Indian Colony.

Warsaw

Mrs. James Hawthorne entertained her neighbors at a quilting on Wednesday afternoon.

Mr. and Mrs. Henry Batten entertained the United Church choir at their home on Thursday evening. The memners of the male voice quartette had a good practice, as well as the choir.

The executive of the United Church W.M.S. met at the parsonage on Wednesday evening to plan for the Rally Day, which will be the first Thursday afternoon of March.

The World's Day of Prayer will be held in the Sunday school room of the United Church on Friday afternoon, February 20th. Ladies of the Presbyterian and United Church W.M.S. societies will have charge of the service.

All women, of any denomination whether members of any W.M.S. or not are invited to attend.

The first of these services in Warsaw was in the Anglican Church. Last year it was in the Presbyterian Church.

The Presbyterian Young People are practising a play "Wild Ginger."

The school children had a valentine party after recess on Friday afternoon. Junior and senior rooms were together, and all sang "O, Canada." Helen Williams read "The Story of St. Valentine." Miles Payne recited "The Frosted Valentine". Edna Payne gave a reading. There was a "Jack" contest, a mail box from which each child received at least one valentine, and some a great many, then a little feast of candy.

Mr. and Mrs. Henry Little opened their house on Wednesday evening, in aid of the Zion Willing Workers for a Valentine Party. There were about forty present. The evening was spent in contests and stunts, at which all had a very good time. Lunch was served by the ladies.

The rain on Friday forenoon was welcome, as many of the wells and cisterns were low, if not quite dry.

A chicken-hawk was seen north of the village on Wednesday.

That Body of Yours

By James W. Barton, M.D.

IS YOUR CHILD BROAD OR SLENDER

I have spoken before about the two types of physique, the slender or greyhound type, and the broad or bull-dog type.

Dr. E. Schlesinger, Munich, ahs been investigating these types in young persons between the ages of 9 and 18. He examined more than 2000 boys and girls. This examination, besides the usual medical examination, included measurements of the strength of the body, of lung and heart power, and so forth.

What did he find

That among the slender types there was more tendency to nervous ailments, and more muscular weakness, resulting in poor carriage or posture of the body This poor posture made them more likely to have less strength of heart, lungs, and digestive ability.

The broad type showed a decided physical superiority over the slender, showing greater muscular power, and greater strength of heart ad lungs—a better vital capacity.

It was shown, that in the broadly built types, the circumference of the chest and the weight were greater in proportion to the body height than in the slender type, and undernourishment and underdevelopment were less frequent.

Now this would seem to show that broadly built persons are naturally stronger than the slender ones, and I believe this to be true from my own observations. However, anyone who has seen Dempsey, the ex-champion heavyweight boxer, must admit that the slender, greyhound type can have plenty of strength, speed, and endurance, for he is an excellent example of this slender type.

What is my point?

That parents, whose children are of the slender type should see that they get plenty of good nourishing food, are outdoors a great deal of the time, and that they learn to play all the games in their season.

What will this mean?

That in this way, the natural tendency to nervousness, to indigestion from a small stomach and a short small intestine with its small absorbing surface, to possible lung trouble from narrow drooping shoulders and narrow chest, will be overcome, and the youngster will not only increase his nervous energy, which, according to Dr. Schlesinger is usually below the average in these slender boys and girls.

All parents should encourage their children to play whether they are broad or slender.

APSLEY COUPLE 34 YEARS WED

Mr. and Mrs. William Earnshaw Attend Church on Sunday Where They Were Wed.

PLANE VISITS VILLAGE

APSLEY, Feb. 17. (Examiner Correspondence)—Mr. and Mrs. William Earnshaw celebrated the thirty-fourth anniversary of their wedding on Sunday last, and drove to the little church of St. Stephens, Chandos where they were named in 1897. They have had fourteen children, of whom eight are living. Mr. and Mrs. Earnshaw have nine grandchildren. They have the best wishes of a host of friends for continued happiness and prosperity.

Great excitement prevailed in the village on Sunday afternoon when George Stephens gained the distinction of being the first man to land in Apsley in an aeroplane. He flew from Peterborough with Mr. Millar and made a landing on Wolf Lake. Several of the residents took a "fly" during the afternoon and seemed to enjoy the experience.

Successful Program At Bean Supper Social

OMEMEE, Feb. 17 (Examiner Correspondence)—The Mission Band of Trinity United Church held a hot bean supper on Friday evening and the leaders, Mrs. Blanchard, Mrs. Blewett and Mrs. Morcombe assisted by the Rev. Mr. Blanchard spared no effort in making this an eventful evening.

The Sunday School room looked very pretty with red streamers, hearts and evergreen decorations. The small tables with the lighted candles, daffodils and little holders with red hearts shaped candles presented a very charming appearance.

During the evening musical numbers were given by six girls of the Band, vocal solos by Doreen Morcombe, and piano numbers by Miss Race and Mrs. C. R. Cornell.

Y.P.S. Meets

At the weekly meeting of the Young People's Society of Trinity Church F. G. Sandy gave a very inspiring address on missions. The meeting was in charge of the Missionary Department, Miss Race presiding.

KEENE

Mr. and Mrs. James Nelson arrived home on Thursday from a trip to California.

Be Fair to Your Favorite Recipe *use* SAXON FLOUR

You cannot expect uniformly satisfactory baking results with a flour that varies in baking qualities.

When you use Saxon Flour you know that all your pastry recipes will give better baking results. Saxon Flour is always uniform in quality and milled to exceeding fineness from specially selected Ontario soft wheat.

You will be surprised at the difference Saxon Flour makes . . . pies, delicious and flaky-crisp; even-textured cakes, light and delicate. All your recipes will taste better.

Your best baking efforts deserve the best flour. Order a sack of Saxon Flour from your grocer today. Most grocers sell Saxon Flour. If yours doesn't, don't accept any other flour. Let us know and we will see that you are supplied.

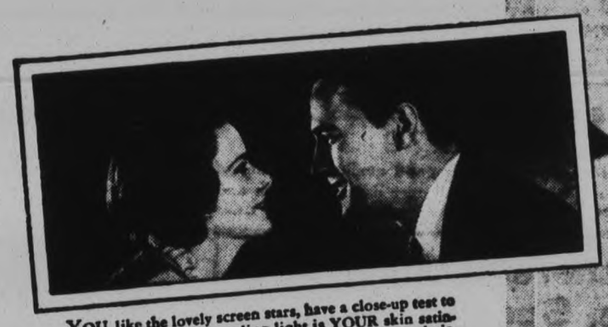
The Secret of the CLOSE-UP COMPLEXION *every Girl wants...*



YOU, like the lovely screen stars, have a close-up test to pass! In a flood of revealing light is YOUR skin satin-smooth, softly clear? Is it alluringly lovely to close admiring eyes? It can be. You can use the safe, gentle beauty care that has swept across the world from Hollywood to Europe! You can guard YOUR complexion with Lux Toilet Soap.

JOAN CRAWFORD, M. G. M. star, is never more irresistible than when the revealing close-up brings her radiant beauty near. "Lux Toilet Soap is wonderful for the skin," she says

To win the Heart of Millions . . or of One . . Smooth Skin is the Greatest Charm a Girl can have, *says Hollywood*—

NOTHING charms so surely as the close-up, 45 Hollywood directors declare. The radiant loveliness brought so near wins hearts irresistibly.

But only exquisite skin can pass the close-up test! Not even the tiniest flaw must be revealed in the searching blaze of light. So the lovely stars guard skin beauty above all else.

Have YOU, too, the power to attract that only clear, smooth skin can give?

The screen stars know a simple way to complexion beauty! Regular care with Lux Toilet Soap, they will tell you, keeps the skin temptingly smooth and soft.

Of the 521 important actresses in Hollywood, 511 are devoted to this fragrant white soap! It is the official soap in *all* the great film studios.

On Broadway, too, and in Europe, the stars famous for their charm depend on Lux Toilet Soap for safe, gentle skin care.

KAY FRANCIS, delightful Paramount star: "I always use Lux Toilet Soap."

DOROTHY MACKAILL, charming star: "The safest beauty care I know."

A charming Valentine tea was held at the home of Mrs. J. E. J. Millyard, Water Street, on Saturday afternoon, under the auspices of the C.G.I.T. The attractive rooms were lovely with Valentine decorations and spring flowers. The guests were received by the hostess, assisted by the three group leaders, the Misses Vera Squire, Gladys Coon and Eva Outram. The tea table was lovely with a Chinese lace cloth, silver basket of red tulips, paper-white narcissus and ferns, with red candles in silver candle holders. Tea was poured by Mrs. Charles H. Coon and Mrs. T. Squire, and tea-room assistants were the members of the C.G.I.T., dressed in their uniform. A pleasing program consisted of vocal solos by Miss Phylis Rome, accompanied by Miss Ruth Millyard; piano solos by Miss Olive Rowe; violin solos by Dorothy Cunningham, and readings by Ruth McNeely.

• • •

One of the most enjoyable dances held this season under the auspices of the Caledonian Club took place last Friday night in the Woodmen of the World Hall. A large gathering of members with their friends attended and the entertainment was in the nature of a Valentine Dance. It was run by a ladies' committee, composed of Mesdames J. Reid, F. Castle, R. Hendry, J. Wyllie, W. Petrie, R. Gilmour, A. Jackson and Miss B. Kinney. A program of novelty, old tyne and modern dances was arranged by Mr. A. Jackson, who also acted as master of ceremonies. Music was supplied by Mr. A. Milne (traps) and Mr. R. Gilmour (melodeon). Mr. A. Milne also played the bagpipes for the reels. The hall was gaily decorated for the occasion with red and white streamers and Valentine novelties. A series of red, blue and yellow spotlights were run by Mr. T. Kieran, which added much to the attractiveness of the dancing. Prizes for novelty dances were won by the following: Mrs. G. Moffat and Mr. A. Jackson (spot dance), Mr. and Mrs. D. Anderson (marathon waltz). A lucky door prize was won by Mrs. J. Cumming. At eleven-thirty the ladies' executive served a dainty luncheon, after which dancing was continued till the wee sma' hours. The following attended: Mr. and Mrs. D. Anderson, Mr. and Mrs. A. Milne, Mr. and Mrs. F. Castle, Mr. and Mrs. A. Anderson, Mr. and Mrs. W. Petrie, Mr. and Mrs. R. Gilmour, Mr. and Mrs. J. Wyllie, Mr. and Mrs. A. Jackson, Mr. and Mrs. R. Clyde, Mr. and Mrs. A. Stevenson, Mr. and Mrs. J. Cumming, Mr. and Mrs. W. Howes, Mesdames R. Hendry, J. Reid, E. Kieran, G. Moffat, J. Grant, B. Hemphill, J. Brown, R. Higgins, Donaldson, R. French, H. Kinney, A. Duthie, Lister, E. Sugden, Misses M. Wyllie, G. Smith, J. Gilmour, B. Gilmour, M. Grant, G. Donaldson, I. Donaldson, F. Agnew, J. Beggs, M. Phillips, J. Galbraith, D. Grant, L. Grant, S. Cumming, A. Sloan, M. Stevenson, B. Kinney, I. Duthie, M. Duthie, C. Steven, M. Thompson, A. Rae, J. Pattison, E. Smith, Messrs. D. Best, J. Donaldson, T. Kieran, R. Welsh, J. Blair, W. Dunlop, J. Liddell, R. Graham, J. Clyde, H. Clyde, R. Findley, R. Murphy, J. Hemphill, D. Grant, G. Clyde, R. Clyde, W. Dougall, E. Anderson, A. Anderson, A. Clyde, G. Low, W. Petrie, Jr., A. Burgess, S. Massie, T. Lister, A. McPhate, J. Logan, W. McCracken, A. Watson, A. Clark, W. Waddell, J. McTeague, J. Porter.

• • •

Mrs. G. B. Hutchings of Toronto is the guest of her sister, Mrs. F. L. Roy, Rubidge Street.

• • •

Little Mary Nelson of 605 Rubidge Street entertained eight of her small friends at her home at a jolly birthday party this week, when the evening was pleasantly spent in the enjoyment of music and games, followed by the service of dainty refreshments. Decorations were in the red and white of St. Valentine's season. Those present were Patsy O'Carrol, Jean Reid, Gloria Luch, Frank Vassey, Howard Reid, Betty Reid, Aileen McWilliams and Leona McWilliams.

• • •

Miss Gladys Smith of Omemee was the guest of Miss M. Wyllie, McDonnel Street, while attending the Valentine dance of the Caledonian Club.

• • •

The many friends of Mrs. J. Pirie of Romaine Street will regret to learn that she has had the misfortune to break a bone in her ankle, which will confine her to the house for some time.

• • •

Mr. Arthur Phillips of 319 Reid street, son of Mr. T. Phillips, organist, has just received results of exams held at the Technical College, Brighton, England, in May last. Being articled pupil to F. Andrews, Esq., F.R.I.B., architect and surveyor, he sat for building construction and building mathematics and has received a first and a second class certificate. He now holds two first class and two second class certificates. His success is more conspicuous by the fact of his being the youngest student in the college sitting for these subjects.

• • •

Mrs. Harvey Staunton and daughter Betty, 854 George street, returned home yesterday from Toronto, where they visited the former's husband, who underwent an operation in Christie Street Hospital last week.

• • •

Miss N. Corely, B.A., and Miss Helen MacNaughton, R.N., of Norwood, spent the week-end with Miss Vida MacNaughton of Otonabee.

• • •

• • •

Mr. G. S. Parlour of Montreal was in the city yesterday for the funeral of the late Mr. P. L. Allison.

• • •

Miss Ellen Best, R.N., of Port Arthur, is the guest of her aunts, Mrs. M. J. Watters and Mrs. W. J. Young, at the Grand Hotel, and is nursing Mr. Best, Senior, who is ill.

• • •

Miss Hilda Sullivan, Gilmour street entertained her friends at tea at her home, on Saturday afternoon. She was assisted in receiving by her mother, Mrs. J. E. Sullivan. Tea was poured by Mrs. J. R. Corkery and Miss May Donoghue cut the ices. Assistants were Miss Helen Archambault, Miss Peggy Roche, Miss Veronica Scollard and Miss Madeline Henry and little Vivian Sullivan made a charming door attendant. The rooms were arranged with spring flowers and the table was very attractive with a lace cloth and a mirror reflector holding a silver basket filled with red tulips, its handle tied by red tulle in a large bow. There were little red ribbons depending from the chandelier with a shower of cupids, and lighted red candles were in silver candelabra.

• • •

Mr. R. M. MacNaughton, M.A., of the staff of the Malvern Collegiate Institute, Toronto, was a week-end guest at his home in Otonabee.

• • •

Master George Henry Crofts of St. James street celebrated his fourth birthday anniversary on Sunday, St. Valentine's Day.

• • •

"In appreciation of loving and faithful service" was the inscription on the card which accompanied the gift of a handsome handbag to Miss Bella King, by her associate members of the choir of St. Andrew's Church, at a recent meeting, when Miss King was honored in this way. Mr. J. Johnson, the president of the choir, made the presentation, accompanied by a suitable brief address and the gift was appropriately acknowledged.

• • •

The many friends of Mr. Harvey Staunton of George street, who underwent an operation in Christie Street Hospital, Toronto, on Thursday last, will be pleased to learn that the operation was successful and that his condition is satisfactory.

• • •

To-night is the big night of The Examiner Social Club's dance in the hall of the Canadian Legion. Arrangements have been made for a few tables of cards for those wishing to play. Come along and help on the good work, and have a good time as well. Mose Yokom and his orchestra will play. There will be several novelty numbers and prizes.

• • •

Mr. Walter Peters, the popular "W. P." of The Examiner's staff, is celebrating a birthday to-day. The entire Examiner establishment joins in wishing him many happy returns, and many years in which to issue his daily bulletins with regard to the fickle weather.

Miss A. Gillespie of the staff of the R. Fair Company, has returned from a business trip to Toronto.

• • •

Mr. Ed. Elliott celebrates a birthday anniversary to-day.

Mr. Eric Vincent of 252 London street, celebrated a birthday anniversary yesterday.

• • •

Mr. Gerald McFadden and Mr. J. Comstock attended the meeting of the Funeral Directors in Toronto, and the banquet at the Royal York, at which Mayor Stewart was guest of honor.

• • •

Under the auspices of the Catholic Women's League, a very successful bridge party was held last evening in Columbus Hall, Simcoe street, when forty-one tables of bridge were played. The evening was a pleasant one and concluded with a brief hour of dancing, to music furnished at the piano by Mr. Harry Hodson. The ladies in charge, with Mrs. J. R. Corkery as convenor, took a great deal of trouble to make arrangements most satisfactory. The decorations, in the Valentine manner, were most effective, the Valentine novelties being arranged by Miss Annie Simons. Rose and red, in two tones, were the prevailing colors. Across the ceiling were twisted strands of the two bright tints and the electroliers had long basket shades of the same. On the purple curtains were pinned red Valentines with lace paper frills, centered by lovely maidens' heads, while strings of red hearts, cupids and arrows festooned the walls. At the east end of the long hall was a wall screen of black and silver centered by a brilliant Valentine, heart-shaped, and there were streamers of red hearts, arrows and cupids. On the piano were two tall baskets of artificial flowers in bright tones. The heart shaped tally cards of red paper and the tiny sweetmeat boxes were also of red in the Valentine manner. The table from which refreshments were served was exceptionally pretty. A cloth of Irish Cluny lace with round edges was centered by a mirror reflector holding a pierced silver basket filled with red tulips and yellow daffodils, its handle tied by a large bow of red tulle. Tiny red ribbons stretched from the basket with hearts and cupids as a fringe. Lighted red candles were in silver candelabra at either end of the table, and silver bud vases held red tulips. Prizes for bridge were won by Miss Berenice Bacon and Mr. H. Gainey and the lucky chair prize went to Mrs. W. S. Fitzpatrick. They were donated by Mrs. J. R. Corkery, Mrs. J. E. Sullivan and Mrs. F. P. McNulty. The guests were received by the president of the League, Mrs. Myles Henry, and the convenor of the Social Committee, Mrs. W. J. Young. Mrs. T. J. Lane and Miss Annie Simons acted as treasurers. Assisting Mrs. Corkery were Mrs. J. E. Sullivan, Mrs. Myles Henry, Mrs. W. J. Young, Mrs. Frank Hickey, Mrs. J. McIntyre, Mrs. W. O'Brien, Mrs. J. K. Sheehy, Mrs. J. A. O'Brien, Mrs. George Gordon, Miss L. Hurley, Miss May Donoghue, Miss Mildred Archambault, Miss Marita Collins, Miss Marcelle McNulty, Miss May Sullivan, Miss Helen Archambault, Miss Hilda Sullivan, Miss Helen Lynch, Miss Peggy Roche. A list of the guests will appear in tomorrow's issue.

FASHION SERVICE

Paris finds chic in prints that reverse their color scheme.

Especially smart is this combination in today's snappy jacket dress in crepe silk in black and almond green tones. The upper part of the bodice in the almond green shade with black rings gives it lots of dash and youthfulness.

Imagine how stunning it will be for sports in a yellow and black tweed mixture with the upper part of the bodice in yellow jersey.

Then again plain crepe silk in purple blue with eyelet embroidered batiste will serve you admirably for street or for more formal afternoon occasions.

Styles No. 3003 may be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

Our large Fashion Book shows how to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery, etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book, 15 cents, or 10c when ordered with a pattern.

Price of pattern, 15 cents.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

The well-balanced meal is a subject that is of unfailing interest to women to-day. No matter what magazine pretaining to homemaking we pick up we find more than one article relating to the serving of properly balanced meals.

• • • • • • •

The information we receive through this source is not so definite that it hampers, or unduly restricts individual preferences.

• • • • • • •

It rather helps than hinders by such advice as milk for children and bread for all at every meal. For every day certain types of food are given such as green or yellow vegetables and fruit.

• • • • • • •

Eggs, meat, fish or poultry are named as essential two to four times a week.

• • • • • • •

There are, of course, some instances which one cannot always take some of the foods necessary for our living. For instance if a child strongly objects to taking the necessary milk, it is probable that the taste is unpleasant to him.

• • • • • • •

Try flavoring it just enough to modify the natural taste. A few drops of vanilla will please some children while mixing a little chocolate with the milk tempts others, as it not only alters the flavor but looks as well.

• • • • • • •

The serving of milk, soups and milk puddings frequently helps to fulfil the three-times a day portion of this liquid. The flavor is entirely different from pure milk alone.

• • • • • • •

Homemade cream and milk ice cream is sure to please and in it the full milk nourishment is contained.

• • • • • • •

Cheap vegetables are as nourishing as those which cost more, but if served frequently they require 'dolling up' to gratify the taste of adults as well as children.

• • • • • • •

For instance plain boiled carrots are welcome by those who find the flavor exactly to their liking. But if you dice the carrots small and season with salt, pepper and melted butter and just before sending to the table sprinkle the top with finely minced parsley, the very attractiveness and the flavor is made more interesting.

• • • • • • •

The much slandered spinach can be given a different place on the menu if sometimes it is chopped very fine, mixed with a cream sauce, highly seasoned with cheese. Sprinkle buttered bread crumbs on top and brown in the oven.

Canadian Girl Dances With Prince

DANCED WITH PRINCE IN JAMAICA

Miss Betty Gardner of Brockville, Ont., daughter of Mr. and Mrs. J. Gill Gardner, who was the Prince of Wales' partner for four dances during his recent visit to Kingston, Jamaica, on his trip south to the Argentine. Miss Gardner's father is a director of the hotel at Kingston.

BETHANY

Mr. W. A. Jakeman was a business visitor to Toronto on Thursday.

Miss Frances Fallis, of Strathcona Hospital, Toronto, is the guest of her parents.

The Women's Institute has accepted an invitation from Cavan to attend the Summer series to be held in the Community Hall.

S.S. Class Bazaar Successful Affair

KEENE, Feb. 17 (Examiner Correspondence)—"The Gillicums," Sunday School class under the leadership of Mrs. MacNeely sponsored a bazaar in the basement of the United Church recently. Gold and blue, the class colors decorated the booths and the tea rooms.

Misses Marjorie Brown, Isabel Davis and Kathleen Nelson had charge of the candy booth; Miss Mable McIntyre, Misses Jean McIntyre, Wilena Hope, Eva Taylor, Jean Elmhirst and Olive McNevan, the fancy work booth; and the tea room hostess was Miss Dorothy Chapman, assisted by Misses Bertha Elmhirst, Helen Weir, Edith Nelson and Mary Hastie.

The musical program was in charge of Miss Jean Knowles, Miss Minnie Edwards and Miss Dorothy Kindred.

FILM STARS WED.

BEVERLY HILLS, Cal., Feb. 17. — Arnold McLaglen, film actor and brother of Victor McLaglen, featured player, and Marian Lord, stage and screen actress, were married last night at the home of Mr. and Mrs. Anthony Coldeway.

Victor McLaglen acted as best man and Mrs. Coldeway was matron of honor. Clifford McLaglen, another brother, and his wife, who arrived from the east, were in attendance.

Japan has three times as many automobiles as in 1925.

ONLY EDUCATION STATION IN CANADA BRINGS PRAISE

Acadia University Station in Nova Scotia Flourishing After 2 Years.

OPERAS AND LECTURES

(Special to the Examiner. Copyright, 1931.)

WOLFVILLE, N. S., Feb. 17 — The first day of April, 1931, will mark the second anniversary of the opening of the radio station in Canada devoted exclusively to educational features. The station is CKIC, at Wolfville, Nova Scotia, and is owned and operated by Acadia University. Every afternoon and evening this station "goes on the air," and sends out to its rapidly growing group of listeners such operas as Carmen, Aida, La Traviata, in their completeness; such oratorios as The Messiah, Elijah, The Crucifixion; and besides, regular daily talks along cultural lines, delivered by members of the faculty of the University.

Dr. F. W. Patterson, president of the university, long ago realized that through the medium of the radio multitudes who never have had the chance to attend a university, or listen to the music of the masters, might be brought to an appreciation of such works. He also realized that commercial broadcasting, as such, was unlikely to perform this service, and as one of the foremost educators in the Dominion, he felt that the first step in this line should be taken by the universities.

Thus, on April 1st, 1929, station CKIC of Acadia University, sent its first broadcast over the ether. There were no breaks in its programme for advertisements, and the music presented was the best the world had to offer. Popularity of this broadcast grew and grew, until, a few months later, Dr. Patterson was able, through the co-operation of the newspapers, to enter upon a new phase of broadcasting. Through the provincial press outlines of courses in Economics, Psychology, Ehglish Language and Literature, Biblical History, and Current History, with text-book references, were announced. Shortly afterward, different members of the faculty of the university gave lectures on the above subjects, following the outlines given through the press. The appeal of this to the audience of CKIC was such that at the present time two and sometimes three lectures have to be crowded in one afternoon's broadcast.

When questioned as to the results, he thought had been accomplished through Acadia's broadcast, Dr. Patterson declined to commit himself. "It is difficult to evaluate the results of education through radio," he said. "The majority who benefit do not communicate with the station. The programmes that are put on are not intended to make a popular appeal; they are intended to appeal to those who are sensitive to the finer intellectual and aesthetic values, and to make some contribution to the development of appreciation. There are many indications that a growing number of people welcome the service the station has been able to offer."

As pioneers in radio education in Canada, the faculty of Acadian University, and Dr. Patterson, who is programme director for the station, stand at the very head of the list.

FRASERVILLE.

The L.O.L. No. 46 held a very successful dance in the Orange Hall on Thursday evening. Music was supplied by Walter Kinsman with the violin and Charles Anderson at the piano, while Leigh Hewitt and Melville Nurse called off.

Among those present were Mr. and Mrs. L. Gilmour, Mr. and Mrs. P. Moncrief, Misses E. Johnston, M. and C. Atchison, M. Brown, H. and M. Ward, E. Snelgrove, M. Atchison, M. Moncrief, I. Ward, R. Cunningham, R. Holden, V. Trotter, A. Moore, M. Henry, Messrs. S. Fry, S. Johnston, C. Larmer, Moore, R. Atchison, N. Whillan, D. Bothwell, F. Lackey, W. Moncrief, V. Colon, W. Reeves, Tabscot, R. and P. Bothwell, C. and E. Carl, A. and T. Trotter, R. Atchison, Sexsmith, H. Cunningham, M. and G. Henry, M. Nurse, M. Lawrence, W. McElroy, W. Smith, C. Wood, L. Hewitt.

Miss Evelyn McElroy remained with friends in Port Hope on Wednesday evening.

Little Eleanor Whitefield, accompanied by her grandmother, Mrs. J. Whitwhield, of Peterborough, left on Monday, for a visit with friends in New York, N.Y.

Mr. and Mrs. G. M. Moncrief and daughters, Jean and Doris, of North Monaghan, were guests on Sunday of Mr. and Mrs. Richard Moncrief.

Miss Muriel Archison, of South Monaghan, is the guest of Miss Mary Atchison.

Mr. and Mrs. John White and daughter Bernice, Mr. and Mrs. Leonard Moncrief and daughters Lenore and Ethel, of Ida, were guests on Sunday of Mr. and Mrs. William McElroy, South Monaghan.

The regular meeting of the Ladies' Aid was held on Wednesday and a special meeting is being planned for Wednesday of this week.

The men of Fraserville congregation are preparing for a concert to be presented in the Orange Hall on Friday evening when they will be assisted by some Bensfort talent.

Both Are Hale and Hearty

After a period of conventional difficulties, Jessie Matthews and Sonny Hale are married. The popular English actors are shown immediately after the marrigae ceremony, which was performed in London, England.

TRY MAGNESIA FOR INDIGESTION

People who suffer from indigestion usually have tried pepsin, charcoal, drugs and various digestive aids and got little more than slight temporary relief—sometimes not even that.

But before giving up to chronic dypepsia, just try the effect of a little Bisurated Magnesia—not the ordinary commercial carbonate, citrate or milk, but pure Bisurated Magnesia which you can obtain from practically any druggist in either powder or tablet form.

Take a teaspoonful or the powder or four tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment, and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat. You can enjoy your meals without a fear of indigestion.

St. John's Lose First Game to Oshawa Juniors 5-0

"BAD BREAKS" SPELL DEFEAT FOR LUCKLESS ST. JOHN'S IN FIRST GAME OF PLAY-DOWNS

Ice Conditions Favor Oshawa Aggregation With Their Close-checking Play.

TWO PLAYERS ILL.

Hurst Makes Smart Showing in Motor City Net—Miller Scores on Himself.

(By F. D. C.)

In a strenuous game on soft ice, a contest in which good luck simply refused to smile upon their cause, the St. John's team were beaten 5 goals to 0 at Brock street rink last night in the first fixture of their second round O.H.A. series with Oshawa.

Ken Randall's athletes were the better team, but not by a five-goal margin; they were lucky in at least three of their successful attacking plays while the Saints were equally unlucky in their failure to cash in on the scoring opportunities that came their way.

Oshawa showed a sturdy, close-checking, steady aggregation with a heavy and hard-hitting defence and with the ice conditions preventing both stickhandling and combination, their style was safe and effective. With better footing the game would undoubtedly have been a memorable exhibition; as it was the teams must be given credit for their persistent attempts to triumph over the ice conditions.

Two Players Ill

St. John's entered the game under a decided handicap with both Ellis and Howe "flu" victims. Ellis, although a decidedly sick boy managed to last the first period, but when Dr. Hewitt examined him in the rest period he found the speedy defence player had a temperature of 102 and promptly chased him home to bed. Howe was in almost as bad a condition, but although groggy he battled until the end and ploughed into every Oshawa attacker who crossed the Saints' blue line. Three or four times he had to quit through sheer exhaustion, but he was back in the game again after a minutes' rest.

The gameness shown by their captain was typical of the whole Saints' line up, who battled against odds with a determination that should have been rewarded with better results. Despite the heavy going, the fact that their defence stars were under the weather, and the two soft goals that Oshawa picked up in the first three minutes of play, the St. John's youngsters fought until the final bell and they went down battling, asking no quarter and giving none.

Gruelling Argument

It was a gruelling argument made so not only because of the ice conditions but because Referee Hedges of Toronto let the game get away from him and both teams took advantage of his laxity to interject more illegal stuff than has been seen here in many a moon. Hedges imposed eleven penalties, but more than double that number were earned, elbows and knees being used freely while chopping and hooking were favorite methods of attack. It is a long time since so much rough stuff has been crowded into one battle and it was not Referee Hedges' fault that the casualty list was not an extensive one. The teams sailed into each other with all they had and the Saints, although outweighed, did not back up an inch in the strenuous battling.

Oshawa's steadiness and the fact that they adjusted themselves to the heavy ice better than did the losers entitled them to win the verdict—although their margin of victory was larger than according to the play it had any right to be.

Hurst in the visitors' nets, looked like a smart goalie, making some great saves on close-in plays, while Lortie and Maundrell in front of him were a sturdy and hard-hitting defence pair. Lortie was not a favorite with the crowd and was booed frequently, but his checking although hard was usually legitimate. Strange to say, Maundrell, who handed out plenty of elbows and cross checks, escaped the raspberries that were so plentifully given his defence mate.

Up in front Peterson was the outstanding star, with Bradd, the right winger, a close second in effectiveness. Peterson shot nicely and had more luck in handling the puck in the slush than most of the other players. Drinkle, the shifty centre man, did not like the ice conditions and would undoubtedly be more dangerous on fast footing.

Play Hard Game

For the Saints, Miller, although he had tough luck on a couple of shots, one deflected by Jimmy Ellis and the other pulled in by the goaler himself, stopped a flock of drives—and most of them were pumped hard and true. Howe's gameness has already been referred to, while Merrett who dropped back on the defence when Ellis had to retire, gave a good account of himself going both ways. Gardner was perhaps the most effective of the front line players. He showed nice speed and stickhandling, despite the heavy going. Calladine made some smart plays, although it was not his night, while the others worked themselves into the ground. A special bouquet is due Jimmy Wilshaw, who battled in the slush with a refreshing determination.

Oshawa—Goal, Hurst; defence, D. Maundrell, Lortie; centre, Drinkle; wings, Peterson and Bradd; subs, Jackson, Graboski, C. Maundrell.

St. John's—Goal, Miller; defence, Howe, Ellis; centre, Calladine; wings, Gardner and Cuthbertson; subs, Merrett, Wilshaw, Milliken.

Referee—B. Hedges, Toronto.

The game opened rather tamely with action in mid-ice. Lortie had two shots in succession from outside the blue line and then Calladine made a dangerous rush, but his shot was easy for Hurst. Then Oshawa got their first easy one. Peterson cut loose with a long high shot from centre ice and Ellis in trying to catch the flying puck merely succeeded in deflecting it downward, Miller having no chance to save. The visitors came right back with another. Peterson's shot from outside the defence was blocked by Miller, but he lost track of the rebound, while the Saints' defence at the same time lost sight of Bradd, who calmly strolled in and pushed the puck into the net.

Nettled by these two reverses the Saints began to carry the attack to the visitors and both Ellis and Howe got away for nice rushes that ended in close-in shots. Gardner also got inside on a fast play but could not beat Hurst. Oshawa came close to increasing their lead on a Peterson-Drinkle play but Miller saved cleverly. The period ended without any further scoring.

The ice was heavier in the second period, but the players showed no tendency to slow up. Both defences were using a body-checking barrage and attackers found it tough going once they crossed the blue line, but they kept trying just the same. Gardner worked close in on a nice rush but Hurst stopped the shot. Then Oshawa collected another easy one. Bradd taking a pass from the corner drove a high shot over the net. The rubber rebounded and when Miller tried to catch it the puck slipped out of his hand and dropped into the net. Soon after Lortie made it 4 to 0 when he worked inside and drilled a bullet-like drive into the corner. Calladine retaliated with a rush that beat the Oshawa defence but Hurst flopped and smothered the shot when a goal seemed certain.

Early in the third period Gardner lost out on a similar play. Then came a string of penalties. First Calladine and Maundrell were banished together and Gardner and Bradd followed in quick succession, leaving the teams four men a side, but there was nothing doing in the scoring line. The Saints threw four men upon on the attack and kept the visitors in their own blue line for a while.

Finally, however, Peterson broke away and with only Howe to beat skated round the Saints' defence man and scored at close range. It was the last counter of the game but not the last scoring chance for the Saints failed to cash in on several nice openings. Milliken hit the side of the net from close in and both Calladine and Cuthbertson were inside and failed to beat Hurst.

Summary:

First Period.

1. Oshawa—Peterson, 2 mins.
2. Oshawa—Bradd (Peterson), 1 min.

Penalties—Lortie, Merrett.

Second Period.

3. Oshawa—Bradd (Peterson), 7 min.
4. Oshawa—Lortie, 5 min.

Penaltie—Merrett, D. Maundrell, Calladine.

Third Period.

5. Oshawa—Peterson, 10 min.

Penalties—Calladine 2, Maundrell, Gardner, Bradd, Peterson.

500 CURLERS TAKING PART IN BONSPIEL

Hundred and Forty-four Rinks Competing For Various Trophies.

NEW SYSTEM POPULAR.

Results of Local Rinks in Games Played Yesterday in Cup Events.

TORONTO, Ont., Feb. 17. (C.P.)—To anyone unfamiliar with the "roarin' game" the presence of nearly 500 curlers participating in the fourth annual Toronto bonspiel, must lead to the belief this is clean-up the city week.

Clinging tightly to their pet brooms the curling enthusiasts travelled their respective ways to the various clubs to renew the battle of shots for the five trophies offered for competition.

Nearly 200 games were scheduled yesterday. There were the usual number of upsets, tight matches and lop-sided victories, but in the main the favored rinks came through with clean-cut triumphs.

All rinks played one match in the Royal York trophy competition yesterday, the winners then played in the Ryrie-Birks, while the losers continued to dust the ice in the North American Life and Wrigley draws.

Twenty-five out-of-town rinks commenced curling with a number of local fours in the North American life this morning, while 27 visiting fours started with several Toronto rinks in the Ryrie-Birks trophy draw.

The following are results of local and district rinks:

ROYAL YORK TROPHY

GARDEN HILL WINS FROM BAILIEBORO

Bewdley and Cambourne Teams Play Scoreless Game on Saturday.

BAILIEBORO, February 17 (Examiner Correspondence). — The local hockey team lost to the Garden Hill boys on Saturday when the Garden Hill team won a 2 to 1 decision over the local team. The game was played at Garden Hill, and on account of the cold wind the brand of hockey was not fast.

The local boys only had six players present, and sorely lacked substitutes to relieve the hard worked front line. The teams lined up as follow:

Garden Hill — Goal, J. Waddell; forwards, E. Scott and H. Cantrell; centre, O. Woodley; defence, Griffith and Varcoe.

Bailieboro — Goal, I. Muspratt; forwards, J. Barnard and M. Wood; centre, A. Deyell; defence, T. Jewison and A. Brown.

R. Waddell was referee for the game.

Teams Play to a Tie.

The Bewdley boys played an airtight game of hockey against the Cambourne team on the Bewdley rink on Saturday afternoon, and at the game the score stood 0-0.

The cold wind blowing off the lake affected the players badly, and what no doubt would have been a very fast game turned out to be a game that lacked pep.

P. Sidey and R. True starred for the Bewdley team, while N. Daly and Boundy for Cambourne were outstanding men on the forward line.

J. Micks, who plays goal for Port Hope, was the referee, and kept a line on both teams.

LONDON CLUB MEETS INDIANS TO-NIGHT

Winner of International Battle Will Hold Third Place Berth.

TORONTO, Ont., Feb. 17. (CP)—Following their disastrous road-trip at the week-end which saw them defeated on successive nights, London Tecumsehs, holders of third place in the International hockey league, to-night entertain their nearest rivals for the berth, Cleveland Indians.

Only one point separates the teams and to the winner will go third place. Indications point to a rousing struggle as past clashes show the teams are evenly matched.

Should the Indians lose, as seems probable, and Pittsburgh Yellow Jackets down Detroit Olympics in the other scheduled tilt, the Smoky City entry will tie the Ohio City champions for fourth place.

ACKERS SCORES ONLY COUNTER OF THE GAME

Fast Play and Heavy Checking Features Trent Valley League Fixture.

FINAL COUNT 1-0.

Winning Goal of Game Deflected Off Flemming's Stick Into Reverse Corner of Net.

(By Examiner Staff Correspondent.)

CAMPBELLFORD, Feb. 17. — Meeting in a scheduled league game last evening at the Davidson Arena at Campbellford, the two play-off teams of the Trent Valley Hockey League for last season, fought a fight to the finish, with the result that Stirling sent the Maroons to their dressing room with a 1-0 beating.

The only tally of the game, which was made by Ackers, was a fluke goal, the puck, after it was shot, being deflected off Flemming's stick, and entering the reverse corner of the net. This count was made in the third period. The game itself was featured by many near goals for both teams; fast play and heavy checking were also featured. The first two periods were slow, the play ranging from one net to the other, although the Millers in the first session held the balance of the game.

In the second period play was more even, but did not warm up until the last seven minutes, when the Maroons crowded the Red and White's net, where the play ended. The third period was heavy and featured by the majority of penalties. After Ackers made the one count of the game the Maroons played offensive hockey and had the Stirling squad in their own area for the larger portion of the play; Ackers started an unauthorized checking and got a four minute penalty, this being given to all those sent to the fence afterwards. Ross Burt of Trenton, who refereed the game, was determined to keep it clean and handed out the medicine liberally. Stirling played a poor game the latter half of the period, their game consisting of getting the puck and clearing it, making no play at all.

Stirling Stars.

For Stirling, the Little brothers, Davis and B. Ingram played true to form, and made, as they always do, a good showing. Ingram starred in some pretty rushes from defence and was a dangerous opponent. The Campbellford squad had a new sub forward line, playing two juniors, Busche and Lambert, with Blue. This team played a fine game, and showed some real fast hockey.

Whitton and McKay on the regular forward line were more than good, and deserved to have several goals to their credit, but Morton in the Stirling net was on his job and did some splendid saving. Cowall and F. Ingram on defence played up to their usual form and made much of the play with their lone and combined rushes, keeping Morton busy, he, easily of the two goalies, receiving the greater number of shots. Sanders, however, played splendidly in the Campbellford net, and saved some difficult and fast shots.

The teams:

Stirling — Goal, Morton; defence, H. Ingram and Beattie; centre, Davis; wings, T. Little, Bud Little; subs., Ackers, White, and Day.

Campbellford — Goal, Sanders; defence, Cowall and F. Ingram; centre, Whitton; wings, McKay and Flemming; subs., Blue, Busche and Lambery.

Referee—Ross Burt, Trenton.

Summary of the Game.

First period—
No score.
Penalties, Campbellford, Whitton, Ingram.
Second period—
No score.
Penalties, Stirling, Ackers.
Third period—
Goals, Stirling, Ackers, 4 minutes.
Penalties, Campbellford, Ingram, Whitton. Stirling, Davis, Ackers, Bud Little, Ingram.

Maroons Open Play.

The first period opened with a Campbellford attack. Flemming taking the puck down the ice and shooting. This was returned by Beattie, the play then ranging between the two defence lines, with rushes by the two Ingrams, Cowall, and Beattie, until Stirling's net was crowded by the Maroons. Ingram cleared this mess for the Red and Whites, but failed to pass Whitton, who carried the play again in the visitors' area. Davis got them out of this jam, but came up against Cowall who drove through the Stirling defence and made a pretty shot, swinging a second from the rebound, but to no effect. Beattie and Bud Little broke away from this mix-up, carrying the puck down the house and invading the Maroons' front door, but Cowall broke away with the rubber and staged another scrum in the Stirling area. Whitton and McKay shooting from passes, but being unable to count. Whitton was fenced for tripping, but despite Ackers' and Beattie's rushes the game still remained a scoreless tie.

F. Ingram went on the fence five minutes before the gong sounded, but though the Red and Whites crowded the Campbellford net, no count was made.

The second period was very much the same as the first, the game remaining slow until the later part of the session. Ackers was put in the box for tripping Cowall when he had the puck and a clear net to shoot into, this pepping up the game some. Whitton and McKay played well up to form this session, as did Cowall and F. Ingram, displaying some good combination. The subbing line did splendid work. Busche and Lambert showing some fast play with Blue as ever, up to the game and passing the Stirling line often.

F. Ingram was penalized one minute after play started in the third period for body checking Bud Little when play was in the Campbellford area. This was followed one minute later by Davis being put on the fence for tripping Whitton. Ackers making the one and only tally four minutes after the session started from a shot from center ice that would have been easily saved by Sanders had not Flemming reached for it with his stick, the puck deflecting from it and entering the reverse corner of the net to which it was aimed.

From this point on the play became very heavy, checking being the order of the day, with the Millers round the Stirling net, where they remained for the rest of the season. The only thing that stopped the visitors from going to defeat was the splendid play of Morton in their nets. Ingram of Campbellford was again fenced, this being followed by a four minute stretch being handed out to Ackers for tripping Cowall. From then on all penalties were for the same length of time. These went to H. Ingram, Bud Little, F. Ingram and Davis. Stirlings play fizzled out in the last half of this session, their game consisting of gaining possession of the puck and clearing the house to save time and keep the entertainers away from their net so that they could keep the one goal lead. This they were able to do, the game ending in a 1-0 victory for them.

JUNIOR GAMES REAL THRILLERS IN LAKEFIELD

Colts Defeat The Grove Four Goals to Two in Morning Opener.

CAMPBELLFORD WINS

Pirates of Peterborough and The Grove Battle to a Three-All Decision.

LAKEFIELD, February 17 (Examiner Correspondence). — Saturday was hockey day in Lakefield in the junior circles, as three games were planned, one in the morning and two in the afternoon. All were fine fast games, clean and pleasant to see, as there was lots of action and no foul play or attempt to have any.

Grove vs. Colts.

A very exciting game was played in the morning in the Juvenile League between The Grove No. 2 team and the Colts. The teams were well matched in size, weight, speed, and skill and the spectators were rewarded with a real game. The youngsters are good material for recruiting the junior ranks and are enjoying immensely their own league. The final score was 4-2 in favor of the Colts.

Macrae, who was playing goal, an unusual role for him, put up a good game and successfully stopped many hot shots, while Loyst, who had not been up to his best form recently, was on his toes and played a remarkably good game. Dench, the Grove centre, was as usual full of ginger, and never lost a chance; his stick-handling was excellent and his play consistent. Carson was a tower of strength and Magill also played a fine game.

The Colts were nearly all at their best, Blewett and Vivian Payne were vigilant defence men, playing a very strong game, the latter being spectacular in his rushes. Chittick and his wings, Chappell and Percy Payne, were also to be reckoned with, and their combination play showed decided improvement. The second forward line, Lennox, Hill, and Tanner, also did well, although Tanner was a bit inclined to lag. The referee, T. J. Wood, was inclined to leniency. Atwood of the Grove scored the first goal, which was soon reciprocated when Blewett in a solo rush planted one behind Macrae, making the score 1-1 at the end of the first period.

The Colts scored twice in the second, Blewett and Percy Payne each taking one, and the Grove failed to secure a break.

In the third Dench found Loyst off his guard temporarily and scored, and just at the tag end of the game Vivian Payne shot a winner past Macrae's guard. The game was one of the best junior games played and the sportsmanship and team work made it well worth while. The line-ups were as follows:

The Grove — Goal, Macrae; right defence, Carson ii; left defence, Atwood; centre, Dench; right wing, Magill; left wing, Fletcher; subs., Macdonald and Carter.

Colts — Goal, Loyst; right defence, Blewett; left defence, V. Payne; centre, Chittick; right wing, Chappell; left wing, P. Payne; subs., Hill, Tanner and Lennox.

Campbellford vs. Lakefield.

The Campbellford Public School hockey team played the Lakefield Public School team at two o'clock. The game was a fast, clean exhibition of hockey, with Louis Sabatino handling the bell. The score was 5-4 for the visitors, who made a good impression on the fans. The local team was tired after a very strenuous game just before dinner, but nevertheless they played a plucky game and fought bravely through till the final gong sounded.

The Campbellford goalie, Arthur was an asset to his team, and stopped some wicked shots, for the Lakefield boys bombarded his citadel, but he was always on the job. Loyst for the locals was vigilant and played in his best form. Lawrie of the Campbellford defence was quite outstanding and played practically all through without being subbed. Runions and Mac Arthur were also worthy of special mention. For the locals all did well with Blewett, Hill, Lennox and Chappel perhaps excelling. Vivian Payne played well also, but was obviously tired out in the last period. The second forward line was effective, but Hunter was too light for the opposing team. The boys played a strong combination, and the fans were proud of their showing. Vivian Payne scored the first goal, and Joe Blewett, still following in his dad's footsteps, scored twice in the first period, which was all for Lakefield. Campbellford grabbed all the honors and goals of the second when Runions, Lambert and Mac Arthur scored one each, and between them Runions and Mac Arthur scored a fourth goal.

Honors were equally divided in the last period when Lambert and Payne each scored. The return game will be played in Campbellford in the near future. The line-ups were as follows:

Campbelford—Goal, Arthur; right defence, Lambert; left defence, Wilks; centre; Pettifer; right wing, Runions; left wing, Cubitt; subs., McArthur, Arkonse, and Smith.

Lakefield — Goal, Loyst; right defence, V. Payne; left defence Blewett; centre, Lennox; right wing, Chappell; left wing, Hill; subs., Hamblin, Morin, and Hunter.

Grove vs. Pirates.

The game was called at 3.30, and was a fine exhibition of junior hockey. Louis Sabatino handled the bell, and a large crowd of spectators applauded what proved to be a very close game, as after three hectic periods the score was 3-3, the Grove winning their goals in the last period. The Grove were in good form and Disney, their splendid goalie, saved the day over and over again, as his citadel was the target for some excellent shooting on the part of the visitors. Ball, who was the guardian of the nets for the visitors, was on the job every minute, and apparently could not be caught off his guard. McCulloch and Ellison played stellar roles in the visitors' team, while Macrae, Elmsley and Wright were most noticeable among the boys in red and green.

The ice was in prime condition and the game never flagged, the speed was fast, and the combination good with snappy checking on both sides. The only goal scored in the first period was scored by McCulloch for the visitors; he also netted the only counter of the second. Elmsley got away in the third and started the Grove score sheet. Bailey scored for the visitors their last counter of the game. Macrae returned the call by rushing in and popping one past Ball. Elmsley made the score a tie shortly before the bell rang. The line-ups were as follows:

Grove — Goal, Disley; right defence, Wright; left defence, Carson i; centre, Elmsley; right wing, Macrae; left wing, Stuart; subs., Carson ii, Beardmore and Bagg.

Pirates — Goal, B. Ball; right defence, B. Bailey; left defence, O. McCulloch; centre, J. Bailey; right wing, R. Ellison; left wing, O Whatman.

To-night's Schedule.

(By the Canadian Press.)

Punch On Nose Ends In Hockey Donnybrook

IROQUOIS, Ont., Feb. 17 (CP) When Penny, Morrisburg defenceman, brought his stick down on Robinson's nose in a St. Lawrence league hockey game here last night, breaking the Iroquois player's proboscis, he started something. Before the referee had sounded the first note on his whistle the ice was swarming with with rival supporters each of whom picked his man and staged a fistfight all his own. Players and spectators wrestled over the ice in a real old-time hockey Donnybrook and it was some time before Provincial and local police cleared the ice.

Fortunately only 20 seconds of playing time remained. Much more than that was taken up with the fighting so the referee called off the hockey part of the entertainment. Morrisburg won 1-0.

CONACHER IS RETURNING TO HIS OLD FORM

Absence of Johnny Gallagher on Munro Defence May Not Be Missed This Evening.

MUROMEN MEET HABITANTS.

Third Place Contenders Face Hard Opponents in To-night's N.H.L. Battles.

TORONTO, Ont., February 17 (By George Maguire, Canadian Press Sports Writer). — With their backs to the wall and the possibility of landing a play-off berth slipping from their grasp, Montreal Maroons hurl themselves against their bitter intra-city rivals, Les Canadiens, the Canadian group leaders, in a frantic effort to stay in the championship race at the Forum to-night.

This is the only one of four scheduled National Hockey League figures to be contested on Canadian terrain, but it stands out as the headliner.

The teams have met on four previous occasions during the current year and the results indicate the erratic playing of the Maroons this season. The Flying Frenchmen won the first clash, 7 to 1, but were held to a one-all stalemate in the second. They won the third by the decisive count of 4 to 1, but once again the Maroons came back to battle them to a 4-all tie in the fourth encounter.

Maroons Need Win.

Johnny Gallagher, clever recruit defence player, will not be available to the Maroons to-night, owing to an injured hand. Big Lionel Conacher, however, indicated in the game against Boston that he is returning to his old form and perhaps Gallagher will not be missed. Trailing New York Americans by one point in their private feud for third place, the Munromen need victory in the worst way, although their rival Gothamites may find the going equally difficult against Boston Bruins.

The Amberks have beaten the Bostonians two out of three games this season by one goal margins, and always have taken keen delight in humbling Art Ross' haughty leaders. The Bruins won the first tilt of the season by the lone goal of an exciting match, while the Americans won the next two games at New York by 2 to 1 counts, and may take it three in a row.

New York Rangers, holders of third place in the United States section, entertain Ottawa Senators in the only International tussle. The Blue Shirts have beaten the luckless Ottawans twice before and hope to take advantage of this encounter by consolidating their hold on the third rung which has been a matter of much dispute between them and Detroit Falcons, who are two points in the rear.

The Detroiters are at home to the lowly Philadelphia Quakers in the fourth engagements, and will be a much surprised team if they fail to chalk up a brace of valuable points attained through victory. The Falcons have trounced the Quakers four times this season and another win, coupled with a defeat of Rangers, will again deadlock the third perch occupancy.

COGS MEET C.G.E. ON WEDNESDAY

Norwood Combines Will Journey to Lakefield to Play Game.

EIGHT MORE GAMES.

Cogs and C.G.E. Toolroom go into action at Brock street rink tomorrow night in a contest that means much to both teams and is of prime importance to the toolmakers in the race for the East Peterborough League championship. The game will start at 8.15 and if ice conditions are favorable the fans will also see a pair of fast junior teams in action as a curtain raiser. Both teams will send their strongest line-ups into the game and the fans should see a mighty interesting contest.

Norwood At Lakefield

Norwood Combines' gallant bid for a berth in the playoffs has added a lot of interest to the race and a packed rink will witness the contest in Lakefield on Wednesday night.

Eight More Games

There is bound to be a shakeup before long. Lakefield and Norwood have a home-and-home series and both teams are scheduled for another appearance at the local rink, Lakefield playing C.G.E. and Norwood the Cogs. C.G.E. have another game in Lakefield and the two Peterborough teams meet three times. The complete standing with games won, lost and tied, with points gained, and games still to be played follows:

	W.	L	T	Pts.	T.P.
Lakefield	4	1	3	11	4
Cogs	3	3	2	8	4
Norwood	3	5	1	7	3
C.G.E.	2	3	2	6	5

TORONTO DUKES MEET COLBORNE

Draw Abreast of Hamilton and Ports By Defeating University of Toronto 5-2.

CONTINUE NEXT WEEK.

TORONTO, Ont., Feb. 17.—(CP)—With the preliminary grind practically over, representatives from the four clubs qualifying for the Ontario Hockey Association senior "A" play-offs, met here last night and drew for opponents.

Toronto Nationals, who have to meet Kitchener Greenshirts and defeat them at Arena Gardens tonight to create a four-cornered tie will meet Hamilton Tigers if they down Kitchener. The first game will be played here on Friday with the return at Hamilton the following Monday or Tuesday.

Toronto Marlboros, who drew abreast of Hamilton and Port Colborne last night by beating University of Toronto, 5 to 2, will clash with the Ports, on the latter's ice, Friday with the return at the Arena here the following Tuesday.
